CITY PASSES BYLAW EMPHATICALLY

NUN AND NATIVE PUPILS BURNED TO DEATH IN NORTH

EDITORIAL

SINGING O CANADA

Some of Canada's most prominent citizens are here today and it would be very interesting to know how many of them know and can sing the national anthem of the country, "O Canada." Also it would be interesting to know which version they use.

Canada never will be a nation until her people can sing her national anthem. It may be the only thing on which they can unite but they must be able to do that. The young people are doing pretty well, but even they seem to forget quickly what they learned in school.

A suggestion has been made that part of the test for admission to citizenship of every person either from Great Britain or any other country, should be to repeat and sing the first verse of "O Canada."

PARALYSIS IN VARIOUS PARTS

Revelstoke Closes Schools, Lodges and Churches as Result of Outbreak

REVELSTOKE, Sept. 21.—Discovery of a case of infantile paralysis has resulted in the schools, churches, Sunday schools and lodges all being closed.

The victim of the malady is the five year old son of Mr. and Mrs. Sheppard.

EDMONTON, Sept. 21.—One death near Mundare, three new cases of a mild nature here and new cases at Wetaskiwin and McLeod summarizes the infantile paralysis situation in Alberta.

One new city case of paralysis was reported yesterday.

The Alberta government has issued an order that in all municipalities where there are cases of paralysis children under eighteen years of age must not travel. They must remain in the municipality in which they live unless they receive a special permit from the board of health.

CRITICISM OF IMMIGRATION

Robert Forke to Reply to Speakers at Anglican Synod Made Last Evening

KINGSTON, Ont., Sept. 21.—Outspoken criticism of the immigration policy of the Dominion government, which was said to be playing into the hands of the Roman Catholic Church featured several speeches at the general synod of the Anglican Church here last evening.

OTTAWA, Sept. 21.—Charges made in the Anglican Church against the immigration policy of the government and understood to be under consideration of Hon. Robert Forke, who is expected to reply today or tomorrow.

PLEADS GUILTY LIQUOR THEFT

Wright Remanded Until Tomorrow for Sentence in Vancouver Case

VANCOUVER, Sept. 21.—Pleading guilty to participation in the theft of \$2,750, and 33 cases of liquor from the Cordova Street liquor store on September 4 on four charges a man named Wright was remanded until tomorrow for sentence by Magistrate Shaw.

CONTRACT LET FOR SMITHERS SCHOOL

VICTORIA, Sept. 21.—The contract for the new high school at Smithers has been awarded to Thomas Carson of Vancouver, the price being \$14,700.

One Nun and Nineteen Indian Children Burn to Death in Far North

Regina Doctor Went in Airplane Today to Scene of Tragedy Which Happened on Monday

PRINCE ALBERT, September 21.—A nun and 19 children were burned to death when the Beauval Catholic mission on Lac Laplonge was destroyed by fire Monday, according to word received today from Big River, Sask. The mission is in an isolated section of northern Saskatchewan and only meagre details have been received.

Dr. A. Amyot, of Regina, who was at Isle Lacrosse opening the Grey Nun's Hospital, was taken to the scene of the fire by airplane today, according to private advices. The sister who lost her life was Sister Lea, a native of Northern Saskatchewan.

ATtracting NEW INDUSTRIES FOR CITY OF EDMONTON

EDMONTON, Sept. 21.—Edmonton is planning a bold step toward interesting industries in this city. She has decided that she cannot stand back and wait but must go out after business.

Several meetings have been held and it has been decided as a first step to appoint an industrial commissioner who shall make a survey of the situation and then take such forward moves as shall be decided upon.

Just how far the city will go in the matter of aiding new industries has not been clearly stated but each individual case will be worked out on its own basis.

HOPE TO START SOON DOGFISH OPERATIONS

Work of Organization of Fishermen Now Under Way by Rupert Marine Products

Work of organizing the fishermen with a view to engaging them in the fishing of dogfish which the Rupert Marine Products intends to reduce at its Tuks Inlet plant is still proceeding and it is hoped to have operations under way in the near future stated George G. Bushby, head of the Rupert Marine Products, this morning. Mr. Bushby sees in this line of work a great opportunity for winter employment of both men and plant.

