## STEAMER NORTHWESTERN IS ASHORE

### VALUABLE PIECE OF WATERFRONT PRESENTED TO CITY

#### Steamer Northwestern Ashore at Cape Mudge; Passengers Are Ashore

Struck About Mile From Lighthouse in Blinding Blizzard and Heavy Seas Made Rescue of Passengers Difficult

VANCOUVER, December 12.—When proceeding slowly through a raging snowstorm and southeast gale past the lighthouse at Cape Mudge the steamer Northwestern of the Alaska Steamship Company went ashore one mile northeast of the lighthouse. S.O.S. calls brought aid but, owing to the blizzard and heavy seas, boats were unable to approach most of the day. The Canadian government steamer Estevan, the steamship Amur, and the tugs St. Faith and Explorer stood by all day until at considerable risk the forty tug Explorer was able to get alongside. That boat made several trips to Campbell River until the last man was taken off.

There was no panic on board. Mrs. Jane Warner, stewardess of the steamer, was the heroine of the wreck. She walked calmly about rapping at the doors of the cabins, arousing the passengers and telling them the steamer was aground but that there was no danger. Captain J. Livingstone also reassured the passengers.

The Northwestern is expected to be a total loss. The hull is badly ripped, the holds are full of water and she is fast on the rocks pounded by heavy seas. The salvage boats from Vancouver were due on the scene this morning.

The Alameda of the same line was despatched yesterday from Seattle to take the passengers on to Alaska. The crew may come to Vancouver.

**EARLIER REPORT**

Going ashore on Cape Mudge just south of Seymour Narrows in a blinding snowstorm about 5 o'clock Sunday morning, the American passenger liner Northwestern sent out "S.O.S." calls which later in the day brought the tug Cape Scott, now under charter to the Vancouver Dry Dock - Salvage Co., to her assistance. It was about half tide on the flood when the Northwestern went up and it was expected that the vessel, which was running at slow speed, would soon be released. It is understood that she suffered very extensive damage.

A real old timer of the Alaska Steamship Co.'s southeastern and western Alaska route, the Northwestern has been in the Seattle-Alaska service for nearly thirty years. The vessel, of steel and iron construction, was built as the Orizaba in Chester, Pennsylvania, in 1890 by the Delaware River Co., and for a few years was in service on the Atlantic coast. On being purchased by the Alaska Steamship Co. her name was changed to Northwestern and she was brought to this coast and registered at Port Townsend and entered in the Alaska run.

A bulky and old fashioned vessel in design, the Northwestern has gross tonnage of 3497 and net of 2334. She is 336 feet two inches long with beam of 33' 2" and depth 22 feet.

Passengers numbering 112 were taken off late yesterday by the gas boat Explorer of Juneau.

**COMMUNISTS TAKE CONTROL OF CANTON FOLLOWING FIGHTING**

HONG KONG, Dec. 12.—The break between the Nationalists and Communists in China came to a head at Canton, capital of the southern province and birth place of the Nationalist movement, when the Communists took control of the city after extensive fighting and announced its opposition to the present leaders of the Kuomintang.

On Saturday the Communists were denounced by the Nationalists and trouble followed eventuating in the final control of the city by the former.

**NELSON CHILD KILLED COASTING ON STREET**

NELSON, Dec. 12.—Mary Sharpe, eight years of age, was killed when coasting. Her sled ran into an automobile at a street intersection.

THIS 12,000 FEET HIGH, UNSCALED PEAK, 30 miles west of Boulder, Colorado, is to be named Mt. Lindbergh, after the "Lone Eagle" transatlantic flier, who made aviation history by his flight from New York to Paris

#### BLIZZARD IN VANCOUVER IS WORST YEARS

People Digging Themselves Out This Morning and Temperature is Rising

VANCOUVER, Dec. 12.—After one of the worst blizzards in many years Vancouver and district this morning was digging itself out of snowdrifts in some instances two feet deep.

Street railway services were severely disorganized yesterday by the fall of seven inches of snow accompanied by a strong northeast wind. This morning, however, conditions were rapidly approaching normal but street cleaning department was swamped in an endeavor to clear the roads and sidewalks.

The temperature is rising here this morning.

#### PEACE MADE WITH POLAND

Lithuania and Neighbor to Again Resume Friendly Relations

GENEVA, Dec. 12.—Poland and Lithuania formally declared themselves at peace at a special session of the League of Nations Saturday night. They agreed to enter into direct negotiations which probably means that diplomatic relations will be restored shortly.

#### GRAIN CARGO OFF TO EUROPE

Warlaby Sailed Yesterday With Wheat From Local Elevator

With a full cargo of grain loaded at the Alberta Wheat Pool's Prince Rupert elevator, the British steamer Warlaby sailed at 8 o'clock Sunday morning for Europe via the Panama Canal, making the fourth vessel to load full so far this season at the local house.

#### Hon. T. D. Pattullo Announces He Will Recommend City Be Given Valuable Waterfrontage

Following a meeting with a delegation from the Retail Merchants' Association this morning, Hon. T. D. Pattullo announced that he would recommend that the piece of waterfront at the foot of McBride Street be turned over to the city for their use.

The delegation which waited on the minister asked that this be made a public dock, following out the understanding at the time the townsite was laid out that the street end be open to the public. The delegation consisted of T. McMeekin, George Munro, Frank Dibb, L. M. Fuller, and William Watt.

For years a number of local people, including the mayor, have asked that the city be given some waterfront privileges. This request is now to be complied with and the city will have a very valuable piece of waterfrontage about 90 feet long which can be used for a public landing place.

