Grit and Tory Shake Hands and Everybody Happy in Adjourning

Canada's sixteenth parliament suspends activities till February--supply bill rapidly put through--King and Guthrie exchange greetings

OTTAWA, December 16.—Canada's Sixteenth Parliament adjourned yesterday afternoon for the Christmas holidays, and members of both House and Senate are now homeward bound. Little more than two days was taken to transact business which it was expected would take five, this being due to a large extent to the co-operation given by the Opposition members who seemed equally anxious with the Government supporters to rush things through and get home in time for Santa Claus' visit. Royal Assent was given the supply bill yesterday after it had been passed by both the House of Commons and Senate.

BOYS CAUSED SOME ANXIETY

VANCOUVER YOUTHS RETURN HOME WHILE SEARCHERS SCOUR THE COUNTRY FOR THEM

VANCOUVER, Dec. 16.—While three separate parties combed the blizzard-swept mountains northeast of Vancouver in search of Clarence Robertson, aged 15, and Cameron Stover, aged 14, two youths who had been camping at the lower levels of Hollyburn Ridge across the harbor, returned to their homes here yesterday afternoon. They were surprised when informed that hope of their being rescued alive had been practically abandoned on account of the severity of the weather. They set out on Sunday ostensibly for a day's hike.

"After we started on Sunday," said Robertson, "we changed our minds about going to Dog Mountain and went instead to Hollyburn Ridge. Late in the afternoon we started to return but lost our way and slept all night under a tree stump. With the low clouds and snow-storm we made little progress on Monday and had to sleep out again in the severe cold. With but two loaves of bread left on Tuesday, we became anxious but managed to strike an old lumber camp where we passed the night. After a good sleep, we started early Wednesday but the going was hard."

SCHOOL TERM ENDS FRIDAY

Happy Youngsters Will be Dismissed Tomorrow Until January 3

One thousand happy youngsters will close desks and lay aside books tomorrow, not to be seen again at school for a fortnight. To most of them the days will be crowded with festivities incidental to Christmas and New Years so the time will probably pass quickly enough for them. Parents, however, may think differently.

Schools will reassemble on the morning of January 3 for the opening of the long spring session.

JAMES DICKSON HEAD INSPECTOR

Hon. William Sloan Announces His Promotion of Staff of Mines Department

VICTORIA, Dec. 16.—James Dickson, prominent member of the Board of Examiners under the Coal Mines Regulations Act and inspector of mines, has been appointed chief inspector of mines in British Columbia succeeding the late R. Wilkinson it was announced yesterday by Hon. William Sloan, minister of mines.

COUNTY COURT HAD SESSION

VARIOUS CASES SET AND DISPOSED OF BEFORE JUDGE ROBERTSON

County Court convened yesterday in the court house with Judge Robertson of Prince George presiding in the absence of Judge Young. The following disposition was made of the various cases which were set for hearing:

W. E. Williams et al vs. Peter Bryne, settled.

C. F. Harrison vs. D. D. Kimball, set for January 24. Patmore & Fulton for plaintiff and Williams, Manson & Gonzales for defendant.

John Thomas vs. Martin Peko, Williams, Manson & Gonzales for plaintiff and Patmore & Fulton for defendant, going on.

Owen McPadden et al vs. Porter Idaho Mining Co. Patmore & Fulton for plaintiff and defendant in person, January 24.

John Lindseth vs. Conrad Lindseth et al. Patmore & Fulton for the plaintiff, Williams, Manson & Gonzales for the defendant; settled.

P. J. Moran vs. W. T. Atwood, Williams, Manson & Gonzales for the plaintiff, and the defendant in person; settled.

F. D. Rice vs. James E. Taylor, Williams, Manson & Gonzales for the plaintiff, and MacKenzie and Patmore & Fulton for defendant, stands.

C. W. Bart vs. T. P. Ryan, Williams, Manson & Gonzales for the plaintiff, and the defendant appearing in person; settled.

H. Roberts vs. F. L. Buckley et al, Williams, Manson & Gonzales for the plaintiff, and MacKenzie and Patmore & Fulton for defendant, stands.

J. C. Gavigan vs. Joe Saeffer, Williams, Manson & Gonzales for the plaintiff, and defendant in person, January 24.

King vs. John Bussanich, with W. E. Fisher for defendant, December 16.

King vs. Roy McKinley, Williams, Manson & Gonzales for defendant; settled.

King vs. Victor Rogers, Patmore & Fulton for defendant, December 17.

King vs. Arthur Beale, Williams, Manson & Gonzales, January.

Johns vs. Seaton, Williams, Manson & Gonzales vs. Rudland, Storey vs. Houglund.

TAIYO MARU WILL LOAD CARGO HERE

Vancouver Papers Report Ship Due on Coast December 20—Will Take on Logs and Grain

Vancouver papers state that the Japanese freighter Taiyo Maru, due on this coast on December 20, will take a cargo of logs and grain for Japan, part at Vancouver and part at Prince Rupert. The vessel belongs to the Ocean Transport Co. and the agents are C. Gardner Johnson Ltd.

HON. WILLIAM SLOAN IS OFF TO HONOLULU

Will Take a Six Week's Rest at Advice of His Physician; Has Been Indisposed Lately

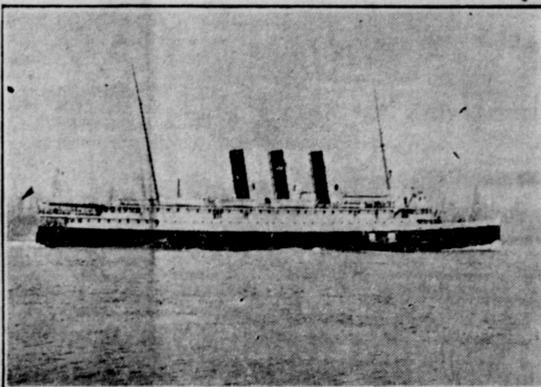

VICTORIA, Dec. 16.—Hon. William Sloan, minister of lands, sailed last evening for Honolulu where, on the advice of his physician, he will take a six weeks' rest. He has been indisposed for the past two or three weeks.

WEATHER IS AMELIORATING

THERMOMETER RISES ON PRAIRIES AND COLD WAVE IS TRAVELLING EASTWARD

WINNIPEG, Dec. 16.—Weather conditions throughout the prairies showed a great improvement this morning. The mercury ranged from three to twelve below zero as against fifteen to thirty yesterday. The cold wave is now hitting Ontario and Quebec.

S.S. "PRINCE RUPERT" WILL BE HOLIDAY SHIP

When the C.N.R. steamer "Prince Rupert," Capt. Donald, leaves here tomorrow evening for Vancouver, she will have on board over two hundred passengers, most of whom are going south to spend the Christmas season. Included in the number will be a number of school teachers from up river points as well as from Anyox, Stewart and the city. Already half a dozen teachers from the interior have made reservations and to these will be added several from the local teaching staff as well as others from Ocean Falls and way points.

Included in the passenger list will be Dr. and Mrs. W. T. Kergin, Mrs. W. H. Kergin, and Miss Margaret Kergin, who will spend the Christmas season in the south and then proceed on a motor trip to southern California. The doctor, who expects to be away over a month, is shipping to Vancouver his Chrysler car with which he will take the trip to California.

