## URGED TO GET AFTER ROAD TO INTERIOR

## ARREST OF AIMEE McPHERSON IS ORDERED BY DISTRICT ATTORNEY

### Reeve of Surrey Urges Building Road Connect Rupert With Interior

That Prince Rupert should make every possible effort to secure the building of a road to connect Prince Rupert with the outside world in order to take advantage of the big tourist business and to keep in touch with the general trend of development, is the opinion of Thomas Reid, Reeve of Surrey and president of the Good Roads Association, who is in the city this week and who yesterday addressed the Rotary Club at their weekly luncheon.

Mr. Reid said that his municipality was the gateway of Canada from the United States on this coast, the Pacific Highway connecting Blaine with New Westminster passing through it. This year it was estimated that 80,000 cars passed over the road. In the past they, in the south had looked to harbor development for their growth. Today they were looking largely to the building of roads and the use of motor cars.

Mr. Reid told of driving over a mountain in the state of Washington five thousand feet high amidst a sea of mountains, which was a very picturesque drive. It was built on a good grade all the way. Prince Rupert should now get busy to find a feasible route to the coast. Living here it was difficult to realize what strides were being made in motor traffic and preparations should be made to share in it.

Mr. Reid said the B. C. Electric Railway route to Chilliwack was giving place to motor traffic and that company had bought up all the available bus routes. He looked to the roads as the means of communication in the future.

Mr. Reid spoke of the fact that Prince Rupert was built on a hill where it could not be hid and was on a rock and was therefore solid. Since he was here three years ago great strides had been made and he now hated to leave.

### INDIAN BANDS MUCH ENJOYED

GAIN TAKING ACTIVE PART IN FAIR PROCEEDINGS—PARADE THIS AFTERNOON INTERESTING AFFAIR.

The native bands are as usual contributing to the success of the Exhibition and the enjoyment of the population at large. In their smart uniforms and with their bright instruments, both the Kitchikan and Greenville bands look well indeed as they lead the street parades and give their nightly concerts at the hall. A word of encouragement might also be said for the local Boys' Band which is taking an active part in the proceedings and which shows increasing improvement each time it is heard.

### PRINCE RUPERT CLUB HAS FIRE

ABOUT \$1,000 DAMAGE DONE AS RESULT OF BLAZE LAST EVENING

Damage estimated at about \$1,000 was done to the Prince Rupert Club building as a result of a fire that broke out in the premises about 7.30 last evening. Originating in the garret of the building, presumably from electric wiring or an overheated chimney, the garret was burned out and the flames burned a hole through the roof over the bathroom on the east side. Black smoke and flames coming through the roof caused considerable excitement among those in the club and a big crowd gathered on the streets outside. The fire department extinguished the blaze, the walls being considerably damaged throughout the building by water.

### FOOT OF SNOW AT EDMONTON

FARMER AND FAMILY ARE KILLED BY LIGHTNING IN SASKATCHEWAN DURING STORM.

MUCH DAMAGE TO CROPS

MIDWINTER ASPECT IN ALBERTA AS RESULT OF EARLY AUTUMN SNOWSTORM.

WINNIPEG, Sept. 17.—A total of four deaths and damage to ungarnered crops to an extent which is not yet determined is left in the wake of snow, rain and hail storms which swept western Canada within the past 48 hours.

F. Willis, a farmer living in the Rama district of Saskatchewan, with his wife and two children, were killed Thursday when a lightning bolt struck the home during one of the worst electrical storms experienced in that district. The house was burned to the ground and the bodies of the victims were charred almost beyond recognition.

In several sections of Alberta the snowfall reached midwinter proportions, the maximum fall being reported from Edmonton where it was a foot deep, while in other parts it varied in depth from one to six inches.

### ELLENIA FOUNDERED OFF BRITISH COAST

LONDON, Sept. 17.—The Italian steamer Elenia foundered off the British coast Thursday after being in collision with the British steamer Iduna, which was able to continue her voyage. Vessels answering the call found only one empty life boat, but believe the crew of the Elenia were saved by fishermen in the vicinity.

### Forke Likely to Join Macenzie King Administration it is Said When Cabinet Formed Next Week

OTTAWA, Sept. 17.—Mackenzie King will probably be called upon at the end of next week to form a new government. That is the belief in well-informed political circles here. While no official statement has been by Mr. King since election, gossip favors the likelihood of the Sixteenth Parliament convening about November 20. In this eventuality the House, after acquiring authority for the outlay of the necessary treasury funds, is likely to have a long adjournment for Christmas. A late fall session, it is believed, will mean an endeavor to conclude the session by Easter, 1927.

