CANADIAN WINS THE CATALINA SWIM

TWO LARGE PAPER MILLS FOR ALASKA NOW PROJECTED

George Young, Seventeen Year Old Toronto Marvel, Captures High Honor and Big Cash Prize

First one to make twenty-two mile course from Island to Mainland defeated one hundred America's most prominent swimmers

WILMINGTON, Cal., January 17.—George Young, seventeen-year-old swimming marvel of Toronto, swam the twenty-two miles from Santa Catalina Island to the California mainland, defeated one hundred of the world's best swimmers and winning \$25,000 as the first swimmer ever to cross San Pedro Channel. His time was fifteen hours and forty-five minutes or an average of fifty-four minutes per mile. He used the crawl stroke throughout the course. The race started at 11.21 on Saturday morning and ended at 3.05 Sunday morning. None of the other swimmers finished. Myers of Cincinnati, the next closest to Young, being a mile and a half from shore when he was forced to give up on account of the cold.

TO USE CAMELS INSTEAD HORSES

NOVEL EXPERIMENT TO BE TRIED OUT BY FARMERS OF ROSTHERN DISTRICT IN SASKATCHEWAN

SASKATOON, Jan. 17.—Brought from northern Russia to be tried out in lieu of horses by a number of German Lutheran farmers in the Rosthern district who plan to import upwards of one hundred animals, camels are to be brought to the province. The minister of agriculture has already been requested to facilitate negotiations with the Soviet government, now buying western horses, for permission to export camels to Canada. The farmers claim that camels, longer lived, can subsist on hay and straw without grain, and are faster walkers than horses and can work longer hours. The camel is in its prime at fifty years of age.

THIS BOY GETS WHAT HE WANTS

BRAINS NOT LEGS IS WHAT LEGISLATURE WANTS, SAYS TEN-YEAR-OLD TEXAS BOY

AUSTIN, Texas, Jan. 17.—Henry K. Steen, aged 10, page in the Texas state legislature, knows how to get what he wants. Wearing a collar much too large for him because he was unable to get one to fit his small neck but with the aid of a future statesman, he applied for the position of page. The House Committee told him that he was too small and that his legs weren't long enough. In a gentlemanly tone with aplomb, he replied, "What this legislature needs is brains, not legs." He secured the job.

PREMIER COATES WELL SATISFIED

CANADA AND NEW ZEALAND TO BE BROUGHT CLOSER TOGETHER IN TRADE RELATIONS

TORONTO, Jan. 17.—Satisfaction with the result of his discussion with Premier King with a view to legislation bringing New Zealand and Canada closer together in trade relations was expressed by Premier Coates of New Zealand when he arrived here on Sunday from Ottawa. He said there was a genuine desire on the part of both Dominions to promote trade between them.

The Northern Shipping Co. agents, reports the Suzuki Line freighter, Seine Maru, due here on January 19 to load grain for the United Kingdom or continent. The vessel, which is a sister ship of the Ypres Maru, which was here last month, left Muroran, Japan, on January 4.

CAPT. ORMISTON QUIETLY MARRIED

MISS SARAH PHILLIPSON IS BRIDE OF POPULAR SKIPPER OF NEWINGTON

A quiet wedding of much interest to local people and particularly to many along the waterfront was performed by Rev. G. G. Hacker in the United Church parsonage on Saturday evening when Miss Sarah Phillipson, daughter of John Phillipson of Selkirk, Man., became the bride of Harry Alexander Ormiston, captain of the government lighthouse steamer Newington. The bride was attended by Miss Mable Almon while the groom was supported by J. H. Hickey. The bride is well known in the community where she has resided for some time, having been employed as stenographer and bookkeeper with various local firms.

Capt. Ormiston, who hales from Cape Breton, Nova Scotia, is a well known local figure in marine circles and has been identified with the boats of the Canadian Government for some considerable time. He is a brother of the late Capt. Ormiston of the C.P.R. coastal service and the family have long been identified with maritime life. The happy couple will have the best wishes of a host of friends both here and along the coast where they are well known. They plan on residing in the city.

CHINESE MOBS SACK CHURCHES

FOO CHOW IS SCENE OF DISORDERLY CONDUCT OF SOUTHERN CANTONESE SOLDIERS

FOO CHOW, Jan. 17.—Chinese mobs, composed largely of soldiers belonging to troops of the Southern Cantonese forces which recently took possession of the city, on Sunday looted the Y.M.C.A., two mission churches and certain mission residences. One British subject was also robbed. A Spanish bishop's residence was broken into on Saturday night despite promises to the consular body that the Dominican premises would be protected. No casualties are reported but threats to invade and loot the foreign quarter have been heard. Also on Saturday night, entrance was forced to the Methodist institutional church and equipment of the place was destroyed.

WOMEN BEATEN
LONDON, England, Jan. 17.—The British Foreign office continues to view the Chinese situation as most serious and the cabinet met this afternoon to consider the latest reports. Although all missionaries are reported safe at Foo Chou, practically every mission building of all denominations was attacked on Sunday night.

A number of British and United States women were beaten by the Chinese mob, several victims were dragged through the streets. Churches, schools, hospitals and all foreign residences were ransacked.

