## PREMIER OF MANITOBA VISITED CITY BRIDGE CONSTRUCTION ACCIDENT CAUSES FOUR DEATHS

### Premier and Attorney General of Manitoba Paid Visit to City Investigating Liquor Selling

Arriving on Saturday afternoon's train from Winnipeg for Victoria and Vancouver were Premier John Bracken of Manitoba and Attorney-General Major.

Seen by a reporter of the Daily News, Mr. Bracken said that the trip across the province was a revelation to him. The scenery was past description, and must surely be one of the province's greatest assets. To a prairie farmer, as he called himself, he said the journey through the mountains was surprising and magnificent, while the railway officials had made everything most comfortable.

### BETTER PRICES FOR HALIBUT

American Fish Sold Today High  
as Fourteen Cents For Two  
Small Boats

Halibut sold better today at the Exchange and two small American boats went as high as fourteen cents. There was a good supply of fish on hand, 181,400 pounds in all, of which 123,250 was brought in by American boats. Sales were:

**AMERICAN**  
James, 41,000, to Pacific Fisheries at 12.3c and 6c.  
Altun, 45,000, to Cold Storage at 13c and 6c.  
Ondre, 25,000, to Atlin Fisheries at 13.7c and 6c.  
Rainier, 8,500, to Booth Fisheries at 14c and 6c.  
Wave, 2,750, to Booth Fisheries at 14c and 6c.

**CANADIAN**  
Helen, 10,000, to Atlin Fisheries at 13.8c and 6c.  
Tern, 12,000, to Cold Storage at 11c and 6c.  
E. Lipsett, 7,000, to Cold Storage at 11.4c and 6c.  
Marguerite, 5,000, to Booth Fisheries at 11.7c and 6c.  
Zero, 6,000, to Atlin Fisheries, at 11.8c and 6c.  
Mesa, 1,700, to Royal Fish Co. at 11.5c and 6c.  
Turberg, 2,500, to Royal Fish Co. at 11.5c and 6c.

### ZERO BUILT AT LEWIS ISLAND

Fine Looking Halibut Fishing  
Boat Brought in First Catch  
Today

The new halibut boat Zero built, operated and skippered by Fritz Peterson of Lewis Island is attracting considerable attention along the waterfront this morning. She brought in her first catch—5,900 pounds—which sold to the Atlin Fisheries at 11.8c and 6c this morning.

The Zero was built at Lewis Island. She is a three man boat with a twelve horsepower Frisco Standard engine and is 37 feet long. She presents a nice appearance and is a valuable addition to the Canadian fishing fleet.

### NANAIMO WON FIRST GAME

EDMONTON, July 25.—Nanaimo defeated Edmonton two goals to nothing Saturday in the first game of a two game football series in the Connaught Cup playdowns.

More than five times the area of Canada's farms is still uncultivated and suitable for agriculture.

### CANADIAN LEGION

Special General Meeting  
on Wednesday, July 27, at 8  
p.m. All members requested  
to attend. 174

Speaking as a farmer Mr. Bracken said the possibilities of the interior were enormous. The development would naturally be not so rapid as on the prairie but there was no doubt but that there was a great future for Canada's basic industry in the valleys along the Canadian National Railways.

Mr. Bracken and Mr. Major are on their way to Vancouver and Victoria to study how British Columbia handles her liquor sales and distribution. Recently in Manitoba as the result of a referendum their system of government control with compulsory delivery was changed and it is to specially study the B.C. system of sale of beer by the glass and of beer parlors that the journey is made.

During the afternoon the visitors made a trip to the Cold Storage plant and also drove round the city. This was their first trip to Prince Rupert and they were greatly impressed with the development of the city. Mr. Major thought that the streets were very fine and commented on the work now being done at the approach to the depot. The permanent nature of the work in the city appealed to him strongly. Altogether their first visit to Prince Rupert made a strong impression on them they said. Its industrial development, its steady and permanent progress, the logical outlet for the grain trade of much of the interior and its appeal to tourists would all combine to make it a great Pacific port, and they for their part would tell of its possibilities.

### CHINESE SANDALS DONATED TO MUSEUM

A feature of local interest is the local museum which seems to arouse much more interest among tourists than among the townsmen. A surprisingly large number of tourists make a point of seeing the exhibits and comment very favorably on the specimens from this district, such as are not generally seen in museums.

One exhibit not of local type is a pair of Chinese sandals as worn under the old regime. Mrs. Bulger has donated a pair of these that are not four inches in length but are beautifully worked.

It is worth a visit to the Bank of Commerce building to see these exhibits.

### KING OF RUMANIA WAS BURIED TODAY

CURTEADEARGES, Rumania, July 25.—After a religious service the remains of King Ferdinand were taken from the Royal Chapel on the outskirts of Bucharest and borne in a special train today 150 miles to this little medieval town for burial.

