EARTHQUAKE CATASTROPHE IN CHINA

WOMEN AND CHILDREN DIE TOGETHER IN LAKE MICHIGAN

Terrible Catastrophe Overcame Part of China Result of Huge Earthquake in Remote Province

Number of victims set at 100,000; whole cities wiped out in twinkling of an eye says Catholic Priest

LONDON, July 29.—The casualties are placed as high as 100,000 as the result of an earthquake which levelled town and cities in the remote province of Kansu, China, on May 23, according to Shanghai reports to the Westminster Gazette.

The first details of the catastrophe, which is one of the greatest in history, were learned from Monsignor Buddenbrock, apostolic vicar of Lanchow. No reports have been received previously owing to the total destruction of telegraphic facilities.

According to the report, cities were wiped out in the twinkling of an eye and at least ten thousand are reported to have been killed in Liang Chow alone. Tementee was completely wrecked and buried underneath a mountain. The sufferings of the survivors are declared to be indescribable. In Si Siang not a building is left intact and there is not a house that did not contain either dead or injured.

In some places the earth opened, emitting dark waters.

+ PREMIER BALDWIN IS INVITED TO VISIT PROVINCE
+ VICTORIA, July 29.—Acting Premier Maclean telegraphed to Premier Baldwin of Great Britain inviting him to extend his Canadian visit in order to take in British Columbia.
+ Mr. Baldwin had planned going only as far west as Banff.

CROSS OCEAN SMALL BOAT
Freak Outfit Twelve Feet Long Built With Foot and Wind Power

WARRINGTON, England, July 29.—In a tiny steel boat of his own construction, driven by wind and muscle power, William Oldham, of Warrington, is planning to set out on a voyage from England to New York and back.

The boat, which Mr. Oldham has named the "Carrie," has been constructed by the owner in his spare time. Resembling a submarine in appearance, it is only 12 feet in length. It will be propelled by a two-bladed screw driven by the hands or feet through a cycle pedal arrangement, aided by a metal windmill geared by chains to work the power shaft.

There are six water-tight compartments and four windows. Two persons can be accommodated but there will not be full length sleeping room. Mr. Oldham estimates the voyage will take forty days.

SOCKEYE RUN IS HEAVY NOW
Plenty of Fish Taken on Skeena River Yesterday But Pinks are Scarce

Word received from Skeena River points today is that the sockeye run is much improved and fish were taken in large quantities yesterday, the average to the boat being about sixty. The outlook for the sockeye run is good and it is thought the pack will be quite up to the average.

The story of the pinks is quite a different one. They are not coming yet and so far only very few have been taken. However the season for that class of fish is not far advanced and the pack of pinks may be larger than is at present expected.

HAROLD MANN BROKE LEG AT CHARLOTTES
Harold Mann of the forestry department and engaged in the reproduction survey on Queen Charlotte Islands was brought to town yesterday having broken his leg.

He fell on the forestry boat Red Cedar and was being transferred to the Lillian D. at sea when his leg was caught between the boats and broken. He was brought to town on the Lillian D. and taken to the hospital where he is resting easily.

HON. P. C. LARKIN HOME ON HOLIDAY
LONDON, July 29.—Hon. P. C. Larkin, high commissioner for Canada, sailed today for Canada where he will take a two months' holiday.

BEAR STOLE CHOCOLATES

Carried Off Bag From Jasper Lodge and Pried it Open; Took Sweets and Pills

JASPER NATIONAL PARK, July 29.—The missing bag has been found with the discovery that bears in the vicinity of Jasper Lodge prefer chocolates and raisins to pyjamas or razor blades. The bag which was stolen by friend Bruin on Tuesday from the verandah of a bungalow here belonged to F. J. French of Stratford, Ont.

On his way to work this morning the engineer of the lodge came across a black object in some bushes in the vicinity of the Athabasca River, and making investigations discovered it was the missing bag. Mr. Bear had pried open the lock and when the contents of what was left were checked over with J. O'Brien, manager of the lodge, it was found that only the sweets were missing.

Apparently bears prefer to stick to the coat that nature provided them rather than don a pair of pyjamas. There was one other item missing and it has not yet been decided whether the bear was taken sick or was not taking any chances of being that way as there was a box of pink pills also missing. A whole pound of chocolates is rather a rich dish for one bear and Mr. Bruin was not taking any chances of getting sick. So devoured the pills.

The culprit is still at large and chances for arrest are rather slim, even though he was caught in it more than likely he would blame it on some of his brothers who wander about the surrounding territory close to the lodge. The bag will be repaired and forwarded to Mr. French, who no doubt will take great pride in showing it to his friends as the bag the bear used on a trip over the Athabasca river from Jasper Park Lodge.

FISH SALES LIGHT AT EXCHANGE TODAY

Fish sales were light this morning, only six boats selling a total of 70,000 pounds of which American boats had 51,000. Prices were as usual.

American Resolute, 40,000 pounds, to Canadian Fish & Cold Storage Co. at 10.60c and 6c.
Anna J., 11,000 pounds, to Canadian Fish & Cold Storage Co. at 11.50c and 6c.

Canadian Brant, 4,000 pounds, to Royal Fish Co. at 10.60c and 6.50.
Ringleader, 4,000 pounds, to Atlin Fisheries, at 10.40c and 6.50c.
Tramp, 6,500 pounds, to Atlin Fisheries, at 10.30c and 6.50c.
Agnes D., 4,500 pounds, to Canadian Fish & Cold Storage Co. at 10.50c and 6c.

FAMOUS AIRMAN KILLED CRASHING IN NOSE DIVE

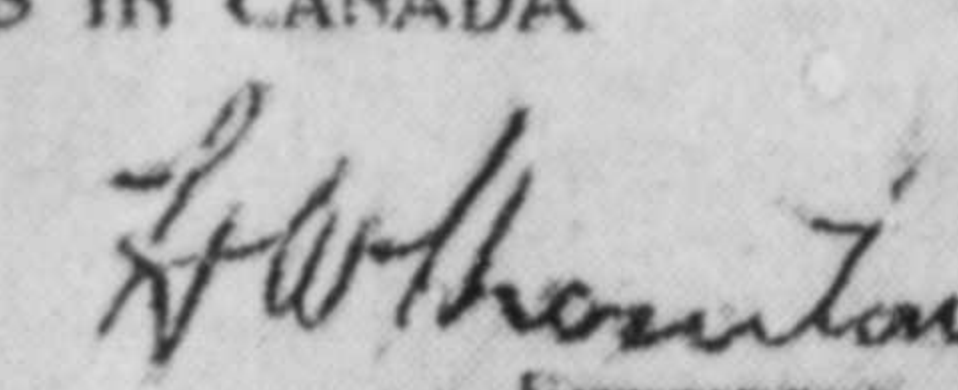

BRISTOL, July 29.—Captain F. L. Barnard, one of the most famous of British airmen, was killed here last night when the plane he was riding came to earth in a nose dive.

