SASKATCHEWAN PREMIER SPEAKS HIGHLY OF PREMIER

Saskatchewan Premier Speaks of Laurier and Premier Mackenzie King

VANCOUVER, September 15.—Tracing the history of Liberalism in Canada before the Laurier Club yesterday, Premier Gardiner of Saskatchewan, said the development that he thought was the foundation of Liberalism was that the English after the conquest recognized the French element and the spirit of tolerance and justice was in evidence. He referred to Sir Wilfrid Laurier as the greatest representative of his race in Canada. "Sir Wilfrid preached unity," Mr. Gardiner said, "and when it looked as if he had won his fight against prejudice, war came. Before it was known whether or not his work would bear fruit, he passed on."

The speaker said Premier Mackenzie King was a "noble successor and great interpreter to the whole Empire of Canadian principles." Speaking further the visitor said "Liberalism is the recognition of principles which will mean the building up of a great nation. I believe the Liberal party in Canada is an organization that is national. There is no room in this country for industrial or territorial division."

TERRACE SENDS IN A PETITION Asks for Incorporation With Over One Hundred Signatures: Doctor is Needed

TERRACE, Sept. 15.—The Board of Trade held their monthly meeting in the badminton hall on Tuesday evening. Vice-pres. E. T. Kenney presiding. A vote of thanks was tendered to the incorporation committee for the very efficient way in which they had handled the question of trying to incorporate as a village. It was reported that the petition had already been sent in to the government with over a hundred signatures in favor of incorporating.

President J. K. Gordon had named George Little and E. T. Kenney as commissioners and upon numerous requests that he himself act in that capacity had consented to make the third.

E. T. Kenney reported that while in the south recently he had talked with the officials of the Medical Board who, on being assured that Dr. Turpel was not intending to return to Terrace, said they had another man in view for the position. It was decided to take action on the matter at once and get in touch with the doctor referred to.

READY TO FLY TO VANCOUVER

Major MacLaren Awaiting Better Weather Before Hopping off for South

Having completed his fisheries patrol work here for the season, Major D. R. MacLaren, D.S.O., of the Pacific Airways Ltd. is but awaiting more favorable flying conditions before taking off on his return to Vancouver, his headquarters. It was expected that a start would be made this afternoon but this was found to be impossible on account of wind and rain. A stop at Alert Bay is planned on the way down the coast.

BANDITS HANG ALONG RAILWAY

Bodies Seen Singly and in Groups Suspended From Trees and Poles

NOGALES, Arizona, Sept. 15.—The bodies of 38 bandits hanging singly and in groups from trees and telegraph poles along the railway in Nyaarit bore mute evidence to the Mexican Government's efforts to crush outlawry in that state.

TERRACE IS FREE FROM BOVINE TUBERCULOSIS

TERRACE, Sept. 15.—Terrace is quite free from tubercular disease among the dairy cattle. Dr. Sparrows, who was stock judge at the fair remained for several days after it was over and conducted a T.B. test and found no traces of disease anywhere.

PITTSBURG IS WELL IN LEAD

Four Games Ahead of Both St. Louis and Giants in National League Race

NEW YORK, Sept. 15.—Going down the home stretch in one of the most interesting national contests ever seen, Pittsburgh is leading the closest rivals, New York and St. Louis, by four games, the latter dividing a doubleheader again yesterday. It begins to look as if the team that many critics early rated the strongest has at last found its bearings.

Yesterday made the seventh straight victory for the Yankees which won the ninety-ninth game of the season.

ROYAL GRANDSONS: Princess Mary, the Viscountess Lascelles, with the Hon. George Lascelles, and his brother, the Hon. Gerald Lascelles, now three years old.

Alder Urges Establishment of Flour Mill at Prince Rupert as Step to Wealth

"It is time Prince Rupert was forgetting about the frills and was winning itself a dinner pail," states W. J. Alder, pioneer property owner of the city, who is here from Victoria on business in connection with his interests. Mr. Alder advances the proposal that the people of Prince Rupert might interest themselves in the establishment of a flour mill here. If flour users in Prince Rupert would buy, for instance, a \$10 share in such an establishment and thus advance half the cost of the project, a practical man, he believes, could be interested to come in and finance the other half and launch the industry. With local people so interested in such an industry, there would be a ready market for the flour here and also for by-products in the way of stock food. This would be a means for local people to actually advance the interests of the port by providing it with a payroll. Too long, says Mr. Alder, have local people been living off public works which only go to increase taxation and the cost of living.

