General Strike Called in Shanghai in Protest at Raids on Union Hall

NORTHERN CHINESE TROOPS ENTER PUKOW, ACROSS FROM NANKING, AND ARE NOT OPPOSED BY SOUTHERN FORCES

SHANGHAI, April 13.—A general strike has been called by the Labor Unions in protest against raids on the Union Hall by moderate political organizations under orders from General Chiang Kai Shek, Cantonese general, who is at odds with the radical civil government in Hankow.

HOLLANDERS IN SETTLER PARTY

MORE THAN 3,500 IMMIGRANTS REACHING WESTERN CANADA THIS WEEK OVER C.N.R.

WINNIPEG, April 13.—More than a thousand of the 3,500 immigrants scheduled to reach Western Canada over the lines of the Canadian National Railways this week, arrived in Winnipeg yesterday. Practically all of these were Europeans and they are destined for farm work in various parts of the prairies to which they will be sent as quickly as circumstances permit.

FINISH LOADING OF SHIP TODAY

OTTER POOL WILL BE READY TO SAIL TONIGHT OR TOMORROW WITH GRAIN FOR U.K. OR CONTINENT

The British freighter Otter Pool, which has been here since the first of the week, will have completed before this evening the loading of some 285,000 bushels of grain at the local elevator for delivery to the United Kingdom or continent and will be ready to sail tonight or first thing tomorrow morning.

HOPE FOR MEN NOW GIVEN UP

TWELVE FISHERMEN FROM NOVA SCOTIA SCHOONER COMMONWEALTH NOW CONCEDED LOST

HALIFAX, April 13.—Twelve men missing from the Gloucester fishing schooner Commonwealth, which burned and sank off Brown's Bank on Friday, have been given up as lost, the search being abandoned.

KAMLOOPS WOMAN'S BODY IS FOUND ON BAR IN THOMPSON R.

KAMLOOPS, April 13.—The body of Mrs. W. L. Steele, aged 40, who was last seen on a bridge here Friday night, was found yesterday on a sand bar in the Thompson River, a mile below Kamloops.

WEEPAH, in Nevada, is a new gold centre, where thousands are flocking since the big gold strike made by Frank Horton, Jun., and his friend Leonard Traynor. The strike is assaying \$78,000 to the ton and is one of the richest claims ever seen.

JERRY PUTS UP STICKLER

WHY IS NOT QUEBEC DIFFERENTIAL ENFORCED AS WELL AS B.C. MCGEE ASKS

OTTAWA, April 13.—Still urging the injustice to the Pacific Coast province of the continuance of the mountain differential, G. G. McGeer, K.C., British Columbia counsel in the freight rates investigation before the Board of Railway Commissioners, on Tuesday afternoon asked why, if the discriminatory rate was justified by the alleged greater cost of operating and cost of maintenance, it was not enforced in Quebec where the cost was forty-seven per cent greater than in the west. He further showed from railroad figures that a very substantial increase in traffic, such as that during the grain movement, did not cause anything like the same increase in the cost of handling.

H. C. BLACK IS DEAD IN CITY

WAS WELL KNOWN CIVIL ENGINEER AND HAD RESIDED HERE TWELVE YEARS

After an illness of some time from which it was realized lately that he could hardly recover, Harry Charles Campbell Black, well known local British Columbia land surveyor, succumbed early this morning in the Prince Rupert General Hospital. The remains are resting at the parlors of the B.C. Undertakers, whence interment will take place tomorrow afternoon with Archdeacon G. A. Rix officiating.

Vancouver Advises Thornton That Yards Here Are Fully Adequate to Construct Boats

VANCOUVER, April 13.—That the building of vessels for the new service to be inaugurated between Canada and the West Indies by the Canadian National Steamships under trade agreement should be divided proportionately between Atlantic and Pacific shipyards is the recommendation contained in a resolution passed by the Vancouver Board of Trade which has been forwarded to Sir Henry Thornton.