BANK OF MONTREAL ROBBED SMALL SUM

MONTREAL, Sept. 21.—Three masked robbers held up a branch of the Bank of Montreal this afternoon and robbed the employees in the vault, escaping with between four and five thousand dollars in cash.

DEPUTY MINISTER OF MINES IN CITY

Robert Dunn, deputy minister of mines, arrived today from the south and will spend a short time in the district on departmental business. He probably will visit Queen Charlotte Islands and then will go to the interior.

Greatest Ring Spectacle of All Time is Expected Tomorrow Night at Chicago

CHICAGO, September 21.—The greatest ring spectacle of all time may witness the astonishing fact of the heavyweight challenger entering the ring a favorite over the champion here tomorrow night.

Although the majority of sport writers favor Tunney, the drift of opinion among them is almost as pronounced during the past few days as the change in betting from the stage where the champion was 8 to 4 favorite four days ago to instances today where Dempsey is the favorite at 6 to 5.

Tunney is still convinced he is the "man of destiny" for the heavyweight crown. He is pronounced by his camp experts to be boxing with more speed and accuracy than a year ago and he hopes for a knockout.

Dempsey and his adherents are confident that he has regained his old punch. They declare he is on fighting edge as a result of the Sharkey victory, faster and more accurate in punching. There seems no question that Dempsey is mentally and physically better than he was a year ago, but whether he has come back far enough to beat Tunney, whom the critics say has also improved, is a question.

The fight starts about 6.30 coast time.

COSGRAVE TO BE IN POWER

Vice-President of Irish Government Says They Expect to Carry on

DUBLIN, Sept. 21.—President Cosgrave's government intends to carry on with the expectation of at least a year of life. Hon. Ernest Blythe, vice-president of the council, announced following the completion of the counting of the ballots. The final standing of the parties follows:

Government—Cosgrave Party, 61; Independents, 12; Farmers, 6; total, 79.

Opposition—Fanna Fall, 57; Labor, 13; National League, 2; Larkinites, 1; total, 73.

PARALYSIS ON THE INCREASE IN STATES

Boston Outstanding Example Where 26 Cases Were Reported Yesterday

BOSTON, Sept. 21.—Twenty cases of infantile paralysis were reported yesterday, bringing the total since January 1 to 1,481 in this against 165 for the same period of last year.

MANAGER OF ANYOX BANK TRANSFERRED

Alan B. Morkill, moved to Victoria. Succeeded by D. M. Sinclair of Keremeos.

Alan B. Morkill, manager of the branch of the Canadian Bank of Commerce in Anyox for the past three years, has been transferred from the smelter town to Victoria where he will take charge of the Johnson Street branch of the bank. D. M. Sinclair of Keremeos succeeds Mr. Morkill at Anyox.

USED MONEY WRONGLY GOES UP FOR TRIAL

VANCOUVER, Sept. 21.—W. A. Graham, charged with fraudulent conversion of money, said it had been paid to him to be handed to the Fidelity Lumber Co. He was committed for trial.

CHINESE PASSENGERS DROWNED ON STEAMER

SHANGHAI, Sept. 21.—A message from Tsing Tao, Shantung Province, reports 159 Chinese were drowned and 130 are missing as a result of the sinking of the Japanese motor vessel Gento Maru.

Little Blame for Captain of Princess Charlotte When She Went Ashore Wrangell, Alaska

VICTORIA, September 21.—"There is no question of the suspension of the certificate in the minds of the court. Probably there will be merely a mild reprimand," declared Captain J. D. Macpherson, wreck commissioner, at the close of the inquiry into the grounding of the steamer Princess Charlotte at Viehnefski Rock near Wrangell, Alaska, recently.

Captain Macpherson mentioned peculiarities in connection with the casualty. When the captain disobeyed Article 16 of the Shipping Act dealing with speed in a fog, he brought the vessel safely but as soon as he slowed down, obeying the rules, the vessel went on the rocks.

D. E. McTaggart, counsel for the Merchant Service Guild, said Captain Saintry had but two things to guide him. They were a previous voyage under similar tide and wind conditions and echoes. To realize the former he was forced to proceed at the same speed he had made previously when the weather was clear.

