SITUATION IN CHINA IS NOW DESCRIBED AS BEING GRAVE

British Cabinet is in Session to Deal With Latest Developments

Foreign office insists that negotiations are not broken down but admits military threat has ruined prospects for early peace

LONDON, February 2.—The British cabinet was called into session this afternoon to consider what newspapers term "grave reports from China." The Foreign Office insists that negotiations with the Cantonese at Hankow have not broken down but admits the action is raising the question of whether sending British military forces to Shanghai has ruined prospects of an early signature of the draft agreement providing for settlement of recent incidents at Hankow and Kiukiang in which the British concessions were stormed by anti-foreign mobs.

Owing to the difficulties arising through the fact that a Shanghai foreign settlement would be international in character, it is understood that the British government is considering the advisability of diverting portions of the expeditionary force to Hong Kong and Wei Hai Wei, four hundred miles north of Shanghai, but some troops may also be quartered at warehouses on docks and other premises owned by the British at Shanghai.

LOG CARRIER DRUMROCK IS AGAIN IN TROUBLE
VICTORIA, Feb. 2.—The log carrying barge Drumrock is aground at Takush Harbor in Smith's Inlet off Queen Charlotte Sound. The steamer Salvage King left here early this morning to render assistance.

FIRE DAMAGE ON C.N.R. WAS LESS
RELEASE FROM 1925 WAS \$18,000. FOREST PROTECTION OFFICIAL ANNOUNCES
WINNIPEG, Feb. 2.—A saving of more than \$18,000 in damages resulting from fires along the lines of the Canadian National Railways during 1926 as compared with the previous year has been reported by W. A. Kilby, chief of forest protection for the company. This decrease is attributed by Mr. Kilby to increased efficiency and to the campaign of education which has been systematically conducted among the employees of the company during the past year. On the western region including lines in British Columbia, where fire hazards are great during the spring, 9,000 acres were burned over with an approximate monetary loss of \$41,650 as compared with 24,285 acres and \$61,896 in 1925. More than 4,000 miles of fire guards were constructed on the western region in 1926 and every precaution was maintained to prevent the ignition of fire sparks from locomotives.

SANKEY'S EXECUTION HAS BEEN POSTPONED
February 16 Had Been Set as Date—Conviction Appealed
(Vancouver Province)
Execution on February 16 in Okalla jail of Joseph Sankey, Indian, sentenced to death for the murder of Miss Loretta Chisholm, school teacher, at Port Essington on May 23, has been postponed until after Sankey's appeal has been heard by the Court of Appeal. Notice of appeal has been given to the March sitting in Vancouver of the appellate tribunal, although the crown was anxious to have the case heard at the present session in Victoria.

OLD TIMER OF CITY IS DEAD
ERICKSON, AGED 58, PASSED AWAY IN HOSPITAL LAST NIGHT
The death occurred last evening in Prince Rupert General Hospital of Erickson, a pioneer of the city and native of Sweden. Deceased, who was in his fifty-eighth year, had been in ill health for some time. He was employed by the city until a short time ago, and was recently removed from his residence to the hospital.

THESE CHILDREN WERE LUCKIER WHEN FIRE VISITED THEIR HOME
TORONTO, Feb. 2.—In this city four small children were burned to death last week, the parents having left them alone while on a visit to friends. The father, did indeed return, but finding all sleeping he went away again. Fifteen minutes afterwards his wife, a more fortunate fate was that of four small children carried from a burning house a few days later, by two garagemen who noticed smoke issuing from it.

DO NOT HANG BOOTLEGGERS
CHICAGO WATER INSISTS THAT HE WON'T DIE EVEN IF HE DID KILL HIS SWEETHEART
CHICAGO, Feb. 2.—A water named Michele, who earned \$40 a month and then became a bootlegger with receipts of most \$100,000 in eight months, making \$5,000 in December alone, is held in the county jail charged with shooting Marie Perry, his sweetheart, after a quarrel. The man exhibited records showing that he had expended \$50,000 on the girl during the past six months and that she had then jilted him. The P.T.A. condition is critical but Michele insists that he would not be hanged should she die "because I am a bootlegger and whoever heard of a bootlegger being hanged in Chicago?"

C.N.R. EARNINGS
The gross earnings of the Canadian National Railways for the week ended January 21, 1927, were \$4,623,943.00, as compared with \$4,355,868.22 for the same week of 1926, an increase of \$268,074.78 or six per cent.

AN EXCLUSIVE PHOTOGRAPH just received from Russia which records what may prove to be one of the world's greatest ethnological mysteries. For the last three years P. K. Koslov, a Russian scientist, has been exploring in Mongolia and Thibet, in regions never before penetrated by white men. A dwindling tribe, known as the Orotchi, were found, with whom the party spent a considerable time. They bore an amazing facial resemblance to the North American Indians, and many of their customs and their ornaments were found to be almost exactly similar to those of some of the Missouri Mississippi Valley Indians. This is a family of the Gimyt Dorgje tribe.

ABOLITION OF STAMP TAX

AND REMOVAL OF INCOME TAX URGED UPON OTTAWA GOVERNMENT
OTTAWA, Feb. 2.—A Retail Merchants' Association delegation waited upon the Minister of Finance yesterday recommending the removal of stamp taxes on notes, drafts, and checks and the abolition of the income tax "because it cannot be equitably applied, only 230,000 people paying last year." The government was also asked to assist in the endeavor to stabilize prices "in the interests of a general distribution of business." Mr. Robb promises consideration to the various matters.

COL. ANDERSON DEAD AT OTTAWA

WAS CHIEF ENGINEER FOR DEPARTMENT OF MARINE AND FISHERIES AND COMMANDED BATTLE TEAM IN 1904
OTTAWA, Feb. 2.—Lieut.-Col. William Patrick Anderson, C.M.G., commandant of the Canadian Bisle team in 1904 and prominent Dominion official, having been for several years chief engineer for the Department of Marine and Fisheries, is dead here at the age of 75 years.

Leader of Opposition Takes Exception to Premier's Old Age Pension Bill—Premature

VICTORIA, February 2.—When Premier Oliver's old age pension bill was up for its second reading in the legislature yesterday afternoon, it was subjected to criticism by R. H. Pooley, Conservative house leader. The bill proposes to bring into effect by proclamation a provincial measure based on a Dominion Act which the Ottawa government proposes to introduce into federal parliament. Mr. Pooley criticized the introduction of a measure which he said was intended to cover legislation to be introduced in the federal house but which had not yet been brought in. He said that the premier had condemned any proposition to investigate campaign funds until the evidence was before the House yet he had introduced this bill to approve legislation that had not yet been even submitted to the House at Ottawa. Mr. Pooley advocated a conference between various governments concerned, those of the Dominion and the different provinces, to arrive at a just basis in connection with old age pensions legislation. He asked the premier to withdraw the bill and submit a resolution asking the Dominion government to call the conference as suggested.