KILLED AT CANNERY SEWARD, Alaska, July 29.—A man was killed in a battle among cannery employees at Allak, according to advices received here last night. A deputy marshal is rushing to the scene of the slaying aboard a coast guard cutter.

Shooting Yesterday Cassiar Cannery When Drunken Indian Opened Barrage on Everybody

There was intense excitement yesterday at North Pacific Cannery for a short time when an Indian named Thomas Wright of the Hazelton Reserve who had been taking too much moonshine started taking pot shots at everybody in sight with his rifle. Happily his marksmanship was not good and nobody was hit.

The trouble began about dinner time last evening when Wright, who had been drinking, made himself objectionable and was ordered by H. W. Harris, who was in charge, to get on to his boat until he had sobered up. He refused to do this, and taking his rifle opened a barrage on Harris, the net foreman, and anyone else who happened to come in sight. After showing that he was boss of the situation at North Pacific, Wright started off toward Cassiar Cannery. The provincial police were notified and a detachment consisting of Constables Clark, Raybone and Camm went out on the Adanac to look for their man.

J. E. Lord, cannery manager, was away at the time of the trouble.

F. G. DAWSON IS MARRIED TO A DAKOTA LADY

Spending Honeymoon at Winnipeg and Jasper Before Returning to City

WINNIPEG, July 29.—Mr. and Mrs. Frederick G. Dawson of Prince Rupert, are guests at the Fort Garry Hotel and will be here a few days before proceeding to Jasper, where they will spend their honeymoon. Their marriage took place yesterday at the home of the bride's parents, Park River, North Dakota.

Before her marriage, Mrs. Dawson was Miss Olive Orpha Mills, daughter of Mr. and Mrs. Robert Charters Mills. She was principal of the Inter-Mountain Union College Academy and director of College Dramatics, Helena, Montana, and had previously been principal of the Grafton, North Dakota High School and director of Dramatic Art and librarian at the Chippewa Falls, Wisconsin, High School.

Mr. Dawson, who is president of the F. G. Dawson Ltd., Prince Rupert, B.C., and is one of the directors of the Canadian National Railways is well known throughout western Canada.

The news of the marriage came as a great surprise to Mr. Dawson's friends here but his family have known of it for some time and thoroughly approve his choice.

TWO VESSELS CLEARED WITH PARCEL SHIPMENTS GRAIN FROM VANCOUVER

VANCOUVER, July 29.—Two vessels cleared with small shipments of grain from this port during the week. They were: Seonak for Antwerp with the option of Hamburg or Bremen 54,895 bushels. Vulcan City for Glasgow 37,333 bushels.

Thirty Lost Lives When Excursion Boat Upset Just Off Chicago City

TERRIFIED WOMEN AND CHILDREN UNABLE TO SWIM PRECIPITATED INTO WATER WHEN FAVORITE SUBMERGED

CHICAGO, July 29.—Approximately thirty of the sixty-four passengers, mostly women and children endeavoring to escape from the heat on a three mile cruise on Lake Michigan off Chicago in a small excursion boat the Favorite, were drowned yesterday when the boat capsized in a sudden squall.

When the storm, which passed in a few seconds, struck the craft, it listed and the terrified excursionists rushed to the other side causing the vessel to tip so far that it submerged and only a portion of the upper deck remained above water. Dozens of screaming passengers were precipitated into the stormy waters and despite the speedy rescue work of nearby craft many sank.

Little children, who had never been in the water before, fought for their lives in the heavy breakers alongside their mothers, most of whom were unable to swim.

By the time the first rescue boats reached the shore the entire beach was transformed into an emergency hospital where doctors and nurses worked over the victims, some of whom were resuscitated after being unconscious for hours.

Johnny Weismuller, the famous swimmer who was attracted to the scene from a nearby beach, dived for many of the bodies in the water-filled Favorite.

When the craft was raised it was towed to shore and several hours later more bodies were recovered.

+ RECORD SHIPMENT DAY OLD CHICKENS ARRIVE AT OTTAWA
+ OTTAWA, July 29.—Claimed to be a world record, three hundred white leghorn chickens from the University of B.C. arrived yesterday 100 per cent safe. Hatched Saturday, the chickens were shipped on Sunday.

WAS THROWN FROM GASOLINE SPEEDER INJURED HIS HEAD

Suffering from a broken rib and contused head, Lang Muir of the forestry department was brought to town on yesterday's passenger train.

Passing through Terrace yards on a gasoline speeder that jumped the track Mr. Muir was thrown off and struck the ground with considerable force. He was attended to by Dr. Trefry, a visitor to Terrace and brought to the local hospital by train.

He had an uncomfortable night but it is not thought that his injuries are serious though they are painful.

CANADIAN PRESIDENT POULTRY CONGRESS

OTTAWA, July 29.—Frederick Elford, a Dominion government poultry husbandman of Ottawa was chosen president of the next world poultry congress to be held in 1930, it was announced last night.

BARODA FLOOD IS SAID TO BE VERY SERIOUS

LOUDON, July 29.—A despatch from Bombay by exchange telegraph says colossal damage and serious loss of life is feared as a result of the flood in state of Baroda.

WEATHER REPORT

MANY HOMERS IN BASEBALL

Cy Williams Made Two, Rogers Hornsby One and Ruth One Yesterday

NEW YORK, July 29.—Baseball interest yesterday centred in the national pennant chase. The spot light was on the Giants' spurt of six and a half games from the Pirates.

Rogers Hornsby got his seventeenth home run for New York against Chicago deciding the game.

Cy Williams made two home runs making 22 this season in the Cardinals-Phillies game.

The Yankees scored their fifteenth victory over St. Louis and Ruth made his 34th homer.

Boston maintained her form, beating Cleveland twice.

Walter Johnson was in great form, his team beating Chicago.

Scores were:
NATIONAL LEAGUE
New York 6, Chicago 5.
Boston 6, Cincinnati 11.
Brooklyn 7, Pittsburgh 5.
Philadelphia 8, St. Louis 10.
AMERICAN LEAGUE
St. Louis 4, New York 9.
Chicago 2, Washington 12.
Detroit 5, Philadelphia 2.
Cleveland 0-3, Boston 3-4.

WAGE BILL HIGH B.C. PROVINCE

VICTORIA, July 29.—Unparalleled progress in industries of British Columbia and a payroll breaking all records is recorded in the annual report of the department of labor. The total payroll in 1926 was \$175,173,836 as against \$159,520, the increased wage bill being in almost every line of industry.

