VISITORS' SEASON. Prince Rupert should put on her best this week and wear it ward answering the objections of those until the end of the season. There will be many prominent visitors to the city this year and perhaps, most important of all, will be the Governor General, Lord Willingdon, statesman, scholar and gentleman, who, with Lady Willingdon, one of the Empire's most noted women, will be here on Saturday. It is important that a good impression should be made on these noted guests and also those more or less important personages who will be here daily now that the season for visitors is opening.

THE HABIT OF THRIFT.

Lots of people expect to acquire all their good habits in their second childhood.

One of the good habits long put off is thrift.

Often this habit does come in second childhood. With appetites and passions burned out of the decaying mind and body, old men may find themselves freed from temptations and wrongly consider their condition due to ripened virtue.

But thrift, like any other "virtue" forced upon one by nature, is apt to find its environment unhealthy and to curdle into penurious If thrift is to be wholesome and sweet and fruitful it must be SUCCESSFUL TEA AND

embraced while the mind and body are healthy and vigorous.

Thrift is a composite quality. It embraces within itself nearly all of the great virtues. It implies industry, prudence, forethought, self-denial. It certainly has no relation to niggardliness or mean-

Some men would let their grandmothers starve to death for the sake of a few dollars. That cannot be called thrifty.

And virtue carried to excess becomes a vice and is no longer virtue. Thrift that does not take into partnership honesty and charity sours into covetousness and avarice.

GET-TOGETHER TALKS OF IMPORT-ANT PROJECT - SPEAKERS SAY LOCAL FREIGHT IS ASSURED

(Portland Canal News) In compliance with an invitation the Stewart Tuesday evening with the Stewart Board of Trade, to discuss the question of a railway from the Peace River country to Portland Canal. A crowded hall was only one of the features of the event, and a lot of very |

interesting data compiled by the two

organizations was fully discussed.

The local Board of Trade was in possession of the government report, recently published and used as the basis' of a debate on this question recently in the House of Commons. This report, signed by leading engineers of the C.N.R. and C.P.R. Railways, dealt exhaustively with every possible outlet from the Peace River, giving data as to mileage. tonnage, construction, maintenance and operating costs. In going over this it was found that the route to Stewart is no less than 300 miles shorter than any other available route, and presents no engineering difficulties; that the Peace River country contains 8,500,000 00 acres of land that would become productive if given cheap transportation; that its estimated cost is \$30,000,000.

One objection taken to it in the east seems to be the idea, as expressed by Mr. James of the C.P.R. before the select committee of the House, that "no freight would be available west of the C Rocky Mountains unless some one c finds a mine." Thus no account is taken of the wonderful resources in two anthracite coal field that would be on the route, large iron deposits, two large mineral territories, timber and land.

FREIGHT AVAILABLE

The situation having been presented to the meeting by representatives of the Stewart Board of Trade, the chair-Hyder Chamber of Commerce, for facts as to the amount of freight that would be immediately available for such a railway if a one-mile spur was constructed into Hyder, Alaska, making a railhead therein

Mr. Blue, in a very able and forceful manner gave a mass of interesting data compiled from Alaskan government reports, that should go a long way toin the east who support Mr. James' idea that no freight would be available.

Taking official figures for exports and imports from only that portion of Alaska which would be reasonably tributary to Hyder, Mr. Blue showed that the exports in 1926 amounted to \$80,-912,059, and the imports to \$30,114,000, 75 per cent of which comes from, or is destined to, points east of the Mississippi River. It could hardly be expected Mr. Blue said, that a railway into Hyder could get all of this business, but it should get at least 50 per cent and possibly 75 per cent of it. During pers," visited Alaska, and a road to Hyder would handle a large proportion of this traffic. This is a business that is rapidly expanding. He figured that the freight from Alaska payable to such a railway would amount to \$4,000,000 year at the present time.

BUSINESS OFFERING

Chas. F. Sandford, editor of the Hyder Weekly Herald and United States Commissioner, also produced a lot official data to show the amount business that would at once offer, and J. A. Hall, president of the Bank Hyder, made some valuable suggestions the course of procedure to pro-

EVERY WOMAN SHOULD READ

HOW "FRUIT-A-TIVES" GAVE HER NEW LIFE

"For several years I suffered with severe constipation and was a nervous wreck. I had great pain in my limbs, and such crazy. I had no appetite, could scarcely eat anything without stomach distress. After reading about 'Fruit-a-tives' I decided to try them. Before I had taken three boxes, I was entirely well. I sincerely think 'Fruit-a-tives' saved my life."

Indigestion, biliousness, headaches, nervousness, pains in the back and limbs are largely caused by allowing poisons to accumulate in the body. "Fruit-a-tives' is nature's remedy, made from intensified fresh fruit juices combined with tonics. "Fruit-a-tives" stimulates the bowels, liver and kidneys to normal action and health. DAINTINESS

AINTINESS is the keynote of this age . . . not that spurious and soiled 'daintiness' of smudgy and scented deodorants . . . but the genuine cleanliness of warm water and soft, foaming Lux sudsthat freshness of April showers and of haytime skies. This, and this only, is the daintiness of immaculate women-everywhere!"

This letter was received from Mrs. Harvey Mitchell, R.R. No. 2, Hamilton, Canada.

Nothing could be a more fitting aid to daintiness than a complete wardrobe of washables, kept constantly refreshed by the exclusive use of Lux.

Make this Test

The best way to get acquainted with Lux is to try it on something you particularly care about. Next time your best silk or woollen stockings need a bath, whip a tablespoonful of Lux into the water. Then you will agree that there is no substitute for Lux.

COMEDY HAS PLENTY SNAP AND SPARKLE

"The Waning Sex," starring Norma Shearer, comes to the Westholme Theatre tonight only.

It is a comedy with a snap and sparkle, an exhilarating, zestful tempo, and it even has plot, not with an artitetal heaviness, but said to be well-balanced and interesting. Norma Shearer has the role of a

successful woman lawyer, while Conrad Our Silver Polish is Nagel, her leading man, is cast as the guaranteed not to scratch the rising young district attorney, who is in finest surface and will take love with her.