Mr. Alder relates how in the nineties he visited the city of Oklahoma when it had but a population of 5,000 people. The people told him then that they did not have much to show but they did have a local flour mill and that not a pound of flour was brought in from the outside. That kind of a public spirit had helped to make Oklahoma what it was today—a city of 125,000 population.

AIR SURVEY CALLED OFF

Will be Continued When Plane Obtainable to Scale Exstew Mountain Range

On account of unfavorable weather and the inability of Major D. R. MacLaren, D.S.O., of the Pacific Airways to get over the mountain range at the headwaters of the Exstew River with his H.S.2L flying boat, the aerial reconnaissance of a route for the Skeena River highway between Galloway Rapids and Terrace has been postponed until such time as a plane is available to ascend the required altitude. It was announced this morning at the local offices of the provincial department of public works.

In the meantime, H. C. Whitaker, locating engineer for the department, will proceed tomorrow to Exstew for the purpose of looking into the possibility of a pass being found through the Exstew Mountains to connect up with a pass which the aerial survey located from the Kayex River via Leverson Lake toward the headwaters of the Exstew River.

AMERICA RETAINS INTERNATIONAL CUP BEAT BRITISH POLO

WESTBURY, N.Y., Sept. 15.—The United States polo team defeated the British today 8 to 5, retaining the international cup.

TRUCK DRIVER WAS KILLED ON A HILL

DUNCAN, Sept. 15.—When the rear axle of a truck broke descending the hill three miles from here Lionel Harrison, the driver, was killed when he jumped from the truck and was caught by the trailer which crushed him.

BRITISH ACTOR DIES

JOHANNESBURG, Sept. 15.—Arthur Bourcher, the noted English actor and manager is dead here.

There Will Be No Repetition of Customs Irregularities Is Statement Chief Commissioner

OTTAWA, September 15.—We have some evidence to indicate that in certain quarters there will be a revival of illegal practices once our commission ceases to exist. For the benefit of such parties and others similarly disposed I think I can promise that other means will be devised and rigidly enforced for detecting such frauds and that for the future when such frauds or illegal practices are discovered they will be visited with swift and relentless punishment. This statement was made by Chief Commissioner Brown of the Customs Commission in a brief address at the close of the public sittings of the commission here last night.

BARNEY SAYS HIS BROTHER WILL K.O. MR. GENE TUNNEY

NEW YORK, Sept. 15.—"Jack will knock Tunney out inside five rounds." That is the prediction of Barney Dempsey, Jack's brother, who runs the Manhattan gymnasium in Los Angeles. "Tunney is a good fighter but he would never have beaten Jack at Philadelphia if Jack had been in shape," said Barney. Jack should have been in a hospital the night he fought Tunney, instead of in a boxing ring. He was not sick and worked mentally—he was physically down and out.

CLOSE GAMES CHAMP. TENNIS

Henri Cochet Beaten in Fifth Set by John Hennessy of Indianapolis

FOREST HILLS, Sept. 15.—"Little Bill" Johnston defeated Jack Wright of Montreal 6-4, 6-4, 6-4 in the third round of the United States men's singles championship yesterday.

The battle royal of the day was that between John Hennessy of Indianapolis and Henri Cochet of France in which the Frenchman was defeated. Hennessy took the first two sets each 6-4 and lost the next two 4-6 and 3-6. The climax came in the fifth game but the Frenchman weakened and lost out, the set going 6-1 in favor of Hennessy.

COLD SNAP PASSED AND WARMER WEATHER TODAY

The cold snap of earlier in the week has passed throughout the northern part of the province and warmer weather prevails, according to the Dominion Government Telegraphs. At no place in the province was there frost last night. Details of the report follow:

Prince Rupert.—Raining, calm; temperature, 54.
Terrace.—Cloudy, calm, temp. 49.
Roosewood.—Cloudy, calm, temp. 50.
Aiyansh.—Rain, calm, temp. 48.
Alice Arm.—Rain, calm, temp. 50.
Anyox.—Rain, calm, temp. 50.
Stewart.—Rain, calm, temp. 44.
Hazelton.—Cloudy, calm, temp. 52.
Skeena Creek.—Cloudy, calm, temp. 50.
Smithers.—Rain, calm, temp. 43.
Burns Lake.—Showery, calm, temp. 45.
Whitehorse.—Cloudy, S. wind, temp. 45.
Dawson.—Rain, calm, temp. 40.

