FISHERMAN DROWNED IN HECATE STRAIT

MINISTER OF FINANCE ANNOUNCES INCOME TAX WILL BE REDUCED SOON

Isaac Lear Drowned at Sea from Own Fishing Boat the Cape Spear

Tragic circumstances surrounded attempt to save well known fisherman by relatives who were aboard boat

Under circumstances most tragic and unexpected, Isaac Lear, one of the best known and most highly respected halibut boat owners and masters of this port, came to his death while in the active pursuit of his calling aboard his schooner, Cape Spear, aat 3 o'clock on Thursday afternoon. The late Capt. Lear fell overboard from the vessel and, being unable to swim and with circumstances mitigating against his rescue, he was drowned in Squally Channel, 90 miles southwest of this port in Hecate Straits.

The tragedy occurred when Mr. Lear was working on the pulling up of 225 fathoms of buoy line. It was a new skate of gear and was greasy and tarry. Capt. Lear was at the roller on the side of the vessel, steering the boat and in control of the engine, and his brother, Harry Lear, was at the gurdy. The gear slipped from the gurdy and, apparently trying to hold it, deceased went headfirst overboard. In the meantime, he had thrown in the engine clutch and, as he fell, the boat was going ahead. The weather was calm and the water smooth and Capt. Lear came to the surface about 50 feet from the point to which the boat had moved. Buoy kegs were thrown to him, a dory was launched and the boat was put into reverse. It seemed almost fateful that, when the boat was being backed up toward the drowning man, the engine flooded and stopped. Had it not been for this, a rescue would very probably have been effected. Unable to swim and handicapped with heavy fishing clothes, deceased put up a tremendous struggle almost within grasp of one of the buoy kegs but, when one stroke might have saved his life, he sank to a watery grave before the eyes of his companions, all relatives, who were feverishly endeavoring to rescue him. The body was not recovered.

Joe Baker Arrived

Soon after the tragedy, the schooner Joe Baker hove alongside but it was too late for the members of its crew to lend any assistance in saving Capt. Lear's life. The gear was hauled in and it was hoped that the body might have been entangled in it and recovered but it was not. By this time, it was dark and the Cape Clear proceeded to anchorage for the night, leaving at 6 o'clock yesterday morning and arriving here with its sad news at 7 o'clock last evening.

The late Capt. Lear was the master and owner of the Cape Spear. Other members of the crew were his brother, Harry Lear; cousin, W. J. Marshall, and nephew, Nathanial Mugford.

Deceased leaves to mourn his loss a widow, who was formerly Miss Eva Sherk of this city, and four young children, Harley, 8 years; Hazel, 4 years, and Gwenny and Della, 1-½ year old twins. Prostrated with grief at their home in the Williams house on Borden Street, the deepest sympathy of the community will be extended to the well known and highly respected family in their hour of deep sorrow.

Beside his brother here, deceased is survived by another

EMPRESS GETS NEW ENGINES

Speed of Australia to be Increased by Installation of Ordinary Turbines

COST MILLION AND HALF

Job on Former German Ship will be Done in Scotland at Fairfield Shipyards

VANCOUVER, March 13—Cable advices from Glasgow and confirmed by local officials state that the Canadian Pacific liner, Empress of Australia, will be taken to Scotland next year and have a new set of ordinary turbine engines installed in place of the special geared turbines now in the ship in order to increase her speed from 16.5 to 18.5 knots.

The Fairfield Shipbuilding Company has secured the contract for the installation at a cost of a million and a half dollars.

The liner was formerly a German ship which was seized at the conclusion of the war.

GRAIN MOVING PACIFIC COAST

Bulk of Week's Loadings Were For Vancouver Canadian National Reports Show

A large percentage of the 1925 grain crop that remains unmarketed is steadily moving to the Pacific coast, the C.N.R. report for the week ending March 11 showing that 771 of the 962 cars loaded during the week by that company went to Vancouver. This brings the total deliveries to that point for the crop season up to 17,163 cars.

Marketings for the week totalled 1,622,000 bushels at Canadian National prairie points, Alberta leading with 490,000 bushels.

THIRTY DEATHS ITALIAN SHIP

BUENOS AYRES, March 13. — Measles, pneumonia and peritonitis caused thirty deaths, mostly emigrants aboard the Italian liner Belvedere since her departure from Trieste, it was learned upon arrival here yesterday. The dead were buried at sea.

BOXER TO DOCK MONDAY MORN

Will be Examined and Probably Repaired Here Before Proceeding to Seward

OTHER VESSELS HERE.

Shipyard Busy on Work for Government Merchant Marine and the Marfish

The U.S. steamer Boxer, which was ashore at Whitecliff Island and which arrived here yesterday, will go on the drydock Monday morning for examination and probably for repair. The forefoot is slightly damaged but it is not thought there is anything else wrong with her. However it was thought best to have her examined before proceeding to Seward.