SMITHERS MAN DIED TUESDAY

D. C. Sangster Succumbed Yesterday Following Lengthy Illness

After an illness from which he had suffered for some considerable time, the death occurred in Smithers yesterday of D. C. Sangster who was a well known resident of long standing in that Bulkley Valley centre. Deceased was about 64 years of age and, besides being the owner of extensive property interests in Smithers, he had been engaged in the contracting and undertaking business there. He is survived by a widow, his second wife whom he married two years ago, and two daughters of the first union—Mrs. Roy Eisey of Brandon, Manitoba, and Miss Jean Sangster, who teaches school in Calgary. Another daughter was the late Mrs. C. H. Hankinson. It was only three weeks ago that the late Mr. Sangster passed through Prince Rupert returning from a trip south for the benefit of his failing health.

The B.C. Undertakers of this city have been placed in charge of funeral arrangements.

FUNERAL OF DEAD FISHERMAN TODAY

Patrick Sheehan Laid to Rest this Afternoon with Catholic Rites

With a large gathering of deceased's fellow workers in attendance, funeral services for the late Patrick Sheehan, halibut fisherman, who died in the Prince Rupert General Hospital on Monday morning, were held at 2 o'clock this afternoon at the chapel of the B.C. Undertakers, Rev. Father P. J. McGrath officiating. Interment was in Fairview and the following acted as pallbearers: T. Finnegan, Arthur Caravan, H. Mork, John Gillis, Robert Hanna and J. M. Morrison. The rites were under the auspices of the Deep Sea Fishermen's Union of which deceased was a member.

Born in Ireland sixty-seven years ago, the late Mr. Sheehan was well known all along the Pacific Coast. He was in Vancouver as far back as thirty years ago and had been here for the past four or five years. He last worked on the local boat Verma, Capt. Peter Thompson, although he had previously been on other vessels. Last year he spent six months in hospital following an operation but had only been in the institution three weeks immediately prior to his demise.

He was unmarried. There is a brother, Cornelius Sheehan, at Cape Clear, Cork, Ireland, and other relatives live in Boston.

LOOKING DOWN IN BARREL OF PISTOL WHEN IT WENT OFF

NEW WESTMINSTER, Sept. 21.—Frank Boyd sixteen year old son of Captain and Mrs. W. J. Boyd, died today of injuries thought to have been sustained when a revolver discharged as he was looking down the barrel.

GASOLINE EXPLODED ON POWER BOAT ELLEN

SHUSHARTIE, Sept. 21.—The 34 foot power boat Ellen owned by Captain J. Mitchell, valued at \$3,000 was destroyed by fire at Seymour Inlet last week. It was operated as a fish carrier under charter to the Canadian Fishing Co. A drum of gasoline exploded.

City Gives Emphatic Approval to Proposal Tax Railway \$65,000

With emphatic voice, Prince Rupert ratepayers at the polls yesterday approved in no uncertain manner the agreement drawn up between the City of Prince Rupert and the Canadian National Railways whereby the latter will pay annually to the city, in lieu of taxes, the flat sum of \$65,000 in addition to local improvement imposts and taxes on such land as is already under lease by the company. The vote was a comparatively light one but it was definite enough. For the agreement 313 voted and against but 62. A sixty per cent vote was required to carry or 226 so the measure was given a clear majority of 87 votes.

There was not a single spoiled ballot and the voting was about equally divided between the A to L and M to Z voting tables. Counting of the ballots was completed in less than half an hour.

The council will meet shortly to put its final seal of approval on the agreement.

VATICAN IS CRITICIZED

Resignation of French Cardinal Said Due to Placing Ban on Paper

ROME, Sept. 20.—The policy of the Vatican in regard to certain French affairs, particularly the act of the Pope in placing L'Action Francaise, the Royalist newspaper, under the ban for the faithful, is reported to be the actual cause of the resignation of Cardinal Billot, a native of France.

Discredited in certain quarters within the Vatican is the difference of opinion as to the advisability of measures against newspapers. The official reason given for Billot's resignation was his old age.

