Officers of Great War Present Lord and Lady Byng Car and Picture

Celebration of ninth anniversary of Vimy Ridge takes form of banquet at Government House, Ottawa

OTTAWA, April 10.—More than 200 officers of the Canadian forces who served under General Byng in the Great War gave tangible expressions of affection for their former leader, the Governor-General of Canada and commander of the Canadian forces overseas in 1916 and 1917, and also to Lady Byng at the Vimy Ridge dinner at Government House last night when they presented a seven passenger 75 horse power Canadian-made limousine to Lord Byng and an oil painting of His Excellency to Lady Byng. The presentation was made on behalf of the officers by Sir Arthur Currie, who succeeded Byng as commander of the Canadian corps.

The dinner was one of the most memorable functions ever held in Government House. It celebrated the ninth anniversary of the capture of Vimy Ridge by the Canadians.

SEAL HUNTER IS BLOWN UP

Crew of Eighty Safe on Ice and Rescue Vessel on Way to Get Them

ST. JOHNS, Nfld., April 10.—A radio message received here says the British steamer Seal, which left here Wednesday for the seal hunting fields north of here was blown up by an explosion. The crew of about 80 men are safe on the ice and a rescue vessel is en route to the scene.

SPRING WHEAT FOR ELEVATOR

The following letter in regard to growing wheat has been received from F. G. Dawson, Editor Daily News:

Now that the Prince Rupert elevator has been leased to the Canadian Co-operative Wheat Producers, Ltd., the largest handlers of wheat in Canada, the farmers of the central interior of B.C. should have a ready market for all commercial wheat they can produce.

As the company that has taken over the elevator deals almost exclusively in spring wheat I would suggest that the farmers who grow any wheat at all specialize on spring wheat and make a point of securing good seed.

I am confident from my knowledge of the interior country, and from the samples received from various parties, that the soil and climatic conditions are very suitable for the growing and maturing of spring wheat.

It seems to me that the sellers now have a splendid opportunity to increase their revenue and develop their holdings and I hope that they will co-operate with those who have been trying to help them and plant a fair acreage in wheat this year.

PUMPING TODAY ON THE FAMOUS

Effort Being Made to Beach the Steamer Prior to Drydocking

The past few days having been devoted to getting the salvage gear in readiness, pumps will start working today on the coast freighter Famous, which is sunk near Balmoral Cannery in the Skeena River, and it is hoped to beach the vessel at Balmoral this evening. Her 100 tons of tinplate will then be unloaded and an attempt will be made to execute temporary repairs so that the vessel may be brought to the dry dock here or taken south. It cannot be decided what will be done with the vessel until the extent of the damage has been ascertained.

Divers have already been down to examine the hull but, owing to the fact that the vessel was partially submerged in the muddy bottom, it was impossible to find out much.

Capt. A. Berquist of Victoria, the owner of the famous; Capt. Clark, representative of the underwriters, and the salvage crew are remaining at the scene of the wreck.

PRESENTATION MADE MRS. OLIVER ROGERS AT SURPRISE PARTY

A presentation was made last night to Mrs. Oliver Rogers at a surprise party given in her honor by members of the Adair Carss Chapter of the Daughters of the Empire, a white gold brooch set with sapphires being handed her by Mrs. Cox on behalf of the chapter on the occasion of her leaving the city.

The evening was pleasantly spent in cards, singing and guessing contests. Winners at cards were Mrs. Howard Steen and Mrs. F. Morris and guessing winners were Mrs. A. Mackenzie and Mrs. D. Orchard McLeod.

Twice as Much Grain Shipped Through Vancouver This Season as During the Previous Year

Canadian National Hauls Just About Half of Total Amount Coming Out Through Westerly Route

WINNIPEG, April 10.—Grain stocks at the port of Vancouver are being steadily exported to Europe and the Orient leaving the amount in store at that point seldom more than four and half or five million bushels.

At March 31, 17,460,647 bushels of the 1925 crop had been shipped from Vancouver, the Canadian National Railways having delivered 24,721,123 bushels or 18,599 cars of this amount. European markets received practically 27 million bushels of this grain and the Orient nearly 29 million bushels, the total export being considerably more than twice that of the previous season.

The past week saw the delivery of a further 1,400 Canadian National cars of grain at the western port.

There was in storage in country elevators along C.N.R. lines at April 8, 17,532,000 bushels, of which 4,374,000 bushels is in Manitoba, 10,125,000 bushels in Saskatchewan, and 2,553,000 bushels in Alberta.