The steamer Prince George came off the drydock today after being out of the water for the past ten days getting a new liner for the propeller shaft. She will go on the run Friday in place of the Prince Rupert which will then be overhauled.

A good deal of work is being done on the fisheries boat Marfish at the drydock.

Work on the Canadian Coaster is proceeding with despatch.

COMPEL ALL TO PAY DUE TAXES

Consultation of Collectors and Assessors Has Been Proceeding During Week in Victoria

VICTORIA, March 13. — Tax collectors and assessors from all over the province have been gathered here during the week discussing tax collection matters with Hon. J. D. MacLean, minister of finance.

One of the important matters before the group was an effort to work out a more equitable method of assessing personal property than that at present in vogue.

The finance department is planning to tighten up tax collecting in the province, with a view to seeing that none who are liable to pay shall escape.

SCHOONERS ARE SAID MISSING

Twin Pearls of the Pacific Fail to Arrive at Panama Canal in Three Months

MIAMI, Fla., March 13.—Two famous schooners, Alvena and Irene, staging a race from Aberdeen, Washington, to Miami with lumber are listed as missing. Each had a crew of nine officers and men.

The vessels which were known as the "Twin Pearls of the Pacific" sailed from Aberdeen a few hours apart on December 11. Thirty days moderate sailing was allowed for both to reach the Panama Canal but no word from either craft has been received.

Passengers sailing this afternoon for the south on the Princess Beatrice included J. Slade Stevens, E. Brand and W. Silversides for Ocean Falls; J. Claremon and Corbett for Swanson Bay, and W. Arnold and M. O. Muskolm for Vancouver.

VICTORIA TIES SASKATOON IN ROUGH HOCKEY

Will Meet Again at Victoria Tuesday to Decide Which Plays Edmonton for Championship

SASKATOON, March 13. — In one of the roughest games ever seen here, the Victoria Cougars and Saskatoon Sheiks played a three goal to three tie in the first game of the Western Hockey League playoff last night. The result of the tie is that the teams will meet on even terms at Victoria Tuesday to decide which team meets the Edmonton Eskimos for the league championship and the right to go east to enter the contest for the Stanley Cup.

JURY DISAGREE IN FRUIT CASE

Were Locked up All Night But This Morning Had Reached No Verdict

VANCOUVER, March 13.—The jury in the fruit combine case reported at 11.20 this morning that they were unable to reach an agreement after 23 hours' deliberation. On instructions from Mr. Justice McDonald they retired again in an endeavor to reach a verdict.

At the completion of the judge's charge yesterday in the case against the eleven individuals and forty-two fruit firms the jury retired at 12.30 and at eight o'clock last evening reported that they were unable to reach a verdict. The judge then ordered them locked up to report again this morning.

SAN FRANCISCO GIVES B.C. FIRST RIGHT TO PROSECUTE MILO EGGERS

SEATTLE, March 13—Instructions to turn Milo Eggers over to the authorities of British Columbia where he is wanted as a suspect in a hi-jacking shooting case, were received today from San Francisco where the man is also wanted.

IMMIGRANTS ARE COMING

Special Train Brings Europeans to Prairies Today: Rush Next Week

WINNIPEG, March 13. — The second Canadian National immigration "specia" this season arrived this morning with 235 stalwart Europeans for work on prairie farms. Czecho-Slovakians, formed the largest group on the train with 99 practically all young men. Thirteen Lithuanians, single, of from twenty to thirty years, presented a fine appearance and in a few words of broken English explained that they were farmers come to work on Canadian farms for a while and then get land of their own in this country. Other nationalities in this party from the ss. Lithuania included Ukranians, Hebrews and Poles. Among the latter was a family group composed of the mother, who lost her husband during the war and later had her land confiscated by the Russian government, with her three sons, who refused to leave their old mother in Poland while they came to Canada to start life anew. The family, having some means of their own are being assisted by the C.N.R. colonization department at Warsaw and the government to eventually have a farm of their own once more.

Distribution of those not booked direct to farming districts is taking place this morning.

Next week will see the real rush of immigration to western Canada, half a dozen trains being due to arrive over Canadian National lines from the seaboard.

Japanese Destroyers Fired on by Chinese National Army Troops at Pei River Entrance Yesterday

TIEN TSIN, March 13.—Two Japanese destroyers which were crossing the bar at the entrance to Pei River yesterday were subjected to considerable rifle fire from shore trenches occupied by Chinese National army troops.

The destroyers, after replying to the fire, turned back and anchored outside the bar.

Three sailors were wounded, one seriously.

Income Tax will be Reduced as Finances Permit Announced the Minister of Finance Yesterday

OTTAWA, March 13.—Hon. James Robb, minister of finance, told a delegation representing the retail trade bureau of Canada yesterday afternoon that the government hoped to make reductions in the income tax as finances permitted.

The delegation asked that the present Dominion tax be abolished on the ground that it is not only confiscating capital required to extend our industries but that it is frightening capital out of industry and preventing new investments being made.