BOTTOMLEY IS OUT OF JAIL

LONDON, July 29.—Horatio Bottomley, widely known war-time figure and former member of Parliament, was released from Maidstone penitentiary today where he had been a serving seven years' term for fraud. Good behaviour gave him his release in slightly more than five years.

GENEVA SITUATION CAUSES CABINET MTG.

LONDON, July 29.—The cabinet convened this afternoon as the result of a hasty summons, presumably to consider the Geneva situation.

FIRE IN AMMUNITION BASE CAUSES DEATHS

HANKOW, China, July 29.—Fifty soldiers and civilians were killed and hundreds injured as a result of fire in an ammunition base at Wu Chang. The entire district is ruined.

INFERIORITY COMPLEX

According to Rev. H. R. Grant, Canada has an inferiority complex. In other words she does not consider herself as good or as great as her neighbor. The result is that her children leave and her development is slow. What is needed is to get a national viewpoint and a feeling that this is the greatest country in the world and live up to that feeling.

What is true of the country should also be true of the city. What we need here, and which the genial doctor forgot to tell us, is to get rid of the inferiority complex. This is the best place in the world, else why are we here? If there is a better, let us go to it. Let us cultivate a superiority complex, then we shall rise superior to our difficulties and become as great as we like to make ourselves.

Think of living in a country where they sell mosquitoes by the quart. Thank God for Prince Rupert.

OIL ELECTRIC CAR NEEDED

One of the developments we must expect before long is the operation of an oil electric car between this city and Terrace, and possibly through the country beyond. Whether we are now ready for it will be for the railway company to decide but it is one of the improvements that is bound to come before very long. A seven day a week service with the interior and a daily mail are necessities to progress.

Britain needs cruisers and United States and Japan need other armaments. Then why worry?

NO MOSQUITOES IN PRINCE RUPERT

While practically the whole continent is being bitten or forced to remain behind screen doors or in the horrid shadow of a smudge, Prince Rupert people can enjoy life, go swimming, wander in the garden and feel that life is really worth living without the annoyance of being eaten up by mosquitoes. It is a great boon and one that must help to give us the superiority complex. Also it is cool and pleasant to live. We do not swelter in a temperature approaching close to one hundred in the shade. These are advantages we must not forget, for they are very important.

If Canada became involved in a war, would she go to Great Britain for protection or to the United States, or would she rely on the Patrician for her defence?

NEED OF SMELTER

The figures published yesterday showing that about a quarter of a million tons of ore were shipped to Tacoma smelter last year seem to indicate that it might be possible to erect a smelter in this province for the handling of ores produced in the district. It would have to be a small unit at first but it would seem to be a possibility. It is to be hoped that the mining committee of the Board of Trade will soon present its report to the board and that it will show the possibility that government aid would be given to a smelter in the near future.

One of the most important matters to be decided this summer is whether Ruth or Gehrig is the best home run getter.

GRANBY'S BIG COPPER MINE

Copper Mountain Near Allenby Described by Geological Department of Canada

The following interesting description of Copper Mountain where the Granby Company is now operating extensively in a low grade ore, is from a report of the Dominion department of mines in connection with the geological survey: The name Copper Mountain is applied to a post office, a mining camp, and a large copper mine, as well as to the mountain on which they are all situated. The mountain, states Dr. V. Dolmage of the Geological Survey of Canada, is twelve miles south of the town of Princeton in south-western British Columbia, and about 150 miles east of Vancouver on the Kettle Valley branch of the Canadian Pacific Railway. Copper Mountain is a broadly arched, nearly flat topped divide standing between the deep valley of the Similkameen River and the comparatively shallow valley of Wolf Creek, a tributary of the Similkameen, three miles to the east. On the mountain and throughout the surrounding district many deposits of copper have been staked, the most important of which constitute the Copper Mountain mine, situated near the summit of the mountain on the west side overlooking the Similkameen Valley.

BROW OF MOUNTAIN

The mine is connected with Princeton and Allenby, where the ore is milled, by a branch of the Kettle Valley Railway which extends along the valley of the Similkameen as far as the main haulage level. The camp is situated on the brow of the mountain in a grove of fir and pine trees and commands a superb view of the Similkameen Valley—at this point nearly 2,000 feet deep—beyond which rise the snow covered peaks of the Hozomeen range, and is one of the most attractive in British Columbia. The operating companies have protected the beauty of the site by prohibiting the cutting of timber in the vicinity and by erecting well designed buildings arranged in widely spaced rows among the giant trees. Princeton may be reached by a motor road which, because of the mild and dry climate, is open to motor traffic almost the year round.

TEN MILLION TONS

The ore bodies so far developed cover about 100 acres, have been proven to an average depth of 200 feet and contain 5,600,000 tons of ore carrying 1.93 per cent copper and small values in gold and silver, or 10,000,000 tons if ore as low as 1.74 per cent copper is included. These reserves will probably be largely increased as development work proceeds. The ore consists of very finely disseminated particles and minute veinlets of bornite and chalcocite in a highly altered coarse fragmental tuff or breccia. It is mined from large spiral stopes during the winter and from chert holes in summer. It is drawn from chutes on the second level into 8-ton self dumping cars which convey it to an ore pass down which the ore is dumped to the haulage level 800 feet below. This level emerges above the railway and the ore passes through primary crushers before being shipped to the concentrator at Allenby, where it is treated by the flotation process and yields a concentrate carrying about 30 per cent copper. The concentrate is smelted at the plant of the Consolidated Mining and Smelting Company at Trail. More than two thousand tons of ore per day are being treated at the present time.

KNOWN SINCE 1884

Though the mine has been operated for only little more than a year the deposits have been known since 1884. In 1892 the Sunset claim was staked. This has since proved to be the richest claim in the whole district and is the nucleus of the present operations. Shortly afterwards the greater part of the whole district was staked and has since been under investigation by various companies which have expended large amounts on development and equipment. Most of these expenditures were made by the British Columbia Copper Company, which for many years successfully operated a mine and copper smelter near Greenwood. A first attempt by this company to put the property on a producing basis was unsuccessful because of the refractory character of the ore, which was much too low in alumina for direct smelting by the methods then in vogue.

A second attempt by the same company was terminated in 1914 by the outbreak of the war, when it was feared that the price of copper would be too unstable to permit the mining and smelting of low grade ores.

DROP IN COPPER

A third attempt by the same interests, but under the name of the Canada Copper Corporation had almost succeeded when the war ended and the price of copper dropped to a point below which operations were considered profitable.

In 1922 the property came into the possession of the Allenby Copper Company, a subsidiary of the Granby Consolidated Mining Smelting and Power Company, with which it was recently merged and which now owns and operates the mine. A small amount of work was done on the mine and mill by the Allenby Company in 1923, but this was discontinued and not resumed until 1925 and 1926 when the present successful operations began.

