## GREAT EUROPEAN POWERS REMAIN UNITED

### THIRSTY RUSSIANS ARE HELPING TO BALANCE BOLSHEVIK BUDGET NOW

#### League of Nations Slipped on South American Banana Peel but Unity Maintained Says Canadian

Canada's representative lauds Austen Chamberlain and says vital point was carried by assembly at Geneva

LONDON, March 25.—"Going to Geneva with our hands would have been worse than useless. That was demonstrated in the case of Brazil. We slipped on the South American banana peel but unity of the great European powers was maintained and that was the most important and indeed a vital point declared Senator Raoul Dandurand of Montreal, former president of the League of Nations assembly and Canadian delegate, discussing the recent session at a dinner given in his honor last night by the Canadian Club here.

#### FREE GUILTY OF HOMICIDE

of Mussolini's Arch-enemy Given Jail Terms But Will Soon be Free

MILAN, March 25.—Amerigo C. Alghino Volpi and Almenzo Baroni were this afternoon found guilty of unintentional homicide in connection with the shooting and slaying of Premier Benito Mussolini's arch-enemy, deputy minister Matteo Matteotti, and condemned to three years and eleven months imprisonment. The defendants were acquitted of the charge of homicide.

#### WATER RIGHTS ARE CANCELLED

Powell River Power to be Opened to Anyone Wishing to Utilize it

VICTORIA, March 25.—Hon. T. A. G. Muldoon, minister of lands, announced today that the water rights on the Powell River on Vancouver Island would be available to any company prepared to invest in the power to secure electric energy, the decision having been made to place a reserve upon the river after April 1.

#### MACHINE GUNS IN POSSESSION

Had Ammunition Destined For Shipment to China

VANCOUVER, Mar. 25.—Three machine guns and ammunition, recently destined for shipment to China were estimated to have a value of \$3,000 having been found in his suit, Edward Neal was found guilty in the police court yesterday to a charge of having machine guns in his possession. Neal was sentenced to a year's imprisonment.

#### ROTARY CLUB NOMINATIONS

S. D. Johnston Re-elected Secretary by Acclamation This Afternoon

Nominations were made today at the regular luncheon of candidates for officers in the local rotary club and S. D. Johnston, who is at present secretary, was re-elected by acclamation. The election will take place one month from today. Nominations were:

For President — Cyril Orme; For Vice-President — Jack Nicholls, Walter Vance; For Treasurer — George Horie and Walter Fisher.

Executive — The defeated candidates for president and Col. McMorris, George Woodland and Wallace Orchard.

#### TRAIN OF FORD CARS ARRIVES VANCOUVER

Makes Journey Across Continent in Five and Half Days

VANCOUVER, March 25.—Fully half a mile in length, a special Canadian National train of 61 cars, carrying the largest shipment of motor cars ever borne by one train through Canada, recently arrived here from Ford, Ontario, after making the journey in five days, 10 hours and 15 minutes actual running time. This constituted a record run, the previous record having been made by a similar but somewhat smaller train which, two years ago, made the journey in a little over seven days.

#### PORT ARTHUR WIN AT HOCKEY

MONTREAL, March 25.—Port Arthur defeated Toronto University one goal to nothing in the first game of the Allan Cup hockey finals.

#### CANNED SALMON IN STATES WAS LESS LAST YEAR THAN FOR 1924

WASHINGTON, March 25.—Domestic production of canned salmon in 1925 is placed by the commerce department at 288,880,000 pounds compared with 300,174,696 pounds for the previous year. Last year's pack represented nearly three fourths of the world's production with Alaskan salmon comprising 74 per cent of the total.

#### CORNERSTONE OF CATHEDRAL

Victoria Anglicans Planning to Have it Laid by Bishop of London

VICTORIA, Mar. 25.—Thursday, September 9 is the date provisionally set for the laying of the cornerstone of the new Christ Church Cathedral, according to an announcement made by the Bishop of Columbia. On that day the Lord Bishop of London, the Right Rev. A. F. Winnington-Ingram, D.D., expects to be in Victoria and will assist in the cornerstone ceremonies.

The Bishop of Columbia has invited the Primate of the Anglican Church in Canada, the Most Rev. S. P. Matheson, Archbishop of Rupert's Island, to be present on the occasion. Invitations have also been sent to various Bishops in Canada and the United States. It is planned to hold the Provincial Synod either in Victoria or Vancouver at the same time, to enable clergy and prominent laymen from all over the Province to attend the cornerstone laying ceremonies. The membership of the Provincial Synod includes the Archbishop of New Westminster, the Bishops of Kootenay, British Columbia, and Cariboo. In addition, four clergymen and four lay delegates are appointed from the dioceses of British Columbia, New Westminster, Galedonia, Kootenay and Cariboo.

#### HAUL OF NARCOTICS FROM BIG STEAMER

Customs Officers Seized \$10,000 Worth on Empress of Asia Last Night

VANCOUVER, March 25.—Ten thousand dollars worth of narcotics were seized late Wednesday night by customs officers searching the liner Empress of Asia, in from the Orient.

#### COUNCIL OF WOMEN MEETS IN VANCOUVER

OTTAWA, March 25.—The thirty-third annual meeting of the Canadian National Council of Women will be held in Vancouver commencing June 9, the national executive decided.

#### PRINCE RUPERT IS MENTIONED

Question of Oriental Shipments Through This Port is Again Discussed

#### MATTER OF SPEED

Encouragement Needed to Make Success of Enterprise it is Stated

VANCOUVER, March 25.—The amalgamation of the big Japanese steamship lines under the control of the Nippon Yusen Kaisha, which is now in process and will be completed in a few months, brings up again the suggestion that the big Japanese line would, with a little government and railway encouragement, put on some of their fast liners to operate a service between Yokohama and New York via Prince Rupert and the Canadian National Railways.

It is pointed out here that by that route at least a day could be gained in the delivery of silk at the eastern market and possibly a day and a half if the railway line out of Prince Rupert were put in good shape. Bonded goods could be sent through from the East and this would help provide return freights on the grain route that will be shipping through the northern port soon.