"Canadian Government Merchant Marine facilities on this coast," says the motion, "have in the past proven themselves eminently equipped to construct tonnage and, in view of the present business done on the Pacific Coast by the government lines and the great future developments, we strongly urge that full cognizance be taken of the Pacific in awarding the contracts."

ANOTHER FLOW OF GRAIN COMING HERE

There is to be another spell of grain shipping to this port. Loadings of 450,000 bushels or four hundred carloads from the prairies are announced. Boats now loading and due here shortly will take grain to make room for that which is coming. While there will probably be some grain left in storage here during the summer, the most of it, it is understood, is to be removed by steamers this spring.

FOR LESS
WILL POWER.

It is becoming more difficult as times go on to read the text of a periodical without meeting the self-improvement salesman. He's there every month in the front of the book with a scheme to make your lungs as capacious as a blacksmith's bellows and your memory as enduring as that popularly ascribed to the elephant. He seeks to plant in you a desire for biceps as powerful as Mr. Zbyszko's and will as unyielding as Gibraltar.

Especially is he anxious about your will power. He insists if you say every morning, "I will have a million dollars before I die," that eventually that prospect will materialize.

This may be entirely true, and a strong will may be capable of scaling any height. But much depends on the task set for the will. It might be as well in the end if there were courses arranged for deflation of a lot of the will power in the world. A movement for weaker wills would stop, among other things, all future wars for it would do away with a vast amount of selfishness. A will as inflexible as Everest is not particularly precious if it is exercised in tramping on the rest of humanity to reach a seat in the sun.

The picture of the downy sophomore clenching his fists before the mirror and parroting the mystic ritual is engaging. But perhaps it would be better in the beginning if he substituted faith for gymnastics in will power. Faith moves men forward with no loud gritting of teeth and digging of nails into the palms. The will developer is apt to be an annoyance to himself and a nuisance to his friends.

NO LONGER A
FRIENDLESS WORLD.

A reviewer of books points out that the recent crop of translations is unprecedented. That is of good omen. As no man is sufficient unto himself, so is no nation. It is well for the peoples of the world to come into the fullest understanding of each other's literature. Such an understanding makes for world peace.

The printing press is the most powerful factor in making men feel the common brotherhood of humanity. But language differences are a great barrier against international understandings. It is very easy to get the notion that the fellow who can't understand or speak your language is a potential enemy. But when you can read his thoughts in your own forms of thought, and recognize that his desires and purposes and ideals are akin to yours, you lose the sense of alienation.

After all the great spirits among all the different peoples get about the same revelations, have about the same aspirations and believe in about the same principles. It is this community of spirit that translation helps to bring about. The world cannot have too much of this.

CONTAGIOUSNESS
OF FEAR.

That the public may be thrown into a panic with small cause and with great suddenness has been demonstrated time without number. An unfounded rumor, a warning of the remotest menace, some discovery or incident that loses its alarming aspect when seen in relation to contemporaneous facts and conditions—any of these is capable of inciting public frenzy. But these fears are as easily and as quickly dispelled. Two instances in point come to mind.

A few years ago, after spread of the "white plague" had been checked and the infant mortality rate had been lowered, and epidemics of infectious and contagious diseases made rare by sanitation and public health work, the public found a new "scare" in the rapidly growing number of cancer, heart disease and apoplexy cases. The situation was deemed cause for alarm. And then it occurred to some physician or philosopher that the three "new" enemies of longevity claimed most of their victims from those past the half-century mark, and that they were claiming more victims because more people are reaching the age when they are most susceptible to cancer, heart troubles and cerebral hemorrhages. Science, education and sanitation have the diseases of early life in relative control and have come to the second line of defense there to meet in mortal combat with the diseases of later life.