E. C. Gibbons, of McCaffery and Gibbons, and F. E. Robertson, manager of the Royal Bank of Canada, are also to spend Christmas in Vancouver and will sail on the "Prince Rupert" Friday night.

More Sensational Evidence Given Customs Commission by Head of Liquor Concern

VANCOUVER, December 16.—Sensational evidence with regard to the number and size of contributions made by the British Columbia Breweries Ltd. to campaign funds featured the evidence submitted at the session of the Customs Commission on Wednesday when Henry Reifel, president of that company as well as of the B.C. Distillers, was on the stand. To him, N. W. Rowell, K.C., commission counsel, produced a number of checks on the B.C. Breweries with vouchers attached. The great majority of the checks which ranged in amount from \$100 to \$25,000 were issued in 1925 and 1926 and witness admitted that they represented contributions to campaign funds. So many were the checks that, as Rowell read off the particulars, the answer "campaign funds" became monotonous. No particulars as to which party or parties the sums were contributed were asked for or given. On one or two occasions it was said that the checks had been paid to "fight prohibition" or "to get signatures for beer by the glass."

UPROAR IN REICHSTAG

IS CULMINATION OF SOCIALIST ATTACK ON MARK CABINET—DISORDER AND VOCI-FERATION

BERLIN, Dec. 16.—Bedlam broke loose in the Reichstag today when Philipp Scheidemann, leader of the Social Democrats, attacked Defence Minister Gessler and charged that a secret fund existed in the budget for the manufacture and hoarding of arms and airplanes in Russia. The charge was greeted with cries of "Traitor" and "Blackguard."

Pointing to the diplomatic gallery where foreign representatives were seated, the Nationalists cried: "Why reveal those things to our enemies?" and then left the chamber.

Scheidemann, who was leading the Socialist attack aimed at overthrowing the Marx cabinet, cried: "The Allies know all about the rotten military conditions in Germany. We might as well correct these conditions ourselves as have the Allies act for us."

LIBERALS WILL MEET IN MARCH

EXECUTIVE DECIDES TO HOLD PROVINCIAL CONVENTION THEN—PREMIER OLIVER SPEAKS ABOUT P.G.E.

VICTORIA, Dec. 16.—The next provincial convention of the Liberal party will be held in Vancouver on March 16, the executive decided last night. Arrangements are being made whereby the expenses of delegates will be pooled so that those from a distance may be placed on equal footing with those in the city or nearby.

F. W. Sterling, Vancouver, was chosen temporary provincial secretary in place of Brenton S. Brown, resigned. The meeting dealt with many resolutions. Premier Oliver made a statement regarding the Pacific Great Eastern Railway and said that, although negotiations had been under way with both British and American capitalists, nothing definite regarding the disposal of the road had resulted.

Minister of Public Works Tells of Road Program for Year and Speaks of Rupert

VANCOUVER, Dec. 16.—Not counting such vast and costly undertakings as the proposed Skeena highway, the Revelstoke-Golden link of the Vancouver to Banff road and other major projects, the estimated cost of the immediate road construction demands of the people of various parts of British Columbia is between \$16,000,000 and \$17,000,000, stated Hon. Dr. W. H. Sutherland, provincial minister of public works, while in Vancouver this week, on his way back to the capital after a visit to the Kootenay country.

This information was obtained, he said, from the various district engineers, each of whom had been asked to prepare a list with estimates attached, of the work in his district for which there was a direct and insistent public demand.

NORTH PROJECT

Discussing the request for a road connecting Prince Rupert with the general highway system of the province, which now extends via Prince George to a point eight miles west of Hazelton, Dr. Sutherland stated that the cost of building through the Skeena canyons would dwarf the figures for the Fraser Canyon highway into insignificance.

"Engineers who worked on the construction of the Grand Trunk Pacific tell me that that line cost \$200,000 a mile in places," he said. "What a road will cost may be gathered from the fact that the railway took the best locations. We intend to put engineers in there next year to see what can be done in the way of running a line through, but our present policy is to try and extend the existing road as far as Terrace as soon as we can afford to do so. This will reduce by about 40 miles, the distance which Prince Rupert people will have to ship their goods to reach the highway."

SHIPPING SERVICE

"At Revelstoke and Golden when we wished to go touring in our cars, we used to ship to the nearest trunk highway and for that purpose the C.P.R. established loading platforms and kept one or two flat cars in a convenient place so that we could drive our automobiles right on the flat car and secure them with a minimum of inconvenience. It occurs to me that the Prince Rupert people might arrange some such service on the National Railway."

EMPEROR OF JAPAN IS GETTING WORSE

TOKIO, Dec. 16.—The condition of Emperor Yushihito, who has been ill for months, took a decided turn for the worse this morning, all members of the Royal Family being summoned to the palace.

VANCOUVER LOGGER LOSES ARM UNDER TRAIN AT SEATTLE

SEATTLE, Dec. 16.—Fred Green, 28-year old logger of Vancouver, B.C., lost his left arm and suffered serious head injuries when he was run over by a Northern Pacific switch engine in the railway yards last night.

Defeated Ald. Andrew Davison by Majority of 2194 in Yesterday's Contest

PORTUGUESE INSURRECTIONS.

PARIS, Dec. 16.—Havas news agency despatches report military insurrections in southern Portugal.

Miss Caldwell, R.N. of the staff of the local hospital is leaving for the south tomorrow. Her position on the staff will not be filled for the present. At the first of the year Miss Hunter, who will have finished her training, will be taken on the staff as a graduate nurse.

MANITOBA PEOPLE ARE ON INCREASE

Population is Now 639,956 Which is Increase of 28,938 Over 1921

OTTAWA, Dec. 15.—Manitoba's population is estimated at 639,956 in a bulletin issued by the Dominion Bureau of Statistics. This is an increase of 28,938 over 1921.

FORTUNES FROM DESERT WASTES

LOS ANGELES SCIENTIST WILL TRY TO OBTAIN GOLD OXIDES

LOS ANGELES, Dec. 16.—An exploration of Death Valley and parts of Nevada to test his theory that huge fortunes in the form of gold oxide can be extracted from the desert wastes is soon to be made by Dr. Herschel C. Parker, noted scientist.

Gold oxide has been made in laboratories for a hundred years, he points out, but was never thought by scientists to exist in nature. However, he became convinced that it does. He made the discovery, he says, during a course of experiments at Mona Lake while attempting to extract gold from gold-carrying waters by means of electrolysis.

Dr. Parker believes that enormous quantities of gold oxide, which he terms "aurite," lie on the arid bottoms of Death Valley and that the waste lands can be made to yield hundred of millions of dollars in gold.

Dr. Parker was Professor of Physics at Columbia University for 20 years and at one time was associated with Dr. Robert A. Millikan, head of the California Institute of Technology. He will be joined in the exploration by Harry Wolf, Chicago manufacturer, who will act as manager of the expedition.

LABEL PAYMENT NOW EXPECTED

HON. WILLIAM SLOAN CONCEDES TWENTY PER CENT IN SETTLEMENT OF JUDGMENT GIVEN IN HIS FAVOR

VANCOUVER, Dec. 16.—Through his solicitors, Hon. William Sloan, according to the Vancouver Province, has announced that he will forego twenty per cent of the \$30,000 damages awarded him in the McRae libel suit. The minister's lawyers, the newspaper says, have been authorized to settle the case for him and no doubts in regard to settlement are now anticipated, there having been only a matter of \$2,000 in dispute. A compromise on this sum is looked for.