The Tenyo Maru is the first ship transferred to the big company under the new arrangement and each ship as it arrives in Yokohama is transferred to the new management.

#### BOAT LOST ON AMAZON RIVER

Steamer Destroyed and Many People Lost Their Lives

RIO JANEIRO, March 25.—Latest details state that the loss of life as a result of the steamer Paes de Carvalho being destroyed 4,200 miles up the Amazon River in tropical and crocodile infested waters is from 38 to 83 persons, mostly passengers.

#### MENTION IS MADE RUPERT'S COMPANY

This City Divides With Vancouver Company of Royal Naval Volunteers

A Vancouver newspaper Monday discussing the Royal Canadian Naval Volunteer Reserve speaks of the fact that Prince Rupert was given the privilege of maintaining a depot after Victoria had failed to recruit its quota. It is pointed out that there is a full company in Winnipeg and a few other cities on the prairies have half companies.

#### ONE HALIBUT BOAT

There being no train out today, only one small Canadian fishing boat sold her catch today at the Exchange. This was the All with 6,000 pounds of halibut that sold at 15c and 10c to the Atlin Fisheries.

#### Soviet Government Doubles Output of Vodka but Still Is Unable to Meet Demand

MOSCOW, March 25.—During the past six months, the government has doubled the output of vodka but is unable to meet the demand. For the coming year 500,000,000 quarts will be produced yielding enough money to make up one-tenth of the nation's entire budget requirements.

The vodka now manufactured has a strength of 40 per cent alcohol and sells at 90c per quart. Many distilleries which were destroyed during the war and otherwise put out of business when the ban was placed on vodka are now being rehabilitated.

#### MINISTERS TO VISIT THE MINING DISTRICTS OF VANCOUVER ISLAND

Sloan and Sutherland to Investigate Unemployment at Coal Mines View to Mitigation

VICTORIA, March 25.—Hon. William Sloan, minister of mines, and Hon. W. H. Sutherland, minister of public works, will go to Nanaimo this week to investigate employment conditions at the mines where 400 men are out of employment.

The unemployment condition obtains at all the mines on Vancouver Island, the demand for coal having dropped off of late to such an extent that production has been materially decreased. The ministers will consider whether the provincial government might take any steps to mitigate the situation.

#### PRINCESS ROYAL IS COMING THIS WEEK

Steamer is Relieving the Princess Beatrice on C.P.R. Coast Service

VICTORIA, March 25.—After being laid up all winter at the Evans Coleman & Evans docks in the Inner Harbor the C.P.R. steamship Princess Royal cleared Tuesday for Vancouver to relieve the Princess Beatrice on her northern trip while the latter gets her overhaul.

The Beatrice will be hauled out and painted and her engines overhauled before she goes on her run to Prince Rupert and way ports.

#### WEATHER REPORT

Government Telegraphs 8 a.m.  
Prince Rupert: part cloudy atm. temperature 38.  
Hazelton: Clear, calm, temp. 32.  
Telegraph Creek: cloudy, calm, temp. 30.  
Smithers: clear, calm, temp. 40.  
Burns Lake: part cloudy calm, temp. 30.  
Terrace: clear, calm, temp. 35.  
Anxox: clear, calm, temp. 35.  
Stewart: cloudy, calm, temp. 38.  
Whitehorse: clear, calm, temp. 31.  
Dawson: clear, calm, temp. 5.  
Average: temp. 15 above for Yukon.

Inaugurating the spring two boat a week service of the Canadian National Coast Steamships, the steamer Prince Charles, Capt. Neil McLean, will arrive from the south at 3 o'clock Saturday afternoon. The vessel will proceed that evening for Stewart and Anxox and will sail from here for the south at 9 o'clock Monday morning.

#### POWELL RIVER IS FINANCING

Issues and Sells Four Million Dollars Serial Gold Bonds in Minneapolis

VANCOUVER, March 25.—The Sun said today in its news columns "Sale by the Powell River Pulp & Paper Company Ltd. to Minneapolis financial firms of \$4,000,000 in five per cent serial gold notes is reported in local financial circles. The purpose of the issue is to provide the money with which to make additions to the present plant and to finance the acquisition of additional property."

#### MILLION DOLLAR PLANT SINGED

Olympic Refinery Had Close Call When Adjoining Warehouse Destroyed

SEATTLE, March 25.—Fire destroyed the big abandoned warehouse last night and threatened the million dollar plant of the Olympic Refining Company where more than 250,000 barrels of crude oil and gasoline is stored.

The entire fire brigade fought the flames to prevent them reaching the plant.

#### IS ARRESTED AT VANCOUVER

Man Wanted for Real Estate Frauds in Nebraska Picked up on Street

VANCOUVER, March 25.—Wanted for embezzlement of \$35,000 on real estate deals at Broken Bow, Nebraska, Nathaniel House, 21 years of age, was arrested on the street here today by Vancouver detectives and held for the Nebraska police.

#### TEN HELD UP ONTARIO HOUSE

Kept Them Sitting all Night Over Liquor Sale Amendment

TORONTO, March 25.—After an all-night session the Brackin amendment to the budget speech favoring the sale of liquor in Ontario under a government control system was defeated this morning in the Ontario Legislature by a vote of 84 to 10.

**Use Of Closure In Parliament.**

That there is too much talking and that speeches are much too long in parliament is evident to anyone who has studied the situation ever so carefully. There should be a limit to the time one person may occupy in discussion of any subject. A person can say a lot in half an hour and probably a quarter of an hour would be sufficient for most members. Condensation in speech is an art that many politicians could practice without danger to anyone and with much profit to themselves and the country.

While it is desirable that free expression of opinion should be carefully preserved, there is a limit to the time that should be taken in doing it.

**Income Tax Is Being Discussed.**

The income tax is being discussed in Canada both at Ottawa and at the provincial capitals, there being considerable agitation going on against its imposition. Yet there is a large body of public opinion in favor of it as the most just method of raising taxes. As long as it is enforced against everyone without fear or favor, there is no objection to it. The man who has an income pays and the person who has no income does not have to pay.

