QUEBEC SOUNDS NOTE OF WARNING MUNICIPAL ELECTION RESULTS IN COMPLETE TURNOVER

Both Party Leaders of Eastern Province Speak of Conference

Premier Taschereau and Conservative Leader
Sauve insist that there be no infringements on rights of individual
provinces

QUEBEC, January 14.—Premier Taschereau and Arthur Sauve, leader of the Conservatives in the legislature, both warned against infringements upon the rights of Quebec in any changes of Canada's constitutional status which may have been made at the last Imperial Conference in speeches made in the provincial house during the debate on the address in reply to the speech from the throne.

In the course of his remarks, Premier Taschereau said: "I think that fidelity to our British ties is necessary for our national survival. We should jealously watch over its preservation and we are not ready to leave it to a majority of the whole of Canada to say, without the consent of our province, what its future constitution shall be." He intimated that the constitution must not be changed without the consent of the province of Quebec and of each province expressed by its legislature.

Provincial Police Given Fine Endorsation by Civic Voters; Ald. W. J. Greer Headed Poll

With a majority of 104 the electors of Prince Rupert yesterday approved of policing the city by the provincial police, the final vote being 509 in favor to 405 opposed. The total vote polled this year was in excess of that cast at the last civic election in 1926 and, in a large measure, this was due to the interest taken in the police situation, as there was no contest for the mayoralty.

For the four positions on the city council there was a keen contest and for the honor of being the fourth alderman a recount was necessary which did not alter the first decision of giving the seat to P. H. Linzey by one vote over James Black. Alderman Greer who, for the first time, has had his name appear on the civic ballot paper, led the poll with a total of 511 votes. Last year he was elected by acclamation to complete the unexpired term of Alderman McMordie who resigned to run for the mayor's chair.

The sewer bylaw had a majority of 33 over the necessary three-fifths of the total vote which was required to carry, the vote being 427 in favor to 204 against. There was a total of 961 votes cast as compared with a total of 910 cast in the mayoralty contest a year ago.

The votes received by the different aldermanic candidates was as follows:

Ald. W. J. Greer	511
Ald. W. M. Brown	483
G. P. Tinker	462
P. H. Linzey	427
Jas. Black	426
J. M. Morrison	394

ANOTHER CIVIC ELECTION IS OVER.

Another civic election is over and once again we extend our congratulations to the winners of the contest. Perhaps, however, it would be more fitting this time if they were extended to the losers. They are to be sincerely commended for having risen out of the mire of general antipathy surrounding the affairs of the city at this time by offering themselves to serve a public that is more often inclined to be critical than grateful. It is to be hoped that next year there will be more men or women willing to come forward even if it be at risk of defeat. The defeated ones, after all, are perhaps the luckiest and they may be consoled with the knowledge that they, with the winners, formed the small group that was interested in and willing to take its responsibility in connection with municipal affairs.

The winners are men of standing in their various walks of life in the city and each have the ability to properly and sensibly conduct the affairs of the city. To start with, they have been given a clear mandate on two of the most important matters that will require their attention.

POLICE QUESTION WAS BIG ISSUE.

It is evident that the police question entered more strongly into the contest than might have been generally anticipated. The provincial police not only was given a good majority in the plebiscite itself but four aldermen were elected all of whom are at least mildly in favor of the system while the two candidates who had most energetically opposed it came at the bottom of the poll. In view of the way things have gone, Mayor Newton, himself opposed to the provincial police, might have been beaten had he had an opposing candidate on the issue. The mayor can, undoubtedly, read "the handwriting on the wall."

Comments on the result of the election would hardly be complete without congratulating Sergeant Hannah and his staff of officers on the city detachment of the provincial police. Their good record of the past seven months was appreciatively acknowledged by the electorate. They have had an expression of opinion and a mandate to carry on. Prince Rupert waived the principle that might be involved in the matter and spoke in no indecisive manner for a "clean" town.

