HON. HUGH GUTHRIE LEADS CONSERVATIVES CHOSEN FOR COMING SESSION OF PARLIAMENT UNTIL CONVENTION MEETS

Hon. Hugh Guthrie to Lead Conservatives Until End of Session

National convention will be held after Parliament rises when permanent leader for party will be chosen

OTTAWA, October 12.—The Conservative conference yesterday appointed Hon. Hugh Guthrie their leader for the coming session of Parliament and a permanent leader is chosen. A national convention to make selection of a permanent leader will be held at the end of the parliamentary session.

The temporary successor to Right Hon. Arthur Meighen will be on trial during the coming session and if he makes good is likely to hold the position permanently. He is the member for South Wellington and a resident of Guelph, Ont. At the last election he was returned by a large majority over his opponent, W. A. Burnett, Liberal-Progressive. In the Meighen "shadow cabinet" he was minister of national defence, and was always looked upon as one of the more solid members of that group.

REGRET RESIGNATION

Mr. Meighen's resignation was considered for a couple of hours and finally the former premier asked that his resignation be accepted as final. The gathering then adopted a resolution of regret and left it to the committee of elected members to decide the details of the national convention at which the new permanent leader is to be chosen.

After his selection, Mr. Guthrie said he had been asked to "fill a gap."

Several members were proposed for the position of temporary leader, among them being H. H. Stevens, E. B. Bennett, Dr. R. J. Manion, C. W. Bell, Sir George Perley, Simon Fraser Tolmie and C. H. Cahoon; but withdrawals reduced the nominations to four and from those Guthrie was chosen by ballot.

Two resolutions eulogizing Mr. Meighen were adopted. Mr. Meighen's statement to the conference was simple and brief. He said it was his conviction that the best interests of all concerned would be promoted by his retirement and that decision was definite.

NEW LEADER'S RECORD

Born at Guelph in 1886 Mr. Guthrie may be said to have inherited the seat in Parliament, for his father, Donald Guthrie, represented South Wellington for six years. He was educated at Guelph and Toronto, taking up the study of law. In 1907 he was chosen chairman of the railway committee of the House of Commons, was created a K.C. in 1902, became solicitor general of Canada in 1917 and was sworn in as a member of the Privy Council in 1919. Mr. Guthrie took over the portfolio of minister of Militia and Defence in 1920 and on the formation of the Meighen cabinet. A few months later he was reappointed to the same position and retired from the office when the government resigned in December, 1921.

In religion the new leader is a Presbyterian.

GOOD RECEPTION OF KING CABINET BY THE CONSERVATIVE PRESS

(Edmonton Journal)

The new King cabinet can find nothing of which to complain in the reception that has been accorded it by the public and the press. There has been no under-estimation of the ability that it contains, even by those who most strongly opposed the Liberal party during the recent campaign, and everywhere the hope has been expressed that it will take full advantage of the opportunities that are open to it under more stable political conditions. A Conservative newspaper, the Ottawa Journal, pays tribute to the outstanding qualities of some of its members, to Mr. Dunning's driving force, Mr. Robb's balance, Mr. Lapointe's eloquence and Mr. Euler's good sense. It thinks that if Mr. Balston can be brought in, if Mr. Motherwell can be kept from doing harm, and if Mr. Dunning can occasionally drop in to see that Mr. Forke is not asleep at the switch, all may not be lost, but that everyone at all events is prepared to give the ministry a chance.

England is getting tired of sex novels, say publishing experts, and their place is being taken by detective, adventure and mystery stories.

STATUE OF BRITANNIA with Lion, erected on the New County Fire Offices, Piccadilly Circus, at a height of 88 ft.

CONVICTED IN PRINCE RUPERT TROUBLE AGAIN

RUTHERFORD PASSES MORE WORTHLESS CHECKS AND COMES BEFORE JUDGE HOWAY

WESTMINSTER, Oct. 12.—Airing his downfall to his wife's content while he was overseas, Cecil Rutherford pleaded guilty in the County court yesterday to three charges of passing worthless checks and was remanded to prison.

Judge Howay intimated that if Rutherford's story proved true he would be dealt with leniently.

Rutherford is at present serving six months at Okalla, having concluded a year term a few months ago. He fled that on returning home to Kelowna after the war he found that his wife had sold his goods, his store and home and fled with another man. Rutherford had been gassed overseas and was unable to make a living and commenced the practice of passing worthless checks. The two year term was imposed at Prince Rupert where he was up, following a conviction for the same offences. All the time of the sentences were spent in the prison hospital.

CRIME WAVE AT SAN FRANCISCO

THIEF KILLED AND ROBBED INDISTINGUISHABLY COMMENCING ON SATURDAY NIGHT

SAN FRANCISCO, Oct. 12.—Three men were killed and three others shot and seriously wounded in an outbreak of crime last night, the continuance of a crime wave which began Saturday night when two men were fatally shot, one wounded and fifteen others held and robbed.

Walter Swanson, a taxicab driver, was the first victim last night. He was waylaid and killed and his body pitched on the Sixteenth Avenue viaduct. A bandit then entered a restaurant on Brannan Street where he shot the proprietor and robbed him of \$40. Then he went directly across the street to a gas station and shot and killed Jack Kane, wounding two others. Immediately after, he shot and killed Michael Brovitch, a steamshovel operator.

TOLE JEWELS FROM MUSEUM

CHARENTILLY, France, Oct. 12.—Jewels valued at approximately \$2,700,000 were stolen last night from the famous museum Duc D'Aumale, maintained here as a National Museum. The burglars had no clue.

Woman Declares She Engineered Conspiracy to Lift Stigma from Evangelist Regarding Ormiston

LOS ANGELES, October 12.—The inside story of the alleged plot to remove a rumored stigma of the Carmel cottage indiscretion from the life of Almee McPherson was told in court yesterday by Mrs. Lorraine Sellaff, who confessed that she engineered the conspiracy aided by Mrs. McPherson and her mother, Mrs. Minnie Kennedy.

In the witness box, as key witness for the prosecution, Mrs. Sellaff related the course of the plot, which she claimed eventually had produced the mysterious "Miss X" of Carmel bungalow fame. This nebulous personage, she said, was introduced in an affidavit, purporting to come from Chicago and signed by Kenneth Ormiston, at present a fugitive from justice and co-defendant with Mrs. McPherson and formerly radio operator at Angelus Temple. According to the affidavit Ormiston was said to have sworn that "Miss X" occupied the seaside cottage with him during the days following the disappearance of Mrs. McPherson on May 18.