The frontage is at present occupied by the Prince Rupert Boathouse.

#### Provincial Government Sinking Fund Amounts to Sixteen Million Dollars Says Premier in Address

NORTH VANCOUVER, December 12.—Declaring that the provincial legislature under Liberal guidance had been both progressive and honest, Premier MacLean, addressing Liberals here Saturday night stated that the provincial sinking fund stood at \$16,000,000.

Because of the government's economical policy, the province has been able to pay off more than five million dollars through accrued sinking funds. He declared it was the policy of the government to reserve three per cent of the provincial revenue for this purpose.

"The past eleven years," said the premier, "was the most difficult period in the history of the province. When we took office in 1916 war had sapped the vitality of the province and severe depression was felt throughout British Columbia. For five years the obligations of the government were met only under greatest difficulties. I may say I never want to go through experiences like those five years again."

#### MINISTER OPENS NEW SECTION OF HIGHWAY

NORTH BURNABY, Dec. 12.—Hon. W. H. Sutherland on Saturday opened the eighteen foot pavement on the Hastings and Barnet Road, the first three mile unit of the highway to be ultimately carried to Mission.

Advertise in The Daily News

#### Fisheries Cruiser Exploded at Tucks Inlet Yesterday and the Engineer, C. Eyoifson, Injured

The well known fisheries patrol power cruiser Cloyah, valued at \$7,000, is a total loss and the engineer of the vessel, Christopher Eyoifson, received burns about the face and left arm for treatment of which he was placed in the Prince Rupert General Hospital as a result of an explosion of gasoline which occurred aboard the vessel yesterday afternoon between 2.30 and 3 o'clock.

The Cloyah was returning from a patrol of the shrimp and crab fisheries in Tucks Inlet at the head of Prince Rupert Harbor when, from some cause so far unascertained, there was an explosion in the engine room. Three men—Capt. W. Strachan, Engineer Eyoifson and C. F. Barwell, the latter of the local departmental offices—were in the cabin aft and Capt. E. Eburne, formerly master of the patrol steamer Marfish, was relieving at the wheel. Flames issuing from the engine room caused Eyoifson's burns which are reported to be of not very serious nature.

The boat taking fire immediately after the explosion, a small life boat was launched with all speed and to this the four men took refuge. The gasoline tanks would explode. When they were about three-quarters of a mile off, the suspected explosion did take place. Then, to prevent the derelict from drifting and causing further trouble, the four men with a dinghy towed the burning powerboat ashore and beached her near the Prince Rupert cannery. She burned practically to the keel, a total loss.

The Cloyah was built three years ago in Vancouver and since that time had been used in patrol work out of Prince Rupert. She was forty-five feet long and was powered with a 35 h.p. Frisco-Standard engine which will also be a total loss. Little more than the anchor and propeller will be saved. The boat was not insured.

The fisheries patrol steamer Malaspina, having just arrived from Vancouver with W. A. Found of Ottawa, director of fisheries, and Major J. A. Motherwell, chief inspector of fisheries, on board, went out to the scene and brought Strachan, Eburne and Barwell home.

Eyoifson, in the meantime, had been rushed in a cannery boat to the local hospital.

Further Delay in Departure of Wrecked Steamer Catala

NEARLY SANK YESTERDAY

Temporary patching having been carried out, Union steamer Catala, badly damaged as a result of her stranding over a month ago on Mist Island near Port Simpson, came off the pontoons at the dry dock at midnight Saturday. It was found, however, that the ship was not sufficiently buoyant to warrant departing immediately for Vancouver, so a donkey engine and pumps are now to be installed on board to keep the water down during the voyage south. It is now planned that the vessel shall leave on Tuesday in tow of the Salvage King.

There was much difficulty experienced in handling the Catala as she came off the pontoons. For some reason apparently unaccountable, she took a heavy list and, rapidly filling, it is stated that only the derrick of the Salvage King and some speedy pumping work saved the vessel from turning over and sinking on the spot. Lashed alongside the Salvage King, the Catala was taken to the dry dock pier and a diver was engaged almost all yesterday in examining the hull of the vessel. The list prevented the steamer from being taken back immediately onto the pontoons.

#### CREWS TAKEN FROM WRECKS

Battered Hulk That Had Drifted Since Thursday Discovered Yesterday

OTHER VESSELS ARRIVE

SAULT STE MARIE, Dec. 12.—Two men named Moore of Owen Sound, Ontario, and another named Baird of Marytown, Ontario, were drowned from the steamer Lambton which crashed on a shoal at Parisienne Island near here. The remainder of the crew of 23 landed at Goulias Bay 19 miles north of here this morning.

After drifting with the storm and waves across White Fish Bay since Thursday, the Lambton's battered hulk was discovered yesterday.

The crews of the steamer Agawa, wrecked off Manitoulin Island and the Aladoc, wrecked off Keweenaw, Mich., were rescued yesterday after several days of anxiety concerning their fate. Thirteen members of the crew of the Agawa, however, are caught in the ice on board the tug General near Neeshih Cut. The Buffalo freighter Lake Chelan and the Duluth steamer on account of which concern was felt, arrived safely Sunday. Some of the crews suffered from exposure but no serious injuries are reported.

**GILL NET SALMON FISHERMEN MEET THIS AFTERNOON**

A meeting of gill netters of District No. 2 is being called for this afternoon in the Carpenters' Hall for the purpose of discussing proposals made by cannery operators in the matter of gill net fishing. The outcome of this meeting will probably be forthcoming at the public meeting called for tonight in the Moose Hall by W. A. Found, director of fisheries for the federal government.