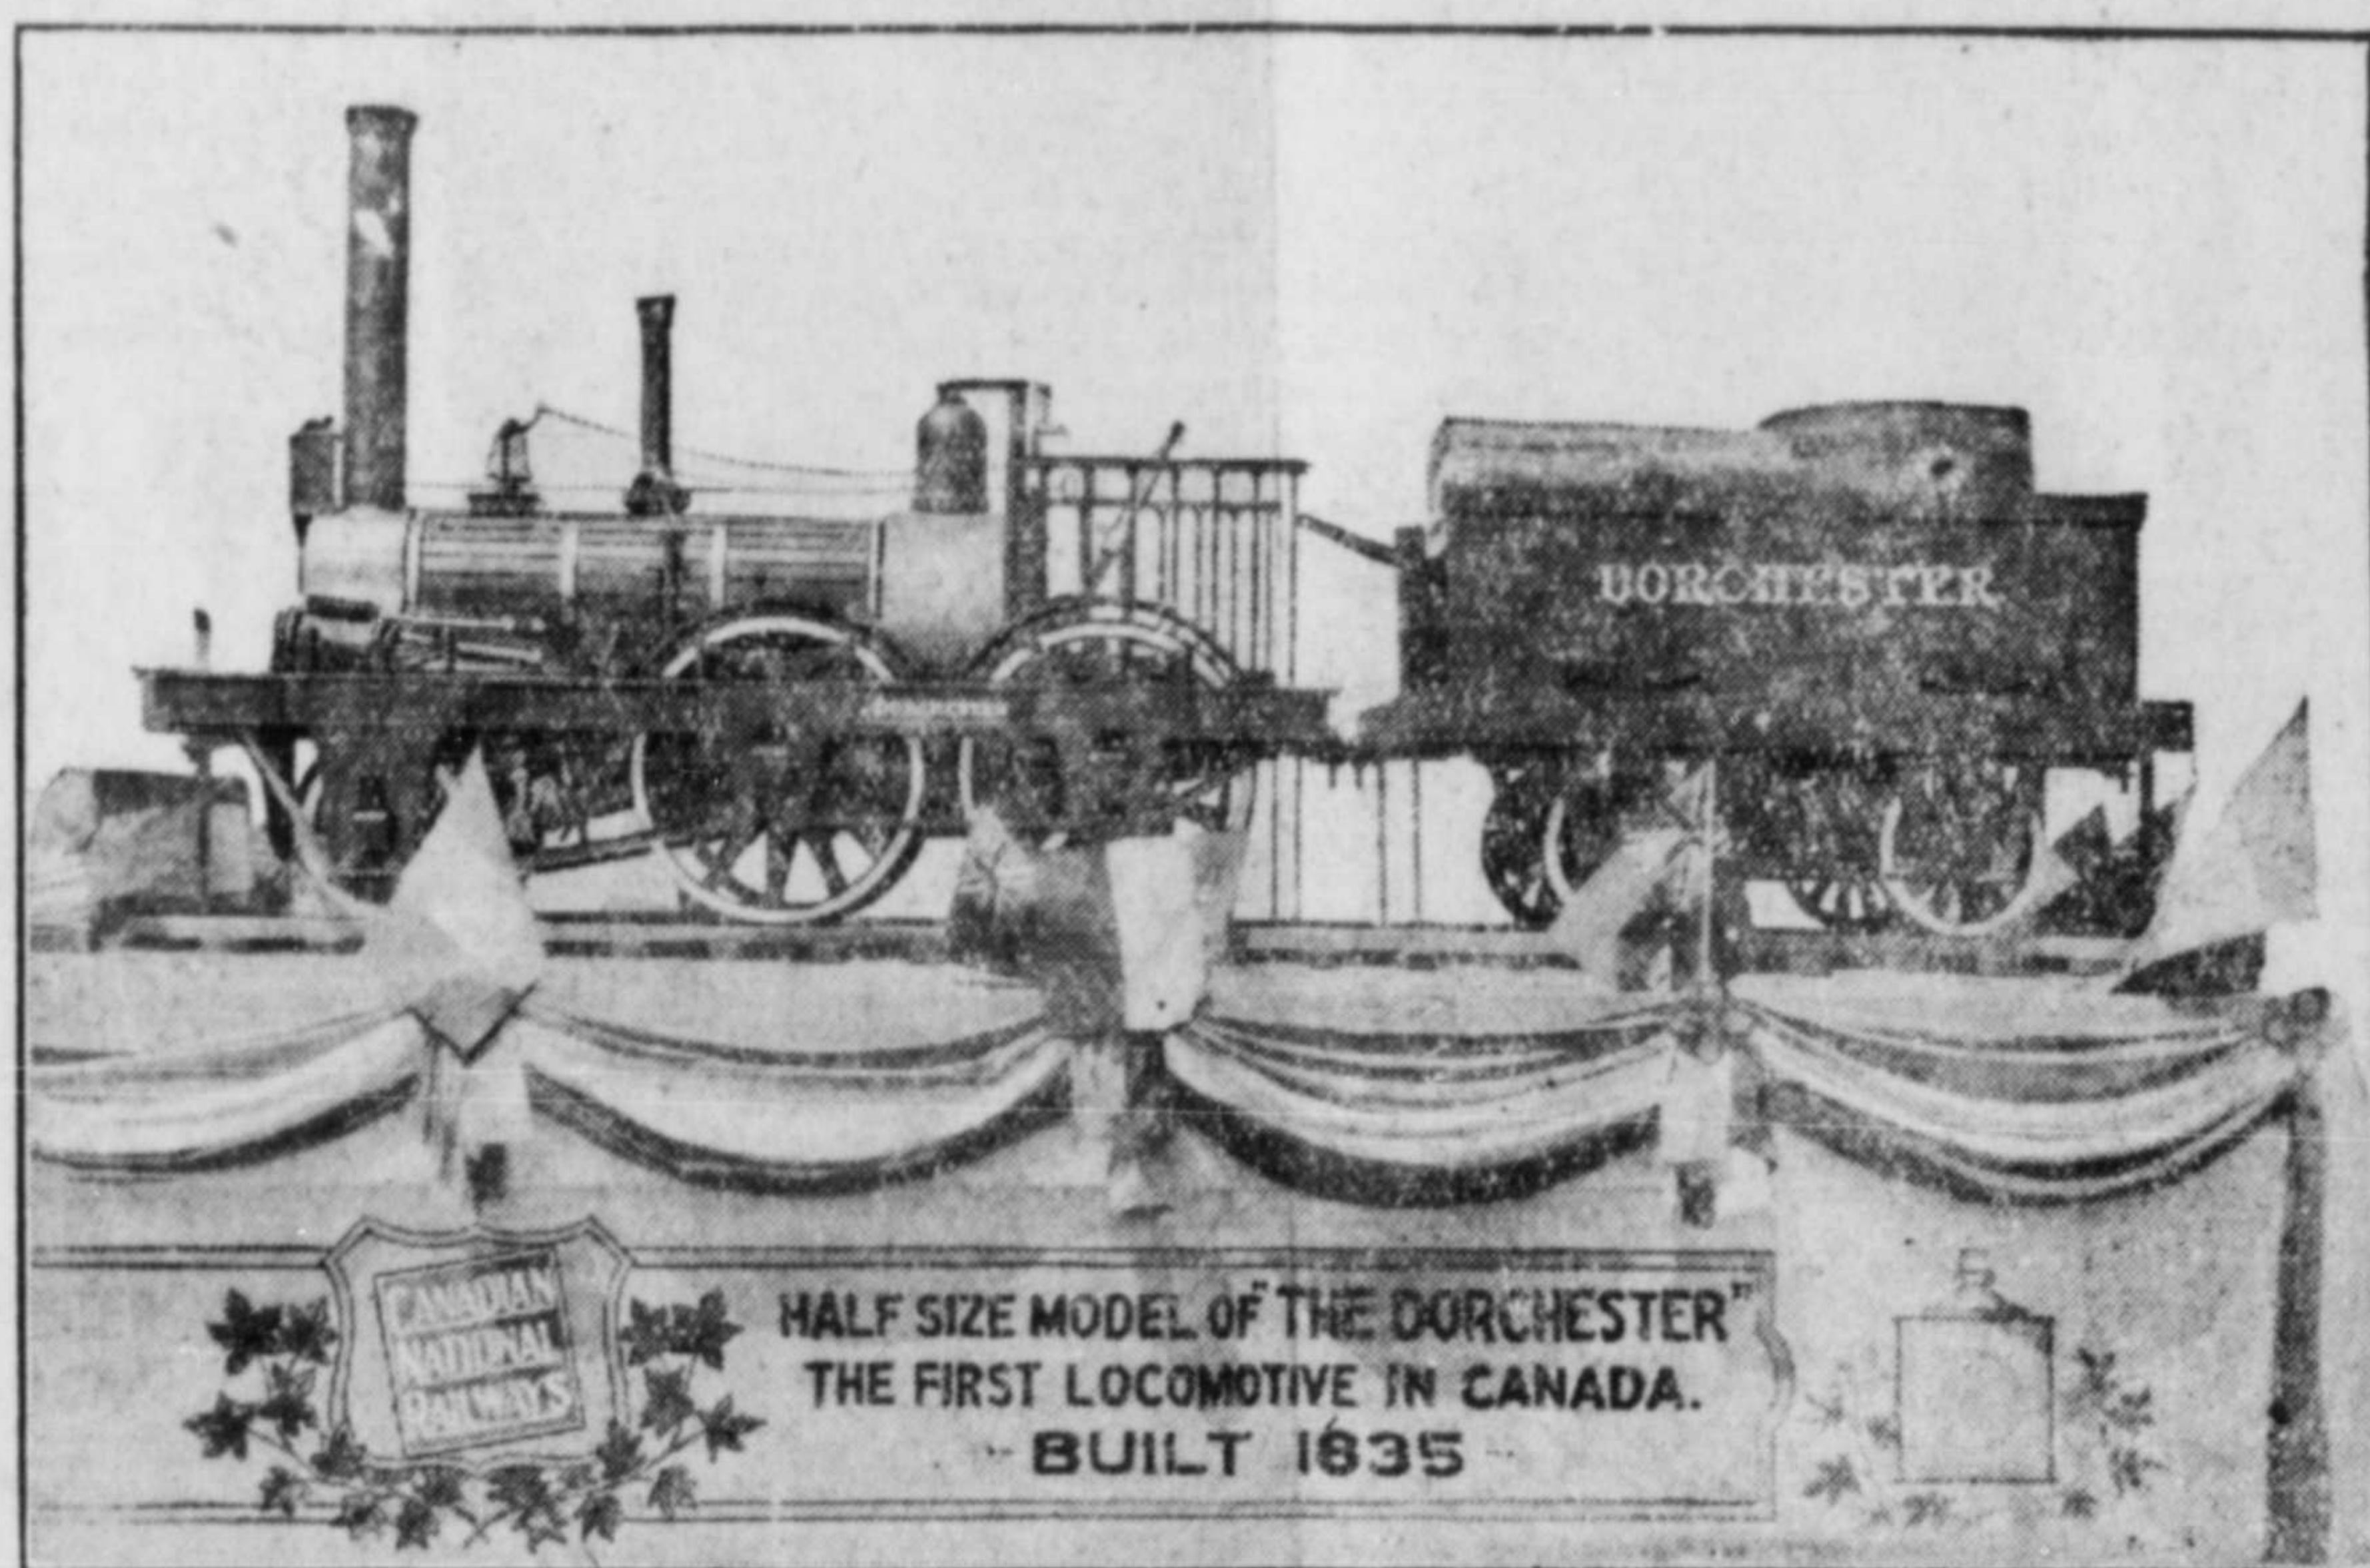

### MAN WAS KILLED RIVERSIDE MINE NEAR HYDER, ALASKA

MERRITT, July 25.—A telegram advised Mr. and Mrs. Keimola of the death caused by injuries received in an explosion in the Riverside mine near Hyder, Alaska, of her son Leonard, 27 years of age.

### GEORGE PLUNKETT AND NINE OTHERS ALL DISCHARGED

DUBLIN, July 25.—George Plunkett and nine others charged with conspiracy in connection with the death of Kevin O'Higgins, were discharged this morning, no evidence being offered.

### Canada's First Locomotive Reproduced

The "Dorchester" was the name of the first locomotive placed in service in Canada and it was in use on the Champlain and St. Lawrence Railroad, built in 1835 and connecting Laprairie and St. Johns, Quebec, a distance of 16 miles. The "Dorchester" was built in England by the

Stephensons. The original line now forms part of the Canadian National Railways system.

