## ANTHRACITE COAL STRIKE ENDED TODAY

New Five Year Contract to be Signed Continuing Present Wage Scale

PHILADELPHIA, Feb. 12. The anthracite coal strike was settled this afternoon under a new contract to be signed running for five years, the longest ever entered into in the industry. Under the settlement, present wages are to continue with the provision for opening negotiations within the industry whenlever either side desires such reopening for the purpose of wage modifications. It is stipuated, however, that there can be no reopening before January,

The miners' officials have agreed to the terms and will submit them to the tri-district conterms, work must be resumed \$1,000.

## Barge Shipment of Logs Makes Change in Lumbering Conditions Affecting the Northern Districts all the irregularities had accur- item included cost of playshed

Annual Report of District Forester Tells of Development Pole and Tie Business of Interior

The outstanding feature of the year in the logging industry was the development and increased use of log, carrying barges, says the report of the district forester on the year's work. These have been found to be cheaper and safer than the deep sea raft and permit of a lower rate of insurance. Five are in operation at present on the coast of which four are owned by the British Pacific Timber Products Ltd., and one by the Hecate Straits Towing Co. The barges are ship hulks remodelled to permit the stowage of logs. The log carrying barges

have been instrumental in putting large quantities of northern 802 lineal feet. logs on the Vancouver market and have also greatly improved utilisation rendering it profitable shingle bolts, 5,122 cords. to segregate high grade logs for the southern market and to consign only inferior grades and industry is developing along this bly gain but could only lose. ## Consolidated Exporters Were Fined Thousand Dollars for Making False Entries in Books

Found guilty on the charge of having made false entries in connection with liquor outgoing from its export warehouse, the Consolidated Exporters' Corporation Ltd. was fined \$1,000 by Magistrate McClymont in the city police court yesterday after- noon. This is the second fine that has been imposed on the corporation as a result of the prosecutions now in progress. the first having been \$2,500 on a straight selling charge. The fourth and last case, another charge of selling taken as a test on methods of export, is proceeding today.

In giving his finding yesterday, Magistrate McClymont said he had no control as far as concerned the statement that once the defendant had been convicted on a major charge it was the custom to drop other prosecutions. It was his duty to deal with each case on its merits asl

"On this charge, I find the accused company guilty." the magistrate announced. "There have been too many false entries for me to believe that they are all vention for approval. Under the mistakes. I fine the corporation

DAILY EDITION

#### Unexpected Often Happens.

The despatches yesterday told of two men calling up provincial policeman in Alberta, apparently with the idea of injuring him or perhaps killing him. The opposite happened. SMALL REDUCTION IN hands of his comrade. That is the way things happen in this world.

At any rate it does not pay to go around with a gun or with Valuation of Double Corner a man who carries one. Also it does not pay to harbor a grudge against anyone. A policeman has to do his duty, despite friend or foe, just as a newspaperman often has a similar duty to per-

#### Lawless Place Is Best Avoided.

A horrible story of lawlessness and suicide came over the McLeod double corner at Second was made to be enforced. It was wire yesterday from Mexico where two American girls were Avenue and Fifth Street from just as easy to make correct en outraged at Tia Juana and the chief of police was arrested and \$14,000 to \$12,000, the revised tries as incorrect. "My charge is in charged with the offence.

We know nothing of the circumstances but we do know year's assessment. The decision system of false entries and I de that the Mexican town is noted as being one of the most lawless was unanimous, the entire court liberately charge that it has been places in the world and is a good place to stay away from being present with the exception going on right along. "The ori-American girls have no business there.

#### Ketchikan And Prince Rupert.

Ketchikan is still making eyes at the fishing business but] this time she is adopting a fair way of trying to get it. She is planning to compete in the matter of transportation. Against that there is nothing to say. If she can beat us out in a fair field she has a perfect right to do so but when she tries to hide behind the skirts of tariff legislation or in any other manner to legislate us out of court, we take serious objection. We do not think it a friendly act as becomes neighbors.