#### STOCK BROKER IS REARRESTED

Charles P. Porter Charged With Theft by Conversion and Bail Raised to \$17,500

MANY COMPLAINTS MADE

Charges Followed Raiding of Offices of Porter & Co. When First Charge Laid

VANCOUVER, Dec. 12.—At liberty on bail of \$7,500 to answer a charge of obtaining money by false pretences, Charles P. Porter of Porter & Co., Hastings Street, West, was arrested on a second charge, that of theft by conversion, and total bail was raised to \$17,500.

The first arrest followed investigation into the activities of certain brokerage firms when the office of Porter & Co. was raided. The second arrest, the police say, is the result of investigations of one of the 32 complaints received since the original detention of the broker. The complaints, the police say, come from various points from Point Grey to Revelstoke in the south and Alert Bay in the north.

#### ANCIENT LADY AFTER FORTUNE

VANCOUVER, Dec. 12.—Mrs. Jane Pever, 87 years of age, of Burnaby, is advancing the claim for one third of a fortune in chancery of James Hudson, a pioneer fur trader in northern Quebec, said to amount to \$200,000,000. She had tried forty years ago without success but has been interested again by an announcement that Mrs. Adolph Raicoff of Toronto had lodged a claim to the fortune.

#### TWO MEN KILLED IN NEW WELLAND CANAL

WELLAND, Dec. 12.—An accident at the new canal resulted in the death of Avhille Bisson and Henry Nealis while four were injured. The cause of the trouble was a cofferdam caving in.

**COASTING IS FATAL**

VANCOUVER, Dec. 12.—Victor Rollins, 15 years of age, son of Victor A. Rollins, was fatally injured Saturday evening when he ran into a motor car when coasting.

**NOTICE TO FISHING INDUSTRY**

To enable all interested in the salmon fisheries to state their views on any phase thereof a public hearing will be held in the Moose Hall at Prince Rupert at 7.30 p.m., the Twelfth instant.

W. A. FOUND, Director of Fisheries.

### Quick Relief from Croup

also Coughs and Colds quickly checked by using Dr. Chase's Syrup of Linseed & Turpentine

DAILY EDITION Monday, Dec. 12, 1927

#### PORTLAND CANAL MINING

Probably a great many people do not realize what is going on right at their doors in the matter of mining. We have tried to record some of the progress made at Portland Canal but it is difficult to tell it all. We have mentioned the advent of the Consolidated Mining and Smelting Co. recently as well as two big eastern Canadian companies, one from Quebec and the other Ontario. Then on Saturday we were able to add to this the sale of properties on Salmon River to the Whitney interests, the people who recently completed the deal for the celebrated Flin Flon mine of northern Manitoba. With these new companies operating and the Premier people extending their operation, the whole mining aspect takes on a different tint. Progress of a most marked kind is bound to follow. These companies do not go into a district and put up a lot of money unless they are pretty well assured that there is at least a good prospect of getting results. They are operating rather than prospecting companies. Next summer it seems likely that Portland Canal fame will spread a great deal. Financial papers are already giving a great deal of space to its possibilities but that is as nothing compared with what is likely to happen.

Some years ago Portland Canal experienced a boom but at that time hardly any work had been done there and very soon the flurry passed, leaving the place in worse condition than when it began. Everybody went away because there was nothing left for them to do. The mines had been discredited and investors were disgusted. Not one mine appeared as a result of the number of companies into which people put their money.

Today all that is changed. A few faithful people remained and dug deeper into the hills, eventually discovering the famous Premier mine which is still operating and paying good dividends. Others have steadily developed properties until it is now a certainty that a number of operating mines will add to the wealth of the country. Portland Canal is certainly on the verge of a great movement and the whole province will benefit.

#### READY FOR CHRISTMAS

Most people are getting ready for Christmas. They are preparing either to entertain friends or to be entertained. There is a big time ahead for them. But there are always a few who do not come within that category. They may be new arrivals or they may not, but there is a reason why they cannot enjoy Christmas as well as they ought. Just a few are out of funds and to them Christmas is a mockery.

It is quite unnecessary for us to remind Prince Rupert people of the condition. It always exists. Also Prince Rupert people are usually on the lookout to see that everybody has a good time at Christmas. We mention it only on the chance that someone may possibly be overlooked and that would be a tragedy. While we enjoy ourselves let us try to make those around us happy. Christmas is essentially a day for the practice of hospitality and it is to be hoped that everyone who is homeless or for other reasons unable to spend the holiday in the traditional manner, will be included in some family circle.

#### SALMON FISHERMEN TO MEET

It is to be hoped that the salmon fishermen have thoroughly discussed the proposals made by the cannery so that they may be able to give a very clear answer to the director of fisheries at the meeting which is to be held tonight. Much depends upon the result of that gathering as it will have some influence on all other meetings to be held to discuss the same question.

We have not been informed whether the director will expect to have an alternative proposal if the plan of the cannery is turned down. All we suggest is that all fishermen who are in the city attend that meeting.

### "THIRD DEGREE" SEEN AT THEATRE TONIGHT

Treat 'em Rough Methods Shown in Picture With Dolores Costello Leading Lady

Dolores Costello in "The Third Degree" is the attraction announced tonight at the Westholme. The picture is a screen version of Charles Klein's melodrama of treat 'em rough police methods that used to set audiences shivering with excitement in the days when Helen Ware and Wallace Eddinger were looming from obscurity. The play was also reported to be a powerful influence in correcting police brutality.