Cabinet making for the King administration is simplified, it is said, by the fact that approximately three quarters of those who held the portfolios in his former government will be back again. For the most part, it is assumed, they will occupy their old places.

It is likely a member from Manitoba will be allotted a portfolio. Robert Forke, Liberal-Progressive member elect for Brandon and until recently leader of the Progressive party, is mentioned as likely to get the appointment.

LOS ANGELES, Sept. 17.—The arrest of Aimee Semple McPherson, of Angelus Temple, the noted evangelist and Mrs. Minnie Kennedy, her mother, and three other persons connected with them, was ordered last evening by District Attorney Asa Keyes, who characterized the kidnapping of the evangelist as a hoax. The complaint charges conspiracy to defeat justice.

This morning the arrests were not actually made, owing to the serious illness of Mrs. McPherson.

### Threats Were Made to Kill J. F. Duthie When Visiting Stewart 1925

SEATTLE, Sept. 17.—Threats to kill J. F. Duthie, millionaire Seattle ship-builder, at the bottom of "Red Rock Barite Mine" at Stewart, B. C., a year ago, were revealed by Mr. Duthie in testimony before a jury here yesterday in an action against the Dexter Horton Bank for the disposition of a ten thousand dollar deposit made by J. W. Wored and Harry Quicksted as first payment on the mine.

Duthie, accompanied by the prospective purchasers visited Stewart to examine the mine owned by James J. Connors, former mayor of Juneau and John McLean. Duthie testified that "as I was about to descend underground McLean came rushing up with a gun told me he would see to it I never came out alive if I went down."

Because the deal failed to materialize the ten thousand dollars was returned to Wored and Quicksted.

### TRAWLER IS SUCCESSFUL

QUANTITIES OF RAT FISH TAKEN BY G. E. FOSTER AND USED FOR OIL.

Unofficial reports received in regard to the operations of the steam trawler G. E. Foster, chartered from the Canadian Fish & Cold Storage Company by George Bushby for the Marine Products Company, indicate that she is bringing in a large amount of fish which is being used at the reduction plant at Tuck's Inlet. This consists very largely of rat fish, from which a large amount of the very best grade of oil is secured. This fish has a long swishy tail from which it gets its name.

The edible fish such as sole of halibut is marketed at the Canadian Fish & Cold Storage Company's plant here.

### TAKING BACK CHARGE LAID AGAINST GALE

MAGISTRATE REFUSES WITHDRAWAL UNTIL ACCUSED HAS CHANCE TO APPEAR.

VANCOUVER, Sept. 17.—Magistrate Shaw in the police court this morning refused the request that the charge of perjury lodged against R. H. Gale on September 8 be withdrawn. He declared that "serious allegations had been made against Gale who was not present to defend himself and until he appeared no action to withdraw the charge would be considered."

D. Rogers, who swore to the information, stated in court this morning he knew nothing about the alleged facts behind the perjury charge, which was the outgrowth of a civil action launched by Dal Thomas in the supreme court in May, 1925, to recover commissions he claimed due him from Gale for interesting Spillers to establish an elevator here.

### MANSON PARTY ACTION WHICH IS DISMISSED

WAS ABUSE OF PROCESS OF COURTS SAYS JUDGE IN COMMENTING ON CHARGE BROUGHT

VANCOUVER, Sept. 17.—Because two plaintiffs in a suit for \$600,000 damages were not present in court and because none of the ten defendants were ever served with copies of writs taken out against them, Mr. Justice McDonald in the Supreme Court yesterday dismissed the action.

W. W. Rush of Stewart and Arthur Braag of Oliver brought the suit against defendants in a charge which states that their actions prevented the partners obtaining money with which to develop their mine property in the Portland Canal district.

The defendants include the American Mining and Smelting Company of Tacoma, Attorney General Manson, and prominent business men of Vancouver, Victoria and Seattle.

Mr. Manson is named because it is alleged he knew of a fraud which they charge was committed but failed to take action to end it.

"This looks like abuse of the process of the courts" said His Lordship in handing down his decision.

### RECORD SCORE ONE INNING

CARDINALS TURNED GAME INTO ROUT BY MAKING 23 RUNS AND BATTING OUT 4 PITCHERS.

ST. LOUIS AND CINCINNATI NOW TIED FOR FIRST PLACE IN NATIONAL.

NEW YORK, Sept. 17.—Despite the fact that Cincinnati stretched her successful winning streak to eight straight games by blanking the Giants yesterday, St. Louis went into a tie with the Reds by smothering Philadelphia in a double-header. The Cardinals turned the first game into a rout, scoring 23 runs and thus making the season's record for one game and scoring twelve runs in the third inning, when four Philadelphia pitchers were batted out of the box and two others were hit hard before the game ended.

