PANORAMIC VIEW OF POULTRY CONGRESS AT OTTAWA by the Panoramic Camera Company of Canada, showing the delegates of 33 countries attending the World's Poultry Congress, assembled on the steps of the Parliament Buildings. English and French were the official languages of this great meeting, and business sessions were carried on simultaneously in five separate halls.

H.M.S. Colombo Here on First Visit to Port

DROPPED ANCHOR THIS MORNING AT NINE AND WILL REMAIN UNTIL SATURDAY—GOOD ENTERTAINMENT PROGRAM PROVIDED HERE

The speedy British light cruiser Colombo, Capt. A. M. Lecky, D.S.O., attached to the North American and West Indies squadron, slipped quietly into Prince Rupert harbor at 9 o'clock this morning from Vancouver and dropped anchor opposite naval headquarters for a visit in port which will end on Saturday morning.

This is the first visit of H.M.S. Colombo to this port and indeed to the coast. Before calling here she spent a few days at Victoria, New Westminster, Seattle and Vancouver. Prince Rupert is her last stop on this coast before returning to her base on the Atlantic.

Other ships of the same squadron that have been here are the Curlew and Capetown, both of which made two visits to Prince Rupert.

The Colombo was built at Fairfield yards, Govan, Scotland, in 1918 and was commissioned a year later. She is 4,190 tons displacement and has a speed of 30 knots with 40,000 horsepower engines. Her length is 425 feet, beam 43 feet six inches, and draught 14 feet one inch. Her armament consists of five 6-inch guns, two 3-inch anti-aircraft guns, four 3-pounders, and eight torpedo tubes.

The complement of the cruiser is 432 and her officers are as follows:

OFFICERS OF SHIP

Captain—A. M. Lecky, D.S.O.
Lieut.-Commander—H. Robley.

Lieut.-Commander N. W. H. Weeks (navigator).

Lieut. R. G. Lowry (gunnery officer).

Lieut. E. L. Woodhall.

Lieut. G. Cobb.

Lieut. A. F. Campbell.

Lieut. E. H. Thomas.

Eng. Commander C. T. Glover.

Lieut. (E.) R. Cobb.

Capt. (R.M.) D. A. C. Shepherd.

Surg. Commander, H. Burns, O.B.E.

M.B.

Paymaster Commander, M. M. F.

Conde-Williams, O.B.E.

Surg. Lieut. J. Cussen, M.B.

Commissioned Gunner (T.), G. J. Stevens.

Commissioned Engineer, H. F. Atkins.

Gunner G. Copland.

Gunner W. T. Bettridge.

Warrant Shipwright, W. J. Joy.

Warrant Engineer, G. Hendy.

Schoomaster, C. A. Jervis.

Midshipman, G. H. Ashby.

ENTERTAINMENT PROGRAM

Arrangements for the entertainment of officers and men of the warship have been announced by Lieut. R. P. Ponder, officer commanding the local detachment of the Royal Canadian Naval Volunteer Reserve.

Tonight at 6:45 there will be a football game between H.M.S. Colombo and Prince Rupert, the proceeds to be applied to the Acropolis Hill grounds improvement fund. By permission of Capt. Lecky, the ship's band will play during the match.

At 9 p.m. there will be an invitation dance in the Moose Hall in honor of the captain and officers.

Thursday morning between the hours of nine and eleven a party will land from the ship for drill and route march through the principal streets of the city.

In the evening at 9 p.m. there will be a smoking concert by the Canadian Legion in honor of the captain, officers and ship's company.

At 6:45 Friday night the second football game between the ship and the city will take place followed by a civic dance in Exhibition Hall for captain, officers and ship's company.

It has been announced that H.M.S.

POLICE CHARGED

CROWD OF REDS IN

LONDON STREETS

LONDON, Aug. 24.—Forty persons including four women were injured last night near the Marble Arch when both mounted and foot police charged a crowd of Sacco-Vanzetti sympathizers. They were endeavoring to form a procession in defiance of police orders.

EXHIBIT FROM POUCE COUPE

Second Collection of Grain From Peace River District Coming to Local Exhibition

A second grain exhibit from the Peace River Valley, apart from that which has been promised from Grand Prairie, is coming to the Prince Rupert Exhibition from Pouce Coupe and will be on its way here at the end of the week. The Fair Board finds the people of the fertile northern valley most willing to co-operate in the success of the local show. They are proving themselves to be directly interested in this port.

The following is the copy of a telegram received by the board from James H. Stark, secretary of the Pouce Coupe Board of Trade:

"Will forward good exhibit at end of week. Wheat requires about four days to harden so there will be no shrinkage. Crops in excellent shape and bumper harvest is practically assured."

CAPITOL THEATRE RUMORED COMING TO BUILD THEATRE

There is a strong rumor around town that the Capitol Theatre has purchased a choice business corner for a site for new theatre which they propose to erect.

This concern has had representatives here looking into the possibilities more than once but nothing so far has come of it.

NATIONALIST LEADER IN EGYPT IS DEAD

LONDON, Aug. 24.—The death is announced of Zaglout Pasha, president of the Egyptian Chamber of Deputies and Nationalist leader.

NEW YORK, Aug. 24.—Four home runs in one game by the Cardinals impresses the fact on the world that the champions are still in the race for the national championship. By their victory over Philadelphia yesterday they moved within three games of the leading Cubs.

Rain prevented the only other two games scheduled in the major leagues from being played.

St. Louis will get a real test when the team starts the next series against the Giants in New York, the latter having won 19 out of the last 25 games.

NATIONAL LEAGUE

St. Louis 13, Philadelphia 3.

All others postponed.

**VANCOUVER BOY WAS
DROWNED WHEN BATHING**

VANCOUVER, Aug. 24.—Willie Elson, 15 years of age, was drowned before the eyes of his mother and sisters within fifteen feet of shore at Bowen Island west of here when he was seized with cramps.

It has been announced that H.M.S.