Produced upon the screen by Warner Brothers, it is said to live with a fresh vitality that makes it one of the most engrossing melodramas of many seasons.

Dolores Costello, whose first big screen role, opposite John Barrymore in "The Sea Beast," marked her in the minds of many as destined to be the most important of screen stars, establishes herself more firmly than ever in this new production.

She appears as Annie Daly, a trapeze performer in a Coney Island side show, who has married Howard Jeffries, Jr. (Jason Richards), against the wishes of Howard's millionaire father. In an effort to separate the young lovers, the father employs a blackguard named Underwood (Rockliffe Fellowes) to tell the young couple that each is unfaithful to the other.

Drunk and in a frenzy of rage, Howard seeks out Underwood, ready to kill him. But when he arrives at the villain's apartment, he finds that Underwood has already been shot. The boy stands there with a gun in his hand when the police arrive.

With all of the evidence pointing toward the boy's guilt, a situation is developed that promises to hold any audience tense throughout the performance.

### "BREED OF THE SEA" SOUTH SEA ISLAND STORY OF PIRATES

Pirates! The Java Sea! A beautiful, exotic island girl! A dying minister! A brutal, scheming trader! Out of these elements, FBO has woven a drama of the South Seas that is alike novel in theme, powerful in situation, gripping in action, delightful in romance and abounding in humor. The picture, "Breed of the Sea," which will be here Tuesday, is unquestionably one of the finest pieces of screen entertainment seen here in many months—a film that will thrill every member of an audience. Dominated by the compelling influences of Ralph Ince, who in addition to directing the production, plays the dual role of the twin brothers, one a missionary and the other a pirate, the picture is a marvel of characterization. Margaret Livingston plays the leading feminine role, that of the exotic island girl, to perfection, and there is a superb cast.

### GIRL KNOCKS OUT FIGHTER IN PLAY SHOWING WEEK-END

He tried caveman tactics on his sweetie but she was a little too rough for him. She clipped him on the jaw, knocking him down and out for the count. All of which doesn't sound serious until you realize that Joe Hennessey was to fight the middleweight champion of the world in less than a week and here was this supposedly weak woman able to accomplish what many a pug had longed to do! Mr. Hennessey then and there decided to forget all women and give his undivided attention to training for the big bout.

That's just one of the many angles disclosed in Clara Bow's new starring vehicle "Rough House Rosie" which reaches here at the week-end. The belle of Tenth Avenue, Rosie, is momentarily attracted to Arthur Russell, a wealthy young blue blood. Joe, of course, determines to win her back. Kid Farrell, his trainer, advises less politeness and more roughness. Naturally, a good fighter obeys his trainer and Joe determines to become a caveman. One night, when Rosie is getting ready to go out with Russell, her former fiance makes his appearance and intentions very clear. Equally as tough, Rosie allows her right hand to swing

# Changes its own Records

Plays twelve records without attention.—Runs itself for a whole hour. No operating effort on your part.—Just listen.

WHEN you turn on the current, the turntable starts to revolve; a mechanical "hand" takes the first record from the group of twelve and places it on the turntable; the tone-arm moves into position; the sound-box is lowered and the music begins. At the end of the selection, the mechanical "hand" removes the record from the turntable, slides it gently into a felt-lined concealed drawer, and "picks off" the next record from the magazine arm. These operations are repeated until the last record is played, then the mechanism stops automatically.

So magnificent an instrument demands an exterior of exceptional beauty. Victor craftsmen have designed a distinguished cabinet for the Automatic Orthophonic Victrola, in which every luxurious touch that ingenuity can devise has been incorporated. The price of the automatic instrument is \$775. Other models of the Orthophonic Victrola Instruments are obtainable at prices ranging from \$790. down to \$115. Obtainable on convenient terms from "His Master's Voice" Dealers. Demonstrations now going on. If your dealer hasn't one he will order it for you.

### PRETTY WEDDING TOOK PLACE ON SATURDAY

Miss Edythe Turtle of Vancouver Becomes Bride of F. M. Fitzgerald

A pretty wedding took place Saturday evening at the United Church, Rev. A. Wilson officiating, when Miss Edythe Turtle of Vancouver became the bride of F. M. Fitzgerald, Fifth Avenue West. The bride, who was given away by Patrick Doherty, looked very pretty owned in an orchid French beaded gown with hat in harmonizing colors and carrying a bouquet of carnations and roses. The witnesses were Mr. and Mrs. Doherty. After the ceremony a reception took place at the home, 852 Summit Avenue, where Mr. and Mrs. Fitzgerald will in future reside.

### Ten Years Ago in Prince Rupert

DECEMBER 12, 1917. Both political parties in the federal election campaign here are angling for the Labor vote.

Sergeant Major Jimmy Robinson, Walter Shaw and J. Roberts were speakers at a meeting in the Carpenters' Hall last night. S. D. Macdonald, president of the Trades & Labor Council, was in the chair.

