SLUMP VANCOUVER ISLAND COAL BUSINESS

FISHING BOAT ANNA J. BATTERED BY SEAS AND MAN SWEEP OVERBOARD

Vancouver Island Coal Districts Are Suffering from Lack of Demand

Number of men let out yesterday at Extension Mines, near Ladysmith, and Comox is suffering badly from unemployment

LADYSMITH, March 16.—The coal mining industry on Vancouver Island is in a bad way, the demand for export purposes having fallen off to such an extent that the mines are not working even to half capacity.

Yesterday the Extension Mines here suspended 125 miners. At the Comox Mines only about half as many men as formerly are working and some of them only on part time. Nantico also is hit badly.

The falling off in demand is partly caused by the utilization of oil fuel in place of coal both by steamships and on sections of the railways. Motor power and the development of hydro-electric is also having its effect on the coal market.

Recently the Blue Funnel line of steamships, that formerly bunkered at Union Bay from Comox coal, changed its bunkering location to Seattle in order to avoid the long run to Union Bay during which much valuable time was lost. This was a serious loss to the mines at Cumberland.

The duty on fuel oil was imposed very largely for the purpose of fostering the coal industry and recently when it was proposed to change the G.G.M.M. steamships from coal to oil burners, the move was stopped by pressure from the coal districts of B.C. where it was felt that this would be another straw added to the load that seemed likely to break the camel's back.

Replying to Mr. Meighen's request for a statement of the government policy in regard to the treaty, the Premier said it would be better not to discuss it while the League of Nations was meeting at Geneva.

VESSELS SOLD AT LOW PRICES

Immense Loss on Ships Built During War Days for Government Marine

OTTAWA, March 16.—Fifteen vessels of the Canadian Government Merchant Marine have been sold since 1922, it was revealed in Parliament last night. Eleven of the vessels cost originally \$8,350,000 and were disposed of for \$600,000.

The Canadian Miner, which cost \$583,000 was sold for \$20,000.

COAL STAKED PORT SIMPSON

Indians at Village Think They Have Valuable Deposit on Reserve

Word has been received from Port Simpson that the natives there have staked the whole village and the mission property for coal. For years it has been thought that coal would be found beneath the reserve, certain outcroppings giving a good indication of the possibilities. On former occasions the property has been staked. Just now the fever is on them again and the whole reserve is parcelled out into tentative coal claims.

UNUSUAL SNOW FORMATIONS on the Great Divide on the summit of the Canadian Rockies, 40 miles west of Banff, near Field, B.C. They were caused by the mild temperature, the warm winds from the west meeting the colder ones from the east and producing the hoar frost and the formations.

SOCIAL CLUB LICENSE GOES

Tourist Incorporation is Cancelled Following Reports of Irregularities

FOUR BEER LICENSES

Warning That Other Cancellations Will Follow If Not Conducted Well

VICTORIA, March 16.—Social clubs as well as beer parlors in British Columbia will have to be careful about their conduct in future. Cancellation of the Tourist Club of Prince George is announced, thus putting it out of business. The club did not have a beer license but irregularities in its operation were alleged.

Cancellation of this incorporation was taken as a warning to all clubs throughout the province to watch their step even if they do not hold beer licenses. Action against the club followed suspension of four Vancouver beer licenses and the warning of Liquor Commissioner Hugh Davidson was given that similar steps would be taken in all cases where licensees failed to live up to the beer regulations.

FIFTY PEOPLE LOST LIVES EQUADOR FLOODS

GUAYAQUIL, Ecuador, March 16.—Approximately fifty people lost their lives in floods which followed torrential rains in Oro province. Three villages were reported in danger when the Kuhone River overflowed its banks. Property damage is estimated at \$2,000,000.

TWO MARRIAGES FOUR YEARS

BOISE, Idaho, March 16.—Owyhee county with an area of 5152 square miles and a population of 5,000 has had only two marriages in the past four years.

Jimmie Leighton, five year old son of Mr. and Mrs. Robert Leighton, sustained a broken ankle about noon yesterday when he was knocked down at the corner of Fulton Street and Seventh Avenue by the Canadian Express truck driven by Louis Astoria. The youngster ran out from behind another car, giving the driver no chance to avoid striking him.

