WITH TWENTY MINUTES TO GOOD FOR FIRST TWO LAPS. SHOULD WIN THE PAS DERBY

THE PAS, Manitoba, Jan. 27. -Emil St. Goddard repeated his performance of Tuesday by finishing the second firty-mile lap of The Pas dog derby yesterday at the head of the field. His time was three hours and fifty-eight minutes, Earl Brydes being second, nine minutes behind with Leo St. Goddard, H. Olensky and Shorty Russick traiting. St. Goddard now has a lead of twenty minutes over Brydges for the eighty miles covered, his chances being excellent to be declared the winner at the conclusion of the third and final firty-mile lap today.

United States Government Gives Long Deferred Statement of Its Attitude on Chinese Situation

WASHINGTON, January 27 .- The United States government is ready to negotiate new treaties with China acting independently of other countries if need be but it cannot abrogate the existing treaties until new ones have been signed and ratified by the Senate. Meantime, it is holding naval forces available in Chinese waters to protect American life and property should the Chinese fail to accord such protection. Such was the substance of the long deferred expression of policy in connection with China which was made public ast night by Frank Kellog, secretary of state.

SHANGHAI, Jan. 27 .- The first of thousands of soldiers which Britain is measure, arrived here this morning. WAS INSPECTOR Junjab troops, numbering 425 men, came up from Hong Kong on the steamer Glenegle. Their embarkation was effected without incident.

CUSTOMS PROBE IN BRITISH COLUMBIA.

Now that the customs probe, which indeed produced interest- duties and obligations in connection ing revelations, is closed as far as British, Columbia is concerned with Gyro affairs. anticipation will be keen as to the nature of the report and what . recommendations the commissioners may make. As far as the cus- stallation, the retiring president, Stan toms laws of Canada were concerned, and that was what the com- Taylor, paid tribute to the new presimission was primarily formed to investigate, there have been few dent, Eddie Mann, than whom, he disclosures of violations other that the possible re-smuggling of said, there was no finer citizen in liquor into the province. The investigation may also have been of Prince Rupert, and to the other capsome value to the United States in enforcing its liquor laws, that able officers and directors who had was one of its secondary purposes, but the most interesting disclosures and those about which the commission heard the most were the contributions to campaign funds-both provincial and federal. for the work that had been done and There are some who think that the admissions along these lines the loyal support given by his staff of may have covered up a multitude of sins. Thereby, probably, hangs officers and the members generally. a tale the relation of which would be more interesting than anything the commission was successful in bringing to light. Perhaps, the commission in its report may make some suggestions to clear tary Club which had much the same the air. Whether or not it will have been responsible for any re- ideals as Gyro and everywhere demonform, it has at least satisfied public curiosity to a degree. A real attempt has been made to reveal the true condition of affairs no matter whose reputations the truths might have injured.

ABSENT LEADER CAUSING WORRY.

Did the Kamloops Conservative Convention choose a provincial leader of the party who had no intention of leading in the generally son. W. J. Nelson and W. H. Tobey. accepted sense of the term?

This is one of the questions which is being asked throughout the province and even in the corridors of the Parliament Buildings appreciative though humorous referby quite a number of Opposition supporters who are beginning to ence to the work done by past presirealize the unheard of situation of a party leader attempting to lead dents and officers. The first president at a range of nearly three thousand miles.

Colonel Lister announced—an inadvertance which, it is un-conceived the idea of a Gyro Club in derstood, considerably perturbed Dr. Tolmie and his supporters - Prince Rupert and who had seen it that the provincial leader does not propose to seek election to the firmly rooted. Then came Roy Mc-Legislature until the next general election. Now that the cat is out of the bag, however, Conservative members of the House are keenly gether and finally welded the club into aware of the anomalous position which they stand in this regard.

The less enthusiastic followers of Dr. Tolmie, while good preceding himself in the chair had Conservatives, are seriously asking themselves how their leader is been stan Taylor under whom the club going to keep himself posted on the march of events, to say nothing had had its most successful year. With of taking responsibility for his party's actions, unless he can be such a firm foundation law and with on the spot for daily consultation.

So far they have not been able to find an answer to this question which will satisfy them.

MR. RATTULLO'S ANSWER

TO HIS CRITICS.

In the Legislature the other day Hon. T. D. Pattullo, minister dertaken during the year by the club. of lands, completely answered those critics of the government's Mr. Mann lauded the playground protimber policy who are continually charging that this province's raw logs are going to the United States in too great a quantity and at the expense of the British Columbia's industrial expansion.

Mr. Pattullo showed that the total cut last year was three his heart, Mr. Mann said, was the idea Secretary Ed Kagy who was at Montbillion feet, and that the export of logs in the raw in proportion to of the establishment of a community real in connection with the co-incident the total cut was about seven per cent, or four per cent less than playground in the city. He expressed establishment there of the newest Gyro the export of raw material from little Finland. The minister also the hope that the Gyro Club would get club on the continent. showed that out of the 225,000,000 feet in logs that left British Col- behind that movement and that, with umbia last year, 170,000,000 feet went to Japan and not to the United the combined efforts of various organi-States at all. And, what is more informative still, only about 50,- zations, the project might be realized 000,000 feet of these were cut from licensed areas under the con- during 1927. trol of the government.