TWO MILLIONS WORTH OF FURS

WAS PRODUCTION OF ALBERTA DURING 1926 GOVERNMENT DEPARTMENT ANNOUNCES

CALGARY, Jan. 17.—Alberta's fur production in 1926, exceeded a marketable value of \$2,000,000 according to figures released by the provincial game branch. The total income exceeds that of 1925 by more than \$120,000. Only furs caught within the province are included in these totals. Those taken in the Mackenzie country not being counted, though they go to market via Edmonton. The number of pelts in the total catch is given as 975,857. There were more rabbits than any other kind of fur bearers, this variety of skin contributing 425,716 of the total. Next are: Muskrat, 310,714; weasel, 117,647; coyotes, 96,639; beaver, 15,089; red fox, 11,032.

THIRD DEATH WITH VIOLENCE

WORLD RECEIVED IN CITY OF DEATH IN NOVA SCOTIA OF ADAM SELIG, FATHER OF WELL KNOWN FISHERMEN

Harry Selig of the American halibut schooner Onah, which is tied up here for the winter, received advice by wire of the tragic death on Saturday at Voger's Cove, Nova Scotia, of his father, Adam Selig, who was killed instantly by falling from a load of wood. He was 79 years of age and was born in Nova Scotia off the coast of which he was engaged for many years in cod fishing on the Grand Banks, having been the master of many schooners. Deceased, who was predeceased by his wife who died in 1917, visited Prince Rupert some six years ago on business in connection with the estate of his son, the late Capt. William Selig.

The demise of Adam Selig makes the third violent death that has occurred in the family, all members of which were engaged in the fishing industry. First William Selig, a son, was killed here in 1920 when he was struck by a train near Cow Bay. Then George Selig, another son, was accidentally shot in 1922 on the Queen Charlotte Islands when he was mistaken by a hunter for a bear. Beside the son here, Harry Selig, there is another son at Ketchikan, Steve, who is owner of the boat Golden West, engaged in salmon fishing work.

TOWNS SPRINGING UP IN NORTHERN QUEBEC

Latest Place in Rouyn Mining District is Known as Mercier

MONTREAL, Jan. 17.—New towns are springing up almost monthly in the Rouyn mining district of Quebec. The latest will be called Mercier, after the provincial minister of lands and forests. Application for its charter will be made at the next meeting of the Quebec legislature.

The site for the proposed town is located several miles from Rouyn Landing, at which point a wharf is located for the accommodation of canoes and power boats carrying goods by water to the new mineral district of the province. Some 500 lots have been laid out within the bounds of the municipality and as those behind the application seek to found a model town, special administrative powers will be sought from the legislature.

JOHN DYBHAVN IS BACK WITH BOAT FOR ROYAL FISH

Returning to the city in the 55-foot powerboat Delphinium, which he had purchased in Vancouver for the use of the Royal Fish Co. here, John Dybhavn, head of that concern, returned to the city last night from the south. Accompanying Mr. Dybhavn north were Lars Voge, Lars Pederson and Harry Hovden. They report having a good trip on the small boat which is powered with a 40 h.p. Standard gas engine. It is a fish boat and packer and will be used for general utility work in connection with the Royal Fish Co.

QUARREL OVER WOMAN ENDS IN BLOODSHED

ANDREW VAVOENE AND HARRY HOUGE ARE DEAD AT PATRICIA, ALBERTA

CALGARY, Jan. 17.—Andrew Vavoene, farmer of Patricia, and Harry Houge, his neighbor, are dead, Robert Irwin, a neighboring farmer, is charged with manslaughter following a shooting affray near Patricia Saturday night. According to the story told to the provincial police, Vavoene and Houge quarrelled over the former's wife. Vavoene shot Houge with a rifle and when Irwin attempted a parley, Vavoene fired at him, Irwin replying with a shotgun. The charge of shot entered Vavoene's leg, who then crawled into his home and died Sunday. Irwin surrendered.

AIDS ALASKA PAPER MAKING

U.S. GOVERNMENT OFFERS TWO IMMENSE TRACTS OF TIMBER FOR SALE

WASHINGTON, D.C., Jan. 17.—To assist the establishment of a paper manufacturing industry in Alaska producing at least a million tons of paper a year, the government on Saturday offered through the forest service for competitive bidding two of the largest timber tracts it ever placed on the market. Each embraces five billion board feet of pulp wood timber and each sale will call for the establishment of a two hundred to five hundred paper mill involving an investment of at least from eight to ten million dollars in waterpower development, manufacturing plant and logging equipment.

One tract of timber lies in the northern part of Tonga National Forest not far from Juneau while the other is in the southern part of the forest near Ketchikan. The offer is made in order to relieve to some extent the necessity of buying the product of Canadian paper mills.

DAILY EDITION. Monday, Jan. 17, 1927

CANADA'S POSITION TODAY IS SOUND.

The year 1927 opens with evidences of a marked forward stride having been taken, during the year just closed, in most departments of Canadian financial and industrial activities, and with the outlook bright for a continuation of the advance towards a condition of prosperity in this country.

The chief barometers that indicate advances or recessions in national business are, indeed, favorable. The past year saw a considerable expansion in the country's trade. Gross and net earnings of the great transportation companies, both on land and on water, were far in excess of the previous year's records. Several industries that had been slow in picking up after the depression resulting from the period of deflation are showing signs of moving forward once more. The returns of the chartered banks of Canada, as made to the Minister of Finance month by month, showed a succession of increases in savings deposits and in the volume of commercial loans, demonstrating, on the one hand, better earning power on the part of the people, with a safety valve of economy operating; and on the other hand proving in the heavier loans made to manufacturing and distributing agencies that a real upward trend in production and sales was in process. Reports of six of the banks as made to their shareholders in the past few weeks indicated increased profits for the year, in some cases the highest in their histories.