Mr. Robb said the government had decreased the income tax already by enlarging the exemptions. He hoped this process would be continued. He thought the delegates would agree that those who served during the war should be relieved of taxation first.

FLYING OFFICER HULL IS TRANSFERRED EAST

Will Become Instructor at Camp Borden — Flight Lieutenant MacLeod is Remaining on This Coast

Flying Officer Allan R. Hull, stationed at Prince Rupert during the past two years in connection with the aerial fisheries patrol, is to be transferred shortly from the Jericho Beach station of the Royal Canadian Air Force to Camp Borden where he will become an instructor. He and Mrs. Hull and family will leave Vancouver in the near future for Ontario.

Flight Lieutenant Earl MacLeod, who was in charge of the Air Force detachment here during the past three seasons and who was to have gone to Ottawa to take charge of the station there, it still in Vancouver and it is expected that he will come here again this year.

Everyone Will Watch Compulsory Arbitration.

The compulsory arbitration law just passed in Italy will be watched with much interest throughout the world. While we all like the idea of arbitration it is difficult to understand how they propose to enforce the compulsory clause. However, that remains to be seen. If Italy can make it work, other countries may do the same. It is rather difficult to understand how a Mussolini can be responsible for a really important advance in democratic government.

Picnic Grounds At Salt Lakes.

A picnic ground is desired at the Salt Lakes where local organizations may hold athletic sports or enjoy themselves in any manner desirable. The Trades and Labor Council has offered to co-operate in securing this. If such a ground can be laid out, there should be little difficulty in organizing a bee and getting fifty people to spend a day working there and getting it in shape. It may be a little difficult deciding on a site.

Doubtless the Parks Board which was appointed last fall will get busy pretty soon and arrange for something to be done. The swimming club, it has been suggested, might be given charge of the lake and possibly also the approaching grounds.

Freight Rates And This Port.

Prince Rupert has never asked for lower freight rates for grain than is given anyone else. Just now there is a demand for rates that are just as low as those to Fort William from an equal distance. If that rate is too low then let both be raised. The only kick we have had has been against the unequal treatment accorded the Pacific coast. Let us be all on the same footing and there will then be no more to say.

Refusing Women Privilege Of Beer.

The hotel keepers of Edmonton are refusing to sell beer to women. There have been women who abused the privilege and the others must suffer. Of course men never abuse the booze privileges. They never get drunk and make themselves a nuisance on the streets. Men are models of behavior but with women it is different.

Our stand is that if beer is good for men it is also good for women. If men are to be given privileges, women should be given the same. It is our opinion that the hotel keepers of Edmonton cannot legally refuse to sell beer to women when there is no law against it. If it is impossible to conduct the parlor decently with women there, it is a sign that they should be closed up and not that women should be excluded.

Indian Relics For B.C. Institutions.

There is a movement in the south to get a collection of Indian relics for the University of B.C. Of course the provincial government would be expected to pay for it.

The government has already secured a very fine collection of Indian curios in the museum at Victoria and if a collection is needed in Vancouver it should be for Vancouver people to secure it, not the government. In Prince Rupert efforts with that end in view have been made and there is now a fine collection in the Bank of Commerce building, part of it loaned and the other part the property of the city, held for the city by the museum board. It is to be hoped that an effort will be made to secure further specimens and to acquire at least a part of the collection now loaned.

A number of people have studied the Indian arts and customs and the work might well continue, but whether it should be tied up to the university is doubtful. It is hardly a subject in which young people are interested.

RUSSIA CEASES TO BE FACTOR WHEAT EXPORT

Sir Henry Thornton Explains Why Canada May Expect Era of Great Prosperity

DOMINANT WHEAT COUNTRY

Need of Reasonable Freight Rates Stressed by Head of National Railways

HAMILTON, Ont., March 13.—In an address here at a banquet in his honor Sir Henry Thornton, president of the Canadian National Railways, voiced the opinion that Canada was on the eve of a greater era of prosperity than had yet been experienced by the nation. He drew attention to the fact that Russia had ceased to be a factor in the export of wheat and that economic conditions in the United States were such that that nation would shortly be dependent upon Canada for wheat exports. Therefore Canada was promised the enviable position of being the dominant wheat exporting nation of the world. This not only would result in the Dominion becoming in actuality the outstanding granary of the world but would also attract more and more people to agricultural pursuits. The monetary returns were obvious.

Freight Rates

Discussing freight rates Sir Henry said:

"I wish to state emphatically that in putting these thoughts before this gathering I am not advancing any argument for increasing freight rates.

"Any country where traffic is handled over long distances should have the lowest freight rates possible and I would be the last person to advocate an undue increase. But it seems to me that it is to the national advantage to permit the railways a rate that will allow them to fulfil their duty to the nation, and at the same time, provide facilities to meet the increasing demands of traffic. If we, as a nation, throttle the arteries of traffic by any undue reduction of rates, then we must inevitably face hard times. On the other hand, if one advocates leaving the rates alone, one is liable to be branded an enemy of development. To my mind there is no reason why a course cannot be found which will accomplish the double objective of serving the public and at the same time assisting the railways in accomplishing their logical objective.