### Building Buffalo on Canadian Grain.

As part of the campaign material used by the Financial Post to try to influence the electors against Mackenzie King they published pictures of the grain elevators at Buffalo and had a caption "Building Buffalo on Canadian Grain." This was not a party question and could not fairly be introduced as an election cry. However, it is a vital question for the Canadian people and one for them to consider carefully and particularly for the government and the Railway Commission. Here on the Pacific Coast are two Canadian ports through which the grain can be handled all the year round and, given an equal chance in the matter of freight charges, a great deal of the grain will be diverted from its course through the United States and will go out in ships plying on the Pacific Ocean.

Mackenzie King has already done well in regard to the west, but he now has an opportunity, going in with a new cabinet and new supporters in the House of Commons, to complete his western program by insisting that the orders of the grain board be carried out and that Pacific ports get exactly the same mile for mile rate as the ports at the head of the lakes or at the Atlantic coast.

The diversion of so large a part of the Canadian crop through the United States is not a new thing. It is not any particular government that is responsible for it. Canada owns a good deal of railway mileage in the United States and this railway line gets the benefit from the haul, but all other benefits go to the States. Canada does not get them. American ports are built up at our expense and we lose business which should be ours.

### Maritime Provinces And Grain Trade.

We are not trying to belittle the efforts of the maritime provinces to get a share of the grain trade. We simply wish to point out here that if they have any cause of complaint we have much more cause. We should not be called upon to pay a deficit caused by the long haul to Halifax and neither should we be discriminated against because the C.P.R. has a poor grade through the mountains of British Columbia. Now that the elections are over and there can be no accusation of playing politics in connection with this demand is a good time to press the claim for fair and equitable rates to the Pacific Coast on grain grown by the farmers on the prairies.

### Make Railway Pay, is Effort of Sir Henry.

The effort of Sir Henry Thornton to make the railway pay is one that is wholly commendable. We are not suggesting that any spoke should be placed in the wheel in this regard. We need to be relieved of the burden of railway debt and this relief can come only through efficient management and a progressive policy. Sir Henry has given us that and now we ask him to look at the possibilities of increasing his revenue by building up the ports on the Pacific Coast with an equal chance for Prince Rupert with Vancouver. We are advantageously situated in regard to the grain trade and we expect to develop into a big grain port. In this the lot of Prince Rupert is bound up with that of the Canadian National Railway and we, more than most places, are interested in it and in its success in developing western business.

Canada will be represented at the International Live Stock Exposition in Chicago during November. The Aberdeen-Angus bull, "Espoir Marshall," owned by Howard Fraleigh, Forest Hill, Ontario, was a prominent winner at a former show.

## GREAT PRAISE FOR PRODUCTS

THOMAS REID, OF SURREY, SAYS MUCH OF INTERIOR PRODUCE AS GOOD AS SOUTHERN.

That much of the interior products are just as good as those grown in the south, if not better, is the opinion of Thomas Reid of Surrey, who is here in connection with the Fraser Valley exhibit which is staged at the Exhibition Hall this week. He is much pleased with the stuff he saw at the fair, but says it is largely a matter of putting it up in good shape so that it will look well. That was the great reason that brought them here. It was an educative project.

# RUPERT WINS FIRST GAME

### HAD EASY 10 TO 3 VICTORY OVER KETCHIKAN IN BASEBALL YESTERDAY

Prince Rupert took the first of the baseball series from Ketchikan yesterday afternoon in a game throughout which local players demonstrated their superiority over the visitors, winning by a score of 10 to 3. Herman Loblick, in the box for Rupert, played a sterling game and allowed only four single hits and walked three. He fanned fifteen of the Ketchikan batters who appeared to anxious to hit at his punning balls. The locals found Stewart, the Ketchikan hurler, very easily for a home run, a number of two baggers and a flock of singles. While the local fielders, infield and outfield, were right on their toes and letting little past there were several glaring errors on the part of the Ketchikanites, errors as well as hits contributing to the victory of the Prince Rupert team.

#### DETAIL OF PLAY INNING BY INNING.

In the first inning, Greenwell was struck out, Garn popped out and Imbery fanned for Ketchikan. Moran and Schlenker walked and Balfour got first on a pitcher's choice. Moran being out at third. Downie poked out a two bagger and Schlenker scored. Haveland followed up with a double, scoring Balfour and Downie. W. Mitchell got first on pitcher's choice. Haveland being out at third. Gordon was fanned and Prince Rupert went down with three runs.