JAP PRINCE TO RETURN HOME

COMING FROM ENGLAND TO SAN FRANCISCO AND THENCE ACROSS PACIFIC TO BEDSIDE OF DYING FATHER

VANCOUVER, Dec. 16.—Prince Chichibu, second son of the dying Japanese Emperor, will sail from England, where he has been studying, on December 22 for New York it was announced at the Japanese consulate here yesterday. He will sail on the steamer Siberia Maru from San Francisco and not from Vancouver as previously reported.

DAILY EDITION.  Thursday, Dec. 16, 1926

SCOTS, SCOTCH, OR SCOTTISH.

Considerable controversy is going on in purist circles of England as to which form is correct, Scots, Scotch, or Scottish. Downing Street took the field a few years ago with the ruling that "The Scotch Education Office is in future to be styled the Scottish Education Office." But, alas the days of ex-cathedra governments have gone forever, so instead of settling the debate it has only caused it to rage more fiercely.

It does not seem much help to refer to the north of the Tweed writers. Truly Burns' cry rings down the years rousing the blood like the call of the pipes "Scots wha hae w' Wallace bled?"; and Sir James Barrie has his character in "What Every Woman Knows" point out "Have you forgotten the grandest attribute of a Scotsman, Margaret, that he'll do nothing which might damage his career?"

On the other hand Sir Walter Scott, turning reporter for George IV., states that that monarch once confided in him that "The Scotch are a nation of gentlemen." And granted that Dr. Johnson's reverence for words was sufficiently strong to overcome his antipathies he also may be cited as an authority on this side, for it was he who threw out the oft recalled barrage "The noblest prospect that a Scotchman ever sees is the high road that leads him to England."

Be it known that the question is only troubling the literary pundits of England. So far as can be learned the dwellers in Scotland are cannily retaining all three terms.

DOMINION IS EMPIRE'S GRANARY.

Although the latest official statistics foreshadow a Canadian grain crop somewhat below the record of last year, the Dominion has not lost its claim to the proud title of the Granary of the Empire, says the Financial Times of London. It still produces abundantly and is still by far the largest contributor, from Imperial sources, to the Motherland's supplies. The expected decrease in production is chiefly in minor cereals, while the falling off in the yield of wheat—grain that really counts, has been relatively trivial. Indeed, even now the total crop, despite unfavorable climatic conditions in the harvesting season, is estimated at nearly 406,000,000 bushels, or roughly only about 1 per cent less than in 1925. In the production of oats, barley and rye the decline has been on a heavier scale, but the virtual maintenance of the wheat crop will compensate to a large extent for disappointments in other directions. Canada is predominantly an agricultural country, and the prosperity, not only on the industrial areas of the East, but of the Dominion as a whole, depends on the wheat harvests of the Prairie Provinces. Consequently the comparatively good yield now practically assured means a continuance of those flourishing times so clearly reflected in trade statistics and railway traffics. The present year's crop is not a record, and the reduction of almost a bushel per acre is perhaps disappointing. Nevertheless, the general result can hardly be regarded as other than most satisfactory.

Prices may not be so favorable to farmers as they were last year, but after the bumper harvest of 1925 the grain growers of the Western Provinces can afford to face some reduction in their revenue returns. Last year they were able to clear off their indebtedness to the banks and to start afresh, not only with a clean slate, but a substantial surplus in hand. Their comparatively flourishing condition has been largely responsible for the revival of industrial activity in the East, the demand for manufactured goods of all classes having been powerfully stimulated by the comparative affluence of Western consumers. The railways have benefitted not only by an increasing volume of traffic, but by those lessons of economical operation learned in the stern school of adversity. There may be clouds on the horizon in the shape of demands for higher wages, which spells of prosperity invariably provoke, but the Canadian railway worker may be depended upon not to indulge in any foolish or futile struggle detrimental to his own interests. Nothing has happened to dispel the widely-held impression that the Dominion is on the threshold of a new era of prosperity. In such circumstances it may reasonably be hoped that the Canadian authorities will be prepared to deal generously with British investors still smarting under very real grievances. If they do that the way will be clear to the renewed participation of the British capitalist in Canadian enterprise.

Bank of Montreal Annual; Underlying Conditions Sound Trend of Business Upward

Sir Vincent Meredith, President, in Comprehensive Survey, Gives Many Reasons For Confidence Regarding Outlook in Canada—Reviews Great Expansion in Power Development and Pulp and Paper Industry.

Sir Frederick Williams-Taylor, General Manager, in Constructive Address, Emphasizes On Convincing Reasons Why Canada Should Attract British Capital and Intending Emigrants.

The Annual Meeting of the Bank of Montreal brought together a large and happy gathering of shareholders. One of the outstanding features was that at the close of the year the Bank was reported to be in the strongest position in its history. Very interesting and comprehensive surveys of conditions in Canada, as well as in other countries served by the Bank were submitted by Sir Vincent Meredith, President, and Sir Frederick Williams-Taylor, General Manager.

Sir Vincent, in presenting the annual report to the meeting, said, in part: "A broad survey of trade conditions in the year under review finds much to hearten and little to discourage. In almost every department of commerce activity is greater and, despite keen competition, profits are larger. Confidence finds practical demonstration in increased capital investment in development of natural resources and to a lesser extent in expansion of manufacturing plants. Outstanding in this respect is the growth of the pulp and paper industry, the exploitation of mineral deposits and the harnessing of water powers, closely allied industries indigenous to Canada and in respect of which she may be said to stand unrivalled. The growth of the pulp and paper industry is remarkable, and has produced large profits. In ten years our exports of wood, wood products and paper have increased from \$83,000,000 to \$273,000,000. The United States' consumption of newsprint is over 3,000,000 tons a year, of which Canada supplies rather more than one-half. Within the next twelve months Canadian mills now under construction will be adding about 450,000 tons a year to their present output, and unless the present rate of consumption expands, there is the possibility of a surplus of newsprint coming on the market at no distant date.

"The power development on the Saguenay by the Aluminum Company of America is an undertaking of more than local interest. When completed, the plans provide for a total of about 1,100,000 H.P. (nearly 50% larger than that available at Niagara for Canada). The creation of this new industrial centre with its model city of Arvida, will add materially to the resources of the Province of Quebec.

"Then we have our great mineral resources. In 1913 Canada's mineral production was \$145,000,000. In 1925, \$228,000,000, a gain of 57%. As a producer of gold, the indications are that we may soon rank second among the countries of the world, and there can be no doubt as to the vastness of our potential mineral production in general.

"Coincident with the improvement in business has come a decrease in unemployment. Not since 1920 have the ranks of out-of-works been so thin as now. I refer to the country at large, as in some trades and in a few cities a slight reduction in the number of hands employed is recorded. There are, of course, seasonal variations in the demand for labor, but the encouraging fact is that unemployment is now less than at any period during the past six years.