Another illustration of the ease with which most persons can be persuaded they are in dire peril relates to the birth rate. When statisticians discovered that families of eighteen children were not uncommon in colonial days but that the average family of today has but two children, the cry of "race suicide" went up near and far. The situation would have been dark, indeed, but for the fact that colonial parents had less chance of raising eighteen children to maturity than modern parents have raising two. So after "enjoying" their little scare the people awoke to the fact that the nation is no nearer "race suicide" now than it was 150 years ago.

CONSERVATIVES
TO CURB UNIONS

STAGE ALL SET IN BRITAIN FOR
GREAT POLITICAL BATTLE—SOME
LIBERALS IN FAVOR OF BILL

GENERAL ELECTION MOOTED

LONDON, April 13.—There seems to be no possible doubt that an overwhelming majority of the Conservative members of parliament is determined to see the government's bill restricting the powers of the trade unions become law.

A small number view the bill with apprehension, others say it does not go far enough, while some would like certain provisions altered which will probably take place when the bill goes into committee. The majority, however, are in favor of the bill practically as it stands.

Thus the stage is set for one of the greatest political battles which will test the powers of the Tory party's adroitness in meeting the onslaught of Labor, and will, in all probability, decide the future of the Liberals.

GRITS FAVOR IT

There are many Liberals in favor of the bill, but the general opinion outside Conservative ranks is that the present is an inopportune time to present it.

Labor, naturally, is solidly opposed to it and will endeavor to prevent its passage by every conceivable means. Indeed Laborites have already decided on a nation-wide campaign to exploit the measure as a move against British workers in an attempt to capture the industrial vote.

A general political upheaval is likely to follow the bill's fate in the Commons, and there is increasing talk of an early election when Premier Baldwin will test the country. But so far Downing Street says "no," declaring the government is quite content with matters as they are.

JIBES FOR BALDWIN

Meanwhile political humor is busy poking fun at the plight of the prime minister, pointing out that when he came into power he was pledged to economy, and now Hon. Winston Churchill, his chancellor of the exchequer, has produced the most expensive budget on record.

They also emphasize Premier Baldwin's famous speech, "peace in industry," contrasting that forecast with the general strike in which he found himself involved, and likewise are drawing attention to how he wished to cut down legislation and lead a quiet parliamentary life, instead of which he is now projected into what will prove one of the most stirring and bitter parliamentary battles the commons has ever known. No statesman has ever yearned for quietude with such ardor as Premier Baldwin, and no statesman has enjoyed so little. Every wish of his has been frustrated.

REFRIGERATOR PLANT
IN HOSPITAL UNDER
CONSIDERATION BOARD

If suitable guarantees can be secured from the company offering plants for sale, the house committee will have refrigeration facilities installed in the hospital. The decision was reached at the meeting of the board last night after letters had been read from various hospitals as to the operation of similar plants.

One company, through its representative, had written to the board at the last regular meeting offering to install a plant complete with cool boxes on the first and second floors of the hospital for approximately \$650. In the intervening period the secretary of the board had written to various hospitals for information as to whether the plants were considered satisfactory. This information having been received, the board decided that the house committee should proceed to have the plant installed if the company would guarantee that the cost of installation was included in its tender and also that the plant would prove satisfactory when installed.

Ten Years Ago
in Prince Rupert

APRIL 13, 1817

Mr. Winter, receiver for the Prince Rupert Hydro-Electric Co., left for Vancouver last evening after spending a few days in the city.

Friends of J. H. Thompson paid him a surprise visit last night in honor of his fifth wedding anniversary and presented him with a clock. Mrs. Thompson and son are spending the winter in the east.

Captain C. H. Nicholson returned to Vancouver on last night's boat. It is expected that another attempt will be made to float the steamer Prince Rupert in the course of a few days.

The Tillamook, which was recently purchased in Portland, Oregon, for the Prince Rupert-Alaska trade, is due from the south in a few days to take up her run.

Leo Waugh, formerly city manager for the government telegraphs, is now employed at Anyox in the same service.