CHARGES MADE TAKING FUNDS

Reeve and Officials of Saskatchewan Municipality are Committed for Trial

YORKTON, Sask., Mar. 16.—A former secretary, the present and former reeves, and the present four members of the council of Sliding Hill municipality were committed for trial on a total of 181 charges of misappropriation of municipal funds.

The charges have provided the greatest sensation in the history of the municipality. The accused are B. W. Sawiak, John Kyriak, Mike Orlensky, S. E. Kane and John Shovik.

STANLEY JOHNSON DIES.

VANCOUVER, Mar. 16.—Stanley Mainwaring Johnson, 46 years of age, brother of Archie Mainwaring Johnson, former deputy attorney general, is dead in Montreal.

New Sawmill at Seal Cove Will Be Ready to Operate for Own Construction Supply on April 1

The new sawmill of the Seal Cove Lumber Co. at Seal Cove is rapidly taking shape. Some of the machinery is already set up, including saw, carriage track, log haul-up and motors. The city will make power connection to the plant this week. By April 1, cutting of lumber for further construction purposes at the mill will commence and, by April 15, it is expected the plant will be producing for the market. The shingle manufacturing machinery, already on the ground, but not yet set up, will be running in May. Though the plant will be operating, construction work will be proceeding pretty well all summer.

G. P. Rill, manager of the mill, reports that logging contracts have been let for the season and there are already orders on hand for lumber to be produced by the mill. Starting on a comparatively small scale, it is Mr. Rill's intention to specialize production in such a manner that there will be a market for everything produced. Thus it is planned to avoid piling up lumber in the yards, a problem that has always been vexatious to operators in this district. Halibut boxes will be included in the initial output of the mill.

CANADIAN SCHOONER SOLD CATCH SEATTLE

SEATTLE, March 16.—With the distinction of being the first Canadian fishing vessel to arrive in Seattle in two years, the schooner Manhattan No. 1 arrived today from the banks off Triangle Island and sold her catch locally at the halibut exchange.

The United States auxiliary schooner Boxer, which was placed on the pontoons at the dry dock yesterday for examination, will undergo repairs to stem and keel and will probably remain here for several days before proceeding on her voyage to Seward.

The oolichan run is on at Naas River and sixty of the Port Simpson Indians have gone there to secure the annual supply of fish and oolichan grease. They make their headquarters at Red Bluff a short distance down the river from Fishery Bay where the Naas River Indians do their fishing.

Anna J. Was Buffeted by Storms and Driven Ashore and One of Men Washed Off but Recovered

GORDOVA, March 16.—James Mansfield, a seaman, was washed into the sea and struggled with the storm-beaten icy waters for an hour before he was rescued, when the halibut schooner Anna J. of Ketchikan arrived here Monday. She encountered a storm off the Alaskan coast on March 10, which stripped her of masts and gear. She rode before an eighty mile gale and drifted for 53 hours before she was beached on Cape Accident in the Gulf of Alaska. The vessel was swamped, both sides of the hull having been cracked. She was accompanied here by the schooner Superior, which found her while riding out the storm in a sheltered position. The vessel had six men aboard.

ESTIMATES FOR COMING YEAR

Reduction in Loss on Railway and Governmental Service is Shown

OTTAWA, March 16.—Finance Minister Robb in the House of Commons yesterday tabled estimates for the next fiscal year amounting to \$445,871,351 for governmental service, a decrease of \$5,652,672 over last year. Canadian National Railway estimates amounted to \$31,000,000, a decrease of \$29,000,000. The operating loss on the Government Merchant Marine amounting to \$1,440,880 was sustained in 1924. This covered the operations of 44 vessels.

HALIBUT PRICES KEEPING HIGH

Sales of halibut on the fish exchange this morning showed no sign of slumping. American fish brought from 15.30 to 16.10 while the one Canadian boat got 14.70. All received 6¢ for second class except the Wabash that was paid 8¢. The arrivals were:

American

Brisk 40,000 to Booth Fisheries.

Arrow 19,000 to Allin Fisheries.

Marmot 28,000 to Pacific Fisheries.

Thor, 34,000 to Cold Storage.