The difference between the income tax and the personal property tax is so marked as to be worthy of comment and even of protest. The property tax is levied against a plant whether profit is made from its operation or not. It is also a charge on all the stock a merchant carries, thus tending to make him economize in laying up a choice of goods for the customer.

If a manufacturing plant loses twenty thousand dollars and then the government comes along and takes another thousand for property tax, the manufacturer feels sore, and with justification. If on the other hand he makes a profit of twenty thousand and he does not mind so much having to pay a thousand or even more. The personal property tax is one that should be abolished but the income tax if well enforced against everyone should be continued as part of the settled policy of the country.

**Equalizing Business Throughout The Year.**

The difficulty in Prince Rupert in the past has been that business has been good in the summer and autumn and very quiet in the winter and spring. The closed season for halibut, the lack of other varieties of fishing and the closing down of other work has usually caused a nasty gap during which businessmen find it difficult to carry on and when they lose the surplus they make in the prosperous parts of the year.

If the elevator is operated next fall, as is confidently expected it will, the gap should be bridged and there should be no dull season. Just when the fishing drops off the grain business should commence and the result should be very beneficial for the business interests of the city. It will be a welcome change.

**Is There Really A Sea Serpent?**

A great many people are sceptical as to the reality of there being such a thing as a sea serpent. Captain C. J. House, who recently was here and who told of seeing one at Wright Sound, is a man of standing and he is repeating in Vancouver what he said here. Undoubtedly the great creature was real to him. The only possible alternative is that it might have been an optical illusion. Such things have been known.

When visitors to India are shown a man who throws a rope in the air and climbs it and they see him come down one limb at a time and eventually the limbs come together and he is as if nothing happened, it is undoubtedly an optical illusion caused doubtless by hypnotism. Apparently there was no hypnotic influence in the neighborhood of Captain House, so the probability is that he really saw a sea serpent.

**If it's in the air**

Peanut Tubes will get it. They make any set better. Buy a full equipment for your present set and test them out against the best. You'll wonder why you didn't discover them before. Do it now!

Now \$3.00—formerly \$3.50

**Peanut Tubes**

**FISH TRAPS AT WALES ISLAND**

**Cause of Cannermen Taken up by Vancouver Newspaper which Explains Situation**

**REPUDIATION CHARGED**

**Petition Sent in to Ottawa it is Claimed Misrepresented Case as it Stood**

The Vancouver Morning Star has taken up the cause of the cannermen in the fish trap controversy in regard to Wales Island sites. In a recent number just to hand it publishes the following editorial article under the heading "Good Fish and Poor Politics":

The Fisheries Department of Canada, through varying administrations for over fifty years, has wisely adhered to a policy of not allowing our sources of fish supply in waters under our control to be exhausted by ruthless exploitation. Because of this policy the lobster fisheries of the Maritime provinces are in better condition than ever, while the Americans have long since practically depleted their lobster grounds along the adjacent New England coast, which must now be restocked artificially.

**On U.S. Border**

But where the coasts of Canada and the United States are facing each other across narrow reaches of sea, as along the southern and northern parts of British Columbia, and the Americans do not refrain from destructive methods of fishing, then our policy ought to be wisely varied; we should then give the same license to Canadian fishermen as the American government gives to American fishermen. But those in control of our Fisheries Department do not follow such a policy. In a case just brought to light, and which occurred within the past two years, serious damage has been done one of our leading fishing companies. There has been direct repudiation by the Department of Marine and Fisheries of a written assurance; with resulting loss of over \$60,000 to those who placed reliance thereon.

Salmon are caught by gill nets, by seines, by trolling and by traps. But traps are only allowed in areas facing the international boundary. In the Wales Island Fishing District of British Columbia, close to Alaska at Portland Inlet, there are over a dozen salmon traps being operated on the American side of the narrow dividing strip of sea. Traps were operated likewise on the Canadian side from 1915 to 1919 by M. DesBrisay and Company, previous owners of the Wales Island Cannery, and by the A.B.C. Packing Company. The largest proportion of salmon caught in these traps were pinks and chums. But in 1920 there was no profitable market for these cheaper varieties of salmon, and so the Canadian traps were no longer operated there. By 1924, however, the market for pinks and chums had revived.

**Canadian Fishing Co.**

Then the Canadian Fishing Company Ltd. negotiated for the purchase of the disused DesBrisay plant; having first consulted W. A. Found, chief inspector for the fisheries department at Ottawa. From Mr. Found assurance was given that there would be no question but that trap licenses for that area would be issued on demand, such as were formerly issued to DesBrisay and Company and the A.B.C. Company. On this assurance the plant was purchased. It was necessary to build a new trap. In November 1924, application for a trap license was formally made to the Department of Marine and Fisheries, and written assurance was received that the license would be issued to operate a trap at the point selected at Winter Harbor, Pease Canal, Wales Island District. But in December, 1924, the Company was officially informed that no license would be actually issued until proof of intention to operate was given by building the trap. On this the Company proceeded to build the trap and appurtenances at a cost of between \$60,000 and \$70,000. All was complete and ready for operation by June, 1925. Then notification was given by the Company to the Department that all their require-

ments had been complied and request was made for issuance of the license. A telegram was received from the Department refusing to issue the license; saying the policy had been changed.

**Signed by 300**

The explanation given is that the men engaged in salmon trolling opposed any salmon trap being operated on Wales Island opposite to where the Americans are operating salmon traps without hindrance; catching the fish which otherwise would be at least partly caught by Canadian traps. A petition, signed by over three hundred of those engaged in salmon trolling on the northern coasts of British Columbia, was sent from Prince Rupert to the Minister of Marine and Fisheries in August, 1925, asking him to forbid the further use of salmon traps. This petition was based upon a deliberate misrepresentation. It said that the American traps were no longer operating, and that for the same reason the Canadian traps should not be allowed to operate. The American traps were only closed for the annual ten days; and when the ten days elapsed they resumed operations, as it must have been known they would by the originators of the petition, and as must have been known by the officials of the Department of Marine and Fisheries at Ottawa.

It would seem that under political pressure the Government of Canada has repudiated its own written word; resulting in a direct loss of over \$60,000 to a British Columbia company. One of two things; either full compensation should be made to the defrauded company or the license promised should be issued.