AERIAL MAP OF HIGHWAY

Joint Committee Will Recommend That Major MacLaren Make Survey

Following a statement being made by Major D. R. MacLaren, D.S.O., of the Pacific Airways, who is here with his plane, that he was prepared to make an aerial reconnaissance or the route for the Skeena River highway from Galloway Rapids to Terrace, a special meeting of the joint road committee is being called for today with a view to requesting the provincial department of public works to cause such a survey to be made.

The road committee recently passed a resolution regretting that an aerial survey could not be made. The government had announced that there was no plane available for the purpose of making such a survey.

Major MacLaren, who is engaged in fisheries patrol work at the present time, arrived in the city with his ship last night and will make Prince Rupert his headquarters for the remainder of the season.

MINING SHOWS MUCH PROGRESS

New High Record Made for First Six Months of Present Year

OTTAWA, Aug. 24.—Continuing the progress made last year when the mineral output of Canada reached a new high record, the value of production for the first half of this year reached a further advance, according to a report prepared for presentation at the concluding session of the Empire Mining Conference here by S. J. Cook of the Dominion Bureau of Statistics.

The report states that while the output of gold for the half year is slightly less than for the previous six months, the output of all other metals is higher.

Slightly lower prices have reduced the values in some instances.

The production of arsenic, cobalt, copper, lead, nickel, platinum and the metals silver and zinc showed definite improvement. Over the same period of last year when the total value amounted to approximately \$61,000,000 compared with \$56,000,000 this year, but the loss is more apparent than real on account of the adoption this year of more conservative methods of computing values.

AUSTRALIAN BONDS OVER-SUBSCRIBED

NEW YORK, Aug. 24.—Prompt oversubscription of \$40,000,000 Australian Government issue was reported on the bond market today.

NOTICE

Owing to the threatened scarcity of water, citizens are requested to be economical in their use of water for garden purposes.

E. F. JONES,
City Clerk.

**PLATES SPRUNG IN
STEAMER PRINCE RUPERT**

VANCOUVER, Aug. 24.—Steamer Prince Rupert arrived here last night two tugs acting as rudders. She drydocked at North Vancouver and examination revealed that several plates are sprung.

HYDER WOMAN DIED IN SOUTH

Mrs. Florence Brennan Was Registered at Hotel as Wife of L. P. Knapp

SEATTLE, Aug. 24.—There was a strange turn in the investigation into the death of a woman who died Monday night at the Snoqualmie Falls Lumber Company's hospital. Although she was registered at the hotel as the wife of L. P. Knapp of North Bend, the body was positively identified as that of Mrs. Florence Brennan, former modiste of Hyder, Alaska. She took over the management of the hotel two weeks ago and Knapp was a guest there.

Search is being pressed for Knapp who disappeared several hours before his wife was entered in the hospital as his wife.

ROBERT MILLARD OF NANAIMO PASSES OUT

Was Well-Known Cricketer in Early Days and Resided in Vancouver Id. Town 39 Years

NANAIMO, Aug. 24.—Robert Millard, aged 72, and a native of England, a well known cricketer in the early days and resident of Nanaimo for thirty-nine years, is dead.

The report states that while the output of gold for the half year is slightly less than for the previous six months, the output of all other metals is higher.

Slightly lower prices have reduced the values in some instances.

The production of arsenic, cobalt, copper, lead, nickel, platinum and the metals silver and zinc showed definite improvement. Over the same period of last year when the total value amounted to approximately \$61,000,000 compared with \$56,000,000 this year, but the loss is more apparent than real on account of the adoption this year of more conservative methods of computing values.

MADAM KLEPIKOFF EXECUTED AT MOSCOW

MOSCOW, Aug. 24.—Madam Klepikoff, sentenced to death recently on a charge of aiding her husband in espionage for Great Britain, was executed today. Commander Klepikoff was recently executed.

FLY BRISTOL TO OTTAWA

UPAVON, Aug. 24.—Captain Leslie Hamilton sent word from Bristol today that he intended to hop off here tomorrow for Ottawa if favorable weather reports continued.

This afternoon's train from the East, due at 3:30, is reported to be on time.

Leaders Address Meetings on Topics of the Day in the Westminster Election Campaign

NEW WESTMINSTER, Aug. 24.—Addressing a meeting in the interests of the Liberal candidate, Mayor Gray, Premier MacLean criticized the Conservative statement that he was the champion tax collector. The revenue on land, incomes and natural resources and on motor licenses increased because the population, the number of cars and the amount of land under cultivation had all increased, he said. The rates were lower than in the state of Washington and cited statistics to prove it.

The Premier expressed surprise that the Conservatives should talk about deficits. The present government was balancing its budget not the last year of the Conservative administration showed a deficit of more than four million dollars.

Addressing the Conservative meeting in the interests of Welsh Dr. Tolmie declared the MacLean government was undergoing disintegration and its existence was for only so long as the people were prevented from voting it out of office.

ONLY CANADIAN FISH IS SOLD HERE TODAY

Only Canadian halibut was offered at the Fish Exchange this morning, seven boats bringing 53,000 pounds which sold at bids ranging from 11.7c and 6c to 13.5c and 7c.

Arrivals and sales were as follows:

Helem 3,500 pounds, Booth Fisheries, 12.6c and 6c.

Alkin, 8,000 pounds, Atlin Fisheries, 13.1c and 6c.

Brant, 7,300 pounds, Atlin Fisheries, 13.4c and 6c.

Yule, 2,700 pounds, Booth Fisheries, 13.4c and 6c.

Tramp, 8,500 pounds, Atlin Fisheries, 13.4c and 6c.

Eric Roy, 12,000 pounds, Canadian Fish & Cold Storage Co., 13.5c and 7c.

Scrub, 11,000 pounds, Canadian Fish & Cold Storage Co., 11.7c and 6c.