IS SENTENCED
AT EDMONTON

FOUR YEARS AND EIGHT MONTHS
FOR ARTHUR SAYERS, CON-
FESSED THIEF

EDMONTON, April 13.—Arthur Sayers brought here from Prince George to stand trial on two theft charges, theft of a grain check by use of knock-out drops in Calgary and the cashing of the \$600 check after payment had been stopped, by presenting it at the C.P.R. depot here for railway tickets and express orders, pleaded guilty before Magistrate Primrose, and was sentenced to four years and eight months in the penitentiary at New Westminster, to which he has already been sentenced to a four-year term for use of knock-out drops near Prince George. Hugh C. Macdonald, K.C., appeared for Sayers.

Before buying a return ticket for Moose Jaw, later found on him when arrested, and getting away with over \$500 in orders cashed at Wetaskiwin. Sayers is said to have tried to check at the C.N. ticket office. The ticket was even made out for him but when the large check was presented the clerk decided to take no chance, becoming suspicious by the indifferent manner in which he had suddenly changed his destination from Winnipeg to Moose Jaw.

PARENT-TEACHERS
MONTHLY MEETING

Presentation to Mrs. Tucker and Address of H. C. Fraser Were Features Last Night

The regular meeting of the Prince Rupert Parent-Teacher Association was held in the Auditorium of the Booth School last evening. Mrs. J. Boddie presiding.

The meeting was informed of the plans to entertain the winners of the Vancouver Sun competition who will be visiting the city in the course of their trip through Central B.C.

D. H. Hartness suggested several ways in which the work of the association might be made of greater value to the pupils, the parents and teachers. W. C. O'Neill, secretary, informed the meeting of several plans that the executive had already discussed and stated that the future looks promising and worthy the support of all interested in the education of the children.

A feature of the evening was the presentation to Mrs. Tucker of a salad bowl in recognition of her faithful attendance and loyal service on the executive since the organization of the association. On behalf of the executive Mrs. G. H. Arnot made the presentation and Mrs. Tucker suitably replied.

Mrs. Dwight Rice delighted the audience with two electionary numbers "Little Christabel" and "The Soliloquy of a Darkey." J. S. Wilson sang "If I had the Wings of a Swallow," and "Are you right there, Michael?" Piano accompanists were Miss E. A. Mercer and Miss Etanda Marsh.

The feature of the meeting was an address by H. C. Fraser, inspector of schools. Taking as his subject "The Use of Intelligence and Achievement Tests." Mr. Fraser gave an interesting and valuable talk. Tracing the development from the theory of Locke, who held that nine-tenths of a person's progress was due to education, to that of Rousseau, who held that education was of no value but that abilities inherited were responsible for all. Mr. Fraser stated that the happy medium was probably more nearly correct. The speaker in a humorous and always instructive, talk touched on the increasing difficulty of the tests and the corresponding value thereof. The fact that the intelligence quotient only represented 15 per cent of the pupils' make-up required that the tests and their conclusions should be used only by those competent to handle them adequately. The talk took the uses of achievement and reading tests as employed by modern educationalists.

A vote of thanks to the speaker was moved by Mr. Hartness and seconded by Mr. Dwight Rice, who joined in voicing the hope of all that, at a future date, Mr. Fraser would give another such talk.

Refreshments were served by the refreshment committee.

Should this catch the eyes of the young couple who attended the performance of "Quo Vadis" last night and who sat in the middle section just under the gallery, it will apprise them of the fact that they successfully deprived those who had the misfortune to occupy seats in the neighborhood, of any enjoyment of the play. Their continuous inane comments, to say nothing of their very monotonous voices, were a constant source of annoyance.

CLUB TALKS RADIO PLANT

DISCUSSION INDICATES BUSINESS MEN FAVOR AIR STATION AT KETCHIKAN

KETCHIKAN, April 13. — Practically the entire luncheon meeting of the Ketchikan Commercial Club was taken up with the discussion of radio broadcast.