WELL HOOKED.

Father—Isn't that young man rather fast?
Daughter—Yes; but I don't think he'll get away.

I'll stay cool

"When it's hot, make my lunch Kellogg's Corn Flakes—a golden crunchy bowlful—with cool sweet milk and juicy fruit... then the sun can shine—I'll stay cool!"

Kellogg's are a flavor-treat more than 11,000,000 people daily demand! And they really help you to feel cool and fit. They are so easy to digest. So refreshingly crisp!

Serve with milk or cream—and add fruits or honey. Give them to the kiddies for supper. Breakfast. Order at hotels, cafeterias. On diners. Sold by all grocers.

Made by Kellogg in London, Ontario. Oven-fresh in the inner-sealed red-and-green package. Imitations cannot equal such wonder-flavor. Demand the genuine!

INFERIORITY COMPLEX HERE

That is What is Wrong With Canada Declares Rev. H. R. Grant at Rotary Luncheon

The difficulty with Canada is that she has an inferiority complex. People here look at the rich country to the south and note her great population, her wealth, and her industries and wonder if this country can ever be like that, forgetting that the United States went through a period when her experiences were similar to those we have today, declared Rev. H. R. Grant, when addressing the Rotary Club at luncheon yesterday.

"Canada is today a great field of un-

developed possibilities from the Atlantic to the Pacific. The way to develop the country was not to build up cities but to put people on the land. The difficulty today was that people came to this country with the avowed purpose of cultivating the land but they soon drifted into the cities. He would suggest that immigrants should either stay on the land or return to their own countries.

Dealing further with the matter of development of the country Dr. Grant suggested that what each one could do was to put into the country the best boys and girls who would become the men and women of the future.

The speaker reminded his audience that effort and economy brought privilege. It was the industrious who saved who were able to drive fine cars and make a display.

GREAT THINGS AHEAD

Dr. Grant said he was sure he would live to see great developments in British Columbia and throughout western Canada. This must be achieved through the exercise of brain. They must stop to think out the problems. They must study how the Mother Land became great and apply those principles here. The problems of life must be taken seriously. In solving the interests of the immediate neighborhood it was possible to help solve the greater interests of the province and nation. The United States was a great nation, but it was made so, not so much as a result of commercial expansion as through the New England conscience handed down to them from their Puritan forefathers. This was an age of jazz in which it was desirable to call a halt and commence to think. Then they would set about developing character and making the world a better place in which to live.

THE END

"Yes, I used to be in politics myself, I was dog-catcher in my town for two years, but finally lost my job."

"What was the matter—Change of mayor's?"

"Nope... I finally caught the dog."—Judge.

Among the people returning on the steamer Empress of Australia with the Prince of Wales and Premier Baldwin were Mr. and Mrs. Edward Lipsett, the former of whom represented the Prince Rupert Rotary Club at the international convention at Brussels.

Frank Haverly of the New York World went east on the passenger train yesterday. Mr. Haverly came in on the Prince Charles having made the round trip to Anyox. Stewart and the Queen Charlotte Islands. He was much impressed with the scenery of the north and enjoyed the trip thoroughly.

MINIMUM WAGE WOMEN WORKERS

Provisions of Act Being Enforced Says Report to Minister of Labor

VICTORIA, July 29.—With its guarantee of a living wage for female employees in the province, the Minimum Wage Act (for female workers) in this the tenth year of its administration, elicits the co-operation of all the parties affected by its provisions, as is recognized by the minimum wage board, consisting of J. D. McNiven (chairman), Mrs. H. G. McGill and T. Mathews, in their annual report just presented to Hon. A. M. Manson, minister of labor.

The report states that, with few exceptions the employers have exhibited a readiness to comply with the provisions of the Minimum Wage Orders, and employees, too, are recognizing more clearly that the Act and Orders are for their benefit and protection, and less reluctance in reporting alleged or real infractions is exhibited.

Of the nine orders promulgated by the Board, dealing with the wages and hours of female employees in a variety of occupations and industries, only one was re-opened last year, that relating to the fruit and vegetable industry. The minimum wage for experienced female employees in this industry was set at \$14.40 for a week of forty-eight hours, being an increase of 40 cents over the rate in the previous order. Hourly rates of 30 cents were set for work up to and including ten hours a day, after which the rate is 45 cents an hour. For inexperienced workers a weekly rate was set of \$11 during the first two months' employment, or an hourly rate of 23 cents was prescribed for work up to and including ten hours a day, and for work in excess of ten hours, to 35 cents an hour. These rates apply whether the basis of employment is time or piece work. The new order, which became effective sixty days from September 3, 1926, affects 2,455 women employees reported as being employed in canneries and packing plants during the busy season.

EFFECTIVE WORK

While most employers are complying with the provisions of the Board's Orders, there are occasions (say the Board) on which, through ignorance or oversight, an employee is not paid in accordance with the terms of the order under which she is working. As instances of this kind come to the notice of the Board measures are taken to effect amicable settlements, which, fortunately, are successful in the majority of cases. A natural timidity on the part of employees and a marked aversion to publicity attendant on court actions leads the board and its officials to take such drastic means as infrequently as possible. In consequence of this policy, by personal investigation and through correspondence, the sum of \$3,315.01 in arrears of wages was collected last year for underpaid employees. This amount was made up of sums ranging from 75 cents to \$400. The woman who received the latter figure had been deprived systematically of a considerable amount each week for a number of months.