Wabash, 5,000 to Cold Storage.

Canadian

Toodle 5,500 to Cold Storage.

REGINA WILL CONTEST CUP

Seals Vancouver Towers in Both Games of the Two Game Series

REGINA, March 16.—The Towers hockey team of Vancouver were defeated by the Regina Vics in the second game of the Allan Cup elimination by a score of 3 to 1, the Vics winning the round, the total score for the series being 8 to 3.

BRITAIN RECOVERING POST WAR SLUMP SAYS AMERICAN AMBASSADOR

NEW YORK, March 16.—Alan B. Houghton, American ambassador to Great Britain who arrived here yesterday declared that Britain was recovering from the post war slump and within 20 years would be more prosperous than she had ever been in the past.

MOTOR VEHICLE REGULATIONS

Police Instructed to Enforce Provisions of Highway Act and Order in Council

The Police Commission has given instructions to enforce the provisions of the Highway Act and also the regulations made by order in council for the conduct of motor vehicles as follows:

Highway Act.

18. In case a person travelling or being upon a highway in charge of a vehicle drawn by one or more horses or other animals, or propelled by some other means, meets another vehicle drawn or propelled as aforesaid, he shall seasonably turn out to the right from the centre of the travelled portion of the highway, allowing to the vehicle so met one-half of the travelled portion of the highway.

19. The person in charge of a vehicle so drawn or propelled upon a highway shall have the right of way over the person in charge of another vehicle approaching from the left upon an intersecting highway; but the provisions of this section shall not excuse any person from the exercise of proper care at all times.

20. In case a person travelling or being upon a highway in charge of a vehicle so drawn or propelled, or on horseback, is overtaken by any vehicle or horseman travelling at a greater speed, the person so overtaken shall as soon as practicable turn out to the right and allow the overtaking vehicle or horseman to pass.

21. In case a person travelling upon a highway in charge of a vehicle or upon horseback overtakes any vehicle or horseman, it shall be the duty of such person to turn out to the left, and if he finds it impracticable to turn out as aforesaid, he shall so regulate the speed of his vehicle or horse as to allow the overtaken vehicle or horseman to precede him to some point on the highway where such turning out to the left and a passing can safely be effected.

22. In the case of one vehicle being met or overtaken by another, if by reason of the extreme weight of the load or either of the vehicles so meeting or on the vehicle so overtaken the driver finds it impracticable to turn out as aforesaid, he shall immediately stop, and if necessary, for the safety of the other vehicle, and if required so to do, he shall assist the person in charge thereof to pass without damage.

Motor Vehicle Act

Every motor-vehicle other than motor-cycle shall be equipped with two head-lights of equal candle-power, one mounted in a conspicuous position on each side of the front of the motor-vehicle, and every motor-cycle shall be equipped with one head-light mounted in a conspicuous position on the front thereof.

During the period from one-half hour after sunset to one-half hour before sunrise such head-lights shall be kept lighted whenever the motor-vehicle is in motion on any highway. Every headlight equipped with a reflector shall be so constructed, equipped, or mounted that no portion of the beam of light therefrom when projected seventy-five feet or more ahead of the head light rises above a plane forty-two inches higher than and parallel with the plane on which the motor-vehicle stands.

Every motor-vehicle other than a motor-cycle and every trailer shall be equipped with a lamp mounted on the back thereof capable of displaying a red light visible in the rear of the motor-vehicle or trailer, and the same lamp or an additional lamp capable of conspicuously illuminating with white light the rear number plate on the motor-vehicle or trailer so as to render the numerals thereon visible for a distance of at least fifty feet in the rear of the motor-vehicle or trailer, and such lamp or lamps shall be kept lighted during the period from one-half hour after sunset to one-half hour before sunrise.

No red light shall be carried or displayed upon any motor-vehicle or upon any trailer, implement, or vehicle drawn by a motor-vehicle in such a manner as to be visible in the direction in which the motor-vehicle is

proceeding.

Every motor-vehicle propelled by an internal-combustion engine shall be equipped with an exhaust muffler, and the muffler shall not be cut out or disconnected while the motor-vehicle is in operation within the limits of any city municipality incorporated under any general or special Act of the Legislature.