It is probable that a new high record will have been recorded in construction during 1926, with a total close of \$400,000,000. Impressive developments have taken place in the generation of hydro-electric power, and a start made on the construction of a gigantic installation by the Aluminum Company of Canada that promises to become the largest single unit in the world. The pulp and paper industry goes forward apace; remarkable expansion in United States consumption during the year forcing Canadian newsprint mills to operate practically to the limit of a greatly increased capacity, to meet the phenomenal demand.

MARKED IMPROVEMENT IN EMPLOYMENT.

The index number of employment reached a new high level during the latter part of 1926, indicating a marked improvement over the situation in the first half of the year, and conditions unusually favorable for commencing the new year. The mining industry of Canada made more progress, probably, than ever before, and the current year promises to record the greatest activity in the history of this industry, with Quebec launching forth into a substantial position with the advent of power and a railway; the province of British Columbia, under the lead of the Consolidated Mining & Smelting Company, broke new ground in production, and the coal mines of Nova Scotia made substantial gains this year over the records of many years past.

Possibly the greatest individual influence behind the sound conditions prevailing in Canada today is the improvement in the sentiment and in the buying power of the Canadian West. Two great crops in succession, marketed to much greater advantage than had been anticipated, have enabled bank loans and mortgage obligations to be liquidated to a surprising degree, and have created the best market in years for Canadian manufacturers.

That confidence in the immediate future of business in Canada is held by banking authorities is evident from views expressed in bulletins issued as the year ended. The Bank of Montreal said: "The year closes upon a state of trade distinctly better than at any similar period in the last six years." The Royal Bank's letter declared that "The industrial and financial structure (of Canada) is now on so substantial a basis that enthusiasm concerning the future seems entirely justified."

ILLUSTRATIONS OF SOME DEVELOPMENTS.

A few details of some of the developments will serve as illustrations of the greater prosperity of Canada today:

The Canadian Pacific Railway Company gross earnings for eleven months to November 30, 1926, were \$189,233,610 as compared with \$163,537,460 for the corresponding period of 1925; net earnings of \$43,328,944 showed a gain of \$8,000,960 over the previous year, and promise to be exceeded only by one other year, that of 1916, in the history of the company. Canadian National Railways net of \$41,451,628 stands over \$14,500,000 ahead of last year, and the indications are for a total of over \$45,000,000 for the year.

Newsprint production in Canada for eleven months amounted to 1,714,020 tons compared with 1,385,234 tons for a similar period of last year, representing the largest advance ever recorded in one year over another in the history of the Canadian industry, and showing nearly 200,000 tons ahead for eleven months of the entire year 1925. Pulp exports for eleven months amounted to 919,031 tons as against 866,252 in 1925, with values up from \$43,306,575 to \$47,722,945. Total exports of paper were \$110,566,550 up to November 30, as against \$96,124,342 the previous year.

Earnings of the Royal Bank for the year were \$4,516,239 compared with \$4,081,629 previous year; Bank of Montreal, \$4,978,133 as against \$4,604,963; Canadian Bank of Commerce, \$3,636,983 as against \$3,487,213; Bank of Toronto, \$1,108,692 against \$1,012,964; Banque of Canadiane Nationale, \$860,659 against \$822,026; Provincial Bank, \$454,123 against \$407,258. Savings deposits as of October 31, 1926, the last available, showed a gain of \$70,000,000 during the twelve months for all the banks, being up from \$1,277,000,000 to \$1,347,000,000. Commercial loans were up in the same period from \$906,249,140 to \$983,440,760, an advance of over \$77,000,000.

Customs duties for the eight months of the fiscal year from April 1 to November 30, 1926, rose from \$85,509,914 in 1925 to \$96,415,482; excise taxes were up from \$29,574,159 to \$34,181,182, and income taxes down from \$52,657,584 to \$45,430,279.

The wheat crop of 1926 came very close to the high record established in 1925, with 405,814,000 bushels of wheat according to the Bureau of Statistics estimate, comparing with 411,375,000 for 1925.

WHAT SUCCESS DEPENDS UPON

NORMA TALMADGE PARALLELS ACHIEVEMENT ON STAGE WITH ACHIEVEMENT OF LIFE

Success, I think, depends in most cases, a little more on character than on talent, writes Norma Talmadge. Though it goes without saying that in any of the arts one must have talent also, I find in common with most every other star on the screen, that my first instinct is to steer away the young girl who comes to Hollywood seeking a career in moving pictures.

And yet I realize this is folly. Why indeed should not every girl have her chance? I insisted upon having my chance. And this is what I learned after it came to me. That one must form the habit of work. One hears much of inspiration, but anyone who leans too heavily upon it will find it a slender reed. One must quickly be able to distinguish the desire between loving the life—the glamour that surrounds a moving picture studio, and the desire to act before the camera. This really is a very important factor and is seldom understood until one has actually gotten into the work. So few people can sacrifice the pleasure of the present for the pleasure of the future. Love of one's work makes one do more right things for it than all the cold wisdom in the world. When someone asked George Sand how one could know if one were a writer, she said, "If it's an obsession." Giving up dinner parties and dances will not be a hardship if your work comes first. If you are an artist, they will bore you. It is as hard for an artist to stop working as it is for a sparrow to stop building its nest.