CANARIES MAKE 7,000 MILE TRIP TO PRINCE RUPERT

After a journey of 7,000 miles by sea and train, six pure bred Harlz Mountain roller singing canaries were delivered safely here and in first class condition by the steamer Princess Mary yesterday afternoon. The little warblers were consigned from Southampton, England, to Jack Frew of this city. They were well looked after on the long journey by C.P.R. officials.

Speculation Rife Regarding Far North.
 Speculation regarding the far north exploration is rife everywhere both on this continent and in Europe. If there is a big stretch of land beyond that already discovered, it may prove to have some value, although the general opinion is it is useless. Much scientific data may be acquired by the airmen in the course of their flights to the far north and this acquisition of information will always be kept in mind by the flyers. They are not only looking for land but for all kinds of valuable information which may be used for scientific purposes.

New Territory And Its Acquisition.
 There should be little dispute over the ownership of the far away frozen north, but yet such may develop. The fisheries there and the furs may prove of value and the commercial aspect is what causes most of the disputes. The islands north of Canada are claimed by her and for many years the Arctic zone has been policed from this country. If there is land north of Alaska and the people of the United States can find it, it is to be hoped they will make good their claims to ownership. At any rate Canada will hardly worry her head about it.

Grain Company Should Soon Take Over Elevator.
 As soon as the people have voted the tax exemption for the grain elevator and the proper signatures are placed on the documents the Wheat Pool, it is understood, will take possession of the local house and begin to operate it. This should take place early in May when the officials of the company will be here and from that time on will take charge. While it is not expected that much grain will pass this way during the present season, it is very probable that a few cargoes may be shipped through this port before the 1925-26 season closes. Vancouver is still handling considerable wheat.

Indian People As Citizens.
 The natives of this country do not have a vote as long as they live on the reserves and are wards of the government. Once they break away and take their places with other citizens they at once may become real citizens. That is the present law. Indians will not get much consideration from politicians until they secure the vote. In Alaska they are becoming a power, so much so that they are able to swing an election one way or the other. In Canada they might do the same but they are not citizens in the full sense of the word. When they will attain the position of full citizenship is not clear, for there seems no indication that they will leave their reserves and there seems no indications that the laws will be changed to give them the vote unless they do. The result is that the position is complicated.

Clear Up Position Regarding Lands.
 There is a feeling of dissatisfaction among the natives in regard to the lands. They lay claim to all the unoccupied lands of the province, but this claim is not admitted by the provincial or Dominion governments. And all the time the Indians are subscribing large sums of money to men who claim to be trying to secure their rights for them and who say they expect to succeed. It seems to us that the government should clear up this situation instead of continuously holding it in abeyance. Either the Indians should be granted what they ask or told that they cannot have it. The period of unsettlement is not good for development. The probability is they will not get their requests granted, as there seems no indication in that direction, but at any rate we owe it to the Indian to treat him fairly and also to treat him as a reasonable being rather than as a child. The time is past when he was a person who knew nothing and cared less.

ASKS McGEER VISIT RUPERT

Expert Has Offered to Prepare Case For Board of Railway Commissioners

RATES STILL HIGH
 Possibly Board May Hold a Session Here During Month of May

The board of trade at its meeting last night decided to invite G. G. McGeer to visit Prince Rupert some time before the board of railway commissioners comes to the coast in regard to the general freight rates inquiry which has been ordered by the Dominion government. Some correspondence in regard to it was read at the meeting and it was suggested that possibly the evidence to be submitted here would be almost exactly similar to that for Vancouver. However, the board would like to consult with Mr. McGeer in connection with it and with the freight rates question generally.

McGeer's Letter

Mr. McGeer's letter to the board offering his help was as follows:

- As you are no doubt aware, on June 5th last, the Governor-in-Council directed the board of railway commissioners to:
1. Equalize grain rates as between Pacific coast ports and Fort William.
 2. Hold a general inquiry with a view to working out a plan of equalization of freight rates throughout the Dominion of Canada.

In 1921, under instructions from the Government of British Columbia, I filed with the board of railway commissioners an application asking for the removal of what is known as the mountain scale differential. Our claim was based in part upon the favorable grades of the Grand Trunk Pacific and the Canadian National Railway between the prairie and Vancouver and Prince Rupert. The favorable grades of these roads and the favorable weather and other operating conditions that exist in the territory through which these roads pass make them roads over which as large a volume of business may be hauled at as low a cost as any similar section of railway on the North American continent.

20 Per Cent Higher
 Despite this fact, rates are charged on these railways which are from 15 to 20 per cent more than are charged for the same services on the same roads in the prairies, and in many instances from 35 to 80 per cent more than are charged for the same services on the same roads in Eastern Canada. Our efforts in the past have met with considerable success.