Before turning, stopping, or changing the course on the highway of any vehicle, and before turning such vehicle when starting the same, it shall be the duty of the operator thereof to first ascertain whether there is sufficient space for such movement to be made in safety, and if the operation of other vehicles may reasonably be affected by such turning, stopping, or changing of course, the operator shall give a signal plainly visible to the operators of other vehicles of his intention to turn, stop, or change his course. Such signal shall be given either by the use of the hand and arm or by the use of an approved mechanical or electrical device.

THE MAN IN THE MOON says:

CIDER is like people. When it appears it is very sweet. Then it has its hilarious period and later it sours and is considered virtuous.

DOBBIN had his faults but the only extra expense was the purchase of an occasional curry comb.

IN every country the chief recreation seems to be scaling the plum tree.

WHEN a person is religious and has a conscience he calls it speculation instead of gambling.

ISN'T it about time somebody brought in a spring poem to help fill the editor's wastepaper basket. That's where I get the advantage over the ordinary contrib. I can sneak my verses in between two jokes and nobody notices them. I wrote a nifty one Saturday.

ONCE more 'tis spring and I Will lie me forth to wander Where woods are thick and mu- keg deep And not a cent to squander.

THERE once was a lad in the spring

Saw a birdie about to take wing If you go with that chicken You'll sure get a bekin'

Said his dad as he hit him a bing.

Ten Years Ago in Prince Rupert

March 16, 1916.

P. E. Goddenhall of this city is manager of the Brazier, official publication of the Sixteenth Canadian Scottish overseas regiment.

The Prince Rupert Rowing & Yacht Club has elected officers as follows: Commodore, J. M. Clancy; rear commodore, H. S. Wallace; secretary, C. Boldrick; assistant secretary, Mr. Showler; captain, F. H. Mobley; executive W. J. Angle, Leo Ives and A. T. Parkin.

B. B. Kellher, chief engineer of the Grand Trunk Pacific Railway, and Mrs. Kellher, arrived from the south on this morning boat and proceeded East by train.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. L. M. Parks, Coneston, Ont., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Mrs. Preston of Prince Rupert who has been visiting her father, George Edgar at Klemtu, has been taken to the hospital at Bella Bella suffering from pneumonia. The last word from there was that she was improving.

A letter from the city clergymen giving notice of the intention to build under the local improvement plan a 5 foot 4 inch sidewalk on the south side of Fourth Avenue, on which a number of hospital lots front, was received at the meeting of the hospital board last night and ordered filed.

The regular monthly meeting of the hospital board was held in the hospital class room last night. Those present were President S. K. Campbell, in the chair, Vice-President J. H. Thompson, Directors Leo Waugh, C. H. Elkins, Ald. W. M. Brown, S. D. Johnston, G. P. Tinker, Dr. J. P. Gade, Managing Secretary H. W. Birch and Miss Jean Harrison, R.N., the lady superintendent.

The registrar of joint stock companies was in communication with the hospital board last night asking that amendment be made to the Association bylaws changing the classification of the local hospital from "private" to "general." The secretary of the board was requested to communicate with the registrar of companies to ascertain if the matter was of such urgency that a general meeting of the Association to make the change would be necessary before the regular annual meeting next year.

The hospital board last night, on recommendation of the house committee, decided to give an increase of salary of \$10 per month to Robert Bridges, janitor, who has been receiving \$70. Mr. Bridges is engaged in a good deal of repair work, etc., about the hospital in addition to his regular duties. The effect of this increase on the wages of the members of the nursing staff was referred to by Dr. J. P. Gade and Miss Harrison, the lady superintendent, the latter expressing the view that nurses' salaries here were not adequate.

SANTAL CAPSULES MIDY

Eczema Was So Bad Could Hardly Sleep

Mrs. G. Jones, Kitscoty, Alta., writes:—"I had eczema on my left hand, and my first finger was so swollen, sore and itchy I could hardly sleep at night.

I got a prescription from my doctor, but it did me no good, so I finally began to take

Burdock BLOOD BITTERS.

After I had taken three bottles I was completely relieved of my eczema, and would advise any one suffering from any disease of the blood to use B.B.B., as it's worth its price many times over."