On the occasion of the annual procession of the St. Jean Baptiste Society at Montreal where a series of floats representing historical subjects

were featured, the "Dorchester", built at the Point St. Charles shops of the Canadian National Railways, was seen. Afterwards the reincarnation of the first Canadian locomotive appeared in the Diamond Jubilee parade at Ottawa.

### WHEAT HEADED ON PRAIRIES

Rye Turning Color; Wheat Look Well, and Heavy Yields Expected

RUST IN FEW SPOTS

WINNIPEG, July 25.—A survey of western Canada, according to the Canadian National Railways weekly crop report, indicates that wheat is practically all headed out in a great many districts, while in other areas it is from 50 to 75 per cent headed. "Other grains are coming on rapidly. Rye is turning color in some places and nearly ready for harvesting. Flax is in flower and hay is being gathered in.

The weather has, on the whole, been favorable. Hail has done a little harm in Saskatchewan but it has not been severe nor over a wide area. Alberta has been the chief sufferer, as far as weather is concerned. Corona reports a storm that blew down some of the grain; so does Lac Ste. Anne, Vegreville, Athabasca, Sangudo, and Wabamun complain of too much rain, but are expecting warmer drier weather. Conditions in Central Alberta are first rate, the crops are in good shape and heavy yields are expected.

Rust has made its appearance but so far it is not looked upon as serious. Alberta and Northern Saskatchewan are apparently free of it, and the spots in Central and Southern Saskatchewan and Manitoba where it is appearing are not alarmed. The only worms reported are army worms at Glidden, Saskatchewan.

A feature of this year's crop is that while there has been too much moisture in very low lands the rains have given a new lease of life to some districts. Madison, Saskatchewan, for instance, reports exceptionally good crops on its sandy hills, which have not produced a crop for several years on account of lack of moisture.

### BROAD JUMP RECORD FOR VANCOUVER GIRL

VANCOUVER, July 25.—Violet Hockley of South Vancouver shattered the British Columbia records for broad jump making 16ft. 3 3/4 in. in the provincial championship meet for the Olympic trials here Saturday.

### CARDINAL DIES

BUDAPEST, Hungary, July 25.—Cardinal Ocsknyi, primate of Hungary, died today aged 75.

### JAPAN LOOKING FOR TERRITORY

Food Supply of Country Not Keeping Pace With Increasing Population

HONOLULU, July 25.—Dr. Shiroshi Nasu of the University of Tokio told the institute of Pacific Relations Saturday that Japan was facing rapidly increasing population and the food supply was not keeping pace with population or better standards of living. This presented a problem which was bound to impair the peaceful progress of the world.

### FISHING PARTY BACK FROM KHTADA LAKE

Outside Visitors and Local People Spent Few Days at Popular Resort

With a party consisting of F. G. Hunt of the Great West Garment Company of Edmonton, Gordon Leckie of the Leckie Shoe Company of Vancouver, Charles Balagno, Miss Blanche Curtin, Mrs. Bryant and her two boys Jimmie and Wisner, George Bryant returned home last evening from Khtada Lake on the power yacht Haria. They report that fishing was good. They spent most of the time camping under the trees at the head of the big lake and all enjoyed the trip immensely. They had been away since the previous Tuesday.

### SHILLING A MILE TO RIDE IN TAXIPLANE

BROOKLANDS, Eng., July 25.—Taxiplanes cost the British passenger no more than hire of the humblest taxicab. Two-seated taxiplanes can now be hired at a shilling a mile from Lieut. Col. G. P. Henderson, who has opened an air-taxi garage here. Experienced pilots are permitted to drive their machines alone at the same charge.

### MINERS PLAY GOLF

MAESTEG, Wales, July 25.—Miners in this soft coal district have been afflicted by the golf craze to such an extent that pubhouse owners are complaining they spend all of their money on the game instead of spending it on beer.

The mileage of aircraft in 1926 exceeded mileage of Canadian roads in 1926 (390,000 miles).

### Derrick Fell Into River When Building Bridge and Four Killed, Two Injured

EDMONTON, July 25.—Four men were killed when a derrick of the Canadian Bridge Company overturned and fell into the Athabasca River 220 miles west of here Saturday while lifting a steel girder into place for a span in the new C.N.R. bridge. David Robb, foreman, of Vancouver, was crushed to death, W. F. O'Brien of Victoria who has worked on all C.N.R. bridges west of Prince George, J. P. Connaghan of Vancouver, and Thomas Scott of Calgary were all drowned.

The injured include W. S. Macdonnell and engineer W. Dickenson.

Macdonnell said the girder was being lowered into place and was within three feet of the piers on which it was intended to rest when he heard to swish of the cable and was horrified to see the derrick beginning to capsize and it crashed into the river where it now lies.

VANCOUVER, July 25.—A. Starr, Vancouver superintendent of the bridge company, left for the scene of the accident in Alberta Saturday night.

### BANK OF COMMERCE MESS ENTERTAINED FRIENDS AT PARTY

The members of the Bank of Commerce entertained a number of the younger people to cards and a dance on Saturday evening. In addition to Mr. and Mrs. Alex Carmichael there were present Misses Catherine Irvine, Louis Fisher, Lora MacLaren, Myra Harey, Virginia Riel, Muriel Morris, Florence Smith, Vera Smith, Betty Thompson and J. Perry, Fred Smith, Charles Porter, P. Howard, Trevor Williams, A. Robertson, Stan Wilson, B. Wakefield, F. Cabeldu and T. Rorie. A. Robertson was master of ceremonies, Charles Porter was in the kitchen and Stan Wilson cut the ices.

### WIRELESS REPORT

8 a.m.  
DIGBY ISLAND—Cloudy, calm; barometer, 30.20; thermometer, 50; sea smooth. 6 a.m. Alameda, left Skagway southbound.

Rainy at Stewart River and Oyjilvie.

### QUEBEC EARTHQUAKE

QUEBEC, July 25.—An earth shock lasting several seconds was felt in Quebec and vicinity last night but no damage resulted.

Canadians of British stock are today 55 per cent of our population. French 28 per cent, and European (other than French) 15 per cent.

### BASEBALL

Baseball tonight at 6.45.  
Gyros versus Native Sons.

### RUTH'S HOMER WON BALL GAME

Champion Slugger is Now Tied  
With Gehrig; Yankees Will  
Play at Home

NEW YORK, July 25.—Winning thirteen out of eighteen games while on the road, the New York Yankees are home for two weeks' stand against western invaders. Ruth's home run against Chicago yesterday gave the Yankees a victory and tied him with Gehrig.

Philadelphia lost a double header to Cleveland.

The five-day winning streak of Detroit ended against Boston.

Hill got his fifteenth victory of the season for Pittsburgh when they won over the Giants yesterday.

Alexander was batted out in the seventh by Cincinnati against the Cardinals. Week-end scores were:

**SATURDAY GAMES**  
National League  
Pittsburg 2-4, Boston 6-3.  
Others rain.  
American League  
New York 5, Chicago 2.  
Boston 2, Detroit 3.  
Washington 9, St. Louis 8.

**SUNDAY GAMES**  
National League  
Chicago 2-7, Brooklyn 3-1.  
Pittsburg 11-3, New York 6-9.  
St. Louis 4, Cincinnati 9.

### FEW FIRES IN NORTH SO FAR

R. H. Leighton of Forestry Department Increasing Vigilance  
During Dry Spell

R. H. Leighton of the Provincial Forestry Department returned to the city this morning from a trip into the interior. Mr. Leighton reports that so far there have been very few fires owing to the late season and the amount of rainfall. With the more recent dry spell the forestry officials are increasing their vigilance and a warning is issued to all campers, trippers and the public generally, to be particularly careful.

Near the railway track at Pacific there was an outbreak last week-end but the fire was under control on Saturday.

### VICTORIA WINS BIG REGATTA

HARRISON LAKE, July 25.—Winning the senior doubles and junior fours, the James Bay Athletic Association of Victoria took first place in the North Pacific Association of Amateur Oarsmen. Portland came second.

Art Caesar of San Francisco won the senior singles and San Diego the senior fours.

Vancouver and San Diego rowed a dead heat in the tuck weight fours.

**VIGOROUS ACTION IN IRELAND**

The Irish, Free State Government is taking vigorous action for the purpose of protecting the present constitution and preventing the efforts of the republican minority to force a form of government on the country which the people by their votes have declared that they do not want just now. The powers being taken by the government through the Dail are very similar to those taken by the government of Great Britain when Ireland was a part of the United Kingdom, but the great difference today is that the country is now wholly self-governing and independent except that they acknowledge the same King as Canada and Australia, South Africa and Great Britain.

