## CANADA'S PROBLEMS TO BE STUDIED OLD AGE PENSIONS TO BE IN FORCE IN B.C. VERY SHORTLY

### Dominion Problems for Business Men Meeting on Coast

**CANADA'S TRADE, RESOURCES AND IMMIGRATION CHIEF  
ITEMS ON PROGRAM FOR CANADIAN CHAMBER  
OF COMMERCE**

VANCOUVER, August 17. — (Canadian Press).—One of the most important gatherings of business men ever held in Canada will be the second annual convention of the Canadian Chamber of Commerce in Vancouver from September 12 to 14. From all over Canada business men will come to discuss the fundamental problems of Canada's development, and the work of the newly-formed Canadian Chamber of Commerce.

### HALT TAKEN IN VICTORIA CASE

**Girl in Tolmie Death Car Contra-  
dicts Herself as to Supplying  
of Liquor**

VICTORIA, Aug. 17. — The proceedings against Archibald Lang, charged with supplying liquor to a motor in the person of Miss Dorothy Tolmie last month when Miss Tolmie was killed, were halted temporarily yesterday when City Prosecutor Harrison asked for an adjournment on the ground that the evidence of Miss Tolmie at this time differed materially from that she gave in the Tolmie manslaughter hearing. Miss Tolmie yesterday swore that she and Miss Coddington drank alone in Lang's room in a local hotel, Lang not being present. This statement was in contradiction of her former evidence.

### SECOND ENGINEER OF STEAMER IS DROWNED

**Charles Widen of Freighter Famous  
Loses His Life on Falling Into  
Burrard Inlet**

VANCOUVER, Aug. 17.—Charles Widen, aged 40, of Vancouver, second engineer of the steamer Famous, formerly the Amur, was drowned when he fell from the ship into Burrard Inlet yesterday.

### MANY HARVESTERS LEAVE INTERIOR

**Nearly One Hundred Farm Laborers  
Leave Prince George in Two Days  
and More are Waiting**

PRINCE GEORGE, Aug. 17.—Nearly one hundred farm laborers have left Prince George and vicinity during the last two days and a number of men are still waiting for orders so they can depart to assist with the harvest on the prairies.

### FAILURES IN CANADA ARE LOWER IN 1927

**During June 138 Concerns Went Down  
as Compared with 142 Last Year  
Liabilities Greater**

OTTAWA, Aug. 17. — Commercial failures in Canada during the month of June numbered 138, as compared with 142 a year ago. Liabilities, however, were somewhat greater.

### HAMILTON CAPTURES SHOOTING AWARDS

**Cadet Corps from Ontario Collegiate  
Had Signal Success at D.R.A.  
Meet**

OTTAWA, Aug. 17.—Hamilton Collegiate Institute Cadet Corps captured three of the highest prizes in the cadet match at the Dominion Rifle Association meet.

### MAJORITY TO NAME LEADER

**Name of Hon. R. B. Bennett Looms  
Large as Possible Tory  
Chief**

WINNIPEG, Aug. 17.—Just 51 per cent of the delegates at the Conservative national convention will be sufficient to name the leader. This is the rule laid down by the managing committee. There is, of course, nothing to prevent the convention when organized changing it. The idea of the man chosen as leader having to have two-thirds of all ballots cast is gaining some considerable approval if gossip in western Conservative circles can be accepted as a guide as to what the delegates may prefer. This is the rule of most great political gatherings, and the one the Liberals adopted in 1919 at Ottawa.

From information received by the officials now completing arrangements in Winnipeg, a very complete representation is assured. Certainly the prairie provinces will have every delegate seated that is entitled to vote. There is some animated gossip over the west just now as to combinations for certain candidates, but everything of this nature is based upon the theory that Ferguson of Ontario will not permit his name to go before the convention. The opinion seems to be pretty general that he can get the support of the prairie delegates if he will speak in time. There is some restlessness as to his failure to announce his intentions.

Hon. R. B. Bennett unquestionably is looming large in the offing. It is gossip that he claims are being pushed by a powerful combination from Montreal. It seems to be taken for granted that he is a candidate and will get a strong following from the west as well as Quebec and the maritimes if he remains in the field. He is not on record as having projected his candidature, but his friends seem to take it for granted that he will be willing to accept the job.

### WE MIGHT ALSO ASK WHAT'S THE MATTER WITH RUPERT, TOO

HAMILTON, Ont., Aug. 17. (C.P.)—"What is wrong," asks the Spectator, apropos of what seems to be either remarkable modesty on the part of Hamilton or neglect on the part of Canadian officials. The newspaper points out that the Princes and Premier Baldwin stopped over only five minutes in Hamilton; that not the slightest reference was made to Hamilton in the official programme issued at Ottawa; that Hamilton was not included with other cities in the films of Confederation jubilee celebrations; and that a handsome booklet on Canada issued by one of the railways, ignores the city.

### GILLIS IS NAMED AS DELEGATE TO EDMONTON MEET

A special meeting of the Prince Rupert Trades and Labor Council was held last evening at which J. J. Gillis was appointed delegate in the place of S. D. Macdonald who had been originally nominated to accompany Frank Derry. The delegates will leave on Friday to be on hand at the opening session of the annual Dominion Congress of Trades and Labor organizations at Edmonton on Monday, August 22. The gathering will continue for one week and many important resolutions will come up for discussion. Already delegations have been formulated to represent the West. Once every ten years the Dominion session is held west of Winnipeg. Great preparations have already been made at Edmonton for the success of the Congress.

### WHEAT MARKET

WINNIPEG, Aug. 17.—Wheat closed on the Winnipeg stock exchange as follows: October, 1.51½; December, 1.43½; May, 1.52½.  
CHICAGO, Aug. 17.—Chicago wheat quotations were: September, 1.41½; December, 1.46½; March, 1.49½.

### TWO LEADERS

The Right Hon. Stanley Baldwin, the British Premier, is seen in the cab of the new Canadian National Locomotive, number 6120, the largest and most powerful railway engine in the British Empire. This was the first locomotive to haul a train into the new Union Station at Toronto, and the train was that which carried the Prime of Wales, Prince George and Premier and Mrs. Baldwin. When he was visiting Kingston, Ontario, Mr. Baldwin heard that this titan of the steel rails was an all-Canadian product, designed by Canadian National Railway's engineers and built at the Kingston shops. Although busily engaged in preparing his speeches, the Premier halted his work to inspect the great engine, eventually climbing into the cab with the engineer. He showed the keenest interest in the manner in which the locomotive was handled when travelling at high speed and worked the various levers controlling the engine. "It is a wonderful piece of machinery and should be a source of pride to the Canadian designers and builders," said he, on leaving. No. 6120 is one of the forty locomotives of similar type that are being turned out this season for the fast passenger and freight services of the National system. When in regular service they will run 510 miles, without change—the longest locomotive runs in the Dominion.