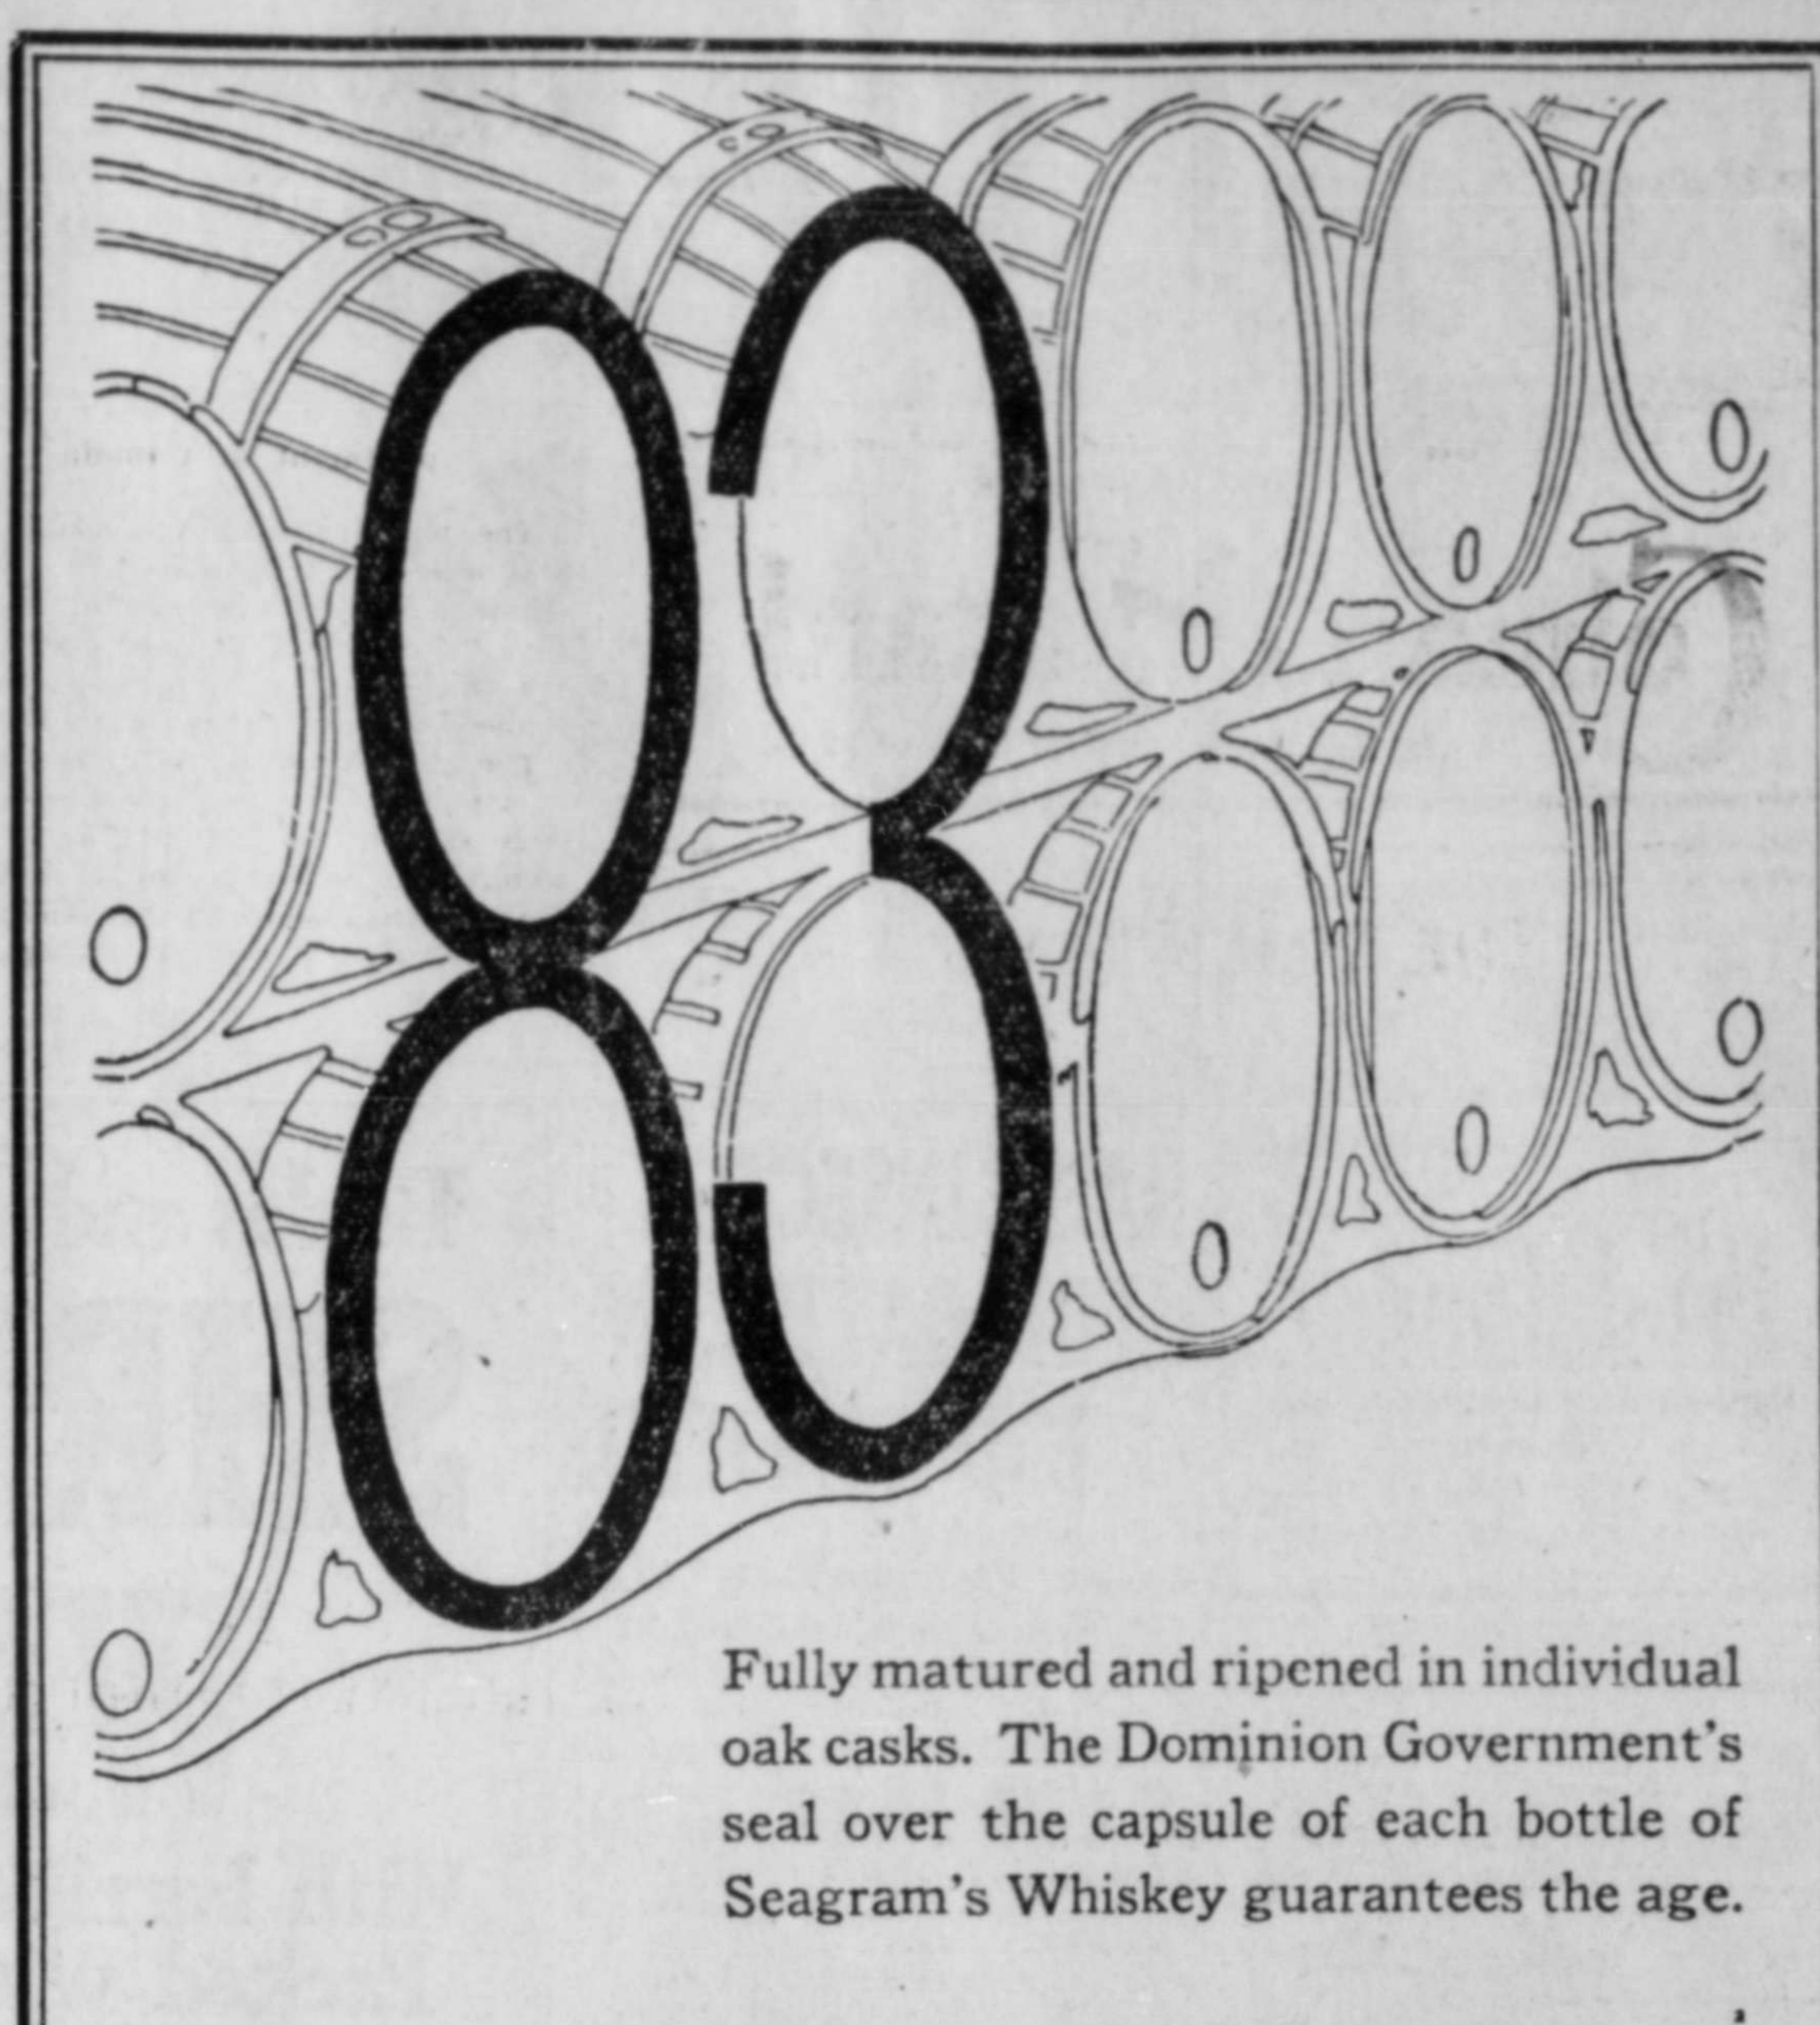

A number of employers who had failed to comply with the orders of the Board were proceeded against, and the report gives a summary of several cases in which the offenders were fined.

The report gives a large amount of statistical information relating to the occupations in which female workers are engaged, those details being assembled from returns made by 3,123 employers. Among the figures given for 1926 are the following:

Occupation or Industry	Employees	Yrs.	Yrs.	hrs.
Mercantile	15.09	9	948	43.7
Laundries	14.51	12	03	44.73
Public Housekeeping	15.98	14	95	46.23
Office occupation	19.32	12	20	41.93
Personal service	15.33	11	26	38.03
Fishing Industry	15.56	12	10	46.08
Phone & Telegraph	17.25	10	92	41.53
Manufacturing	16.00	10	59	43.92
Fruit and vegetable				
Industry:				
Time workers	15.76	8	28	43.29
Piece workers	19.74			8.82
Summary of all occupations	17.00	10	10	43.28

There has been a general tendency in practically all the occupations towards a slight decrease in average wages, which, however, still remain well above the minimum prescribed by the board. The public housekeeping occupation and the manufacturing industry are the two groups that register advance over the 1925 averages.

PURITY! PURITY!

Purity is a matter of degree. The salt you use on your table is pure—enough for your table but for our prescription work it is not. Whereas you pay some 15c a pound for the salt you use, we must pay upwards of 70c for the 100 per cent pure article we use in your prescription. Alum can be obtained from 16c to 64c lb. according to quality. The drugs used in filling prescriptions at Ormes are the best obtainable.

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

RAISE INSECTS FOR BATTLE IN EMPIRE FIELDS