Stewart, the first man on bases for Ketchikan, was walked in the second inning. Chestie struck out and Koskie got first on an overthrow from third to first. Stewart scoring. Koskie was put out trying to steal and Herron fanned. One run for Ketchikan. H. Frizzell was fanned and Loblick fanned but with two men down, Moran knocked out a good two bagger and stealing third, scored when Schlenker popped out a little grounder which the first baseman let through. Balfour singled and the side went down, with one score, when Downie's infield fly was caught at second base.

Loblick fanned Kuble, Johns and Greenwell one-two-three in the third. Haveland was put out at first. W. Mitchell fanned. Gordon got first on an error and H. Frizzell fanned.

#### PULLED OUT OF A HOLE

With Garn getting first on an error, Imbery walking and Stewart singling, Loblick got himself into a box with the bases full in the fourth. It was an anxious moment but W. Mitchell fielded Chestie's fly beautifully on the run and while Downie kept the runners helpless on the bases, Loblick rose to the occasion and prevented scoring by fanning Koskie and Herron. Loblick fled out to centre field, Moran walked, Schlenker got a single which he stretched to second base as a result of an error. Balfour was fanned and Downie fled out, the side going down without score.

Kuble fled out in the fifth. Johns got first on an error but was put out at second trying to steal. Greenwell also fled out. Sloppy fielding gave Prince Rupert a second base on a left field error and W. Mitchell was fanned. Gordon got first on another error and scored. Haveland, still another error got Frizzell on first and scored. Haveland. Disaster was complete when Loblick made the circuit on a hit that was no better than a single, and also scored Frizzell. Moran fled out and Schlenker was fanned.

Garn walked in the sixth. Imbery struck out and Stewart found a single. Chestie got another single and scored. There was no follow-up, however. Koskie and Herron striking out. Balfour got first on an error and Downie poked out a low home run which went in the bushes beyond left field. Haveland fled out and Mitchell and Gordon were fanned.

Kuble got first on an error in the seventh but nothing happened. Johns fanning. Greenwell being fanned and Garn sending out a fly which Moran, neatly picked up on the run. Howard Frizzell fled out and Loblick singled but the side went down when Moran batted right in a double play, Loblick being out at second.

#### HOW THE GAME ENDED

Imbery was fanned in the eighth and Stewart and Chestie fled out to left field. Schlenker was fanned and Balfour fled out. Downie poked out another two bagger but Haveland, after getting first on an error, was caught at second.

The locals eased up in the first of the ninth and let Ketchikan have another. Koskie got first on error. Herron fanned, Kuble was fanned and Johns made a single to score Koskie. Greenwell ended the game by striking out.

# EAST AND WEST TO BATTLE AT JASPER IN GOLF SEMI-FINAL

JASPER, Sept. 17.—East and West will meet in the semi-finals of the Jasper Park Lodge silver totem pole trophy as a result of yesterday's matches in the second round. Harry Jones of Shaughnessy Heights, Vancouver, will play Alec Wilson, Royal Montreal. C. C. Ronalds, Mount Bruno, Montreal, will meet Ben Cool of Calgary.

Harry Jones had quite a battle before he advanced. W. Matthews of Edmonton carrying the Vancouver player to the eighteenth green before a decision was reached. The match between Noel Jones and Alec Wilson ended three up and one to play in favor of the latter. At the eighth green the Vancouver player had a lead of three holes over the former amateur champion, but Wilson is an old campaigner who can regard such handicaps with equanimity and soon after the turn he had the match squared and then went into the lead.

# BOXING NIGHT AT THE FAIR

### FIVE SHORT BOUTS PUT ON FOR THE ENTERTAINMENT OF A LARGE CROWD OF FANS.

## BIG EVENT NOT SPORT

### LADS SHOWED UP BEST IN SPARRING CONTESTS AND SHOWED GOOD DEAL OF SKILL.

The boxing match between Charlie Bellanger of Vancouver, and Joe Manilla, the Filipino of Ketchikan, at the Arena last night was by no means a good match, but the program of bouts taken as a whole proved highly entertaining to the large crowd of fans gathered there. The best match of the evening was a three round go between Eddie Saunders and Henry Nelson, in which the former had the best of the game. They did some rather nice boxing and some pretty good blows were landed. Officials were as follows:—

Announcer—Bert Morgan.  
Timekeeper—Max Heilbronner.  
Referee of First Bout—J. Stewart.  
Referee of Main Bout—Brick Skinner.