You must have many things to succeed in pictures. First, what the French call a face. That means contour, mobility of expression, neither just beauty nor plainness can help you much. It is the expressiveness of your features. Not can you have an inexpressive figure. I mean "a wooden body," one which cannot be taught to be fluent, which is just naturally stiff or tense. Granted that you have all the necessary requirements for pictures, but if you have not the will, the clear vision to see beyond flattery, the adulation that comes to all young players, you will not be able to hold success.

LIFE IS DIFFERENT

Life is difficult for the young girl who comes to Hollywood. Do not believe all the stories you hear of the influence that it is necessary to have, either to enter or to gain the front rank in pictures. Influence may or may not make it a little easier, but no artist in any real standing has ever attained or held a professional position except through hard work and study of her own ability. I think to succeed in almost anything, one should be able to analyze oneself to know one's faults, to what what one is fitted for, and in moving pictures especially, to be able to sit in a projection room and judge one's performance as it flickers by on the screen, as one would judge a stranger.

The temptations of the movies are no more than the temptations of life. One must cultivate an inner fortitude to face conditions for any achievement. That is why I think that character is as important as talent. The road to Hollywood is so beautiful, nature with gorgeous generosity has endowed it with flowers and trees, hills and mountains, with such a lavish beauty that there is something miraculous about it. And there is plenty of room on it for those with talent. I, too, am conscious of this glamour—it is a thrilling life and I am deeply grateful for the share of it that has come to me. I would that I could put into words the qualities that one should bring to it, but we are all so different and each one must find out these things for himself. But I would place the love of work above everything.

MOUNTED POLICE PICTURE TONIGHT

"Steele of the Mounted" is Story of Disillusioned Lover Who Got His Man

"Steele of the Royal Mounted" coming to the Westholme Theatre tonight is a melodrama. The Northwest Mounted pattern runs true to form allowing for a few variations. The central figure is a member of the troop who joins it to crave excitement that he might forget his lady love who has played a cruel hoax on him.

The Mounted story is always good for a screening if not filmed too often. The man-hunt begins through the timber waste of Canada and it holds the interest.

There is a society background. The characters are not clearly defined, though there is a suggestion that they belong to the elite. The heroine, becoming playful, introduces her father as her husband. When she tries to make amends the hero has flown to the upper reaches of Canada where he insists in the Mounted. With his work cut out for him in capturing the villain, the girl starts a man-hunt of her own. She will find her man and beg forgiveness. Before the happy ending

is reached a few thrills are injected. One feature is a saloon brawl in which the Mounted takes the shooting irons away from a "killer" and the best scene features the officer shooting the rapids and being rescued by his buddy before the canoe reaches the falls. Bert Lytell makes a good appearance as the officer and accomplishes all that the role requires. Stuart Holmes is the villain.

STIRRING AND VIVID STORY OF THE NORTH

Film "The Barrier" is Accurate, Faithful Portrait of Primitive Life in Early Alaska Days

A stirring, virile drama of the Alaskan frontier comes to the screen in "The Barrier," the photoplay from Rex Beach's widely read novel of a decade ago of the same name, which is to be shown Tuesday night at the Westholme theatre.

This picture contains none of the overdrawn heroics customarily associated with pictures woven around the lives of men and women in primitive conditions, but is an accurate, faithful portrayal of man's struggles against the wilds and the elements.

Norman Kerry, a favorite portrayer of romantic roles, plays Meade Burrell, the aristocratic army officer from Virginia, who is assigned to Alaska, where he meets and falls in love with Necla, a half-breed girl whom he believes all white, as does she herself.

One of the big emotional climaxes of the play comes when the disclosure of Necla's mixed blood is made by Stark Bennett, the brutal ship captain, portrayed by Lionel Barrymore, in the presence of Lieutenant Burrell and Gale, played by Henry B. Walthall.

Meade Burrell, the proud and naughty scion of a family of southern bluebloods, learns that he loves a half-caste; Gale, the kindly old factor of the north, is forced to confess to the girl that he has been deceiving her these years as to her parentage; Bennett, the brutal, man-eating skipper, lusts for vengeance on Gale, who has bested him in a brawl, years before, is ready to take the girl away from her sweetheart and the man she believed to be her father.

THRILLS A-PLENTY

There is some wonderful photography of the snow country, a spectacular crushing of a ship in the ice floes, some hair-raising fights that eclipse in realism perhaps anything ever presented. An evening of solid entertainment is assured.

Marceline Day, the heroine, who has just stepped out of comedies and westerns into a leading woman role, is a lovely and convincing Necla.

Altogether, "The Barrier" is a first-rate show.

GRAHAM ISLAND TIMBER PROJECT

FURTHER PARTICULARS OF POWELL RIVER CO'S UNDERTAKING GIVEN IN DESPATCH TO VANCOUVER PAPER

Further particulars of the big development plan on Graham Island proposed by the Powell River Co. and some interesting discussion of timber affairs on the Queen Charlotte Islands were contained in a special despatch from Victoria which occupied a prominent position in the Vancouver Province on Friday. The despatch was as follows:

Plans for a large industrial development by the Powell River Company on Graham Island involving the expenditure of at least \$1,250,000 and designed to move out logs for the company's big mill at Powell River were announced here by Michael Manson, member of the Legislature for MacKenzie.