Prior to Mrs. Sellaff's testimony, the prosecution introduced a statement by her as part of the alleged plot. This statement she disavowed when she confessed her part in relation to the conspiracy with the Angelus Temple leaders. She repudiated the statement of co-authorship of which Mrs. Sellaff attributed to Mrs. McPherson in a later confession in which she named herself as the "goggled woman" of Carmel bungalow. She also brought in a "younger sister" as the mysterious "Miss X."

RIGHT HON. HUGH GUTHRIE.

New Leader of Conservative party who was chosen by Caucus of members at Ottawa last night.

KILLED FOUR LOST LEADER

DEER RAN TO HUNTER FOR PROTECTION WHEN CHASED BY FIVE WOLVES AT TUCKS INLET

It was a curious thing, George Wolfseiger thought on Sunday when he was hunting in the woods, for a deer to come running to him as if seeking protection. He was out after deer and this was a buck, just the sort of thing he wanted. Evidently the deer saw him but did not seem to mind although it was evidently afraid of something. Looking again the hunter saw five dogs, Indian dogs, he thought, chasing the buck, but a second look convinced him that they were not dogs but wolves. The leader was a huge grey fellow and behind him were four black creatures, running low and seeing nothing except the quarry ahead on which they were gaining rapidly.

Wolfseiger stood his ground until they got within good range and fired at the leader but failed to bring him down. One after the other of the black wolves he toppled over with his trusty rifle but the biggest of the pack, the grey leader, got away. In the confusion which followed, the deer also got clear and was also safe from the wolves since four of the five were killed and the other wounded.

JAPANESE SENT TO ASYLUM AFTER KILLING RELATIVE

VANCOUVER, Oct. 12.—Suitsa Furukawa, on trial in the assize court on a charge of murdering his sister in law, Kimi Furukawa, and her four year old son in April last, was found not guilty on the ground of insanity by a jury after three minutes' deliberation. The accused was committed to the insane asylum.

COOLER WEATHER IS REPORTED IN NORTH

Cooler weather is reported in the north this morning. The eight o'clock report of the Government Telegraphs says that at Dawson the temperature was 18, which means fourteen degrees below freezing point. The details of the report follow:

Terrace: Part cloudy, calm, temp. 31.
Anxox: Clear, calm, 36.
Stewart: Clear, calm, 30.
Hazelton: Cloudy, calm, 32.
Telegraph Creek: Clear, calm, 20.
Burns Lake: Cloudy, calm, 30.
Smithers: Cloudy, calm, cool, 28.
Whitehorse: Clear, calm, 23.
Dawson: Cloudy, calm, 18.

QUEEN MARIE IS ON THE WAY TO VANCOUVER

VANCOUVER, Oct. 12.—Queen Marie of Roumania, who left Cherbourg today aboard the Leviathan for New York, will visit Vancouver for one day, November 5, arriving from Seattle by automobile. She will also visit Toronto, Ottawa and Winnipeg on her Canadian tour.

INVENTOR ARRESTED FOR FALSE PRETENCES NO MONEY ON PERSON

VANCOUVER, Oct. 12.—Joseph Saunders, who last week announced himself as the inventor of a railway device for which he received \$300,000 for the Canadian rights, was lodged in jail yesterday on a charge of obtaining lodging under false pretences. He was arrested on a warrant issued in February last by William Lee, which charges him with obtaining lodging to the value of fourteen dollars.

Saunders had no money on his person when arrested. He is said to have admitted staying two days at the rooming house but declared he paid for his room.

Total Wheat Crop of World This Year is 2,861,000,000 Bushels and Canada's Quota Good One

EUROPE WILL CONTINUE TO BUY INSURING STABILITY OF PRICES; VOLUME OF CANADIAN PRODUCTION NOT SERIOUSLY AFFECTED

MONTREAL, October 12.—Forecasts and estimates for the wheat crops in twenty-seven countries in Northern Hemisphere, producing about 85 per cent of the world's wheat supply, indicate a total production of 2,861 million bushels for 1926, an increase of 1.2 per cent over the production of those countries in 1925, says the Royal Bank Report. No record crops and no crop failures have been reported, and a more normal world distribution of the crop is to be anticipated this year than in the past few years. Last year, Europe's large crops resulted in unusually small shipments to European ports, while the surplus supply was absorbed by heavy shipments to the Orient.

Since crops of European importing countries promise to be smaller than last year and their carryovers are moderately low, and since larger supplies promise to be available in exporting countries as a whole, international trade in 1926-27 is likely to be somewhat larger than in 1925-26, but smaller than in the two preceding years. Steady improvement in European stability is a further factor which gives promise that Europe will continue to buy wheat in good volume in the face of crop reductions this year. Constant study of the course of probable future demand is just as important a factor in the world wheat situation as are estimates and forecasts concerning supply.

CANADA'S CROP LARGE

The official estimate of Canada's current wheat crop was revised upward on September 10, to 399,098,000 bushels. Since that date, however, adverse weather conditions have prevailed in the prairie provinces, resulting in a general lowering of grades, not only of wheat, but also of coarse grains. Reports indicate, however, that the volume of production will not be seriously affected. A good portion of the wheat has been out, but very little has been threshed. This situation is reflected in the current car loading figures, when the weekly car loadings were smaller than in 1925 for the first time this year. This decrease was almost wholly accounted for by reduced grain shipments from the prairie provinces.

THREE SMALL BOATS SELL FISH TODAY

Only three small Canadian boats sold halibut on Exchange today. The price realized was 14c and 8c and the boats were:

Ingrid H., 2,000, to Atlin Fisheries.
May, 1,500, to Royal Fish Co.
Point May, 2,500, to Cold Storage.

MUST NOT KEEP BULL AT LARGE

COURT DISMISSES APPEAL AGAINST PAYING COMPENSATION FOR DAMAGE BY ANIMAL

VANCOUVER, Oct. 12.—Finding that William Schneider's bull ran at large unlawfully, the court of appeal unanimously dismissed the Deer Park rancher's appeal against the decision of Judge Forin in the County Court of West Kootenay, who assessed him \$478 to compensate Mrs. Mary Jacobson, who was gored by the animal. When the woman attempted to drive the bull off her premises the creature attacked her and broke her jaw and four ribs.