Zoo For Parasites That Can be Useful is Established in England

LONDON, July 29.—Barracks and drill grounds have been erected at Farnham Royal, Buckinghamshire, England, for the latest additions to the fighting forces and defenders of the Empire.

An expeditionary force is being sent to Canada to do battle with the carwing and codling moth.

Entomology has, with the aid of a grant from the Empire Marketing Board, established a zoo for parasites and expert entomologists that are going to seek out the natural enemies of the various pests which infest the livestock and crops of the Empire. In some cases it may be necessary to breed a new stock, or evolve a different type of parasite, and completely equipped research laboratories have been installed.

In the extensive gardens at Farnham Royal there are as many different plants and trees as it is compatible with the climate to grow, and amid these, which act as a breeding ground for the insects, are two large insectaries. One is for a general "reserve stock" of insects, and the other, which has walls of fine gauze and a roof of vitaglass to transmit the ultra-violet rays of the sun, is for the use of insects which are being specially studied.

WATCH THEM FIGHT
Nothing is left to chance, and every insect is put through its paces, so to speak, before it is decided to send it to the fighting front. In a room lit with an ultra-violet ray lamp, there are several vitaglass cases in which are specimens of the various pests. When it is thought that a parasite has been found for a certain pest, it is put into the same case, and its fighting tactics can be watched at close quarters. There is little risk, therefore, that parasites will be exported that are unfit for their job.