Mr. Manson indicated that he had just received authentic information covering the company's plans, following the sale of about a billion feet of pulp timber to it by the government. With his announcement of the proposed Queen Charlotte Island industrial development Mr. Manson linked the statement that the government's sale of the timber in question, formerly under attack, was entirely satisfactory to the opposition.

The Powell River Company will spend not less than \$500,000 in creating a new port on Graham Island as an outlet for its new timber limits. Mr. Manson stated. This will be in addition to large railway construction on the island, a project which will employ many men during the next two years. Plans for a railway already have been completed and construction will be started at the earliest possible date. A standard-gauge line will be built inland from the portsite at a cost of about \$750,000, and logs thus brought out to tide water will be taken to Powell River for manufacture into paper.

Sale of the Queen Charlotte Island timber has been the subject of controversy as a result of pointed questions asked by R. H. Pooley, opposition leader, who pressed his queries in the Legislature. While Mr. Pooley objected to the sale of the timber without sufficient notice, Mr. Manson, the timber expert of the opposition, declared that the transaction had been of great advantage to the province.

PRICES DECEPTIVE
"It is wholly incorrect," Mr. Manson said, "to accept the prices given by the minister of lands, in answering questions as to the total cost of the timber to the Powell River Company. To compute the actual cost one must necessarily add the royalty to be collected by the crown as cutting proceeds, and which adds a further \$2 per thousand to the price. Furthermore, at least \$1 per thousand will be added to the comparative price at or near Powell River to cover rafting or barge towing, with an additional \$6 per thousand for towing and insurance."

"Criticism suggested by the seemingly low price for cedar and white pine will be found on analysis defective, inasmuch as royalty and handling charges have not been taken into account, and the cut of these woods cannot be used in the ordinary course of the company's operations. This means that they will have to take their chance of reselling at a market which at present shows a tendency to decline rather than to advance."

The tract of pulpwood timber sold by Provincial Government to the Powell River Pulp & Paper Co. on Graham Island, consisted of 69,116 acres and contained 1,168,544,000 feet board measure, valued at \$694,312, plus royalty. Hon. T. D. Pattullo, minister of lands, informed the House, replying to questions by R. H. Pooley.

Cash to the amount of \$95,698 was paid down and stumpage and royalty were to be paid as the timber was cut and scaled and upon receipt of account. All the timber must be cut inside of thirty years. The Powell River Co. submitted the only tender.

Mr. Pattullo said that George H. McKinnon, a timber cruiser, protested in writing against making the sale at this time of year, claiming that communication with the islands was difficult and the season not propitious for examining timber. Communication was not difficult, however, the minister said, while with detailed information available in the department, only limited field checking by interested parties was necessary.