### OLD AGE PENSIONS

**Will be Effective in B.C. as  
Soon as Orders-in-Council  
Can be Made**

VANCOUVER, Aug. 17.—Old-age pensions will come into effect in British Columbia as soon as the necessary ratifying orders-in-council can be passed at Ottawa and Victoria. Hon. Peter Heenan, federal minister of labor, told the Laurier Club here yesterday. He stated that, in a conference with Hon. A. M. Manson, K.C., attorney general of British Columbia, in the morning, an agreement had been reached on all the essentials.

### LOCAL HOSPITAL HAD LOW DAILY COST IN MONTH OF JULY LAST

The report of the finance committee as read at the board meeting of the Prince Rupert General Hospital last evening showed the lowest cost per day that has been reached for some time. There were 1767 hospital days at a cost of \$252 per day. Receipts during the period amounted to \$5,141.15 with expenditures amounting to \$4,575.76 showing a favorable balance of \$565.39. Elevator insurance had been taken out to agree with the required regulations.

### POPULATION OF CANADA 9,378,000 ESTIMATED

Preliminary Report is Made on Dominion's Vital Statistics for 1926  
OTTAWA, Aug. 17.—Canada's estimated population in 1926 was 9,378,000 according to a preliminary report on vital statistics for that year.  
WIRE TROUBLE TODAY  
Wire trouble between Kwinitsa and Shames caused both telegraph lines to be out of commission this morning. It was expected that repairs would have been made this afternoon. Meantime, telegraph news service was curtailed.

### PARLIAMENTARIANS OF EMPIRE WILL VISIT CANADA DURING 1928

LONDON, Aug. 17. (C.P.)—Members of the Empire Parliamentary Association next year will make their first official visit to Canada. All the nine provinces will be visited during the five or six weeks of their stay in the Dominion in September and October, 1928. The Canadian branch in extending the invitation expressed a desire to afford an opportunity for the delegates to investigate the resources and institutions of the Dominion; to promote mutual personal acquaintance and friendship among the members of the various parliaments, and to interchange views at informal conferences.

### SAFEST SAFE IN LONDON PROVED UNSAFE RECENTLY

LONDON, Aug. 17.—(C.P.)—Approximately \$1,500 in cheques and banknotes was found missing from the "safest safe in London" recently. The safe is the property of the Golders Green Hippodrome and is placed in the outside of the wall in North End Road, facing the pavement. The road is a busy thoroughfare and the safe is in plain view of every passer-by. There is little doubt that the safe was opened with a duplicate key. Apparently a duplicate of the official key had been made, and the safe was opened during the early hours of a Sunday morning.

### COUNSELLOR TO U.S. LEGATION IS NAMED

OTTAWA, Aug. 17.—Frederick R. Dolbear has been appointed counsellor of the United States legation to Canada, ranking next to Mr. Phillips.  
BIG LEAGUE BASEBALL  
AMERICAN LEAGUE  
Philadelphia 6-8, Cleveland 3-0, St. Louis-Washington rain, New York 8, Chicago 1, Boston 7, Detroit 10.  
NATIONAL LEAGUE  
Chicago 3, Brooklyn 0, Cincinnati 3, Philadelphia 5, St. Louis 5, Boston 3, Pittsburgh 3, New York 8.

### HOSPITAL TALKS OF DISPENSARY

**Methods of Supplying Drugs Aired  
at Meeting Last Night**

A letter was read at the hospital board meeting last evening from C. H. Orme setting forth the position of his firm in regard to the supplying of drug supplies to patients in the hospital. The communication was in reply to certain criticism that has been made. Mr. Orme felt that it would be rather difficult to change the method of doing business and that the present system had been very satisfactory. He carried a large stock, handling drugs and supplies which were only required from time to time. In reply to an inquiry from Mr. Rochester regarding Mr. Orme at ending the meeting the secretary advised that Mr. Orme was out of the city but that he had stated his case fully in the letter.

It became apparent to the members from the discussion which followed that the hospital paid all drug bills presented to patients less the charge for collection. The institution had, therefore, to shoulder the burden of bills which were not paid by indigents. In the case of patients coming under the Workmen's Compensation Board drugs and medicine could not be charged to the Workmen's Compensation Board and here again the hospital had to carry the charge.

The possibility of installing a dispensary at the hospital was then discussed. Dr. Cade said that there was no reason to believe that the doctors would take their drugs from any other place than that from which they could get the service and quality. The feasibility of having a nurse do the duties of chemist was considered and relative costs of installing such equipment as would be essential, were roughly estimated. Finally it was agreed that the chairman, Jas. H. Thompson, should appoint a committee of three who will go into the whole matter thoroughly and report at a later date. Mr. Orme's letter will be dealt with subsequent to the report of such committee.

### CONSUL WAKEFIELD TO LEAVE HERE IN SIX WEEKS' TIME

E. A. Wakefield, United States consul here for several years, will be leaving the city about October 1 to take up his new duties as consul at Ensenada, Mexico, whence he is being moved. He will spend a vacation of six weeks enroute to the new port. On September 20 or soon thereafter Mr. Wakefield's successor as consul here, G. Carlton Woodward, will arrive from Campbelltown, New Brunswick. Prof. Allman from Sarnia, Ontario, had been named new vice-consul here but word has been received that he has resigned from the service. He will, therefore not be coming here and another vice-consul will be named at a later date.

### WIRELESS REPORT

8 a.m.  
DIGBY ISLAND—Foggy, calm; barometer, 30.69; temperature, 56; sea smooth; 6.35 p.m. out steamer Catala southbound.  
DEAD TREE POINT—Clear, light southeast wind; barometer, 30.16; temperature, 61; sea smooth.  
BULL HARBOR—Foggy, light west wind; barometer, 29.84; temperature, 55; light swell; 8 p.m. spoke steamer Culbulla, Seattle for Ketchikan, 330 miles from Ketchikan; 9.20 p.m. spoke steamer Catala, abeam Kew Nugget, southbound; 8 a.m. spoke tanker Olinda, Vancouver for Butedale, in Queen Charlotte Sound.  
Noon  
DIGBY ISLAND—Clear, calm; barometer, 30.12; temperature, 64; sea smooth.  
DEAD TREE POINT—Clear, light west wind; barometer, 30.16; temperature, 71; sea smooth.  
BULL HARBOR—Foggy, fresh west wind; barometer, 29.82; temperature, 57; light swell.  
There are 27,650,257 autos in use in the world and a large number of them in misuse.—Branford Expositor.

### FAIR BOARD TO PAY MORE BILLS

**Liquidation of Further Accounts  
Ordered—Getting Ready for  
Exhibition**

At a meeting of the finance committee of the Fair Board last evening it was decided to present a further liquidation of a percentage of last year's debts. A number of the outstanding bills will therefore be paid in the near future. Today the sports committee will assemble at the Acropolis Hill grounds to consider further improvements. With the arrival of the special wire today construction of the corral, enclosure and fencing should start almost immediately. Great interest is being taken in the Indian soccer team entries. There will be seven contending aggregations and all are making a strong bid to capture the cup which is at present in the hands of the Port Simpson team. The series with Stewart will be the big drawing card for the baseball enthusiasts.