ASKS ALASKAN FISHING REOPEN

Most of Packers Have Closed up For Season Says President of Company

WASHINGTON, Sept. 15.—Dan Sutherland, territorial delegate from Alaska, is here presenting petitions from the far north. He asked President Coolidge to extend the Alaska fishing season declaring that the people faced destitution.

BELLINGHAM, Sept. 15.—Virtually all the salmon packers in the north have closed their plants for the season, President DeWing of the Pacific American Fisheries said today. He added that his company would not reopen even if the extension of the fishing season were granted.

GIRL'S NECK WAS BROKEN

Scarf Around Neck Became Entangled in Wheel With Fatal Results

NICE, France, Sept. 15.—Isadora Duncan, an American dancer, was killed in an auto accident when trying out a new automobile. A gust of wind blew a scarf she was wearing around her neck over the side of the car. It became entangled in the wheel, dragged her to the roadway and her neck was broken.

PACIFIC FLIGHT IS CALLED OFF BY TWO ROUND WORLD AVIATORS

TOKIO, Sept. 15.—The projected flight of the monoplane "Pride of Detroit" across the Pacific on its globe circling tour has been called off by Schlee and Brock, the pilots, following a conference with aviation experts.

WHEAT DIVIDE MOVED MANY MILES WESTWARD

VANCOUVER, Sept. 15.—The decision of the Railway Board reducing the rates on westbound grain shifts many miles to the eastward the great divide of the wheat traffic. Premier Brownlee of Alberta told the Canadian Chamber of Commerce last night at Chilliwack.

PRESENTATIONS MADE AT ROTARY LUNCHEON

At the luncheon of the Rotary Club today, Colonel Nicholas presiding, presentations were made to three members in recognition of their recent marriages. F. G. Dawson made the presentation on behalf of the club to John Dore, Mr. Dore did the same to H. F. Pullen, and Mr. Pullen did the same to Mr. Dawson.

MINING MEN ENTERTAINED

VANCOUVER, Sept. 15.—Delegates to the Empire Mining and Metallurgical Congress are at Britannia Mines, Howe Sound today. They were welcomed in Victoria yesterday by Premier MacLaren and Mayor Pendray, entertained at a garden party at Government House and at a hall in the evening at the Empress Hotel.

ILLNESS NOT A BAR TO WINNING HONORS

VICTORIA, Sept. 15.—Regulations under which public school pupils will not be deprived of honor rolls because of illness have been issued by the department of education.

DAILY EDITION  Thursday, Sept. 15, 1927

FRENCH CANADIANS TO FORE

We are told that in a little over twenty years French Canadians will outnumber English speaking Canadians. Just now they are overtaking them rapidly. They are an industrious people and deserve everything that is coming to them. And the best feature of their rapid increase is that most of the young men remain on the farms instead of following the example of the English speaking youths who make for the cities of Canada and the United States.

Just now, it is said, there is a tendency of French Canadian people who had migrated to the eastern states to return to Canada and many will migrate to the prairies where there is plenty of land easy to cultivate. Possibly some of them will settle in British Columbia, especially if the Peace district is opened up by a railway with a western outlet.

WAVES OF ENTHUSIASM

Some year or two ago a wave of enthusiasm passed over the city and district in regard to the possibility of an outlet from the Peace River which would tend to send the grain to the elevator here. That soon quieted down. As soon as there was a little setback people promptly forgot the western outlet.

Then came the road. People were at fever heat thinking that a road could be built from here to Terrace in a season or two. That seems to have cooled off. What will be the next wave or won't there be one. Are we too dumb to express ourselves on the big questions of the day?

ALICE ARM ONCE MORE

Again there is a good ore strike at Alice Arm. This time it is on a silver showing or more accurately galena-zinc. The Silver Cord is the property where it has been found. It really looks now as if Alice Arm was due for a comeback that will make the world take notice. This camp has had its ups and down but just now it seems to be decidedly on the upgrade.