The first preliminary was a two round go between two kiddies, Pete Chinski and Herbie Morgan. Chinski was the heavier built of the two. The little fellow fought gamely and drew first blood. At the close it was declared a draw and the crowd rained a shower of silver into the ring in appreciation of their work.

### CHUMS WENT AT IT WITH GOOD EFFECT.

The second turn on the card was a slight between two chums, Eddie Saunders and Harry Nelson. It went for three rounds and at the close both were pretty well all in. Saunders had the best of the game and at the close was declared the winner. He attacked most of the time but he tapped too much, while Nelson kept low and hit harder and often more effectively.

The third go was an exhibition affair between Jack Hughes of Prince Rupert and Jack Burns, a Filipino of Ketchikan. Very few blows were struck and the colored man danced around the other with much skill, although the long reach and superior weight of the white man told in his favor.

Dido Gurich got the decision in the fourth bout over Alberto, of Ketchikan, a Filipino who was plucky but ineffective against the superior length and weight of the local boy. Gurich was announced as 180 pounds and Alberto 120. It was rather a futile affair and went three rounds although there was not much sport in it after the first.

### MAIN BOUT WAS AN UNEVEN MATCH.

The main bout of the evening was clearly not a good match as Bellanger was the heavier, had the longest reach and evidently much greater skill. The contest that should be said for Manila was that he stood punishment well and showed lots of good punch. His effort towards the end seemed to be to try to prevent a knockout which evidently Bellanger had decided not to give.

Bellanger opened the attack and had the best of each round, although once or twice in the course of the mill, the Filipino seemed to get free long enough to hit back. He seemed to have but one blow and as it was always expected he often hit the air.

Joe drew blood in the second round but was nearly forced through the ropes and once went down but was up before the count. The fight really ended there, the rest of the match being devoted largely to the longer man beating the Filipino about the head.

### FEW HARD ONES IN FIFTH ROUND.

It was in the fifth round that Manila got a few good hard ones on the Vancouver man's ribs and in that round he showed more activity and it looked for a minute as if he really intended to fight but the effort soon ceased and he was on the defensive again.

The sixth round was no better than the others but it gave an opportunity for Bellanger to show off a little to the crowd and prove that he had the other man in hand and could do pretty much as he liked with him.

With the same amount of skill shown by the boxers, several of the events might have been improved by better matching of the men. However, the fans seemed satisfied with the entertainment provided. There was a goodly number of Ketchikan people present.

# JAZZ NOT SUITABLE FOR HEALTHY PEOPLE

BELFAST, Sept. 17.—"Jazz is all very well for blasé folk, and men and women whose lives are worn out," said Catholic Archbishop Gilman in Galway, "but for boys and girls with elasticity in their limbs it is unsuitable. For them Irish dances are best."

# BEAR BIT BALL JASPER COURSE

### WEE DAVIE BLACK DROPPED ONE ALONGSIDE BRUN WHO THOUGHT IT WAS SUGAR

JASPER, Sept. 17.—Shooting 69 in a best ball match David Black of Shaughnessy Heights, Vancouver, and Phil Taylor of Victoria Golf Club, defeated Jim Rimmer of Jasper Park and Ned McKenna of Minaki in one of the feature events of the autumn golf tournament over the Jasper Park Lodge golf course yesterday.

The same four are to meet today and an equally keen match should ensue. Rimmer and McKenna were unfortunately each exploring sand traps and roughs and while making excellent recoveries had to stand the punishment which falls upon the shoulders of those who deviate.

Had Davie Black been a Scot of the storied character there would have been no best ball match today. Wee Davie is keenly interested in the Jasper Park ears and when one of them, sauntered out of the copsie near the first fairway, Davie pitched a nice new ball along the turf to see what would happen. Now he knows. Master Black Bear picked it up in his snout, bit into and found it not the expected sugar, then he let go and it cost Davie half a dozen cubes of sugar to recover one damaged golf ball and Davie has learned that a bear's incisors puncture deeply.

# MABELJUNE PARSONS WINNER IN CARRIAGE PARADE, FAIR GROUNDS

The second prize went to Kenneth Wilton, four month old son of Mr. and Mrs. David Wilton, 723 Sixth Avenue West, whose carriage was drawn by Miss Edith Leek.

The judges were Mrs. F. P. Kenny and Mrs. R. Moore.