The Exhibition hall the fire escape has been completed and is now ready for inspection. This precaution for the safety of the patrons of the indoor attractions will remove former restrictions. At the carnival grounds area further improvements are being carried on in the nature of plank repairs and appurtenances.

### LOOK FORWARD TO STAMPEDE

**Williams Lake Contestants are  
Keenly Anticipating Visit to  
Rupert With Wild Stock**

WILLIAMS LAKE, Aug. 17.—All contestants at the Prince Rupert rodeo from the Chilcotin country are looking forward with great expectation to their visit to the northern terminal port. Some of the wildest cayuses the Cariboo has ever produced will be taken along and the citizens of Prince Rupert are in for a period of much fun and excitement.

### BIG GAME HUNTERS DEPART FOR NORTH

**Party Headed by Harry Snyder of New  
York Left Prince George Today  
for Peace River**

PRINCE GEORGE, Aug. 17.—A party of big game hunters, headed by Harry Snyder of New York, left this morning for the north via Summit Lake on an extended trip into the Peace River district.

### LARGE FOREST FIRES NEAR PRINCE GEORGE

**Serious Conflagrations Raging on Line  
of C.N.R. Between Longworth  
and Penney**

PRINCE GEORGE, Aug. 17.—Large forest fires are raging along the right-of-way of the Canadian National Railway between Longworth and Penney in this district.

### CLASHES REPORTED AT SCUTARI PORT

**Number of Dead and Wounded When  
Albanians and Italians Clash says  
Belgrade Report**

VIENNA, Aug. 17.—Despatches from Belgrade, the Jugo-Slavian capital, report clashes between Albanian and Italian soldiers at Scutari with dead and wounded on both sides.

### FISH ARRIVALS

A total of 45,000 pounds of halibut was sold at the Fish Exchange this morning. One American boat, the Columbia, sold 40,000 pounds to the Canadian Fish & Cold Storage Co. for 11.10 and 5c. while one Canadian, the Dundas, sold 5,000 pounds to the Atlin Fisheries for 11c and 6c.

# It Rid the System of Rheumatism

Lasting relief was obtained when the uric acid poisons were cleansed from the system by Dr. Chase's Kidney-Liver Pills.

After all there is nothing like Dr. Chase's Kidney-Liver Pills to get rid of the poisons in the system which cause pains, aches, lumbago and rheumatism. Dr. Chase's Linctament affords relief from the pain but to get rid of the cause it is necessary to go deeper and regulate the action of kidneys, liver and bowels.

remedies recommended, without avail. Two years ago after he had been unable to move or turn in bed for several weeks, a neighbor came in and recommended Dr. Chase's Kidney-Liver Pills. I went down and purchased a box of these, which seem to have entirely relieved him, for he has never had an attack since. I take great pleasure in recommending these pills to anyone suffering from rheumatism.

Mrs. Ada Kincade, Drayton, Ont., writes: "For years my husband suffered from rheumatism. He tried treatment from many doctors, but received little relief. He also tried several

Dr. Chase's Kidney-Liver Pills—35 cts. per box, all dealers, or The Dr. A. W. Chase Medicine Company, Limited, Toronto, Canada.

### KEEP UP ROAD FIGHT

The building of the six miles of the Kaien Island highway to Galloway Rapids, which is now in progress, is something but it is a long way to Terrace still and Prince Rupert people must not rest in the fight toward having road connection with the rest of the province. It is gratifying to observe that the joint civic road committee is camping right on the trail of the powers that be in the matter.

The suggestion that a ferry be put in for a span between Galloway Rapids and some point toward Terrace will not meet with favor among any of those who are working for the construction of the road. At best, such a ferry service would be a very awkward thing and traffic by means of it would be very seriously limited. It would be very little improvement on the present situation of no road at all.

The thing that must be immediately fought for is a bridge across Galloway Rapids and the continuation of the road on the mainland. The bridge should present no very serious problem for the crossing is narrow and is said to be eminently suited for the putting in of foundation piers. Even if it is only a timber bridge at the present time, it is something upon which pressure should be brought to bear. Once the bridge is across, the continuation of the road will have to follow.

### ATTITUDE IN SOUTH

The Prince Rupert highway development is being watched with interest in the south. Many regard it as the next big road project in the province that must be given attention and there is, indeed, a feeling that it may be completed a good deal sooner than even Prince Rupert people may anticipate.

In fact, there are not a few people in southern centres who are favorably disposed to the project of opening up this second highway in British Columbia to the coast. With the situation as it is, Prince Rupert and central interior people may take heart. Perhaps it may not take as much pressure as may be thought to make the thing an actuality.

