He continued: "Our policy has been to state frankly what are the British requirements but we never disputed the American claim for parity as established by the Washington treaty.

CONFEDERATION IS NEW TRAIN

Fast Service Connecting East and West is Commenced on C.N.R.

WINNIPEG, June 30.—In honor of the Diamond Jubilee of Confederation the Canadian National Railways have inaugurated a new fast train between Toronto and points in old Ontario to Vancouver and the Pacific Coast. The train is most appropriately named "The Confederation" and not only will it provide an important inter-provincial link between the east and the west, but it will also provide for the first time a direct service between B.C. and eastern Canada via Brandon and Regina. Previously Canadian National trans-continental lines have operated directly from Winnipeg to Saskatoon and therefore, "The Confederation" will place these two important cities of western Canada upon a main line train running to and from the east.

"The Confederation" on its initial run on June 24 carried letters from Thomas Foster, mayor of Toronto to the mayors of Winnipeg, Brandon, Regina, Saskatoon, Edmonton and Vancouver, congratulating them upon the inauguration of this new train and announcing the pleasure which he takes in having the opportunity of sending greetings by it to the chief executives of these sister cities. Mayor Foster pointed out that the "inauguration of this very fine additional service by the Canadian National Railways is evidence of the increased growth of trade and travel between Toronto and the Pacific coast, which I sincerely trust will continue to the mutual advantage of our cities."

This afternoon they will make a special trip to the Glacier of the Angels on Mount Edith Cavell to do honor to the memory of the martyr nurse of the Great War.

The excursion, which is under the auspices of the New Outlook, the United Church weekly paper, is for the purpose of showing the members of their organization the west and to visit some of the institutions of the church.

The entire party is registered at Jasper Park Lodge and will stay here until tonight when they leave to continue their journey to the Pacific coast.

Allegations of Scandal Were But Machinations of Unscrupulous Minds

DR. SUTHERLAND AND SPEAKER BUCKHAM CLEARED BUT LATTER IS MILDLY CRITICIZED FOR BEING TOO GOOD NATURED

VICTORIA, June 30.—Mr. Justice Morrison, investigating the Gauthier charges, finds the accusations contained therein to be groundless. There was no collusion between the government and Gauthier. The only ground for the charges that certain alleged favored persons had secured agencies abroad was the machinations of unscrupulous supporters of the party in power who of their own notion made use of "this myth of splitting commissions." The treasury of the province has "not been charged with any payments improper or otherwise."

The report of the commissioner exonerates Hon. Dr. W. H. Sutherland, minister of public works, and Hon. John Buckham, speaker of the legislature. It finds, however, that Buckham "out of good nature made a grave blunder in ever associating himself with Gauthier in the effort to secure government liquor orders for him."

DAILY EDITION Thursday, June 30, 1927

SET EVERYTHING ASIDE FOR HOLIDAY

Everything will be set aside tomorrow for the big jubilee celebration which lasts three days but the chief day for which is tomorrow. The opening baseball game is set for this evening and tomorrow there is a full program of festivities for those who enjoy that sort of thing. Many, however, will desert the madding throng and go to the country for a day's fishing.

Now, play ball. Let's enjoy ourselves for a day or two.

VISITORS ARE EXTREMELY WELCOME

The visitors from Uncle Sam's country are extremely welcome. The war vessel comes at an opportune time and Prince Rupert people will not be slack in offering the officers and men their hospitality. At the ball games the Ketchikan team will on this occasion have plenty of backers and that will add greatly to the interest of all who attend.

American Consul Wakefield is to be congratulated on the consummation of his efforts in securing the visit of the destroyer for this important occasion.

It's queer, but this jubilee year feels to most of us just about the same as any other. It's still about as hard to make the income equal the expenditure as it was in 1926.

FLIGHT TO HONOLULU

The revival of flying is one of the most important features of the year 1927 so far. The big event was the flight to Paris by Lindbergh but now comes the flight to Honolulu and other great events and soon we shall hear of someone winging his way to the far Orient across the broad expanse of the unruly Pacific.

The two men who reached Hawaii yesterday have made the longest flight in this part of the world and have started the movement westward to the East. And yet in a few years their efforts will be as nothing to what others will do.

People may be foreigners but there's nothing foreign about money. An American dollar looks just as pretty to a Prince Rupert merchant as that of one of the Daughters of the Empire.

FARMER GOVERNMENT SURVIVES ITSELF

A Farmer's Government has survived itself. The Bracken government has been re-elected with a good majority over all and will carry on for another term of years.