**MANY VISITORS HEARD LOCAL PHONOGRAPH**

**Instrument Made by John Rowell is Great Improvement Over Older Machines**

Mr. and Mrs. W. O. Fulton had quite a few visitors last evening who called to hear the new Prince Rupert-made phonograph, which embodies acoustic improvements invented by John Rowell, of the Canadian Laundry. Most of the visitors brought some of their own records in order to compare their playing on the new machine. The new invention for which Mr. Rowell is applying for a patent, eliminates to a wonderful degree all the harshness of tone too often associated with the full toned records and gives out a very clear and mellow rendering of even the brassiest jazz.

Records of many kinds were tested, vocal and instrumental, solo and orchestral, forte and pianissimo and those who listened to the evening's entertainment were very pleased with what they heard.

The new invention, it is understood, can be installed in practically any existing phonograph.

Harry P. Gibson, of Stewart was a passenger aboard the Prince George yesterday afternoon returning north after a brief business trip to Vancouver.

Rub Away Baby's Colds

**A Boon to Mothers**

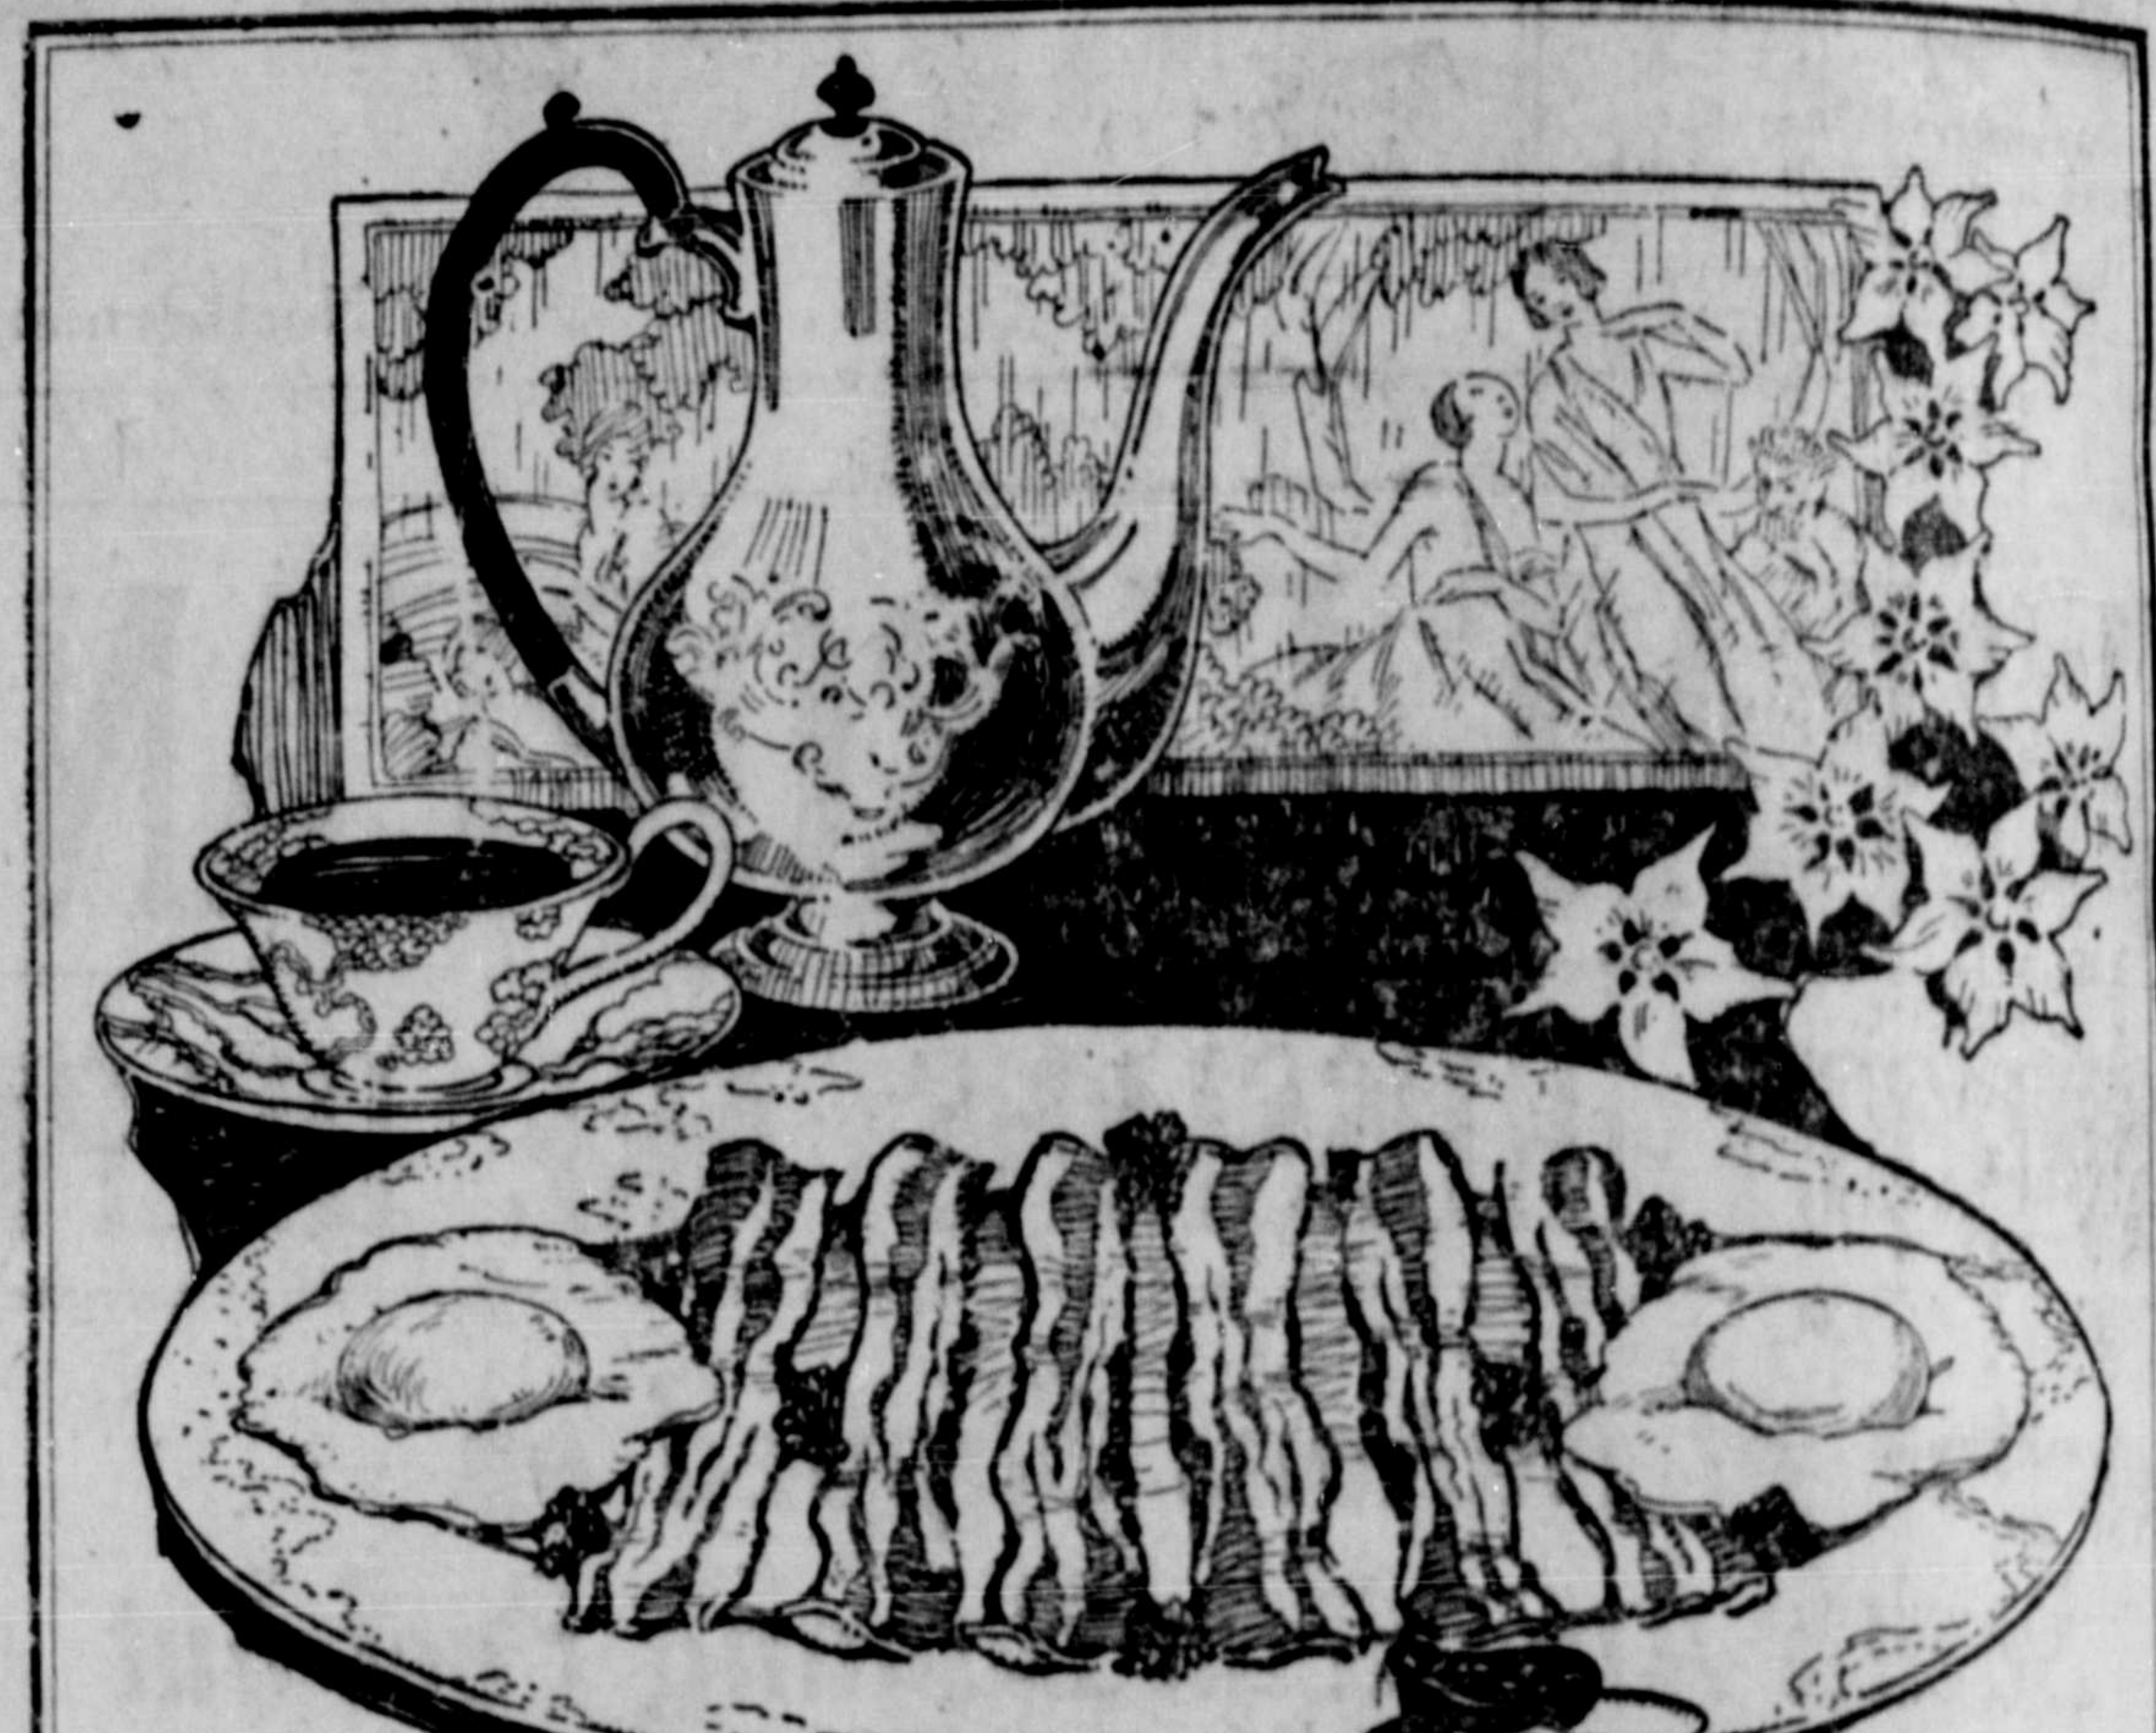

Mothers everywhere who realize the danger to delicate little stomachs of too much dosing appreciate the value of Vicks in treating croup and children's colds.

With Vicks there is nothing to swallow—you just rub it on. The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Thyme, Turpentine—in the form of vapors which carry the medication directly to the nose, throat, bronchial tubes and lungs.

At the same time Vicks is absorbed through and stimulates the skin like a poultice or plaster.

Colds go overnight croup is generally relieved within 15 minutes.

**VICKS VAPORUB**

Union freighter Chilkoote, Capt. C. B. Smith, arrived in port from the south at 10 o'clock last night and, after unloading lumber at the Big Bay Lumber Co.'s wharf, proceeded to Stewart. The vessel is expected back here again tomorrow southbound.

Mr. and Mrs. Jack Hatchford and family will leave the city by Saturday night's train and will visit for some time in various parts of the Middle States. They may decide to remain there although it is also possible that they may return to Prince Rupert.