On account of the low water resulting from the dry season, pinks, he said, were unable to ascend the streams to spawn and were being caught before they had an opportunity to do so. Fears were expressed for the future of the industry by Mr. Motherwell who said:

"This will cause a serious situation in two years time, for unless the fish spawn there will be no run then." He will investigate the height of the water at the various streams to be closed.

AIYANSH MAN WINS A CAR

A. F. Priestly Holder of Lucky Ticket at Vancouver Exhibition

VANCOUVER, Aug. 24.—A. F. Priestly, storekeeper at Aiyansh, a Naas River village with 40 white persons and 200 Indians, where no motors can be used, won the auto given as a prize in connection with the exhibition here.

"We get our supplies brought 45 miles up the river by small gas boat," said the winner today. "I could not take the automobile there. I shall try to sell it."

EXECUTION OF CRIMINALS

It is absolutely impossible for people here to know whether a verdict given in Boston is right or wrong and for people at this distance to protect against a conviction is not in the best interests of justice throughout the world.

We know nothing about the right or wrong of the Sacco-Vanzetti case but what is evident is that the communists throughout the world have tried to make a political issue of it. It is extremely regrettable if the men were executed if not guilty but much worse if they had been set free through the undue influence of a political group, no matter whether Communist, Labor, Democrat, Republican, Conservative or Liberal. Politics must be kept out of the courts of justice.

It would have been a fatal mistake if the Massachusetts authorities had given way and reprieved the men because of political pressure. For that reason we are glad to know that the executions took place and that the authorities refused to be influenced by bombings and processions and terrorist activities.

We should have just the same to say if they had belonged to any other political group than the one they supported. If they were murderers they should be hanged and if not they should have been set free, but political demonstrations should certainly have no place in trying to influence the judges or other authorities.

Conserve the water, keep the back yard clean and think of health, strength and beauty and nothing will injure us here.

ELECTION TOMORROW IMPORTANT

All eyes will be turned to the election in New Westminster tomorrow. This contest will have an important bearing on the future of the government. Many people have thought that Hon. S. F. Tolmie should have been the candidate there, considering that he is leader of the provincial Conservatives. However, for the present he prefers to keep out of the game, simply managing from the outside. That has little bearing on the result.

If Mayor Gray is elected, it is pretty sure that the government will continue to function, at least during one more session of the Legislature. Should he be defeated, no one can tell what will happen. It will be for the cabinet to decide.

This is the first election in which the new premier has led the Liberal party and for him it means a great deal. The result will be watched with great interest.

The stampede is coming pretty soon, so girls watch out for the chaps.

MINING DISTRICTS CLOSE BY

Yesterday a visitor to the city drew attention to the fact that the people in the south, meaning Vancouver and Victoria, knew more about the mining camp on Portland Canal than did the people of Prince Rupert and were more interested in the activities there. That we fear is true. In a small city we are apt to get self-controled and lose that broad outlook that comes with expansion. But yet it should not be so. Stewart and Alice Arm and Anyox and Hazelton and Smithers and Topley should be often in our thoughts and we should know a great deal about them. Also it is a wonder that more are not financially interested there. We allow American interests to come in and take the plums while we slumber gently and refuse to see the opportunities that await the investor.

If Eve had not married Adam she would probably have had to take up a career.

EXERCISE CARE DURING HOT WEATHER

Prince Rupert has experienced an unusually long dry spell, the longest in several years. The result is that there is danger, not only from fire but from epidemic. So far we have been wonderfully free from anything of that sort but in other parts of the province they are suffering and we must all watch that we do not allow any bad smells to continue. Here is where the condition at Cow Bay becomes a danger. However, as usual, the stable door will not be locked until the horse is stolen.

We are not alarmists. We do not believe in pondering on ill health, but at the same time we must not be foolish and allow conditions to continue which are always liable to breed disease and death.

Luck is all right if it comes your way voluntarily, but as something to depend upon regularly it is not recommended.

To Obtain Relief From Neuritis

The nervous system must be thoroughly restored. Here is a case which illustrates this point.

The twitching of nerves and muscles warned Mrs. Mapleton of the exhausted condition of her nervous system. She also had frequent nervous headaches and persistent neuritis in her right side.

Only temporary relief can come from external applications for neuritis. To really get rid of the cause of trouble it is necessary to thoroughly restore the exhausted nerves by the persistent use of Dr. Chase's Nerve Food.

Dr. Wm. Mapleton, Mount Forest, Ont., writes:

"For about three years I suffered from neuritis in my right side. I had pains through my back and

twitching of the nerves and muscles. I had also been operated on for appendicitis, and it left me a nervous wreck. I was very restless and uneasy, and bothered with frequent neuralgic headaches. My appetite was poor and I sometimes took weak spells. I commenced a treatment of Dr. Chase's Nerve Food and in a very short time I found relief. This medicine has done me the world of good and I can recommend it to all suffering as I was."

Dr. Chase's Nerve Food - 60cts. per box, all dealers, or The Dr. A. W. Chase Medicine Co., Limited, Toronto, Canada.

Fox Farm Makes Good Start on Kinahan Islands Where One Hundred Blues Are Thriving

Visit Paid by Member of Daily News Staff Who Tells of Developments There Under Bostrom Management*

(By G. A. Hunter)

Yesterday afternoon we paid a call on the blue foxes of the Kinahan Island Fur Farm. We found them to be quite as shy as we had expected but, eventually, one or two of them, after they had found that we brought good things along with us, became rather friendly. Then we were able to study them a little at close hand and, in their company, we spent a pleasant hour or so. For the most of us, it was the first experience with them.

As the guests of Capt. Alfred Swanson,

the trip was made aboard the Prince Rupert Boat House power boat "23" with Capt. Hans Berquist in command.

The run out to the farm, which is the closest one of its kind to the city of Prince Rupert, took us a little

less than one hour, the distance being

something in the neighborhood of eight or nine miles. The Kinahan Islands, of

which there are two, are located just

south of Digby Island near the entrance

of Prince Rupert harbor. They are of

a typical rough nature and on the more

southerly of the two, in the channel

between them, is located the headquarters of the fox farm although the foxes

run at large on both.