"This is the thought I desire to leave before the Canadian Manufacturers' Association. You, as an organization, are one of the foremost shippers of the road and in this I include the Canadian Pacific, for the Canadian Pacific is one of the builders of Canada and must be considered in any attempt to re-adjust the freight rates structure, the same as the Canadian National system. You know what the railways mean to Canada and how valuable they are as a national development."

ENJOYABLE SCOTCH DANCE LAST NIGHT

One Hundred and Twenty-five Persons Attended Affair Held by Hill 60 Chapter

Some 125 persons had a most enjoyable time at a Scottish dance which was held last night in the I.O.D.E. Hall by Hill 60 Chapter in aid of the children's ward fund. The fact that the orchestras gave their services free of charge made the proceeds much more substantial than they would otherwise have been. The jolly affair kept up till after 2 o'clock this morning, refreshments having been served at midnight.

Three out of every four dances were Scottish in nature. The musicians for the Scottish dances were John Bremner, James Watt, J. B. Mackay and W. Vaughan Davies and, for the Canadian, Mr. Sharpe, Alex Mitchell and Miss Agnes Donaldson.

The entertainment committee consisted of Mrs. B. Walker, Miss Caroline Mitchell, Miss Agnes Donaldson and Miss Etanda Marsh while the members of the refreshment committee were Mrs. B. Davey, Mrs. Smith and Mrs. John Manson. James Simpson was master of ceremonies and Mrs. Walker and Mrs. Manson presided at the door.

Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.

When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion.

At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.

John Watson and S. D. Macdonald were named delegates at the meeting of the St. Andrew's Society last night to the annual meeting of the Prince Rupert Football Association which will be held later in the month. Decision has not yet been reached whether or not a Callies' team will be entered in the league for the approaching season.

Owing to the brief time between the decision to hold a dance and the date of St. Patrick's Day, March 17, there was no choice but to omit the sending of formal invitations. In view of this it is hoped that as many as possible will be in the Boston Hall on the evening of the 17th, to renew acquaintance with the Shamrock. Proceeds of the dance go to the Boys' Band Fund. Admission $1.00. 61

Three boys, 14 years of age and under, confessed yesterday afternoon to Chief Vickers that they had removed the Royal Fish Co.'s light delivery car from the residence of Pete Lorenzen on Thursday night. This morning they appeared before Magistrate McClymont and were charged with using a car without authority. They were given suspended sentence, being required to report to the police every Saturday for four weeks. One of the boys sustained a cut in the collision uptown that followed the removal of the car.

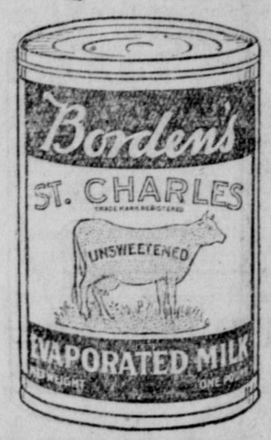
Cows' Milk that and .... nothing more!

A Free Recipe Book For You!

Maybe you are one of the thrifty housewives already using Borden's St. Charles Milk. Then you know how its creamy richness gives a delicious new flavor to all dishes, from soups to desserts. You know of its economy and convenience. Write The Borden Co. Limited, Vancouver, for a free copy of the famous St. Charles Recipe Book. It gives dozens of tempting, simple recipes. We print a specimen recipe here.



Escalloped Macaroni with Cheese

1½ cupfuls Borden's St. Charles Milk.
3 cupfuls cooked, drained macaroni cut in two-inch lengths.
1¼ cupfuls grated cheese.
1½ tablespoonfuls flour.
1½ tablespoonfuls butter.
½ teaspoonful salt; scant
1/8 teaspoonful pepper.
Few grains paprika.

Make a white sauce of the flour, butter, seasonings and the milk undiluted. Stir in the macaroni. Thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then one of cheese, continuing in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about 35 minutes.

PARENT-TEACHERS' MEETING AT TERRACE

Question of Beautifying School Grounds to Come up Next Month

TERRACE, March 13. — The regular monthly meeting of the Parent - Teachers' Association was held on Thursday evening in G.W.V.A. Hall with President J. M. Hatt in the chair. After routine business had been carried on the question of beautifying the school grounds was brought up but it was decided to leave it over until the following month when the meeting will be held at the school house.

After the business meeting adjourned Mr. Griffin, public school principal, read a very interesting and instructive paper entitled "A Father's Share in the Education of His Child," by Dunstan Brewer.

Refreshments were served at the close of the meeting.

Those who are absent are often nearer to us than those who are present.—Max Muller.

SMITHERS REBEKAHS ENTERTAIN AT CARDS

SMITHERS, March 13. — The regular monthly Rebekah whist and bridge drive was held in their lodge rooms on Wednesday evening and a most enjoyable evening spent by those in attendance at the games.

