#### HEAVY HAND OF PREMIER MUSSOLINI

The heavy hand of Premier Mussolini is on Italy. The latest bear, with a huge red mouth, came law there is that the people are not allowed to swear. If caught, the charging into the opening. It was not swearer must pay a fine and he does it direct to the policeman on clear to Mr. Falk whether the bear was the spot unless he wishes to be haled into court and have the fine making for the sandwich, or himself, very greatly increased.

Think of the sad condition of those Italian men who have been with wild yells of alarm and made in the habit of calling on the name of the creator and all his saints in a light and frivolous manner and who now must use the commonplace language of women and children. Think what would happen in this part of the country if the men were allowed to say "dash it" or "You son of an ugly mother" instead of the rather picturesque though bears can also climb them. language often heard. Happily in this free country we do not feel the heavy hand of a Mussolini on us even if the police do sometimes make us walk the narrow path which the law requires.

One of the greatest things in the world is the power to appreciate beautiful things. Without it this life is not worth living.

Woman may not be able to reason well but she has a way of arriving at the truth that is very annoying to many of the husbands.

#### POLITICS IN MARITIME PROVINCES

It does not often happen that a party, after holding a seat, yelled Foley. makes no effort to retain it, says the Edmonton Journal. The Conservatives of Carleton-Victoria, New Brunswick, have, however, taken this very unusual course. The constituency was carried at the last two general elections by Hon. J. K. Flemming, his majority in September being a substantial one. But by a unanimous vote his party associates at a convention the other day resolved to leave the vicious swipe, at the bear's head, with field to the Liberals in the byelection which his death has made the result that he cut the rope and necessary. The reason given is that they wish to afford "the present the bear was free again. The explanation of this extraordinary incident seems to lie in The cub made a vicious swipe at him the fact that the administration has not yet decided to take over the and jumped. As it landed on the railway mentioned in the convention's resolution. The constituency is particularly interested in having it do so and the local Conservatives, pending this decision, apparently think it expedient to have a supporter of the administration as their representative. In other words, they are prepared to forget about other issues in the hope of advancing this one object. The example that has thus been given of the all too prevalent desire to stand in with those who happen to be in office is an extreme one.

Wrong a man and forever after you will hate him. That is the punishment.

The normal man is too nearly related to the ape to be very clever or brilliant. It is the abnormal man who makes a name for himself in this drab world.

The disappointed people of the world are those who expected gratitude.

# CHASED MEN

TRAPPERS HAD EXCITING ADVEN-TURE WITH LADY BRUIN AND

"Coyote" Cliff Falk, Entrance 'trapper, gained his name among the fraternity who follow the fur-bearers, on account of the ardor and success with which he engaged in the pursuit and capture of the elusive coyote. While others cussed 'em, Cliff caught 'em. In the summers, he added to his store of wealth by guiding tourists through the mountains for Stan Clark, of the Circle S ranch says the Edmonton Journal.

At the time this story opens, Falk was propped up against one of the fences surrounding Mr. Clark's estate, moodily munching a moosemeat sandwich. Beside him was Charles Smith, another wrangler.

Suddenly there was a noise of drumming hoofs, the barking of dogs and wild yells, and a bobbing figure on horseback came into sight through the brush, going at a high rate of speed. "I wonder if that is the boss, come out to inspect our work?" asked Falk.

their owners, leaving the two wranglers afoot. They made for trees, which have the virtue of being stationary, By this time, the bobbing figure also made its appearance, and they noted with relief that there was a lariat around the bear's neck, with the other end snubbed around the saddlehorn of George Foley, the gentleman who had started all the excitement.

The bear ran around a tree, Falk two steps ahead, still going strong. He failed to notice that the rope had tangled around the tree, and it took considerable shouting on the part of the other two to bring him back.

"Get the axe and stun the bear,

"Yeah, then we can capture it alive; George says that there are also two cubs coming through the brush, and we can get them as well," said Smith.

96,000 Women and Children Served by THE RED CROSS

THE future of Canada lies in the Home. In their honest and loving endeavors to build healthy homes, thousands of Canadian mothers are handicapped by lack of knowledge.

Three years ago, the Red Cross organized its

first class in Home Nursing. Since then, 12,000 women and girls, in 800 groups, have received instruction.

They have gained a sound knowledge of the principles of good health . . . care of the sick . . . feeding of babies and children. They have become better managers of their homes ... enabled to instruct less well-informed neighbors.

With the aid of local leaders, doctors, women's organizations, the Red Cross Organizing Nurse forms a class. The course of 12 lectures comprises instruction by a nurse . . . practical demonstration . . . talks by the local doctor. It is simple but thorough.