FOREIGN TRADE EXPANDS
"The aggregate of Canada's foreign trade still expands, having had a value of \$1,290,500,000 in the seven months ending October 31st, or \$42,000,000 more than in the corresponding period last year. The character of the trade, however, is changing, imports having increased and exports decreased, as a consequence of which the favorable balance has diminished. Taking the seven months' period, there was last year an excess of \$181,300,000 of exports over imports, while this year the excess is only \$95,000,000, and it is possible that this margin may be further reduced in the near future.

"On the other hand, while we are not shipping abroad the same volume of dairy products as last year, we still have a dominating trade in cereal exports to counterbalance rising imports, with a steadily enlarging market in the United States for newsprint and pulp, so that the diminishing tendency in our favorable trade balance need not give immediate concern though its significance cannot be ignored.

In conclusion, Canada has emerged from the shadow of restricted business, unsatisfactory earnings and indifferent balance sheets and the trend of business is now distinctly upward in practically all lines of trade. I cannot see any indication that this period of prosperity is soon coming to an end. I believe the underlying conditions are sound and the future can be viewed with confidence.

GENERAL MANAGER'S ADDRESS
The general manager, Sir Frederick Williams-Taylor, in commenting upon the affairs of the Bank, said in part:— "As illustrating the Bank's settled determination to keep in the van of banking progress, let me mention some comparatively new special services we now render to our clients and the public at large.

"At the head office of the Bank several special departments are in operation, each of them manned by specialists in their respective lines.

"We have, for instance, a Foreign Department, which keeps in constant touch with all important foreign countries, facilitates the foreign trade relations of our clients and endeavors to create or increase, among persons and firms abroad, an interest in this country and its opportunities.

"A second department watches the hourly fluctuations in the many foreign exchanges and disseminates this information through the medium of our system of private telegraph wires to central points and thence to our hundreds of offices throughout Canada. We are thus able to give to the public facilities in exchange transactions and the benefit of the closest competitive rates.

"We have also a department which specializes in securities, maintaining contact at all times with the markets in this country and abroad. The services of this department are at the disposal of our clients through the medium of any of our offices.

BRITISH CAPITAL TO DEVELOP CANADA WOULD BE WELCOME
"From a purely material point of view it makes no difference whether the capital that develops our resources comes from the United States or elsewhere, but I shall not be misunderstood if I say that for Empire reasons, which are more than merely sentimental, Canada as a whole would heartily welcome a greater influx of British capital.

"It may not be out of place, therefore, to mention three outstanding facts regarding Canada, for the benefit of potential British investors and of those at home in Great Britain who have the welfare of the Empire at heart.

"First, consider our three Prairie Provinces. Less than fifty years ago they were uninhabited. Today there is, on these fertile plains a population of 2,000,000 prosperous people, with millions of rich and idle acres waiting for more settlers to come.

"The estimated value of the field crops of these three Provinces in 1900 was \$32,000,000. Now, 26 years later, the actual value is close to \$709,000,000, more than \$300,000,000 in excess of the world's annual output of gold.

"Second, though Canada is well known as a great agricultural country, it may not be realized abroad that the gross value of our manufactured products at the point of production amounted, in 1924—the latest figures available—to \$2,695,000,000, or nearly twice the value of our agricultural production for the same year.

"Third, our progress in harnessing water power, the utilization of which has increased 180% in ten years. Canada is now second per capita in water power development in the world. When developments now under way are completed Canada will have in use 4,500,000 horse power, representing a capital investment in power plants and transmission lines of \$854,000,000.

"These three facts alone, apart from all other considerations, should be enough to attract fresh to this portion of the British Empire the notice of British engineers, promoters, investors, manufacturers and intending emigrants."

Ten Years Ago in Prince Rupert

DECEMBER 16, 1916

Rev. A. E. Price, the pioneer missionary of Kitwanga, returned yesterday afternoon from a visit to England.

Ivor Fougner, Indian Agent at Bella Coola, is a visitor in the city for a few days.

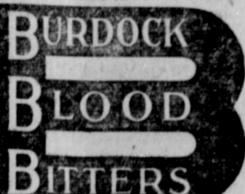

There is more ore at Rocher de Boile than can be handled at present so the men have started on a new drift to the left of the tunnel.

Jack Crate returned from North Dakota yesterday to again take up his residence here.

W. R. Ross, formerly minister of lands, was in the city this morning.

INDIGESTION Gas on Stomach Caused Severe Pains

Mrs. C. F. Wheeler, R.R. No. 1, Glen Ewen, Sask., writes:—"For years my eldest son suffered from severe pains and agony from imperfect digestion. He dieted and used artificial digestants, but all to no avail. At last I got him a bottle of

and he had not taken the whole bottle before he was greatly relieved. The severe stomach attacks ceased, there was no more gas on the stomach, and he could eat anything he wished. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

having come north from Vancouver.

Capt. Percy A. Godenrath is giving an address in the Anglican Church on Sunday night. He will speak concerning experiences at the front.

SPECIAL SAILINGS FOR VANCOUVER

In order to accommodate those desiring to go south after the schools close Friday, December 17, the Canadian National Steamships announce that on that day the S.S. Prince Rupert will be held here until 8.00 p.m., arriving Vancouver on time Sunday morning at 9.00 o'clock.

The following week, on Wednesday, December 22, this steamer will sail for Anxox and Stewart at 4.00 p.m. instead of the usual sailing hour of 10 p.m., returning from the north, arriving here 6.00 p.m. Thursday and sailing for Vancouver 6.30 p.m. that day instead of 9.00 a.m. Friday. This boat will arrive Vancouver 9.00 o'clock Christmas morning.

Accommodation on both these sailings is fast being taken up, and it is suggested those going south should make their reservations at early as possible. 294

On her next trip north from Vancouver to Prince Rupert via the Queen Charlotte Islands, the steamer Prince Charles will be a day late. Her scheduled departure from Vancouver is 4 o'clock Christmas afternoon but she will be held over there until noon the next day. On the present trip, the Charles will not get in before tomorrow, having been stormbound at the Islands.

Judge Young, of Prince Rupert, and Mrs. Young are visitors in the city. They are guests at the Glenshiel Hotel. Judge Young, who is county court judge for the county of Atlin, has been granted leave of absence owing to the fact that he has not been in the best of health for a time. In the district over which he exercises jurisdiction it is impossible for him to take his holidays at the usual time for court vacation, the middle of the summer. That is the season when the court business is most active in the northern part of his territory. He is therefore obliged to get his vacation in the winter months, if he is to have one at all.—Victoria Colonist.

BOOTH SCHOOL XMAS CLOSING

PRODUCTION OF OPERETTA "PRINCESS CHRYSANTHEMUM" A VERY PRETTY ENTERTAINMENT

Last evening the pupils of the Booth Memorial School presented their Christmas concert in the school auditorium to a full and appreciative house. The entertainment took the form of a production of the Japanese Operetta, "Princess Chrysanthemum," a story in dialogue, song and chorus of the land of the Rising Sun and the fortunes of its pretty Princess and her lovers, the Princes So-Tsu and So-Sin. In true Oriental style the Princess is abducted by Saucer-Eyes, the Wizard Cat, and his band, and is only restored to her father, the "merciful" Emperor, What-for-Whi, through the kind offices of her guardian spirit, the Fairy Moonbeam. Top-Not, the Court Chamberlain, and one of the Emperor's attendants, supplies a touch of humor throughout the play, following the lead of his august master.