I have been instructed by the government to ascertain whether or not your board of trade or anyone in your city would care to make any representations to the board asking for a reduction in freight rates either from prairie points to Prince Rupert or from Prince Rupert to any point east thereof.

Should be Interested
 It seems to me that your community should be interested in the distribution of all kinds of groceries and hardware and all classes of imported commodities such as mining, lumbering and agricultural machinery, etc., etc., lumber, fish and a number of other natural products. In turn, you are no doubt interested in securing the exportation of grain from Alberta and coal from the Alberta coal fields, and are looking forward to the time when dairy products and other natural products of the Prince Rupert hinterland will be exported via your port.

Offer to Assist
 If there is any way in which I can assist you in preparing the representations to be made before the board, I should be glad to do so and I should also be glad to know that Prince Rupert will desire a hearing of the board of railway commissioners when they come to the coast some time during the month of May.

I have already spoken to some of your leading citizens and I conclude from their remarks that there will be no difficulty in securing a number of witnesses who will give evidence of the discriminations under which you are suffering today.

G. G. McGEER.

"FRUIT-A-TIVES" OVERCOME STOMACH AND LIVER TROUBLE

Mrs. ALBERT LAFLEUR

"For three years I suffered with biliousness, liver and stomach trouble and I had severe pains and a choking feeling at times. Since taking 'Fruit-a-tives' I have been completely relieved of these troubles. I can faithfully recommend 'Fruit-a-tives' to any one suffering from liver and stomach trouble, as I was."—Mrs. Albert Lafleur, Labelle, (Co. Labelle), Que. "Fruit-a-tives" are so wonderfully helpful in Liver and Stomach trouble because they are purely a natural remedy—made from intensified juices of fresh oranges, apples, prunes and figs, combined with tonics. "Fruit-a-tives" sweeten the stomach, regulate the liver, bowels and kidneys, and purify the digestive juices so that indigestion and constipation are quickly corrected. 25c. and 50c. at all dealers.

Union steamer Catala, Capt. A. Johnstone, arrived from Anyox and the Naas and Skeena Rivers at 2 o'clock this afternoon and, after a call at the Canadian Fish & Cold Storage Co., sailed from the G.T.P. wharf at 3 o'clock for the south.

NEW SKATING RINK ALBERTA UNIVERSITY

Building to Cost \$20,000 Will be Erected by the Students' Union

EDMONTON, April 10.—One more building will be added to those at present standing on the university campus. The proposed structure is a covered rink, which will cost in the neighborhood of \$20,000, and will be erected during the year 1926, by the student's union.

This enterprise, by far the largest to be attempted by the students of the local university since its organization, has been in contemplation for some time, and has been thoroughly investigated as to its feasibility. The plans, which have been drawn by Professor C. S. Burgess, of the university department of architecture, provide for a sheet of ice 90x200 feet, with a seating capacity of 2,000 people.

VOTING MUCH MONEY FOR ALBERTA RAILWAYS

(Edmonton Bulletin) Hon. Vernon W. Smith shattered all legislative records when he succeeded in getting more money for less information than any other minister of the government.

Estimates for the railways department were before the House, and in quick succession the members voted \$271,000 for the Lacombe & North Western; \$561,000 for the Alberta & Great Waterways; \$395,000 for the Edmonton-Dunvegan & B.C., and \$750,000 for the Lethbridge Northern project.

Then came the vote of \$775,000 for the Athabasca Valley Railway Co., which is the name of the new branch line for the E.D. & B.C.

RUSH FOR MARRIAGE LICENSES AT EASTER AT TORONTO OFFICES

TORONTO, April 10.—The tendency of people to put things off to the last moment was illustrated once more at the city hall when there was a big rush for marriage licenses for ceremonies to be performed during the Easter season. The outer office of the license issuer was crowded with prospective brides and grooms while the official was kept busy filling out the forms. The issuer has made a request that intending applicants for marriages to take place in June make their applications early to avoid similar congestion. A marriage license is good for three months.

Joe McPhee, customs officer at Butedale, returned to his headquarters down the coast on the Catala today after having spent a couple of days in the city.

C.P.R. steamer Princess Beatrice, Capt. T. Cliffe, is due from the south at 3.30 this afternoon and will sail at 5 for Vancouver and way ports.

Canadian halibut fishermen doing better this season--piles for government wharf arrive--boat transactions

This year finds much more contentment prevailing in the ranks of the Canadian halibut fishermen than there was last year and the reason is quite obvious. The Canadian fleet has been doing many times better financially so far this season than it did during the early stages of the 1925 season.

