CARLOW OFFERED MONEY BY TWIGG

FEDERAL SHIP IS STILL BEING HELD AT SAN FRANCISCO

Campaign Fund Probe in Victoria Has New and Interesting Turn

CONSERVATIVES' INFORMER ASSERTS THEY OFFERED HIM MONEY TO MAKE DECLARATION AGAINST GOVERNMENT

VICTORIA, April 22.—Admission that he had done wrong in entering into an agreement whereby he acquired an agency for the sale of liquor to the government applying his commissions as agent toward the organization expenses of the Liberal party was made by Frank Carlow, former president of the Victoria Liberal Association and Liberal candidate in Esquimalt in the last provincial election, Thursday's session of the royal commission, consisting of Mr. Justice Aulay Morrison, investigating allegations contained in an affidavit sworn to by Carlow. J. B. Pattullo, K.C., one of the counsel for members of the government, interrogated Carlow concerning the declaration of the affidavit which he had sworn to last February 28 and which is the basis of the present inquiry which opened yesterday.

ARGUES AGAINST LOWERING RATES

COUNSEL IS HEARD BY RAILWAY BOARD DEALING WITH APPLICATION OF B.C.

VICTORIA, April 22.—The demand of British Columbia for the abolition of mountain differential was the first subject argued upon by E. P. Flintoff, counsel for the Canadian Pacific Railway, at the freight rates case before the board of Railway Commissioners.

Flintoff contended conditions in British Columbia with those on the prairie as evidence of the reasonableness of higher rates for carrying traffic over the mountains. He quoted the evidence of George Stephen, assistant freight traffic manager, that there were long stretches of railway in the Pacific Territory on which practically no freight traffic was produced.

TIMBER TAKING PLACE OF ICE

UNION GOVERNMENT ENGINEERS FIND RECESSION ALONG COAST OF ALASKA

VICTORIA, April 22.—Timber is fast taking the place of ice along the coast of Alaska, according to John P. Forde, union government engineer here, who recently conducted an investigation there for the Ottawa authorities. Social ice caps are receding all along the coast of Alaska, says Mr. Forde. They are going back, he contends, at the rate of 100 feet a year, and the striking feature is that within ten years from the uncovering of the territory by the recession of the ice, a crop of Sitka spruce sprang up.

TIMBER ON COAST IS SOLD TO DAVIS PULP & PAPER CO. IN EAST

TORONTO, April 22.—Announcement of the sale of the Port McNeill timber limits on the British Columbia coast to the Davis Pulp & Paper Co. for \$350,000 was made yesterday by the liquidators of the Home Bank which held the property.

NEW RECORD HIGH PRICES

GENERAL MOTORS AND DUPONT SHOW SENSATIONAL GAINS ON STOCK EXCHANGE IN NEW YORK

NEW YORK, April 22.—Common stock of General Motors touched a high record of 195 late yesterday on the stock exchange, several blocks changing hands. Predictions of record breaking first quarter earnings coupled with prospects of an extra cash dividend probably influenced the buying.

Dupont, which has large holdings of General Motors stock, also touched a new peak of 252 while more than a dozen representative rail and industrial shares reached highest prices in over six months, the advances ranging from one to five points.

SIR ARTHUR STEEL-MAITLAND, the minister of Labor, went to Euston Station to bid farewell to a large number of emigrants who were sailing for Canada on the White Star liner Doric. The rush for Canada from England is the greatest for many years, it is said.

Greatest Flood Disaster in One Hundred Years Visiting Lower Mississippi R. Valley

FINE PITCHING WAS DISPLAYED

HURLERS IN NATIONAL LEAGUE YESTERDAY SHOWED MIDSUMMER FORM—ONLY TEN HITS FROM THREE TWIRLERS

NEW YORK, April 22.—National League baseball games on Thursday were featured by pitchers' performances which were up to the mark usually reached about mid-summer. But ten hits were registered from three successful hurlers.

Bob Smith, former infielder, enabled Brooklyn to shut out Boston by holding his opponents to two scratch hits. Ray Kremer, pitching for Pittsburgh, held Cincinnati to four hits and "clouted" out a homer himself with one man on bases.

Alex Fouguson, Yankee cast-off, held the Giants to four scattered blows enabling Philadelphia to win 4 to 2. In the American League, the Yankees dropped on three Philadelphia twirlers for fifteen hits and thirteen runs. The days scores were as follows:

POLICE SHOOT HIGH-JACKER

HARRY THOMAS WALKED INTO POLICE AMBUSH AT LOS ANGELES LAST NIGHT

LOS ANGELES, April 22.—Harry Thomas, notorious hi-jacker, was shot and killed last night when he walked into a police trap. Officers, who had been tipped off to a liquor raid, were hiding in a garage and opened fire when Thomas came upon the scene.

PIONEER RESIDENT OF SOOKE DIES OF BURNS

John Stephen Muir Succumbs in Victoria Hospital Following Burning of His Home on Sunday

VICTORIA, April 22.—John Stephen Muir, aged 66, pioneer resident of the Sooke district, who was brought sixteen miles to hospital here suffering with serious burns after fire had destroyed his home on Sunday, died yesterday.

