#### CHOOSING A PREMIER

When Hon. T. D. Pattullo was in the city recently he was asked if he was looking for the position of Premier. He replied in the negative, stating that he did not believe in any person looking for it. The office should seek the man, rather than the man the office. He had no doubt that any man chosen for the position would accept it two hoses. as a public duty but he did not like to see a person "going after" | According to Olsen, who chartered any position of importance.

In spite of the modesty of Mr. Pattullo, there are a great many people who think he would make an excellent premier and one that would add dignity to the office. However, it is for the members of the Legislature to do their own choosing.

Talking is quite all right as long as the talker says something. The objection most of us take is to the person who talks all the time and never even suggests an

#### INTENSE HEAT IS FATAL

Intense heat in the east is proving fatal to many of those who are not sufficiently strong to withstand it. That is the trouble with many climates. It is either intensely hot or intensely cold but here it is neither. Very seldom is it very hot and never very cold. We often feel that we are under disabilities here in regard to weather but that is largely because we are not properly informed as to what it is like in other places.

There is life insurance, fire insurance, automobile insurance, and marine insurance, but so far nothing has been heard of election insurance. Today the province of British Columbia should take out a policy.

#### CATCHING SUCKERS WITH CLEVER BAIT

One may wonder at the regularity with which the "born sucker" is taken in by sharpers of all sorts, says the Ketchikan Chronicle. But a study of literature prepared to stimulate the "sucker's" desire for "big profits quick" tells a story all its own. It answers the question of millions, "why do not the authorities catch and punish the sharpers instead of contenting themselves with issuing warnings to beware of them?"

And this literature is conclusive as to the determined character of the hunt that incessantly goes on to catch them. That more are has a knowledge of this province equalled not caught is due to their having discovered the safe ground that by no other man. In the intricacies lies between promises that cannot be fulfilled and a type of appeal the constitution he had no superior; as that assures cupidity's rushing in with demand that his money be a political strategist and party leader his accepted in exchange for the thing boomed, though no promise has work of the last session showed him to been made in connection with it and no one has been solicited to buy.

So subtly is the appeal to avarice made, so skilfully is the reader impressed with the merits of that with which it is desired to impress him that "suckers" are sure to be hooked without the possibility of any "come-back" on the sharpers. One sheet lying on the editorial desk makes apparently straightforward report of "market" position and strength of an obscure mining stock; it has terms under which this province joined advanced about 30 per cent in two weeks.

A goodly space in the sheet is given over to historical accounts, apparently accurate, of the rise of well known mining stocks from a lowly state in the market to the position of good investments.

No posible warning wil make him wary to the human thing to give just a few of the ful equipment of the best farm machpoint of resisting a skilfully devised lure.

If people of Prince Rupert had as much faith in town as outsiders have there would be few to complain about the prospects here.

Lost year's time from school with St. Vitus' Dance.—Completely restored by Dr. Chase's Nerve Food.

The anxiety and strain in connection with school life and examinations are too much for many girls who are naturally of a nervous temperament or have become so as a result of anaemia or a run down physical condition.

Nervous conditions are most difficult to overcome and there seems to be no treatment to compare with Dr. Chase's Nerve Food to restore exhausted nerves. Children's health responds quickly to this well known restorative treatment.

Mrs. George A. Moot, St. Anns, Lincoln Co., Ont., writes:-"Our daughter, who was never very strong from birth, at nine years f age became all broken down Walk," which was caused from overtax at school. She seemed to show

symptoms of St. Vitus' Dance and had queer spells, something like fits, at nights. She was out of school for a whole year, as her nerves were so bad. Acting on a friend's advice. we gave her Nerve Food and after a few months' time we began to see a noted change in her, so we kept on with the Nerve Food until she was completely relieved and for the last year she has been absolutely free of the old trouble, sleeps well and is doing fine at school. Now we without Dr. Chase's Nerve Food in our house, as we owe our daughter's health to it."

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

The Toronto sculler, always provided to sport and its supporters. he returns from Europe in time, will ning here last year was 9.14 1-5.

Trophy, for eight-oared crews, won last ar by a crack eight from Wyandotte, Michigan.

CREWS FROM WEST

Vancouver and Winnipeg are sending crews, and Frank Adams, well-known single sculler, is coming from the Pacific Coast. Large representations Toronto, Hamilton, Wyandotte, Detroit, Buffalo and Philadelphia clubs.

The only "fly in the ointment" is that the long and eagerly-awaited new grandstand is not yet an actuality. There has long been a persistent agitation for a modern well-appointed grandstand for the course, which itself is permanent.

United States competitors last year made away with the singles championship and the Hanlan Trophy, but that they did not have things all their own way was demonstrated in the point standing. Toronto Argonauts led with 17 points; West Side, Buffalo, was second with 16; Toronto Dons third with 13, and the others finished in this order: Lachine, Montreal, 12; Niagara Club, St. Catharines, 11; Detroit, R.C. 8; Undines, Philadelphia, 8; Winnipeg R.C. 7; Wyandotte 6; Ottawa R.C. 5; McGill 5; Brockville 3 and Toronto University 2.

OFFICIALS

The first day, Thursday, July 28, is devoted to elimination heats. On the second day the competitors are reduced to finalist dimensions and on Saturday all finals are decided.

The officials will be: referee, P. J. Mulqueen, Toronto; associate referee S. F. M. Smith, Toronto; starter Harvey Pulford, Ottawa; associate starters T. H. C. The first of three shipments of horses to be made on the Russian order is being secured at the present time, and while most of the animals on this initial shipload are being bought in British Columbia, 1,000 from this province will be wanted to fill out the quota.

No difficulty in getting the desired number is anticipated, except that the buying and selling process is being interfered with somewhat, at the moment by the Calgary stampede. There is an abundant supply, however, as there are said to be 50,000 horses in Alberta of the type wanted by the Russians.