"We know a dog is entitled to the first bite, but is a bull entitled to the first gore?" queried Mr. Justice McPhillips to the applicants counsel, who explained that a bull was listed among domestic animals by statute and he claimed that Schneider's bull was tame. "Some people would never think there was a tame bull," commented Mr. Justice McPhillips, "but maybe there is."

APPEAL MADE JUNEAU FIRE

AID ASKED FOR 225 HOMELESS PEOPLE OF DOUGLAS AND TREADWELL

JUNEAU, Oct. 12.—A citizen's committee last night appealed to former Alaska on the Pacific coast for aid to 225 persons homeless at Douglas and Treadwell as the result of the fire which destroyed 79 occupied and 50 unoccupied residences.

A revised estimate of the loss places it at \$200,000. None saved their personal belongings and lumber and clothing are needed.

FIRST WHEAT 50 YEARS AGO

WINNIPEG, Oct. 12.—Fifty years ago a few agriculturists of old Fort Garry community, now Winnipeg, were engaged in preparing their first shipment of wheat from Western Canada to Ontario, following a crop failure in the eastern provinces. The shipment was made on October 12, 1876, and last night at a banquet, the pioneers of the province told of the trials and experiences of those days.

"Rubberneck" tours to department stores have been arranged that women might see Paris gowns and furs as they do the Pantheon and Notre Dame, "all in half a day, with no frills."

**DIFFERENCE BETWEEN
 RUPERT AND KETCHIKAN.**

The chief reason why Ketchikan makes progress is because the citizens all believe in her and support her wholeheartedly. One of the reasons why Prince Rupert has been in the doldrums is because so many of the people living here have no real faith in the place and are constantly under-estimating her present status and her future prospects. If the city makes progress under these conditions it is in spite of a severe handicap.

Nature has done much for Prince Rupert and governments have done almost everything. Now, however, there is a tendency for people to try to help themselves, but they are chiefly outsiders. It looks as if it will remain for outsiders to come here and make a city of this.

We are not disparaging the work done by many citizens who have stood up against the pessimists and pushed things forward in spite of all the forces that are against them. There are a number of men and women here who have the vision and are not discouraged just because business has not been quite so good this year as last. The difficulty with the others is that they have not got over the boom days. They still look back.

**MOST PEOPLE LOST OUT
 SOMEWHERE IN BOOM.**

Those who are still harking back to the days of construction must remember that every city had its boom at that time. Vancouver and Victoria, Edmonton and Calgary and dozens of other places were sufferers as well as Prince Rupert. Perhaps this place was over-advertised and the railway going into liquidation and the Government changing all had its ill-effect here. However, "them days are gone for ever," and we might as well forget them. What we have to do now, if we have not already done it, is to adjust ourselves to the present and let the past take care of itself except to remain an object lesson for our children. In the larger cities many people were ruined by the boom and they never recovered. It broke them and broke their spirits. Happily they are so small a minority that they have little effect on the life of the cities. Here, however, the city was made up largely of real estate agents and speculators, and when the boom burst they all suffered. Instead of cashing in on their losses and starting afresh they kept hoping against hope that the old conditions would come back, which of course they did not.

**PRINCE RUPERT
 AND THE FUTURE.**

Prince Rupert is well established now. She is on a solid foundation. She has overcome the great handicap of streets and will overcome other handicaps as they arise. There never was a time when the prospects for the city's advancement were as good as they are today, yet we find many people here like Gloomie Dean Inge, fearful for the future. What we must look for now is not any great improvement all at once but a steady growth with every day greater permanency and better prospects. Let us then forget the past and set our minds on the present and future. Remember that every time we speak disparagingly of our city or prospects we are injuring our own future. We cannot very well make progress if we are not thinking of progress and doing our bit to bring about a better condition.

**STUDY IN CONTRASTS
 BY VANCOUVER PAPER.**

Reverting again to England and the Gloomie Dean, if there were many Inges in that country she would very soon be down and out. The Bishop of London has the better view. Speaking of him the Vancouver Sun says:

Right Reverend Arthur Winnington-Ingram, lord bishop of London, tells a Chicago audience that, contrary to Dean Inge's calamitous prophecies, England is still as good as she ever was.

The truth is that England has rendered herself immortal by re-creating herself in the New World.

The United States is today the richest and most powerful nation in the world, it is because of the mental and spiritual equipment she has inherited from Great Britain.

If Canada, Australia and New Zealand are today vital, virile and growing nations, it is because they are re-living England's history on the shores of the Pacific.

To the British Empire, England has become more than a collection of people. She has become, in the conceptions of the British Dominions, a set of principles.

So long as England stands for justice, honesty, dignity and courage, neither a dozen revolutions nor wholesale national bankruptcy can reduce her to anything less great than what she is.

Have You Taken Your
 Nerve Food Today?

Are you restless and sleepless? Have you indigestion and headaches? Are you tired and languid? Are you worried and anxious and easily disturbed over every little thing that goes wrong? Are you losing the best there is in life on account of lacking energy, ambition and vitality? You can get away from this condition by using Dr. Chase's Nerve Food.

Nervous disorders do not right themselves. You must feed the starved and depleted nerve cells back to health and vigor. Begin the use of Dr. Chase's Nerve Food today and it will not be long before you are well on the way to better health. New energy and new confidence will enable you to live a fuller and a happier life. 60 cents a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto, 2.

**ALASKAN PAPER
 ON ELECTIONS**

ARTICLE IN KETCHIKAN CHRONICLE
 ANALYZES RESULTS OF RECENT
 CANADIAN VOTING

BECOMING A NATION

NATIONALISM VERSUS IMPERIALISM
 WAS FIGHT IT DECLARES AND
 NATIONALISM WON

(Ketchikan Chronicle)
 The general elections in Canada were of more than passing interest to the business and industry of the United States. The campaign was fought along clearly drawn party lines and was as bitter as British North America has known since the defeat of Sir Wilfrid Laurier in 1911, when tariff reciprocity with the United States was an issue that stirred the Dominion's political depths. The Canadian clash this year was first of all a collision of the forces of nationalism, led by ex-Premier King, as chief of the Liberals, and the Imperialists, headed by Arthur Meighen, of the Conservatives. Last June the King Government was facing a vote of censure. The premier asked Lord Byng, Governor General of Canada, to dissolve Parliament. Lord Byng refused, and throughout the campaign the Liberals have denounced his act as unconstitutional and contrary to the precedent of 100 years fixed by the British Parliament.

