Note to United States Regard to War Debts Sent by Great Britain

LONDON, May 4.—A full exposition of the British viewpoint regarding war debts is believed to be contained in a lengthy note sent to the United States today.

The note, it is understood, is the outcome of a controversy over war debt between secretary of the treasury Mellon and British Chancellor Churchill. It is thought to be in the nature of a reply to Mellon's viewpoint that Britain is receiving more from her continental war debtors than she is paying to Washington under the debt-liquidation agreement.

MAY CONTINUE IN BRITAIN

MR. MORRISON CONSIDERING
WHETHER TO EXTEND INQUIRY
TO OLD COUNTRY

VICTORIA, May 4.—At the conclusion of the inquiry by the Morrison Royal Commission here into the Gauthier case, Mr. Justice Morrison deferred decision as to whether the investigation should be extended to Great Britain in an effort to settle definitely the question whether Liberal officials accepted contributions to campaign funds from commissions with Old Country agents.

During the day W. T. McArthur denied the action of paying Gauthier as being "good political business." He said he believed Gauthier was going to bring a slander suit against the Paterson, government purchasing agent, in connection with statements Gauthier had made in Britain "as a result of getting before the public of province numerous statements he had written out just before he was going to hold a provincial election. He said the money was paid out of the campaign funds."

MORNING FIRE AT HAZELTON

TO CABINS AND OFFICE BUILDING
DAMAGED FROM BRIEF BLAZE

HAZELTON, May 4.—The residents of Hazelton were aroused from their slumbers by a fire which broke out at about five o'clock this morning. Investigation proved the cause of the excitement to be a fire which started in the cabin occupied by Mr. Larmer. Another cabin alongside soon followed as well as the office building of "Wm. Grant. With the aid of the fire department, the contents of the office furniture with the exception of the two safes. The contents of the two cabins, however, were nearly lost. Fortunately at the time of the fire there was little wind, otherwise the fire would have been a different story to tell in that particular quarter of town. It is believed insurance was paid by the owners.

ORGANIZER FOR LIBERAL PARTY

FOR S. J. M. MOODY OF IRISH
SOLDIERS WILL HAVE CAMPAIGN
DURING NEXT CAMPAIGN

VANCOUVER, May 4.—Major S. J. M. Moody of Vancouver, who has held responsible positions in Liberal party organizations during several recent elections, has been appointed organizer for the party in British Columbia. It was learned on reliable authority, says the Daily News, that his office will be at Victoria.

Moody is a high school teacher by profession and he is an officer in the Fusiliers battalion.

This is the first appointment made for the newly-organized B.C. Liberal party since its formation at the recent convention in Vancouver. Others will be named in due course, it is stated.

Pattullo Announces Road to Galloway Rapids Across the Island is to be Put Through

Hon. T. D. Pattullo, minister of lands and member of the Legislature for Prince Rupert, arrived from Victoria today. He stated that he had arranged for the Hon. A. M. Manson, attorney-general, and Hon. Dr. Sutherland, minister of public works, to accompany him on this occasion but they were unable to leave Victoria on account of the sitting of the royal commission investigating the Gauthier charges. Mr. Pattullo stated that he expected Mr. Manson and Dr. Sutherland would be up very shortly.

Mr. Pattullo also stated that it is the intention to proceed without delay with the roadwork on the Queen Charlotte Islands and to Galloway Rapids. It is expected that the road to Galloway Rapids and the road from Port Clements to Queen Charlotte City will be completed this year.

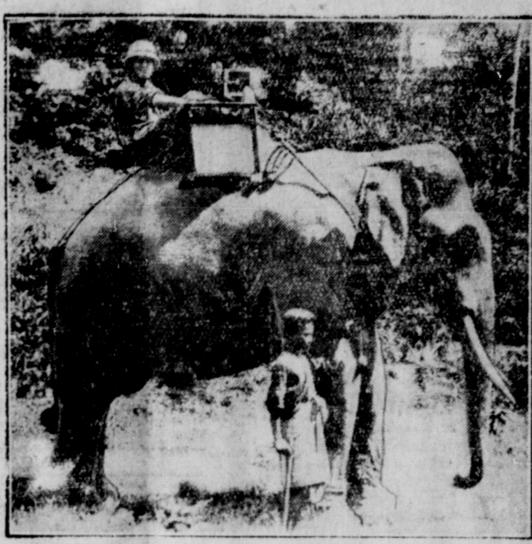

Mr. Pattullo, as he disembarked from the steamer Prince Rupert, remarked jocularly that he had to come home to get some sunshine. He announced the appointment of Engineer Clark to succeed J. E. Milne, assistant district engineer for the department of public works, who moved south recently.