No reasonable person could think well of a government that insists that girls wear dresses down to their shoetops. That is what the Mussolini administration orders.

**CONGRATULATIONS TO MEDAL WINNER**

Congratulations are in order to Archie Thompson, the winner of the Governor-General's bronze medal for being the best student in District Ten in the High School entrance classes, to Mr. and Mrs. James Thompson on having such a son and training him, to the teachers who have all the way through the grades been responsible for his preparation for the examinations, to the school which is honored by him and to the city in which he was born and reared. It is to be hoped that the winning of this medal will be but the beginning of a famous career that will extend throughout his life.

It takes longer to wear out than to rust out. That is why married people live longer than single.

**BEAUTY IN A SEASIDE POOL**

It is wonderful how beautiful nature is if we only take the trouble to look for it. Take as an example a pool among the rocks at the seaside. The variety of colors there and their blending is wonderful. The varied seaweeds and live creatures tune in with the surroundings, making the most delightful harmony of coloring. Even the crabs, the sea anemones, the little fish and other small creatures all have their part in adding to the general effect. Yet how many people pass through life blind to these beauties and never caring whether there was anything to see there or not.

Some of our figures of speech need to be revised. It is out of date to say a person works like a dog, unless it is to indicate that his scratching is only spasmodic.

**ALL INTERESTED IN BIG FIGHT**

While so few people are interested in the really beautiful and wonderful things there are millions of people who take an intense active interest in the big fight between the former fistic champion of the world and an aspirant for the championship. Also there are millions, possibly the same millions, who are interested in the atrocious colored supplements of newspapers, in street parades with decorated cars and other spectacular affairs of a most crude kind which are the poorest imitations of real art. True, there are fights in nature, plenty of them, and they have an important effect on the lives of the creatures that are supposed not to have within them the power to reason. There is plenty of tragedy there and there are creatures that follow each other blindly just as do thousands of human beings. But from an artistic point of view the results obtained by the so-called higher creatures as the result of what we designate reason are crude abortions compared with the finished results of blind instinct.

No girl can quite understand why her chum married the kind of man she did. It was not the kind she would have chosen if she had been the chooser, but she wasn't.

**STAYING IN BED IN THE MORNING**

How curious it is that so many people do not like to get up in the morning. Most people would like to lie for another hour. It does not matter what time they are in the habit of retiring or of rising, more time in the morning seems to be what the average person craves. There are exceptions to the rule but they are few, and usually are found among the older persons. Young people almost invariably crave more rest in the morning and less at night. That is, they are seldom ready to retire and never ready to get up. And the queer thing is that it is just as easy to rise at six as at eight as long as one takes a proper length of time for sleep, say seven hours each night. Ten hours is much too long for an adult.

Henry L. Doherty says: "If we could have one community that did not have any critics, that is destructive critics, it would grow like a weed in the tropics and prosper like a Scotch merchant in a new mining camp."

The whole family enjoys

# SHREDDED WHEAT

Crisp and tasty for any meal  
A real treat quickly prepared  
With milk or cream or fruits

**Movie News Notes**

Devoted to the doings and sayings of those who entertain the public

Mary Pickford has engaged as comedy constructors for "My Best Girl," her new film. Timothy Whalen and Allen McNeill. The director of "My Best Girl" is Sam Taylor, who made four Harold Lloyd comedies. Miss Pickford herself is authority for the statement that "My Best Girl" in its hilarity will form sharp contrast with the pathos of "Sparrows," her last picture.

Douglas Fairbanks acted as best man at the wedding of an Indian at the United Artists Studio during the past week. The groom was Cris Martin, a Yaqui, and the bride was Julia Rodriguez. As a wedding present, Fairbanks gave Martin a role in his new production, "The Gaucho." One of Fairbanks' leading ladies of the production, Lupe Velez, acted as Maid of Honor. Martin is an educated Indian and has planned to make pictures among the Yaquis. He has already made one or two small films with Indians as actors.

It develops that John Barrymore's new picture will be released under the title of "Tempest," is a modern story of Russia at the time of the Revolution. It is expected to furnish Barrymore with an exceptionally strong and colorful role.

**SUPPORT BUSTER KEATON**

Ernest Torrence has just been signed in the chief supporting role for Buster Keaton's next comedy, "Steamboat Bill," and which will follow the comedian's "College." Torrence, perhaps the screen's most versatile character player, will play a straight comedy role.

**WEEK AT THEATRE**

- Monday and Tuesday
- "The Potters."

- International News.
- Wednesday and Thursday
- "God Gave Me 20c."
- Juvenile Comedy, "My Kid."
- Aesop's Film Fables.
- Friday and Saturday
- Colleen Moore in "Orchids and Ermine."
- Christie Comedy "Cool off."
- Pathe Review.

**STREET SCENES IN NEW YORK**

**People Taken Unconsciously in "Orchids and Ermine," a Story of Telephone Girl**

Scores of exterior scenes were taken in New York streets for Colleen Moore's new picture "Orchids and Ermine" which is coming here at the week-end. Masked cameras operated from the screened windows of bakery wagons, taxicabs and store windows aided in capturing the scenes in which thousands of unsuspecting New Yorkers took part. Not even the policemen "shot" knew it!

Miss Moore, Mulhall and the others rehearsed the scenes before going to the various busy Broadway and Fifth Avenue centres where the actual filming took place. While the "shooting" was going on, there was no sign of director, megaphone, cameras, reflectors or other paraphernalia that usually adorn the spot where motion pictures are being made. As the script required, the various players seemed to be a part of the crowds with which they mingled.

**MCCORMICK PLEASED**

"It is the most successful feat of its kind I've seen" said McCormick, general manager of west coast production for First National and producer of the Colleen Moore starring picture. "A great deal of credit belongs to Director Santell and Cameraman Van Enger and their assistants."

"Orchids and Ermine" is the story of a little telephone operator's experiences at the switchboard of a huge New York hotel.

**TOSS OF COIN DECIDES WHAT IS TO BE DONE**

"God Gave Me 20" is Story of New Orleans Mardi Gras"

New Orleans during the Mardi Gras. Crowds run riot. Street parades. Beautiful floats. Grotesque figures. Confetti. Music. Dancing. Laughter. Intrigue. Noise. Gaiety. Mardi Gras!

There you have the background against which Herbert Brenson has faithfully transcribed a story of the New Orleans Mardi Gras, "God Gave Me Twenty Cents." A ship has docked and the men have joined the merry-makers. Up the street, laughing, singing, shouting. They pause before a restaurant. Seeing a shy little girl waiting on table, the mob's leader runs in, takes her in his arms, enthrones her on a float and they continue through the town.

It is late when he leaves the child at her door and it is the first time either of them have ever known what it is to love. Five days pass, six—and they are married. She, of the pensive look;

and he, of the roistering sailor crew. The seventh day arrives. The boat is about to leave harbor. He goes to a cafe to say goodbye before returning for a last word with his wife. Cassie enters. She is hard, hard as steel; but steel bends, and he is the only one ever to enter her heart. Her man—married, and going away. She wants, asks, taunts, begs to go with him. Finally, before all his fellows, she dares him to match his luck against hers. She'll toss two dimes in the air. Should both show heads, Cassie goes. If not, she stays.

**THE POTTERS COMING WEST HOLME TONIGHT**

"The Potters," those comic strip characters of J. P. McEvoy, have finally reached the silver screen. W. C. Fields' new and extremely amusing Paramount comedy comes to the Westholme tonight. It is the consensus of opinion that this picture carries Fields another rung higher on the ladder of fame.

Opening in a typical American home, are met Ma Pa, Bill and Mamie Potter. One immediately knows who's Boss as Pa merely reads the motto on the wall—"God Bless Our Home," and sighs. Complications arise when it is disclosed that Pa disapproves of Mamie's friendship with Red Miller but as time goes by discovered that Pa isn't nearly as affluential as he'd have us believe. Instead, he's merely a hard working stenographer. Suddenly, Pa determines to step out of the rut by plunging all his mortgage money in oil stocks. How he sinks deeper and deeper, only to stagger out and finally find himself going around in circles, provides a satisfying climax and one which contains a superfluity of laughs.

**Man in the Moon**

THE neatest man I know is the one who tries to "roast" a neighbor by sending an unsigned letter to the editor.

SOME one wants to know if when rabbit skin skirts become fashionable this coming winter, the bunny hug will be revived.

IT'S pretty hard to be religious in this weather. Jake says he's saving up his dimes for the church collection in the fall and he hopes he don't have to spend them before the time comes.

THERE were false prophets who said there would not be any summer this year.

ONE thing that won't get you anywhere is selling your car and buying a house.