The government of Manitoba has conducted affairs just as would any other party. It did nothing freakish and no one without knowing the name would have realized that it was not a Liberal government in power. It was just a change of name, but a few stuck to the old name with the result that there are a number of groups in the House with the Conservatives second largest.

PASTOR DOES GOOD SERVICE

Rev. G. G. Hacker, who has completed his pastorate in the city, has given good service here. He is not an eloquent speaker, neither has he appealed to the ultra-sanctimonious people of the community, but he has succeeded in rousing the interest of the younger people and helping to make them physically as well as spiritually better. It is particularly for this work that his ministry here has been noted. And after all this is the important work of the church. It is difficult to change old people. They are set in their ways. The young people are the life of the community and the man who succeeds in winning them and helping to make of them real men and women is doing something, not so much for his church as for the benefit of the whole city.

Did you ever think that these Americans do not look much like foreigners. Fact is, most of them would make pretty good Canadians.

**COMPACT GAS
CRUISER HERE**

Dr. J. T. Wilson of Seattle and Family Making Safely Cruise in Wilsonia

THEIR FIRST BOAT

Aboard their "home made" and well appointed gasoline cruiser Wilsonia, Dr. J. T. Wilson, prominent Spokane and Seattle dentist, Mrs. Wilson, their family of seven and a girl friend of their eldest daughter, tied up at the Prince Rupert Yacht and Rowing Club's floats overnight in the course of a summer's cruise from Seattle to Ketchikan.

The Wilsonia is the first boat that Dr. Wilson or his family ever owned. Indeed it is the first boat that any of them ever touched the wheel of. With the aid of a ship's carpenter the boys built the craft at Seattle last summer and in the boat they have introduced a number of interesting features of their own invention. The result is that the Wilsonia, 40 feet, 4 inches long, is one of the most compact and handsome cruisers that ever visited the port.

"We chose this instead of a summer home," said Dr. Wilson last night "and now we have both a summer home and a boat."

Of the raised deck type, the Wilsonia is eminently suited for just such a purpose as that for which she is now being used. With living quarters fore and aft, the little vessel has ten spring beds, just enough for the party on board. Her galley is well combined with the after quarters and the pilot house is a sort of living room. There is radio and a phonograph aboard.

COMPACT BOAT

The general compactness of the boat is well illustrated in the pilothouse and engine. Right under the feet of the person at the steering wheel is the 40-hp. Continental Van Blerk engine, nicely concealed below the floor. Alongside are the gasoline tanks. To operate the Wilsonia is just as simple as driving a geared car. On the switchboard are the electrical starter, gas feed, ammeter, choke, etc. and just below, as in an automobile, are the gear shifts. The boat even has a speedometer and Dr. Wilson, having a mighty respect for gasoline, has the tanks, pipes and feed so arranged that danger therefrom is practically eliminated. The boat, also has compact and ample space for provisions and stores and it will be little shopping that the party will have to do other than for perishables such as green vegetables and fruit. The boat has a cruising speed of about ten knots.

Dr. Wilson and his family know how to drive a car and fix an engine, as they also know that the prime requisite of good navigation is to keep plenty of water underneath, they are having a very happy and enjoyable trip.

So far weather has been in their favor and nobody has been seasick although the girls felt it wise to keep safely in their beds as Queen Charlotte Sound was crossed early one morning with quite a little ground swell running.

Travelling only by daylight and stopping where the spirit moves them and the scenery is good, the Wilsonia left Seattle on June 17 and pulled out of Tacoma the next day. Stops have been made at Port Madison, Reed Harbor (Stewart Island), Nanaimo, Duncan Bay, cPrt Hardy, Simoon Sound, Tracy Harbor, Wells Passage, Whiskey Cove (Bella Bella), Lowe Inlet and on to Prince Rupert, arriving here at 3 o'clock yesterday afternoon. Early this morning departure was made for Ketchikan and, in about a week or ten days' time, a call will be made here in the course of a voyage homewards, which it is planned will be as leisurely as that northward.

SUCCESSFUL DENTIST

Dr. Wilson's home is in Spokane where he has resided for something over twenty years. He also has an office at Seattle and, altogether, has a staff of about a dozen dentists. He is familiar with the Boundary country where he visited many times in the early days and the patronage of which district he admits was largely responsible for his start and subsequent success in practice.

In the evening a good many of the party dropped into the Armories for an informal dance to the three piece orchestra of the Ketchikan Rotary Club.