Huge Consignment of Liquor Seized at New York on Steam Trawler from St. John, Canada

NEW YORK, May 4.—The British steam trawler Gabriella was seized with \$1,200,000 worth of liquor cargo and thirteen members of the crew were arrested as the vessel entered port today.

The Gabriella's papers showed that she cleared from St. John, New Brunswick, for Nassau. The vessel attracted attention when she failed to make the customary stop for inspection by the health authorities at the quarantine station. The alcohol was found stored in two thousand drums and is said to be the largest seizure ever made here.

SCOLLARD CASE NOW SETTLED

AGREEMENT REACHED BETWEEN MIL-
LIONAIRE LADY AND HER
HUSBAND

VANCOUVER, May 4.—After months of dispute an amicable settlement was reached between Mrs. Sarah Scollard in her legal differences with her husband, Francis Scollard, to regain two million dollars' worth of securities. The settlement, which was announced yesterday, stated that the charges which had been standing against Scollard in the Washington state courts would be withdrawn.

WHEAT POOLS CONFERENCE

BIGGEST THING IN CO-OPERA-
TIVE MARKETING AT KANSAS
CITY TODAY

KANSAS CITY, May 4.—Carrying out the plans laid months ago the big wheat pools of the world are in conference here today trying to find a way to unify their efforts and work together co-operatively. It is the biggest thing in its scope ever attempted by co-operative grain marketing forces in the world. Representatives are present from Canada, Australia, Russia and United States and it is possible that some plan may be agreed upon with a view to steadying the wheat market and preventing manipulation by outside influences.

URGES PAYMENT OF CORONERS' JURIES

VANCOUVER, May 4.—After returning a true bill to the indictment charging Robert Moore and Angus Nicholson with murder in connection with the death of Marshall Douglas, the Grand Jury was discharged. It presented a resolution to Mr. Justice McDonald commenting on the various police forces in Greater Vancouver also recommended that coroners' juries be paid for their services.

BABY FACED BANDIT TWO YEARS IN PEN WANTED IN STATES

WINNIPEG, May 4.—George Hutton, the baby faced bandit, was sentenced yesterday to two years in Stony Mountain Penitentiary for the theft of a car near Virden. Hutton is wanted in Washington state to face a charge of grand larceny.

ALICE ARM WILL BE BUSY CAMP AS MINING REVIVES

ALICE ARM, May 4.—More mining development work will be carried on this year in the Alice Arm district than ever before in the history of the camp. This season will see the Toric concentrating mill in operation and, in addition to this, operating properties will include the Red Point, Vanguard, Home-stake, Copper Cliff, Toric, Es-peranza, La Rose, Eagle, Silver Cord, Le Roy, Keystone, Devlin Zinc and Bunker Hill.

The camp will also benefit from the logging operations on the Granby limits.

CONTEST TODAY FOR LEADERSHIP

PIRATES AND CARDINALS AT CLOSE
GRIPS WHILE JINX HAS
GIANTS IN GRIP

NEW YORK, May 4.—The Pirates and Cardinals are fighting today for the leadership of the National League as the New York Giants continued to lose ground before a persistent jinx.

The Pirates-Cardinals series at Pittsburgh took on a new aspect of importance when the Pirates went into a deadlock with the league leaders by beating them 11 runs to 10 in a game yesterday which was marked with terrific hitting.

GUILTY OF ACCEPTING MONEY SMITH INLET

CHRISTENSEN OUT ON SUSPENDED SEN-
TENCE FOLLOWING PLEA IN COUNTY
COURT

VANCOUVER, May 4.—Suspended sentence was passed in the county court here today on Frederick Christensen, who pleaded guilty to accepting money in July of last year, while federal fisheries guardian at Smith's Inlet, the same being with intent to interfere with the administration of justice.

FOOD SCARCITY FORCES WOLVES TO RAID TRAPS

EDMONTON, May 4.—A band of wolves which has been trailing and raiding far northern trap lines and destroying moose and deer, has been killed by trappers, according to word brought here. With scarcely a rabbit in the country, the wolves were driven by hunger to raid the lines, causing heavy losses to trappers. Even birds of prey are feeling the scarcity of food, says Mr. Parnell, who made the report about the wolves.

MAKES PURCHASE OF DEMONSTRATION FARM

VERMILION, Alta., May 4.—The provincial government has purchased eighty acres of land adjoining its present demonstration farm, at a price close to \$3,500.

The government farm now comprises 400 acres beside another half-section under rent. It is the aim of the authorities to make the holdings as self-sustaining as possible.

ALL-STAR TEAM IS AGAIN DEFEATED

NANAIMO, May 4.—Upper Island soccer representatives yesterday defeated the Canadian All-Stars by a score of four goals to one.