IT'S too bad to think we now are to have another seige of Dempsey-Tunney propaganda in the sports columns of the newspapers.

ARCHIE is all right, even if I do say it myself, being a neighbor of his and shouldn't.

I WISH my name was Archie  
And I could work and play  
And sometimes win a medal bronze  
And then a hero stay.

**GREAT NUMBER CEDAR POLES**

CEDARVALE, July 25.—Driving cedar poles on the Skeena to the loading slip has been commenced and a boom has been strung across the river here to catch them as they come down. The Hanson Timber & Lumber Co. have the greatest lot of cedar poles on the banks of the river this year that has ever been cut in this district. There are three driving crews this season and at Cedarvale there will be two loading crews. Orders have been placed with the railway for at least thirty flat cars a week for the entire shipping season.

In addition to more than a million lineal feet that will be shipped from the Cedarvale yards there are many carloads to go out from other points along the line with New Hazelton as the biggest contributor. At that point several cars a week have been going forward since the winter and there are many more car loads to be brought in and loaded.

**NEW HAZELTON**

A new church is being erected at Old Fort Babine by the natives and will be ready by the fall.

Locating Engineer Whittaker of the Provincial Public Works department is endeavoring to locate a new site for the new bridge over the Bulkley River to replace the high level bridge at Haggwilet.

Louis Hanson, an old timer of the district died in the Hazelton Hospital on Friday morning.

At the Hazelton Public School meet-

TENDERS WANTED.

Sealed tenders will be received by the undersigned for equity of H. M. Kerr in the following lot and dwelling: Lot 3, block 28, section 6, up to 5 p.m. Friday, July 29, 1927.

Preference given returned soldiers.

D. J. MATHESON,  
172  
Treasurer.

## WANTED---AT ONCE!

A few more cases of rheumatism, neuritis, paralysis, chronic constipation, high blood pressure, goitre or any other ailment caused by toxemia—which includes over ninety per cent of all ailments.

If all other treatments have failed, do not give up hope!

### MAGNETISM

the most mysterious and most irresistible force in the universe when applied to the human body in a scientific manner, assists nature in eliminating the poisonous waste that is responsible for so many ailments.

## THE IONA-OTONE

The electric magnetic appliance that is obtaining such almost miraculous results, assists nature in making cures of ailments which hitherto have not responded to medicines, manipulations, surgical operations, hot springs or electrical treatment.

Thousands of people since the introduction of the IONA-OTONE into Canada three months ago are now enjoying good health—and these people had been called incurable! In the light of modern developments, hardly any disease can now be called incurable.

**FREE TREATMENTS**

So sure are we that you will be benefited by the IONA-OTONE that we cordially invite every person in Prince Rupert and vicinity to accept our offer of free treatments. You have everything to gain and nothing to lose.

### IONA-OTONE HEALTH CO.

## Gum-Dipping

### A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chopped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is created by internal friction. Heat not only weakens the fabric, but also softens the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage-giving qualities of tires would be greatly increased. Such a method was found and called Gum-Dipping.

The Gum-Dipping process is one of Firestone's contributions to economic travel—it insulates and impregnates every fibre of every cord with rubber, reducing internal friction and at the same time binding the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

## ACCURACY

Your health—your very life is dependent at times upon the accuracy with which the prescription of your doctor is filled. Your pharmacist should be one in whom you have implicit confidence. The recommendations and patronage of our long established clientele has steadily built this institution upon the solid foundation of public confidence. It is because so many people come to us that we are able to maintain a staff of three registered pharmacists and at the same time make our charges surprisingly moderate.

# Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

## BRINGING UP FATHER

## REGATTA WAS GREAT EVENT

Yacht Club Scene of Color and Bustle for Third Big Annual Affair

### GRAND PARADE IN MORNING

Rowing Races Particularly Interesting and Exciting Finishes Result

There was a scene of color and bustle around the Yacht Club and on the waterfront yesterday on the occasion of the third annual regatta. Postponed from July 10, the club was favored with dry but dull weather with the sun threatening and at times succeeding in shining through.

The grand parade of the decorated boats was a pleasing surprise. The owners had gone to a lot of trouble to dress up their craft and the parade was colorful and attractive. The judges awarded first prize to Vaquero, with Collier a good second and I.C.U. third.

The afternoon was taken up with the races. Owing to the handicapping system it was difficult for the spectator to tell whether the first boat over the line was the winner or not, but the finishes were in many cases extremely close and in one event a matter of three seconds separated four boats.

The rowing races made a stronger appeal to the average watcher and in all of these the finishes were exciting. Owing to there being no coxswain the steering was erratic and crowding was hard to avoid but all competitors had the right spirit and this was one of the happiest features of the meeting. The ladies' singles resulted in a tie.

The lunches provided by the club were popular and a much appreciated treat, while bees never swarmed round honey more thickly than the sweet-toothed did around Alex McRae and his candy.

Congratulations are the order of the day for the committee and the executive. Shief Thompson was everywhere and helping everyone.

**Prize winners:**  
Grand Parade—1, Vaquero; 2, Collier; 3, I.C.U.  
Suga Cup, Cruiser Handicap—1, Nancy; 2, Irene; 3, Vaquero.  
Open Boat Handicap Race—1, Wyl; 2, C. Starr; 3, Francis C.  
Men's Rowing Doubles—1, Kirkendall and Starr; 2, Sid Hunter and Jack Bulger.  
Speed Boat Handicap, Club Cup—1, Vixen; 2, Marjorie.  
Ladies' Rowing Race, Singles—Tie between Mrs. Kirkendall and Virginia Riel.  
Speed Boat Handicap Race, open all—1, Mig. 2, Marjorie; 3, Pointsettia II.  
Men's Rowing Race, Singles—1, C. A. Kirkendall; 2, Sid Hunter; 3, Jack Bulger.

Mixed Doubles Rowing—Prizes divided among Mr. and Mrs. Kirkendall, S. Stephens and Virginia Riel, and S. Hunter and Mrs. F. W. Allen.

In addition to the club executive, the officials of the regatta committee were: Chairman of regatta—Alex. MacDonald. Official timekeeper—Dr. J. R. Gosse. Starter—Sergeant Hanna. Judges—J. Lindsay, Fench Gaggard, and Alex. Saint. Competing boats—Dr. J. P. Cade. Chairman of course—Dr. H. L. Alexander. Entertainment and publicity—Alex. McRae.

### RIFLE SHOOTING

The weekly rifle shoot at McNicholl Ranges was attended by only five marksmen yesterday, not enough to allow of the presentation of a spoon to the winner. Scores follow:

M. M. Lamb ..... 30 34 30 94  
R. Wilson ..... 29 30 31 90  
W. Brass ..... 29 32 27 88  
R. W. Cameron ..... 22 31 23 76  
B. Wilson ..... 20 27 22 69

### SPORT CHAT

A report from Paris states that France, the country chiefly responsible for the renewal of the Olympic games, will not be represented at the 1928 meeting, owing to the failure of the government to vote the necessary credits.

The departure of Harper the Arsenal international goalkeeper to the States where he is to play for the Fall River

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Football club which he will also manage, has caused much talk in football circles. Arsenal paid \$20,000 to Hibernians the Scottish team for the transfer of Harper in 1925. The club can do nothing but it is understood that should Harper want to come back to British football he can only do so on receiving permission from the Football League, and this may be difficult to secure.

## CAR ACCIDENTS IN INTERIOR

Smithers People Have Rather Thrilling Experiences Without any Fatalities

Chevrolets took center stage in the weeks' record of auto mishaps, and again there is the satisfaction of knowing that no personal injuries were received in serious tumbles says the Interior News. On Wednesday, Dan Small of Moricetown was proceeding toward Smithers in his new Chevrolet sedan when trouble ensued positively and without hesitation. Just east of Moricetown is a long pole bridge made comfortable for driving by double planks laid lengthwise. Apparently the driver got off these planks and in his efforts to get back on the smooth surface his car jumped right through the railing and into an eight-foot hole below. Two broken windows and a twisted fender was the total damage, his passengers escaping with a bump and the experience. It required a truck load of cables, blocks, timbers, etc., and

seven men to get the machine out of the hole.

Billy Orhard created the next diversion. Billy was coming down the big hill across the river. Just at the big, dangerous bend, when brakes are necessary, one of the tires went flat and the car pulled off two or three black bottoms. Bill took a peek over the big drop, and not caring much for scenery anyway, headed the Pontiac into the hill, up which it climbed until equilibrium was lost and then toppled over on its side. One or two minor bruises to women and children and the machine was barely scratched.