#### Plenty Of Money If Proposition Good One.

Apparently there is plenty of money to be got if there are businesses that can offer fair returns on the investment. The natural resources official of the C.N.R. has been here looking for good investments that he can offer those who have money and who are constantly applying for opportunities. Here is chance for those who are always seeing good things. They in point. If it was the intention must have something that they can guarantee as being a genu- to fake shipments, it could just ine proposal.

The difficulty with most of us is we see only one side. We do not see all the disadvantages. We talk about how money by lumping them. It was the may be made in various lines of endeavor, but we have to be easiest thing in the world under able to show quite clearly hefore we can get an investor to put the government, then the did not 200 pails Jam or Marmalade,

There is money awaiting any genuine investment. Now is the single shipment route, too. asked what the company had to the time to get busy. Mr. Letts left this morning but he will if some ulterior motive or gain and gain through such irregularities. be back in a month or two and he has opportunities of getting had been proven, it would have Mr. Palmore answered the quesin touch with capital that many others do not have.

#### Sees Canada Big In Near Future.

Sir Henry Thornton sees Canada figuring big in the near future. She says there are plenty of opportunities here young men and he advises them to stay in Canada.

Sir Henry is a big man and he holds a high position. has knocked about the world enough to acquire a wide vision. When he advises, his advice is worth considering. Far away four years and up to this time fields look green, but often the home town is the best.

## Showed Good Faith

Regarding the suggestion that n the returns and invoices, Mr. Genzales contended that what larities were not a mistake b might or could have been done were a regular habit, had nothing to do with the case! as easily be done by making out the exact individual invoices as been a very different question. fion by stating that such lump-As it was, every fact tended to show good faith although there was carelessness on Mr. Pyle's part. Another evidence of good at offers the easiest way in the, for faith was that the records of the company were always open t the government officials. The records had been inspected for there had never been a murmur Under the circumstances how could one expect the company to do anything else than it did Other export houses, Mr. Miller had admitted, were not complying with the regulations in this respect. It was admitted that it was not the custom to proceed with further prosecutions after there had been one major conviction. Even Major McMullin, superintendent of police, stated that one major conviction would satisfy

## Shipments to Alaska

As for the shipments to Alaska, Mr. Gonzales contended, that had nothing to do with the case. If there were violations of American laws, it was the American fishermen themselves who were responsible and not the Consoli-

dated. Alisthat the British Columbia government required was that the shipments should go out of the province. For that matter, the Consolidated Exporters Corporation in Prince Rupert in selling liquor to American fishermen was in exactly the same position as the government liquor stores in Vancouver in sell-

ing to American tourists. "It is so obvious that a bonafide mistake was made, concluded Mr. Gonzales, "that I suba mit that the accused should reschools from this on, according the charge should be dismissed."

#### Crown Argument

at its regular meeting last night. In opening his argument, L. The board was unanimous in re- W. Palniere, counsel for the gested to the principals that make his own position clear. # INSPECTION OF

Complimented Local Unit on Attendance and Hints at Improve-

The annual inspection of the First Northern B.C. Regiment, Colonel Nicholls commanding. took place last evening at 8.30 by General J. M. Ross and the books of the regiment were checked up by Major Edwards. Approximately ninety officers, and men were out on parade, the biggest turnout in ,the history of the regiment. The limited quarters at the Armory was crowded to capacity and the regimental band was in full strength. Major Edwards commented on the striking improvement in the band since his last

After the general had inspected the unit on parade, the men were put through drill movements and then the officers and N.C.O.'s were examined orally by the general, who expressed himself as much gratified with the splendid turnout and expressed approval at the progress made since last year.

The General while here mentioned to the commanding offi- now star of the Ziegfeld "Folcer several developments which lies." The daughter's part is nay occur during the coming played by Carol Dempster, the year for the benefit of the regi-lyoung California girl who has

Completion of Work of Court of Revision Allows Summary to be Made

Total assessment valuation int ie city this year stands at \$16,-90,480 as compared with \$15,-089,862 in 1925 and the total valuation of taxable lands, not including the property of the railway company, is \$4,232,275 as against \$4,417,718 last year. Final figures on the 1926 assessment were, obtainable this morning following the court of revision having completed its work yesterday afternoon.