The children taking part in the choruses were dressed in brightly colored kimonos with chrysanthemums in their hair. Particularly dainty were Joan Arthur in gold and white and her four little attendants, while Annie Gilchrist, the Fairy Moonbeam, was a real fairy in pure white and silver, with her ethereal band similarly attired. Olive Munro and Beulah McKinley, appropriately dressed, took the parts of the rival princesses, while the boys were not forgotten. Billy Fuller, the Emperor, in black with gold dragons, lorded it in dignified manner over all as the arbiter of clemency and justice, well looked after by Frank Derry, as Top-Not, the Court Chamberlain. The staging represented, with pine trees and lanterns, a scene in the Emperor's garden. The forces of night were well portrayed by Walter Cross, the Saucer-Eyes, with his imp attendants all dressed in black and red, who sang and danced weirdly in the Cave of Inky Night.

THOSE TAKING PART

Other children taking part included: Fairies—Clara Wikdal, Eileen Hamblin, Mathilda Van Dyk, Reta Stromdahl, Ruth Nelson, Ellen Hamvold, Betty Arthur, Gladys Cook, Frances Stegavik, Hadi Suehiro, Solberg Jensen, Grace Allen.

Attendees—Elizabeth McLeod, Jean Wilson, Ann Kirkendall, Oscar Fuller. Sprites—Bert Cameron, Myra Fulton, Bobby Moxley, Garfield McKinley, Bishop Thurber, Roy Franks, Dwight Rice, Ned McLeod, Fred Skinner, Jack McRae.

Chorus—Clara Dandquist, Kathryn McMillan, Mabel Ivarson, Edith Miller, Phyllis Way, Nellie Lawrence, Muriel Vance, Audrey Wrathall, Ivy Anderson, Betty Eastman, May Jones, Thelma Skinner, Pheme Finley, Jean Ritchie, Hilda Bond, Elsie Franks, Clara Stegavik, Cathie Eastman, Edith Kergin, Eileen McHaffey, Rose Rice, Mary Casey, Annie Kach, Eleanor Edwards, Christina McLeod, Victor Miller, Donald Ryan, Dolly Derry, Lillian Jones, Adelia Thurber, Velma Walters, Audrey Tremayne, Marion Ryan, Lucille Brooksbank, Mickey Casey, Helen McNaughton, George Dybarn, Mary Geary, Jean Calbreath, Margaret McLeod, Zois Tee, Lillian Davies, Mabel Pilling.

GOOD CHORUSES

The choruses were well executed with clearness, grace and vivacity to the very last note. Among the solo and concerted song numbers particularly worthy of mention, were the songs, "Which Shall it Be?" Joan Arthur, "A Kitten's Tale," Saucer-Eyes and Sprites; "A Jolly Little Japanese Sailor-man," Beulah McKinley, and "Whether You Like it or not," Emperor and Chorus. The Fan Dance and the dance by Annie Gilchrist and Fairies were delightfully executed and the Sprites and their leader contributed much by their revels in the Cave of Inky Night and their Umbrella Dance before the assembled court.

All the Booth School staff contributed their share to the work of putting on the concert. Mr. Wilson's efficient handling of the musical parts of the operetta made the staging of such a performance possible, while Miss Mercer's training of the dancers and her work at the piano were equally invaluable. Miss Rothwell gave unsparingly of time and energy to produce just the right effects in color and costume with much success. Mrs. Darlington looked after the Princess' dress and made the chrysanthemums used, and Mrs. Walker, Miss Marsh, Miss Mitchell and Miss Donaldson also helped with the training of the Fairies, Emperor and Sprites respectively. The whole was under the supervision of the principal, Mr. Hartness, to whom is also due credit for much of the work on the dialogue, the stage decorations, the programs and the business management of the affair.

The concert is being repeated in the Booth Memorial School at 8 p.m. tonight.

HOSPITAL BOARD HOLDS MEETING

BUSINESS LAST NIGHT WAS LARGE, FULL OF ROUTINE NATURE

The hospital board held its regular monthly meeting last evening in the hospital with J. H. Thompson in the chair. The report of the house committee showed that the city had completed the work on the road to the nurses' home and that the sewer connection with the hospital had been repaired. This work had been carried out by the city at a cost of over \$200

BRINGING UP FATHER

By George McManus

which was ordered by the Board.

The finance committee, in reporting on the month's business, announced a deficit of \$1,499.25 with an average daily cost of \$4.96 for the 1103 hospital days.

The board had invited the local members of the medical profession to a conference in respect to accommodation in the hospital of companions for patients and, after learning the views of each doctor, the matter was further discussed by the Board in private. The decision reached was that such companions should not be permitted to occupy sleeping accommodation in the same room as patients but that they might sit therein overnight or occupy separate rooms at full rates if such should be available.

Those present at the meeting beside the chairman, were Miss Jean Harrison, R.N., Alderman M. M. Stephens, S. D. Johnston, G. H. Elkins, G. P. Tinker and Secretary H. W. Birch.

LITTLE TB. IN MANITOBA

SANITARIUM SUPERINTENDENT TELLS HOW DEATHS FROM IT ARE CUT DOWN

WINNIPEG, Man., Dec. 16.—(By C.P.)—The death rate from tuberculosis in Manitoba is lower than in any other part of the world, said Dr. D. A. Stewart, medical superintendent of the Manitoba sanitarium, Ninette, in an address here.

Medical science had cut deaths from tuberculosis in half in fifteen years, he said. There were today four hundred persons, well, and at work in the province with no thought of illness hovering over them, who would have died from tuberculosis in 1925, if the death rate had been the same as fifteen years ago.

"One of the best things about the campaign against tuberculosis is that it is one of the best kinds of campaigns for general health. It has likely accomplished most in its conquest of tuberculosis indirectly to its improvement in general health conditions," Dr. Stewart stated.

"In all forward looking and good-living communities there had been a tremendous cutting down on the ravages of tuberculosis until now it was no longer the captain of the men of death, but was pretty much reduced to the ranks. In Manitoba the death rate from this one disease had been reduced fifty per cent in fifteen years and tuberculosis had dropped from first place to seventh as a destroyer of human life.

VANDERHOOF

Samples of timothy sent out for testing prove that it is quite equal in quality to that produced in the Bulkley Valley. There will probably be quite an impetus in its growing in the Nechako Valley.

A quiet wedding took place here last Thursday at the home of Mr. and Mrs. George C. Holt when Miss Nora Birnie, youngest daughter of Mr. and Mrs. Birnie, Chilliwack, became the bride of Edward Leslie Reynolds of Chilco. Witnesses were Pat Birnie and Miss J.

J. Keith, leader at the F. L. Housley logging camp, had three ribs fractured in an accident last week and is in the Anyox Hospital where he is reported to be progressing favorably.

A contract has been let to J. Fiva and P. Petersen to continue underground work in development of the big ore body at the Toric mine. The larger portion of the machinery for the concentrating mill is now at the mine.

Ole Evinson is applying for a beer licence for the Alice Arm Hotel.

SPORT CHAT

Ottawa is known throughout Canada as the Capital of this great Dominion but it is also known as one of the finest little sports towns in Canada. Year after year they produce teams which certainly hold their own against larger centres which possibly are in a better position financially to support athletics. This year they won the Amateur Rugby championship of Canada

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia

The deer season closed yesterday with a few local sportsmen braving the elements in an effort to secure another meal of venison before the Christmas turkey takes possession of the larder.