Apart from the well-known fact that most of these raw logs President Lougheed for the effort are of low grade timber and not easily marketable when they come had made, with some personal sacrifice, into competition with European timbers-as they do-it should not to be present. Owing to his illness, be forgotten that in the preparation of the export of those logs to there had been some doubts as Japan-with a small proportion to the United States-a good deal whether he would be able to com of employment is found for British Columbians. He does not pro- but happily he was here. Typical pose to take away their means of a livelihood and drive them across the district containing the world's the border.

WITH INTERNATIONAL PRESIDENT CLARENCE LOUGHEED IN AT-TENDANCE LAST NIGHT WAS BIG ONE FOR GYROS

With a distinguished guest in the person of Clarence Lougheed of Calgary. International president, in attendance to direct the ceremonies, installation of President Eddie Mann and other 1927 officers of the Prince Rupert Gyro Club took place at a dinner last night in the Commodore Cafe which was largely attended by members of the club and guests. A special bill-of-fare had been arranged by the restaurant management and, with an attractive program dispensed, the evening's proceedings was both impressive and en-

The first speaker was President C. H. Orme of the Rotary Club who conveyed the greetings of his organization and expressed appreciation for the in-Club to be present. The Gyro Club he said was doing a good work and was indeed seting the pace for the Rotarians. No mistake had been made by had worked with him and had found him always on the job and anxious to help in fair weather or foul.

Before the installation ceremonies, nternational President Lougheed installed two new members of the club -Glen McMillan and "Budge" Paul. He gave an interesting account of the various organizations of Gyro-the district and international bodies-and duly charged the candidates with their

The Service Which Makes the Milk in this Tin So Good

CARNATION realizes that good evaporated milk must start at the farm. So Carnation condenseries are located only in districts where dairying reaches its highest level. To aid dairymen there is the Carnation Field Force-a body of men whose sole job is to see that the dairymen who supply Carnation with milk, supply the best milk in the world.

This is but one of the many features which make Carnation Milk so good-but one of the many reasons why Carnation adds creaminess to coffee, and makes all cooking so delicious. Carnation is just pure, whole milk, evaporated to double richness and made safe by sterilization. Diluted, it gives superior results in all cooking. Undiluted, it takes the place of cream at one-third cream cost. Order Carnation from your grocer.

Send for a free copy of Mary Blake's Cook Book. Address Carnation Milk Products Company, Limited, 134 Abbott St., Vancouver, B.C.

HAVE PROBLEMS

DELEGATION AT VICTORIA - VALU-ABLE WORK OF CHARLES OLIVER. PREMIER'S SON

VICTORIA, Jan. 27 .- The fruit growers, who appeared before the select standing committee on Agriculture at the Parliament buidlings, arrived in the city ready for action. They were earnest men impressed with the importance of their mission and they claimed that the fruit growers had enough problems of a cultural nature to solve without having to worry about marketing re-

These men stated that those not engaged in the business have little idea of the highly scientific nature of the fruit growing industry. The growers are subject to the vagaries of the weather, which may be ideal for tour-

greatest enemies of the grower but the growers who have been able to subject and those nasty words "com- sprays. pulsory legislation" have had to be the growers on account of the unwill- FORT ROUGE SHOPS ingness of some to adequately spray their orchards.

In this connection the fruit men pay a glowing tribute to the value to the district of the plant of the Oliver chemical works at Penticton, the maners in the matter of reduced prices on provincial championship in first spraying materials.

While the price was formerly \$16 is automatically entitled to enter the per barrel it is now reduced through lists for the Montizambert trophy, rethe action of the Oliver Chemical Com- presentative of the Dominion champany to \$11.50 and the barrels are re- pionship and the highest award of th purchased by the company, making the St. John Ambulance . Association cost approximately \$10.50 net for the Canada. This trophy is now held by the Wakefield and Mrs. Besner pouring spray.

fluence has been so noticeably felt in the organization of the plant and in the research work necessary for the improved methods of manufacture is munition factories at Berthamboy, New Jersey, where explosives were manufactured for the Allies.

WORK FOR GOVERNMENT

At the request of officials of the Dominion Government he took charge of work of molybdenum separation at Hull, Quebec, and was also engaged at the Moss Mine at Ruyon, Quebec and later joined the Royal Flying corps.

After close of hostilities he was engaged with the Canadian Consolidated Mining and Smelting Company as a research chemist but in 1921 he undertook experimental work at Vernon for the manufacture of lime sulphur spray

by a new process. As a result of these researches he organized in 1922 the Oliver Chemical Company, Limited, which purchased a site and erected a plant at Penticton. It was in this connection that he interested his father, Hon. John Oliver, to invest sufficient capital as a shareholder to permit of the undertaking being a reasonable success. It was a venture with some risk attached thereto but Honorable Mr. Oliver had such confidence in this son's ability and the need of a plant to manufacture sprays

and then the Richmond Steel Corporation of New York purchased it at auction. The latter concern, however, found the stuff to be a white elephant and was unable to dispose of it until a few days ago, when a deal was put through with the Soviet government. The sale said to have been made largely through a Vancouver agency bringing the two parties together.

Recently agents of the Moscow government came to Vancouver and inspected the material and since then word has come from Russia that they approved of the transaction. The 4. 000 cars will, therefore, find their destination nearly ten years after the m tended time.

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful.

Every manager of a household---every member of the household who shares the responsibility for the family's welfare---should make a habit of reading the ads.

> Read the advertisements in order to buy wisely