This valuable preparation has been on the market for the past 47 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. G. Hamilton sails by the Cardena this afternoon on his return to Vancouver.

Charles Hill was fined \$25 in the city police court this morning for drunkenness.

Prof. H. Aubrey Pryce sails this evening aboard the steamer Cardena for Vancouver.

Mrs. H. L. Alexander, 1805 Graham Avenue, will be at home on Thursday, March 18 from 3 to 6.

Just arrived from Vancouver this morning, 18 silk dresses, all sizes. Special today and tomorrow, \$12.50. Mrs. W. L. Wilson, Third Avenue.

Patrons of St. Patrick's Day Concert will not be disappointed tomorrow night at the Westholme Theatre. Some surprises in store for them from local talent. Concert opens at 8:30 prompt.

Charles Adam arrived in the city on the Cardena this morning from Stewart to attend a convention of Ford dealers which will be held here this week. Mr. Adam expects to return north Sunday night.

The secretary of the hospital board reported at last night's meeting two donations—\$10 from Mr. Montgomery of Lekkerop and another of \$10 from a person not desirous of giving his name. The donors were thanked by the board.

Hecate Straits Towing Co.'s tug Lorne, Capt. Lewis, was in port this morning from 8 to 10 o'clock for fuel and provisions. South bound from Logan Inlet to Powell River with two Davis rafts containing two million feet of timber, the Lorne left her tugs at Captain's Cove while coming in here.

As announced yesterday the double weekly service of C.N.R. coast steamers with the vessels Prince George and Prince Charles will commence next week. Sailings for the south will be on Friday and Monday mornings until about the second week in May when they will be changed to Thursday and Sunday evenings with the mid-week steamer making the trip to Anwoy while the week-end boat will go to Stewart.

W. N. Chater, after having spent the past year in this city as representative of C. D. Howe & Co., designing and supervising engineers of the elevator construction, will sail this afternoon aboard the Cardena for Vancouver where he expects to remain for some time. The big elevator job here is now finished except for a little painting. A. Tinker, who has been here in the office of Carter-Halls-Aldinger Co., Ltd., during the construction, will also sail on the Cardena today for Vancouver.

There were 1518 hospital days during the month of February, the actual cost per day being \$3.52 while, taking into consideration an expenditure of \$615.56 authorized by last year's board, the net cost would have been \$3.11 it was reported to the hospital board last night by the finance committee. Accounts for the month totalled \$5,137.72 were passed for payment. G. P. Tinker, chairman of the finance committee, informed the board that he had seen Ald. G. B. Casey, chairman of the city council finance committee, and that a conference between the two committees on the year's finances would be held in the near future.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER, 1924.

Has produced Minerals as follows:—Placer Gold, \$77,382,953; Lode Gold, \$118,473,190; Silver, \$88,824,579; Lead, \$70,548,578; Copper, \$187,489,378; Zinc, \$32,171,497; Miscellaneous Minerals, \$1,431,349; Coal and Coke, \$260,880,048; Building Stone, Brick, Cement, etc., \$42,225,814; making its Mineral Production to the end of 1924 show an

Aggregate Value of \$859,427,386
Production for Year Ending Dec. 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

BRINGING UP FATHER

PROTECTION OF THE HOSPITAL

CHANGES IN NURSING STAFF AT HOSPITAL

Improvements to be Made There

View to Making it Safe Against Fire

On recommendation of committees, considerable improvements and repairs at the hospital were passed upon by the board at its regular monthly meeting last night.

The recommendation of the house committee that the roof and gutter pipes be repaired was accepted and it was also decided to call for tenders for the painting of the building, the money for the work having been appropriated last year. Separate tenders will be called for material and labor.

With reference to improvements that the deputy fire marshal had informed the board should be made in the interests of better fire protection, the executive committee recommended that exit lights be reinstalled and rearranged at a cost of between \$125 and \$150, that 2½ gallon fire extinguishers be placed on both floors and that new mattresses be equipped with straps so that, in case of fire, patients might be carried out on them. Smaller matters in this connection that were being taken care of, the committee reported, included the placing of a fire extinguisher in the x-ray room, the installation of a wall plug for the electric iron, alteration of drop cords, placing of a metal receptacle for oil and rags, the placing of a spring on the furnace room door and the putting in of a metal cabinet for storage of x-ray films.