SETBACK TO FLYING

The series of losses as a result of attempts at ocean flights has given aviation a decided setback. It no longer gives pleasure to read of an attempted flight for it is expected that the flyer will probably lose his life. This will change. We shall find airmen now devoting their attention to making long distance flying safe. Much experimental work will have to be done and lives will be lost but the flyers are bound to succeed in the end.

CATTLE FREE FROM DISEASE

It is satisfactory to know that local cattle are free from disease and that it is now quite safe to use milk raised here or at nearby points along the railway. Knowing that a year ago there had been tuberculous cattle here, many people were doubtful about using fresh milk but chose instead to confine themselves to the canned variety. Now the conditions are changed. The whole year has passed without a new case of tuberculosis developing and in the past the disease is thought to have been brought in from the outside and not developed here. Milk is the best possible food and since it is now found to be of good quality, it can be used without any fear of results.

The King has put his blessing upon business by engaging in the happy recreation of selling flowers at a charity bazaar in Scotland. He has been for many years engaged in the business of selling Royalty to the world with good results so it was to be expected he would be able to succeed with flowers.

Americans are wondering if Coolidge will allow himself to be persuaded to try a third term. That would solve a lot of Republican difficulties.

Engagement and wedding rings of value and distinction

The two nuptial rings you give her can never be replaced. Their purchase is among the most important in life, and should by all means be made at a well-known, thoroughly reputable house. Our rings are of recognized value, fashioned in all the newer settings. And our standing in this community, together with membership in the Gruen Watch Makers Guild, assures your satisfaction.

OPPOSITION TO GOVERNMENT OF BRITAIN URGED

H. G. Wells Objects to Petty Bickering of Liberal and Labor Leaders

LONDON, Sept. 15.—Writing in the Sunday Express, H. G. Wells, the well known author, urges British people to vote the present government out of office at the earliest possible opportunity. He says:

The elemental necessity before that moiety of the English people which forms the nucleus of the British Empire, if it is to go on playing its proper part in the shaping of human destiny, is to get rid of Mr. Baldwin's government and all its works as speedily as possible. . . . But when the English people turns to the Liberal and Labor politicians who should be translating its manifest will into achieved fact, it finds a crew of active and ingenious second-rate and third-rate men engaged in petty feuds and divided into two bitterly contentious camps, without a shadow of principle to distinguish them. . . . One by-election follows another. Each time the government vote shrinks to a smaller proportion of the total; sometimes a Liberal scrapes in, sometimes a Labor man, and sometimes the Conservative keeps his seat with close upon two-thirds of the poll against him. But in a general election the mutual animosities of these wrangling factions rise to a malice that prefers a government victory to the success of the kindred competitor. It is just as likely that the next election will leave the existing government in power, a possibility fraught with disaster to the whole world, as that either of these opposition gangs will scramble to a greater total than the Tories.

A POSSIBLE SOLUTION

Now to the great mass of English people these party feuds and bickerings between Liberal and Labor are a matter of entire insignificance. Nobody believes that the Labor party has the courage or the capacity to carry through any extensive socialising operations, and nobody believes that a Liberal government would carry out a policy very different from that of a Labor government.

But either a Liberal or a Labor government would release educational progress, check armament, relieve the world from the fear of adventures against Russia and China sustained more or less furtively by Britain, break the ugly association with Mussolini, show a living regard for free speech and private freedom, and reassure the forces of peace and civilisation in France, Germany, Poland, and Hungary.

What is needed is the organisation of a block of voters who will vote primarily against the government and only secondarily for either Liberal or Labor. The sensible thing seems to be to vote in each constituency for whichever of these two political parties secured the largest vote against the Conservatives at the preceding contest, irrespective of their bickerings against each other.

NOT WASTE VOTE

One would vote Liberal here or one would vote Labor there in order not to waste one's vote. In that way the government could be reduced to a minority, and probably a small minority, in the House of Commons, and, whatever else happened, there would be an arrest of the threatened "Hohenzollernisation" of British policy and the British Empire.

Man in the Moon

If Prince Rupert could only sell the muskox, what a fortune we could make.

Why not try to sell the muskox? Why not try to vend the rain? Why not make ourselves umbrellas? Then we might get rich again.

Lodger (shaking the door)—How long are you going to be in that bathtub? Man inside—Oh, about five feet nine.

YOU have heard of the time Jonah was down in the mouth after he jumped overboard from the ship. He came out all right, so why worry?

