WON ALDERMANIC BY - ELECTION WITH MARGIN OF 76 OVER LABOR CANDIDATE, JAMES BLACK

Despite an active campaign waged he had been tied at the January election for the eighth seat on the city council. Mr. Linzey received 458 votes and Mr. Black, 382. There were four spoiled ballots. A larger vote than was expected was polled. The fine afternoon brought out many people who probably would not have ventured forth had the inclement conditions of the morning continued. Mr. Linzey, it is believed piled up his majority in the afternoon. Numerous small gasboats were swept. The supporters of the Labor candidate from their moorings on the Seward were counting a majority on the morning vote. VICTORIA, Feb. 26 .- Len Bell, of Edmonton, and G. M. Biernes, of Hazelton, who are the principal owners of the aeroplane that was operated a few years ago from Hazelton into the Omineca and intervening country, are in the city. They have come south for the purpose of entering into arrangements for the reviving of the air route this coming season.

Speaking of the proposition, the visitors called attention to the fact that there is a tremendous area of country that can be reached by this means that has the greatest promise of making a rich producing area. It is one of the most promising districts in the whole of the province, they say. The air route is the most feasible way of reaching the territory for prospectors who have money to invest.

LOCAL NEWSPAPER IS TOWN'S BEST BOOSTER.

A writer in a current magazine observes "if the newspaper is

just a little better than its town, the latter is the gainer thereby." Towns and their newspapers usually lag or lead together. Progressive journalism is the unfailing tonic of the lethargic community, but it is equally true that a lifeless newspaper can seriously retard the development of its community.

There is no better community asset than a home newspaper equal to the needs of the community. While a poor newspaper is God gives his church pastors, evangelbetter than none to the individual reader, that does not hold true for the town.

What can a good newspaper do for its community? It can especially as evangelists, teachers and serve as the town's messenger to the outside world. It must take the leadership in all community projects if they are to be successful. It is the infallible line of communication between local government and citizen. It is to the newspaper that all organizations turn for assistance in public welfare movements and without that assistance they face failure.

The newspaper reaps the reward of its initiative by sharing in Church. the general improvement of business and community affairs it has been instrumental in bringing about. The good newspaper deems it a pleasure to serve its community and its readers and is fully aware that it is only through giving a full measure of service that it can progress and prosper.

### MANY SCHEMES FOR FREE PUBLICITY.

The Daily News, like other newspapers the world over, is repeatedly the victim of artful attacks in an effort to secure valuable space for the introduction of various schemes for private gain or the moulding of public opinion toward "putting over" some scheme.

Some bureau or syndicate or manufacturer or politician will the exceptional women who would want hit upon a happy idea, and some clever fellow will tell him just how he can work the newspapers for all the "stuff" needed; whereupon the "expert" is engaged or the advice is taken without the aid of the expert. He makes good at getting the stuff out-but publishers are too keen to allow the grafting game to go too far.

Invariably, when the scheme is found out in time, and the matter is refused, a threat is hurled at the publishers that the "story" will be given to another paper.

The plot works, occasionally, but not always.

In the long run, the schemer usually loses out because never again can the paper be approached in the same way by the same schemer.

The fact must be considered, also, that unless citizens can be depended upon at all times to furnish their local journal with live stories they cannot expect to get away with spasmodic attempts to put over propaganda. The editor is a hard man'to fool.

### WALKING LOSES PTS POPULARITY.

Although in the downtown districts of our cities the sidewalks are still crowded with pedestrians, it is probably true that walking has become an obsolete pastime in America. The rushing in and out of stores in the shopping districts isn't walking anyway, in the opinion of lovers of that form of physical exercise.

We have lost the feeling of leisure which in former days was the total life insurance payments so conducive to walking. Even in our motoring we seem to be possessed of the idea that we must hurry to get somewhere, although we may have no particular destination in mind.

Obviously the automobile does not permit of sauntering. When the road is good, there comes the irrestible impulse to make the most of it, which to nearly all drivers means anywhere from 35 to Joseph S. ADMISSION OF WOMEN AGITATES UNITED CHURCH PRESBYTERY

MONTREAL, Feb. 26. - (Canadian Press). Shall the United Church of Canada make ecclesiastical history by admitting women to the ordained ministry of the United Church, is the question now agitating every Presbytery of the United Church, it is pointed out by Dr. D. L. Ritchie, Dean of the United Theological College, Montreal: President of the Conference of Montreal and Ottawa, and chairman of the Presbytery of Montreal, United Church of Canada, in an interview with the Montreal Daily Star.

The question was debated at the biennial meeting of the council of the United Church of Canada here last June when a resolution was carried to the effect that the matter should be sent out to all the Presbyteries of the United Church in the Dominion, for decision, and that all should report their findings at the next biennial council of the Church to be in Winnipeg in June,

the views of some leading United Church ministers here.

Dr. E. Leslie Pidgeon, who was responsible at the General Council meeting last June for postponing the adoption of the amendment to the constitution of the United Church which sought Saturday, Feb. 26, 1927 to open the door to permit the entry of women into the ministry said: "I still think that the entry of women into the wouldn't strengthen the ministry church."

POSSESS GIFTS

Rev. Dr. J. W. G. Ward of Emmanuel Church knew of no reason why women possessed of the gifts and qualifications necessary to preachers of the Gospel should be debarred from the ministry. 'Women ought never to have been excluded from the ministry," Dr. George Laughton, of St. James Church, safd. ists, teachers, apostles and prophets. Women have excelled in all these lines. prophets," Rev. Dr. J. R. Dibson stated. Geographical and economic conditions prevailing in Canada, not always considered when discussing the question of women entering the ministry, were mentioned by the Rev. Dr. C. A. McIntosh, pastor of the Dominion-Douglas United

Rose, professor at the United Theological College of Montreal thought that a lot depended on the individual woman herself. "I am quite in favor of it because I think it would be only to enter the ministry," he said.

UNANIMOUS DECISION At Toronto an intercollegiate debate delegation to Ottawa amounted to \$900 resulted in the unanimous decision that women were not eligible for the ordained ministry of the United Church in by students from the United Theolo- trict. gical College here, who spoke for the women, and a student from Knox and Victoria Colleges, Toronto, who were for barring women from the ministry.

# The Affiction "Big-Neck"

The unsightly golfre-big-neck-some people call it, is not alone an affliction in itself, but in certain types of cases the fore-runner of very serious, sometimes fatal, consequences.

The lower nerve under the magnifying glass is pinched by a misaligned joint Pinched nerves cannot transmit healthful impulses, Chiropractic adjusting removes the pressure & . The upper nerve is free

as nature intends.

Due to a deficiency in the nerve supply to the thyroid gland a dis-eased condition develops and swelling occurs, sometimes entirely upon the surface, without dangerous consequences, sometimes inwardly with strangulation and mpaired sight following.

Chiropractic spinal adjustments remove the interference with nerve lines and permit normal functioning of this gland. Cases are upon record showing as much as five inches reduction in of adjustments.

### AFTER FORTY YEARS WITH A GOITRE-

'For forty years I have suffered with goitre. I had been advised to have it operated upon, but would not hear of an operation. After witnessing the result of chiropractic adjustments with several members of my family, I decided to see if I too could be helped. have now been taking adjustments for several months and can see my goitre reducing almost daily. I feel that I cannot say too much as to the merits of Chiropractic for human ailments."-Mrs. A. Powell, Chiropractic Research Bureau, Statement No. 2075-L.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful.