FANNY APPEARS

Somewhat disappointing was the announcement, as we landed at the Island, by the second in command of the farm that we had come at the wrong time of day and that our chances of seeing the foxes would be slight. Things turned out better, however, for it was not long after we had settled ourselves on the beach to enjoy what we feared was going to be little more than an ordinary picnic when the first fox that we were to see came trotting along the beach. This was "Fanny," the champion mother of the litters who had a litter of fourteen pups this season. She became busily engaged in carrying pieces of fish from the farm cookhouse to the den of her pups some quarter of a mile along the beach. Each of the many times she made this trip it was necessary for her to pass fairly close to us and we took a keen interest in her movements.

It was about this time that Emil

Bostrom, who is in charge of the farm, returned to the Island from Inverness

cannery, bringing with him a Columbia

River fishing boat which is to be used

in freighting between the city and the

Island. He took us in charge and gave

us more encouraging word that we

should be able to come in fairly close

quarters with the foxes which we had

come to see. Indeed, he was right and,

with some persuasion on his part, what

with quiet words and bits of fish and

candy. Fanny soon came up to our

picnic site and before long was eating

out of all our hands although she was

very nervous and suspicious of our

good intent at first. It was apparently

hard for her to believe that all we

wanted was to be friendly. At last,

however, she shook some of her fears

and reciprocated some of our feelings.

"Buster," the tamest of the colony having

been reared near the house since he

was a puppy when he fell out of his

den and was injured, and "Rastus,"

one of the more bold, also came along

to share the good things while, along

the beach, could be seen several of

Fanny's pups, now almost as large as

herself, emerging from the brush and

wondering if it was safe for them to

come along, too.

ONE HUNDRED NOW THERE

From the ten pair that were placed

on the Island last October when the

Kinahan Fur Farm was established,

we learned that, estimating conservatively, there are now something in the

neighborhood of one hundred foxes

on the Island. They have done well

and eight of the ten pairs had litters

this season. Fanny led the rest with

fourteen pups but another had thirteen

and so on down the line. Naturally

at this summer season their skins

are not prime. It is in winter that

they coat out and wear the hides that

are so prized by Mr. Lady. Mr. Bostrom

told us that it was not the intention

to kill any of the foxes this winter.

They will be kept to further

populate the farm.

In the fox world, it is the woman

who does the work as Fanny witnessed

to us. While she was out rustling a

livelihood for her family, the old man

was at home standing guard over his

offering and consuming his full share

of the store his mate was bringing.

FEEDING THE FOXES

While the Kinahan Fur Farm lets its foxes run at large and not in dens as in some places where there is better chance of their escape, there are feed houses along the beach where, in summer, their food is delivered once a day, usually at high tide when the food is taken out in boats and carried into the houses on the shore. In winter, the fox has not such a good appetite and once every two or three days suffices to feed him. This is fortunate, too, for rough weather sometimes makes difficult the distribution of the food.

Fish and bran is the main food of the foxes. At the present time the cooking is done in the dwelling on the Island but a cookhouse has been erected on the wharf and an old steam boiler is in waiting to be placed on a brick fire box. The fox is very particular that his food should not be burned and the well water jacketed boiler should ensure that it is not. In winter, the shooting of seals adds considerably to the diet with its flesh and blubber. The skin is also offered the foxes as it serves a valuable function in keeping the animals in order.

From Guesswork

to

Scientific Accuracy!

MOST home owners heap abuse on their furnace. To it is attributed high fuel bills, coughs and colds, chilly inside temperatures—

Yet the furnace is seldom to blame. Its inefficiency is usually due to shoddy installation. Properly installed warm air is the most effective heating system obtainable. Yet even the best warm air furnaces become inefficient and wasteful if they are not installed according to Standard Code.

"Code Installed" means that your system is planned by experts according to tried and proven scientific principles. It guarantees the most healthy, efficient and economical heating plant your home can accommodate—saving warm air heating to a plane far and above that of any other type of heating system in the country.

Ventiblast

McClary's are the only Canadian members of the National Warm Air Heating and Ventilating Association—a body of leading manufacturers who have adopted a scientific code for installing warm air furnaces. By insisting on a McClary's "Code Installed" Sunshine Furnace you are guaranteed a heating system which costs less to buy and less to maintain than more elaborate yet less effective systems—yet provides 70 degrees of heat in every room.

Fill in and mail attached coupon. We will send name and address of the nearest McClary's dealer who will guarantee a "Code Installed" heating system which will give life-long satisfaction.

MAIL THIS COUPON

THE MCCLARY MFG. CO., LONDON, CANADA.

Please send me name of nearest McClary's dealer who installs Sunshine Furnaces according to Standard Code.

THE STORY OF
QUALITY
WITH

CARNATION
BEGINS
the COW

A QUARTER of a century in the milk business has taught us that milk quality must begin with the cow.

And so the Carnation Milk Farms, with their world-famous herds of Holstein cattle, seek to encourage and provide better dairy stock.

But Carnation does not stop at "better cows". Carnation seeks "better farms"—and the Carnation Field Force spends its time inspecting farms and educating farmers. Carnation seeks "better methods"—and the Carnation Condenseries are mod-

els to which the whole world looks for newest thoughts in the handling of milk.

Safety, purity, uniformity and double richness—these are yours for the price of a tin of Carnation milk. Use Carnation for cooking, to secure better results and in place of cream at one-third cream's cost. Order from your grocer several tins or a case of 48 tins.

Send for a free copy of Mary Blake's Cook Book. Address Carnation Milk Products Company, Limited, Aylmer, Ontario.

Mrs. F. D. Rice and daughter, Miss Rose Rice, arrived from Alice Arm on the Catala yesterday afternoon.