The butter production at the Nechako creamery here for the month of November was approximately one hundred per cent greater than during the corresponding month last year.

Harold Hindmarch is making a satisfactory recovery at the Prince George Hospital where he had an operation performed last Thursday.

Mrs. Harry Worthington and her new baby have returned to their home in Engen.

Mrs. Joseph Hartley, who has been very ill, is making satisfactory progress toward recovery.

The Young People's Society here has re-elected the following officers for the ensuing year: President, Cecil Steeler; vice-president, Miss Marjorie Peterson; secretary, Miss Ellen Pinnie; treasurer, Miss Sadie Campbell.

ALICE ARM

Miss Verna Wilson and brother, Billy, have left for Vancouver where they will spend the winter with their mother.

Martin Krall has returned to Alice Arm after having spent some time confined to the Anyox Hospital with a broken ankle.

H. Bernischky, who is interested in claims on McGrath Mountain, arrived in town at the end of last week.

J. Keith, leader at the F. L. Housley logging camp, had three ribs fractured in an accident last week and is in the Anyox Hospital where he is reported to be progressing favorably.

A contract has been let to J. Fiva and P. Petersen to continue underground work in development of the big ore body at the Toric mine. The larger portion of the machinery for the concentrating mill is now at the mine.

by defeating Toronto University in Toronto and the Ottawa Senators are leading in the eastern division of the National Professional Hockey League. They have only a small rink and also have not the population which some of the hockey centres have to support professional hockey, and still they have been able to hold their players against the inroads of American promoters who are willing to pay the price if only they can secure championship teams. It has long been a difficult task to support a first class professional hockey team in a town the size of Ottawa. How long they will be able to maintain their honors in this realm of sport is a question which concerns several thousands of fans.

At its semi-annual meeting, the Manitoba Golf association, decided that a future amateur golf championship of the province would be a closed event, open only to players who have been residents of Manitoba for thirty days previous to the tournament. The championship will be conducted as an event entirely separate to any other golf competition and be decided by match play. The Manitoba association has offered to take in clubs as far east as Fort William and Port Arthur, subject to the approval of the Ontario Golf association. A recommendation to form a senior golfer's association for Western Canada will not be acted upon until the next meeting of the organization.

The deer season closed yesterday with a few local sportsmen braving the elements in an effort to secure another meal of venison before the Christmas turkey takes possession of the larder.

The butter production at the Nechako creamery here for the month of November was approximately one hundred per cent greater than during the corresponding month last year.

BALAGNO WON GAME FROM PERCY TINKER

Final of Billiard Tournament Brought Aggregate to 890 to 824 in Favor of St. Andrew's.

The final game in the St. Andrew's Grand Terminal billiard tournament was played last night, Charlie Balagno of the Terminals winning over Percy Tinker, St. Andrew's, by a score of 200 to 112. This made the aggregate score for the tournament 890 to 824 in favor of St. Andrew's. The game is subject, however, to approval of the League, not having been officially postponed.

The league standing to date is as follows:

Games Total Average
Terminals 7 7366 921
Grotto 8 7100 888
Gyros 8 7098 887
St. Andrew's 8 6906 863
Moose 8 6894 862

The averages for the players in the league to date are as follows:

Games Ttl. Aver.
F. Ziemann (Terminals) 8 1090 200
G. Howe (Grotto) 2 490 200
Geo. McIlmoyle (St. A.) 1 200 200

WATER NOTICE

DIVERSION AND USE. TAKE NOTICE that John De... whose address is P.O. Box 176, Rupert, B.C., will apply for a license to take and use 4,000 gallons per day of water out of an unnamed creek flowing northerly and drains into Inlet, on its south shore. The water will be diverted from the stream at a natural outlet of a small lake and from the mouth of the creek. It will be used for domestic purposes upon the 7 acres of land described as unsurveyed land in a lease of the ground on the 22nd day of November, 1926. A copy of this notice and an application pursuant to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in the local newspaper. The date of the publication of this notice is December 1, 1926. JOHN DE... APPLICANT.

WATER NOTICE

DIVERSION AND USE. TAKE NOTICE that the Gas Company, Limited, whose office is Vancouver, B.C., will apply for a license to take and use 100,000 gallons per day of water out of the Fraser River at Captain's Cove at head of Cook Cove. The water will be diverted from the stream at a point about 700 feet from the mouth of the stream for commercial and domestic purposes on land described as Lot 123, West Coast District. This notice will be posted on the 22nd day of November, 1926. A copy of this notice and an application pursuant to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in the local newspaper. The date of the publication of this notice is December 1, 1926. GOSSE PACKING COMPANY APPLICANT. By J. F. Strain, Agent.

WATER NOTICE

DIVERSION AND USE. TAKE NOTICE that the Department of Public Works of Canada, whose office is Ottawa, will apply for a license to take and use 3,000 gallons per day of water out of an unnamed stream, flowing easterly and drains into Cook Cove on the east side of Dugby Bay, B.C. The water will be diverted from the stream at a point about 1/2 mile west of the northwest corner of L.S. subdivision of part of Lot 190, B.C. and will be used for domestic purposes upon the land described as a lease of the ground on the 22nd day of November, 1926. A copy of this notice and an application pursuant to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in the local newspaper. The date of the publication of this notice is November 24, 1926. DEPARTMENT OF PUBLIC WORKS CANADA APPLICANT. By J. P. Ford, District Engineer.

CANADA IS NOT AN EL DORADO

BUT IT OFFERS PROSPECTS OF CERTAIN ADVANCEMENT TO THOSE NOT AFRAID OF WORK SAYS ENGLISH LABOR PAPER

Immigrations is no cure-all for unemployment, nor is Canada an El Dorado in which the workless can immediately settle down in comfort says Lansbury's Labor Weekly. Years of toil, hard persistent work, week in, week out—work not limited by trade union hours—must be faced. But settlers on the land, both men and women, can face hardships and overcome difficulties because they have prospects of certain advancement. Farm laborers in the Old Country seem to be without any hope of getting out of the job in which they are stuck; in Canada the worker knows that after a few years as a wage earner it is possible to become an owner.

Failures alluded to sometimes are largely due to vagueness and ignorance on the part of the settlers. They plunge into the vastness of Canada without knowing what, and where they are going to, what type of farming they wish to pursue, what climate suits them best, and a hundred other questions which they have not asked themselves.

Canada is a great country, with varying climates and varying soil; province differs from province and district from district, and each district has its most successful type of farming; here pigs and poultry, there fruit and vegetables or stock raising or wheat. While each district has its speciality, the system of farming in general is slowly changing and becoming 'balanced'—what is known in England as 'mixed,' combining stock and crop production.

MUST HAVE GOAL SET

If the settler is to succeed he must have his goal clearly set before him; he must make up his mind what he is going to do and where he wishes to live. And in order to make up his mind, he needs information. How is he to get hold of it? In district after district in Western Canada, there are now being set up farmers' committees which get together all the facts relating to the particular district. Primarily intended for the farmers themselves, this information, if available, would be extremely valuable to the intending settler. And it is now being proposed to give him access to this information. At the annual meetings at which this information is compiled, representatives of the Canadian Government are present; this information therefore bears the stamp of Government approval. To protect himself and his country from false accusations the Canadian farmer is most anxious to protect the settler from false lures and misconceptions, and this plan would protect him.