Miss Johnson, stewardess of the steamer Prince George, is back on her duties aboard that ship after having spent several months ashore in Vancouver on company work. Miss Johnson is one of the senior officers aboard the C.N.R. coast steamers and her many local friends are glad to see her back again.

Howard Frizzell and Bert Morgan, as delegates from the Fair Board, attended the meeting of the Elks' Lodge last night in connection with the carnival that is to be held jointly by the two organizations on May 24. The Elks' committee for the event consists of W. E. Willisroff, James Neville, Dave Balfour and Lance Potterton.

### TRANSLATING FLAPPER AND OTHER WORDS TO THE FRENCH LANGUAGE

OTTAWA, March 25. — How may one translate the word "flapper" in French? This problem recently engaged the minds of Government and commercial translators at a meeting of the Technological Institute of Canada. They failed to find a suitable French equivalent. However, the unbuckled goloshes so distinctly a part of the flapper were shown to be already French in name. Other words discussed during the meeting were: cable company, examination in chief, one-man-factory, surety company, moiety, nesting box, bird house, timber wolf, gopher, patronage and patronage system, one-sided proposition, rating, valet service, insurance adjuster, seconded, basic industries, alias, revolving and tilting chair, core seizing officer, natural resources.

### LADIES' MUSIC CLUB

Program Yesterday, in Charge of Miss Jones, Was on Wagner's Opera Lohengrin

The Ladies' Music Club met yesterday afternoon at the home of Mrs. Hubert Ward, Allin Avenue, and the program, which was arranged by Miss Catherine Jones, consisted of study of

## Time Savers—Money Savers

THINK how many advantages you enjoy when you buy Congoleum Gold Seal Art-Rugs—besides the great and important saving in money! No dusty sweeping or back-breaking beating; no fabric to collect dust and germs; no fear that tracked-in mud or spilled things will leave a stain on the easily-cleaned surface.

Figure what each of these means in comfort and leisure, and for years to come the beautiful patterns will brighten up your home.

Look for This Gold Seal When You Buy

Wagner's opera "Lohengrin." The story of the opera was read by Miss Jones who sang vocal solos from it. Mrs. F. P. Kenny also gave piano selections from the opera.