When play was finished it was found that the top scores at whist had been made by Mrs. K. Birnie and Mr. Pappas first, and Mrs. K. Bates and R. Elliott second. At bridge the top scorers were Mrs. G. Wall and E. Gunderson first, and Mrs. H. G. Windt and H. Kelley, all of whom received nice prizes for their efforts. Refreshments were served before the players dispersed.

THE MAN IN THE MOON says:

VERY soon it will be the season for spring fever. I wonder how some of my lazy friends will know when it comes.

THE way to learn to whistle is to make a hole in your face and then push.

COLD cream may be all right for some people to keep away wrinkles, but give me a little of the milk of human kindness.

I USED to know a man who was thinner than a modern girl's hose. Can you beat it?

ONCE upon a time a young lady went to church and when the parson looked at her and told of the evils of a misspent life she felt guiltier than a poker chip in a missionary box.

I OFTEN get into scrapes, but think what it must be to be a rear fender.

I KNOW a man who looks as mean as a girl in a mail order bathing suit.

THEY are asking for an asylum for the insane people of Alaska. I don't know what would best be done for the crazy people here.

A NEW match produces more heat than an old flame.

IF a woman keeps on giving you a piece of her mind is it any wonder she has very little left.

THIS has been a happy day. I have not had to swear more than half a dozen times.

WHENEVER I feel like swearing
And my mouth shapes ready for "Damn"
I think of poor little Mary
And her sweet and blissful lamb.
What comfort that lamb is to me
Is more than I care to tell,
For just think of following Mary
It certainly must have been hell.

ISAAC LEAR DROWNED AT SEA FROM OWN FISHING BOAT THE CAPE SPEAR.

(continued from page one)

brother, Benjamin Lear of Vancouver; two sisters, Mrs. Laura Mugford of Port de Grave, Newfoundland, and Mrs. Lucy Snow of Bay Roberts, Newfoundland, and two half-brothers, John and Edward Paton of Glace Bay, Nova Scotia.

Born in Newfoundland

The late Capt. Lear was 36 years of age and was born at Port de Grave, Conception Bay, Newfoundland. He left Newfoundland in 1910 and, after spending a short time in Calgary, came to the same year to Vancouver. In 1914 he entered the halibut fishing business in Prince Rupert and had resided here continuously since then. He was a member of the Loyal Orange Lodge.

The fatal trip was the second of the Cape Spear this season. She sold 7,000 pounds of halibut on the Exchange this morning as a result of five days' fishing. The vessel is one of the newer of the Canadian fleet, having been built three years ago.

ENDED YEARS OF BAD HEADACHES

"Fruit-a-tives" Completely Relieves all forms of Headache

MRS. HONORE VALIQUETTE

"For over three years, I was troubled with very bad Headaches, Nervous Dyspepsia and Liver Troubles. Then, I began taking "Fruit-a-tives". Very soon my condition improved, and thanks to these wonderful fruit tablets I am once more entirely well".

The wonders of the famous Fruit Treatment are only revealed when you read a letter like this, which comes from Madame Valiquette, 1133 Notre Dame St. W., Montreal.

"Fruit-a-tives" is the juices of apples, oranges, figs and prunes, intensified and combined with tonics—and forms a complete fruit treatment for Stomach, Liver, Kidney and Skin Troubles.

PRINCE RUPERT BEAT SIMPSON

Locals Had the Best of it in Basketball Encounter Last Evening

The locals proved too strong for the Port Simpson visitors in the basketball game last night at the Exhibition Hall and Prince Rupert came off on the long end of a 34 to 11 score. Port Simpson showed some clever passing and combination ability but the home team did more effective shooting. The match was perhaps more closely contested than the score would indicate. At half time the score was 11 to 5 in Prince Rupert's favor. Lee Dell refereed the first half and Eddie Mann, the second.

The line-ups and scoring were as follows:

Port Simpson—R. Sankey, 5; P. Alexcee; R. Matheson, 2; W. Johnson, 1; D. Musgrave, C. Ross, G. White, 2; G. Webster, 1.

Prince Rupert—P. Howard, 5; W. Mitchell, 10; D. Balfour, 13; V. Menzies, 1; E. Smith, W. Lambie, 2; G. Skinner, 2; G. Mitchell.

The evening's program of games opened with an exhibition match between the Maple Leafs' and High School ladies' teams. W. Mitchell was the referee. The Maple Leafs won.

There was a good crowd of about three hundred people on hand to witness the games and the Exhibition Board will benefit to the extent of about $75.

The Port Simpson team is returning home by gas boat today.

SURPRISE IS SPRUNG IN BILLIARD SERIES

Fred Pyle Eliminated Col. McMordie by Score of 500 to 494 Last Evening

The victory of Fred Pyle over Col. S. P. McMordie by a score of 500 to 494 in the semi-final last night of the city billiard championship series came as a general surprise. Pyle played a safely game and, at the same time, had the break of the luck while McMordie was not playing in usual form. Playing a steady game, Pyle got away to a good start at the first and was leading his opponent by 100 or more points up to the 400 mark. Col. McMordie then commenced to pull up considerably but could not make the 500 first though Pyle made a slow finish.