CAN'T REGISTER AS CANADIANS

LABOR MEMBER COMPLAINS IN LEGISLATURE AT LOSS OF REAL NATIONALITY IN RECORDS
VICTORIA, Feb. 2.—Canadian children cannot be registered as Canadians when they are born, Frank Browne, Labor, Burnaby, protested in the Legislature when a bill to amend legislation on the registration of births, marriages and deaths was under consideration. Mr. Browne urged that Canadians be registered as Canadians on birth records, instead of being classed according to the ancestry of their parents.

Attorney-General Manson explained that he had considered this point himself but on looking into the actual methods in use for registration had come to the conclusion that the registration of Canadians was impractical. The Federal Government, he said, wanted to trace the blood movements of its citizens and insisted on a record of their parents' nationality, so as to trace the mixture of races in Canada. On this account it was necessary to maintain the present registration system. The new legislation makes only minor changes in the form of registering births and effects no change in policy, Premier Oliver stated, as the bill was given second reading.

Attorney General May Take Case to Highest Tribunal for Decision

OTTAWA, February 2.—The British Columbia fuel oil tax was declared invalid in a judgment handed down in the Supreme Court of Canada yesterday dismissing with costs the appeal of Attorney General Manson against the Canadian Pacific Railway for an accounting and to recover money allegedly due the province as taxes under the Act.

VANCOUVER, February 2.—The fuel oil tax case will be carried to the Privy Council, it is understood, owing to the large amounts involved. The government anticipated a revenue of \$400,000 annually from this source and, if it is possible the gasoline tax might be subjected to a similar attack depriving the government of an additional \$500,000 annually, it is felt that the Attorney General will refer the case to the highest tribunal.

BROTHER OF J. K. GORDON PASSES AWAY

DR. GEORGE B. GORDON OF PHILADELPHIA WAS KNOWN IN TERRACE AND PRINCE RUPERT
TERRACE, Feb. 2.—J. K. Gordon received word on Monday night of the death of his brother, Dr. George B. Gordon of Philadelphia. The message merely said he had been killed in an accident with particulars to follow. Dr. Gordon will be remembered by many both here and in Prince Rupert, as he lectured in both places during the war on "Our Empire." He has also visited with his brother and sister here since that time.

FISHERMEN URGE DUTY-FREE ROPE

Not in Canadian Duty on Small Electric Plants Asked
OTTAWA, Feb. 2.—There will be two public sittings of the Tariff Advisory Board of Canada in February. In addition to the meeting which began yesterday with the tariff on boots and shoes the principal matter of discussion, the board has announced it will hold public hearings February 22, 23 and 24. Two new references are on the list. One asks that the duty be wiped out on rope over one and one-half inches thick used in lobster or net fishing. Another reference from the Delco Light Company asks that small electric light and power plants imported for other farm purposes.

FAMOUS OLD HORSE DEAD

OLD TAY BRIDGE WAS EXERCISING FOR GRAND NATIONAL STEEP-CHASE IN WHICH HE WAS SECOND TWICE
LONDON, Feb. 2.—Old Tay Bridge, veteran steeplechaser, beloved of the English news and sporting public, dropped dead while exercising at Weyhill in preparation for another of his many efforts to win the Grand National at Aintree. Thirteen years old, he twice ran second in the Grand National and once, while leading but three fences from home, fell to lose the race.

NEW BUDGET SHOULD BE POPULAR ONE.

The budget presented to the legislature yesterday by Hon. J. D. McLean, minister of finance, may not provide for quite as sweeping relief as some of the more hopeful people might have anticipated but it does propose the most extensive measure of tax reduction that has been attempted in the province for at least two decades. A splendid start is being made on the lightening of the taxation burden and, if the program thus initiated is carried out, British Columbia people will indeed have something to be thankful for.

The raising of the income tax exemption for married persons from \$1,500 to \$1,800 will eliminate taxation for many people and will reduce the payments of all. The increase of the exemption for dependents from \$200 to \$300 will be of further benefit. It is gratifying to note that the first step in the connection is taken to benefit people with families before any general revision is undertaken. It is family people who always suffer most from this impost.

In wiping out the personal property tax, a very generally condemned measure is eliminated. The new scheme of taxation to take its place has been adopted advisedly and should prove more acceptable. There has also been much agitation against the old mode of collecting succession dues and the new plan should prove the fairer.

The suggested increase for the civil service will be a concrete boon to a large number of workers who have been more or less discontented with inadequate wages for some time past.

All in all, the new budget should prove a popular one, reflecting credit on the government that has enacted it. The clamor for tax reduction has been widespread during the past few years and there will be general gratification that the government has found it possible and seen fit to meet the wishes of the people in such a, comparatively speaking, substantial way.

NOT TIME, BUT ITS USE THAT COUNTS.

It is not time—seconds, minutes, hours, even years—but the use that men make of time that makes the difference in men's fortunes.

Nature is absolutely impartial in the distribution of her hours. She gives to no man time that she does not give to another. The same morning gives every man an equal start with his fellow and the same night finds each another day further on the journey or lost by the wayside.

But all the time that nature gives to any man is the present. Man makes his own past and future. Grasp the opportunity of the golden present that the past may not bring regrets, nor the future be without hope.

The great, promising but evanescent NOW must be grasped in its potent whole to secure the future and free the past of regret.

Are six, eight, ten, twelve or eighteen hours a day man's allotted work? Not by all eternity. There are twenty-four hours on the clock and in man's working day. Man's work is twenty-four hours of sleep, recreation, eating and labor. There are no hours in the diurnal circuit for idleness, misguided recreation and intemperance in eating or sleeping. After the day's wage has been earned there is still life's wage, the dues of evolution which must be earned in fruitful reading, healthful thought and deep-delving introspection.

Too many work-a-day men end work with the eight hours and wish for less, sleep ten hours and crave for more, eat to fullness and leave the table unsatisfied, hope in vain for the "luck in leisure," accept no opportunities to improve mind and body and see not that those who are getting ahead in this life are those for whom every "waking hour" is a "working hour."