SPENT NIGHT ON MOUNTAIN

David Warren of Vancouver Fell From Cliff but is Recovering

GRANITE FALLS, Sept. 21.—After lying out all Sunday night and all day Monday on a mountain overlooking Burrard Inlet, David Warren of Vancouver who was summoned before the magistrate at Ocean Falls last week charged with fishing for salmon and having salmon in their possession contrary to the closing order of the department of marine and fisheries, were dismissed by the magistrate at Ocean Falls.

ONLY TWO BOATS SOLD HALIBUT HERE TODAY

Only two boats sold halibut here today and the Canadian received two cents more for his catch than did the American. It was the Ternon with 8,000 pounds which sold to the Cold Storage Company at 13.70c and 6c. The American boat was the Liberty with 30,000 pounds which sold to the Pacific Fisheries at 11.60c and 6c.

THREE CRIMINALS RECAPTURED IN BARN

LONDON, Ont., Sept. 21.—Ernest Brown, Ross McLeod and Roy Agnew, three of the five criminals who escaped from Middlesex jail Sunday were recaptured when sleeping in a barn near Crumlin.

EXPLORARY FLIGHT

VANCOUVER, Sept. 21.—General Frank Sutton will make an exploratory flight into the interior of the province.

MOTORSHIP SAFE

VANCOUVER, Sept. 21.—The British motorship Cape of Good Hope which it was feared was lost in the recent Mexican storm is reported safe to the Canadian Transport Co. here.

BURIED MONDAY

NANAIMO, Sept. 21.—With all places of business closed the funeral of Mark Bate, Nanaimo's first mayor, took place on Monday.

WILL BE TRIED MURDER CHARGE

VANCOUVER, Sept. 21.—U. Yaoki, charged with the murder of Mrs. Take Takahashi on September 1, was committed for trial in the police court yesterday. A confession given after arrest told of striking the woman with an axe when she attempted to call assistance from T. Takimura, whom accused first struck with the weapon.

Supplanting of Yaoki in the affections of the woman by Takimura was given as the reason for the attack on the latter. The Japanese said he wanted to kill himself but the husband and the woman held him.

INVITE LEAGUE SIT AT OTTAWA

Assembly Also Included in the Scheme Which is Proposed at Geneva

GENEVA, Sept. 21.—Canada is reported to be planning to invite the Council of the League of Nations to sit at Ottawa.

It is said the projected scheme is also to have the assembly sit there in order to give Americans an opportunity to study the league at first hand.

OTTAWA, Sept. 21.—While a visit of the council of the League of Nations would be welcomed it is understood the government has not yet extended any formal invitation.

This afternoon's train, due from the East at 3.30, is reported to be on time.

DAILY EDITION Wednesday, Sept. 21, 1927

WELCOME TO VISITORS

A great many prominent visitors are in the city today. We hope they will enjoy their visit and go home with an idea that this is to say the least "some village." Some call us a "city with a future," but we hasten to assure the eastern people that it is a city with a very good present. We have a big fish business, the biggest in Canada. We are a grain shipping port, to a small extent a lumber port, a tourist resort, a railway terminal and pretty soon we shall be connected with the rest of Canada by a road, if we back up our member in his efforts. That is saying nothing about being the distributing point for the northwest coast. Probably the visitors can tell us of many places twice the size with not half that amount of business.

Another thing we should like to tell our visitors is that we lack all creation in two things. We have the largest halibut business in the world and the largest fish cold storage plant in the world. That is something to talk about.

The last thing we might say to our visitors is that so far as we know we have no very poor people in Prince Rupert. All make a good living and enjoy life about as much as they do anywhere in the world.

BRITISH COLUMBIA'S RIGHTS

British Columbia will stand up for her rights under the new premier just as she did under the old, according to press reports received yesterday. She will follow up the Oliver policy, which was to ask for things which might reasonably be expected to be obtained and then fight hard. If British Columbia had those Peace River lands or if the Dominion would agree to give them to anyone who would build the railway, it might be possible to get the railway built immediately. But perhaps the better plan would be for the Dominion Government to build the Peace River railway with a western outlet and keep the lands and open them to settlers for pre-emption.

IRELAND TO BE CONGRATULATED

Ireland is to be congratulated on its support of the present government. Of course, it is her own affair but those who take an interest in world affairs and particularly in British affairs are bound to interest themselves in the affairs of Ireland. Just what would have happened if the election had turned out differently no one can say. As it is, a few years will probably make a great difference in the state of the country. Possibly by that time there may be some rapprochement between the north and the south with a view to union.