TIME TO MAKE RESOLUTIONS.

We are told that this is the appointed time for making good resolutions. And we suppose no one ever inflicted an injury upon himself or upon his neighbor by resolving to do something that might be beneficial to himself or to his neighbor; but, as a rule, we do not set much store by resolutions. We are not sure that passing resolutions, whether by individuals or collections of individuals, ever is productive of a great deal of good. Still, if anybody feels like passing a mental resolution to begin the New Year by turning over a new leaf, let him pass his resolution and keep the leaf turned down. It is not yet too late to do that.

MAD BECAUSE HE CAN'T KICK.

We always had a kind of a sneaking impression that the main object in life of the Tories, in latter days at least, was to criticize but it took our incontinent but energetic Victoria friend, Despard ("Desperate") Twigg to come right out and complain because there was nothing for him to criticize. It wasn't a very bright idea for him to say that but, perhaps, he spoke before he thought. Premier John must have also overlooked a bet for he dearly loves a fight and surely would not have intentionally let anything go by that would have started one. Undoubtedly, he will provide something for Despard and the rest of his gang to kick about so that they may not again have to make a clean giveaway of their most cherished though perhaps unnecessary kicking propensities.

COMPLICATIONS FARM RELIEF

PRESIDENT COOLIDGE AND SECRETARY JARDINE CONTINUE OPPOSITION

WASHINGTON, D.C., Jan. 14.—(By John Shore, Canadian Press Correspondent).—Complications continue in the farm relief situation in Congress. The farm relief measure desired by the corn belt has been introduced in the Senate by Senator McNary and, in a somewhat modified form, in the House by Chairman Haugen of the committee on agriculture. But it is still a long distance from enactment.

President Coolidge and Secretary Jardine continue their opposition and eastern members of Congress and most of the members from industrial centres are hostile to the legislation.

It is difficult to exaggerate the exasperation of many of the agricultural members from the middle west over the situation and not easy to overstate the political dynamite involved in it.

What is making the matter worse is that while the administration and eastern members balk at farm relief action, the banking conditions in some parts of the middle west are getting worse. Little appears in print about them but the failure recently of one of the foremost banking institutions of Des Moines, to say nothing of numerous lesser banking failures in that part of the west, indicates that the agricultural regions are hard hit. It is not a question of the farmers needing more loans. The causes go deeper and are involved in the fundamentals of the economic conditions under which agriculture is laboring.

NUMBER OF CAUSES

Those students of the agricultural problem who are frank about the matter ascribe the farmer's difficulties to a number of causes including tariff on manufacturers which the farmer buys high freight rates, lack of inland water transportation at low rates which will give him easy access to foreign markets, the failure to enforce the anti-trust laws and to prevent the growth of combinations and monopolies whose heavy capitalization takes toll from agriculture, government extravagance and resulting high taxes, high interest rates and other causes not far to seek.

The truth of the matter is that in the opinion of some of the ablest men in Congress agriculture in the United States is going to continue on the down grade unless an administration and a Congress in the near future effect a series of big reforms which will redound to the benefit of the farmer. The pending farm relief bill though it might help, would not reach to the root of the difficulties.

It is a curious fact that one of the strong advocates of curtailment of immigration has been the agricultural influence in Congress. But there is not lacking evidence that this very curtailment has hit the farmers hard. It has, among other things, drained the farms of skilled agricultural labor, or tended in that direction.

POLITICAL UPRIISING

Signs are not wanting of a political uprising in the middle west which will take on proportions some of the eastern politicians do not dream of. This, however, will depend on leadership. If there were in the west a man with anything like the capacity for leadership of a Roosevelt, there would be an upheaval in the 1928 campaign which would make the renomination of President Coolidge impossible, would put western independents in a position to hold the balance of power in House and Senate and might even send a middle western man to the White House. Former Governor Lowden of Illinois is just now the man to whom many of the western farmers are turning. But whether he will measure up to the demands remains to be seen. It is not inconceivable that in the end the farmers will turn to some new democratic Moses. It is certain that party lines never before rested so lightly on them as they do today.