Almost hourly reports show widespread death, desolation and destruction—twenty-eight dead and property loss into millions

MEMPHIS, April 22.—The greatest disaster to the Lower Mississippi valley in more than one hundred years is growing more serious today with almost hourly reports of further widespread death, desolation and destruction caused by the furious flood waters of the Mississippi River and its tributaries.

The number of known dead is 28 and the belief is that the toll will grow to much greater proportions. The property damage is estimated high into millions of dollars and more than 100,000 are homeless and suffering.

The state of Arkansas is most seriously affected.

Business and Commerce in Japan is Stagnant as 21-Day Moratorium Declared

TOKIO, April 22.—A twenty-one day moratorium was declared today by the privy council of Japan because of the financial crisis. The cabinet has announced a five day session and the Diet will be called together on May 3 to discuss the situation.

Since the beginning of the depression about the middle of March it is estimated that thirty banks have suspended payment, the total deposits affected being approximately \$450,000,000. Business and commercial stagnation is expected during the period of the moratorium and department stores and other places of business are preparing for heavy losses in trade.

All banks in Osaka, Kobe and Kyoto are closed today following persistent runs yesterday. Business is generally paralyzed.

TEACHERS FEDERATION FINISHES CONVENTION

W. H. Morrow Elected President and Choosing of Other Officers Left Till Later Date

VICTORIA, April 22.—The British Columbia Teachers' Federation concluded the business of its convention yesterday. The presidency for the coming year fell to W. H. Morrow of Point Grey. Other officers, who were not named, will be selected at a later date.

MANSLAUGHTER CHARGE AGAINST DRIVER WHO KNOCKED GIRL DOWN

VANCOUVER, April 22.—Solomon Dubeau will be tried on a charge of manslaughter at the spring assizes here as a result of the death of Laura Heires, aged ten, allegedly as a result of injuries sustained when she was struck by a taxi Dubeau was driving on the Powell River wharf. Accused was granted bail at \$4,000 by Mr. Justice Murphy in the Supreme Court yesterday.

Ineffectual Attempt Made by Officers and Attorneys for Possession of Rum Steamer

SAN FRANCISCO, April 22.—Attorneys for the steamer Federal Ship made an ineffectual attempt to take possession of the vessel but were ordered from the deck by the United States coastguards who were in charge of the vessel. Capt. S. S. Stone and his first mate joined the attorney in the attempt but left the ship when Coastguard O'Nicholls announced they would be ejected by force if they resisted. Federal officials explained that the court's decision releasing the crew dealt only with the charges against the captain and crew and refused to release the seized steamer except on orders from Washington. Boarding the steamer by the attorneys and officers was to test the extent to which United States officials would go in backing up the decision.

WASHINGTON, April 22.—Minister Altaro of Panama delivered a note, requesting a report concerning the seizure of the Federal Ship and information regarding its status in view of the decision of San Francisco courts, to the State Department late today. When she was seized, the Federal Ship was under Panama registry.

EDMONTON COMMERCIAL GRADS, RETAIN TITLE	
TORONTO, April 22.—Having just a little the better of their opponents in a hard fought match, the Edmonton Commercial Grads last night retained the "Dominion ladies" basketball championship title when they defeated the Toronto Lakesides by a score of 19 to 14. The western champions won the round of two games from the eastern title holders by a total score of 53 to 38, the first game having been 34-24 in their favor.

BODY OF JIMMY WELLS IS FOUND

MYSTERY OF HIS DISAPPEARANCE FROM USK AT XMAS FINALLY SOLVED

TERRACE, April 22.—The body of J. D. (Jimmy) Wells, late prospector of Usk, was found on Tuesday about four hundred yards west of Usk ferry, being discovered on the river bank after the ice had gone out. He disappeared on Christmas eve while on his way home after making a trip to Terrace, and it was thought at the time that he had been drowned while crossing the Skeena in a rowboat. Constable S. Service of Terrace was communicated with and supervised the burial of the remains at Usk on Wednesday morning.

DIVIDING THE CHURCH SPOILS.

While it may seem, from the figures, that the United Church has been given the lion's share of the property and assets left by the Presbyterian Church when church union became generally effective last year, it should be remembered that the division has been made by a disinterested and impartial commission which has given the matter long and studied consideration. There were many factors in the case but the most important general circumstance was that, throughout the Dominion, the majority of Presbyterian Churches went for Union, leaving a comparatively few non-concurring Presbyterian congregations, one of which was that in Prince Rupert. While there were, undoubtedly, innumerable details to be taken into account, that was the one broad principle upon which the dividing committee had to work. That is why the United Church has been awarded the most of the old Presbyterian holdings. It would be perhaps easier to judge as to the fairness or unfairness of the commission's awards in some other place than Prince Rupert where the issue of Church Union has resulted as it has done here and, to some extent, yet unsettled.

AFTER ALL, IT'S NOT SO BAD.

After all, Prince Rupert cannot even kick at its weather. We may have had a few April snow flurries that somewhat marred the enjoyment of the Governor General on his visit here and otherwise put us out a little but we who live in Prince Rupert, where it is reputed to rain and blow so hard, should be getting used to that.