Pyle's high break was 21 and McMordie's 32. The averages per innings were 4.475 and 4.150 respectively and the time of the tournament was 2 hours and 56 minutes.

J. Andrews was referee; G. S. Russell, scorer; W. E. Willis-croft, marker; and Oscar Young was at the door.

The second semi-final will be this evening between George McIlmoyle and George Waugh.

USE AND STORAGE

TAKE NOTICE that Los Angeles Lumber Products Company, whose address is c/o. Messrs. Ladner & Cantelon, Rogers Bldg., Vancouver, B.C., also Box 1055, San Pedro, California, U.S.A., will apply for a licence to take and use 500 cubic feet per second, and to store 75 thousand acre feet of water out of Ain River, which flows southerly and drains into Masset Inlet, about one half mile easterly from Buckley Bay. The storage-dam will be located at the outlet of Ain Lake or at a point below the said outlet to be determined after surveys are made. The capacity of the reservoir to be created is about 75 thousand acre feet and it will flood about 3,800 acres of land. The water will be diverted from the stream at a point about the location of the storage-dam, namely the outlet of Ain Lake, and will be used for Power and Industrial purposes upon the land described as Lot 1434, Queen Charlotte Islands District. This notice was posted on the ground on the 19th day of February, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C. WATERFRONT WHIFFS

Plans prepared for Yacht Club's new home--- American halibut fleet prospers---arrivals here during week were light

The Prince Rupert Yacht and Rowing Club has just had prepared a set of plans for a commodious club house that it proposes to erect just as soon as it is able to obtain a permanent waterfront site, preferably at the point on the east side of Cow Bay where it is now located. The club is in communication with the provincial department of lands and it hopes that, in the very near future, negotiations will have been completed whereby it will be enabled to proceed with the building project, the cost of which it is estimated will be at least $6,000.

Club Sitting Room

The over all dimensions of the building that it is proposed to erect are 60 by 42 feet with a height of one and a half storeys set on concrete piers in the ground and in the water practically at the point where the old Hazelton is now located. The plans embody a number of splendid features most prominent of which is a 47 by 29 foot club room on the ground floor. This room, which would have a fire place, could be used for dancing and other festive purposes as well as for meetings, etc. Along the entire front of the proposed building facing the harbor would run a 60 foot verandah 12 feet wide opening off the club room with French windows and doors. The club room would take up practically the entire ground floor with an alleyway and commodious hall to one end and into which the main entrance would open.

The upstairs of the building would contain two rooms for the club caretaker and a ladies' dressing and rest room, all having gable windows into the roof slanting from the four sides.

Gridiron and Racks

Underneath the verandah and main building running into the rocky shore would be a gridiron and racks. The floats would be located immediately in front of the building with a gang way from the verandah. The ground floor plan provides that passage could be made from the main entrance and hall of the building to the verandah and thence to the floats without entering the club room. The building would also be equipped with an abundance of lockers.

The above description will show that the building, besides being well appointed in the interior, will have a handsome exterior appearance. The enthusiasm displayed by the members of the club at the recent annual meeting with regard to erecting a club house has become intensified now that the plans are out and the hope is now very keen that arrangements will soon be effected whereby the structure may take actual shape. The need for a club house is great and it is to be hoped that the aspirations of the club along this line may soon be accomplished. The old river boat, which has served for so many years, has long since outlived its usefulness and is neither convenient nor decorative as it stands at present. The Yacht Club is said to be in a sufficiently good financial position to proceed with the work at once.

The past week has again seen much activity among the trolling boats which are preparing for the season's activities. Machine shops and supply houses report business good. There is a great deal of cleaning and painting and general repair work going on and the indications are that every available craft will be pressed into the game this season. There is also a good deal of business with the halibut boats between trips, it having been found on a number of the vessels that there were items of repair and reconditioning overlooked when the boats were given the final once-over before the first trips to the halibut banks. Most of the boats have been back after their first trips and some have already landed two catches since the season opened.

U.S. Fleet Growing

This season again finds a steady expansion in the fleet of American halibut vessels using the port of Prince Rupert but it is regrettable that similar development cannot be noted as regards the Canadian fleet. It is not necessary here to further discuss the conditions leading up to the present situation. Suffice it to say that the feeling is growing that contentions often presented in past by the Canadian fishermen are materializing. It cannot be denied that the United States government is protecting its fishing industry and in so doing, is taking advantage of the port of Prince Rupert and the transportation facility it offers in the Canadian National Railway. The feeling, though it has not been strongly voiced of late, is ever rising that something must also be done to protect the Canadian halibut fishermen. The port of Prince Rupert presents a lever that it is still felt might be effectively used in bringing about the desired result. Under present conditions there is no question of the fact that the Canadian halibut fleet is dwindling in usefulness if not in size.