The executive committee, appointed last week to make an investigation into local broadcast conditions, gave its findings to the membership, which was followed by a short talk from Alvin Stenso, operator in charge of KGBU plant.

All indications, from the attitude of members present, pointed favorably toward the broadcast situation for Ketchikan, and it now seems that the club is interested in ascertaining the feasibility of leasing or purchasing the present plant or constructing a new one.

A committee of three will be appointed today to interview club members individually in an effort to gather data. They will also interview cannery owners to ascertain the degree of interest held by them in the proposition. It is believed that if the local station could be moved to such a location that would permit halibut fishermen to receive daily reports on the market, a great service could be rendered through radio.

WILLIAM J. KYLE OF ANYOX PASSES

Was Born in Ireland Seventy Years Ago and was Scholar and Frontiersman

The death occurred recently at Anyox of William John Kyle who passed away suddenly at his room at the advanced age of 70 years.

Deceased was born in County Tyrone, Ireland, and his parents left there when he was quite young. They settled in the Ottawa Valley, where he received his education under private tutors.

He followed the profession of school teacher during his early life, and also spent a number of years in the Yukon during the early stages of the gold rush.

The late Mr. Kyle was a scholar of many accomplishments, a gentleman, and a man well loved by his friends, who mourn his loss.

The remains were shipped to Vancouver for interment.

"GRANDMA" LITTLE OF TERRACE CELEBRATES HER 92ND BIRTHDAY

TERRACE, April 13. — Mrs. Helen ("Grandma") Little celebrated the 92nd anniversary of her birth at the week end. Many friends called during the day to offer congratulations and a family gathering was held at her home in the evening. Over a year ago Mrs. Little fractured her thigh and has since been confined to her bed—but is otherwise enjoying splendid health.

TERRACE

Mrs. Taper of Pacific spent the week end at Hill Farm with her son and daughter who returned home with her on Monday.

Mrs. Olof Hanson of Prince Rupert, is spending a few days as the guest of Mrs. Geo. Little. Mrs. Hanson is en route to Edmonton on a holiday trip.

Mrs. S. Fordham and child arrived on Sunday from Burns Lake to join Mr. Fordham and they have taken up house-keeping in the original Kenney home south of town.

Basketball fans who accompanied the Prince Rupert teams here included Misses Winnie Thomson, Victoria Krivsky and Nellie Gurvich and A. Skattebol, H. Heilbroner, D. Gurvich, D. Morrison, E. Hatchford, J. Scott and Principal Peddie.

Miss Elderkin accompanied the Terrace High School girls to Prince Rupert on Tuesday.

Cough Caused Constant Coughing

Mrs. D. M. Nolan, Douglastown, N.B., writes:—"Two years ago I had a terrible cold which settled in my bronchial tubes and caused constant coughing, and I could not sleep day or night. I read about

and thought I would give it a trial. After taking three bottles I was completely rid of my cough, and have never had a cold since."

"Dr. Wood's" has been on the market for the past 85 years, and its timely use may save you from suffering from some serious bronchial or lung trouble. Price 35c. a bottle, large family size 60c.; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Rupert on Tuesday with the basketball teams.

G. W. Kerr and R. Lahiff, Prince Rupert were visitors here on Monday.

Mr. and Mrs. W. Robinson and two children came in from Prince Rupert on Monday.

S. W. George of Prince George was a business visitor here during the beginning of the week.

Mrs. K. Landgaard, of Prince Rupert and formerly of Terrace is renewing acquaintances around town.

G. C. Mackay, provincial public works district engineer, Prince Rupert, is paying an official visit to the district this week.

G. Holben and K. Scherk, fur buyers of Prince Rupert, arrived in town on Sunday on a business trip.

Mr. and Mrs. J. McLaren went to Remo on Tuesday.

E. J. Moore has gone to Remo to work in the pole camps there.

The many Terrace friends of Principal Peddie of Prince Rupert High School welcomed him to town again last Mon-

day. He was the guest of Capt. J. B. Colthurst while here.