Then take the case of other places which so many of us are inclined to think may be more abundantly blessed than we are. We had no big windstorm last week-end, like they had in Vancouver, which made the people run for the big timber in the parks and caused the papers to write big headlines about it, even if it was on the back page which nobody ever sees anyway. Nor have we been prostrated with heat like New York and Boston or bound in snow and blizzards like in Alberta, Saskatchewan and Manitoba and, in that connection, we may sympathize with our delegates who went to Edmonton to see the field of flowing grain and herds of lowing cattle but instead, perforce, may have had to hang over the heating registers to remind themselves of their home town's gentle zephyrs and kindly skies as a relief from snowdrifts and overbores.

Jupe Pluviosus may come and sprinkle us once in a while with his watering can and old Neptune may raise the odd white cap on our usually placid waters but they, at least, don't come and scare us out of our beds like they have been doing in other parts of the continent just recently. So far our slickers have held out the rain, our overcoats have been warm enough and few of our houses have blown down.

TOILERS ON WALL STREET.

"Hoarse cries, clutched, gesticulating hands, physical combat, torn clothes and disheveled hair, panting and perspiring men who shriek and scramble—"

What is it? Is it the march of the sansculottes on the Bastille in '89? Not exactly. Perhaps it is a description of some great holocaust like the Chicago fire, or the San Francisco earthquake. No, it isn't that either. Is it the burning of Rome or the fall of Troy—or possibly it is the first battle of Bull Run? Or Cold Harbor, or the bombardment of Antwerp? Is it Verdun? It seems it is none of these. Not Waterloo? Then it is an Oklahoma free land stampede? Or maybe it is a word picture of Chilkoot Pass during the Klondike rush. No? Then what is it?

Well, it is a part of a sentence in a New York newspaper describing a session the other day in the New York stock exchange, the panting and perspiring citizens mentioned being merely dignified and sagacious gentlemen of Wall Street in the act of making a dollar or two to keep a roof over their heads and a crust on the table.

PROTECTION OF FORESTS URGED

E. E. GREGG, ASSISTANT DISTRICT FORESTER, SPEAKER AT ROTARY CLUB YESTERDAY

Urging the necessity of public co-operation in the Dominion wide "Save the Forest" campaign which will be intensively observed between April 24 and 26 as "Canadian Forest Week," E. E. Gregg, assistant forester for this district, was the speaker before the Prince Rupert Rotary Club yesterday afternoon. In opening, Mr. Gregg outlined the passing of the forests of the old countries and then dwelt more particularly with the situation in North America as a whole and, specifically, in British Columbia.

"About the year 1830 the first sawmill was put in operation on this continent," said Mr. Gregg. "It was located in the state of Maine. The New England states and that part of Canada adjoining them were covered with a great forest which was about one-quarter of the whole timber stand on the North American continent. The population being very small in those times the timber, of course, was not depleted very fast in comparison with the present day but considering the small number of people to use them, the forests disappeared very quickly. As a result of use and destruction, principally the latter, the great stand was reduced to a fraction of its former self in a space of time of about 100 years. Forests were looked upon as so much impediments to the onward march of settlement. The farmer burned them off the agricultural lands. The prospector burned them off the rocky hills to expose the precious metals.

"The lumber industry next located itself in the Lake states, which are Wisconsin, Michigan, and the Dakotas. Here was a great forest larger than that which had been in the New England area. In it was represented about one-quarter of the whole wealth of the continent. With the increased population and the new methods of logging, the increased conveniences of transportation, the greater foreign demand, and carelessness running wild, this great forest was reduced to comparative unimportance in the short space of thirty years (1870-1900).

"Up to this time it was the general belief that the forest wealth of this continent was illimitable and any timber which was not necessary for ready consumption was an enemy and should be destroyed by the short route of burning. The railroads were making great strides westward increasing the diffusion of population. The emigratory spirit is essentially a part of the race inhabiting the North American continent. They emigrated to come here and by the same token have spread to the farthest corners of the continent.

CENTRE SHIFTING

"So, after only thirty years in the Lake states, the centre of the lumbering industry was found to be shifting to the south. About 1900 it was centralized in the Southern provinces by which is meant the great coniferous forests which covered Louisiana, Mississippi, Alabama, Arkansas, the Carolinas, and Texas. This region made famous the Long and Short Leaf Yellow Pine, whose superior qualities soon became known in all the markets of the world and served to intensify the rate of depletion. This area originally had a stand about equal to that which stood in the New England region. The rate of consumption had continuously grown and this, the second last great forest of the continent, was able to hold the centre of the industry for only about fifteen years. Then the lumber world was forced once more to migrate and the Pacific Northwest became the centre of attraction.

"About ten years ago the centre of lumbering for this continent shifted to the Pacific Northwestern Region which comprises the Northern part of California, the states of Oregon, Washington, and part of the state of Idaho and Montana. On this area there originally stood about one-third of the whole North America forests. At the present time there is probably three-quarters of this still standing. At the present rate of consumption and destruction one is afraid to estimate the probable date of exhaustion.

POINTS WORTH NOTING

There are, however, a few points worth noting on the credit side of the ledger which would tend to give one a more optimistic view of the situation. These are:

(1) Originally a certain amount of destruction was justified and necessary. Such is not now the case.