Ten Years Ago in Prince Rupert

JANUARY 14, 1917.

Mrs. Seaman, who has been visiting in the city as the guest of her sister, Mrs. Max Hellbronner, left for Seattle yesterday.

Mrs. J. P. Cade and children left last evening on the steamer Princess Maquinna for the south'en route to Los Angeles.

Ed. C. Gillingham, who is now located at Anyox, is a visitor in the city.

A party of small boys, who were skating on Morse creek yesterday, went through the ice near the edge. They had no difficulty in getting out although they found the water cold.

The steamer James Carruthers returned to port yesterday with 12,000 pounds of flat fish after being out about a week.

H. O. Roberts, who has been managing the local branch of the Pacific Fisheries Ltd., left for Seattle today. His position here will be taken by Chas. Starr, who recently arrived from the south.

London caterers made more than a million Christmas puddings this year, and shipped all over the world.

MESSAGE IS OPTIMISTIC

GREAT THINGS FOR PRINCE RUPERT FORESEEN BY REV. J. R. FRIZELL IN ADDRESS BEFORE ROTARY CLUB

A great future should be in store for a port and harbor such as Prince Rupert presents declared Rev. J. R. Frizell in addressing the Rotary Club yesterday afternoon. The climate, he said, was very pleasing and the hospitality and thoughtfulness of the people was delightful. The port had the advantage of being the terminus of the great Canadian National Railway which interlaced all parts of the Dominion from Atlantic to Pacific, covering a distance of over three thousand miles and tapping the mineral, and agricultural resources of the continent.

The speaker also referred to the possibilities of the Peace River and the population which it was capable of supporting. This port he referred to as the outlet for the production of western Canada into the Orient. There was no reason he said, why, with such resources behind Prince Rupert, and one of the best harbors in the world, it should not one day have a population of 500,000 people.

"A city is what its people make it. If its citizens have faith in their city and its possibilities it should one day be in fact what it is now in vision," declared the speaker.

Mr. Frizell dealt with the possibilities of Canada as a nation and interspersed his address with the recounting of a number of interesting incidents in his experience.

PATHETIC LITTLE OLD LADY CENTRE FIGURE IN FILM

In the picture "Drusilla With a Million," coming to the Westholme Theatre as the week-end feature, Drusilla Doane, long a pathetic little figure in the Cliftondale Home for Old Ladies, where she is the only charity inmate, is made a slavey and perpetual door mat by the hard-faced matron of the institution. She never can go on the two annual picnics which are held, and has only hard work and mistreatment for her lot in life.

Sally May is another "charity patient"; but not at this home. In the house of Hannah Paydon she slaves long and late striving to please the grim woman who lets her work out her "board and keep," and when Hannah goes away for a week she is delighted at the chance to be alone, to pick flowers and watch the birds and study nature. As she wanders down a country lane a roadster, driven at breakneck speed, rounds a turn, narrowly misses her and turns turtle pinning beneath it the body of young Collin Arnold, who has just been dismembered by his wealthy father and is driving away in no pleasant mood. Sally May helps rescue the boy, takes him home, puts him in her own bed and nurses him back to health in her week of grace before her stern mistress arrives. When that dour party returns she finds the two together and scolds the girl with burning criticism, intimating that nobody would marry such a huzzy and threatening to turn her out. Collins steps into the breach and says he will be glad to marry her, and the two are thus united.