Working hours are found for the unwise, but the wise find hours in which to work.

EXPERIENCES OF MAP MAKERS

THELON RIVER'S SOURCE ONE OF MANY MYSTERIES CLEARED UP BY LAND SURVEYORS—WIRELESS AND AEROPLANE USED IN CREATING NEEDED MAPS

OTTAWA, Ont., Feb. 2.—(By Canadian Press)—The myth as to the headwaters of the Thelon River, one of the great rivers of Northern Canada, was one of the geographical mysteries solved by a topographical surveyor during the field season of 1926, according to the report of the topographical surveys committee, presented by R. W. Cautley, D.L.S., at the annual convention of Dominion Land Surveyors in session here today.

School geographies and even the best of government maps have shown this stream heading a relatively short distance northeast of lake Athabaska. Last summer, G. H. Blanchet, D.L.S., made an exploratory trip into the country northeast of the Athabaska, selecting for the first part of his journey a traditional Indian route from Tazin Lake to the headwaters of the Thelon river. A river known to the natives as "Skin of an Animal" was ascended to a plateau 1,000 feet above lake Athabaska where another river was discovered flowing northeast along Hearne's course of the Thelwaze river (supposed to be the Thelon). This river after flowing one hundred miles in the desired direction, turned south-easterly—instead of northerly—and joined Dubawnt river at Wholdala Lake. Thus the explanation removes the myth of the Thelon headwaters which has persisted for 180 years, since Hearne's time.

Mr. Cautley referred to the "practically unexplored uninhabited and almost totally unsurveyed" portion of Canada as the larger part of this country, and stressed the need of reliable maps in connection with the development of the wealth of mine and forest in this great hinterland—development which is always retarded, and in some cases made impossible for want of them. Discovery of the great mining camps of Cobolt (1903), Porcupine (1909), Kirkland Lake (1911), Rouyn (1923) and Red Lake (1925) waited on and followed railway construction.

MODERN AIDS UTILIZED
Wireless telegraphy and air flying—the two most amazing developments of modern science—are being utilized by the topographical surveyor in making known this north country—in placing on the maps the maze of rivers and lakes which will make it possible for the prospector to enter the country, and to travel in whatever direction he pleases. Transportation, Mr. Cautley said is not difficult in northern Ontario and Quebec, but the lakes are irregular, and deeply indented, and the traveller must know how far it is expedient for him to follow any one particular system of waterways before transferring by portage to another, the existence of which he must also know about.

Aerial photographs used in conjunction with the ground work of the topographical surveyor is providing this information, and Mr. Cautley reported that last summer the Topographical Survey of Canada had four parties engaged on this work in northern Ontario, and that the Royal Canadian Air Force worked in conjunction with the Survey in taking photographs.

The north country while literally unknown, and unexplored is not the only country needing maps, and Mr. Cautley spoke of the situation in older parts of Canada where information depends on individualistic surveys of all kinds, many of them ancient, not to say obsolete. Through such modern surveys as are being carried out the old information is being correlated and new information gathered, from which national maps are prepared.

In western Canada, the Dominion Land System of Surveys—a system of surveying land which covers a greater area than any other, preconceived method of subdividing land for settlement in any part of the world—provides the basis for mapping, and that adequate mapping of this vast area was conceived at an early date is shown in the naming of the survey organization. The Topographical Survey, has lately been able to devote more of its energy to this, one of its original objectives.

Dominion Land Surveyors, Mr. Cautley pointed out, were last season engaged in mapping in twenty-one areas of Canada. These were scattered throughout all the provinces and two parties invaded the northwest territories. The work ranged from the highly detailed map of areas of great economic importance to the exploration work of the north, where in addition to solving the mystery of the headwaters of a river, an investigation was made with a view to showing on a map the feeding resources of the new Wood Buffalo Park.

TOURIST TRAFFIC
The growing tourist traffic in Canada was not being overlooked by the map makers, Mr. Cautley pointed out, and three parties were engaged in mapping areas decidedly attractive to tourists. In British Columbia, the photo-topographic system of survey, developed to a high degree of perfection in Canada, was being utilized to portray the relief of mountainous areas, the rivers, creeks and trails which would make the glories of the Selkirk mountains accessible to the tourist. The boundaries of the latest addition to Canada's chain of mountain parks—Kootenay Park—were also delineated during the season.

MISS DONALDSON BECOMES BRIDE

MARRIED TO EX-MAYOR H. B. ROCHESTER AT QUIET CEREMONY IN UNITED CHURCH PARSONAGE LAST NIGHT

A quiet wedding of great interest took place last night at 8.30 at the United Church Parsonage when Miss Agnes Ann Donaldson, daughter of the late Robert Donaldson and Mrs. J. A. Brown, Port Essington, became the bride of Harry Brock Rochester, son of the late Mr. and Mrs. John Rochester of Ottawa. The ceremony was performed by Rev. George G. Hacker and the attendants were Mr. and Mrs. S. D. Johnstone and Miss Mae Donaldson.

Mr. and Mrs. Rochester sailed last night on the Camosun to spend a honeymoon in southern cities. On their return to the city, they will take up their residence on Eleventh Street.

The bride, who is a native daughter of British Columbia, has resided in the north for many years with her parents at Port Essington. For the past few years she has been a member of the Booth Memorial teaching staff.

The groom is also a pioneer of this district, having come to Prince Rupert nearly twenty years ago. For some time he was in charge of the Government Telegraph and Dominion Express offices here and for the past ten or more years he has been manager and proprietor of the Prince Rupert Hotel. An ex-mayor of the city, he is now chairman of the school board and a director of the Prince Rupert General Hospital.

Congratulations and best wishes of a wide circle of friends will be extended to Mr. and Mrs. Rochester who are deservedly popular and esteemed.

J. E. Merryfield accompanied the remains of the late W. J. M. Sandels to Vancouver yesterday.

R. T. Purdy, auditor for the Booth Fisheries, has returned to Vancouver after a stay in the city for several weeks.

Mrs. William Beveridge left last evening for Vancouver where she will resume residence.

Robert McIntosh, brother of John L. McIntosh of this city, has arrived in Quebec from overseas according to a telegram received today.

HELP LOCAL AGENTS

Editor, Daily News.

R. Creelman, passenger traffic manager of the western region of the Canadian National Railways has brought our attention to the rather surprising fact that during the month of November, the number of people boarding our trains at Prince Rupert without first purchasing tickets totalled one hundred and nineteen. This is considered an average month so that if the number is multiplied by twelve, it can be assumed that during one year 1,428 people from Prince Rupert got on our trains without having first paid fares.