### MAKING THE MOST OF IT

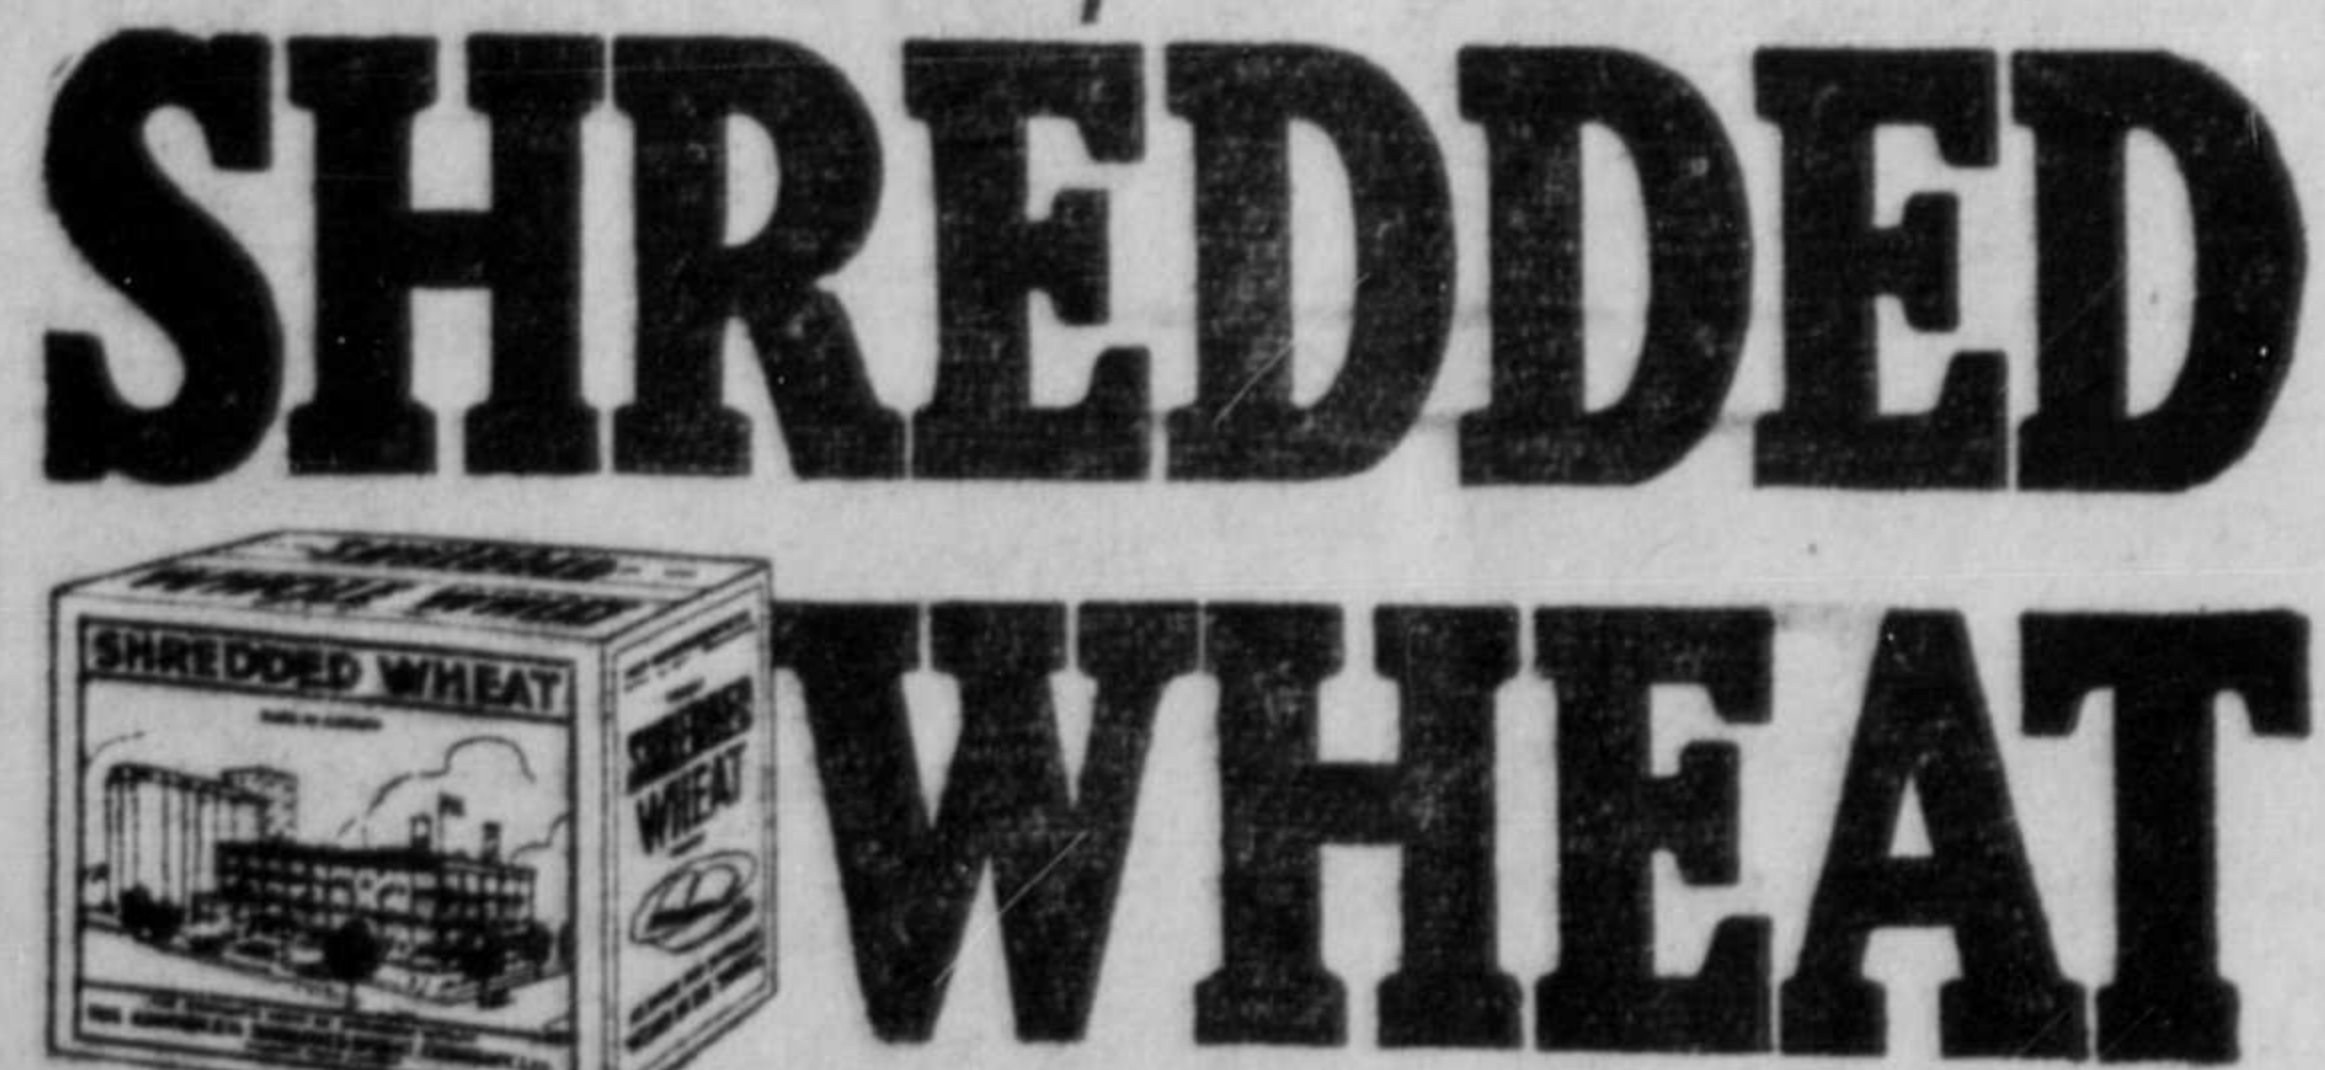

It is not our desire to be charged with any feelings of inferiority complex but one cannot help but observe that, if such towns on the Alaska coast as Ketchikan, Juneau, etc., had the opportunities that Prince Rupert possesses, they might be a good deal bigger places than they or Prince Rupert are today. It is a revelation to note how such towns are prospering under the circumstances that are theirs. They seem to possess a community spirit that is lacking here. With very little industrial activity, comparatively speaking, they are making the best of things and their appearance is one of hustle and bustle. They are enjoying a measure of prosperity, too, for they keep their business at home and also take and keep anything that offers in the surroundings. The residents work for their towns and the towns work for the residents. Prince Rupert is the best bet on the coast north of Vancouver. If the people of Prince Rupert were working and boosting for their city as the Alaskans do it would be a much larger and much more prosperous community than it is today.