The increase in the total assessment valuation, which includes lands and improvements; exempt from taxation, was due to building in the city during 11925 particularly the terminal legrain elevator at a value of over one million dollars.

Taxable Lands

which does include that of railday company, was reduced by the assessor \$182,523 from last year while the court of revision made a further reduction of \$5 .-1300 including the valuation of \$1,080 transferred from railway. leased lands to the railway com- KING EDWARD valuation of \$2,380 covering city lots transferred to private owners. This shows a net total Preduction of \$185,443 from 1925. The valuation of the railway company's lands, taxation of Fillets of Veal, per lb. 25c | which is covered by a flat rate agreement which expires next ....... 30c | year, has been reduced this year Leg of Pork, cut, per lb. 32c | from \$2,355,721 to \$2,249,554. the reduction including the \$1, 1080 mentioned above and sover-... ... 20c ling 1,500 feet of waterfront Block E (elevator site) at \$70 ........ 25c | per foot transferred from the trailway company to the govern-

ment of Canada.

Rate to be Set On the taxable valuations now reached, the tax rate for the year 1926 will later be set by the council after the estimates have been considered. In view of the fact that the assessment is reduced, there may be a slight inferease in the mill rate if the city's expenditure for the year is the same as it was last year.

## IRREGULARITIES IN SCHOOL ATTENDANCE MUST BE STOPPED

Habitual Truancy Will be Reported to the Police in Future for Action, Schoolboard Decides

That cases of habitual truancy are to be reported to Trustee Mc-Meekin who is acting on behalf of the school board and who will take the matter up with the city police, was decided by the school board at its meeting last night. The principals reported that there were cases which seemed like truancy and usually they were the pupils who needed most to be at school. In future all such cases will be officially investigated and pressure brought to see that the children have the

advantages of education. Trustee Rochester remarked that it was too bad there should be such gross display of indifference to the wellbeing of the

children. Principal Brady of the High School mentioned that some of Trimmings at low prices. | the girls who were supposed to attend the domestic science classes did not do so regularly. He suggested that this subject be made a part of the curriculum on which the students are promoted. The boys were keen to

## IMMENSE PROFIT POSSIBILITIES IN HAMBURG 41/2% BONDS

In the year 1919 the City of Hamburg (Germany), floated a loan. This loan was known as the Hamburg 41/2% State Loan of 1919-Series B-the Bonds forming part of this loan are the securities which possess possibilities of earning profits up to 32,000% on the capital amount invested today.

Hamburg 41/2% Bonds represent a direct obligation of the City of Hamburg just as City of Montreal Bonds or City of Winnipeg Bonds represent a direct obligation of the City of Montreal or the City of Winnipeg. In Germany, City of Hamburg Bonds are legal investments for trust funds and savings

bank; in short: the prime type of security. Canadian Municipal or City Bonds are payable, that is, they are bought, sold and redeemed with Canadian Money: likewise German Municipal or City Bonds are payable in German Money i.e., marks. The Paper Mark, or what is known as such, having no value, it might be thought that the Bonds which are payable in that money or currency are also without value. It is not so, however, Hamburg 41/2% Bonds are not only worth hundreds of dollars in cold cash today, but they will be worth much more in the future.

We can best judge by comparison. Take for example: City of Toronto Bonds, a \$100 City of Toronto Bond today is worth \$100.00, perhaps more, in Canadian Money; Canadian Money consists of Notes issued by the Canadian Government: every \$1.00 Note is theoretically worth \$1.00 in Gold. Supposing, however, the Canadian Government was to print many millions of Dollar Bills without at the same time increasing the Gold Reserve; it is obvious that if there was no real demand for the new Currency Notes or Dollar Bills, there would be no means of securing the necessary Gold Reserve-what would happen? Simply this: those Notes or Bills which were already in circulation would lose some of their value since the newer Notes would share in the theoretical disbursement of what was in Reserve.