FUTURE STATUS
 The Liberals made the actual and future status of Canada in the British Empire the first issue in the campaign. The Liberals demanded that the Dominion should decide once and for all, whether it would go back to the older and simpler ways when Canada was a colony or would keep its self government, its home rule and its self-respect. The Conservatives insisted that what the Liberals, led by King, really wanted was to break Canada loose from the British Empire. They called him a "disloyalist" and a "secret annexationist," anxious to carry Canada into the American Union. They pointed to his long residence in New York and his former connection with the Rockefeller interests as "proof" of his "sinister" purposes.

The King policies have emphasized Canadian nationalism. He has insisted that Canada must be treated not as one of the several segments of the Empire but as an independent nation, but he has denied the "annexation" charges frequently and with much fervor.

TARIFF ISSUE
 It was, however, the tariff issue that came nearest to American interests. Canada is a liberal buyer of American goods. The Liberals during the King regime lowered the schedules, thereby pleasing a large part of Canada, where manufacturing is of less importance than agriculture.

The Conservatives are protectionists. They promised a complete and upward tariff revision. It was the Meighen argument that a lack of high tariffs had closed down many Canadian industries and driven at least a half million Canadians over the border into the United States.

This was a threat against the King-led Liberals that was fully as dangerous as the old cry of "secret annexationist." Canadians resent the tariffs of the United States. They are inclined to be irritable about making any tariff arrangements with their neighbors across the frontier. The tariff was a menace to Liberal hopes, particularly in the province of Ontario and Quebec, where industrialism is beginning to get a foothold.

The results are not altogether decisive, but the next Parliament will show considerable Liberal gains and heavy Conservative losses. Of the 245 seats in the last Parliament, the Conservatives held 116, the Liberals 101, the Progressives 24, Labor 2 and Independents 2. The Liberals now have 117, the Conservatives 90, Progressives 18, the United Farmers of Alberta 7, Labor 3, and Independents 2.

The last Liberal government was based on a coalition of the 101 Liberals and the 24 Progressives. The new government is expected to be built on a similar Liberal and western Progressive alliance, but its foundations promise to be firmer than those that crumbled last June.

OVERCOMING NERVOUSNESS
 Canada, apparently, has decided that while she may be a daughter in the house of the mother empire she will be mistress in her own. She is overcoming her political nervousness. This time the annexation scarecrow failed to throw her into panic. Autonomy as an issue is no longer taboo. Tariffs can be discussed without an attack of imperial hysteria. Canada politically, as well as industrially, is growing up. The Dominion is becoming a nation, with a national viewpoint and a national consciousness.

**INCREASE TAX ON
 "POOR MAN'S DRINK"**

PARIS, Oct. 12.—The "poor man's drink" is now taxed at 60 per cent of its selling price, whereas champagne only pays one per cent. The poor man's drink thus referred to is chleury, a widespread beverage in the north of France. The tax on chleury was increased from 75 to 180 francs the hundred kilograms.

**BARROW TELLS OF
 VISIT TO CENTRAL
 BRITISH COLUMBIA**

VICTORIA, Oct. 12.—Northern British Columbia's agriculture is developing at an amazing rate now that settlers have progressed past the first difficult stages of colonization and are beginning to reap the reward of their work, according to Hon. E. D. Barrow, minister of agriculture, who has just returned to the coast after a tour of the North.

While in the Bulkley Valley Mr. Barrow learned that the farmers of that area have grown 250 tons of timothy hay this year—a crop which promises to bring them in something like \$50,000. Another remarkable advance in agriculture will enable the farmers to ship seven cars of wheat to the Prince Rupert elevator this year for sale all over the world. Only a short time ago the poultry producers of the Bulkley Valley were importing wheat for chicken feed.

DAIRYING ACTIVE
 Mr. Barrow was delighted with the progress of dairying in the north and noted with particular satisfaction the success of the Nechako co-operative creamery, established with government aid. At the present time there are 133 cream shippers associated with the creamery, the largest number on record to date.

On his northern trip Mr. Barrow was accompanied by Col. W. S. Latta, chairman of the Land Settlement Board. Together they looked over farms which have been established with the aid of Land Settlement Board loans. Mr. Barrow stated that the Government does not intend to collect with harsh measures money loaned to settlers who are showing a willingness to repay what they owe. In the case of those who are avoiding their responsibility more drastic measures will be taken, the Minister told the settlers.

GRASSHOPPERS SERIOUS
 Another portion of the Province, the Peace River district, is receiving the attention of the Department of Agriculture now, following the receipt of reports that grasshoppers threaten next year to wipe out grain crops. E. R. Buckell, Dominion Government entomologist, went into the Peace River district recently and returned with the report that the grasshoppers, who were numerous this year, have laid eggs in enormous quantities. The result, it is feared, will be a serious infestation next year.

To combat this condition the Department of Agriculture will ship tons of poisoned bran into the North to check the growth of the insect menace.

THE MAN IN THE MOON

says:
 Winter rids us of practically all the insects except the badminton bug, the political bee and the worm.

A man may be rich but he wears only one suit of clothes and often cannot eat half as much as a poor man.

The city of Trail has just laid what it claims is the first concrete sidewalk in interior British Columbia. I think Trail is about half the size of Prince Rupert or perhaps not quite that.

Nelson people almost all went over to Trail for the official opening and incidentally to enjoy a carnival and see how sidewalk making was done and find out who put up the cash.

Silence indicates gilt.
 Conscience would make cowards of us all if it did not go to sleep at sundown.

Prince Rupert is losing much of its attractiveness to visitors. It is understood that in the past literary visitors came here to get a local color for stories of the underworld.

What I never quite could understand was why they charged as much to ride in a Ford taxi as in a real car.

**Ten Years Ago
 in Prince Rupert**

OCTOBER 12, 1916
 Development of business over the Grand Trunk Pacific Railway is becoming quite noticeable. There is said to be a great deal further trade open to the line and, before the snow flies, citizens may be somewhat surprised at the developments that are being carried out.

It is stated that Prince Rupert has

an excellent quality of coal within easy reach on the line of the G.T.P. at Seaton. The coal beds, which extend directly below the tracks, are being developed by Mr. Wright.