### SKAGWAY—A CANADIAN TOWN

There is at least one Alaskan town that would probably be prospering a good deal more under the Canadian rather than the American flag. That is the town of Skagway, the entry port to the Atlin and Klondyke mining districts of Canada. Skagway, as a matter of fact, is today a Canadian town under the American flag. Such as it is, it lives on Canadian business except for the few American tourists and curio hunters who visit it and who, at that, are mostly brought in by Canadian boats. If international restrictions were lifted by becoming a Canadian town, Skagway would probably be a prosperous centre which is far from the case today.

In somewhat the same situation as Skagway is the town of Wrangall, the entry port to the Stikine and Cassiar mining regions.

Ready food for loafing days

Crisp-delicious-healthful shreds For any summer meal with milk. Complete nourishment without cooking

## REPORTS UPON SIMPSON CAMP

Scoutmaster Miller Tells of Boy Scouts' Visit to Neighboring Village

At an executive meeting of the Third Prince Rupert Troop of Boy Scouts the following report was made by Scoutmaster P. C. Miller on the recent summer camp:

On July 22 we left Prince Rupert with 12 scouts for Port Simpson on the "Wawanesa" kindly arranged for by C. B. Flewin. Arriving about 8 p.m. our first task was to pack our kit and groceries to our living quarters which was an old house without windows or doors kindly lent by R. Boyd Young. After making this habitable and making our beds, about ten o'clock we retired, but for some not to sleep. Some boys were up at 4 a.m. next morning seeing what they could see in the fog. Breakfast about 8 o'clock—cooking our mush and boiling the kettle over a fire made on the beach.

The second night turning in about 9 o'clock all boys slept well, tired out. It was foggy but turned out quite hot next morning. Swimming and fun on the beach were indulged in every day. Tuesday two more boys arrived.

One morning we took our lunches and hiked to Big Beach about two up miles up Salmon Creek where we found a fine place for swimming and sun bath, etc. We were home for supper. Swimming, sports, fishing and rowing were indulged in, the boys taking turns in cooking, fire lighting and packing water, etc. Other visits were made to Big Beach, the Indian Village and the Hospital Dam. On Sunday we attended the United Church. Rev. M. F. Eby gave us a very interesting talk on the totem poles of the neighborhood and the history of some of the tribes of the Indians.

Several scouts learned to swim, also several passed the second class badge, first-aid work and signalling. Cooking was also taken up where good progress was made toward acquiring the different badges.

Elmer Stevens was our bugler, calling us up in the morning and to our meals and playing "Lights Out." We gathered around the camp fire made up on the beach every evening where interesting stories were read and evening prayers offered before retiring.

Thanks are due to Mrs. Eby, Mr. Christison, Mrs. P. C. Miller for cakes sent, Mr. Moody, Port Simpson, tin of jam, and Rev. Mrs. Eby, Port Simpson, cakes. Capt. Reg. Green kindly offered to bring us home on the M.T. 3. Calling in at Georgetown on our way we were able to see a little of the mill there. We arrived home at 10 o'clock Friday having spent a very enjoyable and profitable two weeks free from serious mishaps, and enjoying perfect weather.

## CHAIRMAN OF HOUSE COMMITTEE REPORTS

Tender of Philpott & Eviit Accepted for Hospital Coal

Reporting for the house committee last evening at the meeting of the hospital board, C. H. Elkins announced that it had been decided to accept the tender of Philpott Eviit & Co. for the supplying of coal. Tenders had been sent out but replies were received from only three concerns Philpott Eviit & Co. \$8.50 per ton for washed pea; \$11.00 per ton for mine lump and \$12.50 for lump, while Albert & McCaffery tendered respectively \$8.60, \$11.20 and \$12.60. Prince Rupert Feed Co. submitted the third tender.

The doors at the front had to have a few adjustments made before the account should be paid to T. Ross McKay. Elevator cable 5-8 in. in diameter had been purchased from Philpott Eviit & Co. at a cost of 15-1-2 cents per foot. This was the lowest tender submitted. The approach to the hospital would have to be repaired at once and the props will be renewed as soon as convenient. The hot water return main would have to be repaired in the very near future and the chairman ruled that this should be done while the warm weather continues.

## Ten Years Ago in Prince Rupert

AUGUST 17, 1917.

Among arrivals by this morning's boat from Vancouver were Mr. and Mrs. Harrison Rogers, who are returning to Granby Bay after a honeymoon trip.

Sir Wilfrid Laurier is confined to his home in Ottawa by illness.

Jerry Bonneau, an old-timer in town, arrived today from California.

Pte. W. G. Dennis has sent a very interesting relic from the front in the form of a piece of sacking used by the Germans in making earthwork.

Lady McBride and family have sailed from England for Canada and are bringing the ashes of the late Sir Richard McBride.

A murderer walked out of the Toronto police cells, and all they have discovered to date, is that his first hundred yards was the fastest.—St. Catharines Standard.

## PRESENTATION MADE TO MISS MACDONALD

Hill 60 Chapter, I.O.D.E., Honors Departing Past Regent at Afternoon Tea

At the home of Mrs. H. B. Rochester, Eleventh Street, a tea was given yesterday afternoon by Hill 60 Chapter, Imperial Order Daughters of the Empire, in honor of Miss Blanche Macdonald, a former regent of the chapter for three years, who is about to leave the city. About twenty members of the chapter were present and, in the course of the afternoon, the presentation was made to Miss Macdonald, as a token of esteem and goodwill, of a beautiful beater brass inkstand and pencil holder. The presentation was made, with fitting words, by Mrs. John Manson and Miss Macdonald responded suitably.

Miss Macdonald, who has been a member of the staff of the Prince Rupert High School for many years, leaves here Saturday afternoon by the Princess Louise for Nanaimo to assume a position with the High School there.

## In The Letter Box

### CITY FINANCES

Editor Daily News.

In your issue of the 12th inst. you drew some comparisons as to the cost of city government between Nanaimo and Prince Rupert.

I do not know what year your figures apply to, but I know they do not apply to last year as I have the Auditor's Reports of the city of Nanaimo for 1926.

I will give here the figures from the Financial Reports of the two cities for that year.

	Nanaimo	Rupert
Cash Receipts	\$364,672.93	752,761.28
Land Taxes	152,812.53	306,397.57
Poll Taxes	4,260.00	2,236.00
Dog Taxes	590.00	819.00
Utilities Receipts	39,740.45	181,627.79

### GENERAL ADMINISTRATION COST

Gen. Admin. cost	16,333.96	30,019.68
Police Dept.	10,902.93	17,519.55
Public Health	2,136.65	14,895.06
Fire Dept.	15,842.41	15,510.71
Hospital grants	3,387.53	10,063.20
Total Taxes	135,628.61	326,676.39

Value of Taxable Land 2,255,069.00 6,771,919.00  
Value of Taxable Improvements 3,250,950.00 5,338,540.00  
Total Assets 1,437,379.00 3,750,296.71  
Assets in excess of liabilities 348,716.57 1,156,223.03  
Area 700 acres 2240 acres

You will see at a glance that while Nanaimo has a larger population, it is not as big a city. Population in this case doesn't count, as Nanaimo is a mining town and most of its inhabitants have no business with the city hall, not being tax payers.