That is a matter which is of more importance to Prince Rupert than may be generally supposed. We keep an agent and also have a ticket office at Prince Rupert, and the promotion of those in charge to higher ranks in the service of the company will depend, to an extent, upon the showing they are able to make in the position they now hold. Their record will also be judged upon how many tickets are sold, and, therefore, the residents of Prince Rupert who get on our trains without purchasing tickets from either the agent or the ticket office are, in all probability, retarding the time when promotions will be made.

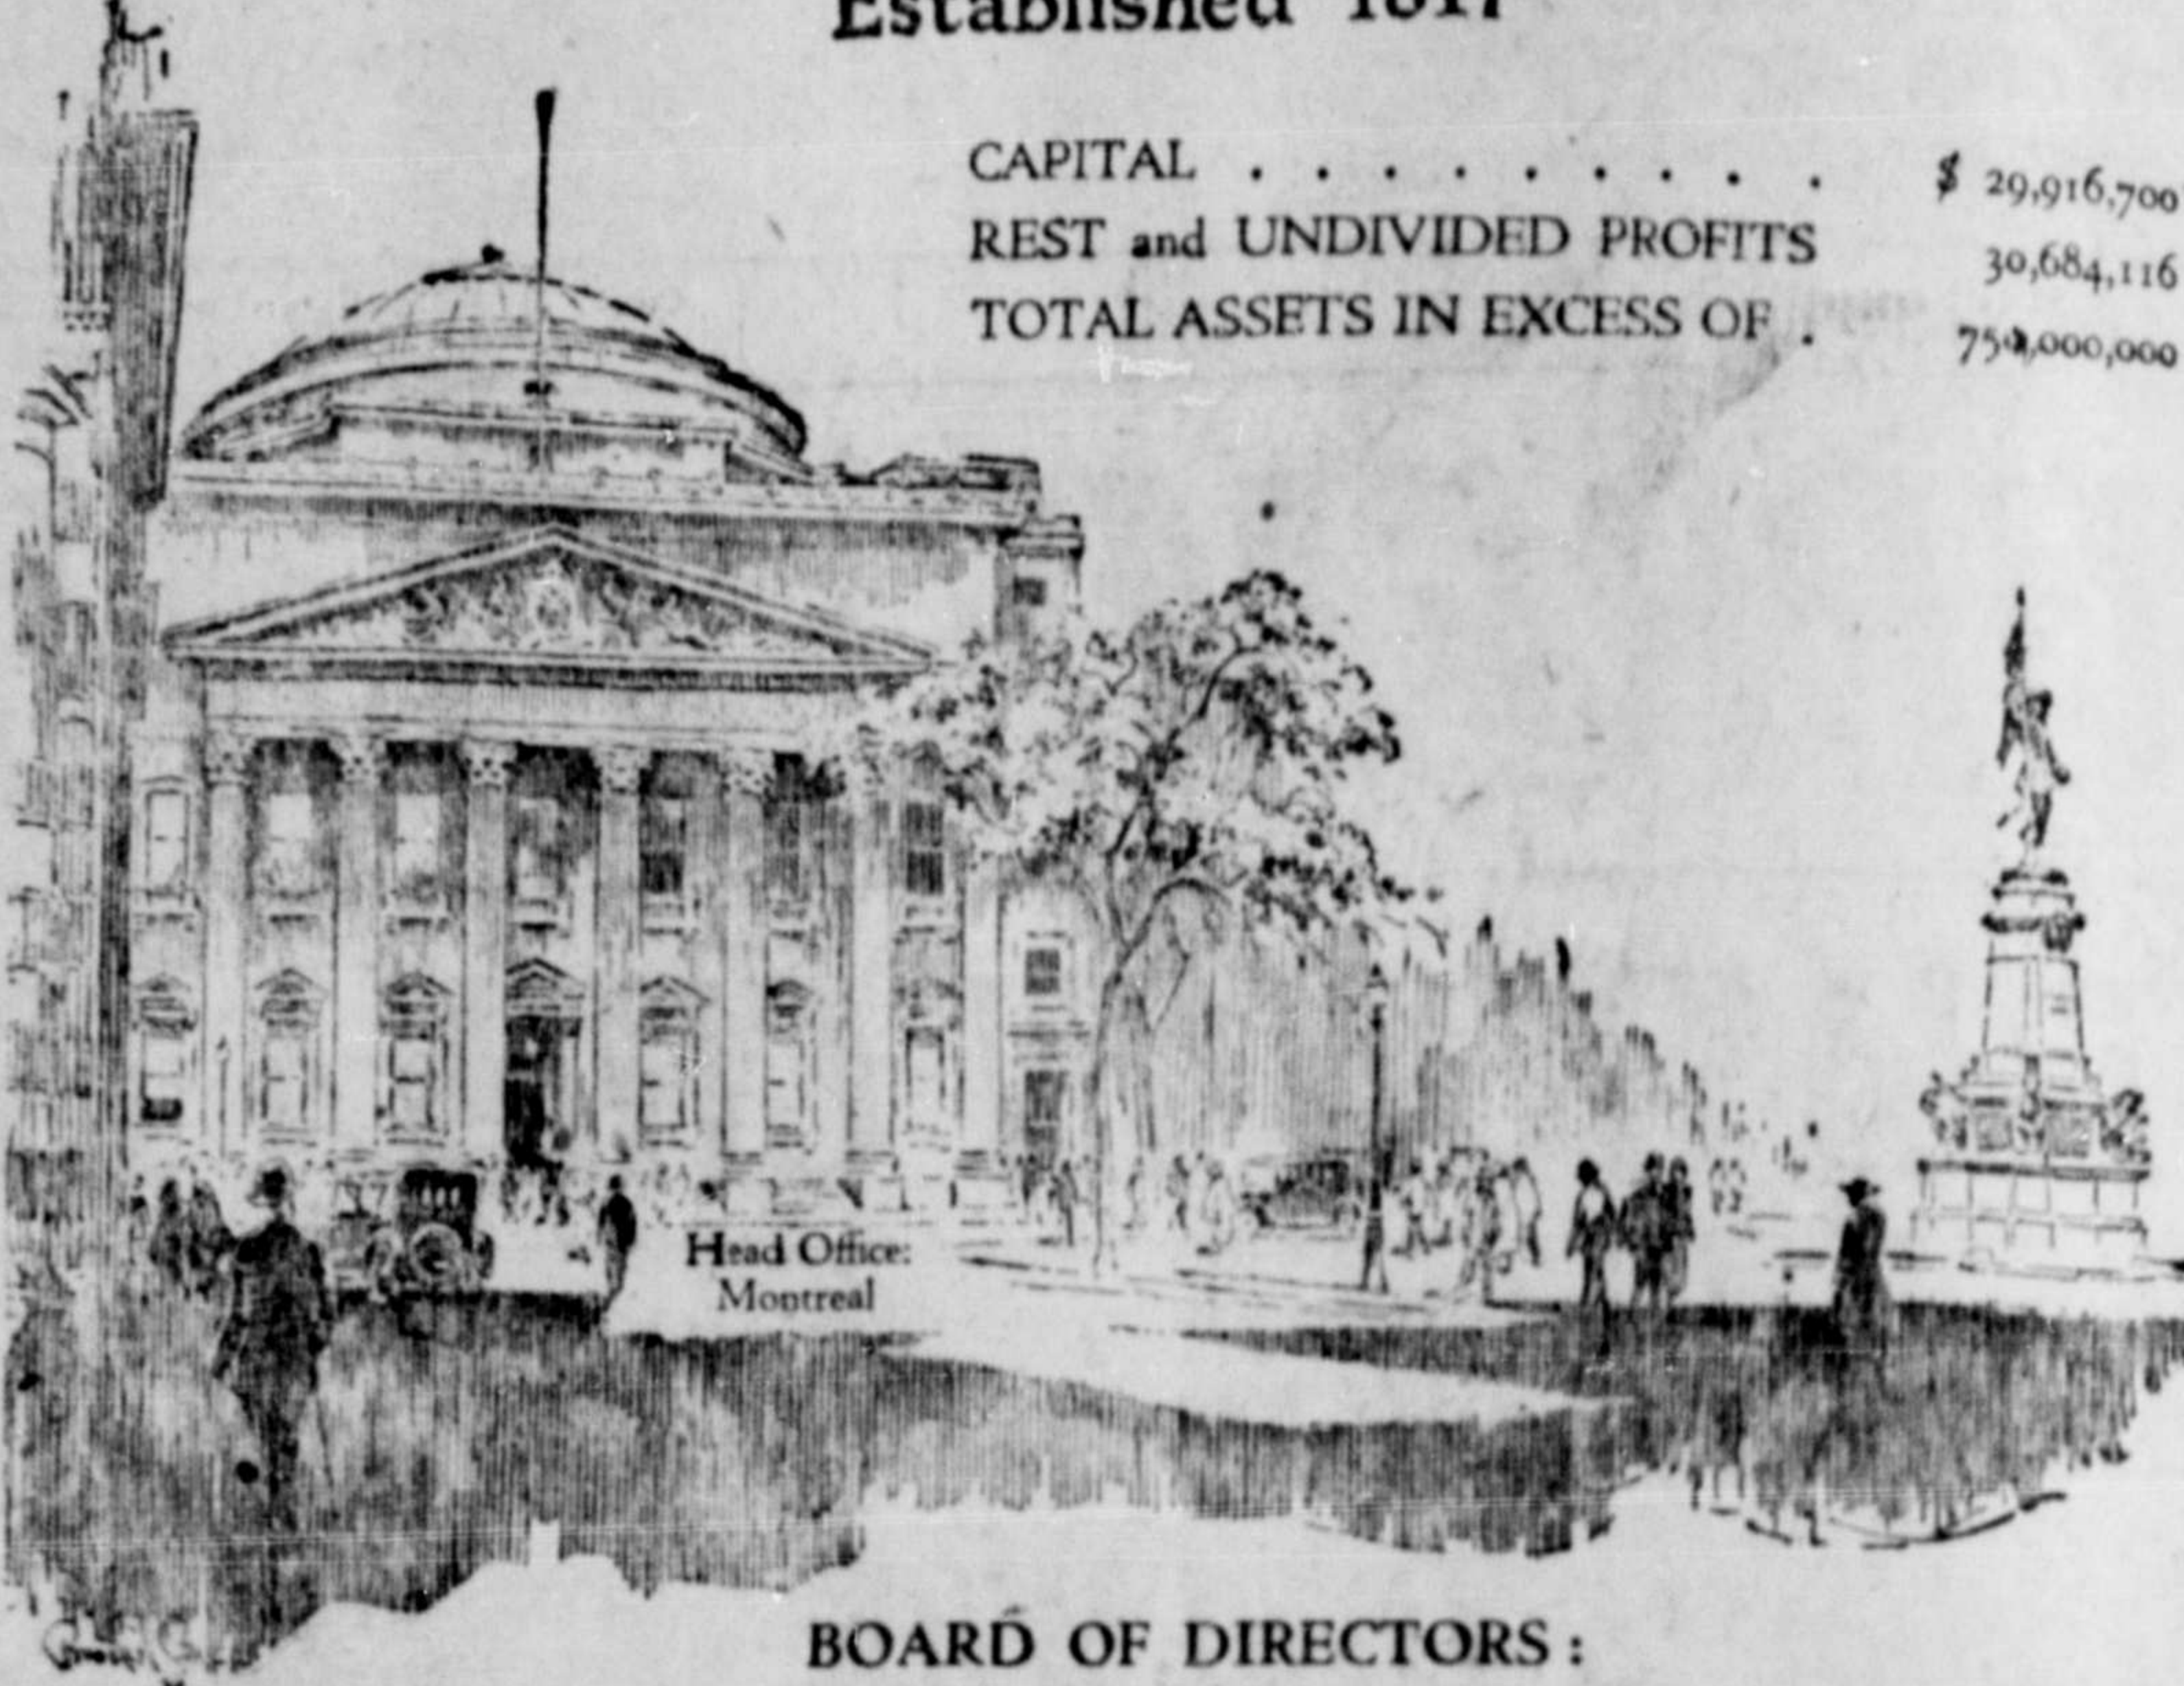

Again, those in charge are anxious to make a good showing for their own office, not only because they are desirous that the community in which they are situated shall make a better showing than rival communities; and that is only a method of exhibiting a worthy degree of civic pride.

In addition to these two facts there is a third. When tickets are not purchased before the departure of a train, the conductor has to sell the ticket and to collect the money. Every sale he makes occupies a portion of his

Passengers, themselves may not realize it, but it is a fact that when they neglect to purchase tickets before getting on the train, they have to pay a higher fare, and this may amount to a substantial sum. As an example, a passenger travelling from Saskatoon to Winnipeg via Regina, who fails to buy a through ticket before boarding the train will pay \$1.60 more than the one who buys the ticket from the agent. Similar cases, where larger or smaller savings can be effected by following the correct procedure could be quoted.