Since the present halibut season opened, two new American schooners have sold catches here after their maiden trips to the banks—the Nordic of Sitka, owned and skippered by Conrad Eines, and the Grant, owned and skippered by Charles Widestein.

Besides these two vessels, there have been a number of other new American halibut schooners built during the winter. One of the largest of these is the 63-foot schooner Marmot, an up-to-date long liner, owned by Arne Larsen, Carl Hansen and Alfred Howe of Ketchikan. This vessel, which will probably be arriving here from her maiden trip before very long, was built at Tacoma and has a 15-foot beam and 8-foot depth of hold. She is powered with 60 horse power Fairbanks-Morse type "C" marine oil engine and will carry a crew of nine men.

After a seven-day trip up the coast, having towed a pile driver from Vancouver to Rivers Inlet, the Balmoral cannery tender Wawanesa arrived in port on Wednesday night and left Thursday morning for the Skeena River. She was brought up by Capt. George McDonald with Ernie Dorreen, chief engineer.

Activities are still being concentrated at the Prince Rupert Boat House on the former Leila R., which vessel was acquired recently from the provincial government and will be converted into a cruiser especially designed for hunting parties. The boat will shortly have a trial run to test out her engine and, in the meantime, fine weather is being awaited to give her a general cleaning up and painting after the extensive work that has been done on her. Two 33-foot masts are now being erected on the boat and will add much to her appearance. Capt. Swanson has not yet had the new name for the vessel approved by the federal authorities.

Feline Speculations

Princess Mary may be going to have another addition to her family, the Duke of York may be expecting his first and the Prince of Wales may be going to get married or he may not but that is not worrying Ed. Jenner, the silent shed manager at the G.T.P. wharf, and his assistants, Harry Welford, Howard Hill and Norman Dalgleish. Besides seeing that Bill Jefferson and his gang don't break too many eggs while trucking them over the floor of the dock shed, the smoothness of which or lack of which is known from Nome to San Diego, they have something else to engage their minds these days. In other words, the old cat's daughter is going to have kittens. Such genial and godfatherly souls as Bill Hughes, Frank Cole and old Bill Goldbloom, who may be seen any day occupying the comfortable chairs near the stove, get quite a kick out of speculating whether they will be tom cats or tabby cats or whether they will look like their mother or their father. The impending event itself will have to prove those matters but one thing on which everybody agrees, including the contrary Whiff man himself, is that they will be twins—or should be if they ain't.

The Belmont-Surf Inlet Co.'s gasoline cruiser Belmont was in port during the week on business bent. E. W. Hawkins, the Surf Inlet postmaster, and Mrs. Hawkins were passengers aboard the vessel.

Less Halibut

Due to stormy weather outside and the heavy landings of last week, halibut arrivals during the past seven days have been lighter than usual. Prices, however, have been steady and a good deal higher than were offered last week. American boats got the best of the bidding on the whole, receiving two cents better than Canadian on days when both American and Canadian fish was landed. The highest price of the week was on Wednesday to American boats, 16c and 8c.

Boats arriving during the week were:

American — Cape Clear, 7,000 lbs., Venus 20,000 lbs., Spray, 15,000 lbs., Havana 21,000 lbs., Atlas 30,000 lbs., Reliance 9,000 lbs., Imperial 6,600 lbs., Sumner 35,000 lbs., Eastern Point, 4,500 lbs., Onah, 8,000 lbs., Cedric 24,-

These boats arrived from last Saturday to yesterday, inclusive. The proportion of Canadian fish was higher than usual, 159,500 pounds having been landed from the home boats and 277,500 lbs. from American vessels, the total for the week having been 437,000 pounds. Landings at this port since the season opened total 1,806,100 pounds—1,482,500 lbs. from American bottoms and 323,600 from Canadian.

After a rather quiet spell of it for about a month's time, the Bushby towboat fleet is looking forward to a happy Sunday at home tomorrow following a week during which there has been considerable activity.

The M.T.3. Capt. Reg. Green, was kept hopping pretty steadily for the past seven days attending the stranded American vessel Boxer, running lines and generally assisting. Two of the company's scows were also used in lightening cargo.

The P.R.T. No. 1, Capt. Harris Kerr, made a trip to Georgetown with two scows of lumber, one carrying boxes for the local fish docks and the other containing repair and boat lumber for Inverness cannery which was delivered there on Thursday. On Sunday, the vessel made a trip with George Kerr and party to the proposed sheep ranch on Zayas Island.

The Hanaco, latest addition to the R.M.P. fleet, was initiated into service with a trip to Georgetown for the local yard on Thursday with Johnny Larsen in command. The Hanaco is rapidly assuming shape for a busy season's work towing material for the oil plant at Tucks Inlet.

The Tide Rip made an excursion trip at the first of the week to Osland and later in the week had a nice little job handling a tail shaft for the dry dock. Handsome Jim Morrison always gets the easy jobs which do not take him away from home.