Inflation Defined-The process of issuing Currency Notes without adding to Gold Reserve is known as Inflation, i.e., the Money becomes inflated. To return to our supposition: if this process of inflation were continued for very long. Canadians would soon lose all sense of the actual Gold Value of their Currency and it would be found necessary to measure its value with the value of some Currency that was sound, i.e., worth its Face Value in Gold. During the Great War such a currency was the United States Dollar.

If the inflation process should continue until I Canadian Dollar (\$1.00) was worth only 25 Cents (\$0.25) in American Money and conversely | American Dollar (\$1.00) would be worth 4 Canadian Bills (\$4.00). it can thus be seen that a City of Toronto Bond of a Par or Face Value of \$1.00 could be bought for 25 American Dollars (\$25.00).

If we will further suppose that a period of a few years clapses between the date on which it would take 100 American Dollars (\$100.00) as well as 100 Canadian Dollars (\$100.00) to buy a \$100 City of Toronto Bond, and the date on which it required only 25 American Dollars (\$25.00), while it still required 100 Canadian Dollars (\$100.00) to purchase the same Bond we will have a good idea of the situation in

German Municipal Bonds today. When the City of Toronto calls its Bonds for Redemption, which we suppose the City will do at the end of the two-year period, it is obvious that if the bond holders are offered Canadian Dollars that are worth only one-quarter (1/4) of their Face Value in Gold when the Bonds were issued, a great injustice will be done them. Moreover, it is extremely unlikely that the bondholders would accept depreciated Paper Money in payment of their charges on the City of

Toronto. Situation in Germany-That is just what happened in Germany after the Great War. Wealth invested in Government and Municipal securities was literally wiped almost out of existence by the Inflation of German Money. Our example of a City of Toronto Bond that supposedly loses three-quarters (%) of its Face Gold Value is almost farcical in comparison with the losses in Gold Values which took place in German

Government and Municipal Bonds. A classical indication of the extent of the Depreciation in Gold Values resultant upon the Inflation of German Money is furnished by the fact that 1000-Mark Bonds were never traded in alone: Bonds were dealt in that aggregated millions of Marks. A Bond transaction that involved \$238,000.00 would have attracted some attention before the War, yet in 1923, The Investment House of C. M. Cordasco & Company, sold many involved millions of Dollars.

Smaller Mills

place in Germany during the years that followed the War. In fact, the Gold Value of the German Mark depreciated from January 1st, 1919, to November 29th, 1923, to such an extent that the Mark ceased to function as a Currency and it was necessary to introduce a new Currency.

New German Money-The new monetary unit is known as the Reichsmark or more commonly the Mark (this sameness of name has led to endless confusion), and it has today a Gold Value of 23.8 cents as had the old Mark prior to the War.

At the beginning of 1919, 1,000,000 Marks in German Currency had an approximate Gold Value of \$122,000.00, just prior to the adoption of the new monetary unit in November, 1923, the Gold Value of 1,000,000 Marks in German Currency was an infinitesimal fraction of a Centin fact, the depreciation had been so great that German Marks were traded in trillions. ene trillion (1,000,000,000,000) Marks having a Gold Value of about 24 Cents.

In spite of the tremendous decrease in the Gold Value of German Currency, German Government Bonds, State, Federal and Municipal issues retained considerable Gold Value in comparison. True enough, their Gold Value was ridiculous by comparison with normal Gold Values (German Government 5% Bonds worth \$238,000.00 before the Great War, could be bought for \$10.00 or less during the latter months of 1923), but nevertheless, the great faith of the bondholders that ultimately Gold Marks would be paid where Gold Marks had been received, kept prices up.

Prices of German Government Bonds reached their lowest levels at the height of the Inflation period. At that time (in the Fall of 1923). The Investment House of C. M. Cordasco & Company, strongly advised Canadian investors to buy selected German Government and Municipal Bonds.

The outlook at that time, however, was one of extreme gloom. All of Europe was in a chaotic condition. Inflation had been taking place in many countries. Confidence was at a low ebb, The problem of reparations was hanging fire over the heads of the German people. Many lost faith in the ultimate recovery of Europe to anything approaching pre-war conditions.