Nor does the Red Cross forget our new citizens from other lands.

At Halifax, Quebec and St. John it maintains Seaport Nurseries. Here immigrant mothers and children are made welcome. For the babies and young children, nourishing food . . . baths . . . a restful sleep. For the mothers, a few quiet hours in a comforting

home atmosphere . . . encouragement for the next stage in their journey.

A Registered Nurse notes any needed medical attention. "Follow up" cards are sent to the Province where they are going. On arrival, the Red Cross puts them in touch with health authorities . . . they are started at once on the road to healthy living.

During the past few years, the Nurseries have served over 84,000 women and children, with "follow up" work for over 12,000 families.

In these and other ways, the Red Cross is supplementing and supporting the work of health authorities and doctors, with untold benefit to thousands of Canadian homes. To YOU it appeals for support in this great task.

CANADIAN PRESS SERVICE TELLS ABOUT WORK OF IRVING LINNELL

MARRIED WHILE HERE

Keen Student of Relations of N.S. to This Country

WASHINGTON, D.C., June 9.- (By Canadian Press). Irving Nelson Linnell. the new United States consul-general to Canada, is almost a Canadian.

Sixteen years ago he took up a law practise in Prince Rupert, B.C. There he married a Canadian girl, Miss Lillian Fisher, daughter of Mr. and Mrs. W. S. ! Fisher, and their two children were born in the British Columbia town. It was in Prince Rupert that Mr. Linnell entered the American consular service. In 1915 he moved to Vancouver, tc accept a higher post in the United States consulate there. Altogether he epent about eight years in British Col-

Mr. Linnell has held consular posts in five different cities, all of them British. From Vancouver he went to England, where he lived in London and Plymouth and then went to Cardiff. Wales. He returned to Washington four years ago to take charge of the Western European Division in the State Department. This division handles Canadian affairs.

afternoon of July 1. This would permit of the Ketchikanites coming down aboard the Princess Charlotte on June 29 and returning on July 1 aboard the Princess Alice which could possibly be held until 6 c'clock that evening, if some other boat were not obtained. This would make it possible for a large crowd of Ketchikan people making the trip in addition to the delegation of Rotarians forty strong, with their wives, which was coming down anyway. The letter referred to the fact that Ketchikan was desirous of having the Prince Rupert ball team over for the celebration on July 3 and 4.

The local committee decided to enlist the influence of the Mayor, Rotary Club, Jnited States consul and possibly others n having the Princess Alice held over o accommodate the plan suggested by Ketchikan. Failing that, an effort may se made to have some other line furnish boat to take the visitors home.

The meeting decided to have the \$100 prize offered by Hon. T. D. Pattullo presented for the tug-of-war in the way years general store owner, Canada; f cash rather than a prize.

Gradually, bowever, these makeshift roads wore out, and in place of them the city fathers have been substituting properly graded and paved surfaces. Today we find the plank road of the beginning has practically disappeared and in its stead are good substantial thoroughfares. The Canadian National Railways is spending a considerable sum, about \$30,000, in making a public park out of what has been, up to the present time, a stump-filled inkept section, which lies between the waterfront and Second Avenue. The harbor at Prince Rupert is exceptional because of its extent and easy approach from the open sea. It is fourteen miles long by one to one and a half miles wide, free of currents, with no dangers or obstructions to navigation. In fact, it is classed among the best harbors in the world. The people of Prince Rupert are justly proud

# Backward Season

You may think this is a queer name to give a Sale, but it fits this occasion perfectly. The absence of Spring weather this year has had its effect on the sale of Spring Wear and our sales for the last three months have not come up to our expectations. The result is we are overstocked. It is against the principles of this store to carry goods over from one season to another and the prices at this Backward Season Sale are such that will enable us to maintain this principle.

We can quote here only a few items of our big stock, but-just look at the prices!

STERLING PITCHING AND AIRTIGHT FIELDING WON LAST NIGHT'S FIXTURE FOR ELKS

Teddy Tite's sterling pitching and the airtight work of his field won last night's Intermediate League baseball game for the Elks by a score of 10 to 6 over the Native Sons of Canada. Slocomb also pitched good ball for the Canucks, fanning ten batters as did Tite, but the support accorded him was poor and the result of the game was at it should be

A feat seldom seen even in Senior circles was that of the Elks in allowing but one of their opponents to get to first in six innings. That one was a walk and the runner went out on a steal to second. In the seventh, the Sons staged a batting bee which gave them six counters although it was too late to retrieve the honors. The Elks started in the third when they made seven runs, scoring two more in th fourth and one in the sixth.