Mitchell Albert on Monday will take over the management of the Westholme Theatre which he has had under lease for the past several months.

**GLOOMY DEAN
 AS PROPHET**

SEES ENGLAND'S STAR ON THE WANE
 AND FRIENDLINESS OF U.S. IN
 DOUBT

LONDON, Oct. 12.—Dean Inge is fairly gloomy in his survey of present-day England which Ernest Benn, Limited, has just published. But the Dean of St. Paul's thinks England will survive, in spite of the disorganization of its industrial system.

While he is slow to hazard prophecies, as he says prophets have been very pessimistic about England's future after all of its recent wars, Dean Inge is of the opinion that the future will lie with large countries. The Americans and Eastern Europe still have room for large populations, and the dean believes it is unlikely England can continue as a great world power.

"The greater security of America will alone be enough to give her a decisive advantage in our competition with her," he says. "The prospect is unwelcome to a patriot. Much will depend on the friendliness of the United States, on which we certainly cannot count, but of which we need not despair."

WATER NOTICE

Diversion and Use

TAKE NOTICE that Somerville Cannery Company, Ltd., whose address is 609 Avenue Wharf, Vancouver, B.C., will apply for a licence to take and use 25 gallons per minute of water out of small stream, also known as Hotel stream, which flows northeast and drains into Jewday Harbor about 10 feet northwest of southeast corner of Tojo Mining claim. The water will be diverted from the stream at a point about 500 feet southwest of southeast corner of Tojo Mining claim, and will be used for industrial purposes upon the land described as 11.2 acres northeast of Tojo Mining claim. This notice was posted on the ground on the 9th day of September, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is October 5, 1926.

Here and There

Edmonton.—Large mouthed black bass may soon be available to Alberta sportsmen for a batch of fingerlings and yearlings from the Kootenay Lakes have been placed in Lac La Nonne by the Northern Alberta Fish and Game Protective Association.

McGill University opened her senior football season in Montreal at the Percival Molson Memorial Stadium on October 2nd, with a game against the Old Boys. One of the most enthusiastic fans of this game is E. W. Beatty, President of the Canadian Pacific Railway, who is an annual ticket holder, and who will be present at all the big games this season.

In a recent despatch from the west, W. L. Smith, former editor of the Farmer's Sun, estimates that approximately \$1,000,000,000 will be added to Canada's income this year from the products of the farms of Western Canada. Last year's field crops were valued at \$1,112,691,000 to the growers and it put the west in the prosperity column. Mr. Smith believes it is a fair assumption that this year the return will not be less.

An interesting estimate of Canada's per capita wealth has been made by the League of Nations, with comparative figures of 22 years ago. In 1925 the per capita wealth in this country amounted to \$2,406, as contrasted with \$1,100 per capita in 1903. Out of the 35 nations listed, Canada ranks third, the United States showing \$2,918 and Great Britain \$2,459 per capita, respectively.

With a view to obtaining financial assistance of some kind with which to aid the emigration of Austrian farmers to Canada, Dr. Heinrich Montel, an Austrian Government official, arrived in this country recently on board the Canadian Pacific S.S. "Montroyal." There are 10,000 Austrian farmers who would emigrate to Canada, stated Dr. Montel, all of them practical farmers, but they do not possess sufficient funds to pay their passage to this country.

Egypt may include Canada among those countries in which she will be without representation, according to a statement made recently by Emile Sharteni, acting as unofficial ambassador to Canada who arrived in Canada on the Canadian Pacific liner "Minnedosa." Mr. Sharteni is trying to interest Egypt in Canadian flour and timber, and in return expects the Dominion to reciprocate by purchasing cotton, dried fruits, etc., direct from Egypt instead of through the middlemen in London or New York.

Walking about on a two-foot wide platform, 200, 300 and even 500 feet up the outer surface of huge chimneys is all in a day's work to Henry Held, expert chimney builder and climber, who was employed recently by the Canadian Pacific Railway to overhaul a 200-foot chimney in the station yards at the Windsor Street Depot in Montreal. It took eight days for Held and his assistant, Richard Boucher, of Three Rivers, to move the platform, secured by a heavy cable, up the side of the chimney, in order to begin work at the top.

Lord Clarendon, Under-Secretary of State for Dominion Affairs in the British Government, sailed for England from Quebec on the Canadian Pacific liner "Empress of France," September 29th, bringing to a close an extended tour of the Dominion investigating the conditions under which the 3,000-family immigrant scheme is being carried out in Canada. His Lordship, who is chairman of the Overseas Settlement Board under whose auspices this scheme is being conducted, made the statement before his departure that he was greatly satisfied with the conditions amongst Britishers who have settled in Canada under this scheme. He personally visited over 180 families.

Mr. and Mrs. W. J. Crawford of Stewart are passengers aboard the steamer Cardena today going through to Vancouver on a holiday trip. They are accompanied by their two daughters, Misses Muriel and Helen Crawford.

John Haldane, Indian, was fined \$15 and costs in the city police court this morning for intoxication. On a similar charge, R. Leighton and Charles Auckland were each fined \$10 and costs while George Ryan was mulcted \$25 for having liquor in his possession.

At a business meeting last night the St. Andrew's Society decided to hold its annual ball on November 30. A committee to take charge will be named by the president, George Abbott.

C.G.M.M. freighter Canadian Importer, Capt. McCullough, which is to undergo extensive repairs in the local dry dock arrived from Vancouver at 7.30 this morning and, soon after arrival, was taken on the pontoons.

The City Council has prepared a list of lots reverted for non-payment of taxes. Offers for any of the property will be received for consideration during the month of October. Anyone interested can receive a copy of the list at the Collector's office.

C.P.R. steamer Princess Mary, Capt. Arthur Slater, arrived at 2 o'clock this afternoon from Alaska ports and sailed at 3 for Vancouver and Victoria. Passengers leaving for the south on the Mary included M. Hestnes, L. Dyrndahl, I. Sletbakk, J. L. Brewster, John Wallace and Joseph Wallace.

Rev. William Allen, who conducted anniversary services in the local United Church on Sunday, returned to Terrace on this morning's train. Rev. Evan Baker took Mr. Allen's services at Terrace and returned from there last evening. Rev. George G. Hacker was the pastor in Rupert East Church on Sunday.