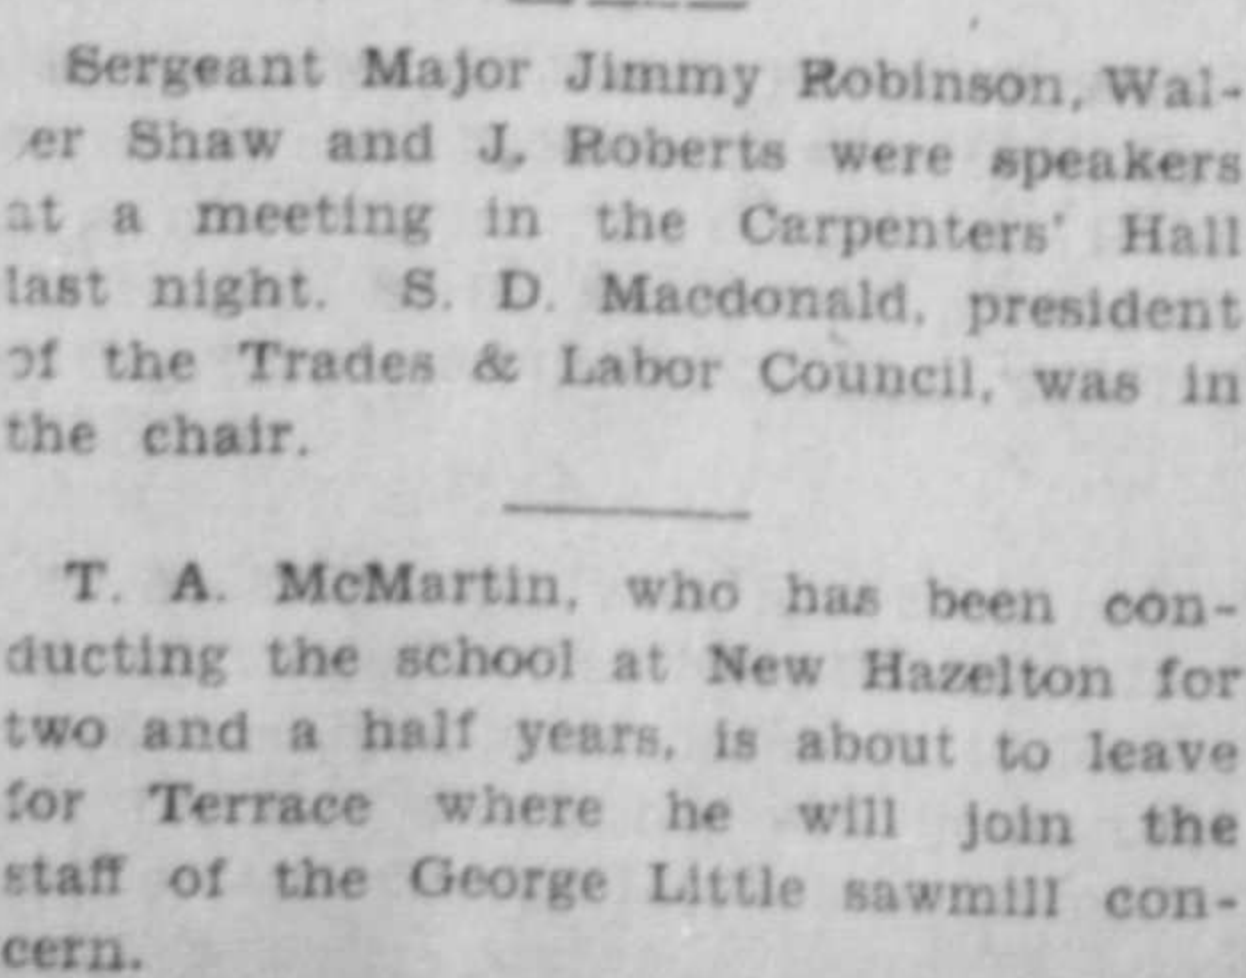

T. A. McMartin, who has been conducting the school at New Hazelton for two and a half years, is about to leave for Terrace where he will join the staff of the George Little sawmill concern.

### "BROADWAY NIGHTS" IS FROM MUSICAL COMEDY

The plot of the photoplay "Broadway Nights" here Wednesday and Thursday concerns itself with the mating and mission of two vaudevillians, whose ambition is to become the stars of Broadway. How the husband gambles away his future and the wife places her's, and that of her child's, in the hands of an understanding musical comedy producer, and in the end triumphs not only on the stage but in the little theatre of her own private affairs, will, forms the theme of the vivid tale. It is the atmosphere of the piece, however, that is its most unique feature. Backstage on the Broadway boards, behind the kitchens of night clubs and the underworld of New York's "Hell's Kitchen," are all pictured with striking color and authenticity.

### IN MEMORIAM

In loving remembrance of Ella Constantine Cax, who died December 12, 1926. "Safe with the ransomed, her suffering all o'er; Anchored so soon on that beautiful shore; Who would recall her to share in the strife Of suffering and toil in the battle of life. "Better in Heaven, far better than here; Only we miss her,—we loved her so dear!"

Inserted by her father, mother, brother and sisters.

### HOTEL ARRIVALS.

### SPECIAL CHRISTMAS SAILING FOR SOUTH

In order to accommodate those desiring to go south for Christmas, Canadian National Steamships announce that the ss. "Prince Rupert" will sail southbound Thursday, December 22, at 10:00 p.m. instead of on the regular schedule Friday morning. This boat will arrive Vancouver 9:00 a.m. Saturday, December 24, making connections with boats and trains for Victoria and Seattle.

In order to perform this service, this steamer will sail for Anyox and Stewart at 4:00 p.m. Wednesday, December 21, instead of the usual sailing hour of 10:00 p.m., returning from the North, arriving here 7:00 p.m. Thursday, December 22.

Accommodation on southbound sailing is fast being taken up, and it is suggested those going South make reservations early at City Ticket Office, Third Avenue. Phone 260. 298

# They save the tires and they

## OUTWEAR any tire chains you ever had

### GOODYEAR rubber Tire Chains overcome all the objections to ordinary chains. Rubber cross links is the answer. They are saving of tires. The broad, rubber cross links guard against cutting or bruising of the tire tread and give valuable protection to the side-walls. They're quiet. So quiet you can leave them on all the

time. They outwear several sets of metal chains. And yet how they grip. They have the famous All-Weather Tread design magnified for greatest effect. They pull like a tractor through mud or snow.