# ITALIAN WOMEN URGED TO DONATE JEWELRY TO STATE

ROME, Sept. 16.—Women of modern Italy should emulate the women of ancient Rome who gave their gold ornaments to the nation to help finance the war against barbarians, urges "Empero," an extreme Fascist newspaper, which says the struggle at present is against such barbarians as banks and stock exchanges, adding, "anyhow, gold ornaments are out of style now." Estimating on the basis of 9,000,000 families in Italy, the newspaper says it would be possible, were patriotism truly felt, to obtain 900 tons of gold, which is three times the present treasury's reserve.

## OSTEOPATHY IS DISCUSSED BY BRITISH HOUSE

### Commons Refuses to Interfere Between Doctors and Irreg- ular Practitioners After Discussion

LONDON, Sept. 17. — The House of Commons refused to take any action to prevent irregular practitioners doing business in this country. The spread of "unqualified practice" in medicine and surgery by Osteopaths and others was discussed at some length and the members took sides for and against but without arriving at any decision.

#### Regulars' Side

Dr. Little moved that an authoritative inquiry, with the object of making recommendations to parliament for dealing with the whole position of irregular practice in medicine and surgery, was urgently necessary. His comments were mainly concerned with osteopaths, who, according to Dr. Little, differ from other groups of unqualified practitioners in their claim to be as fully trained as the qualified. The theory of osteopathy had been examined, and rejected by international medicine, and nowhere more decisively than in America, the place of its birth. This theory he described as one which attributed every disease to the dislocation of small bones in the spinal column, whereas in fact, cancer, tuberculosis, and some forms of insanity were due to bacterial infection.

Hilton Young seconded the motion.

C. Atkinson, who bore personal testimony to the efficacy of osteopathy, moved an amendment in an endeavor to remove from manipulative practitioners the tacit reflection contained in Dr. Little's motion.

#### Orthodox and Heterodox

In the debate cases of successful and unsuccessful treatment were mentioned by both the orthodox and the heterodox. Mr. Storry-Beans suggested that the minister of health should use his influence to introduce into the General Medical Council a lay representation, for lack of which it had lost public confidence.

Mr. Chamberlain declined to support either the motion or the amendment, interpreting the former to mean the prohibition of all unqualified practitioners, and the latter to involve the official recognition of osteopaths. The public, he believed, would not desire to be cut off from any efficacious, if unorthodox, medical or surgical aid, and at the same time there was the impossibility of devising any board to assess the skill of osteopaths. He suggested that the solution of the problem would be found in the creation by the British Osteopathic Association of their own colleges, and in that eventuality he foresaw the gradual conformation of their curricula with those of the General Medical Council.

This interesting debate was "talked out" by Colonel T. Sinclair, a member of the General Medical Council.

#### The Soothing Thought

Hub—Now that we've spent so much money fixing up the house, I suppose you won't want to go away.  
Wife—Oh, yes, I will, but I'll feel more cheerful about coming back.

## ANOTHER MAN IS DISCOVERED

### Galilean Skull Somewhat Resembles That of Neanderthal Man Not Our Progenitor

London, Sept. 17.—At the British Assn. Turville-Petre, discoverer of the Galilean skull, was present at a meeting of the Anthropological section, and described the locality where the discovery was made, and an interesting dissertation was given by Sir A. Keith. He gave it as his opinion that the discovery announced by Mr. Turville-Petre would always rank among the important events of prehistory.

The discovery was particularly important, Sir A. Keith continued, because of the place in which it was made, for their imaginations had always placed the arrival there of Abraham and of the Israelites from Egypt as events which marked the very beginnings of history. In the light of this discovery, all those Biblical records became the happenings of recent days, for in this cave on the western shore of the Lake of Galilee the archaeologist's spade had laid bare the records of a people who lived in Palestine 20,000 years or more before Abraham and his household made their trek eastwards.

#### Dominant Type

The type of humanity and the kind of implements fashioned by that humanity in stone and bone discovered in the Galilean cave were similar to those which were made in the caves of France during the Mousterian period. From this discovery they saw that in remote times, as today, a dominant type of mankind spread abroad from a cradle land carrying their particular methods of living with them until a large area of the world was covered. The balance of evidence in this ancient case was in favor of Europe being the cradle land both of man and of his culture. It was possible but by no means proved that Europe, as in modern times, led the world in thought and deed. The present discovery made certain that the kind of man who lived in Palestine at a very remote period was of the same type and lived in much the same way as he did in Europe.