E. C. Bayless of the Union Oil Company left on today's train for the interior on the company's business.

George Little of Terrace, well known sawmill operator, arrived in the city last night from the interior on business.

C.P.R. steamer Princess Louise, Capt. Arthur Slater, is due in port at 3:30 this afternoon from Skagway and will sail at 5 for Vancouver.

Until repairs at the Provincial Government wharf have been completed, C.P.R. steamers will make landing at No. 3 shed on G.T.P. wharf.

C. G. Strombeck, Alice Arm prospector, sailed on the Catala last evening for Vancouver on business after spending two or three days in the city.

S. D. Murray of Anyox arrived in the city from the smelter town on the Catala yesterday afternoon and left on this morning's train for a trip to Milwaukee.

All Conservatives are invited to attend a meeting in the Club Rooms on Thursday, August 25 at 8:15 p.m. for the purpose of selecting delegates to the Nominating Convention.

Coming! Coming! Wait! Be sure and wait for Mrs. Prizell's Big Sale to start in a few days. Shipments of new fall goods are arriving daily. Dresses, coats, hats etc., at prices that will pay you to wait.

Football match tonight between H.M.S. Colombo and Prince Rupert. Admission 25¢. The ship's brass band will give selections on the grounds. Proceeds for the Acropolis Hill Improvement League.

Mrs. Wm. Griffiths and her grandchild, Miss Ivy Porter of Canmore, Alta., who have been the guests of Mr. and Mrs. Bert West, Clapp block, are leaving today on the steamer Princess Louise for Vancouver.

Mrs. Fred Stephens and small son, who have been visiting for a few weeks with Mrs. Stephen's father and mother-in-law, Ald. and Mrs. M. M. Stephens, 412 Emmerson Place, sail this afternoon aboard the Princess Louise, on her return to her home in Seattle.

Union steamer Catala, Capt. A. E. Dickson, arrived at 2 o'clock yesterday afternoon from Anyox. Stewart and other northern ports of call and sailed at 6 for Vancouver and way ports. Passengers embarking here on the vessel for Vancouver included Mr. and Mrs. Len Sauthier, Kate Henderson and Mrs. Fleming.

Mrs. James Scherck appeared in city police court this morning on a charge of driving an automobile without a license, the charge being dismissed with a warning. The police state that there seems to be general ignorance of the provisions of the Motor Vehicle Act which makes it necessary for all driving motor cars or in any way handling such vehicles to have licenses on their person so they may be produced on the demand of officers.

HIGH SCHOOL NOTICE

The Examinations in all subjects for those who have supplements in Grades 9 and 10 of the High School will be held in King Edward School on Tuesday and Wednesday, August 30 and 31 respectively from 9:30 to 11:30 and from 1:30 to 3:30 p.m.

These Examinations must be taken before promotion can be considered.

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

SADDLE PROPERTY NEAR ALICE ARM LOOKS WELL

Excellent Results Being Obtained in Shafts Sunk by Silver Crest People

The Silver Crest Mines Ltd., who are developing the Saddle property on Hastings Arm, under the supervision of P. E. Petersen, are attaining excellent results, and the property already has the earmarks of becoming a producer of considerable proportions says the Alice Arm Herald.

The No. 1 shaft has been sunk a distance of 46 feet. The first 18 feet was in excellent ore. From 18 to 30 feet barren quartz was encountered, but from a depth of 30 feet the values improved and prospects are good for the encountering of a good ore shoot.

Shaft No. 3 has been driven a depth of 30 feet. It was commenced on a vein of high grade ore five feet wide, and the ore values and width have been persistent the entire 30 feet. It is an important discovery and already a nice tonnage of high grade ore has been driven up.

It is hoped that before the commencement of the snowfall, to commence drifting from the bottom of the shaft, and that when this is done important ore discoveries will be made.

Geological conditions at the Saddle are very similar to the Porter Idaho district on the Marmot River at Stewart. Every indication points to the same excellent results being attained.

To date the Saddle has not produced such high silver values as the Porter Idaho.

We sell superior lumber—that is the only kind of lumber to be found in our sheds and yards. We have the most complete stock in Northern B.C., including fir and cedar timbers, dimension, shiplap, finishing, veneers, shingles, lath and mouldings, all reasonably and properly priced.

MOBILE PROPERTY AT STEWART PROGRESSING

Mine Makes Fairly Good Showing Result of Recent Work Done There

Work this summer under the direction of Louis Legge, who, with H. P. Gibson, owns the property, has resulted in greater advancement of the Mobile toward the status of a producing mine than all the development done when the property was under bond several years ago says the Portland Canal News. A hitherto unknown vein, ranging from 6 to 20 feet in width, has been traced by open cuts for a distance of 1500 feet, and systematic sampling shows an average of \$20 in lead, silver and gold.

Another vein, not heretofore known is a true fissure from two to four feet in width, and gives assays of 160 ounces silver and 28 per cent lead, with some gold.

A little work was done following up the old development inaugurated by the company who had the property under bond several years ago, but as the other veins seemed of more importance, they received the most attention.

STEWART MINERS DO WORK ON NEW PROPERTY

Ore Taken on Black Hill by Olsen and Hahti Assays \$12 to \$57.

STEWART, Aug. 24.—An interesting collection of ore samples was brought in this week from Black Hill group at the head of the south fork of Glacier Creek, by Nels Olsen and John Hahti, who located the property last fall. The ore shows white quartz, through which is disseminated galena, chalcocite, zinc and iron pyrites. A vein four feet wide was partially opened up by open cut last fall, and assays are said to have run from \$12 to \$57 in gold, silver and copper. This summer a larger vein, apparently 15 feet wide, was discovered but no assays from it have yet been obtained. A trail has been cut through to the property and a pack train taken in to it without difficulty.