WOMEN DRIVERS AS GOOD AS MEN SAYS POLICE FORCE HEAD

WINDSOR, Ont., July 29.—At last the woman driver is vindicated; Chief Daniel Thompson, head of the Windsor police force says there is no truth whatever in the oft-heard statement that women are not as proficient in driving automobiles as are men.

Because of the position he holds, Chief Thompson is able to speak authoritatively in this matter. Records of traffic violations and automobile accidents come before him day after day. He studies the circumstances, and after several years has come to the conclusion that women are safe drivers.

"During recent years there has been a great improvement in women's driving," he says. "Accidents in which women figure are quite rare, and anyone who has taken the trouble to observe, knows that they are careful and not inclined to take chances."

Chief Thompson says experienced women drivers can be depended to get out of traffic difficulties as well as men.

VISITORS ENJOYED SALT LAKE SWIM

Surf Riding in Harbor by Men and One of Ladies

Yesterday afternoon and evening saw an unusually large crowd at Salt Lakes. The weather was ideal and just now interest in swimming is very keen.

On Sunday next it is hoped to have a number of competitions. Canoe racing and canoe tiding are on the program. There will be swimming races, long and short. Diving competitions are also talked of. The regular sports will not be pulled off for a Sunday or two yet and due notice will be given through the papers.

Among those enjoying the Salt Lakes was a party of eight from the Norwegian. They had been surf-riding in the harbor and one of the ladies of the party showed that she could manipulate the board as skillfully as the men. Later they went over to the Lakes and thoroughly enjoyed the opportunity to

GERMAN AWAITING DEPORTATION ORDER HELD AT KETCHIKAN

KETCHIKAN, July 29.—Arno Reichelt, a subject of Germany, who was brought here from Juneau for a deportation hearing, will be held in the federal jail until orders arrive from Washington. It was announced by Immigration Director W. G. Strench.

Reichelt is accused of having deserted a German ship upon its arrival in America, later breaking out of the immigration detention headquarters at Philadelphia when apprehended.

CARRIED SALMON FROM ALEUTIANS

KETCHIKAN, Alaska, July 29.—The big cannery steamship Catherine D. of the Pacific American Fisheries, passed through port with 40,000 cases of the new pack from the Aleutian peninsula district.

Captain Knight reported that on the trip to Ketchikan he noticed very few fish, except in Excursion Inlet where the seine boats had caught full loads and practically swamped the canneries. The officers of the Catherine D. re-

port having encountered fogs and stormy weather to the northward this trip. After taking on oil at the Standard Oil dock the steamship left for Metlakatla on her way south.

LIQUOR VIOLATION OFFENDER IS TAKEN TO JAIL AT JUNEAU

KETCHIKAN, July 29.—August Starkloff, convicted two years ago on a liquor violation charge, and who has been put on bail pending results of his appeal, left Ketchikan in custody of Marshal White, enroute to Juneau where he will begin serving his term of one year.

Starkloff was arrested at Craig Saturday and brought here by a deputy marshal for transfer to the Juneau jail. His wife, convicted also, has not been arrested, according to federal officers.

Marshal White is also accompanying another Ketchikan prisoner, Miss Florence Parker, convicted of drunkenness, to the Juneau bastille.

UNIQUE GATHERING EASTERN STAR ORDER IS HELD AT JASPER

JASPER PARK, July 29.—A party of fifty three members of the order of the Eastern Star, from points in Eastern Canada and the United States arrived in Jasper by special train over the lines of the Canadian National Railways yesterday. The object of this international order is to give eastern Canadians and Americans a wider knowledge of the dominion, its resources and scenic wonders.

A meeting that is probably one of the most unique in the history of the order of the Eastern Star was held in Jasper last evening in the club room of the local order, Excelsior Chapter No. 60. At this meeting there were seven American states represented and five Canadian provinces, making twelve grand jurisdictions. Worthy Matron Mrs. C. Shaw of Jasper welcomed the visitors and was assisted by Worthy Patron G. Shirriff.

SENDING TREASURE BY AIRPLANE LEADS TO ARMING PILOTS

CROYDON, Eng., July 28.—Imperial Airways pilots are being armed with revolvers as a precaution against aerial robbery. So much bullion is now being carried by Imperial Airways aeroplanes that the officials are taking no chances.

It has been pointed out that it would be possible for any of these bullion-carrying aeroplanes to be shot down in and out-of-the-way spot and a robbery carried out with small likelihood of detection.

LODGE EXPECTS TO CONTROL WEATHER

LONDON, July 28.—Fine weather may be made to order, just like any commodity, is the prediction of Sir Oliver Lodge, noted scientist.

"The advance of science since the days when I was a student has been portentous," he said. "Sooner or later we shall be exercising control over the weather. I do not see why we should put up with bad weather if we do not want it."

BRITISH BOYS FOR CANADA

Special Aid Being Offered Those Who Train For Farm Work

(Edmonton Journal) Alberta has special interest in the arrangement that has been entered into between the British and Canadian governments for the settlement of Old Country boys on the land in the Dominion. The minister of agriculture for this province has already brought out a considerable number and the experience of the "Hoadley boys" has no doubt had much to do with the launching of the larger scheme. They were trained in the agricultural schools and positions were found for them. But when they desired to start farming on their own account no public aid was available to enable them to do so. Under the plan that has now been launched this will be given.

JOINT EXPENDITURE The two governments propose to apportion jointly five million dollars over a period of ten years in establishing these youthful settlers. After they have been given the necessary preliminary training and have worked for wages for a sufficiently long time to save approximately \$500, such of them will have an advance made to him of \$2,500 for the acquiring of land, stock and equipment. Before this is done, however, he will have to have reached the age of twenty-one. They have to be between fourteen and twenty, on their arrival, and are to undertake to repay the money expended for their benefit, though it is not stated how long they are to be given to do this. The plan has large possibilities and with proper administration will be the means of making a very valuable addition to our citizenship. The co-operation of the provincial authorities is looked for and it will depend upon the extent to which this is given how many of the boys will be allotted to each province. With the start that it has already made along these lines, Alberta should take full advantage of the enlarged opportunities afforded.

LONDON OPINION The London Morning Post questions whether any considerable increase in migration will follow the adoption of the scheme and suggests that it is too strictly limited in its scope. But the provisions are reasonable and the right kind of young settler will not find them at all onerous. That newspaper proceeds to compare the small movement to the Dominions since the war with the hundreds of millions that the old land has spent on unemployment relief. From this it deduces that "powerful influences in the Dominions are being exerted to prevent British immigration."