27 GERM DISEASES that hands may carry just from touching things

Whose hands touched it last? LIFEBOUY --- Superb Toilet Soap removes germs as well as dirt

Wherever you go, you are constantly touching objects which may be literally covered with germs—disease germs. Health authorities say there are 27 germ diseases that hands may carry to eye, nose or mouth—or some tiny cut or scratch may become infected. Millions use Lifebuoy Soap for every toilet purpose, they use it because they like it, because they feel there is no better toilet soap made—which is true.

Also, Lifebuoy Soap is more than a toilet soap. It offers protection against all manner of germs that the hands may carry. The mild but penetrating and antiseptic Lifebuoy lather goes deep into the countless pores of the skin and cleanses and purifies them. This protection costs nothing, because Lifebuoy sells at the same price you are accustomed to pay for ordinary toilet soap.

Get an orange red bar of Lifebuoy Soap in the orange red package today. Help yourself to keep well.

SWIMMER MAY BE DEPORTED

UNITED STATES GOVERNMENT CONDUCTING INVESTIGATION INTO CIRCUMSTANCES OF GEORGE YOUNG'S ENTRY

LOS ANGELES, Feb. 2.—A gentle investigation is being conducted by the United States government into the manner in which George Young, 17-year-old Catalina channel swimmer, and his pal, Billy Hastings, entered the United States from their homes in Toronto, Canada.

W. E. Carr, immigration commissioner for the Southern California district, disclosed this information here and declared that if it were found that the youngsters had violated any section of the United States immigration laws, they would be immediately deported.

NAME WITHHELD

The information commissioner admitted that the investigation was launched following receipt of a letter from a correspondent whose name he would not divulge. This correspondent questioned the legality of the entrance of the two Canadian boys into the United States.

Immediately upon receipt of Carr's statements, Levy, Young's manager, communicated with William Wrigley Jr., Young's confidant and advisor. Wrigley, it was understood, planned to take up the matter with Secretary James John Davis in Washington.

The two boys entered the United States at Detroit on November 15. They came across the ferry on their motorcycle and secured "tourist" permits, under which they were allowed to remain in the United States until February 15.

DIDN'T PAY TAX

Young and Hastings had admitted, however, that they did not pay the "head tax" usually collected from all aliens who enter U.S. territory.

The status of Hastings appeared to be somewhat clearer than that of Young. Hastings is a Canadian citizen and, according to Carr, probably within his rights with a "tourist permit."

Young, however, Carr pointed out, is a British subject born in Scotland. The number of subjects from the British Isles who could enter the United States under the present restricted immigration law had been exhausted, Carr said, and there is a waiting list "three years long."

In other words, according to Carr, if it is found that Young is in the United States illegally, and is deported, it would be impossible for him to re-enter again before three years.

BASKETBALL LAST NIGHT

ALL STARS WIN OVER GROTTO IN PRACTICE MATCH—STARS, MAPLE LEAFS AND TERMINALS WERE OTHER WINNERS

In the league basketball games last evening the Stars defeated the Tuxis Boys (Juniors) 16-10; the Adanacs were beaten by the Maple Leafs 16-6 and, in the Intermediate League the Grand Terminals rolled up a total of 54 to the Bankers' 21.

The practice match between the All Stars, who will play Ketchikan next week, and Grotto resulted in a score of 30-20 in favor of the All Stars.

SPORT CHAT

In an official trial made in connection with the National Basketball Free Throw Tournament, Miss Margaret MacBurney, the 17-year-old-forward of the Edmonton Commercial Grads, scored 55 baskets in 60 consecutive throws last week. Last year after a tie between Capt. Dot Johnson of the Grads and a lady player from Carolina when each scored 50, Capt. Dot Johnson lost out in the finals by a score of 50 to 51. The tournament was organized last year by the Y.M.C.A. of Charlestown S.C. and is open to the world. The contest takes place before three disinterested parties and the shots are thrown from the free throw mark. Members of the Maple Leafs might arrange a local contest before they meet any outside teams.

According to reports from Toronto, Irene O'Byrne, swimming star, is engaged to wed George Young, Catalina

HOCKEY SCHEDULE SUSPENDED

ALICE ARM, Feb. 2.—Owing to a rise in the temperature, it has been necessary since early last week to postpone further games in the Alice Arm Hockey League. The schedule will be resumed as soon as skating is possible on the rink again.

STEWART

G. H. Kilburn, field engineer for the Trail Consolidated, who has been looking over the Big Missouri, left at the end of last week on his return to Victoria.

The Portland Canal News took steps to verify recent reports that the Mackenzie-Mann Railway and other interests in this district had been taken over by a United States syndicate which

plans large developments here and learned that announcements along this line were rather premature.

An option only has been taken on the railway and townsite and negotiations are under way to raise the necessary finances.

The Silver Tip Mines have decided to continue development work on their holdings on the upper Salmon River adjoining the Big Missouri as recommended by G. A. Clothier, resident mining engineer.

R. G. Mellin, manager of the Riverside Mine, is on a business trip to Vancouver.

S. A. Knowles, superintendent of the Big Missouri, has returned from a business trip to Tacoma.

A larger program of development than ever before is to be undertaken during the coming season on the Silver Crest property on the upper Salmon River with a view to making it a property worth while, announces J. V. Clegg, manager of the mine.

D. W. McLellan, local hardware merchant, is on a business trip to Vancouver.

Having been prominent in local social and athletic activities, the departure of J. W. Wilson for the south this week is generally regretted. He came to Stewart in 1920 and was cashier in the Bank of Montreal till he opened business for himself.

Marl Thomas, president of the Hyder Chamber of Commerce, has received a wire from Dan Sutherland, congressman for Alaska, stating that substantial appropriations will be made this year for the extension of the wagon road up Texas Creek and for the surfacing of the new road on the Alaskan side of the Salmon River.

Mr. and Mrs. G. C. Andrew will leave Stewart this week for the East to take up their permanent residence. Their departure will be generally regretted. Mrs. Andrew, formerly superintendent of the local hospital as Miss Anne Clothier, has been prominent in musical and social circles. No less active has been Mr. Andrew who was in the brokerage business here and took a prominent part in various public affairs.