ONCE there was a woman who kept a secret. Jake says he does not believe it, but it is true.

IT seems such a long, long time to Thanksgiving Day.

CHANGE is as good as rest—but the lack of change makes a person very uncomfortable.

GYRO CLUB FAREWELLS PAST PRESIDENT WHO IS LEAVING RUPERT

The Gyro Club, at its monthly business meeting yesterday, bade farewell to a charter member and past president in the person of Stan Taylor who is moving to Vancouver. In a few well chosen words, President Eddie Mann referred to the loss the club was sustaining in the regretted departure of Mr. Taylor. The latter replied fittingly to the tribute, stating that it was not without some grief that his duties called him away.

The club decided to have another baseball game next Sunday morning between the married and single members

GREATEST OF ALL SALES CONTINUES AT JABOUR BROTHERS

DRESSES

New arrivals, elaborate the modes and fashions for Fall — classy two-piece effects embellished with harmonizing designs lend a new charm to the popular straight lines—Dresses of Georgette, Flat Crepe and Crepe-de-Chine are shown here in a wide selection at **\$10.85 to \$19.50**

A son was born at the Prince Rupert General Hospital today to Mr. and Mrs. W. H. Montgomery.

Dr. G. B. Gordon, F.R.G.S., professor of the University of Pennsylvania, will deliver an address in the city under the auspices of the I.O.D.E.

WATER NOTICE DIVERSION AND USE

TAKE NOTICE that Francis Henry Junningham, whose address is 805 Board of Trade Building, Vancouver, B.C., will apply for a licence to take and use 1 cubic foot per second of water out of unnamed stream which flows northeast and drains into Humpback Bay, Porcher Island, about 400 yards southeast of northeast corner post of Lot 102. The water will be diverted from the stream at a point about 200 yards from the mouth of the river and will be used for fish, cannery and domestic purposes upon the lands applied for, being portion of Lot 102, Range 5, Coast District.

This notice was posted on the ground on the 28th day of June, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 4, 1927.

NOTED DOCTORS GIVE LECTURES

Prince Rupert Included in Itinerary of Travelling Post-Mural Clinic

Under the auspices of the Canadian and British Columbia Medical Associations and made possible as a result of a grant made by the Sun Life Assurance Co. post-mural lectures on advanced surgical and medical methods were delivered to city and district doctors yesterday afternoon and last night by three of Canada's leading medical men in the persons of Dr. A. Primrose, dean of the medical faculty and professor of clinical surgery of the University of Toronto; Dr. Duncan Graham, professor of medicine at the University of Toronto, and Dr. W. B. Burnett of Vancouver, recognized as one of the Dominion's leading gynaecological and obstetrical surgeons.

Lectures were held in the Prince Rupert General Hospital and last night nurses of the city were in attendance as well as the doctors when Dr. Primrose lectured on "Cancer" and Dr. Burnett on "Obstetrics." Both lectures proved most interesting professionally and many modern and advanced methods and treatments were revealed.

At dinner last night, the visiting doctors were guests of the Prince Rupert Medical Association.

INTERESTING LECTURES

Lecturing on anaemias yesterday afternoon, Prof. Graham told of the great advance that had been made in the treatment of this disease. Only a year and a half ago it had been regarded as a hopeless ailment so far as cure was concerned but in Boston a remarkable combative treatment had been almost accidentally discovered. It had been found that, by the proper feeding of liver meat to patients, the disease could be controlled indefinitely if not cured. It was stressed by the speaker, however, that this feeding should always be done under medical supervision so that the diagnosis would not be confused. The discovery was one of the most wonderful developments in modern medical history.

Speaking last night on the subject of cancer, Prof. A. Primrose, dean of the medical faculty of the University of Toronto and professor of clinical surgery, declared that medical men now considered it unnecessary for women to die of cancer of the breast at all. At the present time, nevertheless, ten per cent of the deaths from cancer were from cancer of the breast. Surgeons had found that, where a woman reported within one or two months the discovery of a lump upon her breast, one hundred per cent cures were obtained. Failing to report soon enough death was often the result. A case which had been watched for a year or two became very doubtful, the speaker stated.