GREAT INCREASE IN PRAIRIE FISHERIES SHOWN LAST SEASON

EDMONTON, May 4.—Fisheries production in Alberta jumped to an increase of almost \$300,000 during 1926, the figures for 1925 being \$458,504. This is the largest record since 1922. Taking the fisheries production for the three prairie provinces, the total shows an increase of over \$1,000,000 over 1925. The marketable value of fish caught in Manitoba waters was nearly \$2,500,000, while Saskatchewan waters yielded \$444,288 worth. The principal varieties of caught were, whitefish valued at about \$1,300,000, pickerel at over \$1,000,000, tullibee at half a million, pike at a similar amount. The number of men engaged in the fishing was nearly 6,000.

POST OFFICE HEAD DUNNED BY HIMSELF

LONDON, May 4.—The Postmaster-General, Sir William Mitchell-Thomson, told a Craydon audience of the first official communication he received from the post office after his appointment as its chief.

It was a letter, stating that the Postmaster-General regretted that unless he paid his telephone account within three days the line would be disconnected.

"Fortunately," added Sir William, "I succeeded in paying the account in time."

MADE QUITE SURE DEAD BEFORE BURIED

LONDON, May 4.—An abnormal fear of premature burial was revealed by the will of Henry Charles Hetherington Lewis, of Hove, Sussex, who died leaving £15,000. Mr. Lewis directed that after his presumed death his body should be inspected by a medical man, then be placed in an open coffin for six full clear days, after which a different qualified medical man should be called in. If in his opinion death was absolutely certain then an artery should be severed. Six hours after the lid of the coffin might be screwed down.

RIDICULOUS AND FALSE

THAT WAS DR. SUTHERLAND'S
STATEMENT IN REGARD TO
GAUTHIER CHARGES

VICTORIA, May 4.—The Gauthier affidavit was brushed aside as false or ridiculous by Hon. W. J. Sutherland, minister of public works, yesterday as he gave sweeping denials to implications which are under investigation by Mr. Justice Morrison. Royal commissioner. That Gauthier was brought to him as a friend whom he wished to help secure liquor orders by speaker Buckingham and that he, Sutherland, when in Ottawa, helped Gauthier secure agencies was the text of the testimony of the minister.

Reference to agreements in regard to commission, a discussion of the commission and the size of the orders alleged in Gauthier's affidavit as being discussed between Sutherland and Gauthier, were classed as false. Sutherland declared he had no other interest than that of helping Buckingham, whom he said was too much inclined to help his friends.

STERLING IS HIGHEST YET

EXCHANGE SOARED TO \$185 9/16
YESTERDAY AT NEW YORK

The buying of large blocks of sterling exchange yesterday resulted in the highest price for the year for demand sterling which was marked up at \$4.85 9/16, a gain of 3/16 over Monday's close. This followed the expiration of the two hundred million dollar credit to the Bank of England at the New York Federal Reserve Bank and the hundred million dollars to the British treasury at J. P. Morgan & Co.

Neither of the credits was used and it had been previously announced that they would not be renewed.

SMUGGLING ON DETROIT RIVER

RETURN CARGOES BROUGHT TO AT-
TENTION OF CUSTOMS COM-
MISSION YESTERDAY

WINDSOR, Ont., May 4.—Whiskey, silk and flowers and their movement across the Detroit River occupied the attention of the customs commission here yesterday. For the first time during the Windsor sittings the commissioners heard of the return movement, which it is claimed goes hand in hand with liquor smuggling from Canada.

NEW FREIGHTER FOR COAST SERVICE IS NOW AT VANCOUVER

VANCOUVER, May 4.—The new Union Steamship Co.'s freighter for service on this coast, ss. Ardgarvel, arrived in Vancouver today from England. She is to be placed in service in place of the old Chilliwack whose name she will assume. It is understood that Capt. J. D. McFhee will take command. The vessel was brought out by Capt. J. A. Findlay of the Camosun and Chief Engineer Logan of the Cardena.

ALL GETTING READY TO CELEBRATE

Reports from different parts of Canada indicate that every locality is preparing to celebrate the diamond jubilee of the Dominion in fitting style. In some communities different districts are joining to hold one big event. Everywhere much interest is being taken in the preliminary arrangements and it promises to be the most elaborate national celebration the Dominion has ever seen. Prince Rupert is doing well to fall in line and do her part in the great event.

Students are popularly supposed to exercise their heads all day long and well on into the stilly night, so they play football to get exercise for their other extremities.

KETCHIKAN REJOICING AT PULP LEASE

The neighboring city of Ketchikan is rejoicing over the fact that the Zellerbach Company has secured a lease of a huge tract of timber lands and proposes to establish a paper mill in that vicinity. It may well feel happy. Nothing better could happen to it. Prince Rupert people will be glad to hear of their success. Their leading newspaper, the Ketchikan-Alaska Chronicle, is preparing to make some notable additions to its service to keep pace with the new developments.