Two sites were surveyed here last week by Dominion government engineers for the extension of the wharf.

A crew of men has been put to work by Henry Horstman on the Victoria Mining Co.'s property. The property adjoins the Dunwell and has showings of the same high grade ore as has been found in that mine.

Fears are entertained for the safety of Sam Descamps who left here on January 14 for his trap line in the Neas Valley, saying he would be back in ten days. A search party was organized this week.

ADVISED TO LEAVE MEXICO, MRS. S. V. ARDAGH COMES NORTH

Advised, on account of unsettled conditions there, to leave Mexico where her husband is engaged in his profession as a mining engineer, Mrs. S. V. Ardagh, formerly Miss Erick Richmond of Hazelton, arrived in the city from the south on the steamer Prince Rupert today. She was met here by her father, James Richmond, who is now in business in Terrace, and will proceed to the interior town with him to remain there indefinitely. Mrs. Ardagh is accompanied by her young daughter. Her husband was also formerly located in Hazelton.

ANYOX ANGLICAN CHURCH HOLDS ITS VESTRY MEETING

ANYOX, Feb. 2.—The annual parish meeting of Christ Church was held on Wednesday evening. The following officers were appointed and elected for the year 1927: Mr. F. C. Graham, rector's warden; Mr. W. J. E. Pamplin, people's warden; vestry, Messrs. Morkill, Yard, Anderson, Upjohn, and Mrs. Brayfield. The meeting was a very harmonious one. Airways across Indiana are being marked on roofs of warehouses of the Standard Oil Company of Indiana.

FAIR MEETING IS ADJOURNED

BUSINESSMEN OF CITY EXPECTED TO BE PRESENT NEXT TUESDAY

The annual meeting of the Northern British Columbia Agricultural and Industrial Association called for last night, was further adjourned until next Tuesday.

F. W. Hart proposed the adjournment, informing the meeting that he had waited on several businessmen who found it impossible to be present, but had assured him that, if the meeting were postponed, that they would be glad to come and assist next week. Mr. Hart said that, in his opinion, the Fall Fair was an excellent thing for the city and, while he expected that this year would be the hardest in the history of the Fair, yet it must not be allowed to die. He believed that it was the duty of the citizens to work for the good of the city and he had found businessmen willing to assist.

W. D. Vance said that the impression should not be allowed to get abroad that there was a desire to quit. The only thing to do was to go ahead and the present officers were bound to remain in office until successors were elected to take their places.

J. G. Steen considered the proposal for adjournment for a week a good one and moved accordingly. John Bulger seconded the motion which was carried unanimously.

In speaking to the motion, John Bulger said that Mr. Hart had been busy and had found support for the fair. Mr. Hart had suggested to him that perhaps it might be possible this year to secure voluntary help to carry on the work.

DAILY NEWS COMPLIMENTED
Several speakers referred to the excellent report of the fair meeting in the papers and complimented the Daily News for its editorial on the question. If the papers would continue to give publicity to the matter and everybody would seek to enlist the support of the community, the fair would be a success. One of the speakers, referring to the fact that there were none of the creditors present, felt that they too should be vitally interested in supporting the fair.

MOTHER LOSES IN FIGHT FOR HER CHILDREN

B.C. COURT OF APPEAL JUDGEMENT IN VICTORIA UPSETS ORDER OF OHIO COURT

VICTORIA, Feb. 2.—Custody of three infant children of a divorced couple who have waged a fight for possession in the courts of two countries is given to the father by a judgment of the B.C. Court of Appeal allowing the appeal of Russell Pope Snyder, real estate salesman of 2748 Seventh Avenue West, Vancouver.

The wife, Martha Snyder, secured a divorce decree in Cleveland and was awarded custody of the children, then with their father in Vancouver.

To the B.C. Supreme Court the husband applied for an order giving him possession of the children under the Equal Guardianship Act, but the order was refused by Mr. Justice Gregory, it being understood at the time that the case would be carried to the Appeal Court.

The B.C. Appeal Court judgment both reverses Mr. Justice Gregory's judgment and, clashes with the Ohio court order regarding the custody of the children.

PITIFUL STORY

A pitiful story of parents actuated by love for their girl of seven and boys of three and five years, striving vainly to effect a reconciliation which would bring them all to one home was told in the court proceedings.

Prosperity in business soon after their marriage, too many social engagements of his wife in Shaker Village, Ontario, was alleged by the husband who, in telegrams and letters after he went to Vancouver, pleaded with her to leave her undesirable friends and join him in Vancouver. In a long letter he extolled the beauties of Vancouver and its climate which, he said, was far better than that of Cleveland. He also wrote to her friends urging them to leave his wife out of their social life because of the unpleasantness created.

"Come for the baby's sake. If you had seen the gash in his head and the blood streaming down over his shoulder and he crying for you, I am sure you would forgive," he wired to his wife after their infant son had met with an accident.

HOPE AND PRAYER

"On the eighth anniversary of our engagement my true hope and prayer today is that when another year has passed this day will find the family united and strong in the bonds of love and as lovers and parents enjoying the blessings which God has bestowed upon us," read another telegram.

He also told how he had entered business in Vancouver and had engaged a servant to look after the children, the eldest two of whom went to school.

After the divorce proceedings were lodged by the wife in Ohio and she was awarded custody of the children she came to Vancouver to secure possession of them. The husband at once reported to the Canadian Court in his fight to retain them.

Denying allegations made by her husband the mother charged that the responsibility for all the unhappiness rested upon her husband, who she charged had neglected both her and the children, and whose conduct had driven her to seek freedom from the marriage bond. The children, she told the court, had been spirited away from their Cleveland home in a car by her husband, who drove them to Vancouver. They were not, she said, receiving the attention in Vancouver they should receive, and showed they had missed a mother's care.

ORDER REVERSED

Following the Supreme Court hearing the judge awarded her custody of the children. This order since being reversed by the Appeal Court judgment.

A. Alexander appeared for the husband and F. E. Wilson for the wife.

NEW CHIEF OF STAFF BY MAY

MAJ.-GEN. J. H. MACBRIEN HAS OFFERED HIS SERVICES TO BRITISH ARMY FOR CHINA EXPEDITION

OTTAWA, Feb. 2.—Major-General J. H. MacBrien, chief of the Canadian army general staff, with the permission of the minister of national defence, has offered his services to the British War Office for the Chinese Expeditionary Force. It is not likely, however, the offer will be accepted, as the War Office has many senior officers on the half-pay list who have also asked to participate in the Chinese Expedition.