(2) Until the comparatively recent past no care or thought was given to the conservation of the forest resources. We hope and believe that the public mind is fast becoming conscious of the situation.

(3) To offset the increasing hazard of forest fires we are perfecting protective organizations, public and private.

(4) B.C. Forest Branch last year extinguished more forest fires without cost than in any year in past."

NEWSPAPER PARTY FROM VANCOUVER WAS INTERESTED IN CITY

The winners of the Vancouver Sun "Canada Bee" arrived in the city on yesterday afternoon's train and after being entertained in the city by a delegation from the Parent-Teachers' Association, the mayor, and friends, left for their homes in the south on the steamer Prince Rupert last evening.

Immediately after the train pulled in the party was taken for a ride about the city and shown the Cold Storage plant and other points of interest. After being entertained at dinner in the Commodore cafe, the party spent the evening at the home of Mr. and Mrs. S. E. Parker, 219 Second Avenue.

This was the first trip to the northern and central part of the province by any of the boys who seemed to be enjoying the outing and were much interested in all that they saw while in the city. Particularly were they interested in the big Cold Storage plant and the fish business in its various branches as it was explained to them.

Assisting in the entertaining of the party while in the city were Mayor Newton, Mrs. J. Boddie, Mr. and Mrs. G. H. Arnold, Miss S. A. Mills, J. E. Wilson, Mr. and Mrs. S. E. Parker, and the boys' band which played several selections during the dinner hour.

SUCCESSFUL TEA AND SALE YESTERDAY IN AID RIDLEY BAZAAR

The tea and sale of home cooking held at the home of Mrs. Sam Hough, 1026 Ninth Avenue East, yesterday afternoon for the benefit of the Ridley Home bazaar was a very enjoyable and successful event and a substantial sum was realized. During the afternoon Mrs. Jarvis McLeod sang, accompanied by Mrs. H. C. Fraser, her solos being much appreciated. Those assisting the hostess were Mrs. A. Hills and Mrs. J. Vierck.

Coughed So Hard Could Not Sleep

Mrs. Daniel Dickey, Lynn, Ont., writes:—"Last January I had a very severe cold and coughed so hard I could not sleep nights. I tried every thing, including doctor's medicine, but nothing gave me relief until I tried Dr. Wood's Norway Pine Syrup which was recommended to me by a neighbor. I will never be without it in the house again."

You don't experiment when you buy "Dr. Wood's" as it has been a household remedy for the past 38 years.

HEN NO. 6 IS GOING STRONG

LITTLE WHITE BIRD AT VANCOUVER EARNING \$2,900 FOR U.B.C.

VANCOUVER, B.C., April 22.—One of the biggest money-makers for her size in the world is none other than a humble little white hen at the University of British Columbia farm, Point Grey. Known only as Hen No. 6, she not only presides over the world's record pen, but with her eggs is bringing into the treasury of the university \$2,900.

"We have actually sold \$1,025 worth of stock from Hen No. 6, and have reservations for \$1,275 worth, which will bring the total up to \$2,900," Prof. E. A. Lloyd, head of the department of field husbandry, says.

"Hen No. 6 is a member of the world's record pen from which we are also selling a considerable number of hatching eggs, particularly from the other four 300-egg members of this pen, at \$5.00 to \$10.00 per egg."

Eggs and progeny from this pen have found a market in all parts of Canada, the United States and as far as Australia.

LORD BARNBY THINKS BUSINESS MEN QUIT AND THUS DIE EARLY

BRADFOED, England, April 22.—Lord Barnby, age 86, who works 12 hours every day in the week, believes that too many business men retire too early, and in consequence die sooner than they should.

The peer controls vast interests in the woolen industry, coming to his office here from Blyth Hall, Blyth, Nottinghamshire, 80 miles. Lord Barnby rises at 6 a.m. the year round and takes a peep at part of his estate before breakfast.

WRITTEN INSTRUCTIONS FOR STENOGRAPHER'S BURIAL CARRIED OUT

VANCOUVER, April 22.—Written instructions of Sydney Boucher Dark, Vancouver police court stenographer, who died here last January, for burial in two coffins, one of lead and the other of hardwood, and in a grave with brick or stone walls and a slate roof, have been carried out by his sister, Rhoda Kate Dark, of Barnstaple, North Devonshire, England, sole beneficiary under the will. No reason for this odd request was given.

C.P.R. steamer Princess Alice, Captain C. C. Saintry, arrived in port from Alaska today at noon and cleared at 1 o'clock for Alert Bay, Vancouver and Victoria.

SPORT CHAT

A good attendance is expected at the meeting of the baseball association tonight when plans for the coming season will be discussed. There is nothing definite yet as to the number of teams which will comprise the city league this year or whether there will be any intermediate or junior baseball in addition to the regular senior series. Plans for the season include a proposed visit from the Ketchikan team for a series of games as part of the sports program for the Jubilee celebration.

Of the sixteen men who are piloting major league baseball clubs this season, only five are player managers. They are Ray Schalk, of the Chicago White Sox, and Stanley Harris, of the Washington Senators, in the American league, and Bob O'Farrell, of the St. Louis Cardinals; Dave Bancroft, of the Boston Braves, and Stuffy McInnis, of the Phillies, in the National League.