Now Goodyear Selected Dealers have ample stocks and can supply Goodyear Tire Chains for any size of tire.

Made by the Makers of Goodyear Tires

**LADIES' GUILD OF UNITED CHURCH AT TERRACE ELECTED**

TERRACE, Dec. 12.—The Ladies' Guild of Knox United Church held its annual meeting Thursday. A summing up of the year's activities showed a very creditable record of work accomplished. It has been chiefly due to the efforts on the part of the ladies that the interior of the church has been made so attractive and comfortable. Considerable repair work has also been done to the mission house, adding much to its comfort.

The officers elected for the coming year were as follows:  
President—Mrs. (Rev.) Wm. Allan.  
Vice-president—Mrs. Robert Christie.  
Secretary-Treasurer—Mrs. Wm. Kirkpatrick.  
Work convener—Mrs. Scaman.

Following the business meeting the ladies were joined by their husbands and all partook of a sumptuous supper served by the guild members in the church.

**CHRISTMAS CHEER FUND DEVELOPING**

Handsome Present of Fur Coat Given by W. Goldbloom

Extending their efforts to the utmost in behalf of their Christmas Cheer Fund, the local lodge of Elks have secured from W. Goldbloom a handsome fur coat which they have arranged to give away to a ticket holder at their "Omega Dance" for 1927. Once the committee made known the fact that they had this fur coat the demand for tickets commenced and the members of the lodge have been kept busy supplying their friends favorite tickets. It is

pleasing to know that all the money that people are able to spare for the Elks' Christmas cheer fund, is used only for this purpose, and the Elks would like to have them purchase all the tickets they can afford, and help to spread a little cheer and make life seem less bitter for those that need it most. This is a worthy cause and deserve the unselfish support of the citizens.

**BURNS LAKE**

A daughter was born at the Burns Lake Hospital last Tuesday to Mr. and Mrs. R. Macdonald.

William Leverett had the misfortune to break his ankle, as a result of which he will be laid up for several weeks.

Leonard Kerr is now staying with the J. McKenna family and it attending school in Burns Lake.

A. R. Brown is improving and finishing his building opposite the railway station which will be occupied by the Burns Lake Garage pending the construction of a new garage.

District visitors in town during the week included Ed. Sattler and Gus Bjorkbom of Burns Lake.

**TERRACE**

Owing to very severe weather the monthly meeting of the Parent-Teacher Association was not held on last Thursday evening, the regular meeting night.

Orval Kenney left on Thursday to spend a few days in Prince Rupert.

W. Cassell returned on Thursday from Smithers.

Invitations have been issued by George Little for an old timers' dinner to be held in the Terrace Hotel on New

Year's Eve at which all male residents who have been twenty years or more in the district are to be his guests.

R. Davie of the firm of Adlbert and McCaffery, Prince Rupert, was a business visitor here at the week-end.

F. Kelso visited in Prince Rupert at the end of the week.

**In The Letter Box**

**SLOGAN AND PROGRESS**

Editor, Daily News:

Allow me to congratulate Mr. Linzey, through your columns, on his reference to the "Pacific's Priceless Peerless Port" (non-alcoholic).

I had intended putting in my contribution, "Prince Rupert, Canada's Dearest Spot," and slept over the idea. Luckily with the morn came reflection and I realized with a start that firstly; I would have the impeccable authority of Dominion statistics; secondly, I would have formed a very dangerous habit of publicly speaking my private opinion; thirdly, some quickwitted individual might formulate the charge that the pert sloganer went sloganing with his tongue in his cheek; and fourthly, I recollect that, about three years ago you published excerpts from a letter to a local lady from a correspondent who had visited her that particularly bright and sunny summer, in which reference was made to the scenic and economic advantages which were so obvious that the labors of a manufactured slogan would never be needed.

Personally, I am of this opinion—a slogan is not, and never will be a means to an end in the matter of Prince Rupert's imperial destiny. It would be a case of gliding the lily and painting the rainbow. I use the words "imperial destiny" with the fullest comprehension of

**Man in the Moon**

THE superiority of man is challenged. It is pointed out that a man cannot drop a few cunees of silk over his head and call himself dressed.

WIVES do not need bending exercises. They usually have to pick up after their husbands.

ENGLAND is called the tight little island but the people who come from there do not get tight oftener than other Canadians.

MEN are created equal and do not begin to feel superior until about the end of the first year.

PARLIAMENT is to open in January. We should then get a blast of hot air if the weather does not moderate in the meantime.

JUST take a look at Ottawa  
And hear the members spout  
They're sure to make a lot of noise  
With little to talk about.

Just take a squint at Ottawa  
And see Mackenzie King;  
He sits in his seat and looks around  
And never does a thing.

But peek once more at Ottawa  
For Bennet will be there  
To whit in line the Tory host  
And of talking do his share.

Yes, one last look at Ottawa  
With Brady in his seat,  
Trying to catch the speaker's eye  
Or hand outstretched to greet.

TWO gentlemen of color had just done violence to the hencoop of a white neighbor, and the posse was in hot pursuit as they looped down the road, each with a chicken under the arm.

"Rastus," remarked one, "what's dem bumblebees doin' hanging aroun' an' buzzin' aroun' us dis-a-way?"

"Dem ain't bumble bees," explained Rastus. "Dem's buckshot!"