Mr. and Mrs. C. M. Giggey left on Tuesday for Prince Rupert.

Mrs. A. Y. Wilson of Remo was the guest of Mrs. T. J. Marsh on Monday.

ALICE ARM

Thirty of their friends gave a party in the Alice Arm Hotel in honor of Mr. and Mrs. J. A. Anderson, who were recently married, one of the pleasant features of the function being the presentation of a pair of handsome upholstered chairs. Cards were played during the early part of the evening, the prize winners being Mrs. Gust Anderson, Neil Forbes and William Stephen. A guessing contest was won by Miss Alma Evidsen. During supper there were remarks by J. Trinder, Ole Evidsen, Al Falconer, Neil Forbes and Mr. Anderson. The evening was brought to a close with dancing to music by an orchestra consisting of William Stephen C. Hutchinson and E. Aubusson.

The development tunnel being driven on the Red Point property has crossed through ten feet of good copper ore and latest reports are that it is still going through such ore. The strike was made at a distance of two hundred feet from the portal of the tunnel and 300 feet below the surface. This strike has been classed as a stringer from the main body which it is expected to encounter at about 100 additional feet.

Word has been received here that the Keystone Mining Co. will resume development work on the Keystone property as soon as weather conditions permit. The tunnel, commenced last year, will be driven to the ore body and plans for other work are being considered.

The Club Cafe building on First Street is being remodelled by Roy McKinley who will open a cigar and candy stand there.

Charles Ripley is down the bay about three miles taking out logs with a team of horses. The logs are for use at Al Falconer's sawmill.

Several Alice Arm buildings are being moved around this week to conform with the new street system. G. W.

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

LONG HOLIDAY PRINCE'S WISH

VISIT TO U.S. NOT ON PROGRAM OF BALDWIN OR PRINCE OF WALES

LONDON, April 13.—American girls who hope to dance with the Prince of Wales this summer and men who want to see Prime Minister Baldwin puff philosophically at the pipe that helps him through his troubles may have to join the parade to Canada. Both Edward and Baldwin are crossing the Atlantic but plan to go direct to Canada and return direct to England. Their decision is not final, but as things stand now neither is likely to enter the United States. Baldwin pleads lack of time. The Prince of Wales intends to take a rest and will spend all his spare time at his ranch at High River, Alberta.

The Prince and Baldwin will make the visit to Canada in their official capacity at the invitation of the Canadian government to participate in the Diamond Jubilee at Ottawa, celebrating the Confederation of Upper and Lower Canada.

PLANS SPEEDY TRIP

The prime minister's present plan is to spend the shortest possible time away. The political situation is troubled. Labor is sniping at Baldwin's Conservative government and the shadow of a general election may be hovering on the horizon—a cold shadow, because Labor

SINGAPORE BASE IS FREED OF MOSQUITO

Anti-Malarial Operations of British Authorities Prove Effective—No Screens Necessary

LONDON, April 13.—During his recent visit to Singapore Sir Donald Ross, the director-in-chief of the Ross Institute and Hospital for Tropical Diseases, visited the naval base site on the Straits of Johore, where precautions against malaria have been the forerunner of actual construction work.

At the base drainage operations calculated to insure freedom from malaria were recently begun. This is an area where malaria might be expected to arise had not preventive measures been started before the work on the base had commenced. It illustrates the value of prophylactic measures based upon a sound knowledge of the work necessary to effect complete immunity.

Anti-malarial operations there began in 1924. Part of the land is hilly, a part fresh water swamp, and part mangrove swamp. By drainage, filling, and by the construction of a tidal bund to keep out the sea water, an area of about one square mile has been thoroughly cleared of the breeding places of practically all mosquitoes, including the two dangerous Anopheles umbrosus and Anopheles maculatus.

The majority of the buildings in the naval base have been admirably screened, but recently it has been remarked that even a mosquito net was no longer a necessity, such has been the success of the work carried out upon the most thorough and up-to-date lines.