BEAUTIFYING THE CITY

Newspapers in a great many cities just now are discussing the problem of beautifying the cities. It is an interesting theme and one that is worthy of considerable space. We have mentioned it on various occasions. Just now it is opportune because this is the time of year to plan operations for next year.

There is no reason why Prince Rupert should have rows of trees along the streets just like other cities. Many of the local streets are made in such a manner that it is difficult to plant trees that way. Trees help to keep the city damp, something that we do not favor. There is, however, no argument against lawns and boulevards and flowers and small shrubs. Possibly laurel would thrive here.

The Railway Company has set an example of how to keep a small garden and doubtless they will extend the operations. What is needed is for citizens to co-operate and make this the prettiest city on the coast.

Visitors to Skagway return and tell of the beautiful flowers and vegetables they see there. Those who travel on the trains see the beautiful flowers placed in the dining cars by the members of the Hazelton Horticultural Society. Prince Rupert can best improve the city by having the gardens around the houses well kept and perhaps other methods of beautifying will then present themselves.

Engagement and wedding rings of value and distinction

The two nuptial rings you give her can never be replaced. Their purchase is among the most important in life, and should by all means be made at a well-known, thoroughly reputable house. Our rings are of recognized value, fashioned in all the newer settings. And our standing in this community, together with membership in the Gruen Watch Makers Guild, assures your satisfaction.

Engagement and diamond-set wedding rings, \$25 to \$150

LONDON TOWN OLD ENGLAND

Correspondent Tells of Sunless Summer; Business Improving; B.C. at Zoo

ASSOCIATION FOOTBALL

Cinema Theatres and Their Plays and Other Winter Amusements Mentioned

LONDON, Sept. 21.—The month of August, which from the official view of the Weather Bureau brings to an end the English summer, has distinguished itself by being the wettest since 1917, and the coldest since 1912. For three parts of the month the thermometer failed to reach 70 deg., and during the last week ground frost was reported from several stations. Many districts had rain for twenty consecutive days, the average for the month being more than double the normal fall. August 1, the Bank Holiday to which London's millions annually look forward, was this year a day of continual rain without a single gleam of sunshine. As a consequence, all indoor places of amusement were crowded to capacity, attendance at the various museums and galleries was four times greater than on the fine August Bank Holiday of a year ago, while Hampstead Heath, which normally witnesses a holiday crowd of 100,000, was practically deserted.

PROGRESS MADE

Since the beginning of the year the number of new branches opened in London and the provinces by the great joint stock banking corporations, known as the "Big Five" is 185, or an average of one for every working day since January 1. The returns of the big department stores, those sensitive gauges of the nation's spending power show all-round increases for the half year and particularly in the sale of women's clothing. It is estimated that one-seventh of the working population is now employed in the task of clothing the female of the species inhabiting these islands, whose annual hat bill is set down at \$70,000,000, and whose expenditure on boots and shoes for the same period reaches the gigantic total of \$125,000,000. It has been remarked that the less the women of the country wear, the more they seem to spend. Finally the Registrar-General's statistical review for the year 1926 shows that the birth-rate at 17.8 per thousand is the lowest recorded since the establishment of civil registration, and has now fallen below that of France. On the other hand the general death rate and infant mortality are low compared with rates prevailing in most other countries.

An interesting event has recently occurred at the London Zoo which is not perhaps undeserving of mention in these random notes. In 1921 the government of British Columbia and the Vancouver Park Commissioners presented to the Zoological Gardens a stag and two female Wapiti deer from the Government Reserve. Despite the hazards and discomforts of their six thousand mile journey by rail and steamer, the animals arrived in good condition, and the stag in particular is now a magnificent animal whose head is getting finer every year. A fawn has been born to one of the deer, and a further interesting event is expected daily.