**SPORT CHAT**

Events scheduled for the week are as follows:

Monday (tonight)—Cribbage League: Grotto vs. Canadian Legion; Loyal Orange Lodge vs. Native Sons of Canada; New Empress Hotel vs. C.N. Operators; Prince Rupert Hotel vs. C. N. Mechanics; St. Andrew's vs. Moose; Knights of Columbus vs. Cold Storage.

Tuesday—Ladies' Whist: Moose Ladies vs. Orange Ladies; Canadian National Ladies vs. English Ladies. Billiards: Grotto vs. Cold Storage. Basketball: Junior League, Tuxis Boys vs. Stars; Intermediate League, High School vs. Elevator; Senior League, Elks vs. Grand Terminal.

Friday.—Basketball: Ladies' League, High School vs. Drill Team; Intermediate League, Elevator vs. Big Four; Senior League, Grand Terminal vs. Native Sons of Canada.

With the exception of the Cribbage League, first half of the season schedules for all indoor winter sporting organizations will come to a close to-

night after a fall season which has been generally most successful. Outstanding in all interest, of course, have been the activities of the basketball leagues but in all the prospects for the second half of the season are most bright. There are many stories that have yet to be told and their telling promises to be most interesting. In few branches have the season's honors been firmly grasped as yet and it looks as if there will be many a hot contest before this is done. The first half of the ladies' whist league and the billiard league will close tomorrow night while basketballers will be through on Friday until after the holiday season. Men's whist league closed last week and the cribbage league will be finished on Monday night of next week.

**COLD AT PRINCE GEORGE.**

Major M. A. Burbank, division engineer for the Canadian National Railways, returned to the city on last night's train from a trip up the line on official duties. The weather was very cold throughout the interior, he reports. At Prince George, the thermometer descended to 46 below zero.

Fred Brooksbank, son of Mr. and Mrs. Arthur Brooksbank, Third Avenue, has joined the service of the Royal Bank of Canada here.

# Carefully Sorted

THE family bundle is immediately sorted in our plant into its different fabrics and colorings. In this way we are able to use the proper wash room formula for each kind of material in your washing. Possibly this is one of the main reasons why laundry-washed clothes last longer.

## MINES REPORT ENCOURAGING

Hon. William Sloan Issues Detailed Statement Regard to Metalliferous Output

**INCREASED PRODUCTION**  
Optimistic Outlook For Coming Year in Prospect of Better Prices

VICTORIA, Dec. 12.—Increased mineral production in British Columbia in the year 1927—a production exceeding that of any previous year in the history of the province in point of actual tonnage mined—is shown in the summary of mining operations just compiled by the Provincial Department of Mines and issued under authority of Hon. William Sloan, minister of mines.

Due, however, to lowered metal prices the gross value of the mineral production is estimated for the full year at approximately \$62,142,340 as compared with \$67,188,842 in 1926, the previous record year. This drop in gross value is, therefore, not due to lessened production but to the decline in prices experienced during the present year.

Actual production in the aggregate has increased as is shown by the fact that the 1927 estimated output if valued at 1926 metal and mineral prices, would be worth about \$70,000,000.

The summary, compiled by John D. Galloway, provincial mineralogist, es-

### IN PROBATE

#### IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Administration Act; and

In the Matter of the Estate of George Clifford Adolphus Wilson, Deceased.

Intestate.

TAKE NOTICE that by order of His Honor, F. McE. Young, the 1st day of December, A.D. 1927, I was appointed Administrator of the estate of George Clifford Adolphus Wilson, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 3rd day of January, A.D. 1928, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

NORMAN A. WATT,  
Official Administrator.

Prince Rupert, B.C.  
Dated the 3rd day of December, A.D. 1927.

Estimated the tonnage of metalliferous ores that will have been mined and treated during the present year, will amount to about 5,000,000 tons as compared with 4,775,073 tons in 1926. The effect of lowered metal prices will be, to somewhat decrease profits and dividends, but the value of the industry to the province is in the distribution of money in wages, supplies, transportation services, etc. and in this there has been no diminution during 1927. By treating larger tonnages, and thereby lowering costs, some of the mine managements have been able, in part, to offset the decreasing of profits due to lower metal prices.

### INDUSTRY HEALTHY

The report shows the healthy state of the industry in British Columbia in recent years exemplified by the steady increase in output of minerals, regardless of fluctuations in metal prices or other untoward features. During the present year a few silver-lead properties have curtailed or suspended operations owing to low metal prices, but the lessened production from this cause has been more than offset by increases from others.

The following table shows the estimated mineral production for 1927 compared with the actual figures of production for 1926:

| Product              | Quantity     | 1926         | 1927 |
|----------------------|--------------|--------------|------|
| Gold, lode, oz.      | 291,427      | 172,000      |      |
| Silver, oz.          | 10,748,536   | 11,350,000   |      |
| Copper, lb.          | 89,339,768   | 87,500,000   |      |
| Lead, lb.            | 263,023,937  | 293,000,000  |      |

| Totals               | \$67,188,842 | \$62,142,340 |      |

These figures, Mr. Sloan points out, show that quantity increases were made in silver, lead, zinc and coal, and decreases in gold and copper. Owing to lowered metal prices a decreased production value is recorded for silver, lead and zinc, notwithstanding increased quantity outputs of these metals. The estimated coal production shows an increase of nearly 140,000 tons, which is satisfactory considering the extreme competition of American fuel oil which this year has been selling at a lower price than ever before. The

### LAND ACT.

#### NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Prince Rupert Land Recording District and situated on the southwest corner of an unnamed bay on the south bank of Port Chanal, Graham Island, Queen Charlotte Islands, in the Province of British Columbia.