Fishermen were always religious people even back two thousand years ago at the Sea of Galilee. But of late years the fish story originated.

SELLING OF PORCHER ISLAND MINE

The fact that outside interests have come in and purchased a gold mine on Porcher Island and will operate it this summer is one of the signs of the times. Plenty of people in this city could have purchased the mine but they do not have faith in anything around here. They prefer to invest their money outside. A man had to come all the way from Toronto to find the property. We hope he makes a pile of money and leads the way for others to follow.

Rattlesnakes would be all right if they did nothing but rattle.

STEAMSHIP SERVICE TO ALASKA

Juneau recently proposed subsidizing a steamship service to the Port of Prince Rupert but it was defeated because it was feared that it might be unconstitutional and also because the existing steamship lines offered to improve their services and include Juneau therein. It is very probable that as a result more boats will be coming from Alaska to this port and more business will be done over the Canadian National line.

Beware of the woman who tells her age. She will tell anything.

SALVATION ARMY WORK

The Salvation Army is making a canvass of the city in connection with its annual self-denial week, the proceeds of the collection being devoted to its rescue and mission work. The sum of approximately one thousand dollars is needed to carry on the work and to help pay off a debt on the citadel.

Everyone knows the kind of work the Salvation Army is doing. It is different from that of the churches and is often sorely needed, especially in a frontier town. It is satisfactory to know that they are succeeding in their efforts and with the help of the local people are likely to reach their financial objective.

In some places people only exist. In Prince Rupert a lot of us live.

If you are not big enough for your work, grow!

Do not laugh behind a person's back. That's the place to kick.

Judging by the way some women dress they must be in despair.

HARTLEY BAY PEOPLE MARRIED YESTERDAY

Rev. G. G. Hacker officiated at Wedding in United Church Last Evening

A pretty wedding took place last evening at seven o'clock at the United Church when Miss Flora Robinson of Hartley Bay became the bride of John Eaton of the same place. Rev. G. G. Hacker officiating. Only a few friends of the bride and groom were present, the witnesses being Mrs. A. Robinson, mother of the bride, and Nathan J. Shaw.

The party came to town Monday on their own launch and tomorrow will be leaving for Lowe Inlet where they will remain during the cannery season.

ALICE ARM

The Silver Crest Mines Ltd. is to start development work at once on the Saddle property on Hastings Arm of which Charles Clay of Anox is the owner. Two fifty foot winzes will be sunk on the vein one hundred feet apart and if the ore shows up well, a tram will be installed and shipping started. P. E. Peterson, well known in coast mining circles, is in charge of the work.

Mass was held here at the home of Stephen Dumas last Wednesday and Thursday mornings by Father Chamagne of Anox.

Construction was started here last week of a new general store building for T. W. Falconer.

The old post office building, one of the early structures of the town, was demolished last week and the office building of the Alice Arm Freighting Co. will stand on the ground formerly occupied by it.

STEWART

Quick results are being obtained in the lower tunnel of the Independence according to Superintendent J. L. Swanson. The tunnel is now in 170 feet and four feet of solid galena, having the appearance of being high grade, has been encountered 190 feet below the upper tunnel. S. P. Fitzgerald, president of the company, is confident that the mine will soon be producing on a large scale.

Father Emil Leray, who was in here in 1920 and 1921, has resumed his residence in Stewart as priest for the district.

A meeting was held in Victoria yesterday for the purpose of electing a permanent trustee for the Victoria Mines Ltd. The concern is understood here to owing about \$15,000.

During the winter George Bunn has made a good start on a main working tunnel for the Engineer group on the south fork of the Marmot River which is considered one of the most promising properties of that section. He crossed and timbered a distance of 35 feet through moraine and finally encountered the solid rock formation close to the big copper lead on which he had previously done considerable work higher up the hill. This work was a single handed achievement.

Work has been resumed on the L. & L. Consolidated, formerly the L. & L. Glacier Creek, a double shift of miners having been put on by Superintendent H. J. Thomey to drive ahead in the tunnel from the point where work was suspended last year. It is the intention to thoroughly prospect the workings of the new properties taken into the L. & L. organization which include the Rush Columbia, Union Jack and other claims.

Before he left last week to take up a new pulpit in Saskatchewan, the Boy Scouts gave a farewell banquet in the Service Club to Rev. A. W. R. Ashley whom they presented with a cigarette case, match case and cigarettes. The presentation was made by Trygve Hansen.

John Franz and Peter Westman have created considerable interest with a display of copper ore from their Nabob group which they located on the east side of the mountain between the head of Barney Gulch which opens into the Bear River two miles above Stewart. They spent two months prospecting on the property and found ore carrying good values of copper as well as \$5 in gold and \$12 in silver. The new mine, which is closer to town, looks like a rival for the George Copper.