Mr. and Mrs. L. W. Patmore have returned to the city after a honeymoon trip of over a month following their marriage in Vancouver on September 1, the bride having formerly been Miss Irene Weatherhead of the local school teaching staff. They motored through the Okanagan and Kootenay districts and then went as far East as Winnipeg returning here last Saturday afternoon.

The utilities committee together with other members of the city council had a meeting last night to go further into the power question. The report of J. J. Little, superintendent of utilities, and H. A. McLean, city engineer, was presented and will come officially before the council at the regular meeting. A recommendation with respect to the application of the Canadian Fish & Cold Storage Co. for power will also be presented.

Prince Rupert Assembly, Native Sons of Canada, was addressed last evening by F. M. Duchemin, a member of Kamloops Assembly and a former grand chaplain. He spoke in a very interesting manner on Canadianism. The meeting received new applications for membership and decided to make arrangements for some form of winter entertainment. A. J. Prudhomme, vice-president occupied the chair in the absence of the president, Ald. M. M. Stephens.

EGG AND POULTRY POOL FOR WESTERN CANADA UNDER WAY

EDMONTON, Oct. 12.—The formation of a Western Canada Egg and Poultry pool is a foregone conclusion and is bound to come sooner or later, said D. M. Malin Friday on his return from Calgary where representatives of the Alberta, Manitoba and Saskatchewan pools met to form an inter-provincial body.

"As yet we have not reached the point where any very definite plans have been formulated but we hope to commence operating in the near future. There are some points of difference in the marketing of eggs and poultry produce in the three provinces that will have to be worked out, but there is every prospect of these being successfully overcome."

Mr. Malin considered the first duty of the pool would be to market the products of the pool and to purchase supplies for members.

A meeting of the pool will be held towards the end of December or early next year to further consolidate its three sections.

BOY WAS KILLED STRUCK BY A CAR

VICTORIA, Oct. 12.—Knocked down by an auto while riding a bicycle on Friday, John Tickle, a ten year old lad, died Sunday without regaining consciousness.

Union steamer Cardena, Capt. A. E. Jackson, returned at 9.40 this morning from Anyox, Alice Arm and Stewart and will sail at 5 o'clock this evening for Vancouver and work ports. Passengers booked to sail from here for the south on the vessel include R. W. Gilley and E. J. Arney for Vancouver and George G. Bushby for Victoria.

Ingvald Sletbakk, fisherman aboard the schooner Kaien, sailed on the Princess Mary this afternoon for the north. He will visit in Seattle and other western cities before proceeding to New York where, on October 26, he will embark aboard the Norwegian-American liner Stavangerford for Norway to spend the winter at his home in Lidjford, Heigeland.

PRESCRIPTIONS

When your physician writes a prescription he specifies exactly what drugs he wants and the amount of each ingredient. But the problem of compounding these ingredients so that the BEST RESULTS are obtained—that is left to the pharmacist's judgment.

How important it is, then, to choose your pharmacist with care and take the prescription to one who is properly qualified by law, by education, and by experience to perform this important task. For all the accumulated knowledge brought to bear by your doctor in writing the prescription may go for naught unless the compounding is done in accordance with the most approved methods.

When your prescription is compounded by us you are assured of getting exactly what the doctor specifies. Furthermore, you are assured of having the prescription compounded properly by an EXPERIENCED PHARMACIST with the VERY BEST GRADE OF MATERIALS OBTAINABLE.

LEAGUE AGENCY IN WASHINGTON

HEADQUARTERS FOR BIG WORLD ORGANIZATION OPPOSITE STATE DEPARTMENT

WASHINGTON, Oct. 12.—An official agency of the League of Nations, the International Labor Office with headquarters at Geneva, is operating almost at the front door of the State Department.

Although the United States stays outside the League, recognition has been given to the Washington Branch of the International Labor Office, which is exempt from taxation and which is permitted to import duty free books and documents from the Geneva headquarters.

INTERPRETS U.S. LABOR The office has been operating here quietly for some time and only recently came to public notice with the issuing of a series of public statements dealing with its activities and with the worldwide work of the Geneva office.

Lelifer Magnusson, a former official of the American Labor Department, is director of the Washington Branch, the prime purpose of which is to interpret the industrial and labor situation in the United States for the central office.

"The Washington Branch collects federal and state government publications in the field of labor and industry and sees to it that they are regularly dispatched to Geneva," said Mr. Magnusson.

AFTER 8-HOUR DAY "It prepares memoranda in response to specific inquiries from the central office. Larger researches also have been undertaken, among which have been a study of the housing situation in the United States; the use of leisure time by industrial workers; the status of health insurance and old age pensions in this country. For associations and individuals in this country, this branch gives information concerning the work of the Geneva office."

Inquiries directed by members of congress, government departments and state officials to the Washington branch deal with such subjects as industrial conditions in Egypt, China, Japan and India world unemployment and price movement, working women in industry in the different major countries, establishment of the eight hour day and 48 hour week abroad.

The International Labor Office, has as its prime object the establishment of the eight-hour day and the 48 hour week among the laboring people in all countries.

BID INVITED FOR REPAIRS

PRINCE RUPERT SHIPYARD ASKED TO GIVE PRICE ON KAIKYU MARU

VICTORIA, Oct. 12.—Prince Rupert as well as other shipyards is invited to bid on the repair job for the Kaiyuu Maru and it is expected the work will run into \$200,000.

The ship is beached at Blenkinsop Bay, where patching the hull is being completed. Officials of the Pacific Salvage Company stated this week they expect to refloat the vessel, following which she will be towed to Vancouver and drydocked for survey by underwriters and shipyard surveyors.

Both the Victoria Machinery Depot and Yarrows, Limited, will send one of their men over to Vancouver to make a bid for the contract. Damage to the vessel is of such an extent that it will take approximately three months to complete, and will provide employment for some 150 to 200 men. Victoria firms will make a strong effort to secure this contract.

MUCH TOUGH AND SPROUTED GRAIN Only Forty per cent of Prairie Grain Threshed at Week End

Fine weather has prevailed during the past week in Alberta and in parts of Saskatchewan and threshing is general says the Bank of Montreal report.

Elsewhere on Prairies there have been further rains. There will be much tough and sprouted grain, but extent of this will depend on future weather, as probably not more than 40 per cent of threshing has been completed. In Quebec quality of grain crops as a whole has been affected adversely by heavy rains during the harvesting operations.