Elias Arnold, Collin's wealthy father, dies without knowing the whereabouts of his son, and leaves all his money, a million dollars, to Drusilla, a distant relative. Drusilla is fascinated and aghast at the magnificence which suddenly surrounds her after her life in the Old Ladies' Home. To the consternation of Thornton, Arnold's lawyer, and his daughter Daphne, the little old lady opens her house to all the homeless babies, and soon has a dozen or more under her roof. Meanwhile Daphne, who has always wanted to marry Collin while he was the heir to the Arnold wealth, discovers where the boy is and seeks him out in the little town where he lives with Sally May, working as an automobile mechanic. She and her father hope to break Arnold's will, oust Drusilla and have Daphne marry Collin. When she discovers that Collin is already married she goes to Sally May and trades on her simple love for Collin, telling the girl that she is ruining her husband's career, that he is ashamed of her and that he only married her

No Room for Rheumatism

Rheumatism is a very common affliction. It is as unnecessary and undesirable as it is common, for in the normal human organism there is no room for rheumatism. It can only affect the body that is physically below par.

Rheumatism is due to dissemination through the system of waste products—poisons—which are eliminated in the normal body. Because the eliminative system is not functioning properly, these poisons are distributed where they cause trouble.

The primary cause is interference with nerve transmission of the vital energy—the motive power which animates the eliminative organs. This interference occurs at the spine, where it may be corrected by Chiropractic Spinal Adjustments skilfully applied.

WONDERFUL IMPROVEMENT AFTER ADJUSTMENTS

"I suffered a great deal from rheumatism in the joints, shoulders and arms. I was also constipated, and the medicine I took did me no good. Two months ago I took a series of Chiropractic adjustments. I made a wonderful improvement and since then have been feeling fine and the rheumatism has practically left me."—Mrs. Margaret Cooper, Chiropractic Research Bureau, Statement No. 2033-N.

LARGE ALASKA AREAS REMAIN UNDEVELOPED

PROMISING PROPERTIES AWAIT CAPITAL—GOLD OUTPUT IN 1926 INCREASES

WASHINGTON, Jan. 14. — Notwithstanding diminution of the mineral production of Alaska for 1926, the gold output increased over that of the previous years.

Decreases in the mining of copper, lead and other minerals, over-balance the slight gold improvement.

The Department of the Interior estimated the gold production of 1926 as \$6,620,000 compared with \$6,300,000 in 1925.

The total mineral output for Alaska in 1926 is estimated at \$17,490,000 compared with \$18,294,000 the previous year.

Copper dropped from \$10,360,000 to \$9,500,000; silver from \$482,000 to \$420,000 and other metals from \$611,000 to \$550,000.

Coal showed little variation. The report says large areas in Alaska have not been adequately prospected and many promising properties lie undeveloped because of lack of capital.

As big as a small lemon, the shell of the Babassu nut, found in South America, is so tough that special machinery is needed to crack it.

QUICKLY BANISHED

"I suffered years of agony through blind itching piles," says Mrs. W. Hughes, of Hochelaga St., Montreal. "Pain, loss of strength, complete misery, was my daily lot until I came across Zam-Buk. I know now that there is nothing on earth to equal this grand herbal healer. Since it lifted me from misery my earnest wish is to make Zam-Buk known to all sufferers."

BIG CROWD ATTENDED WHIST DRIVE AND DANCE BY MOOSE

A very large crowd gathered last night in the Moose Hall for one of their popular evenings of cards and dancing. The spacious floor was often crowded during the dance program which was kept up until a late hour to music provided by Mrs. R. P. Ponder's orchestra.

During the early part of the evening, a large crowd gathered at the whist tables and competition for the various prizes was keen. Prize winners announced during the dance program were as follows: Ladies' first, Miss Sophie Asprim, 149; ladies' second, Mrs. E. Saxon and Miss Johnson were tied with a score of 144, and on a cut the prize went to Mrs. Saxon; ladies' third, Mrs. A. G. Bartlett, 104.

Men's first, J. H. Hickey, 150; men's second, J. A. Prince, 147; men's third, Geo. E. Welsh, 103.

Fred Scadden was chairman of the committee of arrangements while Bert Hoskins and Tom Elliott attended at the door.