Those present were Mr. and Mrs. C. Patching, Mr. and Mrs. H. M. Sawyer, Thomas Davies, Mr. and Mrs. J. R. Heckman, Mr. and Mrs. John R. Beagle, Mrs. L. H. Sixty Years of Canadian National Progress

IN 1860, the Grand Trunk Railway, now a part of the Canadian National Railway, comprised 872 miles of track. Today, Canadian National embraces 22,546 miles of line, 156 branches, railway system in America, touching every important Canadian city; fleets of steamships that carry Canada's ensign and products to every quarter of the globe; Dominion-wide express and telegraph services; a chain of distinguished city hotels; resort hotels and bungalow camps, and an Industrial Department to foster the location and development of new industry.

The development of Canada and the Canadian National Railways is interwoven closely. As one grew, so did the other, mutually dependent.

Before even the memorable year of Confederation, portions of the present-day Canadian National had attracted world-wide attention to themselves and to the then-struggling young country. The construction of the original Victoria Bridge for the Grand Trunk Railway and its opening by the Prince of Wales in 1860, focussed the eyes of Nations on Canada as perhaps no preceding event had ever done.

Canada, being a land of vast distances, the railway was seen to be the key to her future expansion and prosperity. Indeed, the Grand Trunk Railway had long been the dominating factor in Canada's growth to date. It had opened up the then known parts of Ontario and Quebec to settlement and had tapped the country's resources from the International Boundary at Sarnia to Riviere du Loup.

In Confederation year, the dependence of national growth upon rail communication became even more strikingly evident, the construction of the Intercolonial Railway being insisted upon by the Maritime Provinces as a condition of entry into the Dominion.

Thus, within a single decade, Canadian National was linked with two of the greatest events in Canada's history, and helped make Confederation an accomplished fact.

Since then, Canada and the Canadian National have developed hand in hand. Mile upon mile of new track was laid in Quebec and Ontario; new towns and industries sprang into being; new lands were opened to cultivation. The sister country to our South was brought into intimate communication with us, commerce was stimulated, capital attracted, immigration fostered.

Then the west called and the Canadian Northern and Grand Trunk Pacific Railways opened up vast areas of fertile prairie to the settler; rich Pacific timber and mineral lands were made to yield their wealth; scenic wonderlands were made accessible and a new route afforded to Canada's Pacific

Coast. The Transcontinental Railway, from Winnipeg to Quebec, connected this great west with the eastern provinces.

Wherever it was needed, the railway appeared, a typical modern instance being that of the Rouyn Mining District, the development of which is made possible by Canadian National service.

CANADA'S FINEST RESORTS

Whatever your vacation preference, you will find it served by Canadian National, whose lines reach Canada's finest mountain, seaside and lakeland resorts. Among them are — Jasper National Park, 5,300 square miles of rugged Canadian Rocky Mountain splendour; the flower-decked Pacific Coast; Minaki the beautiful, on the Winnipeg River; the Highlands of Ontario; the Laurentian Mountains and the Lower St. Lawrence in quaint old French-Quebec; and the seaside and woodland havens of the Maritime Provinces.

HOTELS OF DISTINCTION

Seasoned travellers are enthusiastic over Canadian National hotel service. Whether at a resort or camp, or at one of the all-year hotels, they find their every need anticipated and efficiently catered to in an environment of gratifying, yet unostentatious comfort and luxury.

INDUSTRIAL OPPORTUNITIES

The Canadian National Industrial Department has taken a leading part in placing the facts as to industrial opportunities in Canada before prospective entrants and in inducing and helping them to locate and prosper here. Canada, with its cheap and plentiful power, desirable sites and stable labour conditions, affords unique opportunities for industrial location and growth. The expanding domestic market is supplemented by tariff preferences which throw the whole of the British Empire open to Canadian-made merchandise.

CANADIAN NATIONAL STEAMSHIPS

Palatial passenger steamers ply the Pacific Coast from Vancouver and Prince Rupert to Alaska and Queen Charlotte Islands. The Canada-British West Indies passenger and freight service, implements the Canada-British West Indies trade treaty, and has been largely augmented as a result of this arrangement. Trade and traffic between Canada and the Islands is growing rapidly—another instance of the close relationship between the Dominion and her railways. World-wide freight service is operated by the Canadian Government Merchant Marine in conjunction with Canadian National Railways.