The city being more congested occupies about one third the area, and naturally, will be more economical to manage from a municipal standpoint. It is noticeable that the cost of maintaining their fire department is greater than ours because they realize on account of their congestion the necessity of an efficient fire department.

Their public health department costs less because they have a sewer system over the whole city, whereas we have to have our garbage department on the job day and night. The same thing applies to all the departments which explains the difference in the cost. The impression that one got from reading your editorial was that Prince Rupert was extravagantly managed. Great harm can be done by publishing such reports. Financial papers are always on the look-out for news that reflects on the management of cities, and they pass it on to the bond holders. We do not know the source of your information but it is obviously misleading and detrimental to the interests of the city.

ALD. JOS. GREER.

## GREAT FILM "MONS" AT WESTHOLME NEXT WEEK

In preparation for the production of "Mons." Captain Walter Summers, the director, was fortunate in securing not only the assistance of the War Office, but also the co-operation of several of the officers and men who lived through the famous and glorious retreat. Every man in the picture is at present serving or has served in the army.

The majority of the scenes were filmed on the actual sites where they occurred and although this picture deals with the most tragic but heroic events in the Great War, it has its lighter side. Facts which have been sought concerning this famous Retreat go to prove that the indomitable British spirit was frequently the cause for meriment in the very face of death and it was only the inherited British sense of humor which enabled the troops to carry on. This film masterpiece will be shown

# Indeed a Great Instrument!

is the verdict of John McCormack, world-famous tenor—after listening to his latest record on the new Orthophonic Victrola.

Whether an exacting operatic air, or one of those simple haunting melodies for which the popular tenor of Old Athlone is better known, it is vividly McCormack on the new Orthophonic Victrola, and this is true of its presentation of all great artists who sing for Victor V.E. Orthophonic records.

For the new Orthophonic Victrola brings to your home everything in music, and misses nothing. The mannerisms, the very personalities of the artists, these are given you perfectly by the Victor controlled principle of "Matched Impedance" or "smooth flow of sound". In this era, it has been possible not only to achieve great things but to bring them within reach of every one. At "His Master's Voice" dealers you will find six exquisitely designed models of the new Orthophonic Victrola, from \$75 down to \$115, all obtainable on easy terms. With electric motor to eliminate winding if you wish at slight additional cost. Hear these instruments today.

This afternoon's train from the east due at 3:30, was reported this morning to be on time.

G. F. Brine, auctioneer, leaves on Friday morning for the Edmonton district where he will be engaged for three weeks in harvesting on his farm.

A casket was forwarded on the train today by the B.C. Undertakers for the burial of Peter McDonald of Remo. Interment will take place in Terrace.

G. C. McKay, district engineer for the provincial department of public works, returned on the steamer Prince George today from a trip to the Bella Cooola district.

To consider the appointment of delegates to the Winnipeg convention, a meeting will be held in the Conservative club rooms on Thursday, August 18 at 8:15 p.m. All Conservatives welcome.

H. Mochida, Fraser Street, was charged in city police court before Magistrate McLymont this morning with keeping liquor in other than a private guest room. Adjudgment was taken till tomorrow.

Before the motion of adjournment was passed last evening at the hospital board meeting it was decided to purchase a few chairs. In addition to their use in the board room they could be used to advantage throughout the hospital.

Paddy Ryan of the Queen Charlotte Islands was fined \$100, with the option of two months imprisonment, by Magistrate McLymont in city police court this morning for obtaining money under false pretences. He issued worthless checks.

The Boy Scouts are carrying out the sale of tickets in connection with the old-timers football game scheduled for Friday evening. The young lads realize that they will benefit very greatly by any improvements which are effected at the Acropolis Hill grounds.

Mrs. Roy Elsey and son LeRoy of Vancouver, have been spending a week in Prince Rupert as the guests of Miss Winifred Anger. Mrs. Elsey is on her way to the east where she will reside in future. Mr. Elsey having accepted a professorship in an eastern college.

At the meeting of the hospital board last evening advantage was taken of the occasion to compliment the Ladies' Auxiliary upon the splendid condition of the ward which they have taken over. A new floor had been laid and the furnishings when completed will make the ward very attractive.

The hospital board was advised last evening that Mr. and Mrs. J. F. Strang of Sunnyside Cannery had sent in donations of parcels of linen which were greatly appreciated. Such a mark of thoughtfulness was highly commended as too frequently people neglected to give any heed to local deserving causes.

At the regular monthly meeting of the Prince Rupert General Hospital board last night the following members were in attendance: Chairman, Jas. H. Thompson; H. B. Rochester, G. P. Tucker, Ald. W. M. Brown, Ald. Bert Greer, W. C. Orchard, C. H. Elkins, Mrs. Glassey, Dr. Cade, Leo, Waugh and Harry Birch, managing secretary.

Sergeant A. McNeill, provincial police, who was called to Bella Cooola to investigate the shooting of Provincial Constable Williams of that place as a result of which Peter Whitewash, an Indian, has been committed for trial on a charge of attempted murder, returned to the city on the Prince George this morning. Williams, who was shot in the hand, is making satisfactory recovery and Whitewash has been lodged in Okalla prison where he will await trial by jury at the next Assize Court here.

Ben Lipson returned to the city this morning from a business trip to Vancouver.

The tug Cape Scott arrived in port this morning and returned with empty scows from the Albert & McCaffery dock.

Miss Agnes McQuillan of the Post Office staff returned from the south on the Prince George today. She has been visiting at Saskatoon.

Mrs. Prodaie Shatsky, sister of W. Goldbloom, was a passenger leaving by today's train for the East and will visit in Edmonton and Winnipeg.

Considerable merriment was caused at noon hour today when a large party of tourists were posing for photographs in front of the local beer parlors.

Union steamer Catala was late in leaving for the south yesterday owing to a heavy shipment of fish from the plants at the government wharf.

Mr. and Mrs. G. W. Nickerson returned to the city on the steamer Prince George this morning from a trip to Vancouver and other points in the south.

Jack Kirpatrick, son of J. A. Kirpatrick of this city, was an arrival from the south on the steamer Prince George today and will spend a few weeks holiday with his father here.

Included in the list of passengers southbound by the Union steamer Catala yesterday were a number of cannery workers from the north where curtailment of the work for the season has already commenced.

C.N.R. steamer Prince George, Capt. Harry Neiden, arrived from Vancouver at 11 a.m. today with a full complement of passengers to the number of 200, most of whom are making the round trip to Skagway.

The small Imperial Oil Co. tanker Marvolute, which is engaged in supplying the company's small stations between Vancouver and Prince Rupert, called at the local tanks yesterday afternoon between 3 and 7 o'clock for a supply of fuel.