As a matter of fact the principal worry of late on the subject in this country has been that a larger proportion of recent immigrants have not come from the Mother Land. On this account the announcement of the plan, which is to be inaugurated next spring, is particularly welcome. It is presumably one of the results of Mr. Forke's visit overseas and it is to be hoped that we shall soon hear of other steps that are to be taken, as a consequence of his tour of investigation, for the stimulation of British farm settlement here.

The Louvre SUMMER SALE

of Ladies' Dresses, Hats and Lingerie. Our whole stock of Summer Hats and Dresses is being offered at Sale Prices so that we will not have to carry any over. It is not good business to carry over one season's stock to another. We would rather move it out at less than cost price than store it to another season. And this gives ladies an opportunity to obtain hats and dresses at very low prices indeed. Our large buying capacity enables us to secure the lowest prices to begin with and our sale prices represent real bargains.

<p>Eighty-four Only Crepe Back Satin Dresses In shades of Golden, Brown, Sand, Rose and Taupe. In all sizes. Regular \$29.50 value. GARDEN PARTY WAS SUCCESSFUL EVENT

Large Number Attended Function at Home of Mr. and Mrs. E. P. The Garden Party at the home of Mr. and Mrs. E. P. Jenner in aid of church funds was a very successful and enjoyable affair yesterday. The weather was all that could be desired. The garden was specially decorated and flags and bunting added to the colors to give an additional festive appearance. The Ladies Aid assisted by the church board had charge of the function. Mrs. W. T. Kergin, Mrs. George Wilson, Mrs. James Krikevsky, Mrs. Frank Vickers, and Mrs. Sauterbank poured and assisted generally. Mrs. Kergin was cashier. Misses Victoria and Ruby

Krikevsky waited at the tables. A program that was thoroughly enjoyed was contributed to by Mrs. H. C. Fraser who sang and was accompanied by Miss Marjorie Lancaster. Miss Way rendered several pianoforte selections. Miss Lancaster in her violin numbers was accompanied by Mrs. H. C. Fraser. Miss Davis sang and was accompanied by Miss Way. Mrs. Kirkpatrick had charge of the home-cooking. Miss Earle had an interesting game connected with the prevention of fires which amused all the "fire fighters." Mrs. Clarke read the tea-cups much to the enjoyment of the ladies and some of the men. W. J. Kirkpatrick was responsible for the decorations. The funds of the church will benefit to the extent of over thirty dollars.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND

Queen Charlotte Islands Land District, Land Recording District of Prince Rupert, and situate north of Lots 1658 and 1657. TAKE NOTICE that The Langara Fishing and Packing Co. HERRING RUNNING ALASKAN WATERS

Salmon Still Scarce and Prospects Poor for Full Pack

G. L. Alexander, who for years was connected with the salmon business and is now trawling with the K-197, was in port today, having made a cruise recently through all of the inland waters from Wrangell to Chatham straits, and said he noticed very few herring says the Ketchikan Chronicle.

However, he said herring were beginning to run again in considerable numbers. The first run slackened off and several of the large Seattle seine boats engaged in herring fishing returned home, believing the run was over.

When asked why the salmon are not showing up in inside waters, Mr. Alexander replied:

"Ask something easy. One man's guess about what the salmon will do is as good as another's. It must be left to the diploma experts to tell about their habits. All a canneryman knows is to get ready and if the fish comes to can it, and if it don't come to either declare bankruptcy or else draw on his credit and reserve fund to gamble with the salmon the following year. The outlook is not very bright for most of the cannerymen getting up their packs this year."

ACROPOLIS LEAGUE MAKES MORE PLANS

A meeting of the Acropolis Hill Improvement League was held in the City Hall last evening when George Casey presided over a good attendance.

The report of the committee for the dance held in the Moose Hall was read and showed a small profit.

A committee of Sid Macdonald, Jim Irvine, and A. E. Dickens was appointed to arrange details of the Oldtimers football match which will be staged about the middle of August and the proceeds of which will be set aside for

A delicious Summer recipe

Here is a new and very economical dish to serve for lunch or supper. Fill a pie-dish or mould with pieces of cold cooked meat. Add two hard-boiled eggs sliced, and, if liked, some sliced red peppers and a little parsley. Dissolve about a dessertspoonful of powdered gelatine in hot Bovril and pour over. When set, turn out on crisp hearts of lettuce, and serve.

BOVRIL

gives
Summer Cookery
Beef Energy without Bulk

the Improvement League.
It is also on the boards that the Football Association will set aside the proceeds from the matches against the British cruiser Colombo for the funds of the Improvement League.

DIDO GURVICH GOES LIVE AT SMITHERS

Will be Missed in Local Sporting Circles Where he is Popular

Dido Gurvich, well known in local sporting circles, left this morning on the eastbound passenger for Smithers where he will drive a truck in connection with the Hudson Bay Mine.

Dido has been a prominent member of two winning teams in Prince Rupert. On the Grotto baseball nine he covers third and is a good man at bat. In football he plays for the Terminus, who after a bad start have recently been winning steadily.

He is, of course, well known as a boxer too. He will be popular in Smithers where athletics are much in favor and he carries with him the best wishes of local sportsmen for his success in games as well as in the more serious game of life.

SENIOR BASEBALL PROVED A FARCE

Game Was Wholly One-sided and Score Quite Unbalanced

The senior baseball fixture between Gyros and Sons of Canada was played before a large crowd and in splendid weather, but the game was a farce and was won by the Native Sons 17-2.

It was one of those games when all went wrong. It was especially disappointing because some of the encounters between these teams have provided very keen games with much excellent play.

LAND ACT. NOTICE OF INTENTION TO APPLY TO LEASE LAND.

In Prince Rupert Land Recording District of Coast District, Range 4, and situate on and being all of Bonilla Island except that portion occupied by Indian Reserve Number 12.

TAKE NOTICE that I, Ole C. Austad, of Prince Rupert, B.C., occupation rancher, intend to apply for a lease of the following described lands:— Commencing at a post planted at the southeasterly point of Bonilla Island; thence northerly, westerly, southerly and easterly, following the sinuosities of the shore line, to point of commencement, excepting therefrom that portion of the island occupied by Indian Reserve No. 12, and containing one thousand acres, more or less.

OLE C. AUSTAD, Applicant.
Dated July 15, 1927.

NOTICE.

IN THE MATTER of an application for the issue of a Provisional Certificate of Title for Lot one (1) of Lot three hundred and sixty (360), Range five (5), Coast District, Map 970.
Satisfactory proof of the loss of the Certificate of Title covering the above land having been produced to me, it is my intention to issue, after the expiration of one month from the first publication hereof, a Provisional Certificate of Title to the above land, in the name of ALICE CLAPP. The original Certificate of Title is dated the 29th November, 1912, and is numbered 2605 I. Land Registry Office, Prince Rupert, B.C. July 15, 1927.

H. F. MacLEOD, Registrar of Titles.