The main point which Dr. Burnett stressed in his lecture on obstetrics was that medical care during pregnancy was even more important than at the time of confinement or delivery. If women could not have such care both during pregnancy and at the time of confinement, the safer way would be to be well looked after before labor and "trust to Providence for a safe delivery." At the same time, however, physicians could make labor much easier and safer for the mother and the baby.

At the dinner, talks on the activities of the Canadian and British Columbia Medical Associations were given by Dr. Primrose and Dr. Burnett respectively and Mr. Fletcher spoke on medical economics.

The meetings were presided over by Dr. J. P. Cade, president of the Prince Rupert Medical Association of which Dr. L. W. Kergin is secretary and Dr. H. E. Tremayne, representative of the executive of the British Columbia Medical Association. Doctors present besides the visitors and local officers, included Dr. C. A. Eggert, Dr. J. A. West and Dr. W. T. Kergin of Prince Rupert; Dr. J. W. Lang of Anxox, Dr. R. Geddes Large of Port Simpson and Dr. G. McDonald of Kincolth.

This morning clinics were held. The itinerary of the tour, which has taken in all the important centres in the province, was arranged by C. J. Fletcher, executive secretary of the British Columbia Medical Association, who is accompanying the doctors. The party left this morning for Prince George. Dr. Primrose and Dr. Graham will proceed for a visit to Jasper Park; Dr. Burnett will return to Vancouver via the Cariboo Highway, and Mr. Fletcher will return here on Sunday to sail south that night.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND In Atlin Land Recording District of the Cassiar District, and situated at the mouth of Wain River, about 500 feet easterly along the shore from the north-west corner of the Skylark Mineral Claim.

TAKE NOTICE that I, Horace McNaughton Fraser, of Atlin, occupation B.C. Land Surveyor, acting as agent for the Engineer Gold Mines Ltd., Inc., intend to apply for a lease of the following described lands:— Commencing at a post planted about 500 feet easterly along the shore from the north-west corner of the Skylark Mineral Claim; thence northerly 225 feet; thence easterly 100 feet; thence southerly 150 feet, more or less, to high water mark; thence westerly 100 feet, more or less, to point of commencement, and containing 0.5 acres, more or less.

ENGINEER GOLD MINES LTD., INC., Applicant. H. McN. Fraser, Agent. Dated August 9, 1927.

"COMPANIES ACT"

TAKE NOTICE that the Rupert-Vancouver Stevedoring Company, Limited, intends to apply under Section 38 of the Companies Act, being Chapter 38 of the Revised Statutes of British Columbia, 1924, to change its name to Pacific Stevedoring & Contracting Company, Limited. SUPPORTS BYLAW

Editor, Daily News:

Your issue of the 13th inst contains a letter by a person who subscribes himself as "Taxpayer," and advocates the defeat of the bylaw ratifying an agreement between the City of Prince Rupert and

the Grand Trunk Pacific Railway Company. The bylaw in question proposes to exempt the company from taxation on all its lands in the city of Prince Rupert for a period of five years from the 1st day of January, 1927, the consideration for such exemption being the sum of \$65,000.00 to be paid by the company, excluding the leases now in force on any land of the company which amounts to \$8,900.00 annually, together with all local improvement taxes for which the company is liable, another \$8,092.00, in all approximately \$82,000.00 (and in addition to these taxes it must be remembered that the G.T.P. Development Company pays the city over \$7,000.00).

IGNORES FIGURES

The writer conveniently ignores these figures and presents to the reader no facts or figures upon which to support his argument for the rejection of this bylaw. In the final analysis his reasoning resolves itself into the following formula: The Railway Company is anxious to secure this agreement therefore ratification should be refused and the bylaw voted down.

Is this a business way of approaching a question of this kind? Should the ratepayers, without being fully aware of what the arguments in favor of, or against the bylaw may be, simply say "No, we will have nothing to do with it because the company wants it?" I submit no serious business man would approach a serious proposition in such

a way, that is, assume that the railway company has some information in its possession which the city does not possess, and some motive for obtaining the exemption other than that expressed in the bylaw, and forthwith denounce it. Any person with business experience must be aware that the object of avoiding future litigation and continual bickering and quarrelling with the city in itself is such an adequate motive as would move the company in endeavoring to obtain a satisfactory settlement and the elimination of protracted litigation. I propose, in a future letter, to put before the electorate the advantages which the city would derive from the execution of this agreement and the loss accruing to the city which would result by the bylaw's defeat.