In Ontario dry weather during the past week has enabled most farmers to complete their grain harvesting. In Maritime Provinces weather conditions for completing harvest have been favorable and roots will be a good yield. In British Columbia harvesting of all crops, except late apples and roots, is practically completed.

WATER NOTICE. Diversion and Use. TAKE NOTICE that Robert George Johnston, whose address is Inverness Cannery, will apply for a license to take and use 10,000 gallons per day of water out of creek, west of what is known as Kitsoo, also known as (no name), which flows south-east and drains into Trout Bay about 400 feet south along the beach from the southeast corner Lot "A", Kitsoo L.R. The water will be diverted from the stream at a point about 500 feet from its mouth and will be used for domestic and canning purposes upon the land described as Lot "A", Kitsoo L.R. This notice is posted on the ground on the 15th day of September, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is September 30, 1920.

ROBERT GEORGE JOHNSTON, Applicant.

WATER NOTICE. Diversion and Use. TAKE NOTICE that K. Kyle, whose address is Wrangell, Alaska, and Telegraph Creek, B. C., will apply for a license to take and use 2,000 miners' inches flow of water out of Bucks Gulch, which flows easterly into Dease Creek. The water will be diverted from the stream at a point about two miles up the stream from its mouth into Dease Creek and will be used for hydraulic mining purposes upon bench placer claims known and described as leases No. 120 and 121. This notice is posted on the ground on the 23rd day of July, 1920.

A copy of this notice and an application pursuant thereto and to the "Water Act," will be filed in the office of the Water Recorder at Telegraph Creek. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in the local newspaper. The date of the first publication of this notice is September 14th, 1920.

H. D. KYLE, Applicant.

ANNIVERSARY UNITED CHURCH

LARGE NUMBERS TOOK PART IN BIG ANNUAL EVENT

The Prince Rupert United (Methodist) Church celebrated its eighteenth anniversary with special services on Sunday and a congregational supper last night.

On Sunday the pulpit was taken by Rev. William Allen of Terrace and there were two excellent services. Music in the morning was by the children and, in the evening, by the senior choir.

There were two hundred present at the supper and concert, both of which were under the auspices of the Ladies' Aid, Mrs. J. Krikevsky president. The social parlors were suitably decorated and a splendid fare was provided for the large turnout.

After the supper, the festivities were carried into the auditorium of the church where a program of much excellence was enjoyed. Mrs. Anderson, accompanied by Mrs. Donald Ross, and Mrs. F. W. Allen and J. S. Wilson, accompanied by Mrs. Cullen, were much appreciated soloists. A vocal duet by Mrs. Allen and Mr. Wilson proved very popular and Miss M. A. Way's piano solos were of their usual quality and skill. Miss Marjorie Lancaster's violin solos, with Mrs. H. C. Fraser accompanying, were much applauded and Miss Louie Fisher won the audience with her clever elocutionary numbers.

In the course of the evening, Rev. William Allen, punctuating his remarks with humorous sallies, delivered a fine address on "The Changes in the Kirk" dealing with the development of the services from the olden days to the modern. He also referred to the many improvements in church music.

The evening's entertainment was brought to a close with the singing of the National Anthem.

GOSSIP ABOUT WOMEN

ORDERS MEN TO WORK On a tour of investigation among the villages of the Black Sea region, the Governor found that farm work was being done by women, while their lords and masters sat in the village coffee houses smoking and gossiping.

The Governor gave orders to the mayor of each village in this district, that every able bodied man should be forced to work in the fields during the day and that he should be allowed to sit in the coffee houses during the hours when the women were toiling.

ALL HAIR LONG The island of Ushant, in Brittany, claims to be the only point left in Europe wherein bobbed hair is unknown. The women all wear their hair long and down the back. Viewed from the rear it is difficult to discern among the female element, children, mothers or grandmothers, as they all look like young girls of a generation past, when long curls were the rule.

RENEW SUFFRAGE FIGHT French militant suffragists are going to carry their demand for the vote to every town, village and farmhouse in France. Under the leadership of Mme. Marthe Bray, president of the League for Immediate Suffrage, flying parties will tour France in automobiles, concentrating their work on the individuals.

Heretofore feminine persuasion has been brought to bear largely on the politicians. There have been many "fair promises," says Mme. Bray, but little action.

The League for Immediate Suffrage hopes by its personal appeal to the people of the country to get a measure granting suffrage to women through the next session of Parliament, which meets this month.

LONDON'S "SHE-SHYLOCKS" "She-Shylocks of the Slums" is the epithet applied to women who specialize in small loans to wives of working men in the poor districts of England's great cities.

One of these money lenders has been fined five pounds for transaction in which the interest charged was at the rate of 866 per cent a year. The lady was not fined for her high interest rate, but for operating without a license. The business could have been legalized merely by filling out a form and paying a small fee.

There are hundreds of "She-Shylocks" in Great Britain. They make loans for a few shillings to poor, ignorant women who usually meekly submit to exorbitant interest charges rather than let their husbands know they are in the toils of money lenders.

WOMAN BLACKSMITH Rosa Steinklauber, blacksmith, is one of the best known artisans in Eggenburg, Austria.

A diploma testifies that she is a fully articulated, having served her apprenticeship and satisfied her examiners that she is entitled to call herself a master blacksmith.

Rosa is a cartwright as well as a blacksmith. She is a handsome woman, whose strength is equal to that of any man, and can shoe the most refractory horse.

PREMIUM FOR NURSING A premium of 750 marks for all mothers nursing their children for at least 16 weeks has been appropriated by the Reichsheim Ministry for Public Welfare. This premium will be paid to the persevering mother at the expiration of the 16th week and repeated

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household--every member of the household who shares the responsibility for the family's welfare--should make a habit of reading the ads.

Read the advertisements in order to buy wisely

COOK 30 YEARS Premier Briand has retained his cook over a period of thirty years. On each of his twelve sojourns in various ministries, M. Briand took the faithful cook along with him. She enjoys a high reputation among the diplomats and statesmen who attend banquets given at the Quai d'Orsay and has become such an important person that she was recently interviewed.

"Monsieur Briand may be in the right place at the Foreign affairs," she volunteered, "but I would hate to have him go to the Finances."

"Why," asked the interviewer, "He never checks up my accounts," she replied.