PICTURE POPULARITY

According to a questionnaire recently distributed to the three hundred thousand frequenters of a chain of London Cinema Theatres, the pictures most in demand were society dramas. Those received 15 per cent of the total votes polled. Close behind came comedies, with films of adventure, mystery and melodrama following in the order here set down. At the end of the list came films of history and war, "costume" films coming last. In answer to the question "How often do you go to the cinema?" it was discovered that of the total voters, 33 1/2 per cent went once a week, 47 1/2 per cent twice a week, 14 per cent went three times a week, and 5 per cent four times a week. "Jugged Hare" has definitely caught on, and a Greyhound Racing Association, with power to inspect tracks, approve or amend the present rules, appoint stewards, judges and starters, and make all necessary arrangements for the stabilization of the sport in England has now been formed, with Lord Slesham as chairman. It has been decided that there will be no winter racing and that the season is to end on October 15, when the \$5,000 Derby will be run at the White City where attendances have been averaging from 30,000 to 40,000 a night. The latest development of the sport has been the sale of the Wembley Stadium where an effort is to be made to establish the headquarters of greyhound racing in this country. Meanwhile as usual the sudden popularity of the sport has given rise to the flotation of a number of companies, while dogs which only a few months ago were sold for \$50 cannot now be purchased for less than \$1,500.

FOOTBALL

The 1927-8 Association Football season, which opened on the afternoon of August 27, is not likely to witness any of those startling innovations with which rumor has been so rife during the past few months. In spite of the experiments made in trial matches with the use of a white ball, and the numbering of players, no vital changes have been made in the game since the close of last season. On the financial side, a halt is likely to be called to the reckless annexation of ready-made players which has been a marked feature of the wealthier clubs season after sea-

Be sure it's a SIMMONS

Know the inside story of the mattress you buy.

PUTTING the big potatoes on top of the bag, the choice peaches on top of the basket, are practices which are rapidly passing away. You could turn the basket upside down and see what was in the bottom—but you cannot see the inside of the mattress you are thinking of buying. You cannot tell if the filling is what it claims to be—if it is made of new materials or old. And if your mattress mats down and becomes lumpy in six months or a year, it is then too late to seek redress.

You can rely on a Simmons mattress—absolutely. Its quality goes through and through. The workmanship, the materials inside and out, are the best that can be put into a mattress for the price at which it sells.

Simmons make mattresses to sell at all prices from a few dollars to almost a hundred, but the price of each is the lowest at which a mattress of its quality can be built of safe, clean materials and by sanitary methods.

Buy a good mattress — it will give you more years of greater comfort. But be sure it bears the Simmons label.

Ostermoor

The finest and oldest cotton felt mattress made. Filled with the finest white cotton felt. Hand tailored.

Snowflake

The finest mattress made at its medium price. Made with pure new garnetted Snowflake white felt.

Star

Sells at a very moderate price (less than Snowflake) yet combines comfort and appearance with great wearing qualities. Filled with new white garnetted cotton felt.

SIMMONS MATTRESSES

BEDS SPRINGS PILLOWS

BUILT FOR SLEEP

son. Everton, for instance, with gross gate receipts of \$270,000 showed a loss of over \$15,000 on their last year's operations when wages and transfer fees cost the club \$140,000. Aston Villa, with a revenue of over \$250,000 made a bare profit of \$3,000. Cardiff City, who carried off the Association Cup, only earned a profit of \$10,000 while Chelsea, with an income of nearly \$325,000 were \$35,000 to the good. The net effect has been to curtail the paying of fabulous fees, and to drive the clubs to the more welcome expedient of trying what a coach can do with young players. The appointment of Joseph Bache to teach Aston Villa's colts is a good example of the impending change.

Man in the Moon

TODAY the prominent eastern visitors are in the city. President Birks of the Canadian Chamber of Commerce is said to be going to present everyone he meets with a diamond ring in recognition of the large sums spent with his business house by Prince Rupert people.

THE Eastern wise men Came out to the west And of all places seen Prince Rupert was best.

JUST as a starter for a little gamble, I'm willing to put up even money that

Tunney knocks out his opponent before the big game is over. Now don't come rushing in with your cash because I have in my jeans only what is left over from last week's pay and you can guess how much that is and be as near right as if you bet on Dempsey.

I'LL bet my cash on Tunney The brainiest boy I've seen He'll knock out the Jack Of sneaking out Jack Until he becomes a has been.

I'VE known women so lazy that their husbands have to chop all the wood. What is the world coming to?

JAKE says he knows a man who went out last Sunday and loaded up his imagination and brought home two of the finest bucks ever shot.