R. O. Lewis has been appointed by H. W. M. Rolston & Co. to act as local representative for the Guarantee Saving & Loan Society of Vancouver.

A party of 25 Ketchikan Elks paid a visit to Hyder at the end of the week and initiated fifteen new members there. A supper and dance was given in their honor with a large crowd from Stewart and Hyder in attendance.

Under an order of execution to satisfy a labor lien placed by James Grant, the equity of the Daly-Alaska Co. in the Daly-Alaska group on the Alaskan side of Salmon River has been purchased by Yael Rosenstain for \$1408.

Mrs. N. H. Stevens and son, Melvin, have returned to Hyder after spending the winter in Ketchikan. They will be

A Service for Humanity

BECAUSE of sheer necessity, and yielding to the repeated demands that are being made, the Salvation Army is launching out into many extensions of its Social Work for men and women in Western Canada.

Our activities include Rescue Homes for women, Homes for deserted and orphaned children. Aid for discharged prisoners, Working Men's Hostels, Relief work—free distribution of clothing, provisions and fuel to the most needy. Old Men's Homes, Visitation of jails, Police Court work, Fresh-Air Camps for poor mothers and children and many other branches of Christian service for the man.

THIS SPECIAL WORK OF SALVAGE AND RESTORATION CAN ONLY BE LIMITED BY THE MEANS TO CARRY IT ON.

Fellow citizen, you have had a wonderful year since we last waited on you.

Things look very bright and hopeful in Western Canada these days. Will you not help to brighten the lot of those less fortunate? Your gift to the Army's Self-Denial Fund this year will aid in lightening many a burden, in the remaking of men and women and in caring for Christ's little ones.

Help us to help others!

Mrs. Perry, a well known nurse from Interior Alaska, has arrived in Hyder.

Dr. and Mrs. J. H. Carson have returned to Premier after an extended stay in Vancouver.

Joe Coty has leased the ground floor of the Marmot Hotel to W. R. Tooth who will establish a pool hall therein.

Hugh MacDougall, who started the first blacksmith shop in Hyder, has returned after an absence of three years in the south.

Joe Jackson, who made the first discovery of ore on Texas Creek and who spent last summer prospecting on the Clearwater in the Cassiar Creek, arrived last week from Portland where he made a satisfactory deal for his placer holdings. He is leaving for the Stikine at once.

HAZELTON

Steve Hill and Jim Hodder have returned from the wilds of the north after having spent the winter trapping. From appearances Steve reminded people of one who had not had the opportunity of visiting his barber for his daily touch-up. However, his beard and golden locks were soon shorn. Steve plans spending the summer with George Beirnes on the pack train.

Dr. Harlan I. Smith has returned to these parts once more and will pursue the work he has been engaged in for the past few summers. Mrs. Smith may join him later on in the season.

Rev. Victor Sansum spent the Sabbath at the village of Kitsucla. He says he thoroughly enjoyed his trip and the experience.

C.N.R. steamer Prince Rupert, Capt. D. Donald, arrived at 11 o'clock this morning from Vancouver, Powell River and Ocean Falls and will sail at 10 tonight for Anyox. The vessel sails from here on her return south at 11 o'clock tomorrow night.

Misses Irene and Jessie McAfee arrived on the Prince Rupert this morning from Vancouver, where they have been in attendance at the University of British Columbia, enroute to Georgetown where they will spend the summer vacation with the parents, Mr. and Mrs. George McAfee.

The fact that the steamer Prince John, bound from Vancouver to Prince Rupert via the Queen Charlotte Islands, was reported yesterday to be holed in Hecate Straits is accounted for through the vessel having on her decks three large boilers, one for Lagoon Bay and two for Massett, which would make it risky for her to proceed through too heavy weather. The John is reported to be under way again today.

EXAMPLE SET BY ALBERTA PEOPLE IN MATTER OF FRIENDLINESS TO STRANGERS

It is always a good thing for a place if the people are friendly and optimistic. That is well illustrated by what they are doing in Alberta, which is next door neighbor to British Columbia.

The other day the Journal's Coronation correspondent told of the welcome that had been accorded some settlers on their arrival there. Nothing was overlooked that would add to their comfort and help them in making the right kind of a start in their new home.

The effect of such an exhibition of friendliness is not limited to those to whom it is extended. They are certain to write back to the places from which they come and encourage others to join them. Apart from the material benefits that thus accrue, it is essentially the right and proper thing to show every possible kindness to those who have travelled a long distance in order to establish themselves in this new land.