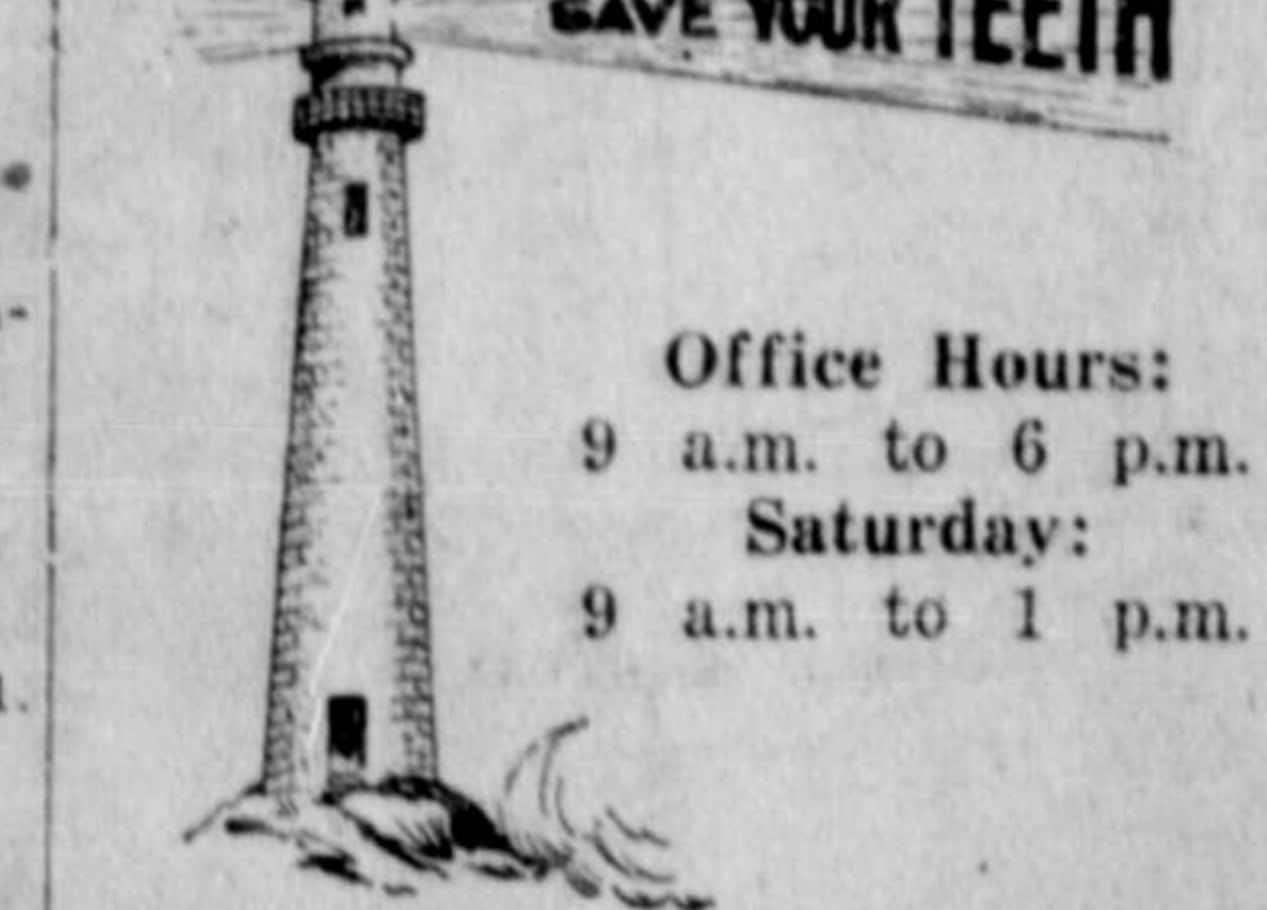

Fifty youngsters from Cranbrook public schools want to play lacrosse during the summer in one of the city's teams.

The World's Favorite Milk

CARNATION Milk could not be the largest selling brand of evaporated milk in the world did it not appeal to more people than any other brand. And it does. It appeals because of its wonderful smoothness and richness, its purity and uniformity. Carnation quality is tested and protected right from the cow to your pantry shelf.

Carnation is the most completely useful milk you can buy. Use it undiluted in place of cream at one-third the cost of cream. Diluted, Carnation adds richness to all cooking and is superior for other milk uses. Carnation is pure, fresh milk—evaporated to double richness and kept safe by sterilization. Order several tins or a case of 48 tins from your grocer.

Send for a free copy of Mary Blake's Cook Book. Address Carnation Milk Products Company, Limited, Aylmer, Ont.

CARNATION COCOA FUDGE—Three cups granulated sugar, 2 tablespoons cocoa, 1 pinch salt, 3/4 cup Carnation Milk, 1 tablespoon butter, 1 teaspoon vanilla, 1 cup nut meats. Mix dry ingredients with Carnation Milk. Boil without stirring until candy makes a soft ball when tested in cold water. Add vanilla and butter. Set aside until cold. Then beat nuts in candy. Knead fudge like bread dough. Press down in buttered tins and mark in squares. The chilling and kneading of the fudge make it deliciously creamy. It never is grainy or too hard.