JAKE says what a bride wants most is a husband and a rug. She can walk on both.

THE old American adage is out of date. Today we interpret life differently. Every man in these modern times is entitled to life, liberty and the pursuit of snappiness.

JAKE says when he marries he will be master in his own house or he'll know the reason why. Yes, he'll know the reason why.

PRINCE Rupert is well organized. There are organizations for everything imaginable. What about a rainy day

clubs? THEY'RE picking up the pieces With a dustpan and a rake. Because he only used his horn When he should have used his brake.

IMMIGRATION FROM BRITAIN

Anglicans at Kingston Synod Meeting ask for Ratio of Two British to One Any Other

KINGSTON, Sept. 21.—Dealing with the situation in Canada with regard to immigration the Council for Social Service of the Church of England in Canada, reporting to the General Synod here today re-asserted the position taken by the Executive Council of the General Synod in Winnipeg last year when the following resolution was passed for presentation to the Dominion government: "That the Executive Council of the General Synod of the Church of England in Canada would urge upon your government the great importance of settling the land with people from the Mother Country and would urge a close co-operation between your government and the British government to secure that and trusts that this question of immigration will have a very prominent place at the forthcoming Imperial Conference.

Subsequently, together with other organizations the council presented the case to Hon. Robert Forke, minister of immigration and other members of the government.

The report said: "The minister discussed with the delegates many immigration matters and it is felt that this early interview with the new minister of immigration will be helpful in encouraging the development of British migration to Canada. Mr. Forke has spent the summer in Great Britain discussing the whole subject with the Overseas Settlement Board and Canada House, and watching for himself the work of the department's representatives overseas.

"The Dominion government has, during the past three years, done much to promote British migration to Canada, not only by the development of the Family Settlement Scheme, but by the adoption of exceedingly low preferential rates for approved British migrants coming to work on farms, or to enter domestic service."

Under the heading of "The Problem of Foreign Immigration," the Social Service Council proceeded as follows:

"In spite of everything that has been and is being done, and the increase secured in British migration, the immigration from other countries than Great Britain still greatly exceeds that of the British born, and that in spite of the fact that the assisted passage rates are not available for them.

"British immigration should surely at least be in the ratio of two to one of immigration from Continental Europe. It would seem, therefore, that not only must the most heroic measures be adopted by the government and by all interested in immigration, but that it is advisable that the General Synod should seriously consider the advisability of memorializing the government to adopt a quota policy limiting the continental immigrants of each year to not more than 50 per cent of the British immigrants of the preceding 12 months.

MIDDLE SCHOOL FOR VICTORIA

Twelve Hundred Pupils of Senior Grades May Study Languages

VICTORIA, Sept. 16. — The gradual introduction of secondary education subjects in the graded schools, in conformity with the recommendations of the recent provincial educational survey, is being carried out this term in city schools, on a plan which went into general operation in all city graded schools this week.

The plan will bring an opportunity for approximately 1,200 students in the senior grades of the lower schools to voluntarily elect to study Latin and French if they wish to continue to High School classes when those subjects are continued. In explaining the details of the plan, George H. Deane, Municipal Inspector of Schools said:

JUNIOR HIGH SCHOOL.
"The Board of School Trustees has adopted the policy of including the subject of French in the program of studies for Grades 7 and 8, and Latin for Grade 8. This conforms with the recently adopted policy of the Education Department with respect to Junior High Schools — to introduce into the public schools of this province the well tested practice of Great Britain and other European countries, where secondary education has been commenced at an earlier age than has been customary in Canada.

"In order to provide sufficient time for these introductory courses in Latin and French, it has been found necessary to extend the hours of instruction for Grades 7 and 8 to 4 p.m., to include an afternoon recess. This extension of instructional hours has received the approval of the Department."

Amplifying the statement Mr. Deane explained that the courses were voluntary, but expected of those students who will continue Latin and French in the High School. The extra sessions are being handled by three specially qualified instructors who make a tour of all city graded schools.

TELLS ABOUT HELIUM GAS

Canada Has Only Source of Supply in British Empire

EDMONTON, Sept. 21.—That Canada possesses the only source of helium in the British Empire was the statement made in a paper on "Natural Gas in Canada," by R. T. Elworthy, of the Mines Branch, Department of Mines, at the meeting of the Empire Mining and Metallurgical Congress here yesterday.