General MacBrien has been a keen student of military developments in the Pacific. In 1924 he attended the manoeuvres of the Japanese army and spent some time in the Orient. He has given numerous public addresses on the problems of the Far East.

TO LEAVE MAY 1

General MacBrien's resignation, which is now in the hands of the cabinet, probably will take effect May 1. It is said on the best authority that the

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful.

Every manager of a household---every member of the household who shares the responsibility for the family's welfare---should make a habit of reading the ads.

Read the advertisements in order to buy wisely

YOUNG'S MOTHER LEAVES TORONTO

ACCOMPANIED BY HER SISTER AND TRAINER—REFUSED TO RIDE IN AIRPLANE
TORONTO, Feb. 2. — Mrs. Jennie Young, mother of the Catalina champion, has left Toronto to join her son George in Los Angeles.
She is accompanied on the trip by George's aunt, Miss Isabella Young, and by Johnny Walker, who taught George Young most of the swimming science that enabled him to win his great victory.
Speaking to a reporter, Mrs. Young emphatically negated a report from Los Angeles that she would fly to the Coast in an aeroplane piloted by Commander Byrd, famous Arctic aviator.
"No aeroplane for me," she declared.

BOVRIL
REPELS
INFLUENZA

When the reporter had finally convinced her that it was not a joke, but the apparently serious assertion of a California newsgatherer.
"The doctors have consented to allow me to go on the train," she continued, "but I certainly would not travel in any aeroplane."
She will endeavor to stop off a day in Chicago, where she hopes to see a friend, Adam Leask. Hugh Young, her nephew, said he was wiring Mr. Leask to meet her at the railway station.
Mrs. Young said that J. Allan Ross, president of the Canadian Wrigley Company, was completing arrangements for the trip. Mr. Ross, interviewed later, stated that he had telegraphed William Wrigley, Jr. telling him that Mrs. Young was leaving here.
MAY GO ON STAGE
Mrs. Young received a wire from Mr. Wrigley, who intimated that he expected she would be with her son on Friday. He urged her to be there by that time: "It means a great deal to George's theatrical engagements," Mrs. Young may possibly share George's theatrical triumphs.
Members of the George Young local committee announced:
"The members are agreed that Mrs. Young and her sister leave for California at the earliest possible time. Dr. W. P. Caven has stated that Mrs. Young's health will permit of her taking this trip. It is imperative that Mrs. Young go to Los Angeles to sign contracts for her son George, who is still a minor.
Mrs. Young accompanied by her sister, spent an afternoon shopping in preparation for her trip. During the morning she was busy handling the volume of mail which daily pours into her home. She was visited by Mrs. O'Byrne, mother of George's manager, who came to wish her Godspeed on her journey.
MOUNTED POLICEMAN MAY GO
A request from George Young and O'Byrne that a Royal Canadian Mounted Policeman accompany the party to California was received by Mayor Foster.
Mayor Foster wired in reply that the matter of sending Mounted Police to California was within Federal jurisdiction only, and that he was furnishing Mrs. Young and the party with a letter to enable them to cross the border.
Shier Mendelson, Toronto swimmer, who saw Young conquer the Catalina Channel, is back home, in Toronto, bringing with him many stories of his trip to the Golden State, a dozen sea shells and 50 feet of "kelp," the seaweed through which George had to struggle before completing his swim.

ANNUAL MEN'S BANQUET HELD
SPEECHES AND ADDRESSES MADE PROGRAM OF MUCH INTEREST AT AFFAIR LAST EVENING
ARCHBISHOP PRESENT
Probably the best men's banquet ever held by the Anglican Church took place last evening in the Cathedral Hall when about 150 sat down to an excellent repast prepared by the Women's Auxiliary. The evening was one of rare enjoyment and the assemblage was treated to an excellent program of speeches and music which were heartily appreciated. The company was honored with the presence of Archbishop DePencier, whose boat was delayed in sailing. He forcibly presented the claims of the church.
Other speakers included Archdeacon Rix, who reviewed some phases of the church's activities, J. C. Brady, M.P., who spoke in regard to patriotism and Canada's relation to the Empire, Alex. Rix, who gave an excellent discourse on the oil industry, Lionel Holtby whose subject was railroading, and A. L. Patterson of the local elevator plant, who gave some information in regard to elevators and the grain trade. Mayor Newton represented the city and, with Alderman G. P. Tinker spoke on matters of interest to citizens generally. The captain of the Japanese freighter Yogen Maru spoke briefly and also played a selection on a Japanese flute.
During the banquet, Professor Pryce's juvenile orchestra played numerous selections which were very much appreciated by everyone. The program included solos by Mrs. S. D. Johnstone and Mrs. E. Anderson, community singing led by W. C. Orchard and a piano solo by Constable Scrogg. The time-honored toast to the ladies was fittingly proposed by Geo. Rorie. During the evening Mrs. Donald Ross acted as accompanist.
The whole evening's program had been well arranged and all the details carefully considered so the event was an outstanding affair and one long to be remembered by the large crowd which annually gather at this function under the auspices of the church.
R. M. Winslow acted as chairman for the evening.
Under the able conifership of Mrs. Thomas Andrew, the following ladies assisted in serving: Mrs. A. L. Holtby, Mrs. Russell Smith, Mrs. B. J. Mellish, Mrs. Jack Johns, Mrs. C. C. Mills, Miss Lennox, Mrs. W. H. Tobey, Mrs. George Rorie, Mrs. G. H. Arnott, Mrs. Dalby, Mrs. E. M. Tucker, Mrs. G. A. Woodland, Mrs. G. Smith, Mrs. G. A. Rix, Mrs. Adam Mackie, Mrs. M. M. Stephens, Mrs. C. W. Homer, Mrs. A. T. Parkin, Mrs. W. H. Smeaton, Miss L. M. Ellet, Mrs. J. A. West, Mrs. W. J. Greer, Mrs. E. M. McCookrie, Mrs. Hinton, Mrs. J. P. Cade, Mrs. R. V. G. Le Pine, Mrs. Wallace C. Orchard, Mrs. Lawrence, Mrs. S. V. Cox and Mrs. W. A. McLean.

SYNOPSIS OF LAND ACT AMENDMENTS
PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects conditional upon residence, occupation, and improvement for agricultural purposes.
Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.
Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.
Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made in printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.
For more detailed information see the Bulletin "How to Pre-empt Land."
PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."
Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.
HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.
LEASES
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.
GRAZING
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.