The Dawes-Young Plan-Then came the Dawes-Young Plan and the Financial Commissions; uncertainties were removed. The road to future prosperity was laid open. Confidence returned. Hope sprang anew in the breasts of the German people. They agreed to shoulder the Reparations burden. The wheels of industry began to turn once

Reflecting the new confidence in the future German Government and Municipal Bonds made spectacular rises. Many issues jumped hundreds of dollars overnight. The table following illustrates graphically the extent of the first great rise, and gives at the same time an indication of the extent of the previous declines:

All quotations per 1,000,000-Mark Unit Fall of 1921 Fall of 1923 Fall of1924 City of \$5,500.00 \$ 9.00 \$13,000.00 8,000.00 12.00 9,900.00 6,750.00 11.00 Coblenz 4s ... 5,000.00 Cologne 4s 7,250.00 18,000.00 13,000.00 Dresden 4s 9.75 13,000.00 essen 4s Frankfurt 4s 7,500.00 9.75 16,000.00 Leipsig 41/28 7,500.00 9.25 13,000.00 Munich 4s 7,250.00 19.00 23,000.00 7,500.00 12.50 Stuttgart 4s 15,000.00 Gov't. War Loans 5s 5,500.00 6.00 2,800.00

At what was believed to be the top of the first rise, The Investment House of C. M. Cordasco & Company advised its clients to sell their holdings of German Bonds and take their profits.

During the months that followed prices of German Government Bonds held steady around their recently reached levels. At that time the pressure of the Bondholders on the Government to have service resumed, i.e., payment of principal and interest (which had been temporarily suspended), on Federal, State and Municipal Bonds, began to be felt.

An election was only a few months off. Both political parties promised a careful sonsideration of the demands of the bondholders.

Revaluation Explained-When Germany had accepted the terms of the Dawes Plan, there was no provision made for the redemption of her own Government, State and Municipal obligations-thousands upon thousands had lost their fortunes during the Inflation period; their Bonds had become well-nigh worthless. The recovery of German industry and finance from the date of the acceptance of the Dawes Plan was so

in the Gold Value of Government securities became incessant.

This compensation was necessarily partial. The Government could not afford to resume service on the full Gold Value of German Bonds. The measure of compenof the various Bonds. To illustrate: 10% of the Municipal Government has shown Revaluation of War Loan Bonds meant 10% great improvement during the past months. of 1,000,000 Marks, each Mark worth 23.8 Cents or 10% of the total \$238,000.00 Revaluation rate applying on the estimated which would be \$23,800.00—in Germany. Gold Value of these Bonds—approximately of course, the Revaluation was expressed in \$122,000.00 per 1,000,000 Mark Unit, so many Gold Marks for so many Marks | every \$420.00 invested today will earn a Par Value of Bonds.

Party which had promised 15% Revaluation for every \$420.00 invested today. to bondholders came into power. It must be understood that 15% Revaluation meant | burg Bonds will be Redeemed at their northat the Government would pay Bondholders mal Gold Value or 100%, and the far-15% of the Gold Value of their holdings. sighted investor can accordingly expect that In the case of German Government 5% ultimately he will obtain the estimated Gold Bonds aggregating 1,000,000 Marks, men- Value of \$122,000.00 for every 1,000,000 tioned heretofore, which were worth \$238,- Marks Unit in City of Hamburg 41/2% 000.00 in 1914, 15% meant a Gold Value | Bonds or for every \$420.00 invested today. of 150,000 Gold Marks, or \$35,700.00.

The Revaluation Law-A few months after the election a Revaluation Bill was a million and a half and is steadily increassubmitted to the German Reichstag (Parlia- ing. The City of Hamburg is the greatest ment). This Bill promised only 5% Re- seaport in Germany. The City does not valuation and later the rate was still further rely solely upon its commerce and shipping reduced to 21/2%. On July 15th, the Bill for prosperity. It has its own industrial was made a law and the first step in the plans such as railroad shops, ship yards, iron way of honorable settlement of her national and boiler works, refineries, cotton mills, obligations was taken by Germany.