### MONUMENT TO EVE IS TO BE PERPETUATED

FOUNTAIN INN, S.C., Mar. 25. —Robert Quillen, author and paragon, who recently attracted considerable attention by erecting in the front lawn of his home a monument to Eve, the first woman, has applied for a \$10,000 endowment life insurance policy to be used as a trust fund in perpetuating the movement. Under the terms of the application flowers would be placed regularly against the monument, the lawn mowed, trees pruned and the small marble obelisk given an annual bath with some cleansing material.

### TRAVELLING SHOWS IN BRITAIN PROFITABLE

LONDON, March 25.—At the annual conference of the Showmen's Guild reports were made which showed there is now 15,000,000 pounds invested in travelling shows throughout the British Isles.

The business used to cater almost exclusively to children, but now it also has a large adult patronage. The trade of the showman was never so prosperous.

### OLD MR. CARTER HELPED BY SIMPLE MIXTURE

"After taking Adlerika I feel better than for years. At my age (60) it is ideal — so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. — Ormes Limited, Druggists.

## DEBATE SCHOOL SYSTEM SOUTH

Victoria School Trustees to Have Proposed Change Under Consideration

VICTORIA, Mar. 25.—Whether or not the junior high school or middle school system of education, recommended for adoption in British Columbia by the recent Educational Survey Commission, will be introduced into Victoria, will be decided by the City School Trustees. Chairman George Jay has called a special session of the School Board for this evening, when consideration will be given the proposed Oaklands School annex. The possibility of the suggested annex being obviated through the adoption of the junior high school system here has been raised, and undoubtedly this phase of the situation will receive the Board's attention.

Members of the School Board and Municipal Inspector George Deane, believe that the recommendations contained in the report of the Survey Commission should be carefully dealt with by the trustees, with a view to seeing whether or not some of the proposals should be adopted here.

**Studying Proposed System**  
Inspector Deane has been giving careful study to the junior high school system, and will present a report of his investigations to the trustees.