At the meeting of the Prince Rupert General Hospital board last evening, a letter was read from the Prince Rupert Credit Bureau describing membership conditions. It was decided to take advantage of the offer which should facilitate collections in a number of cases.

Harry Birch, managing secretary of the Prince Rupert General Hospital, will be a delegate to the British Columbia Hospital Associations Convention which will be held in Victoria on September 8, 9 and 10. The sum of \$75 has been voted to cover expenses, a considerable amount of which will be returned following the disposition of returns from the pooling scheme.

A letter of resignation from Miss Janet Lee, R.N., of the Prince Rupert General Hospital staff was read at the board meeting last night. Miss Lee has been acting Matron in the absence of Miss Harrison. The members accepted Miss Lee's resignation with regret and with a request for Miss Lee to carry on until the return of the lady superintendent, Miss Jean Harrison, R.N., from a trip to the Old Country.

STORE CLOSED TOMORROW AFTERNOON AND FRIDAY

JABOUR BROS. DEPARTMENT STORE

MONTHLY MEETING RETAIL MERCHANTS

At the regular monthly meeting of the Retail Merchants' Association at the Commodore Cafe last evening, with L. M. Fuller in the chair, much business of a routine nature was discussed.

It was decided to close the stores on Thursday afternoon of Fair Week in order to give all the opportunity of enjoying the attractions on that date. All stores will be regularly closed on Labor Day Monday of the same week.

In connection with the boosting of the Fair it was urged that as many of the members as possible take the opportunity of putting in advertising lines with their display advertising in the papers. This would be an ideal method of constantly reminding the readers of the dates and the features offering.

SEASONABLE RECIPE

CHOCOLATE CAKE.

- One half cup of butter. Two cups of brown sugar. Two eggs. One half cup of sour milk. Two cups flour. Two tablespoons of cocoa. Last—one half cup of boiling water with one teaspoon of baking soda. Bake about twenty minutes in moderate oven.

**LIFE HISTORY**  
**OGDEN ARMOUR**

Directed One of America's Largest Business Enterprises

CHICAGO, Aug. 17.—Jonathan Ogden Armour, who died in London yesterday, was the eldest son of Philip D. Armour Sr., founder of the great Armour & Co. packing industry. He sacrificed his senior year in Yale University because of his father's desire to give him an early training in the rudiments of the huge business enterprise that he was destined eventually to direct.

After a year of apprenticeship, during which he made a study of every branch of the vast concern, young Armour assumed the executive responsibilities of the packing house, and for more than 17 years applied himself diligently to the task of mastering every phase of the packing business. He assumed complete control upon the death of his father in 1901.

Under the direction of J. Ogden Armour, the volume of Armour & Company's business grew from \$182,000,000 a year to more than \$1,000,000,000 a year, and the activities of the company were greatly expanded and developed. Mr. Armour built additional plants in various parts of the country to encourage and develop the production of livestock in the territory surrounding these plants, and to eliminate unduly long hauls to the yards. It was under his guidance also that the South American subsidiaries of the company were established.

These opened world markets to the livestock raisers of South America and broke the valuable monopoly held by British interests in the cattle business of Argentina. Today there are five Armour plants south of the Equator, 15 in the United States, and one in Canada. There also are approximately 400 branch houses in the United States to facilitate distribution. Mr. Armour's administration of the business, according to his closest associates, was peculiar in that it was one of development almost exclusively.

**BORN IN MILWAUKEE**

J. Ogden Armour was born in Milwaukee, November 11, 1863. Twelve years later the Armour family moved from Milwaukee to Chicago. After attending the public schools there, Mr. Armour entered Yale in 1881, and three years later returned to Chicago to embark upon his business career.

Mr. Armour married Miss Lolita Sheldon, daughter of Martin J. Sheldon of Suffield, Conn., in 1891. They have one daughter, Mrs. John J. Mitchell, Jr., who was Lolita Ogden Armour, born in 1896.

Mr. Armour had extensive business activities in addition to his connection with Armour & Company. He was a director of several large railroads and financial institutions, among them the Chicago, Milwaukee & St. Paul Railway, the National City Bank of New York, the Continental and Commercial Bank of Chicago, the Hibernian Banking Association of Chicago and the Northwestern and National Insurance Company of Milwaukee. He also established Armour & Company, Ltd., of London.

Business took most of his time and he devoted little attention to society although grand opera was his one diversion.

**WRIGLEYS**

It keeps teeth white, soothes the throat, and aids digestion.

**WRIGLEYS SPEARMINT** THE PERFECT GUM MINT LEAF FLAVOR

After Every Meal

version. He was never too busy, however for a half minute chat with an old employe or an old friend. When meeting one of these he invariably solicited an opinion on the market first and then demanded to know if everything was going all right. The conversation generally ended with Mr. Armour saying, "whenever I can do anything for you let me know."

Old employes were his hobby. Once an "old timer," who was discharged by a department head took his grievance to Mr. Armour.

When the department head explained that the man discharged was incompetent, Mr. Armour replied: "It took you 15 years to find that out take him back and keep him as long as he lives."

**LOVED BY EMPLOYEES**

Another time the heads of his accounting departments complained that an old packing house foreman refused to keep books and threw out the bookkeepers they sent him. They were afraid to discharge the veteran and asked Mr. Armour to do it. "No," he replied. "That foreman taught me all I know about that branch of the business but not all he knows. If you can't get those figures some other way you will have to get along without them."

These characteristics made him generally loved by his employes, who regarded him as the supreme court for minor differences.

In 1911, Mr. Armour and nine other Chicago packers were tried in the federal courts at Chicago for alleged violation of the Sherman anti-trust act. The defense offered no testimony in answer to the government's case and the jury brought in a verdict of not guilty.

Mr. Armour perpetuated the charitable and educational work founded by his father. He made large donations to hospitals and relief work of every kind, but never allowed his name to become public in these transactions.

**A PHILANTHROPIST**

Armour Institute of Technology benefited by his generosity. When the school needed room he purchased an 80-acre golf links in the South Shore district at a reported price of \$1,000,000 and announced his intention of building a new home for the school on it.

His methods were quieter than his father's as his personality was less gruff and rugged. Many of his important deals were so quietly executed that few knew he had guided them until they were completed.

He was one of the largest operators on the Chicago Board of Trade, and in one sensational conflict with James A. Patten over control of the wheat market he was said to have won more than \$1,000,000 in a few weeks.

He lived in summer on his model farm at Lake Forest. After the world war he left the management of the packing company, largely to his nephews, Philip D. Armour III, and Lester Armour, that he might have more time for his other commercial interests.

**Robin Snipe Among Many Remarkable Birds Seen by Comm. Donald B. MacMillan**

**HALIBUT AT POLE**

**Plenty of Flowers Found in Arctic and Remains of Extinct Vegetation**

**SYDNEY, N.S., Aug. 16.—**(By Canadian Press.)—The story of the South American robin snipe which flies away up in the Arctic to hatch its young was one of Commander Donald B. MacMillan's most remarkable tales when he was in Sydney just before leaving again for the Arctic. Every year robin snipe fly north, the commander said, 11,000 miles or so. There, in a nest in the Arctic moss, the mother snipe lays one egg. After the egg is hatched out and the young bird develops, they start back southward again. They fly thousands of miles away down to Patagonia, Commander MacMillan's stories are related in the Sydney Record.