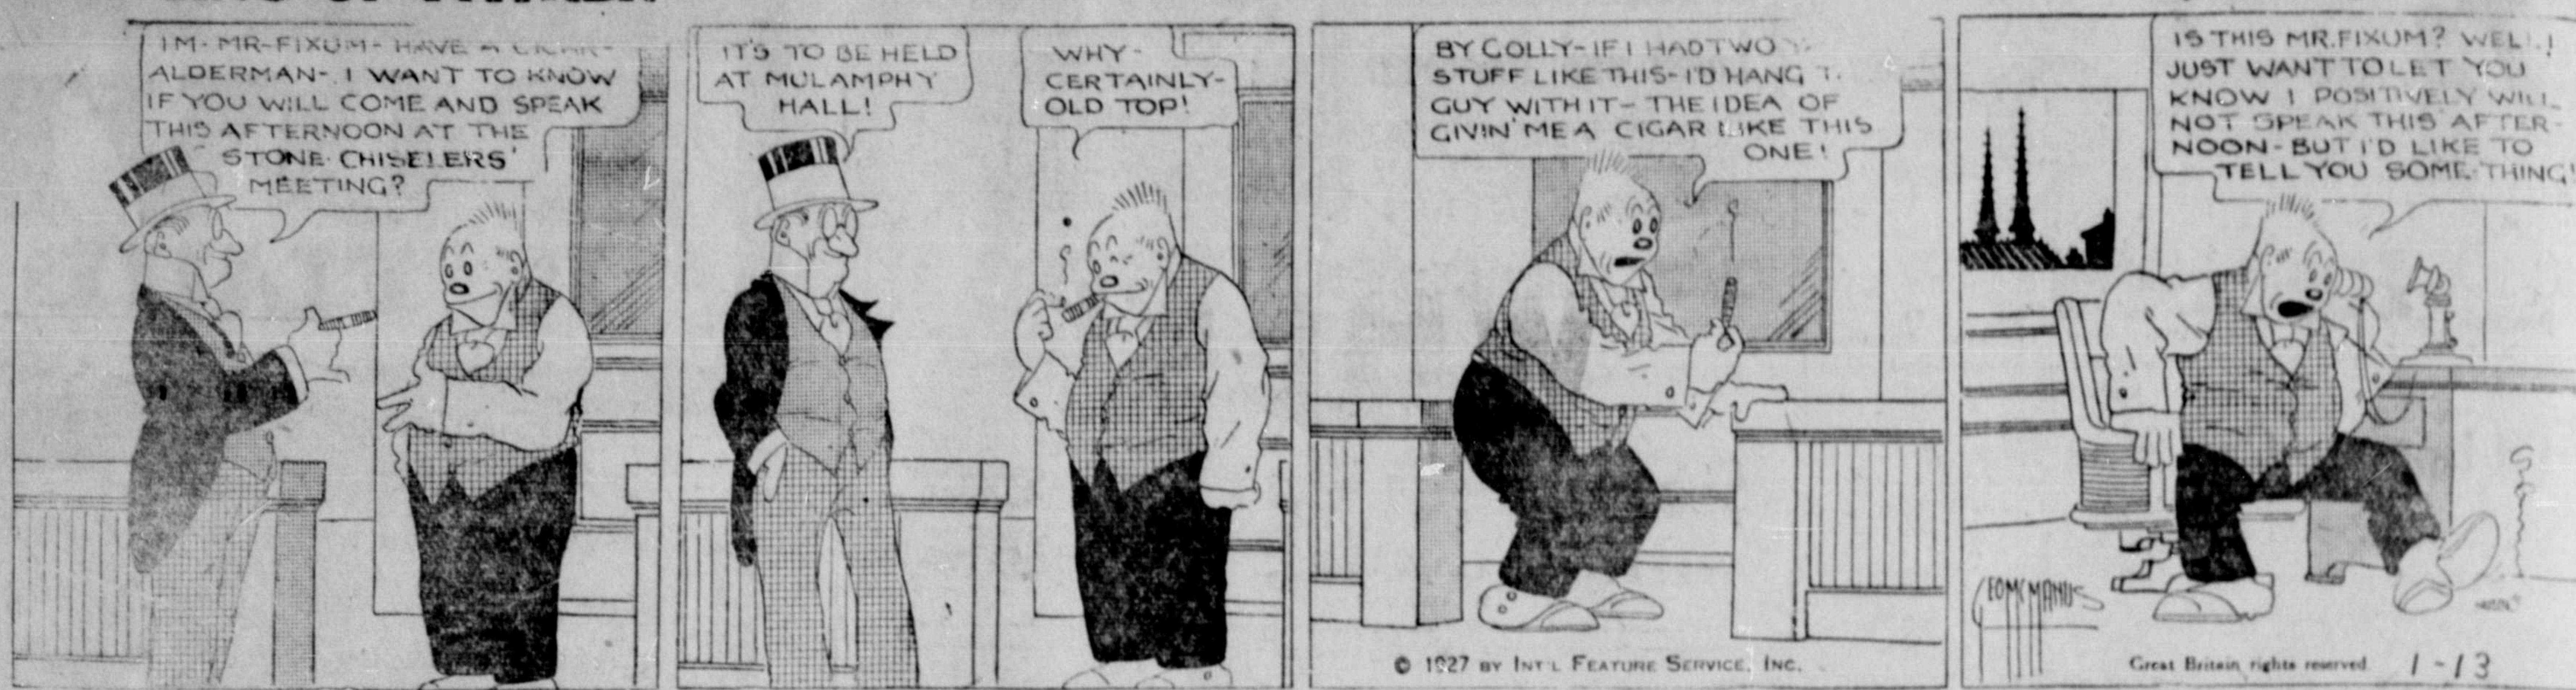

Question—Did any other person or persons make protest to the minister of lands?

Answer—Yes, the Lumber Products Company of Los Angeles, California, and Ladner & Cantelon, solicitors, Vancouver, on behalf of the Lumber Products Company. Coincident with the representations made by Messrs. Ladner & Cantelon, R. H. Pooley also made representations to the prime minister.

Question—Did any person or corporation make request for time to inspect the timber with a view to making a bid to purchase this timber? If so, when, and who were the parties? Was extra time granted? If not, why not?

OPERATIONS NOT SATISFACTORY
Answer—Yes, the Lumber Products Company of Los Angeles, California, and Leon Ladner, on behalf of the said company, immediately prior to the sale. The Los Angeles company carried on operations at Masset Inlet of an unsatisfactory character. Their operations consisted of the very minimum of manufacture to permit export. The product was then shipped to Los Angeles to be further manufactured there. This company is not operating at the present time and is not the owner of the licen-

The Children Will Catch Cold

Mothers should never neglect the first sign of a cold or cough where their children are concerned, for if they do some serious lung trouble is liable to follow.

Mrs. R. T. Hubby, 1022 Barrington St., Halifax, N.S., writes: "The children are continually getting colds, but I have no trouble with them, for just as soon as they begin to cough I give them a dose of

which breaks up the cold within a day or so. I get great results out of it and can't live without it for anything. I can highly recommend it to any one."

oversight on the part of many, but it should not be overlooked for a longer period.

A good crowd was in attendance and considerable business was satisfactorily handled.

A satisfactory communication was read from the Educational Department in regard to school grounds improvement work, the supplying of free shrubs, etc. This was turned over to the grounds improvement committee to act on in conjunction with the school board, through whom the grants must come.

The supplying of cocoa to the school children was considered not necessary owing to the comparatively mild weather, and the question was dropped for this winter.

A committee composed of Mrs. O. Von Hees, Mr. Sprague and Mr. Thomas was appointed to select books to the value of \$20 for the school library, half this amount having been turned over by the Christmas tree committee to be spent for the children in that way. By having this handled through the school board the government donates an equal amount, thus a double value will be received from the Christmas tree donations.