The committee reported that the raising of the kitchen range was not deemed necessary nor were improvements in the fire alarm system deemed essential. Extension of the vertical shaft to roof was deemed not feasible and the placing of a metal balcony and fire escapes on the front of the building would be too costly.

DAVID THOMSON FAIR SECRETARY

Received Appointment Last Night May Queen Carnival to be Held

SHRINERS USE HALL

David Thomson was appointed managing secretary of the Fair Board at the meeting last evening of the directors of the Northern B.C. Agricultural & Industrial Association.

The board decided to set the date of its hayseed dance forward to April 23 and also to hold a May Queen carnival on May 24. Both efforts will be for the purpose of raising funds for this year's activities.

It was decided to let the use of the hall on Friday and Saturday nights of this week to the Native Sons of Canada for the basketball games that will be played between champion ladies' teams of Anyox and this city. The Fair Board will receive 60 per cent of the net proceeds and the promoters of the games, 40 per cent.

It was also decided to lend the hall for a Shrine convention that will be held in Prince Rupert during the month of May. The request was placed before the board in a communication from A. E. Bazett-Jones.

Resignations and New Appoint- ments Reported to Board by Lady Superintendent

In her report for the month of February presented to the hospital board last night, Miss Jean Harrison, R.N., lady superintendent, stated that it had been a fairly active month with 1518 hospital days. There had been a good deal of illness among the pupils/nurses of an unserious nature. Miss M. Hebdon and Miss L. Morrison had resigned from the nursing staff and left the city, their places having been taken by Miss J. Lee and Miss R. McNabb. Miss M. Taylor and Miss E. Weller had resigned and would be leaving at the end of next week. Miss Harrison also stated that Miss H. Solloway, operating room supervisor, would be leaving in about two weeks' time.

On behalf of the board, President S. K. Campbell expressed regret at the departure of these nurses, some of whom had given the hospital long and faithful service.

The social side of the work carried on through the generosity of the people of Prince Rupert showed progress. Donations made include 500 bundles of clothing and shoes, 350 meals, provisions, 73 beds, five fares advanced, two returns, 2,000 copies of the "War Cry" distributed, missing people located and inquiries answered, writing paper, stamps and other articles provided. About 1600 hours were spent by officers in visitation and social work.

The work of Lieut. A. Kenny came in for special mention. The young people's work had been greatly helped through the efforts of that officer. Thanks were extended to all who had in any way forwarded the cause.

President—Titus Campbell.

First Vice-president—James Bolton.

Second Vice-president—Herbert Spalding.

Secretary—James Spalding.

Assistant secretary—Miss Maggie Campbell.

Treasurer—Miss Elizabeth Bolton.

Musical leaders—Howard Starr, James Spalding and Willie Spalding.

Those who have joined up to date number 23. Since the beginning of New Year these young people have rendered excellent service in the musical part of the Sunday services.

A very successful and entertaining social was held last night at the Rupert East United Church. A vocal solo was given by Mrs. Aly Hunter and an instrumental duet by the Bussanich Bros. Several contests were held, the winners being as follows:

Threading the needle—Ladies, Miss M. Casey, Miss M. Walters, Men, H. Lloyd, G. Hills.

Nail driving contest—Mrs. Floyd, Mrs. Dingwell.

Marked chair—Mrs. Wilson, Mrs. Robinson.

Those in charge of the various committees were:

General convener—Mrs. Robinson.

Advertising—Mrs. Hogan.

Entertainment—Mrs. Malcolm Lamb, Mrs. Squires.

Program—Mrs. Meth Davies, Mrs. E. Vickers.

Refreshments—Mrs. Beale, Mrs. Wpod.

The program concluded with community singing under the able leadership of Rev. Evan Baker. Mrs. R. Wilson was accompanist for the evening.