The helium is present to the extent of 0.6 per cent in the natural gas of the Ingwood field, near Brampton, Ontario, which is just as rich in this constituent as is the natural gas from which helium is recovered in the U.S. government plant at Fort Worth, Texas. Helium is the next lightest gas to hydrogen, over which it has the great advantage of being non-inflammable so that it has obvious possibilities for use in any future airship service. Unfortunately the Ingwood gas field, as at present known, is relatively small, but the Ontario government has taken up many of the leases in the area and it is hoped that an experimental extraction station will be established before long.

It was brought out in the paper that the output from natural gas wells in Ontario is declining. On the other hand in Alberta, owing to the great activity in drilling for oil during the past five years, particularly in the Turner Valley field, southwest of Calgary, and in the Wainwright field, east of Edmonton, enormous flows of natural gas have been opened up, presenting the problem of how this vast supply can be utilized to the greatest advantage.

ASBESTOS IS MINED QUEBEC

Production Last Year Amounted to 279,403 Tons

QUEBEC, Sept. 21.—As was most appropriate, the main paper presented at the first Quebec meeting of the Empire Mining and Metallurgical Congress dealt with that Province's most important mining industry—asbestos—an interesting account of which was given by Capt. Jas. G. Ross of Montreal.

The Quebec asbestos deposits are situated in the Black Lake—Thetford and adjacent districts in the eastern townships, within easy reach of both Quebec and Montreal, and it may be said that the modern demand for asbestos products of all kinds has been entirely created by the development of these deposits, since prior to their exploitation the world's consumption of, and demand for, asbestos products was relatively trifling.

Production last year amounted to 279,403 tons of all grades, with a value of \$10,009,423, and an idea of the dimensions of the mining and milling operation may be gained from the fact that during the year nearly 4 1/2 million tons of rock was mined, and over four million tons were handled by the mills. The Quebec mines supplies practically the whole of the world's requirements in the lower grades of asbestos, and about one-half of the longer grades.

Crown Colony Days

Away back in the late sixties thousands of acres of British Columbia's timber were sold for one cent per acre, which looked like a fair price—then. Today similar timber is worth from \$150 to \$200 per acre, so tremendously has timber appreciated in value within the scope of an average lifetime.

What the young growth of today will be worth sixty years from now is beyond computation if it is protected from fire and allowed to reach maturity.

The moral is obvious.

Ten Years Ago in Prince Rupert

SEPTEMBER 21, 1917.
A benefit dance held last night under the auspices of the Scandinavian Society was well attended and a substantial sum was realized toward a worthy cause.

Winners in the baby contest at the Prince Rupert Exhibition included the infants of Mr. and Mrs. Howard Steen, Mr. and Mrs. Frank Derry, Mr. and Mrs. James Hampton, Mr. and Mrs. D. C. Stuart, Mr. and Mrs. A. Jacobsen, Mr. and Mrs. Green and Mr. and Mrs. Martin O'Reilly. Judges were Dr. N. M. McNeill, Mrs. W. J. Kirkpatrick and Chief W. H. Vickers.

The latest rumor in connection with the Prince Rupert Drydock is that the Granby Co. may take it over and use the plant in manufacturing munitions.

SWAT THE SERPENT.
Grandma—Oh, Jenny, darling, I am surprised! Aren't you going to give your brother part of your apple?
Jenny—No, Grannie. Eve did that and she's been criticized ever since—Christian Leader.

WIFE HANDED SPEAKER HINT

Secretary of Labor Spoke Too Long so Wife Sent up a Note

EDMONTON, Sept. 21.—How much more interesting would many political speeches be if wives of prominent public speakers were encouraged to help along their husband's career in this manner? When the United States secretary of labor, James J. Davis, was delivering an address recently a note was handed to him from the audience. He cut his speech short and, on being afterwards asked why he had done so, produced the note. It read: "Jim, you've talked too long. You have talked two hours and the crowd is getting tired." It was from his wife, who it seems has been in the habit of thus correcting his long-windedness.

Who says a wise wife is not a real aid in a political career?