New Trolling Boat

A new 28-foot trolling boat was launched yesterday at the Suga ways for John Smurthwaite. The vessel, which will be powered with a 6 h.p. Vivian engine, is to be ready for operation this season. The Suga shop reports that it holds contracts for two or three more new boats on which work will be started at once. There is also considerable repair work coming up.

The powerboat Jigs, which has been used by John Lindseth for logging purposes, is at the McLean Ways being converted to a salmon troller. After several strenuous years in the logging game, the 1925 season having been spent on the Queen Charlotte Islands, Capt. Lindseth is now wont to settle down to the less arduous occupation of salmon fishing.

Two new 30' by 8' 6" gill netters, built during the winter at Inverness cannery by John Lehto and Arthur Nordland, are coming in next week to the Ward Electric Co. to have 10 h.p. Petters deisel engines installed. Both boats are of the latest type and are to be used fishing this season for Inverness cannery.

W. Mack, budding actor and money counter, has had something else to worry him this week besides his future behind the footlights and the financial condition of the world. Reason for said worry is the gas boat Echo of which Wally, like the father of a squalling infant, is the proud but sleepless owner. The suggestion having been made to him that the caretaker of the Yacht Club had something else to do beside spending twenty-four hours out of every day keeping the water pumped out of the Echo, he proceeded last week to beach the boat in Cow Bay for repairs. The beaching occurred, however, on a slanting and rocky shore with the result that the Echo just turned over and sank. The owner now reflects amidst his trials and tribulations that it might have been just as easy to let the Echo slide to the bottom of the sea.

A New Suggestion

It has occurred to several persons along the waterfront that there is a solution for the fishing boat float and shelter question that has not yet been thought of. In view of the fact that there is more or less doubt as to whether or not there is sufficient room for these facilities at Cow Bay, it is being pointed out that adequate waterfront might be obtained in the vicinity of the Prince Rupert Spruce mill which it is not expected will be rebuilt. A Seal Cove location for the fishing fleet has been suggested often in the past but the difficulty has been that any such sites proposed have not had ready access to the city. A site near the sawmill it is pointed out would be right on the thoroughfare leading to the Cold Storage, thus removing the objection.

The Nokomis, second of the tenders being brought here by the Skeena River Packing Co. for use in connection with the Port Edward cannery, arrived in port Thursday night in tow of the Plover from New Metlakatla, Alaska. The Nokomis, at present engineless, will have a 100 h.p. gasoline motor installed and, like the Plover, will be changed to Canadian registry. Herbert Clifton of Metlakatla has been appointed skipper of the Plover.

The Lapointe brothers, who have been logging at Hevener Inlet, Porcher Island, for the Georgetown mill, were visitors in port during the week aboard their gasboat.

The trolling boat Cora, which sank at the Cow Bay floats, about a month ago, after which occurrence she was bought by J. Field from Charlie Raitt, was raised on Friday and is now beached at Cow Bay where she will be reconditioned for sale. In connection with the salvage, Capt. Kohrt gave a demonstration of diving and how it should be done.

FICKLENESS

I heard outside in my garden
A robin sing—then
Before I could get to the window,
Alas, it was winter again.

Her Face Was Covered With Large, Red Pimples

Miss Greta Carlisle, 23 Leonard St., Brantford, Ont., writes:—"A short while ago, my face was completely covered with large red pimples, and it seemed that it was almost impossible for me to get rid of them, as nothing I took seemed to do me any good.

One day I noticed an advertisement of

Burdock Blood Bitters

and I will never regret the day I bought it, as, now, my face is entirely cleared up of blotches and pimples of every kind."

My Vanity Case

HEALTH is, after all, the foundation of beauty and attractiveness. The sparkling eye, the healthful glow and color of the skin, the elasticity of movement—these are the essentials of beauty.

For this reason many women recognize in Dr. Chase's Nerve Food the greatest of beautifiers.

You must feel well to look well. You cannot possibly look your best when you are tired, nervous and irritable.

Dr. Chase's Nerve Food beautifies by forming new, rich blood, by restoring color to the faded cheeks and by building up the vitality which makes one cheerful and vivacious.

The beneficial results of using Dr. Chase's Nerve Food are lasting because by its use you build up energy and vigor in the human system. You feel better and look better, you rest and sleep well, enjoy your meals and know the joys of healthful living.

MIKE

A sparkling comedy-drama of life in a desert inn with Sally O'Neill, screendom's newest star. She's a most roguish, fascinating kid on the screen. See her in "Mike." What a wallop she carried. She frustrated a mail robbery, bossed a railroad, rescued a runaway kid, cleared her sweetheart's name and lots more. See the capture of the train robbers by Marines and an aeroplane. See Mike's sweetheart justify the faith she had in him. It's one of the sweetest romances ever told, yet Charles Murray and Ford Sterling will keep you laughing from start to finish.

Noted cast: **Sally O'Neill, William Haines, Charles Murray, Ford Sterling, Ned Sparks, Sam De Grasse, Marie Frances Dana** and others.