BANK REPORT
IS FAVORABLETOOK CHANCES
PREMIER MINE

Monthly Letter of Royal Tells of Increasing Activity all Along Line

R. K. Neill Tells How he Gambled With Fate and Won in Developing Property

The generally favorable annual reports issued by the leading Canadian Corporations, combined with the excellent position of all statistical indices and a general increase in the volume of forward buying indicate a more encouraging outlook for Canadian business in 1926 than at any time in the past five years. The annual statements recently published by the leading industries and public utilities, with few exceptions, show an improvement in earnings over 1924.

Building Active

The volume of construction contracts awarded in January signify that business men are taking advantage of the saving in cost of material and labor which may be realized during the winter months. Building awards for the month amounted to \$12,669,000, the highest on record since 1913 with the exception of 1920 when the price level was abnormally high. Business and industrial building are on an appreciably higher level throughout the country, the former showing increases of 272 per cent and 240 per cent over January, 1925 and 1924 respectively. A still greater development is registered in industrial building amounting to 760 per cent over 1925 and 1900 per cent over 1924. As a result of this activity the employment index for the building trade stood at the highest point yet recorded for the month. This trend in favor of winter building cold fuel.

"The Kendal mine in Montana was small, but yielded a lot of money. Look the prospects carefully over. That is one of the secrets of success in mining." Pretty Good Mine

"A pretty good little mine is the Premier (the company has disbursed eight million in dividends). It was there for anyone to take. I went there to look at another property when I heard of it. I proceeded carefully in the first examination. After I spent five days looking over the Premier. It was in a bad situation. It was 14 miles from transportation. I was told that the snow was 54 feet deep in the fall. I commenced to get

"The price of the Premier seemed reasonable enough—\$150,000. I'm a kind of a Jew. I jewed them down to \$100,000 and got six years in which to pay it. I figured I could find out with \$5,000 if there was a mine there. I spent \$4,000 and blocked out \$3,000,000. I felt encouraged to build that 14 miles of road. It took three years to do it. The seasons are short. Then it was a horse trail, wide enough to admit the passage of a 20 inch sled and east \$7,000. But before building the trail I had \$7,000 worth of ore sacked to pay for it.

Plants are Busy

Reports of a larger volume of forward buying throughout the country are substantiated by the manufacturing employment index which is much higher than for the same date since 1921. Textile plants, with the exception of garments and personal furnishings, are working at increased capacity, and the iron, steel and non-ferrous metals products industries are well employed. An increase in the car loadings of merchandise L.C.L. and miscellaneous freight indicate that the general distribution of goods continues on a broad scale.

Fewer Failures

Further confidence in the general business situation is reflected in the security market, the index of which has established a new high record. Commercial failures continue to decline both in number and volume of liabilities. The seasonal downturn in general employment was the smallest yet registered for January, the index standing at 89.6 the highest for the month since the record was begun in 1920. Newsprint and pig iron production both show appreciable increases over the corresponding month of last year, the shipments of the former being 14,000 tons larger than last year and double those of 1921.

"I opened the mine by watching the dollars. I cooked, washed dishes, sharpened steel and kept my own books, when there was no one else to do these things. Bad I not done these things I could have broken my associates.

Arm Chair Mining

"A fault of mining is that some of the men in it do not know how to spend money. Ninety percent of the money is wasted. Ten percent goes into the ground. Some men have tried to open a mine by living in town and sending letters and telegrams. These men want other men to work for small wages and do the highest grade of work. The successful mine manager is the first on the job in the morning and the last at night.

"The Premier mine was lost to earlier owners by men who managed by writing letters. If they had done what I did I would not have got the mine."

ARCTIC TRIP TAKING SHAPE

Donald MacMillan to go in Search of Norse Relics in Far North

WISCASSET, Me., March 16.—Plans are shaping for Commander Donald MacMillan's cruise to the north in search of Norsemen relics next summer, it is learned here. A close friend of the explorer said that an auxiliary schooner is now building at Bath and that three of MacMillan's associates on previous voyages will go with him.

Rowe B. Melcalf of Providence is having the auxiliary schooner built. She will measure 80 feet and will be similar in construction to the Bowdoin, which bore MacMillan on last year's Arctic expedition and on other voyages to the northward.

The cruise will start in June and will last probably three months. Greenland, Labrador, and Iceland will be visited. Eskimos have told MacMillan that stone buildings more than 100 years old are to be found, and he hopes to locate and investigate them.