After the business meeting Rev. A. W. Robinson gave a very interesting talk on "Sidelights of India," taking three topics: "Salutations," "Music," and "Craftsmanship." These were interestingly illustrated. Several pieces of craftsmanship in brass and silver work were much admired and Mr. Robinson's rendering of several pieces of Indian music much enjoyed.

Mrs. R. Haney also delighted the audience with two well rendered vocal solos. A social half hour was enjoyed while refreshments were being served.

VARIOUS MATTERS BEFORE TERRACE PARENT-TEACHERS

TERRACE, Jan. 17.—At the regular monthly meeting of the Terrace and Kitsumkalum Parent-Teachers' Association held on Thursday evening in the school house, an appeal was made by the president for more members, the membership book showing that very few, even of those most active and interested in the work, were bond-fide members. It was felt that this was an

HAZELTON

With hauling conditions improved, cedar poles are beginning to move in real earnest. New Hazelton is the railway shipping point for a production which it is expected will be greatly increased this winter.

A party of Blackwater Indians arrived last week with a good catch of furs which they sold at satisfactory prices.

William McAdams of the Standard Oil Co. at Toronto and Ferguson McDonald of Vancouver have purchased the stock in the American Boy mine from Harris Bros. The new concern plans within a few weeks to start an active campaign of development on the property.

The first farmer in the interior to take advantage of the cheap feed thus provided, W. C. Little of Woodcock has purchased from the Prince Rupert elevator a carload of grain screenings which he will use as hog feed.

TERRACE

Tom Moore of Hyder is visiting at the home of his parents Mr. and Mrs. E. J. Moore.

Gus Muelser a logger in Little's wood's camp met with a serious accident on Thursday when he was thrown from the spring board on which he was working and suffered a major fracture in his leg just above the knee. First aid was rendered here by Dr. Turpel and he was taken to the Prince Rupert hospital on Friday morning's freight where x-ray treatment will be used in setting the bone.

Lester Taft suffered severe cuts and bruises to face and eyes on Friday in a runaway accident in the Lakelse valley when the team he was driving became unmanageable and bolted down a steep hill throwing him to the ground. Several stitches were required to close a wound in his face after which he was able to return to his home.

Mrs. W. H. Burnett was a tea hostess on Friday.

A mild type of influenza is at present quite prevalent throughout the district, the patients being chiefly children.

Mrs. H. and Miss Hollowell had the misfortune to be thrown from their buggy on Wednesday night when leaving Progress Hall after the Anglican social. Miss Hollowell received a slight cut on the head and both were badly bruised. Fortunately help was at hand and they were taken to the home of Mr. and Mrs. F. C. Bishop, and were able to return to their home the following day.

Terrace residents much appreciated the calm and fairly mild weather of Saturday after the week of severe cold, windy weather which preceded it. Sunday morning several inches of snow made logging prospects brighter, hauling having been carried on recently on ice roads but with not very satisfactory results.

BURNS LAKE

Over forty residents of Burns Lake and the lake district south were present at a meeting here last week when it was decided to take the necessary steps towards forming a Burns Lake and District Board of Trade. S. Godwin presided over the meeting and R. Lowe acted as secretary. The membership fee was fixed at \$5 per year and officers will be elected when the charter has been received from the Secretary of State.

The Burns Lake Community Hall Association has decided to put on a series of Saturday night dances during the winter months.

Mrs. Craig of Vancouver was here last week enroute to Francois Lake where she will become matron of the hospital.

D. M. Gerow had the misfortune to injure his back and has been confined to his home during the past week under the doctor's care.

Mrs. D. A. Titus and children and Mrs. Wheeler left last week for Premier Mine where they will reside. Ray J. Philney and family of Buffalo, Wyoming, have taken up tem-

WEST INDIES AND CANADA

OTTAWA TO OPEN TENDERS FOR TWO STEAMER SERVICES FROM ATLANTIC AND ST. LAWRENCE PORTS

PROVISION FOR PASSENGERS

OTTAWA, Jan. 17.—(By Canadian Press.)—Tenders for an elaborate mail, passenger and freight steamship service between Canada and the British West Indies have been invited by the department of Trade and Commerce, Ottawa. The tenders will be opened on January 20. The service is called for in the trade treaty negotiated in 1925 between the Dominion, the West Indies, Bermuda, British Guiana and British Honduras. This is the second occasion upon which Canada has called for tenders for the service; last year it was said that none of the companies bidding were able to supply adequate service.

The trade treaty with a long list of mutual tariff concessions has been ratified by Canada and by the Islands and is only kept from becoming operative by the delay in the setting up of the ship services. Should the lines be established they will supply a faster and more frequent means of communication between these two parts of British North America than has ever existed before. At the present time the Canadian Government is paying \$340,000 annually in subsidies to steamship companies to maintain a service which the islands have claimed is quite inadequate to permit them to sell their natural products to the best advantage in Canada. To establish the proposed communications will cost Canada a great deal more money in annual subsidies.

SERVICES CALLED FOR

The contract will provide for two services. The Eastern Service calls for ships calling fortnightly, all the year round, at Canadian Atlantic ports, Bermuda, St. Kitts, Nevis, Antigua, Montserrat, Dominica, St. Lucia, Barbados, St. Vincent, Grenada, Tobago, Trinidad and Demerara. The vessels are to be 6,000 tons, capable of twelve knots, with accommodation for 100 first class.