ENTERTAINMENT AT TERRACE UNIQUE

Oriental Pageant Staged Under Auspices of Rev. and Mrs. Robinson for Church Benefit

TERRACE, April 22.—The Oriental pageant staged in Progress Hall on Wednesday evening under the direction of Rev. and Mrs. A. W. Robinson was a unique and unusual entertainment in which scenes of street and home life as well as mission school and hospital activities were cleverly portrayed. About twenty different national costumes of India, some of them very rich and elaborate, were displayed and much admired. These were all brought from India by Mr. and Mrs. Robinson, who worked for a number of years in the mission fields there. Native music and singing also added to the impressiveness of the scenes.

The entertainment was divided into four parts:

Scene 1.—Inside of Zenana, or woman's house in India.

Scene 2.—Mission house and school in Calcutta.

Scene 3.—A busy day in the mission hospital.

Scene 4.—A noisy street scene.

The cast included:

Tourist (to whom the customs and costumes were explained by Mr. and Mrs. Robinson in their role of doctor and missionaries)—Mrs. Ardagh.

Missionary—Mrs. Robinson.

Doctor and missionary—Rev. A. W. Robinson.

Sadhu or holy man—A. W. Fowler.

Punjabi—R. Cory.

Pathan—Jack Sparkes.

Native Servant—Donald Burnett.

Arab horse dealer—Dudley Little.

Hindu student—Billy Attwood.

Young Rajah—Theodore Robinson.

Burman man—W. T. Attwood.

Bombay lady—Helen Greig.

Woman of Indore—Mrs. Wm. Attwood.

Woman of Central India—Annie Allan.

Toda girl—Jean Dover.

Tamil girl—Marjorie Kenney.

Moslem woman—Dorothy Little.

Arab lady—Eliot Head.

Bengali woman—Irene Clayton.

Child widow—Joyce Cole.

Parsee lady—Doris Robinson.

Burmese lady—Marjorie Attwood.

The funds resulting from the affair are to be used for installing electric light in the church building.

Have You A Skin Trouble?

PAY heed to early symptoms of skin disease! At the first sign of any unpleasant rash, irritation or eruption, anoint it with Zam-Buk. This quickly soothes and heads off disease. Where skin is already aflame with eczema or is poisoned, sore or ulcerated, Zam-Buk is the one gentle healing balm that gets right at the root of the trouble. Zam-Buk expels disease, and grows new clear skin. Zam-Buk's ever-ready character and exceptional healing, soothing and antiseptic value have won for it a permanent place in over a million homes. Get a box of this great herbal balm to-day, and keep it always handy!

Mrs. W. Campbell, of Bonny River Station, N. B., says:—"Watery eruptions on my daughter's face and arms afterwards turned to open sores. We tried almost everything we knew before we came across Zam-Buk. This balm cleared and healed my girl's skin in a surprising way."

Get a box of Zam-Buk from your dealer to-day! One case only, 50c.; 1 for \$1.25. Zam-Buk Medicinal Soap, 25c. each.

having died, Mr. Hicks started out in the world alone to make his way. He worked in Detroit and Saginaw. He also worked in the lumber woods at Maple Valley a short time. He enlisted in the United States standing army from Michigan, serving five years with an honorable discharge. He next wandered to Nome, Alaska, and was among the first prospectors in the Yukon Valley. He came out in 1907 and lived in Seattle, Washington, a few years.

FRANK W. HICKS OF PORT CLEMENTS DIES

Passed Away Recently in Michigan Where he Was Visiting With Relatives

The death occurred recently in Michigan of Frank W. Hicks, a well known business man and resident of long standing of Port Clements, Queen Charlotte Islands. He had been visiting with a niece, Mrs. Ad. Bowerman, at Greenville, when he was stricken with an attack of paralysis to which he succumbed. A Greenville, Michigan, paper reports his demise as follows:

Frank W. Hicks was born in Springfield, New York, January 3, 1861, the son of William and Catherine Hicks. He was the youngest of a family of five boys.

His parents moved to Wayland, Michigan, when he was but a little lad. At the age of twenty-one, his parents

R. E. Brown of Detroit. He was visiting Mrs. Ad. Bowerman when he was stricken with paralysis, March 3. Mr. Hicks passed away Monday, March 7.

He leaves to mourn one sister-in-law, Mrs. Alice Hicks, of Greenville, six nieces and six nephews, several great nieces and nephews and eight great grand nieces and nephews.

His kind and generous nature made him friends where ever he lived and dear memories of him will live in our hearts.

He was laid to rest in Riverside cemetery, Langston.

REV. PEAT LEAVING SKIDEGATE MISSION

Ill-Health is Cause of Popular Minister's Departure for the South Next Week

SKIDEGATE, April 22.—Rev. R. Peat of the United Church at Skidegate Mission is leaving with his family at the first of the week on the Prince Charles for the south. His departure, which is on account of ill health, is generally regretted around Skidegate Inlet as he has been a great friend of both natives and whites during his ministry here.

Mr. Peat requested Rev. J. Gillett, Indian Agent at Massett, to take the pulpit on Sunday evening. It was the first time in the history of Skidegate that Anglican and Methodist clergy held a joint meeting.