Those now slated to accompany MacMillan include Ralph Robinson of Merrimac, Mass., the explorer's chief aide for his last three voyages; John M. Jaynes of Somerville, Mass., who has been with MacMillan before as engineer; and Dr. Walker Kellogg of the University of Michigan, who went North with MacMillan last year. Dr. Kellogg is a noted scientist and an expert in the study of fish.

C. S. J. remarks: "A man never really knows whether he married a peach or a lemon until he happens to open a family jar."

CONVENTION TO BE HELD HERE DURING WEEK OF AUGUST 28

B.C. Hospital Association Will Confer for Three Days on Matters Pertaining to the Work

The convention of the British Columbia Hospitals' Association will be held in this city during the week ending August 28. It was announced in a letter received by the local board last night from the secretary of the Association. Three days will be occupied by the convention and the letter left the exact date to be settled upon at the convenience of the local authorities with due reference to transportation schedules prevailing at that time. It was requested that the local committee communicate direct with Dr. F. C. Bell, medical superintendent of the Vancouver General Hospital, who will be chairman of the convention program committee. The local committee to make arrangements for the convention consists of G. P. Tinker, J. H. Thompson, Ald. M. M. Stephens, Miss Jean Harrison, R.N., and the representative of the Ladies' Auxiliary.

HOSPITAL DAY TO BE OBSERVED HERE ON MAY THIRTEENTH

A letter from Dr. H. C. Wrinch of Hazelton who, with H. W. Birch of this city, constitute a district committee of the National Hospital Association to make arrangements for the observance of the National Hospital Day, had a letter before the local board last night making inquiries as to the program to be carried out here. The communication was referred to the local Hospital Day committee.

The local committee reported to the board that it was proposed to observe the day here on May 13. The usual program will be carried out in addition to which the clergy will be asked to make reference to the matter in the pulpits, there will be addresses by the doctors in the public schools and by the lady superintendent in the High School, merchants will be given posters to display and will be asked to decorate their premises appropriately, the services of the Boys' Band will be obtained, the theatre will be asked to display slides, and the co-operation of the press will be sought.

Frank Fitch returned on the Gardens this morning from Anyox where he has been relieving recently as customs officer during the absence south of Jack Wynne on a holiday trip.

HAZELTON LAND DISTRICT.

District of Coast Range 5.

TAKE NOTICE that, sixty days after date L. T. J. Beatty, intends to apply to the Minister of Lands for a license to prospect for coal and petroleum over 640 acres of land, as follows:—Commencing at a post planted two miles west of the south end of Lot 866, Range 5, and marked T.J.B.'s north east corner, thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains, to point of commencement.

Located January 8th, 1926.

WATER NOTICE.

Diversion and Use

TAKE NOTICE that North Pacific Forests and Mines Ltd., whose address is Pemberton Building, Victoria, B.C., will apply for a license to take and use 50 cubic feet per second of water out of Salt Creek, which flows southeast and drains into Kason Bay, about 4 miles west of Little Lake, Skagit River.

The water will be diverted from the stream at a point about three-quarters of a mile northwest from the southwest corner of Sec. 23, Tp. 2, and will be used for power purposes.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. opposite the Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is March 4th, 1926.

WATER NOTICE.

USE AND STORAGE

TAKE NOTICE that Los Angeles Lumber Products Company, whose address is c/o Messrs. Ladner & Cantelon, Rogers Bldg., Vancouver, B.C., also Box "C" San Pedro, California, U.S.A., will apply for a license to take and use 500 cubic feet per second of water out of the Am River, which flows southwesterly and drains into the Masset Inlet, about one half mile east of the town of Masset. The dam will be located at the outlet of Am Lake, at a point below the sand outlet to be determined after surveys are made. The capacity of the reservoir to be created is about 3,800 acre feet and it will be flooded about 3,800 acre feet of land. The water will be diverted from the stream at a point about the location of the storage dam, namely, the outlet of Am Lake, and will be used for power and industrial purposes upon the land described as Lot 1434, Queen Charlotte Islands District. This notice was posted on the ground on the 19th day of February, 1926, and notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. The date of the first publication of this notice is February 21, 1926.