Nobody knows the great urge behind this long-distance trip, but Commander MacMillan's theory was that long ago the Arctic was the habitat of this species of bird, and the racial instinct of centuries ago persists to this day.

**HALIBUT FOUND THERE**

Another thing related was that 9,000 feet of fine wire failed to touch the bottom of the sea a few miles from the North Pole. Foot after foot it reeled off, carried down by a lead in a great ice crack, but the 9,000 foot mark was reached and the supply of wire all used up—with bottom still untouched. Near the Pole, Commander MacMillan said, the ocean is probably a couple of miles deep. But halibut swim about in those far northern waters. That was one of the interesting facts, and one of importance to ichthyologists or students of the ways of fish, that was revealed during one of Commander MacMillan's trips to the Arctic. The halibut, which it had generally been supposed never went so far north, were found in the stomachs of great narwhals—the sea unicorns of story.

**DEPOSIT OF COAL**

Something of wide importance near the Pole are great deposits of coal.

**WATER NOTICE**

**DIVERSION AND USE**

TAKE NOTICE that Francis Henry Cunningham, whose address is 805 Board of Trade Building, Vancouver, B.C., will apply for a licence to take and use 1 cubic foot per second of water out of unnamed stream which flows northeast and drains into Humpback Bay, Porcher Island, about 400 yards southeast of northeast corner post of Lot 102. The water will be diverted from the stream at a point about 200 yards from the mouth of the river and will be used for fish, cannery and domestic purposes upon the lands applied for, being portion of Lot 102, Range 5, Coast District.

This notice was posted on the ground on the 25th day of June, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 4, 1927.

**F. H. CUNNINGHAM,**  
Applicant.

"There's millions on millions of tons of coal up there," Commander MacMillan said, "good coal, too. One day I sent one of my Eskimos out to do something for me. He came back with a big lump of ice under one arm—and a big lump of coal under the other. 'Where did you get the coal,' I asked him. 'The valley is full of it,' he replied. 'And it was.'"

The Commander took occasion to confound the dogma that no vegetation grows in the Arctic regions. On his trips to the Arctic wastes Commander MacMillan has found 700 different kinds of flowers. As for trees, evidence has been found on these trips that once upon a time at least 36 varieties of trees now found in the temperate and tropical zones grew in abundance in the Arctic territory, among them the giant sequoia now familiar in California.

**INTELLIGENT PEOPLE**

He suggested that the Eskimo people—uneducated today, as the world rates education, without books or written language, a primitive people as they were 2,000 years ago—were the equals of supposedly superior people in point of intelligence and more than their equals on the physical side.

"Every year when we leave the north," Commander MacMillan went on, "one of my scientists always turns to me and says 'MacMillan, those people are just as intelligent as we are.'"

**Inside Information**

**Concerning the Closing of J. Bent's Ladies' Ready-to-wear**

When Mr. Bent first negotiated with me concerning the closing up of his Business—I hesitated—I knew this Stock, I had handled it in April last, when I unloaded Several Thousand Dollars worth of it in a Special Sale.

At that time I told Mr. Bent that his stock was far and away too large for a City the size of Prince Rupert.

But Mr. Bent gave me the option of removing the stock to Vancouver or in fact doing what I wished with it, the only stipulation being that the entire Business be disposed of in the most rapid manner possible.

I then stipulated that I should have complete control of the selling prices—and I pointed out to Mr. Bent that with a forced Sale and his tremendous stock, we could only expect to realize a mere fraction of the regular value, as selling would have to be crowded into a few days.

—Well, we signed the contract, and this splendid stock, approximately \$17,000 worth of the most superior kind of Ladies-Wear it has been my privilege to handle for many a long day—will be thrown to the mercy of the Public—FOR WHAT IT WILL FETCH—STOCK, FIXTURES, FITTINGS — EVERYTHING MUST GO—no reasonable offer refused.

Thursday the Store will remain closed all day—see full page AD. in tomorrow's NEWS.

OPIUM TRAFFIC IS STILL LARGE

British Government's First Public Report Illustrates Difficulties in Restricting Traffic

LONDON, Aug. 17.—(By Canadian Press).—That the illicit traffic in opium and other drugs continues on a large scale all over the world is shown in the report on the control of the traffic by the British Government, which the Home Office this year has for the first time made public.

It is not possible at present to control the growth of a plant which is cultivated freely in China, Persia and Turkey, and in restricted quantities in

"COMPANIES ACT" TAKE NOTICE that the Rupert-Vancouver Stevedoring Company, Limited, intends to apply under Section 39 of the Companies Act, being Chapter 38 of the Revised Statutes of British Columbia, 1924 to change its name to Pacific Stevedoring & Contracting Company, Limited.

Full of Flavour "SALADA" TEA

So why accept exhausted bulk tea.

India, but it is possible to strictly regulate its preparation for medicinal use and the complicated process by which raw opium is transmuted into morphine, heroin and other derivatives, and to supervise its distribution.

The British government has controlled the traffic since 1920, and although a new international instrument was signed in 1925, the international central board which in future is to supervise the traffic, has not yet been established.

ROMANCE OF CRIME Half-seen beneath the surface of official reticence in this report lies the romance of criminal stealth foiled by the alertness of revenue detectives.

LAND ACT. NOTICE OF INTENTION TO APPLY TO LEASE LAND In Queen Charlotte Island Land Recording District of Prince Rupert, and situate on the west coast of Burnaby Island.

was not the owner of a legally inscribed establishment for the sale of drugs, and that the consignment addressed to him contained more opium than the medical practitioners of Nicaragua would have consumed in the ordinary course in 15 years.

A particularly interesting seizure was made at Southampton. A shipment of a mixture labelled "Lubriole" excited suspicion. On analysis this was found to be morphia mixed with some unctuous substance, from which it could later easily be recovered by chemical process.

CURIOSITY IS AID LEARNING Pupils Teach Themselves Through First Hand Experience in New Cambridge School

LONDON, Aug. 17.—(By Canadian Press).—There are many kinds of schools for the young in this world. But a "different" one is the Maiting House school at Cambridge.

Another instance of the way this school works is the see-saw. Two children are not necessary, for beneath it are hooks on which weights can be hung.

SUCCESS OF EXPERIMENT The success of the experiment naturally depends on the skill with which the force of curiosity is guided, especially through that period when the child's curiosity changes from "what is happening" to "what will happen next?"

There are teachers, of course. A good deal of interest was roused when the school recently advertised for another teacher, because it was set forth there was need of a teacher who should be a scientist of the first order; and who should not so much teach, as introduce children to science and scientific methods.

There are teachers, of course.