The Farmers' Committee suit us because they co-ordinate the work of all existing organizations, and also use the very efficient Government Department's already in existence. The committees pledge themselves to welcome, help and advise in a spirit of neighborliness all newcomers settling in our district, and to stand between them and exploitation in any form. They hold meetings once a year, at which information is compiled about the kind of farming that has proved most profitable in the district. This is obtained direct from those local farmers who are actually making a success of some special line. In addition the tabulated information includes a survey of the district and of the country town which serves that area; population, water supply, transport facilities, lists of doctors, vets, schools, churches, and so on. It also enables the settler to get into direct touch with his neighbors; before starting out he can write to them and ask their advice.

HOW TO GO ABOUT IT

Equipped with this information, the settler would choose a district where balanced farming is the rule, and work is therefore available all the year round. For a few years he would work as a farm hand. He would not find this as irksome as he might think, because his 'boss' would also be a laborer, working as hard, if not harder, than he; often indeed coming back to the homestead at night later than the new

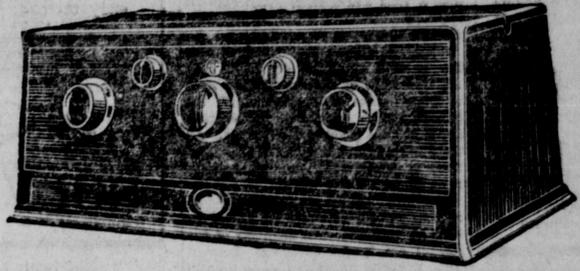

Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes:—"Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse. I wrote my mother about my condition, and she sent me three boxes of

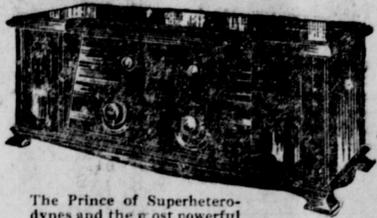

After the first box I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever I did when I was a young girl. Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Here are Welcome Christmas Gifts

The New "One-Dial Five."

The R-50 is one of the latest Victor-Northern Electric developments and is a general favorite. It employs a tuned radio frequency circuit of a new and exclusive type. One Dial control with two extra dials for excellence of fine adjustment. Employs three of the famous Peanut Tubes and two of the New DX221. Price \$110. without tubes.

R-41-L Nine Tube "Super"

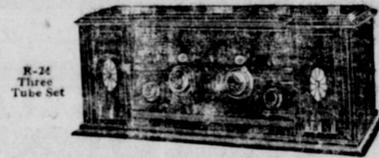

The Prince of Superheterodynes and the most powerful set made for home use. Fills every demand for quality, sensitivity, selectivity, distance performance and volume. Employs seven famous Peanut Tubes and two of the Powerful DX221 (New). Either outside antenna or R-7000 Loop. Price \$245.00 without tubes.

This is the original Cone Loud Speaker. Recommended for the improvement in reception and quality with any radio set of five tubes or over. It gives a full, rich, round quality of tone. The sound emerges in all directions from the surface of the cone which gives all tones their natural quality. Price \$35.00

The Horn Loud Speaker is the twin brother of the famous Cone type and has the merit of greatly amplifying signals on the smaller sets without additional batteries. This qualification makes it very effective with any set of three or more tubes. Price \$35.

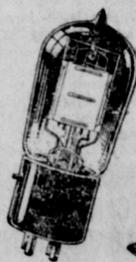

R-24 Three Tube Set

The R-24 is the successor of the R-21, Canada's popular set of last year. Contains an improved regenerative circuit, the best circuit known for volume and distance in a three tube set. Employs three of the famous Peanut Tubes resulting in extreme economy of operation. Price \$55. without tubes.

R 215-A The Famous Peanut Tube

The famous Peanut Tube is an exclusive feature in all Victor-Northern Electric radio sets. Peanut Tubes add miles to radio reception. Economy, quietness and quality are unequalled. Can be installed in any radio set by the use of socket No. R-8400. Price \$3.00

DX 221 Standard Base Tube (New)

This new powerful standard base tube will improve reception from any set. Used as both detector and amplifier. It is not over critical as to plate and filament voltage, and results in a more reliable selectivity and uniform reception. Price \$2.75

Victor Northern Electric

Victor Talking Machine Company of Canada, Limited Montreal

WELCOMED by everyone... Acceptable in every home because the words Victor-Northern Electric convey to a buyer a name assurance of reliability. Two Famous Names. Everyone recognizes "Victor" as pre-eminent for musical entertainment in the home... all have seen it on the Victrola. Northern-Electric is known throughout the Northern American continent for radio broadcasting... for instruments connected with transmission of sound... and with radio since radio sets have been made.

Victor-Northern Electric offers that radio user's satisfaction so essential in gift giving... Go to any Victor-Northern Electric dealer and ask to see the radio set at the price you wish, or ask to see the Cone or the Horn Loud Speaker... or the Famous Peanut Tube... or the New Powerful DX221 Standard Base Tube. There is a price range from \$2.75 to \$245. to meet your every wish and the recipient of your gift will appreciate your choice.

settler. He would also find that his work was not a dead end, but the gateway to ownership.

It is a mistake to suppose that agricultural laborers are more welcome than other workers. The urban worker with proper training, often makes a better settler, because he has a more open mind. The three essential qualities that are found in all men who succeed on the land in any country are Land Sense, Vision and Initiative. These three qualities are not peculiar to any occupation, class or race.

WOMEN HEAR GRAHAM SPRY

NATIONAL SECRETARY OF CANADIAN CLUB GIVES INTERESTING ADDRESS

On Wednesday afternoon in the Boston Hall the Women's Canadian Club was addressed by Graham Spry, National Secretary of the Association of Canadian Clubs. The president, Mrs. S. P. McMordie was in the chair and introduced the speaker. Mr. Spry was appointed to the office

of National Secretary at the annual meeting of the association which was held last September. Since his appointment he has visited 30 Canadian Clubs holding executive meetings and also addressing general meetings. Mr. Spry is a graduate of Manitoba University and also a Rhodes Scholar, and is well equipped to carry out the work to which he has been called.

His address was most interesting beginning with the formation of the Canadian Club in Hamilton about thirty-five years ago. Mr. Spry explained the aims and ideals of the club and his audience felt, after hearing his address, that the Canadian Club is capable of being very worth while to the community. Owing to the inclement weather the attendance was not as large as could have been wished, but those who were there spent a very pleasant and profitable time.

At the close of the address, Mrs. A. R. Nichols moved a vote of thanks to Mr. Spry which was seconded by Mrs. Thor Johnson.

Tea was served. Mrs. W. Millar and Mrs. D. McD. Hunter poured, when the members of the club availed themselves of the opportunity of meeting Mr. Spry.

Mrs. F. P. Kenny was the accompanist for the afternoon.