#### Is 20,000 Years Old

The Galilean man showed all the characteristics of Neanderthal man in his forehead; he had also the peculiarly moulded Neanderthal cheeks. From the estimated dimensions of the skull the skilled anthropologist would learn that Galilean man, so far as concerned size of brain, had reached the average which held for most living races of mankind. "We must not look on the Neanderthal man," said Sir Arthur Keith, in conclusion, "on this one as an ancestor. I could not conceive his teeth becoming ours, nor could I conceive his nose. He is a cousin as it were of our ancestor, but certainly not our ancestor. On the other hand, it is absolutely wrong to call him anything but human—a man. He lived on the western shores of the Lake of Galilee, not far from Capernaum, some 20,000 or 30,000 years before miracles began to be performed there."

## GROAN UNDER BURDEN OF WEDDING EXPENSES

### Campaign in Japan to Cheapen Ceremonies, Which Are Not Very Complicated There.

Tokio, Sept. 17.—Getting married in Japan costs more—for the Japanese—than in many other countries. For this reason Premier Wakatsuki, as chairman of the Thrift and Saving Encouragement Board, has begun a campaign to make weddings cheaper. Expenditures for a Japanese wedding run all the way from 500 yen, for the lower classes, to 500,000 yen for the very rich. When the daughter of a poor clerk marries it is frequently necessary for her father to spend his entire life's savings in the observance of the customs and celebrations which are deemed essential in order to maintain "face."

#### Present of Money

While the bride's father groans under the heavy expense, the bride-groom does not escape. In the first place, after the go-between has arranged the engagement, the young man makes a money present to the girl's fam-

**RETURNED MEN HAVE REUNION**

GATHERING IN ARMOY LAST NIGHT WAS ASSEMBLED IN HONOR OF COL. PECK, V.C.

An evening of much enjoyment was spent last night in the First North B.C. Regiment's Armoiy when 25 members of the 16th and 30th overseas regiments got together to meet Col. C. W. Peck, V.C., who commanded the 16th during the Great War. The guests included Joshua Hinchcliffe, M. L. A., and C. H. Orme, personal friends of Col. Peck.

Major S. D. Johnston and Capt. G. P. Tinker were in the chair and speeches were made by Col. Peck, Mr. Hinchcliffe, C. H. Orme and Capt. R. W. Cameron. Reminiscences of overseas days were recounted and Col. Peck favored the gathering with the rendition of "Alouette" in his own inimitable manner. Contributing to the program of the evening were Company Sergeant Major Wright Davies, Sergeant Murray, Capt. J. S. Wilson and Capt. Tinker with songs and Sergeant W. Rance with cornet solos. Refreshments were served.

At the conclusion of the evening's proceedings, which were in charge of a committee headed by Quarter Master Sergeant Malcolm Lamb, the entire party proceeded to the steamer Prince George where Col. Peck and Mr. Hinchcliffe were given a rousing farewell as they sailed away for Victoria.

**PAGAN REVELRY SEEN ON SCREEN**

STORY OF PRODIGAL SON SEEN IN "THE WANDERER," OPENING AT WESTHOLME TONIGHT.

Thousands of persons killed in the blinking of an eyelash! One moment simple yet possessing a theme of tremendous force and sweep.

That is one of the powerful situations which develops in "The Wanderer," beloved parable of The Prodigal Son, which comes to the Westholme tonight.

The plot of the story is a simple one, simple yet possessing a theme of tremendous force and sweep.

Jesse has two sons; Jether and Gaal. Jether, the younger, grows weary of the monotony of his shepherd life and longs to see the city beyond the hills. Despite the pleadings of his mother and the maiden, Naomi, he takes his portion and leaves for the city. With him is a dissipated spendthrift, Tola.

In the city, Jether learns to drink and dice, and he soon falls into the snares of the siren, Tisha. Squandering his portion upon her, he soon finds himself without money. Tisha, discovering he is unable to buy her a necklace, turns her affections toward Pharis, a giant sea captain. Jether leaves her house in anger.

**LAST NIGHT OF BABYLON.**

But the hypnotic lure of Tisha is too strong. On a night when the doors of the courtesan's house are flung open that all who will may worship at the shrine of her pagan god, Jether follows the throng that crowds to the feast.

As the crowd worships the God, the curtain behind Jether is rent with a flash of lightning and a prophet appears and denounces the idolaters. Inspired by Tisha, the mob attacks the prophet. Jether springs to his defense.

In aiding the man of God, the prodigal son escapes the vengeance of Heaven, as lightning cleaves the sky, the statue of the pagan god crashes to the ground, the pillars of the banquet hall totter and the roof thunders down upon the appalled throng.

The experience which befell the Wanderer following the destruction of the city, his long journey back to the home of his father and the reception accorded him there all go to make up a production that will amaze and thrill screen-lovers throughout the world.

**GOOD CONCERT LAST EVENING**

BIG CROWD GOT KICK OUT OF MID-NIGHT FROLIC IN WESTHOLME THEATRE.

