Great interest is being snown in the outcome of the conference and while no definite advance information is available it is confidently expected that Premier Oliver will tender his resignation and it is the general belief that Dr. Maclean will succeed him.

But then-Truth is stranger than Fiction. The advertising of the Kellogg Company of Canada, London, Ont., for this year would make a tower just like this-a tower which, by the way, would be fifty times as high as the Woolworth Building.

But even more interesting is the fact that . 90 per cent of this tower would be built with sheets from the daily newspapers of Canada. Just think of it-8.12 miles out of the 9 miles would be contributed by the daily Press!

WHERE could be found any better proof of the leading place occupied by the daily newspapers in the advertising world of today?

The daily newspaper is a national institution and is vitally important to the life of the nation. The daily newspapers will continue to merit your fullest confidence in the printed messages that appear in its columns.