SHORT CIRCUIT PUT LIGHTS OUT BRIEF TIME LAST EVENING

All electric light and power service in the city was off for twenty minutes last night after 7:05 on account of a short circuit in the main line near the boarding house of the Canadian Fish & Cold Storage Co. at Seal Cove. Wires burned out when they were wrapped around with a rope, presumably thrown by children. Following the switch-on, there was considerable flickering of lights.

GYRO CLUB OBSERVES ITS FOURTH BIRTHDAY

Special Entertainment Put on at Luncheon in Commodore Cafe Today

The Prince Rupert Gyro Club celebrated the fourth anniversary of its inception at luncheon in the Commodore Cafe today with Milton Gonzales, first president of the organization, in the chair. The meeting was in charge of the past presidents of the club—M. Gonzales, R. F. McNaughton and S. W. Taylor—and the present president, E. A. Mann.

Morris Blott sang vocal solos, accompanied by Charlie Balagno.

The Board of Trade, City Council and Rotary Club were represented by Ald. G. P. Tinker, W. O. Fulton, and J. W. Nicholls at special invitation for the occasion.

Most places have at least one conscientious good-for-nothing who has a keen sense of your duty.—Brandon Sun

BEST BALL PLAYER IS TO BE CHOSEN

Difficult Matter for Newspapermen to Decide Which has Helped Team Most

NEW YORK, Aug. 24.—It promises to be a warm debate when the newspaper experts assigned to the job vote on the wards of the "major leagues" most valuable player" trophies this year.

It's possible to narrow the field down pretty well but the argument will be heated when it comes to deciding, for instance, whether the youthful batting star, Paul Waner or the veteran Joe Tarris, at first base, has been more valuable to the Pirates, or whether Gabby Hartnett brilliant catcher, or Charley Root, pitching ace, has been the biggest asset to the Chicago Cubs.

Hughie Critz, who was runner-up in the National League star player contest last year to Bob O'Farrell, also has many boosters, especially since his brilliant return to form in the last few weeks, when the Reds climbed out of the cellar to top the second division. Likewise, Frankie Frisch, erstwhile New York Giant, has proved himself one of the most valuable cogs in the Cardinal machine.

In the American League it may be equally as difficult to decide whether Lou Gehrig or Tony Lazzeri has been of the most vital aid to the Yankees.

Gehrig has supplied the bigger punch but Lazzeri has been the club's big defensive star, besides wielding a potent bat. Babe Ruth, of course, having won the honor before, is out of the running.

Then there are Al Simmons, the Athletics' outfielder, ace, and Ted Lyons, chief of the White Sox hurling staff, to be considered, among others, for the role that George Burns of Cleveland did in 1926.

SPORT CHAT

British people often take exception to the jeering and jollying at a baseball game and claim it is unfair to try to jolt a man's nerve when he is engaged in a game. But that is part of the game. If a player cannot stand jollying he has no business on the diamond. Strong nerves and perfect self-control are as necessary at baseball as is an immovable face at poker.

Bud Gorman, Wisconsin heavyweight, who has appeared in Canadian rings, sailed recently for Sweden to engage Harry Pedsson, Swedish heavyweight, in a battle at Stockholm on September 18. Gorman was accompanied by his wife and son. The contest with Persson will be a return engagement. In a bout in Madison Square Gardens last winter Gorman won from Persson on foul in five rounds. It is planned to have

British fans will no doubt turn out in force for the first game tonight between an eleven from H.M.S. Colombo and a select local aggregation. The second game will take place Friday evening. The local team selected for tonight's game is as follows: H. Corbett, goal; R. B. Skinner and S. Erskine, full backs; G. P. Tinker, S. Currie and J. Campbell, half backs; C. J. Norrington, P. Doherty, A. Dickens, J. K. Murray and F. Hodges, forwards.

The Colombo team are A. B. Partidge, E. R. A. Winn, S. P. Q. Smith, Stoker Bridge, A. B. Kempston, Stoker Butler, P. O. Pitschall, Marine Harris, Marine Sells, Stoker Baldwin, L. S. Tracy. Linesman A. B. Seymore. The team wears blue.

The hero's dramatic appeal, "Fly with me," has acquired a new meaning in these days of gallant air pilots.—London Advertiser.

Two games in the men's singles of the Regimental tennis tournament were played last night, Carmichael winning over Black 6-2, 7-5, while Howard defeated Youngman 6-2, 6-1.

Tonight Howard and McMordie are scheduled to meet in the men's singles in the final. Having sustained an injured leg in last night's tournament, Howard may have to default to McMordie.

TRAIN WOMEN FOR DOMINIONS

**Men Going Overseas and Leaving
Women at Home is Obvious
Danger**

LONDON, Aug. 24.—(Canadian Press).—With so many schemes for settlement of boys and young men in the Dominions; how about women settlers? There is obvious danger in a lapsed development of migration, and, now that schemes for settling boys in their teens on the land have come to take rank as the most promising of all, that danger is more real than ever.

The leading organization in training for overseas life, and one which is doing invaluable work in this regard, is the Society for Overseas Settlement of British Women. But an encouraging feature is the establishment by the Lancashire county council of a scheme for training girls as settlers. This is an experiment marked by thoroughness and consequent expense providing for a year's training for each girl. It is being urged that less financially-strong organizations might provide two or three month's training.

The obvious difficulty in migration of women as against male settlers, is that the inducements for women are less than those extended to their brothers. At present the Dominions declare they need "household workers," and the prospect of going half across the world to wield a scrubbing brush is not so enticing.

TRAIN FOR WIFEHOOD

It is the aim now to train English girls not for domestic life in the Dominions but for country life, as the wives of farmers. Town girls cannot easily learn the things that separate the country household from the town one, and where the woman has been given no chance to acquaint herself with conditions on training farms, she will gravitate naturally to the overseas town.