Miss Jessie Stock of Victoria, school teacher at Massett, is spending the Easter holidays here with Mrs. E. C. Stevens. She walked from Port Clements to Tiel and from there to Skidegate.

Mr. McGlueky, school teacher at Port Clements, walked down to Skidegate and is visiting here with Frank Waite, teacher of Dufferin Pattullo school.

The United Church mission boat Thomas Crosby came back from the mainland last week with Rev. R. C. Scott and Capt. Oliver on board. They were at Bella Coola and other points across the straits.

Capt. Bob Dunlop, whose trolling boat "Old Nick" was wrecked last summer, has invested in a new launch which will be named "Nil Desperandum."

Spring salmon have started to run in Skidegate Inlet. R. Miller caught eleven huge ones in front of South Bay cannery wharf. The second run of herring has commenced and the fish are abundant.

TERRACE

Mrs. W. W. Noonan and daughters arrived from Tielwa on Tuesday to spend the Easter vacation week with Mrs. Noonan's mother, Mrs. F. W. Bohler.

Don McLeod left on Tuesday for Sand Point, Idaho, where he will join Mrs. McLeod and children who left here some months ago.

An attractive baptismal font has been presented to St. Matthew's Anglican church by Mr. and Mrs. Wm. Parr. The gift was designed and made by Mr.

FORMER LOCAL MAN WEDS IN SMITHERS

John Howard Birnie United in Marriage Recently to Miss Lillian Neta Brown

Many local friends will be interested to learn of a marriage which took place last Saturday night in Smithers at the home of Mr. and Mrs. E. Marshall Sales when Miss Lillian Neta Brown and John Howard Birnie were united in marriage by Rev. George Turpin, pastor of Smithers United Church, the ceremony being witnessed by a number of friends of the contracting couple.

The bride was given in marriage by Mr. Sales. Miss May Pike was maid of honor, while Vic Williams supported the groom. Following the ceremony a reception was held at the future home of the newly married couple on Fifth Avenue, Smithers, where a large number of people from town gathered to shower congratulations and good wishes for success and happiness.

Mr. and Mrs. Birnie are on a short honeymoon trip to the coast.

Among the appropriate gifts for young men graduates are overalls.

AMERICANS ARE COMING CANADA

CONTINUING TO MOVE UP WITH FAMILIES TO SETTLE ON LAND

WINNIPEG, April 22. — American farmers, who came to Canada last summer under the auspices of the land department of the Canadian National Railways to look over the opportunities of the land to the north of them, found what suited them and are now continuing to move up with their families and equipment to settle in many districts in western Canada.

Striking examples of the fine type of settlers from across the line arrived in Winnipeg yesterday on their way through to their new homes in Saskatchewan. The group included three families comprising six adults and 28 children. The largest family was that of Carl B. Kortgard of Minnesota who, with his wife and ten children, will go to Lintlaw, Saskatchewan, where Mr. Kortgard has purchased a section of land. He brings with him his two neighbors from the south—Wm. Olson, who is also accompanied by his wife and five children, this family also going to Lintlaw and Oscar Overland, with his wife and seven children, who will settle at Margo, Saskatchewan.

These new settlers have plenty of capital and have all purchased land through the Canadian National Land Settlement Association. Each farmer has already shipped through to his new home in Saskatchewan a carload of equipment which includes tractors, binders, and household goods.

CHIROPRACTIC REMOVES CAUSE OF RHEUMATISM

WHEN FULL FLOW OF NERVE FLOW IS RESTORED, CHIROPRACTOR CLAIMS ILLNESS VANISHES WHEN CAUSE ELIMINATED

Of all the chronic disorders to which man is subject, there is perhaps none more common than that of rheumatism in its various forms, and none which so handicaps the activities of man and limits his possibilities.

POPULAR BELIEF

Because of the great number of patients suffering with this condition, many so-called cures have been placed upon the market, including the long series of liniments and the many compounds which are taken internally with a hope of effecting a relief. A very careful study has been made of rheumatism and investigators have spent much time and effort in trying to determine the actual cause of the disease. The sum total of all this investigation has led to the popular belief, expressed through written articles and by the medical fraternity, that rheumatism is caused by the excessive retention of uric acid in the body.

All efforts toward treatment have led to the general premise of administering some combination of chemicals which would neutralize the uric acid and thus restore health.

Those who have studied the subject find that investigators do not agree as to uric acid always being the cause of rheumatism. Their contention is that very often it is produced by the accumulation of lactic acid, or by the presence of micro-organisms.

THE QUESTION

We will concede for the sake of argument, that the contention which holds that uric acid, lactic acid or micro-organisms are responsible for rheumatism is true. Even though we make this contention we must follow it by asking the question, "Why is there an excess of uric acid and lactic acid, or why are micro-organisms present?" Has it ever occurred to the scientific investigator to look for the cause of these unusual conditions and if possible to eliminate those causes? In brief, is it logical to inject something into the body for the purpose of neutralizing an abnormal substance, or is it logical to eliminate the cause which has led to the production of that abnormal substance?

Normally there is a certain amount of uric acid in the blood. Normally there is a certain amount of lactic acid in the system. Harmful micro-organisms can only exist in the body when a diseased tissue offers them a place of residence.