On Sunday, Mrs. Harry Schwartz essayed a jaunt in her car while Harry was fishing at Haggelget Canyon with a large number of other Smithers people. Approaching the bridge she found another car facing her and took to the ditch with liberality. This car also toppled over, Mrs. Schwartz being surprised and Mrs. Castell very slightly shaken. They were within a few feet of the precipitous canyon.

## SAMPLES FROM TIGER MINE

Both High Grade and Milling Ore Found in Property Adjoining Toric

That the Tiger property contains high grade silver ore equal to any yet found in the district, in addition to large bodies of milling ore, was verified last Saturday when Ed. Pickett, the owner, came down with several spectacular samples says the Alice Arm Herald. The samples are impregnated with ruby silver, and also massive flakes of native silver.

The last find was made in a drift from the main tunnel, and the whole face of the drift is now in ore.

The main tunnel is 140 feet in length and the depth obtained on the ore is 140 feet. Four drifts have been driven from this tunnel in order to locate the ore body which is faulted into four sections. Every one of these faulted sections have been located, and each carries first class ore.

The width of the ore body is from 6 feet to 15 feet wide, with an average width of 10 feet. The whole body is composed of a good grade of milling ore with shoots of extremely high grade running through it.

Enough ore has already been determined to justify the erection of a concentrating mill. As the chief values are in ruby silver, with native silver ranking second, without copper values, it is an ideal cyanide ore.

The Tiger joins the Toric on the north. It is ideally situated for the erection of an aerial tramway, and is considered one of the most promising properties in the district.

## ROBERTS ANSWERS MANY QUESTIONS AT SOCIETY OF AUTHORS

is Not Only President but Literary Informant of Organization

TORONTO, July 23. (Canadian Press.)—Acting as question answerer at three literary conferences in swift succession sounds like a task calculated to bring on an attack of brain fever. But Dr. Charles G. D. Roberts, who was recently elected national president of the Canadian Authors' Association, accepted the role of literary informant at the Canadian Chautauqua at Muskoka without any apparent dread of the consequences.

"I make a game of it," Dr. Roberts explained before leaving Toronto. "It is understood in advance that I am not omniscient and there is no complaint if I am stumped by a tricky question. Approached in this manner it provides absorbingly interesting mental exercise."

**POETRY WRITING**

According to the president of the authors, the questions propounded last year at the first session of this unique summer school evidenced strikingly intelligent understanding of the subjects under discussion. At this year's Chautauqua he is being subjected to a species of third degree in the technique of poetry writing, Canadian literature and contemporary English literature.

Possibly with the idea of keeping Dr. Roberts in a properly subdued state of mind, the Canadian Chautauqua also captured a prominent critic for the Muskoka assembly, John W. Garvin, who is delivering a series of lectures, is president of the Radisson Society of Canada and, in addition to writing widely on literary subjects, has compiled several anthologies of Canadian verse.

The title of one of his half dozen lectures is "Poetic Diction, Players on Pipes, and Personality" and the others sound just as intriguing.

**MANY ATTENDED**

When a summer school of Canadian Literature was inaugurated in the beautiful Muskoka district last year, it proved, very popular with Canadian writers and even a larger number of knights of the pen—or typewriter—rallied there this year. A highly attractive feature of the course is that the lectures are held out of doors.

**EXPERIENCED.**

Grocer, to applicant for job as a clerk: Have you ever done any clerking?  
Applicant: Yes, sir, I used to be a draft clerk.  
Grocer: What's that?  
Applicant: I opened and shut the windows.

# WORLD PEACE BY EDUCATION AIM MEETING

Great Object of Educationists' Gathering at Toronto is World Brotherhood

TORONTO, July 25.—(By Canadian Press).—A great gathering from a professional standpoint is the second biennial conference of the World Federation of Education Associations, which will bring to Toronto about 6,000 educationists from all over the world between August 7 and 12. But the most important aspect of the huge conference is its unofficial aim—the furtherance of world peace through education. With practically every nation in the world represented, the importance of the meeting in the quest for universal peace is obvious.

A comprehensive program of subjects for discussion has been prepared, but educationists of all the nations that will be represented are looking beyond the merely professional aspects of the conference to the influence of education on the affairs of the world. "I look on this federation as a means of promoting world peace through education," says F. W. Goldstone, general secretary of the British National Union of Teachers, "and the fact that the idea had its birth in the United States is, I think, particularly significant when it is remembered that the United States is not a member of the League of Nations."

The program for the conference includes discussions on the training of teachers, care of the young, illiteracy, and the relationships of education to international peace in various aspects. Every phase of education will be discussed, including pre-school, elementary, secondary, higher, adolescent and adult education.

"World brotherhood through education" is, in fact, the keynote of the convention in the words of Augustus O. Thomas, president of this vast organization. The program includes addresses by representatives of all the leading nations, among the speakers being Dr. E. W. Kuo of China, vice-president of the Federation and president of southeastern University, Shanghai; Frank W. Goldstone and E. J. Sainsbury, England, and many others of the delegates.

The World Federation of Education Associations was organized at San Francisco in 1923, the first biennial conference being held at Edinburgh, Scotland, in July 1925. Much of practical value was accomplished at that meeting, which was attended by representatives of 47 nations and 220 associations.

# OPERATION OF EIGHT HOURS DAY SUCCESS

Board Makes Second Annual Report on Operations in British Columbia

## MANY WORKERS AFFECTED

Act is Flexible But Few Complaints Have Been Regard to its Application

In reviewing the second year of the operation of the Hours of Work Act in the Province of British Columbia, the Board administering the Act, which consists of J. D. McEwen, chairman, T. F. Paterson and F. V. Foster, states that the Act has been of distinct benefit to many thousands of workers whose hours of labor it has materially reduced, and that it has been, generally speaking, very loyally observed by those in control of industrial operations throughout the Province.

The report of the Board, which has been presented to the Hon. A. M. Manson, minister of labor, recalls how, at the time of the passing of the act, it was pointed out that occupations where workers were able to build up strong organizations of their own were not likely to be affected greatly by its provisions, as they had, for the most part, secured an eight hours' working day by their own efforts. In some of the leading industries, however, the case was different, and long working hours were extremely prevalent with large bodies of unorganized workers. It is to these latter, in particular, that the act has been found applicable, and its administration during the past two years has had the effect of reducing their hours of labor in a very important degree.

## COMPLAINTS FEW

Complaints of non-observance of the Act have reached the Board from time to time, although, taking into account the diversified nature of our industries, and the very wide area over which they are distributed, it may fairly be said that such complaints were far less frequent than might have been expected. Investigation into their causes has been made, either by members of the board personally or by the staff of the department of labor, and where grounds of complaint were found to exist there has been little difficulty in having matters put right. The amount of friction or misunderstanding in the working of the act has, in fact, been singularly small.

## FLEXIBILITY

A rigid enforcement of an eight-hours working day, for all workers in all industries at all times, was clearly not contemplated by the Legislature, which expressly permitted a large amount of flexibility in bringing the principle of the legal limitation of working hours into consonance with the changing needs of industry. The Act itself contained qualifying clauses with this object in view, and also empowered the Board of Adjustment to frame such exemptions to the operation of the Act, both permanent and temporary, as might be found necessary. Permanent exemptions have been provided for in regulations issued by the board, which have a more or less general application in the industries to which they relate. Temporary exemptions are those allowed by the Board from time to time, to meet the requirements of individual employers in periods of unusual stress or emergency.

During the year 1926 there have been 176 of these temporary exemptions granted, the majority having been in the interest of those engaged in one branch or another of the lumbering industry. Where the grounds upon which applications for exemptions were made appeared to be unreasonable or insufficient, such applications have not been acceded to. During the past year forty-two applications were refused by the Board.

## SHORTENED WORKDAY

That the Act has resulted in a considerable shortening of the working day for those who formerly used to be employed for an excessive number of hours, appears to admit of doubt. Abundant proof of this is to be found in the details as to working hours which were collected by the Department of Labor from 4,521 employers in the past year. This has permitted of a comparison being made between 1924, the year before the Act became operative, and last year. In nineteen of the twenty-five industrial groups there is a lowering of the average weekly working period, and those groups not so affected either contain a considerable number of workers who do not come under the provisions of the Act, or else their normal working hours, both before and since the passing of the Act, have been fewer than forty-eight a

## NOTICE.

Dated at Prince Rupert, B.C., July 4th, 1927.

# BRITISH COLUMBIA

The Mineral Province of Western Canada  
To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,599,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF \$988,108,470.

PRODUCTION FOR YEAR ENDING DECEMBER, 1926, \$67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES,  
VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Which Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.