An average labor force of 100 coolies is employed upon the anti-malarial operations and the number of sick is very small. Anti-malarial work on the same lines as that on the naval base itself is about to be commenced at the seaplane base.

UNIQUE INSTRUMENT DETECTS TREASURE

Young English Fortune Hunter Uses Violet Ray Machine at Panama

COLON, Panama, April 13.—Passengers on the Canadian Pacific flagship Empress of Scotland, now completing the last lap of its tour of the world, visited the ruins of the site of the old city of Panama, built in 1646 and destroyed in 1671 by Sir Henry Morgan, the famous English pirate. The ruins have recently come into the limelight by reason of the successful quest for buried treasure, by a young English fortune hunter, Lieutenant George Williams, by means of a violet ray detecting instrument of his own invention. His find, which consisted chiefly of church gold ornaments, gold dust and jewels, was valued at \$50,000. This delicate instrument still indicates the presence of a yet larger treasure at this site, although hydraulic pumps will probably be found necessary to remove the seepage of centuries before Williams will be able to penetrate a secret subterranean passage which was uncovered as passengers from the Empress of Scotland viewed the ruins.

The government of Panama has awarded Williams the treasure-seeking concession in consideration of handing them one-quarter of the treasure recovered, which is believed to have been buried when Morgan besieged the city.

T. McGarth, operated the world's largest dredge, engaged in removing the recent landslide from the Gaillard Cut.

BASKETBALL AT TERRACE

CORRESPONDENT TELLS OF MONDAY'S GAMES—PRINCE RUPERT GIRLS LED IN FIRST PART OF MATCH

TERRACE, April 13.—The first of the series of basketball games between Prince Rupert and the local high school teams was played here on Monday night in G.W.V.A. hall when the little Terrace team defeated the hard-checking Prince Rupert girls, but the Terrace boys went down to defeat before the visiting boys' team.

A large audience watched the games, all available seating space in the hall being occupied and spectators standing all around the walls. Enthusiasm ran high, both sides having many interested supporters.

Considering the short time the Terrace girls have been playing, scarcely six months, great credit is due them for their victory over girls who have had several years' training. Much of the credit of their success is due to the very efficient coaching of Dr. Turpel who has been most untiring in his interest in the team.

The girls' game was close throughout, the score at half time being 6-3 in Prince Rupert's favor. In the second half the Terrace girls found themselves and did some splendid combination work. One half minute before time a fine shot by K. Burnett tied the score

which at full time stood 11-11.

It was then decided to play two overtime periods of five minutes each. In the first of these Fanny McLaren put her team ahead on a foul shot and Mona Greig clinched the game with a beautiful basket from the foul line.

Both Bess Moore and M. Cretien also showed that they could hold up their end.

The boys' game was a very one-sided affair, the visitors completely outclassing the home team in every department.

The score at half time was 13-4, full time 23-9. For the winners H. McDonald scored 12, and A. Moore registered 5 for the local team.

The timekeepers were James Smith, Terrace, and H. Heilbroner, Prince Rupert, while Dr. Turpel refereed both games. The line-ups were as follows:

FIRST SOCCER MATCH FRIDAY

SCOTLAND AND ENGLAND WILL PROVIDE FEATURE FOR EASTER HOLIDAY

The first football game of the season will be played on Good Friday afternoon when teams representing Scotland and England will battle for the benefit of Mrs. James Arthur and family. The line-ups, approved last night at an executive meeting of the Prince Rupert Football Association, will be as follows:

Scotland—Andy Murray; J. Harris and F. Hunter; George Mitchell, Sam Currie and A. Macdonald; J. S. Wilson, P. Doherty, S. Erskine, A. Haddad and J. Farquhar; spares, J. Andrews, W. Barton and J. Strachan.

England—R. Howe; J. Hart and R. B. Skinner; George Hill, Percy Tinker and Frank Hodgkinson; A. Walters, F. Russell, A. Dickenson, George Howe and C. J. Norrington; spares, Tom Kelsey and Spiro Gurvich.