The midnight frolic in the Westholme Theatre last night provided two hours of real fun for the large audience in attendance.

The first item on the program consisted of selections by the Imperial Rango Orchestra of Calgary.

Then there was the act of John and his sidekick from Ketchikan, "Chasing the Blues," which went over well.

Will Lea of Philadelphia gave the crowd a comical line of entertainment with his health lecture.

The song and dance act of Jack Hendrick of Ketchikan was really clever.

The Moose Orchestra, a local organization, played selections to good advantage and the program closed with a well executed sketch "Non-Sensical Nonsense" by Cy Greenwell and Jack Hendrick, both of Ketchikan. This is the first time the Moose Orchestra has been heard here.

**TIMOTHY SEED IS ALL SOLD**

FARMERS OF INTERIOR GET CLOSE TO FIFTY THOUSAND DOLLARS FOR CROP.

That the timothy seed grown in the interior valleys is to a large extent threshed and all sold at eight cents a pound, is the word brought by D. D. Munro, provincial agriculturist, who is here today. He says that the output will be about 600,000 pounds, which will give the farmers close to fifty thousand dollars and is a good beginning. As the buyers provide the sacks there is little expense attached to shipping the seed. Mr. Munro is much pleased with the outcome.

**LIQUOR FIGHT U. S. CONGRESS**

WHICH WILL GAIN IN FORTHCOMING ELECTIONS IS NOT KNOWN.

WASHINGTON, Sept. 17.—(Canadian Press). All signs point to a bitter battle in Congress the coming session over the wet and dry issues. The feeling on the subject was intense enough in Congress in the last session but it promises to grow worse instead of better.

One reason is that the wet and dry question is at the front in the present campaign in a number of states. New York is an illustration. There the controversy over a referendum on liquor is hot; also the drys are out to try to beat Senator Wadsworth.

Similar illustrations might be given as to a number of other states, as well as various congressional districts. The Ohio fight between Senator Willis, dry, and former Senator Pomerene, wet, is conspicuous.

Whether the wets or drys will gain in the elections in the different states in November is anybody's guess. Probabilities are both sides will claim gains, just as they did two years ago.

In any event, the feeling over the prohibition question will not be assuaged by the controversies of the campaign but will be accentuated.

**GENERAL ANDREWS HOLDS HIS JOIL**

Moreover, General Lincoln C. Andrews has given notice he will remain at the head of the prohibition organization for the present instead of resigning, as expected. Politicians say this is because the Republican chiefs do not want him to embarrass the administration and the party by quitting in the midst of the campaign. General Andrews is going to urge stricter dry legislation next session. He will ask the passage of the Goff bill and other legislation. This will cause controversy, as the wets are not disposed to allow the drys to rush stricter legislation through at the three-months session next winter. They will invite the drys to wait until the new Congress—the Seventieth—meets.

**LOG PRODUCTION IS INCREASING**

**NEW ZEALAND MAN ENJOYING CANADA**

Found Welcome in This Country Under British Flag and Was Glad.

JASPER, Sept. 17.—"Canada is a wonderful country and I have been delighted and interested since I crossed the border into the Dominion," said J. F. Hosking, of Auckland, New Zealand, a world traveller now gaining his first experience of Canada.

Mr. Hosking has been travelling through the United States and Canada studying economic and municipal affairs and particularly matters concerning the proper development of population. He is at Jasper Park Lodge for a brief rest before proceeding to Vancouver. "I have been taking my train journeys in bromide doses, so to speak," said Mr. Hosking, "and I owe a debt of gratitude to the man who suggested a stay in this glorious place."

Regarding his travels through Canada, Mr. Hosking said "I was strangely glad when I reached Toronto and found a welcome under the old flag. Montreal proved of great interest, but my stay in Quebec, where the medieval and the modern mingle, is an experience never to be forgotten. I must also express my appreciation of the delightful courtesies which I have been accorded from every member of the staff of the Canadian National Railways."

**"The Wanderer"**

A spectacular photoplay, dazzling in splendor of scenes, heart-appalling in story. The eternal story of youth's folly, youth's courage and frailty, youth's repentance. A vivid portrayal of the story of the Prodigal Son. Whoever has rebelled against parents, has forsaken a simple life for the pleasure pots of the cities, has felt the lure of the other sex, has had the frailty to sin and the courage to ask forgiveness, has been blessed with the glory of a mother's love—for him or her "The Wanderer" is the greatest picture ever produced. The most spectacular motion picture since "The Ten Commandments." Superb cast.