CANADIAN HOUSE AT UNIVERSITY PARIS TO OPEN

PARIS, Oct. 12.—The Canadian House in the "Cite Universitaire de Paris" will soon open its doors to the studious youth of Canada. The inauguration will take place Saturday, October 30, under the presidency of H.R.H. the Prince of Wales and the President of the French Republic, before a distinguished body of people.

The University City of Paris is the result of a very generous idea. At the end of the war, a great French manufacturer, M. Deutsch de la Meurthe, realizing the difficulties in which the young generation of students found themselves, after the enormous sacrifices which France had made, decided to aid them in a very practical manner. It occurred to Senator Honnorat, minister of Public Instruction of the French Government, at the same time, that it would be a great idea to re-build around the University of Paris, the Colleges of the Nations which had in times past enjoyed such a great prestige. In accord with Mr. Deutsch de la Meurthe who put at his disposition ten million francs, he decided to found "La Cite Universitaire de Paris" for which he invited the various foreign countries to build Houses where their students would receive, along with very advantageous conditions of living, a first class university education.

The Minister thereupon obtained from the City of Paris, seventy acres of land then taken up by the fortifications in front of Montsouris Park, not far from the Sorbonne and the school quarter, and on them gave free sites to the foreign countries, requesting them for their buildings.

The Canadian High Commissioner in France who had thought of the same thing at the close of the war, hastened to take an option on the site adjoining the French Buildings and immediately made an appeal to his fellow subjects for the means to carry through such a commendable project. Canada as a

MYSTERIOUS RIVER FLOWS UNDERGROUND WOOD BUFFALO PARK

EDMONTON, Oct. 12.—A river that after flowing through the wilderness in quite the usual way disappears completely from sight, goes on through more wilderness for a mile and one-half underground and then comes out again at the foot of a cliff is one of the wonders of the north reported by John Russell, of the topographical Survey of Canada, who returned to the city after a summer's work in the new wood buffalo park. This mysterious river is a tributary of the Little Buffalo river and averages about 30 feet in width. A pretty waterfall, with a drop of 65 feet, is another of the Little Buffalo's sights.

Mr. Russell was in charge of a field party of three men who made an exploratory survey of the northern part of the buffalo park reserve during the summer. They went in last May and have since been working in territory mostly unknown except to the native Indians. It is a region, says Mr. Russell, of lakes, swamps and rivers, and has little potential value beyond that of a wild animal sanctuary.

Complete data were taken by the party in the course of the season's work, comprising field notes on all the waterways and the adjacent country.

MANY AMERICANS HUNTING IN CANADA

EDMONTON, Oct. 12.—Northern Saskatchewan's thrashing is more than 50 per cent finished with wheat averaging 17 bushels to the acre. There is little No. 1 grain, the averaging being three to four with considerable per centage tough. In the southern area, where wetter weather has prevailed, thrashing is about 30 per cent finished though in sections 75 per cent is completed. The grain threshed early graded mostly one and two, but much of the later returns will be tough and of a lower grade.

EDMONTON, Oct. 12.—Northern Quebec is this year enjoying a record influx of Americans according to E. G. Poole, fish and game representative of the Canadian National Railways, who has just returned to Montreal after a visit to several of the hunting districts in the province. In some sections so great has been the invasion that every available guide has been employed by hunting parties. Splendid bags are being secured and there is great competition between the various guides and outfitters to decide who shall be able to provide their party with the record heads of the season. Already many splendid heads have been secured in the hunting territories along Canadian National lines but the record will not be decided until the close of the season brings in reports from the different outfitters.

STEWART

A check for over \$10,000 has been received by the Porter Idaho management for the first forty tons of ore shipped this year. The mine is keeping up consistent shipments of twenty tons weekly and there is enough high grade ore in sight to keep all the pack horses available busy until winter closes the trail.

There will be a mass meeting of taxholders and residents of Stewart tonight to discuss the proposal of having this town incorporated under the Village Act.

Taking an overdose of quinine for a cold while in a weakened condition, J. F. Bowman, carpenter at the Big Missouri mine, died at the mine last Thursday morning after a brief illness. He was 38 years old and his mother, his only known relative, resides at Harwood, Oregon, to which place the remains have been forwarded.

BURNS LAKE

Miss Mae McDonald has left for Prince Rupert.

Leonard Kerr broke his wrist last week but is now progressing favorably.

Andrew R. Brown has left for Port Fraser where he has received the contract for the building of a new school.

Mrs. James Bland and children have left for Victoria where they will spend the winter.

Mrs. Taylor Jensen is very ill and Mrs. M. F. Nourse is taking care of the children.

Eli Ferguson of Pelling, the well known weather prophet who, for four years, has successfully forecasted the weather every six months, now predicts that the fall in this locality will be mild and wet, that the winter will be a broken one and that there will be a cold snap, but not a severe one, around Christmas. The rest of the winter, he says, will be mild and clear, with a good fall of snow making it favorable for those engaged in the timber business.

POLICE MAGISTRATE EDMONTON COMING TO SPEAK IN CITY

Lieut.-Col. George B. McLeod, police magistrate for the city of Edmonton and Supreme Grand Master of the Knights Templar of Canada, will be a distinguished visitor in the city tomorrow. He will arrive from Vancouver on the steamer Prince George and will proceed East on Thursday morning. He will be the speaker at a luncheon of the Gyro Club tomorrow at 1 o'clock and, in the evening, he will pay an official visit to Kinloch Preceptory, Knights Templar.

GYPSIES OF ENGLAND BOBBING THEIR HAIR

BARNET, England, Oct. 12.—"Fat Lady" shows are among the dying industries. For the first time this year, the famous centuries old Barnet fair is without this side attraction. Showmen say that nowadays no woman wants to be fat, even for money.

Barnet fair is noted for its horse and pony sales. The animals are brought here from all parts of England, by gypsies, and it was noted that this year most of the gypsy women and girls had adopted the shingle.

FIFTY PER CENT OF WHEAT IS TOUGH IN NORTHERN ALBERTA

EDMONTON, Oct. 12.—Northern Saskatchewan's thrashing is more than 50 per cent finished with wheat averaging 17 bushels to the acre. There is little No. 1 grain, the averaging being three to four with considerable per centage tough. In the southern area, where wetter weather has prevailed, thrashing is about 30 per cent finished though in sections 75 per cent is completed. The grain threshed early graded mostly one and two, but much of the later returns will be tough and of a lower grade.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant, unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.