TO INVESTIGATE FOSSIL BEDS

EXPECTED DOMINION GOVERNMENT WILL UNDERTAKE WORK IN MANITOBA

WINNIPEG, Dec. 15.—In all probability the dominion government next summer will investigate the fossil beds in the Estevan district, Saskatchewan. A letter to this effect, has been received by John Kennedy, of the United Grain Growers' company here. The letter is written by H. Collins, director of the mines branch of the department of Interior. Mr. Collins says that if possible he will have a geologist go over the fields with Mr. Kennedy with a view to preparing an exhibit for display at Ottawa. Apparently pre-historic animals congregated in this district, because federal government officials have found parts of dinosaurs, south of Deloraine in the Wood Mountains.

Mrs. W. Barton returned to the city yesterday afternoon after a brief business trip south.

INSTRUMENTS ARE EXPENSIVE

TWO VIOLINS, VIOLA AND CELLO USED BY YOUNG YORK QUARTETTE AGGREGATE \$175,000 IN VALUE
 NEW YORK, Dec. 16.—New York's youngest quartette at its next recital at the end of the year will play two violins, a viola and a cello, worth \$175,000 made by Antonio Stradivari in the early days of the eighteenth century.
 Stradivari violins are reputed to have the sweetest tones of any made. Of the thousands of instruments cherished by their owners as the product of the famous Italian instrument player only about 500 are genuine, experts say. All these are now in museums or in collections of wealthy men and changes of ownership are easily traced.
 The four century old instruments to be used by the quartette are owned by Felix M. Warburg. The members of the quartet are Sascha Jacobsen, Bernard Oeko, Louis Kaufman and Marie Romet-Rosanoff, the cellist.
 The quartette was recently organized under the patronage of Mr. Warburg and other wealthy music lovers and gave its first concert a month ago.

NEW ALPHABET WOULD NEED LESS PAPER AND RAISE WRITING SPEED

KANSAS CITY, Dec. 16.—A revision of the English alphabet which, it is claimed, would cause a saving of 25 per cent of the white paper consumption, has been worked out here by Elihu M. Anderson, veteran Kansas teacher.
 In Anderson's alphabet, all words are represented by sound only, the silent letters in each word being eliminated.

This he believes, would so simplify the spelling and reading of words as to tend to make English the accepted language of the world.

The alphabet would consist of fifteen vowels, two diphthongs, seven diagraphs and eighteen consonants. Single consonants would be the same as in the present alphabet except the elimination of "C" and "Q" and the restraint of interchangeable valence as in "G or J." George would be spelled "Jorj" and Rose, "Roz."
 Anderson explained his system would not change the language, but only the mechanical production of words in print. He said he intended to communicate with Dr. Godfrey Dewey of Harvard University, who recently urged a new system of letters.

ALL READY FOR ANYOX VS. RUPERT BASKETBALL

The following are the line-ups for the Anyox vs. Prince Rupert High School games:
 Anyox— Forwards, Theodore Asimuc and Jack Barclay; centre, Stuart McLachlan; guards, Cyril McDonald and Edward Clay; utility, Ernest Barclay.
 Prince Rupert—Y. Katsuyama (captain), S. Gurvich, D. Stalker, R. Stalker, M. Sakamoto, R. Irvine and H. MacDonald.
 Two games will be played, one on Friday night and one on Saturday. Friday night's game will be played in conjunction with the regular city league games. Saturday night there will be exhibition games between picked teams; also a girls' game between the girls of the High School.

TEA AND SALE IS BEING HELD TODAY FOR Q.C. CITY FUND

An afternoon tea and sale of home cooking is being held this afternoon at the home of Mrs. T. J. Shenton in aid of the relief fund for Queen Charlotte City.
 Mrs. George Johnstone is in charge of several raffles and Mrs. Shenton is being assisted by Mrs. W. N. Hoss, Mrs. D. McCullough and Mrs. J. Ratchford.
 As considerable interest has been created locally in the situation in which many people find themselves at Queen Charlotte City, it is expected that there will be a substantial addition to the relief fund as a result of the sale.

STANFORD STUDENTS WILL HAVE ARTIFICIAL 'QUAKES

SAN FRANCISCO, Dec. 16.—A series of earthquakes are to be produced artificially for research purposes by engineering students of Stanford University to determine the effects of shocks upon various types of buildings.
 The tests which have been made possible through a donation by a San Francisco man connected with the building industry, will be made on structures above specially designed apparatus for producing seismic shocks.

STEWART

S. A. Knowles of Salt Lake City and Denver, a mining engineer of nationwide repute, and his son, D. T. Knowles, have arrived here. The former will assume the general management of the Big Missouri mine and the latter will take a position with the staff.
 The Stewart Tennis Club will hold a dance on Friday night when trophies won during the past season will be presented to Miss Muriel Crawford, J. W. Wilson, Miss Joan Mellor, James Maurice, Miss Wilson and H. D. Rochfort.
 James McAleeman, proprietor of the Hotel Stewart, is on a business trip to Victoria.

Owen McFadden has taken a bond on the half interest in the Lucky Date Group of claims owned by Alex. McInnis. McFadden already owns the other half interest and it is his intention to launch a campaign of development work next year on the properties which are located in the Bitter Creek section. He will go south to raise money.

A new strike of high grade ore has been made in the Riverside mine. It looks like one of the best bodies of commercial ore ever encountered in the district.

Hugo Stratford was able to leave the hospital last week after having been a patient there for several weeks following an operation for appendicitis.

A FINE DINOSAUR FROM CANADA AT LONDON MUSEUM

LONDON, Dec. 16.—There has been placed on exhibition in the Natural History Museum an armoured dinosaur which arrived as long ago as 1915. Fifteen feet long, it is believed to be the finest specimen of its group. The fossil was obtained by the late W. E. Outler from the Belly River formation (about the age of our Upper Chalk) on the Red River in Alberta, Canada. It was extracted from the rock in two large masses and two smaller ones, the whole weighing about two tons. To transport such weights from the cliff heights across the Bad Lands and put them on the rail was no easy task. Then came the Atlantic passage with the danger of U-boats, and finally the erection of special gear in the workshop of the Geological Department to enable the huge blocks to be handled. When the plaster wrappings had been removed the chiselling away of the hard sandstone matrix began. For two reasons this was a work of much delicacy. The bones were soft and friable, so that they had to be hardened; and then it was soon found that the skin of the back was wonderfully preserved and had to be exposed with the greatest care by the preparator, L. E. Parsons.
 So great is the pressure of work in the department that this job would not have been finished even now had it not been expedited by the introduction of a specially adapted pneumatic chisel. This reptile was one of the plated dinosaurs or Stegosauria, of which Polacanthus from the Isle of Wight was one of the first known. It had a long, low body, curiously widened in the middle, with a flattened back.

Ex-Kaiser William keeps a castle ready for occupancy in Germany. William shouldn't forget that there are also a number of nice roomy jails in the Fatherland.

Although Lord and Lady Willingdon brought over 25 house servants with them, this will not help much towards the solution of the servant-girl problem.

MARRIED WOMEN ARE BEST TEACHERS SAY SCHOOL PRINCIPALS

MORGANTOWN, W. Va., Dec. 16.—Married women make better school teachers than do unmarried ones in the opinion of many of West Virginia's high school principals.

Attacking regulations of many of the state's boards of education forbidding employment of married women as teachers, the principals, in annual conference here, unanimously agreed that married women usually are more stable, satisfactory and efficient teachers than unmarried ones, have fewer distractions and are more serious about their work.