Concerning the strict qualifications requested by dominion officials in connection with women migrants, the Times says: "We can understand what seems at times the over-exacting atti-

DEPARTMENT OF PUBLIC
WORKS

NOTICE TO CONTRACTORS

SMITHERS HIGH SCHOOL

SEALED TENDERS, endorsed "Tender for Smithers High School" will be received at the office of the Department of Public Works up to 12 o'clock noon of Wednesday the 14th day of September, 1927, for the erection and completion of a High School at Smithers in the Skeena Electoral District, B.C.

Plans, Specification, Contract, and Forms of Tender may be seen on and after the 22nd day of August, 1927, and further information obtained at the Department of Public Works, Parliament Buildings and at the following offices: Government Agent, Vancouver, Smithers and Prince Rupert.

Copies of plans, specifications, etc., can be obtained from the Department on payment of a deposit of \$10.00 which will be refunded on return of the plans, etc., in good condition.

The lowest or any tender not necessarily accepted.

P. PHILIP,
Public Works Engineer,
Department of Public Works,
Parliament Bldgs.,
Victoria, B.C.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that E. Rousseau, whose address is 410 Seymour Street, Vancouver, B.C. will apply for a licence to take and use 1 cubic foot of water out of unnnamed stream which flows southwardly and drains into Port Stephens Bay, about one mile east of Bluff Point. The water will be diverted from the stream at a point about 600 feet from the mouth and will be used for cattle watering and irrigation purposes as described in the "Water Act".

Take notice that the Millerd Packing Company Limited of Vancouver, B.C. intends to apply for a lease of the following described lands:

Commencing at a post planted along side post marked N.W. L2573; thence southerly along high water mark 20 chains, more or less, to a post marked S.W. L2573; thence west to a low water mark; thence northerly along low water mark 20 chains, more or less, to a point west of the point of commencement; thence east 50 links, more or less, to point of commencement, and containing one-quarter acre, more or less.

MILLERD PACKING COMPANY
LIMITED,
Applicant.

Dated June 16, 1927.

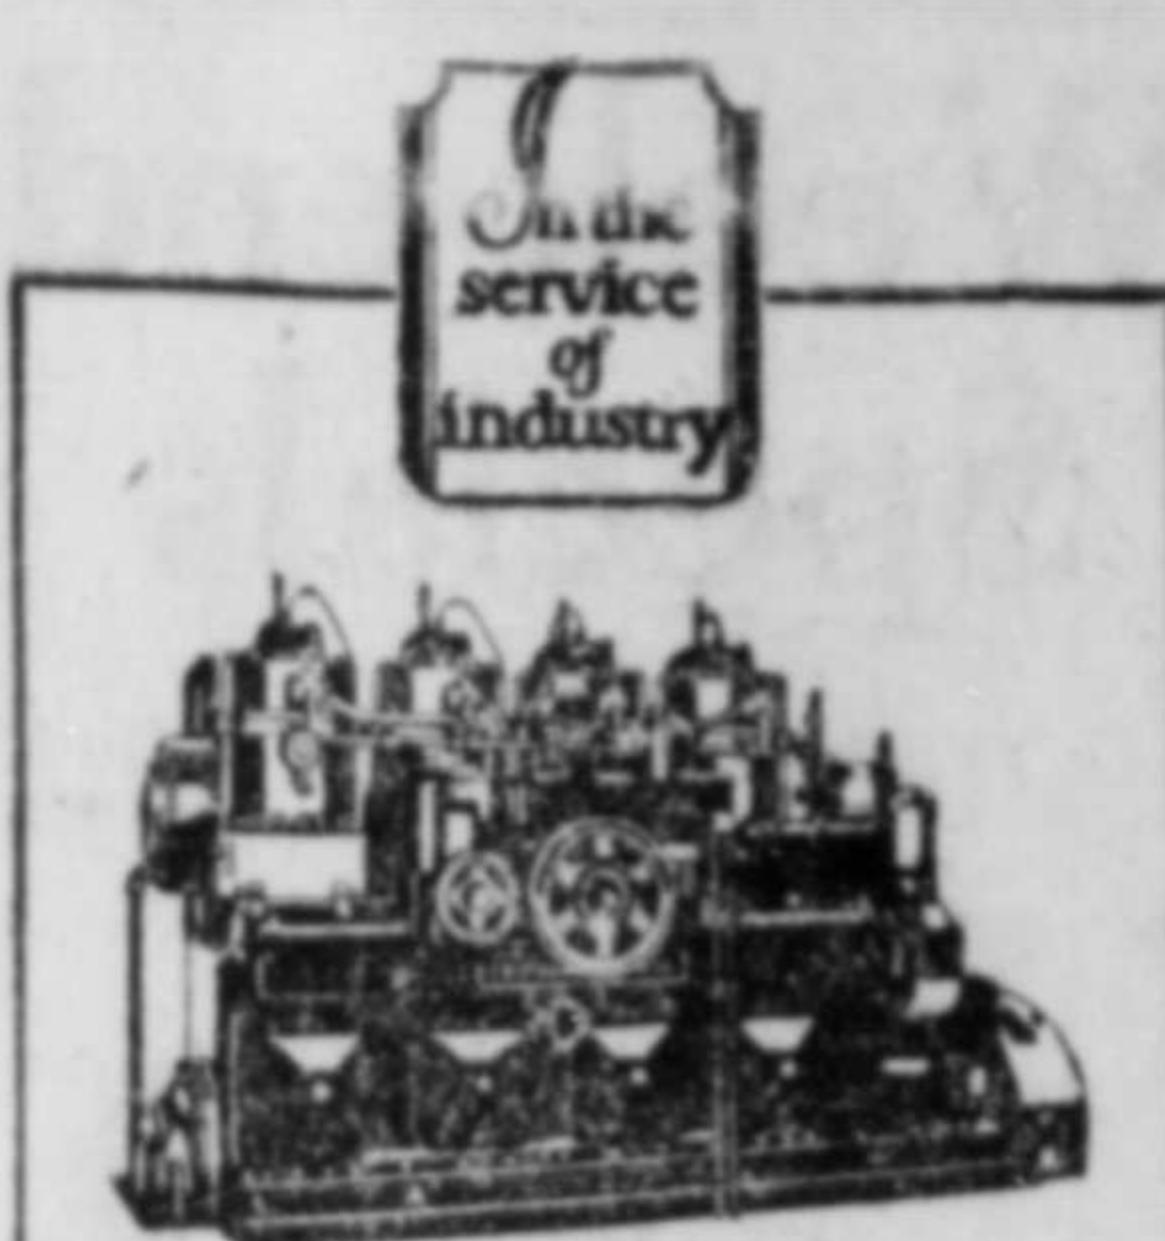

"COMPANIES ACT"