**Weir's Proposal**  
That many of the faults of the present system could be avoided by the introduction of the six-three-three system, that is, six years in the junior schools, three in a middle or intermediate division and three in a finishing school, was the view expressed by Dr. G. M. Weir, Professor of Education at the University of British Columbia, and a member of the Educational Survey, in a recent address on the Mainland. "This is the system in use in England. This system must be controlled by a vocational guidance bureau which will know in a general way what subject each boy and girl is adapted for, and what is more important, what subjects they are not adapted for," Dr. Weir stated.

on Reynard Island, showed that the enterprise had been carried along for the eighteen months it had been in existence with signal success. A dividend of five per cent on the stock issue was declared. Capitalized at \$125,000, the assets of the company were shown now to be \$131,112.16.

A gross profit of \$54,658.11 was shown to have been made by the company. A net profit of \$16,123.41 was carried to profit and loss account. After the promotion and operating expenses since the inception of the business had been written off there was a surplus of \$6,123.41, from which dividend will be paid.

## SIR JOHN MACDONALD CLUB IN VICTORIA

VICTORIA, March 25.—Victoria is to have a Sir John A. Macdonald Club, similar to the Laurier Club of Vancouver. This club will be for the purpose of putting into effect the policies for which the great Conservative leader stood. The initial steps toward organizing have been taken and a general meeting will be called soon to choose officers.

## WINSLOW HEADS FOOTBALLERS

Annual Meeting Held Last Night and Organization is Deferred For Two Weeks

R. M. Winslow was elected 1926 president of the Prince Rupert Football Association at the annual meeting of the association, which was held last evening in the city council chamber. George Kelsey was chosen vice-president. The election of a secretary was deferred.

Annual reports were received and adopted and, after some discussion, it was decided to adjourn for two weeks when a board of control will be appointed and further organization for the season proceeded with.

There was a small attendance of the general public at the meeting and the following were present in their official capacities: George Hill, retiring president; James Black, retiring vice-president; George S. Russell, retiring secretary; treasurer; Bert Morgan and D. C. Stuart, members of last year's board of control; H. Parr and D. Kennedy, delegates for the Gold Storage; S. D. Macdonald and J. Watson, delegates for the Callies; and Ben Self and R. Howe, delegates for the Grand Terminal Club.

## CRIBBAGE LEAGUE

Business of Season Wound up and Arrangements Made to Present Season's Trophy

At a meeting of the Cribbage League held last night in the City Hall, business of the past season was wound up and it was decided to hold a cribbage drive and dance in the Boston Hall on April 7 when the Dawson Cup, emblematic of city cribbage championship, will be presented to its winners this year—the Loyal Orange Lodge.

## SPORT CHAT

Championship honors in the men's section of the Fraternal Whist League will be settled tonight or else a play-off will be necessary between the St. Andrew's Society and the Moose Lodge. If the Scots lose to the Great War Veterans and the Moose win over the Oddfellows, the play-off will be necessary. Otherwise the St. Andrew's will be out on top and will meet the Daughters of England, Champions of the Ladies' section, in the play-off next week for the Lybbavn and the Newton Cup, trophies for the champions and runners-up respectively. The third game of the evening tonight will be between the Knights of Columbus and Elks. Its result will make no difference to the general outcome of the league.

J. D. Ormsby, of the Northern Electric Company, who was a visitor to Anxox last week, became interested in Anxox basketball to the extent of providing a trophy for yearly competition by the teams of the Ladies' League. The cup will arrive in Anxox shortly. Mr. Ormsby will also donate six silver medals to that number of members of the team winning the cup each year as a memento of the event. The cup is to be known as "The Eveready Trophy."

Fresh from their victories over Anxox in the series for the ladies' basketball championship of Northern British Columbia, the Maple Leafs of this city will re-

GLASGOW TRAMS LOSING MONEY

Motor Bus Competition in Scottish City Responsible For Present Condition

PROTECTION ADVOCATED

£100,000 a Year is Now Being Sunk on Operation of Municipal Service

Motor-bus competition is causing a loss of revenue to the Glasgow Corporation Tramways

In the course of his memorandum Mr. Dalrymple states that if stage carriage licences, as asked by the bus proprietors, were granted this loss of revenue could easily be doubled or trebled.

He knew of no place in the whole kingdom where there was such wild, unrestricted competition as there was in and around Glasgow.

Asks Protection

The tramcar, if it was to carry on, must have adequate protection. This protection could not be given if buses operating as stage carriages were to be allowed to compete with tramway cars within the five mile limit.

Many people said the tramcar was too slow. The Ministry of Transport granted the tramcar maximum speeds up to 20 miles per hour.

HAZELTON LAND DISTRICT.

BISHOP BUNOZ AT GYRO CLUB

Inspiring Address Delivered Yesterday Afternoon on "Fundamentals of Morality"

"The Fundamentals of Morality" was the subject of an inspiring address that was delivered yesterday afternoon before the Gyro Club by Bishop E. M. Bunoz. His Lordship dealt in an interesting and thoughtful manner with the requirements of civil law which he declared was based on human reason under Divine command.

Education of Young

Bishop Bunoz stressed the importance of educating the young to the sense of law observance. The requirement that children should obey their parents was not only for the purpose of keeping peace within the family but also for the purpose of preparing the young to observe the laws that would govern their adult life.

Beside the address of Bishop Bunoz, the club heard a recitation by Frank Tice, "The Wreck of the Jack-pot," an Alice Arm parody on "The Wreck of the Jubilee Palace."

Guests of the club were Bishop Bunoz, Frank Rice, Dr. W. T. Kerzgin and G. E. Webb. President Stan Taylor was in the chair.

SEA SERPENT STORY AGAIN

Captain House Reports in Vancouver the Story of What He Saw and Argues in Favor of Monster

Whether the sea serpent reported by Captain C. J. House of the fishery department, who reached port Sunday, is the same monster that has been frightening Indian fishermen at Queen Charlotte Islands, is not known, but there is a possibility that it is, says the Vancouver Province.

Winchester CIGARETTES. "A Mild, Blended Cigarette". 20 for 25¢. Illustration of a man and a woman smoking, and a pack of Winchester cigarettes.

be a pillar of burnished brass break the surface in a spiral wave and rear thirty feet in the air.