SOCIAL EVENING AT ANGLICAN CATHEDRAL WAS MUCH ENJOYED

A very enjoyable social evening was spent last night in the hall of St. Andrew's Cathedral when an excellent program was rendered by the members of the Cathedral Club. The musical program consisted of numbers by an instrumental quartette consisting of Mrs. H. C. Fraser, Miss Marjorie Lancaster, A. J. Lancaster and S. Fred Smith. Solos were rendered by Mrs. Anderson, Mrs. Cullen, Mrs. S. and D. Johnstone while Mrs. H. C. Fraser, Mrs. B. J. Mellish and Mrs. Donald Ross acted as accompanists for the evening.

Miss Gilchrist favored the audience with a piano solo. Community singing led by W. C. Orchard was very heartily enjoyed by a large gathering who entered into the spirit of the occasion with great vigor. The program over, very dainty refreshments were served and an evening of much pleasure came to a close all too quickly.

CONCERT AT PORT SIMPSON TUESDAY

Considerable Talent Displayed in Performance Put on by Natives Which Was Much Enjoyed

On Tuesday evening at Port Simpson, following the election of councillors for the ensuing year, the natives under the auspices of the Athletic Club, but on a very fine concert in which they were assisted by Dr. and Mrs. R. G. Large. The program, which reflected credit on the committee, consisted of several musical numbers and readings and a two-act farce which reflected creditably on the various members of the company. The play had been translated into the Taimpean language and the whole affair was exceptionally well staged. A reading by Miss Deakin and a duet by Dr. and Mrs. Large were much appreciated and added much to the evening's entertainment which was of a very enjoyable nature.

PRINCE GEORGE

M. ("Deafy") Dayton was in town this week from the headquarters of the McGregor River where he has been trapping. He brought in the remarkable number of 44 coyote pelts as well as a mixed assortment of marten, weasel, mink, lynx and otter and the hide of an exceptionally large grizzly bear. He reported that his partner, Jack Yargeau, had taken a cougar which measured nine feet.

The "flu" epidemic here has laid up fifty per cent of the curbers and it was necessary to postpone the bonspiel which was to have taken place this week. P. E. Wilson, secretary of the curling club, went through the 1918 epidemic unscathed but this time he was caught.

The log scale for Prince George district just missed the hundred million mark for the year 1926 but the total for the year of 99,683,633 board feet was 41 per cent greater than the 1925 total. Interior spruce accounted for 86,593,471 feet. The tie output was down in comparison with 1925, there having been a steady decrease during the past few years.

It is expected locally that H. G. Perry, Member for Prince George, would become speaker of the legislature on the appointment of Hon. J. A. Buchanan to the Vancouver harbor commission. Mr. Perry has been deputy speaker for the past two years.

Aleza Lake and Prince George hockey teams will play in their first encounter of the season tomorrow night. The game was to have been played last Saturday but was postponed out of respect to the memory of R. J. Blackburn who met a tragic death.

Owing to the prevalence of influenza, the city schools have been ordered closed by the medical health officer.

Arthur Dixon, district engineer for the provincial department of public works has been attending an annual conference of the department's officials in Victoria.

ALTERATION IN QUEEN CHARLOTTE ISLANDS SERVICE

The S.S. Prince Charles sailing from Prince Rupert 8:00 p.m. Saturday, January 15, for Queen Charlotte Islands, will call at Massett Inlet ports only, returning direct to Prince Rupert, arriving here some time Monday, the 17th. This boat will then enter dry dock for annual overhaul. The S.S. Prince John will leave Prince Rupert Tuesday evening, January 18, for Skidegate Inlet and southern ports on Queen Charlotte Islands, proceeding through to Vancouver. Leaving Vancouver, this steamer will replace the Prince Charles in the Queen Charlotte Island service, calling at all ports on the Islands, both north and southbound.

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful.

Every manager of a household---every member of the household who shares the responsibility for the family's welfare---should make a habit of reading the ads.