# LUMBER INDUSTRY

It is in the lumbering group of industries, employing altogether something like 40,000 persons, that the effect of the Hours of Work Act has chiefly been felt. In the logging branch the average hours have been reduced 2.08 per week. Sawmills have witnessed an average reduction of 4.82 hours a week, shingle mills 7.12 hours, planing mills 5.10 hours, logging railways 1.95 hours, box factories, sash and door plants, etc., 2.62 hours. Mixed plants 4.98 hours, and pulp and paper mills 5.01 hours. In the lumbering group there are still some sections with an average slightly over forty-eight hours, which is explained by the permanent and temporary exemptions already referred to, but the above figures show that, for the general body of workers, the Act has meant a real reduction in the hours of labor.

Apart from the lumbering industry there is an average reduction of 2.15 hours weekly in the contracting group, and 4.41 hours in the allied group of Builders' Materials. The other changes are less important, though, in reference to an increase of 3.49 hours weekly in Oil Refining industry, it should be noted that this group includes the new fish reduction plants, where the operations are in the nature of things both seasonal and intermittent, and in which it would not be possible to insist upon a strict interpretation of the Act.

# SADDLE MINE HASTINGS ARM

Property Being Developed by Silver Crest Mines Ltd. and Showing Good

The shaft being sunk on the Saddle property at Hastings Arm continues in good ore states P. E. Peterson who is in charge of operations says the Alice Arm Herald.

At the point where the shaft was commenced, the ore on the surface was 18 inches wide. The shaft is now down 20 feet, and the vein varies in width from 12 to 18 inches the entire distance.

The character of the ore is a high grade galena carrying silver, gold and copper values. The quartz on both walls also carry good values.

The ore vein has been exposed on the surface for a distance of 300 feet, and varies from 3 to 6 feet wide. Both walls are well defined and numerous branch veins join the main vein.

The high grade, which is on the hanging wall side of the vein varies in width from 3 feet to a few inches, the average width of what has been exposed is about 14 inches. It presents every indication of going to a great depth, and development work will be prosecuted with all possible speed. The vein is on the contact of the granite and greenstone, with greenstone forming the hanging wall, and in places granite forming the footwall.

The Saddle property is at an elevation of 4,000 feet, right above Hastings Arm, and a tramline can be constructed to tidewater, when ore shipments commence at a cheap cost. It is ideally located for cheap mining and shipping of ore.

The Saddle is being developed by the Silver Crest Mines Ltd. of Vancouver, who have an option on it. They also have an option on the Silver Crest Group at Stewart which joins the Big Missouri on the north.

Mr. Peterson who is in charge of operations at both properties, is well acquainted with the north. He was in charge of the pilot concentrating mill at Anyox three years and during that time the successful solution of treating the Hidden Creek ores was worked out, which resulted in the construction of the present huge mill.

He later held the position of superintendent at the Big Missouri, and was successful in locating the ore bodies that placed the company in such a favorable position.

Before coming to British Columbia eleven years ago, Mr. Peterson held responsible positions with the Anaconda Copper Co. the W. A. Clarke interests, and the Butte and Superior Mining Co.

## ST. ANDREWS HAVE PICNIC

Good Turnout at Digby Island Yesterday and Program of Sports

In spite of threatening weather and whooping cough epidemic there was a good turnout of parents and children at the annual picnic of the St. Andrew's Society to Digby yesterday. Boats were loaned by D. Ritchie, D. Stewart, Geo. Fraser, M. MacArthur. The Joybird was also requisitioned to take the picnickers over.

The sports and refreshments were very capably handled by the following committee:

Ben Ferguson, H. Steen, Bert Cameron, Bob Stuart, Jas. Dick, J. S. Black, J. Haddon, Mrs. McRobbie, Mrs. Chas. Taylor, Mrs. J. Murray.

### PROGRAM OF SPORTS

Boys 5 and under—1, Billy Brown; 2, Andrew Squarechuk; 3, Napoleon Letourneau.

Girls 5 and under—1, Jean Cameron; 2, Helen Brown.

Boys 7 and under—1, Peter Squarechuk; 2, H. Davies.

Girls 7 and under—1, Mary Thompson; 2, Kitty Cameron; 3, Sarah Findlayson.

Boys 9 and under—1, Alf. Ritchie; 2, Andrew Letourneau; 3, Jimmie Irvine.

Girls 9 and under—1, Evelyn Lipson; 2, Winnie Cameron; 3, Cathie Findlayson.

Boys 11 and under—1, Donald Arney; 2, Isadore Lipson.

Girls 11 and under—1, Jean Ritchie; 2, Janet Thompson.