On the other hand, the larger American halibut boats have not been faring so well as they did last year.

Halibut catches landed at this port during the past week (Saturday to Friday inclusive) constituted by a long way the heaviest week's handling since the season opened.

The boats landing catches during the period referred to have been:

- American - Wizard, 22,000; Forward, 13,000; North, 25,000; Majestic, 28,000; Teddy J., 13,000; Summer, 35,000; Kodiak, 28,000; E. Neilson, 8,000; Lanceling, 12,000; Chum, 7,000; Augusta, 11,000; Hilda, 7,500; Glacier, 12,000; June, 9,000; Wave, 4,000; Lincoln, 17,000; Sherman, 21,000; Balle, 12,000; J. P. Todd, 11,000; Brisk, 32,000; Condor, 3,500; Sun Wing, 11,000; Rainier, 55,000; Sentinel, 19,000; Rainier, 6,000; Hazel H., 16,500; Sunset, 30,000; Happy, 14,000; Valorous, 46,500; Middleton, 21,000; Sadio K., 7,000; Vansee, 30,000; Zenith, 37,000; Leviathan, 12,000; Gladys, 7,500; Rhona, 28,000; Liberty, 35,000; Royal, 1,500; Thor, 26,000; Tatoosh, 26,000; Arrow, 26,000.

Canadian - Ternan, 14,000; Rose Spill, 16,000; Fanny F., 8,500; Fisher, 11,000; Johanna, 11,000; P. Salmon Prices Drop

The spring salmon run is reported to be improving slightly and the fish seem to be a little more plentiful in the vicinity of Stephens Island where the local fish is still pretty well centered.

Miles and Knots

Considerable confusion often arises as to the use of the word "knots" when mentioning the speed of a ship, it being frequently stated that a ship's speed is, say, "twenty knots an hour," instead of "twenty nautical miles an hour."

JEAN JOHNSON BEFORE COURT

Charge an Indictable One and is Adjudged Until Monday

The case against Jean Johnson, colored, 819 Second Avenue, charged with being the keeper of a disorderly house, was proceeded with before Magistrate McClymont in the city police court this morning.

City Solicitor E. F. Jones, prosecuting, moved that the charge be treated as indictable rather than summary. His reason in asking for the change was that the penalty under the indictable charge called for a maximum of twelve months' imprisonment instead of six months if it were summary. He felt that an example should be made so that this woman or any other would be prevented from flaunting vice in the face of law abiding citizens.

Legal Expense

Milton Gonzales appearing in the defence, opposed the change on the ground of legal expense and pointed out that the magistrate had jurisdiction in such a case as this.

The magistrate complied with the request of the crown and the hearing proceeded.

A laborer, Andrew Stevenson, gave direct evidence of immorality having been committed on accused's premises. He further testified that he had purchased beer there and had been offered rum. He also alleged that he had been short changed.

House was Raided

Police officers gave evidence of the house having been raided on March 20 in consequence of a man named Nels Nelson alleging that he had been robbed of \$125. The money, however, was not found.

The following morning at 4 o'clock, according to evidence of Dr. H. E. Tremayne, he was called to the premises to attend a man named Braunting, supposedly accused's husband, who was

You Wonder Why You Cannot Sleep

If you could only sleep at night there would be some chance of getting back the nervous energy which is expended during the day.

But you cannot sleep. In the mornings you arise feeling tired and played out. By evening you are all in. Your nervous system is entirely exhausted.

"Is there no way to get out of this condition?" you ask. There is. By using Dr. Chase's Nerve Food regularly you can feed the nerves back to health and vigor.

Perhaps you have never realized the cause of your sleeplessness. But this is the outstanding symptom of exhausted nerves. You may also have nervous headaches,

indigestion and spells of despondency. You may be unduly sensitive to light and sound. You may be irritable and inclined to worry when there is no real cause. But inability to rest and sleep is one of the surest signs that you need the help of Dr. Chase's Nerve Food to get back to health.

Nervous disorders do not get better of their own accord. You must supply the elements of Nature which are required to build up the depleted cells and these elements are most happily combined in Dr. Chase's Nerve Food. 60 cts. a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto 2, Can.

suffering from a wound on the neck alleged to have been occasioned by a sharp instrument. The police were also called at that time.

The police witnesses were Sergeant Bailey and Constables Macdonald and Potterton.

Case Adjourned

On the evidence for the crown being completed, counsel for accused asked for adjournment until Monday so that, in case of committal, accused might arrange for bail with Judge Young who is at present out of the city. The request was granted.