THE ANSWER

The liver is principally concerned in the formation of uric acid, although it is produced in small quantities by all the active organs in the body. An excessive amount of lactic acid is the result of improper oxidation in the tissue cell. Normally the liver functions properly, and it is only when it is functioning abnormally that uric acid can be formed in excessive quantities. Normally, oxidation takes place, to a sufficient extent to eliminate any excessive lactic acid. If the liver does not function properly and oxidation does not take place normally, then let us look over these causes instead of leaving them in their abnormal state and trying to neutralize the effect of that abnormality.

All function in the body is dependent upon the quantity and quality of nervous energy which is supplied through the nervous system. If the function of the organ is abnormal, it is because the nerve supply from the brain is abnormal. The reason why the liver does not function normally and the reason for the lack of oxidation in the tissue cells is because the nerve fibres which transmit this vital energy are pinched and thus rendered incapable of carrying their proper supply. In other words, if we grant that uric acid and lactic acid are productive of rheumatism, we must trace the cause back still further and find the reason why these substances are manufactured in excessive amounts.

As it is true that uric acid and lactic acid are normally manufactured in the body, so it is true that they must be eliminated from the body. If the elimination does not keep pace with their production, they will also manifest

A Bad Case of Eczema

Are you reading the weekly Canadian letters, telling stories of suffering from skin disease and how relief was effected?

Here is part of a letter from Mrs. E. Gibson, Box 1136, Midland, Ont. Write her if you desire, "I had a very bad case of eczema on my face and neck, also scalp. Could not find anything to give me relief. One small bottle of D. D. D. gave me great relief, so then I secured a large bottle, and I am now without a blemish."

The proof of the pudding is in the eating. When a prescription for skin disease has letters of endorsement from every city and town in the Dominion, surely it is enough to convince the most skeptical.

Relief from itching torment is immediate. Try one \$1.00 bottle of D. D. D. today on the positive guarantee. And D. D. D. Soap, too.

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable. DON'T lose health and efficiency through neglect. Come and see!

Ten Years Ago in Prince Rupert

APRIL 22, 1917

The Alaska Steamship Co., and the Pacific Steamship Co., have issued an order prohibiting any one on board any of their steamers except with a ticket. All aliens in the employ of the companies have been discharged.

Charles G. Case, et al. have begun action against the city of Prince Rupert to recover \$10,000 as damages sustained by Mrs. Case in the late blasting accident at the City Hall.

Constable Searlett of the Provincial police is expected in the city this week from Atlin with a prisoner who will stand trial here for attempted murder.

Prince Rupert basketball players who will meet Anxox players this week are: H. Smart, W. Blythe, J. Currie, E. Murphy, Harry Mobley, E. Craggs and Alex Cobb.

H. S. Irwin, formerly district forester here, left for Victoria last night, to which city he has been transferred.

Two Nova Scotia schooners, the "Albert J. Lutz" and the "Dorothy G. Snow," are to come to Northern British Columbia to engage in either the halibut or cod fishing industry.

A. I. Carruthers has been appointed provincial public works engineer for district No. 7, which includes the provincial electoral district of Omineca, Prince Rupert and Atlin.

ST. GEORGE'S DAY DULY CELEBRATED

Card Party Given Last Night by Local Society Was Largely Attended

St. George's Day was fittingly celebrated last night by members of the local society and their friends at a very successful card party and dance in the Moose Hall.

There were thirty-five tables of whist and fifteen tables of bridge, followed by an enjoyable dance to music discoursed by Mrs. R. P. Ponder's orchestra. At bridge, Mrs. G. E. Gulick and Mrs. F. Dibb were winners of the ladies' prizes, while G. P. Tinker and Frank Dibb were awarded the gentlemen's. Ladies' first prize at whist was won by Mrs. C. Whatman with Mrs. J. G. Viereck, second. Gentlemen's prizes were won by Duncan Munro and A. Murray.

Fred Wernig was in charge of the card tables and J. Howe was responsible for the hall decorations while the

SMITHERS

Charles Barrett, who pioneered in the growing of timothy in this district at his Diamond-D ranch at Barrett Lake and met with unqualified success, is now experimenting with Duth and Aik-sike clovers of which he will have considerable acreage this year.

Winter ruled the roost here for the Easter Season and the annual Sunday parade of finery was a complete failure. Since the first of the week the temperature fell below freezing point at night and auto radiators were frozen generally. Weather conditions are most unusual here this spring.

There has been a rush for shares in the Topley Consolidated Mining and Development Co. which has been formed by Frank Taylor, the original Topley discoverer. The concern is acquiring much ground in the Topley region where a spring rush of prospectors from all over the province has already commenced.

The United Church here had a very successful year financially. At the annual congregational meeting, the treasurer, Hugh Boswell, reported that all outstanding liabilities had been met, three years insurance and interest had been paid, the mortgage had been reduced considerably and there was a cash balance on hand.

Two new trucks have been brought in by the provincial department of public works to be used in graveling district roads. Work has been confined so far to opening the road between Smithers and Telkwa.

The fire permit system will be invoked this summer on hunters, campers, etc., according to word received from Victoria. Before any fire is lit