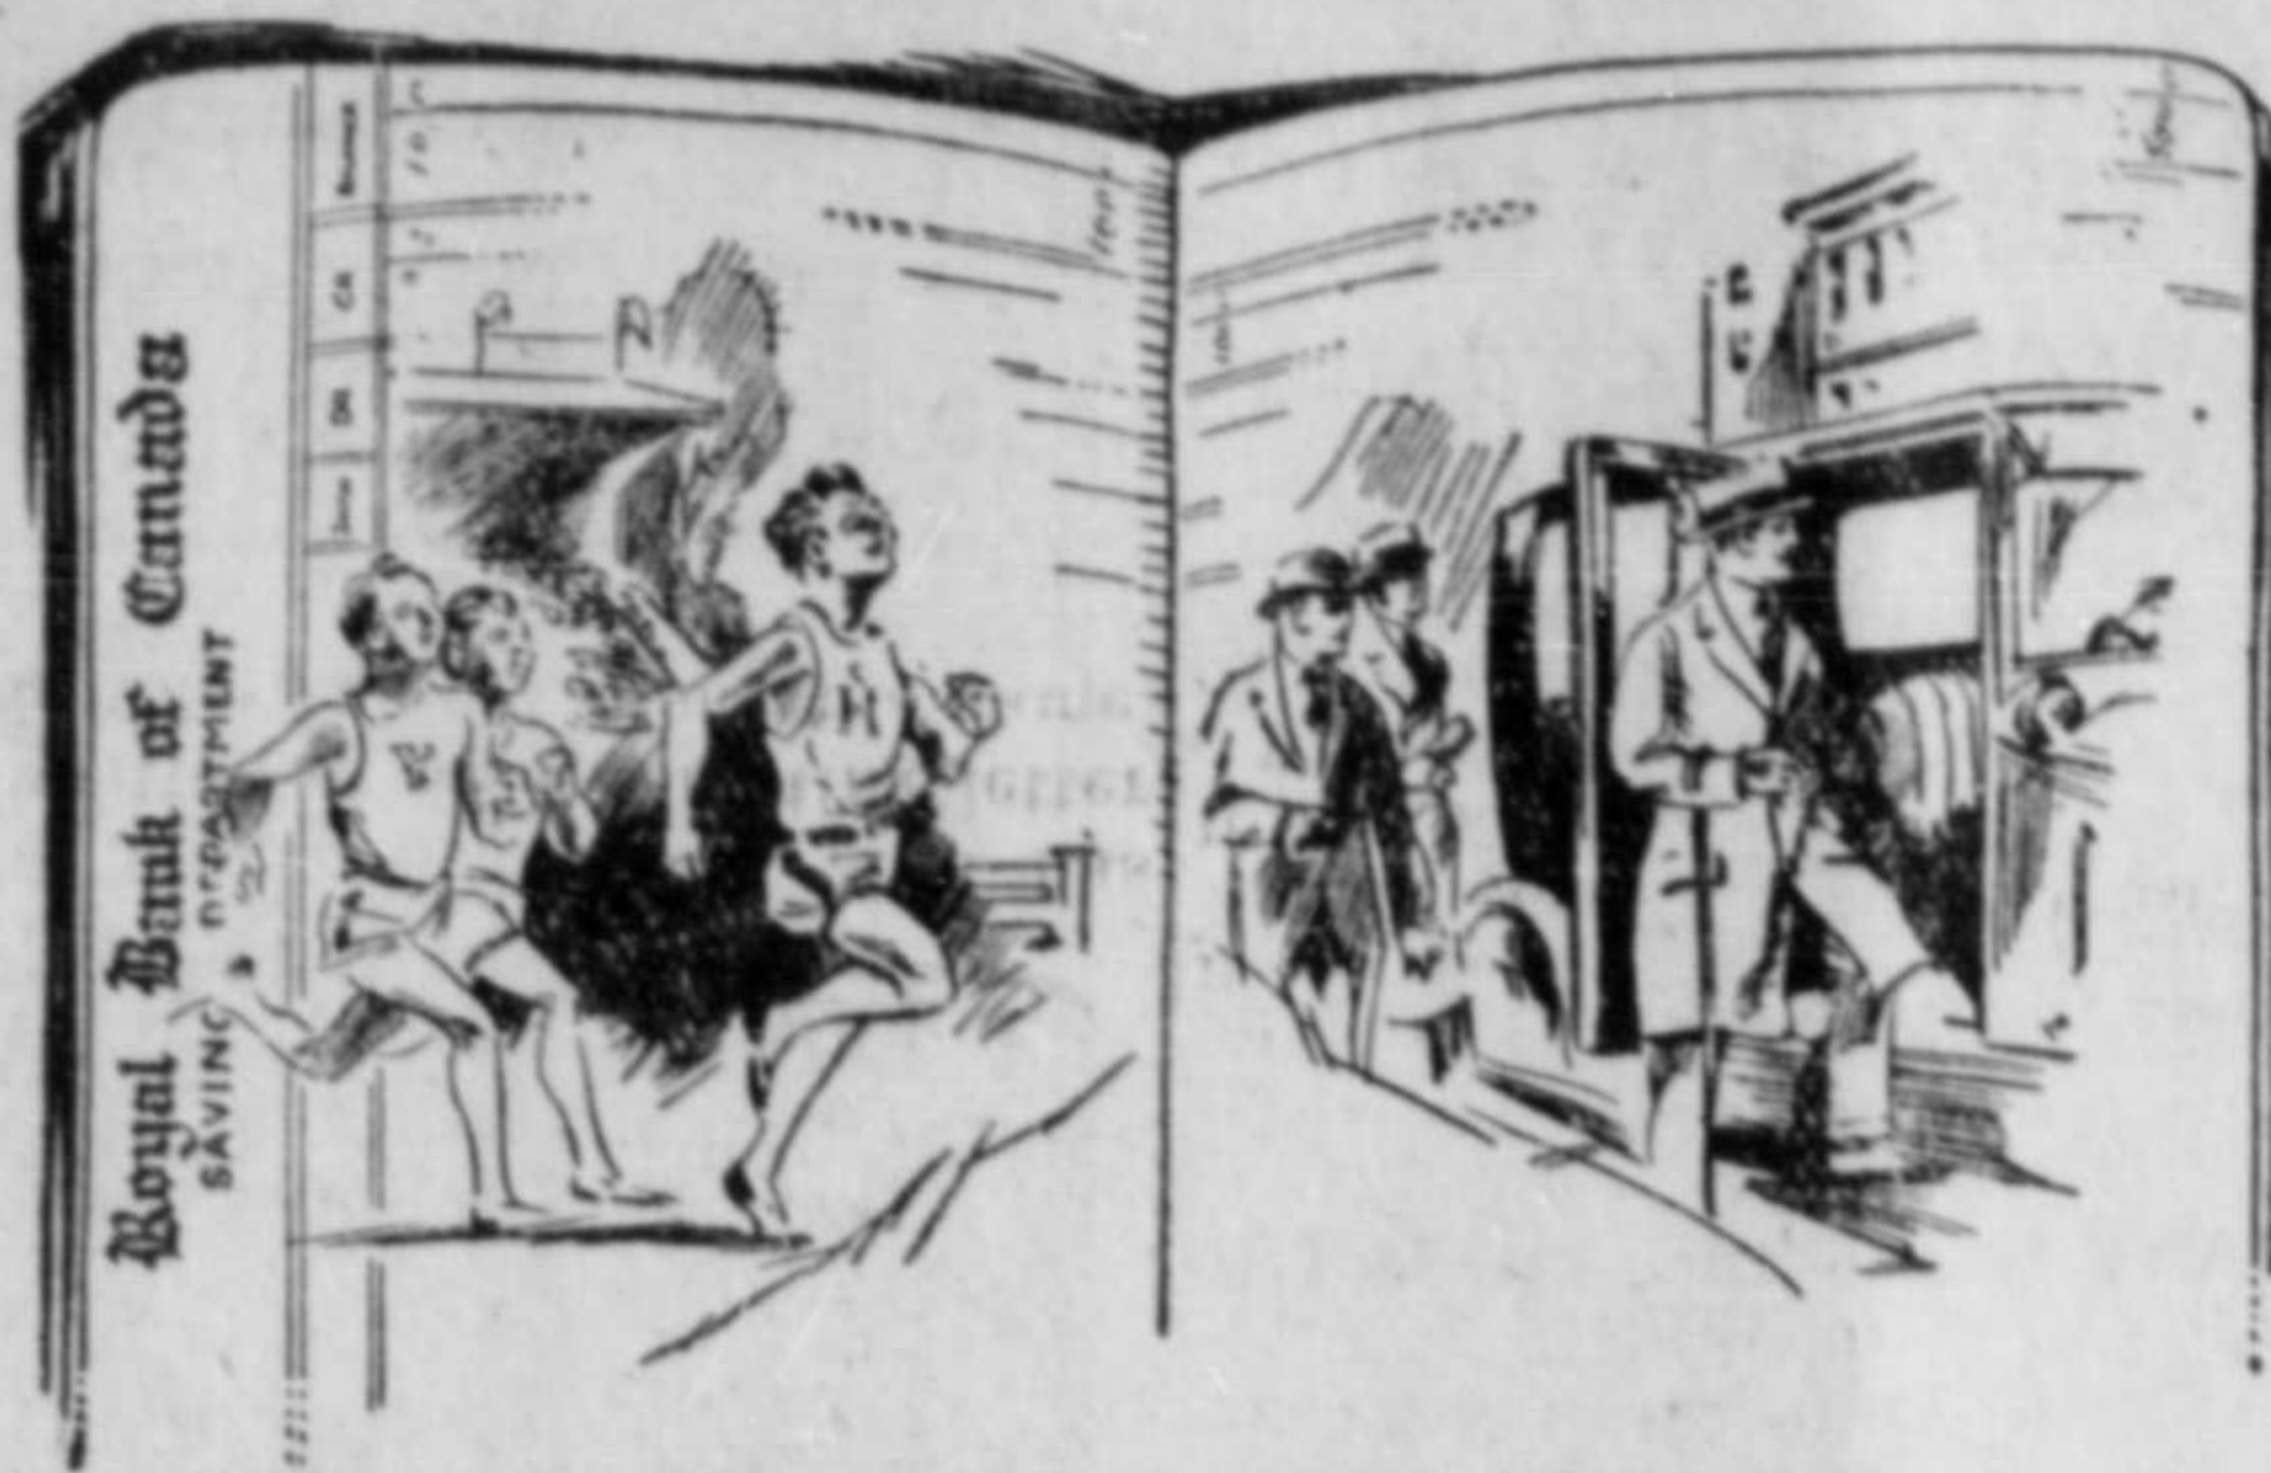

Boys 14 and under—1, Martin Hanson; 2, Jas. Wood.

Girls 14 and under—1, Dorothy Leek; 2, Joan Arthur.

## 7,000 BUFFALO NOW IN NORTH

Next Experiment to be With Reindeer; Park to be Photographed

OTTAWA, July 25.—(By Canadian Press.)—The efforts of the Dominion government to conserve the wild life in the northern areas are meeting with success and the Department of the Interior announces that after three years of careful study the transfer of surplus buffalo from Wainwright Park, Alberta, to the Wood Buffalo Park at Fort Smith, also in Alberta, has proved a complete success.

Shipments under way at the present time will bring the total of these monarchs of the plains transferred to their new home to 7,000.

The Department of the Interior which has charge of the Canadian National Parks believes that the development of the natural resources of the northern areas will depend on a robust native population and an abundance of wild life.

### REINDEER NEXT

The next step to carry out department plans in respect to the district of Mackenzie where the Buffalo Park has been located has been taken through the appointment of a scientific expedition to determine the possibility of stocking the area with reindeer.

With the successful conclusion of the experiment with the buffalo the Department has completed a unique task. Herds were selected at Wainwright and shipped by rail and water to the new location where they were turned loose. Observers travelled constantly over the range to report the progress of the herds in the new environment. They have reported that the animals appear well-conditioned and that their numbers have increased. The park covers an area of 17,300 square miles and rich meadows and protecting woods are numerous. Not a single mile of the vast area has been mapped nor a single mile of survey run, but a partial study of the district is to be made through an aerial expedition.

### PARK PHOTOGRAPHED

Two aeroplanes will be utilized and will fly from a base at Cormorant Lake, Northern Manitoba, to two temporary air bases, one at Chipewyan, on Lake Athabaska and the other at Fitzgerald on Slave River. Flights will be made by the two planes on parallel courses six miles apart and the whole district recorded by photograph. The data gathered will be used by the Department in formulating its future policy with regard to wild life.

## SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**  
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**  
 Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**  
 Unsurveyed areas not exceeding 20 acres may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
 For grazing and industrial purposes areas not exceeding 40 acres may be leased by one person or a company.

**GRAZING**  
 Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partly free permits are available for settlers, campers and travellers, up to ten head.