PRODUCTION OF ALASKA HEAVY

YEAR 1926 SET RECORD FOR PEACE-TIME IN OUTGOING COMMERCE VALUED AT \$80,000,000

With an aggregate value of \$76,328,415 shipments from Alaska to the States during the first eleven months of 1926, increased over 1925 by \$19,264,382, according to figures made public by collector of customs J. C. McBride at Juneau, Alaska. Only twice in the history of the Territory has this figure been exceeded, 1917 and 1918, both war-time years.

The volume of business last year probably exceeded both these years as prices of all commodities represented in the list were considerably in excess of those prevailing last year.

A pronounced increase in the value of products of the fisheries industries, mainly canned salmon, was the main factor in the increase for 1926. The value of fisheries products shipped from January to December 1, 1926, was \$55,765,854, or \$18,574,000 more than in 1925. Canned salmon alone jumped from \$28,501,516 to \$48,024,051, an increase of \$19,522,535. The total value of all fisheries products came within about \$2,000,000 of equaling all shipments of Alaskan products for the first eleven months of 1925.

GOLD MAKES GAIN

Gold and silver shipments for the period January to November inclusive had a declared value of \$5,779,478 as compared to \$4,681,231 for the same period in 1925. This, however, does not cover all of the gold shipped during that time. None of the by-mail shipments are included as this class of exports are not reported until after the close of the year. Between \$1,500,000 and \$2,000,000 will be added to this commodity, it is expected, when final figures are made up by the Customs service.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
 Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 19, Land Series, "Purchase and Lease of Crown Lands."

LEASES
 For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
 Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commission. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

COPPER ABOUT NORMAL

Shipments of copper ore were virtually normal for the period. The value of this commodity shipped for the first eleven months of the year was \$10,000,095, as compared with \$10,680,933, a loss of \$680,838.

Herring showed a marked decline, due it is believed to late runs in western areas. The herring exports for the period covered were valued at \$1,460,012, as against \$3,194,407, showing a loss of \$1,734,395.

Mild-cured salmon broke about even, a slight loss being recorded. The eleven months' shipments were valued at \$1,140,998 as compared to \$1,295,568.

Fresh salmon shipments became a noticeable item, its value being \$526,307.

Halibut shipments showed the respective total of \$1,743,012, slightly in excess of last year's total.

There was little change in the value of fur shipments for the period. The aggregate value of all furs shipped was \$940,365 as compared to \$953,954. This does not include either furs shipped by mail or the annual take of fur seal on the Pribilof Islands by the Department of Commerce.

WILL REACH \$80,000,000

Collector McBride is of the opinion that the year's outgoing commerce from Alaska will reach about \$80,000,000 when all the figures for 1926 are compiled. December shipments should add almost \$2,000,000 to the total given for the first eleven months.

In addition to this, reports on shipments of fur and gold by mail still are to be received which should add at least another \$2,000,000 to the total.

The balance of trade in favor of the Territory is expected to be the largest on record. Official figures issued by the Department of Commerce for the first nine months of 1926 showed imports for that period were valued at \$27,700,000, approximately the same as were shipped to Alaska during the same period in 1925.

WILLIAM SIBBALD BURNED YESTERDAY

Prominent Old Timer Suffered Painful Injuries from Fire Yesterday

William Sibbald, prominent old timer of the city, suffered rather badly from burns to his hands while attempting to extinguish a fire which had become ignited in his residence on Eighth Avenue yesterday afternoon. Mr. Sibbald had just returned from town and was in the act of lighting a fire in the heater when, by some means, papers became ignited and later the bedding caught fire. In an effort to prevent the fire from spreading, Mr. Sibbald seized the bedding and dragged it out of doors and, while doing so, had his hands badly burned. Dr. Cade was summoned and dressed the burns and later took him to the hospital where it is reported today that he is doing nicely although the burns prove rather painful.
