THIS SPECIAL WORK OF SALVAGE AND RESTORATION CAN ONLY BE LIMITED BY THE MEANS TO CARRY IT ON.

Fellow citizen, you have had a wonderful year since we last waited on you.

Things look very bright and hopeful in Western Canada these days. Will you not help to brighten the lot of those less fortunate? Your gift to the Army's Self-Denial Fund this year will aid in lightening many a burden, in the remaking of men and women and in caring for Christ's little ones.

¶AWAY back in the year 1757, in his maxims prefixed to Poor Richard's Almanac, Benjamin Franklin said: "For want of a nail, the shoe was lost; for want of a shoe, the horse was lost; and for want of a horse, the rider was lost." So you see the importance of a little think like a horse-shoe nail!

IF you are disposed to neglect the smaller advertisements in this paper, you are making a mistake. You are missing money-saving opportunities. You are missing important information about something that some day you are going to buy. You are throwing away your road-map and following your nose.

THE big stores of today were little stores years ago. They used advertising space judiciously and became large. At first, their announcements were smaller than they are today. But those small advertisements told about real values, real savings for their customers.

IN other words, the size of an dvertisement is no indication of its importance to you. The message is the thing. Some of the most important merchandise news is often printed in tiny type. Even in the largest advertisements you will find small type. Read the small type as well as the big black type. Read the little type as well as the big black type.