When it became known that only 21/2% of the Gold Value of German Government Bonds could be expected for the present, the market which had discounted (i.e., risen to or reflected) a much higher figure, fell sharply. The table below indicates the ex-

tent of the reaction:

	All Quotations per			
		Mark Unit		
Bonds.	Fall of	Fall of		
City of	1924	1925		
Berlin 4s	\$13,000.00	\$ 7,500.00		
Bremen 4s	9,000.00	4,000.00		
Cobienz 4s	15,000.00	13,000.00		
Cologne 4s	18,000.00	8,500.00		
Dresden 4s	13,000.00	10,000.00

Munich 4s	23,000.00	13,000.00		
Stuttgart 4s	15,000.00	9,500.00		
Government War Loans 5	2,800.00	700.00		
A secondary reaction	followed	and prices		

A secondary reaction followed and prices moved still lower. Just prior to and immediately after the Locarno Conference, however, a vigorous recovery set in and all issues are moving into higher ground.

During the course of the events depicted above Hamburg 41/2% Bonds of 1919 followed the course of the market. As the Loan was issued in 1919 when 1,000,000 Marks had a Gold Value of approximately \$122,000.00 City of Hamburg 41/2% Bonds aggregating (i.e., denominations making up) a Unit of 1,000,000 Marks had a Gold Value of approximately \$122,000.00. In the Fall of 1923, however, the aforementioned Unit had fallen to \$6.50, and at the time of the first rise, reached \$1,500.00. Today a 1,000,000 Marks Unit in Hamburg 41/2% Bonds may be bought for as small a sum as \$420.00.

1000 Mark Unit, or on every investment of \$420.00, made in Hamburg 41/2% Bonds today. Every \$420.00 invested today can, therefore, earn a profit of \$2,630.00, and this is only the first step.

Many Cities in Germany are reported to sation, accordingly, took the form of Re- have made an initial Revaluation of their valuation Government Bonds were to be Bonds at as much as 10%, 15% and even revalued, that is, an agreed upon Rate of 25%. We believe that the City of Ham-Valuation would be made; this Rate would burg will increase the rate of Revaluation apply on the normal or original Gold Values | to 5% before long. The financial condition

When the City of Hamburg increases the profit of \$5,680.00 at 5% Revaluation; at The Election took place. The Nationalist | 10% the profit will amount to \$11,360.00

We believe that eventually, City of Ham-

Wealth of Hamburg- The present pop ulation of the City of Hamburg is close to printing and dyeing plants, and many others.

Official figures from English sources state that the shipping and trade of Hamburg has been increasing by leaps and bounds, and that the Government shipbuilding industry in the past year has made great strides towards regaining its former place.

The wealth of Hamburg and its citizens is a common by-word in Germany. It has been created, maintained and increased in centuries.

Immovable assets maintain a high standard of value whether expressed in Marks, Dollars, or any other currency. In fact, the largest portion of its wealth having been created in gold value, the proportionate appraisal of the assets of the free city and free state of Hamburg in paper Marks, must today be infinitely higher than the total debt.

The foregoing information concerning the City of Hamburg whose 41/2% Bonds we now offer to our clients has been gathered from reliable sources. Reports from our own correspondents abroad inform us that there is practically no unemployment in the city at the present time and it may be called one of the most highly developed industrial municipalities of Germany.

Apart from the foregoing considerations we are of the opinion that Hamburg 41/2% Bonds are selling far below their intrinsic market value. Other municipal bonds issued in 1919 are selling anywhere from \$1,000.00 to \$3,000.00 per million mark unit as compared with \$420.00 for Hamburg 41/2% Bonds. They are only beginning to right their position and consequently the coming months will undoubtedly witness sensational advances in the price of Hamburg 41/2% Bonds.

The table which is appended below makes clear the profit possibilities in City The Revaluation Law compensating hold- of Hamburg 41/2% Bonds. We cannot ers of Hamburg 41/2% Bonds to the extent stress too greatly the necessity for immediof not less than 21/2% of the Gold Value ate action. Present prices shown in the of their holdings places an approximate table, cover every expense. Bonds are Gold Value of \$3,050.00 on every 1,000,- 'delivered by registered and insured mail.

## TABLE SHOWING PROFIT OPPORTUNITIES