Instances have been cited where newcomers have had a very different experience. In the Birmingham Daily Mail there was a letter not long ago written by a former resident of that part of England who came out a year ago and settled at a point which is described as one hundred and fifty miles northeast of Calgary. He wrote in very appreciative terms of the manner in which the settlement board officials had attended to his needs and expressed no regret over having made the move. He was taking up his work in high spirits, difficult to maintain these after talking out loud to admit that it was somewhat to some of his neighbors who appeared to have come around to see him and his family simply out of curiosity. They had assured him that he had come to the worst country in the world, that the first ten years were the worst, and that after that nothing mattered.

It takes much self-sufficiency and courage for new citizens to withstand the influence of talk of this kind. Those who indulge in it have a serious responsibility. Fortunately they are the exceptions. It is impossible to believe that they really meant what they said and certainly their view is not that of the great majority of Albertans. But, because there are such detractors to be reckoned with, it is all the more necessary that those who know what opportunities are open here to the right kind of settlers, and who realize what their coming means in the up-building of the province, should exert themselves fully in convincing those who are now arriving that they have made no mistake, and in assisting them to the extent of their ability.

ISLAND PROVED TO BE ONLY FLOATING ICEBERG

Two Men and Dogs Marooned for Six Days on Arctic Floe but Finally Escaped

EDMONTON, May 4. — Only his natural reluctance to devouring his partner and prime minister kept Louis Roy, arctic trapper, from being the king of a cannibal isle, when he and Jack Brown, the partner aforesaid, were marooned on an ice floe for six days with six hungry huskies.

Unfortunately, says Roy, the island lacked a good many of the modern conveniences associated with cannibal isles. There were no palm trees, no hula maidens, but the geographical location of Roy's island principally may have had something to do with this. When the ex-king last saw his balliwick, it was floating in the arctic sea and heading for Greenland and points north.

According to Roy's story, his partner and himself built a cabin from logs along the beach at the end of the Mackenzie delta. Came a terrible storm and the waters started to move the cabin, so the trapper hitched their dogs to the sled, threw in the canoe and made along the beach for some high land. They struck a hillock of ice

NATIVES NOW BUSY BOILING OOLACHANS FOR OIL CONTENTS

Oolachan fishing on the Naas River is over and the natives are now busy boiling the fish and extracting the oil therefrom states W. E. Collison, Indian agent, who is back from a week's official visit up the river as far as Greenville. The spring season there has been late in keeping with other parts of the province says Mr. Collison.

SPORT CHAT

The situation as regards the Acropolis Hill sports ground was fully canvassed Monday night at the meeting between the city council and various sports body and the result of the conference was very gratifying. The representatives of the Fair Board and baseball and football associations are to be congratulated on devising a scheme which will result in a condition such as has never before been enjoyed. The ground this year will be considerably extended but, what is more important, it will have a proper surface. There need be little anxiety about the \$1,000 being repaid the city as was promised. Sports organizations in this city have yet to fall down on their contracts.

The situation in the big baseball leagues is not without interest. In the National, the race as this time is tight between St. Louis, Pittsburgh and New York and the tallenders are also having some fun among themselves. Monday's games resulted in changes both at the top and bottom, the world's champion Cardinals displacing New York at the head of the class while Brooklyn Dodgers, who have been having a winning streak lately, relegated Cincinnati Reds to the cellar. In the American League last year's finalists, the New York Yankees, seem to be pretty well away with a lead of two games yesterday over Philadelphia Athletics who Connie Mack has at last brought into pennant chasing class. Chicago is also coming along well and the story between these three teams has yet to be told. Boston seems to be well established in the cellar, six games behind Cleveland.

Bulger's Eye Glass Service

THE word "service" in connection with the care of the eyesight should mean conscientious, careful, examination with all scientific resources at command.

We have modern equipment and can tell the exact condition.

From this we have the proper lense ground to suit the eye.

Sometimes the eyes do not need much correction—sometimes otherwise. That is why some glasses cost more. Come in—any time!

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

BURNS LAKE IS THRIVING

SMITHERS MAN WRITES IN SOUTHERN PAPER OF NEW INTERIOR MUNICIPALITY

Of the small towns of British Columbia—growing up along its railways, tucked away in cove or inlet along its rugged coastline, sheltering in its fruit-filled valleys, scattered among the rolling uplands of the interior, shadowed by some mighty mountain peak, or rising from the shore of some lovely lake—each of them has some distinctive features of its own writes L. S. McGill of Smithers in this week's Sunday edition of the Vancouver Province.

Therein do our small towns differ from the small towns of the Old World, and from those in the East, and from those in the prairie provinces. In British Columbia "Main Street" is not altogether of a standardized pattern. With us, each little "Main Street" has its own individuality.