The trainer of Scotland is Ben Ferguson, and of England, J. Dickenson. George S. Russell has been appointed referee and George Kelsey and Jack Campbell will act as linesmen.

At the executive meeting last night, which was presided over by R. M. Winslow, president of the Association, with Ben Self, H. Parr, Jack Watson and Fred Wermig (secretary) present, the date of the association's annual meeting was set as April 19.

LOCAL PLAYERS ARE SUCCESSFUL

TERRACE HIGH SCHOOL BASKETBALLERS WENT DOWN IN BOTH GAMES LAST NIGHT

Prince Rupert High School teams won both games last night from the visiting teams of Terrace High School, the girls' team winning by a score of 16 to 10 and the boys by a score of 18 to 19. Both games were fast with the Terrace girls showing excellent combination work and deserving great credit for their first season in basketball.

The Terrace boys seemed to be a little slow in following up advantages on different occasions and were not as effective in their shots on the basket as were the local boys. The large hall, too, somewhat handicapped the visitors who at first found it difficult to acustom themselves to the large playing area.

Geo. Mitchell acted as referee and Miss G. Kenny and H. Heilbroner as timekeepers.

The teams lined up as follows:

BOYS Terrace — A. Moore, R. Thomas, D. Kerr, I. Greig, F. Hipp. Prince Rupert—H. Macdonald, R. Stalker, D. Stalker (captain), M. Sakamoto, B. Irvine and B. Hunt.

GIRLS Terrace—B. Moore, K. Burnett, F. McLaren, M. Greig, M. Cretien, G. Kenny, M. Scaman.

Prince Rupert—P. Harvey, C. Irvine, H. Sim, A. Minzgohr (captain), J. Walters, E. Stein and M. Gilchrist.

Miss B. S. Elderkin accompanied the Terrace team to the city as chaperone and Dr. W. Turpel came as coach.

SPORT CHAT

After a lull in local sporting activities, attention is now being given to the sports program for the spring and summer months. The football association held a meeting last night and will probably hold another in the near future. The baseball association is planning for an early meeting when plans for the season will be discussed.

This year there will probably be at least three baseball teams in the city league with one team having the backing of the Gyo Club and another the backing of the Sons of Canada. As to what organization will attempt to back other teams, there is very little information at the present time. From the standpoint of interest, a three team league is much preferable to a two team league. There should be plenty of material for three teams, even if each had to play a certain number of former junior players. It is better for the sport and tends to encourage the younger players.

There are a large number of junior tennis players in the city and it might be a good thing to arrange for a junior tennis tournament this season. If all the competitions are to be confined to the older and experienced players, there is not much hope of encouraging the youngsters.

Nothing definite yet about that junior lacrosse match as one of the attractions for the first of July! With the possibility of warships and plenty of visitors in the city for Canada's birthday there should be a united effort on the part of the citizens to provide worthy attractions. Perhaps, sometimes there is a tendency to bring plenty of material in from the outside to furnish sporting competitions, when real home talent might be encouraged to good advantage.

Bobby Jones, open golf champion for the United States and Europe, has shown that he can do more than play golf. In the recent freshmen examina-

ations at an Atlanta, Georgia, law school. Bobby topped the class.

Fort William hockey players, contenders for the Allan cup with the Toronto Grads in Vancouver, received a real welcome on their home coming even though they lost the coveted silverware. The people of the city turned out en masse and arranged a great procession which was led by two bands. The neighboring, and rival city of Port Arthur, contributed a large number who joined in the celebration.

A local sporting fan who witnessed the games in Vancouver says that the teams were very evenly matched, with Port William possibly having the best of the play in the last game which was won by the Grads. Toronto team were a little heavier and were older players but this was offset by the youth and pep of the Thunder Bay organization. Anyway, if it was a great series to win, it was also a hard contest to lose.