TAKE NOTICE that the Rupert-Vancouver Stevedoring Company, Limited, intends to apply under Section 39 of the Companies Act, being Chapter 38 of the Revised Statutes of British Columbia, 1924, to change its name to Pacific Stevedoring & Contracting Company, Limited.

DATED at Prince Rupert, B.C. this 9th day of August, 1927.

WILLIAMS, MANSON & GONZALEZ,
Solicitors for the Rupert-Vancouver
Stevedoring Company, Limited.

H. F. MacLEOD,
Registrar of Titles.

The Three Important Points

When buying an engine, there are three things to look for: Reliability, Economy of Operation, and Durability. Large corporations, who are keen buyers, are users of Fairbanks-Morse Diesel Engines, and are getting very satisfactory service. Such companies as the Laurentide Pulp & Paper Co., the Canadian International Paper Co., the Newfoundland Power & Paper Co., use them for tug boat service; the largest fishery companies on the Atlantic Coast use them exclusively, and there are numerous owners on the Pacific Coast. When considering engines, ask us for a list of installations in your vicinity.

Fairbanks-Morse Diesel Engines are made in the following sizes:

20 h.p.-2 cyl. 180 h.p.-6 cyl.
40 h.p.-4 cyl. 240 h.p.-4 cyl.
60 h.p.-3 cyl. 360 h.p.-6 cyl.
80 h.p.-4 cyl. 480 h.p.-4 cyl.
120 h.p.-4 cyl. 600 h.p.-5 cyl.
120 h.p.-6 cyl. 720 h.p.-6 cyl.

**The CANADIAN
Fairbanks-Morse
COMPANY-Limited**

Cor. Johnson & Broad Sts., Victoria, B.C.

tude of Dominion officials when we remember that they are taking to their country the future mothers of their people. The S.O.S.B.W. has for many years now worked to correct wrong impressions, whether over-sanguine or over-pessimistic. Its primary preoccupation is with those who need assistance to settle; but women who can pay their way are not less in need of accurate information and friendly services."

SINGLE MEN TAKEN

Today, when the overwhelming majority of schemes financed under the Empire Settlement Act have no place for the married man, the society is chiefly concerned with women going out on their own account. Much of its work is exceedingly unspectacular. It is as important to prevent unsuitable women from going as it is to make it easy for suitable ones to go. A number of practices are in existence today to test this suitability. Girls can be examined free in the different sorts of work which will be expected of them. A beginning has been made—by the Australian government at Market Harborough, as well as by the Lancashire County Council on their own initiative—in providing training of the right kind. Such training aims at laying the foundations at least of competence in the wide range of activities that marks the happy wife of the farmer.

IMPORTANT SPEAKERS

Darwinian Theory of Descent of
Man to be Discussed as it
Stands Today

LONDON, Aug. 24.—(Canadian Press).—Being in Canada, the Prince of Wales will be unable to personally deliver the address as retiring president when the British Association for the Advancement of Science holds its inaugural general meeting at Leeds on August 31. He will, however, send a message from the Dominion to be read at the meeting. Sir Arthur Keith will be the new president. The sessions proper of the great scientific organization will take place from September 10 to 17. 2,500 are expected to attend, a number well above the average.

Sir Arthur Keith's presidential address will be on "Darwin's theory of man's descent, as it stands today." The address will be broadcast by wireless. In all, there will be about 300 scientific communications, addresses, discourses, discussions and papers.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Queen Charlotte Island Land Registering District of Prince Rupert, and the aituate at the head of the south arm of De La Beche Inlet, Moresby Island.

TAKI NOTICE that British Columbia Fishing & Packing Co. Ltd. of Vancouver, B.C., occupation Packers, intends to apply for a lease of the following described lands:—

Commencing at post planted at the head of the south arm of De La Beche Inlet, Moresby Island, thence south 5 chains, west 20 chains; thence north 5 chains, more or less, to high water mark; thence west along high water mark to point of commencement, and containing 10 acres, more or less.

BRITISH COLUMBIA FISHING & PACKING CO. LTD.

Dated June 10, 1927. Applicant.

IN PROBATE

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Administration Act; and
In the Matter of the Estate of Joe Elman (otherwise) Joe Herman, Deceased.

TAKE NOTICE that by order of His Honour the Chief Justice, on the 11th day of August, A.D. 1927, I was appointed Administrator of the estate of Joe Elman (otherwise) Joe Herman, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 21st day of September, A.D. 1927, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

NORMAN A. WATT,
Official Administrator,
Prince Rupert, B.C.

Dated the 24th day of August, A.D.

est as well as importance are those on
coal, on prices, on the psychology of
special scholastic disabilities, and on the
report of the committee on educational
training for overseas life.

A new feature this year will be a series
of special meetings on textiles. The
association, though always concerning
themselves with the economic and
industrial interests of the localities
where they meet have not hitherto ar-
ranged a complete series of communica-
tions on the applications of science to
a particular leading industry.

EXCURSIONS AND LECTURES

Full advantage is being taken of
Leeds as a centre for scientific excursions
and arrangements have been made for
field work in geology, archaeology,
agriculture, forestry and for the
inspection of various industrial activities
and the collection illustrating primitive
weaving at Bankfield Museum at Hud-
son.

Discussions which are of wide inter-