And so it is with Burns Lake. Though it is in many respects, the usual small town, there is about it something that is different from the others. Probably few who have visited there have failed to notice that.

Burns Lake is an incorporated village on the Canadian National Railway line through Central British Columbia, 316 miles east of Prince Rupert. It is one of the newest municipalities in the whole province, the townsite having been surveyed as recently as 1917. It is built at the shore of the lake of the same name—a beautiful

body of water fifteen miles in length, set amid wooded hills. Though often referred to as being in the "North," it is close to the exact geographical centre of British Columbia.

ORIGIN OF NAME

The origin of the name is somewhat in dispute among residents of the town. Some claim that the "Burns" in question was put in charge of the telegraph cabin on the shore of this lake when the overland telegraph line was built in 1866. After the abandonment of that line in the same year, no white man lived there, and no move was made to open up the country for another thirty-four years. An occasional visit might be paid by a missionary priest to the tiny Indian village at the head of the lake. But no white settler came to the vicinity.

At length, in 1900, after the Klondike gold rush, the Dominion Government built the Yukon telegraph line, following the route of the "Old Telegraph Trail" from Quesnel to Hazelton. One mile east of the present village, a telegraph cabin was established, with a linesman-operator in charge.

Much might be written of the romantic story of Burns Lake since that time—of years of lonely struggle against difficulty, danger and death to keep the Yukon telegraph line a living wire to link the frost-bound northland with the great world "outside"; or of the vivid, colorful life of the railway construction period; or of the faithful building up of the little town of today. But it is sufficient for this present purpose to tell that about 1908 the survey of the Grand Trunk Pacific Railway was finally settled along this route, and that in February, 1911, R. C. (Bob) Macdonald came to set up at the present townsite the first railway construction camp. Then, in 1911, Robert H. Gerow opened the first store on the "island" and did a rushing business from the start on account of

the construction gangs. The first store on the present townsite was George McKenzie's, and came years later. The "steel" actually reached Burns Lake from the west in the autumn of 1913, but it was the following year before the railway was finally linked up and before the railway station at Burns Lake was built.

"BARNEY" MULVANY

"Barney" Mulvany, who still remains one of the town's picturesque characters, started the first stopping-place in 1914. From that, after many additions and extensions, has grown Andy Ruddy's "Omineca Hotel" of today, of which the citizens of the town are justly proud. Many new stores, the Royal Bank building in 1922, the Community Hall in 1925, have marked the progress of Burns Lake down to the present time. But it has not been smooth sailing, for there have been hard times; and a series of disastrous fires, occurring year after year, brought many losses. These and the difficulties of every pioneer community have been met by the citizens with a steadfastness and optimism that can not be shaken.

In the wide district of which Burns Lake is the centre, there are many and varied resources. Not only along the railway, but for many miles to the south and west is a district wherein the agricultural industry, though as yet in its early stages, is making progress. By the shores of the many charming lakes everywhere to be seen, in natural open meadows, and in clearings cut into the heart of the forest, pioneer settlers are making, for themselves and their families, farms and homes.

Mixed farming has been found successful, and some sections are adapted to stockraising or to grain-growing. An abundant and luxurious growth provides the necessary fodder for an ideal dairy country, a branch of farming here still in its infancy. Vegetables of all kinds grow exceptionally well. The production of seed potatoes and of timothy seed is increasing rapidly, and right now the government seed-cleaning plant is working night and day on the 1926 timothy seed crop. In this the district has already shown at the Chicago fair that it produces the world's very best. As the shipping point for the agricultural produce of this vast region, Burns Lake occupies a most enviable position.

PRINCIPAL INDUSTRY

One of the principal industries is that of getting out railway track ties. For this there is much suitable timber. Camps are located all along the line of the Canadian National Railways, where the ties are cut in the fall and early winter, then hauled out to the track, and in the spring loaded into cars. The annual output is worth hundreds of thousands of dollars. Since practically the whole value of the tie is paid in actual wages for making, hauling and loading, the tie industry has proved a veritable Godsend to the struggling settlers. Many of them spend their summers in farm work, clearing and bringing land under cultivation, and then for the winter season become "tie-hackers" to earn their annual "grubstake."

As a fur-trading centre, Burns Lake holds one of the chief places in the province. Although fur and game have been rapidly decreasing in recent years, these are still resources of no mean importance.

Mining, too, shows great promise. In every direction from Burns Lake discoveries of gold, silver, copper, lead and zinc indicate that with further prospecting and development much may be expected. The sensational gold-silver strike of 1926 was at Topley, only thirty-five miles away. The Silver Island mine in Babine Lake to the north, the Taltapin mine twenty-five miles northeast, and the Gerow property near Decker Lake, only ten miles west, all have promising showings. The capital and the enterprise for mining development is now the great need.