BIG HUNTING CRUISER HERE

Yacht Westward Spent Night in Port With San Francisco and Seattle People on Board

IS MODERN VESSEL

Aboard the palatial diesel-engined yacht Westward, Dean Whittier, prominent San Francisco stock and bond dealer and party of eight guests, arrived in port at 9 o'clock last night in the course of a month's cruise of British Columbia and Alaskan waters, tying up at the Prince Rupert Yacht & Rowing Club boats and leaving at 10 o'clock this morning for Ketchikan. Juneau is the objective of the present cruise which started in Seattle on June 21 and which will end there with the return of the party on July 16. The inlets of the British Columbia coast have been leisurely visited and stops have included Victoria, Campbell River, Alert Bay, Ocean Falls, Swanson Bay and Butedale.

The Westward, which is owned by Campbell Church, a Eugene, Oregon, millionaire, is 86 feet long. She is about the latest thing that has been seen here in the way of power yachts. She was built three years ago at Quartermaster Harbor, Puget Sound, her home port being Seattle.

While this is her third cruise on the

Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes: "Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse. I wrote my mother about my condition, and she sent me three boxes of

coast this season, it was her first call at Prince Rupert. Built along cannery tender lines and of heavy construction, the Westward was designed specially for big game hunting and Alaska cruising. She has a beam of some sixteen feet and the interior is indeed palatial. Above decks are the pilot house and a commodious dining saloon and observation cabin containing fire place, lounging chairs, phonograph, etc., with galley and crew's quarters aft. Deck space is ample. Below decks are three large bedrooms containing double beds and single couches, with clothes closets, bath and other conveniences.

In short the boat is an ideal combination of comfort, seaworthiness and adaptability to hunting, fishing and cruising. She is twin screwed and derives power from two 165 h.p. Atlas-Imperial diesel engines. Her crew consist of Capt. Roe Dykeman, his mate, two engineers, cook and cabin boy. She has a cruising radius with a single fueling of 4,000 miles.

GOING TO KODIAK LATER

The Westward will call here again on her return south in about a week's time and on July 20 will again leave Seattle for a three month's grizzly bear hunt to Kodiak Island with C. C. Block of Peoria, Illinois, and his guests on board. She will call here while bound north on this trip.

In the winter, the Westward is usually used, as she was last winter, for big game fishing in Mexican waters. The boat is designed to stand any and all weather. She is a private cruiser and was built for the use of the owner and his family. He usually takes two cruises each season of two or three months and charters the Westward for the balance of the year. The captain and mate are hunters and guides themselves. They know the game and thoroughly love it.

SPORT CHAT

Here goes for Dominion Day, always a big time in Prince Rupert but this year made bigger and better than ever before since it is the auspicious occasion of the Diamond Jubilee of Canada's birth. Carrying all the usual features as well as several new ones, it is going to be a veritable feast for all fans—old and young alike—and there will be few who will not be able to pick out of the program something of particular interest to themselves. With baseball, football, tug-of-war, senior and junior track and field sports, etc. on the program it is indeed going to be a big three days of festivity.

Baseball will open the program tonight when Ketchikan and Prince Rupert take the field for the first of two games, the second of which will be tomorrow afternoon. This meeting has always been a big feature of each baseball year in the city and the impending encounter should prove no exception to the rule. Prince Rupert has picked the best of its material and should make a good showing—probably better than last year. All that is wanted now is some real weather for the benefit of the baseball series as well as the other events on the program.

Then for the footballers, and their legion of fans will be the Dominion Day cup final to be played tomorrow evening. Always one of the year's football classics in Prince Rupert, the game this year will attract a special measure of interest. With the Moose and the Regiment in the finals, the trophy is going to find new ownership, whoever wins. Both teams are on their toes—the Moose all het up for their battle for the second trophy of the year, they already having taken the Stuart Shield, while the soldiers, who have been going strong of late, are just as keen. It promises to be a great game and it will be few Prince Rupert soccer fans who are not present.

The following Junior League football teams have been selected to play on Saturday, July 2, at 3:30 in connection with the program of sports for Confederation Celebration.

Reds: H. Whison, F. Cameron, Rudolf Nelson, Dan Morrison, William Collison, Mike Gurvich, Roy Wicks, E. Smith, Earl Batt, J. Comadina.

Stripes—Walter Cross, Albert Stiles, Max Larkin, Reggie Collison, Harold Macdonald, Roy Morrison, Walter Johnson, N. Gurvich, Frank Morrison, Henry Dickens, Hill.

Reserves—Alex Walters, C. Johnston, T. Bussanich.

Players will report to J. Campbell or J. S. Wilson at Acropolis Hill fifteen minutes before the game. Shirts will be supplied but players will bring their own knickers. George Russell, referee.