DOUGLAS MACLEAN IN "HOLD THAT LION"

Lion Hunt Furnishes Laugh and Thrill
Climax for Thursday's Night's Picture

Picturegoers who visit the Westholme Theatre next Thursday night are assured of a royal good time. Douglas MacLean, acknowledged king of comedy, will be there with his latest mirthquake, "Hold that Lion," supported, as the title promisingly suggests, by several kings of the jungle.

Besides the smiling funster and his unsoberable pets, the picture reveals a number of other personalities who share in the general fun and excitement. Constance Howard, a blonde and petite newcomer, makes an impressive screen debut as MacLean's leading lady. Walter Hiers, who is just as funny as he is fat and vice versa, contributes a goodly quota of laughs on his own account. Cyril Chadwick, Wade Boteler and George Pearce—all tried and true players—ably second the active and irrepressible star.

TEN YEAR CONTRACT

The contracts will be for a ten year period. The entire subsidy will not be borne by the government of Canada; under the treaty 29,000 pounds annually will be contributed by the Barbados, Bermuda, British Guiana, the Leeward Islands, Trinidad and the Windward Islands.

More than a little interest in shipping circles has been aroused by the inviting of the tenders for the new service. It is known that several of the great shipping companies are anxious to secure the contract. The Canadian Government Merchant Marine it is said is among those tendering as a private company. Although the Government's own merchant fleet has not ships which quite meet the requirements called for, it is understood that they are prepared to build or reconstruct vessels to suit the trade if the contract is secured.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that James Field, whose address is 213-2nd Ave., Prince Rupert, B.C., will apply for a licence to take and use 1 cubic foot per second of water out of unnamed creek, which flows easterly and drains into Crescent Inlet, Moresby Island, Q.C.I., about one mile from the head of the Inlet on the north shore. The water will be diverted from the stream at a point about 1,000 feet from the mouth and will be used for domestic and canning purposes upon the 40 acres of land described as unsurveyed land, for which purchase is applied about 15 chains southwesterly from the mouth of the stream.

This notice is posted on the ground on the 20th day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act," will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication is December 20, 1926.

COLLEEN MOORE IN BIG CITY ROMANCE

Delightful Story of Middle Class Life
In New York Coming in Week-end Picture "It Must Be Love"

Promise of a delightful romance of middle class life in New York is made by the management of the Westholme Theatre, where "It Must Be Love," Colleen Moore's latest First National starring vehicle will be shown at the week-end.

"It Must Be Love," adapted from Brooke Hanlon's story, "Delicatessen," is declared to be one of the most human stories of the year, being replete with heart-throbs as well as the well-known Colleen Moore chuckles. This production centers in the situation a girl finds herself in when she gets a beau and is ashamed to bring

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful.

Every manager of a household--every member of the household who shares the responsibility for the family's welfare--should make a habit of reading the ads.

HUNTING MOOSE IN WINTER NOT AN EASY THING

STEWART MAN, WRITING TO VANCOUVER PAPER, TELLS OF SOME OF DIFFICULTIES

Mr. Williams' account of the hunting exploits of the parties he has taken into the nearly-unexplored country between Atlin and Dease Lake are highly interesting to me, especially since much of my life was spent in that neighborhood, says Joseph H. Wilson of Stewart in a letter to the Vancouver Sunday Province. His descriptive writing of his various stalks is, I suppose, all that is commendable; but at that can not mean much to the non-hunter, nor without the exercise of imagination coupled with recalled experiences, to one who like myself has killed much—game?—no, meat!

"Now in most parts of the section he writes of, it requires not much knowledge of hunting to get game. To know where the game is and the means for reaching the spot does need some knowledge, but when their habitat is reached it is a comparatively easy job to kill what game is desired. So easy is it in the region about Teslin Lake that we old-timers think of it as much like slaughtering an animal in the barn-yard. To reach the point I am aiming at at a jump, I will add, in the summer or fall.

"If a trophy is wanted that will show real achievement for a hunter, let it

same thing the world over. It is just: "I killed him at the first (to the ultimate) shot," or, "I pulled down on him a real careful, and she snapped!"

"The account of any sort of trip to strange lands and under strange conditions is always of interest, and if one is a story-teller must provide matter for his pen.

"From my knowledge of what it is like I wish I might be young again and with two or three companions go to Atlin east, starting as soon as there is snow for the sleds. And I wish I were able to describe what such a trip is like.

"I am well over 50 now, and nothing could induce me to do this thing; but sometimes I am transported in my day dreams to some long past occasion, when the dogs having been fed, the two or three of us squatting in our blankets spread over spruce boughs with a candle stuck on a stake stood deep down in the snow; the fire going, with the smell of supper on its way and the tent pitched in the midst of a snowy wilderness. There is too much of a story here for me, and too many incidents. I will have to leave it for some man better equipped than I am to tell of it.

Mr. and Mrs. Thomas H. Johnson of Prince Rupert are visiting in the city and are guests at the Empress Hotel. Mr. Johnson is manager of the Canadian Fish & Cold Storage Co.—Victoria Colonist.

The statement that in Victoria they played golf 362 days out of the 365 suggests the query. What did they do in those three off-days?

Michael Arlen now ranks with Byron and Peter Pan. He has had a collar named after him.