It was late in the year 1925 before the roads in this district were linked up with the general highway system of the province. Now it is possible for the motorist to journey through this region by way of Prince George, not only from Southern British Columbia, but from all parts of the continent. In the season of 1926 the vanguard of a great army of motor tourists reached and passed through Burns Lake. They came from Vancouver, from Victoria, from the Okanagan, from California, from Detroit, and even from New York City. They found, and many of them were surprised to find, good motor roads, magnificent scenery of rolling woodlands strewn with a myriad of beautiful lakes teeming with gamey fish, a glorious summer climate, free from excessive heat or dust or wind or violent storms, and with it all a real chance to get away from the crowd.

FLOW OF VISITORS

As a knowledge of this little-known part of British Columbia becomes more widespread, there will come an increasing flood of visitors to revel in the grandeur here bestowed by the lavish hand of nature in a paradise waiting with an ever-ready invitation to the city-weary and to the lover of the open road.

The Little Things

AWAY back in the year 1757, in his maxims prefixed to Poor Richard's Almanac, Benjamin Franklin said: "For want of a nail, the shoe was lost; for want of a shoe, the horse was lost; and for want of a horse, the rider was lost." So you see the importance of a little thing like a horse-shoe nail!

If you are disposed to neglect the smaller advertisements in this paper, you are making a mistake. You are missing money-saving opportunities. You are missing important information about something that some day you are going to buy. You are throwing away your road-map and following your nose.

THE big stores of today were little stores years ago. They used advertising space judiciously and became large. At first, their announcements were smaller than they are today. But those small advertisements told about real values, real savings for their customers.

IN other words, the size of an advertisement is no indication of its importance to you. The message is the thing. Some of the most important merchandise news is often printed in tiny type. Even in the largest advertisements you will find small type. Read the small type as well as the big black type. Read the little type as well as the large ones. It pays.

SODA FOUNTAIN HAS INVADED FAR NORTH

Even Indians Take Kindly to Pop Through a Straw at Fort Smith

EDMONTON, May 4.—The soda fountain and cafeteria have invaded the far north.

At Fort Smith, on the northern edge of Alberta, the jumping-off-place for the Arctic and all points north, Frank Combe, farthest north hotel keeper, has set up a lunch counter, brought burrito, hot dogs, the odd loaf of bread and a pound of meat, to say nothing of coffee and tea.

Now, Arctic traders and trappers who are hardened to fighting off huskies for a piece of frozen fish or a well-gnawed caribou hock, are offered hot tamales, real hot dogs, the odd loaf of bread and a pound of meat, to say nothing of coffee and tea.

Even the Indian braves who were wont to make a dainty repast on strips of well-worn moccasins and worn-out dog harness, take kindly to the innovation.

MODERN PORTIA IN LIVERPOOL

MISS NANCY STEWART PARNELL LEADS YOUNG SUFFRAGISTS TO POLLS

LIVERPOOL, May 4.—A modern Portia has arisen here to lead the Young Suffragists of England to the polls.

She is Miss Nancy Stewart Parnell, a descendant of Thomas Parnell, the great Irish leader and poet of the eighteenth century.

Miss Parnell is an honors graduate of Liverpool University and was a leader in efforts of women students toward obtaining their emancipation.

She came into prominence as spokeswoman for the Young Suffragists when a deputation called on Prime Minister Baldwin to petition the government for the ballot.

"The Young Suffragists of England," Miss Parnell informed the prime minister, "are the women less than 30

years old. They include teachers, professors, doctors, mothers, office and factory workers, and strangely enough, parliamentary candidates, for a woman may be elected to the House of Commons at 21 years old, though she may not vote until nine years later."

SPRING SALE AT MRS. FRIZZELL'S

WHOLE STOCK OF HIGH QUALITY AND UP-TO-DATE LADIES' WEAR OFFERED AT BARGAIN PRICES AT SALE STARTING FRIDAY MORNING

Mrs. S. Frizzell announces her Spring Sale of Ladies' Wear, commencing on Friday morning. This has been a backward Spring from a business, as well as a weather point of view. The effect of this cause is that the volume of sales has not been as great as was anticipated and rather than carry any of this year's Spring stock over, Mrs. Frizzell has decided to forget about profits for the time being and move these goods out.

Mr. Rand, the merchandising expert who so successfully conducted the Fall sale last year, has arrived and is busy repricing the whole stock which will be offered at practically cost and in many cases less than cost on Friday morning.

Ladies of Prince Rupert and district who are so well aware of the quality and tastefulness of the hats, coats, suits, dresses and other articles of Ladies' Wear which have been assembled in Mrs. Frizzell's store this Spring, are assured of real bargain prices on garments which are right up-to-the-minute in style. Remember, this sale starts on Friday morning. Adv. 104