It was, he reported, some unknown monster, with a body or neck of about fourteen inches in diameter, and a head like a seal, about two inches wider than the body.

It was not long ago that a Japanese fisherman off the Queen Charlottes found his net caught by some immovable weight that was live enough to nearly pull his boat down.

CLOSURE WILL BE USED MORE

Ottawa Government Likely to Follow British Example and Cut Off Lengthy Debates

OTTAWA, March 25.—Closure, as a means of ending interminable debate, is likely to be used more and more in the House of Commons. Prior to 1913 there was no effective closure rule in the Canadian House.

Rarely Applied

But, although in the rules, closure is rarely applied. In the first place, it has to be moved by a minister of the crown and governments have hesitated to move it for fear of its political effect.

Indeed, the present parliament has had the extraordinary experience of a double closure, with one closure closing debate on the other. It started out by the moving of the "previous question," which has been termed "closure by anticipation."

Recognized Practice

Indications now are that the present parliament will see a wider use of closure. In the British parliament—and the Canadian House bases its rules and procedure on those of the British House—closure has become a recognized part of the customary practice.

Last year, a special committee of the House studied the question and suggested new rules for cutting short the spell-binder, apart from the application of actual closure.

WHIST DRIVE AND DANCE LAST NIGHT

Successful Event Under Moose Auspices Held in Metropole Hall

There was a large attendance at another successful whist drive and dance that was held last night in the Metropole Hall by Prince Rupert Lodge No. 1051, Loyal Order of Moose.

Prize winners were: Ladies' first, Mrs. Mae Ratchford; second, Mrs. M. Fraser; third, Mrs. Squirehuck; men's first, Willie Donald; second, Frank Fitch; third, P. G. R. Ringer.

Music for the dance was furnished by Arthur's Orchestra and refreshments were served under the direction of Mrs. J. Field. The committee in charge consisted of F. Scadden, chairman; Gillis Royer, floor manager; B. J. Bacon, D. McDonald, Sam Antons, Sam Hausdenschild, T. Elhof, P. Cameron, Joe Slazgard, J. Squirehuck and A. Ohnesarg.

Her Nerves Were "All Broken Up"

Mrs. David Gallagher, 37 Lyndhurst Ave., Hamilton, Ont., writes: "My nerves were all broken up and I could not sleep at night, and I would have to get up out of bed and walk the floor for hours at a time.

After Using a Box of

I Began To Feel Much Better, and after using a few more boxes I could enjoy my rest as well as ever I could."

# ULTRA X-RAYS PROBABLY ARE FROM OUTSIDE

Coincide with Formation of New Worlds and May be Evidence of Birth of Matter

Some interesting experiments have recently been made by a German professor, Dr. Kohlhorster with "Ultra X-Rays." These are the same as have been described by the American Physicist, Dr. Millikan.

The rays are "harder," that is to say of higher "frequency," or, in other words, of shorter wave-length—and therefore of greater penetrating power than any rays previously known. They were recorded by Dr. Millikan's instruments 15 feet below the surface of Lake Muir. The atmosphere above the lake, which lies 11,800 feet above sea-level, was equivalent in absorbing power to 23 feet of water, so that the rays could penetrate a total of 68 feet of water, or the equivalent of six feet of lead. The "hardest" rays previously known—the so-called "Gamma rays," which are part of the X-rays emitted by the

# Bilious Headache

Mrs. John Ireland, Nobleton, Ont. writes "I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me, and made me feel like a new person. I am very grateful."

THE pains, the aches, the tired feelings, the depression, the bodily discomforts are the result of the accumulation of poisons in the body.

Only the liver and kidneys can purify the blood.

When they fail they must be aroused to action by the use of Dr. Chase's Kidney-Liver Pills.

They are so direct in action on the liver, kidneys and bowels that relief comes quickly and serious ills are avoided.

# CATAPULT AIRPLANES FROM DECK OF SHIP

Stride Made in Development of Device for Giving Craft Start in Flight

WASHINGTON, Mar. 25. — Another stride in development of catapult devices to shoot navy aircraft directly into the air from the deck of fighting ships was made here recently when a three-seated amphibian plane was successfully launched in the face of a stiff wind.

Built at the navy gun factory here, the catapult was mounted on a coal barge which was towed into the Potomac river for the test and with engines roaring the plane swept down the catapult track and leaped into the air with hardly a dip before it soared upward. The bark of a three-inch blank cartridge which hurried the air cruiser on its way, sounded like a salute to a new mechanical triumph.

The power catapult type follows sixteen years of development in the United States' army.

"Which of Shaw's plays do you prefer?" asked her fiance.

"Arms and the Man," dear," she replied softly as she snuggled a bit closer.

# LIGHT SENTENCE FOR VERY BRUTAL ACTION

(Edmonton Bulletin)

Somebody in Glamorgan, Wales, thought it important to cable America the fact that a magistrate had sentenced a motor driver to fifteen months in jail for manslaughter there. The report of the incident is that a truck driver knocked a woman down, turned his truck about and drove over her prostrate body, and then proceeded on his way.

If the idea of the correspondent is that so signal an instance of a miscarriage of justice deserves publicity his judgment is good. If he imagines that people on this side of the water will regard it as another example of the severity of British law he is badly mistaken. If anybody ever deserved hanging it seems to be that truck-driver. It will be no credit to British justice if there is not some procedure by which a higher court can send him to the gallows.

# Harold Lloyd in "The Freshman"

The brightest twinkle of a big star. Harold, rushing chucking, smashing, dashing along the field of mirth. A photoplay that brings everything that makes life worth living. Laughs galore. Thrills and heart-throbs. Packed, rammed, jammed and crammed with joy and wildly hysterical fun. Poor Harold. His name was Lamb, but they made him the college goat until he saved the day at the big football match. Then he was a hero, but their cheers were as nothing to the note Peggy had written to him with the magic words, "I love you." Merriment, speed, laughter woven into a glorious song of youth and romance. A comedy supreme. Strong cast.

Harold Lloyd, Jobyna Ralston, Brooks Benedict, James Anderson, Joe Harrington, Pat Harmon, Hazel Keener and others.