TAKE NOTICE that Arthur Robertson, of Massett, B.C., occupation a lumberman, intends to apply for a lease of the following described lands:— Commencing at a post planted about one chain westerly from the mouth of an unnamed creek flowing into an unnamed bay on the south bank of Port Chanal, Graham Island, Queen Charlotte Islands, Province of British Columbia; thence 4 chains southerly; thence 10 chains easterly; thence 4 chains northerly to the shoreline; thence following the shoreline to point of commencement, and containing 3 acres, more or less.

(Signed) A. ROBERTSON, Applicant.

Dated October 6, 1927.

### IN PROBATE

#### IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Administration Act; and

In the Matter of the Estate of Robert Rudd, Deceased, Intestate.

TAKE NOTICE that by order of His Honor, F. McE. Young, the 1st day of December, A.D. 1927, I was appointed Administrator of the estate of Robert Rudd, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 3rd day of January, A.D. 1928, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

NORMAN A. WATT,  
Official Administrator.

Prince Rupert, B.C.  
Dated the 3rd day of December, A.D. 1927.

Increase in coal production is general in all the coal districts of the province.

Mr. Sloan also points out a slight decrease is shown in the estimated value of structural materials produced, but final revised figures may alter this. The increase in value of miscellaneous minerals is accounted for by the output of some \$5,000 tons of pyrite by the Britannia Mining & Smelting Company.

Average yearly metal prices for 1926 and 1927 (last two months of 1927 being estimated) were as follows:

| Description           | 1926   | 1927  | Decrease |
|-----------------------|--------|-------|----------|
| Silver (New York) oz. | 62.107 | 56.10 | 9.6      |
| Copper (New York) lb. | 13.795 | 12.87 | 6.6      |
| Lead (London) lb.     | 6.751  | 5.25  | 22.2     |
| Zinc (London) lb.     | 7.409  | 6.30  | 16.2     |

An encouraging feature is pointed to by the minister of mines in the fact that the present time prices of the metals have commenced to advance slightly and he believes that 1928 will open with a promise of somewhat better average metal prices than prevailed during the last half of 1927. Metal production throughout the world has been slightly curtailed during the closing months of 1927, with the result that metal stocks are comparatively low, and as prices are dependent on supply and demand any lessening of production soon causes an advance in prices.

### GOLD PRODUCTION

There was a reduction in the value of placer gold produced in 1927 as compared with 1926 of \$105,000. The principal placer camps are in the Atlin and Cariboo Districts; in the former output has been normal or somewhat better than in 1926 but a heavy drop took place in the Cariboo output. During the year Kafue Copper Development Company's dredge, operating near Barkerville, made virtually no production, as all season it was engaged in digging its way from Antler Creek to a new area on Cunningham Pass Creek. This work is completed and production will commence again in 1928. The Cedar Creek Company made a much smaller production than 1926, but extensive testing of the ground was done and it is expected that next season production will again assume normal proportions.

Much testing of placer ground was carried out and some equipment installed in the Similkameen Division where production was again quite small but the results of development may materialize in 1928.

The decrease in the production of lode gold is due in part to the closing down of the Belmont-Surf Inlet mine, which formerly made a substantial output, and slight decreases from a number of other producers. A considerable part of the gold production comes as a by-product of copper and silver mining and is subject to yearly variations, according to the grade of ore treated. The report intimates that no great increase in gold production is to be expected in the immediate future, but a number of satisfactory developments have taken place during the year. The Pioneer and Coronation mines, in the Bridge River section; the Yankee Girl and Goodenough; near Ymir, and the Engineer mine at Atlin, are all expected to contribute larger outputs in 1928.

### INCREASED SILVER OUTPUT

The production of silver in 1927 is estimated to show an increase of over 600,000 ozs. over 1926, but owing to a lower average price the value of the output will be about \$300,000 less than in the previous year. British Columbia, it is expected, will maintain again this year the position won in 1926 of being the leading silver producing province of Canada. The bulk of the silver production comes from the Sullivan and Premier mines, but numerous mines throughout the province contribute. There are few straight silver mines in the province, most of the production coming from complex sulphide ores yielding gold, copper, lead and zinc, as well as varying amounts of silver. The outlook for increased silver production, Honorable Mr. Sloan believes, is excellent, as several silver-lead-zinc properties, which are now being equipped with concentrators, will commence operations next year.

### COPPER OUTPUT CUT

An estimated decrease of 1,339,768 lbs. in the copper output for the year as compared with that for 1926, is looked for, a decline somewhat surprising in view of the fact that the three big copper mines—Anox, Britannia and Copper Mountain—all will have mined and milled somewhat larger tonnages than in 1926. The explanation is that slightly lower grade ore was handled, but it is possible that final figures will show production to have been somewhat higher than estimated, through the record production of 87,800,000 lbs. in 1926 will not be reached. It is the history of nearly all low grade copper mines that increased tonnage means lower grade of ore, but the lowering of costs generally more than compensates for this, points out the Minister of Mines. The regular copper producers are expected to maintain their present rate in 1928, but no large additional output is expected. Several mines now being developed are turning out quite satisfactorily, but it will probably be two or more years before they will be equipped to commence production.

### LARGE INCREASE IN LEAD

The 1927 output of lead is estimated at 293,000,000 lbs. as compared with 263,023,937 lbs. in 1926, an increase of 30,000,000 lbs. or over eleven per cent. This enormous production of lead—about ten per cent of the total world output—comes largely from the Sullivan mine of the Consolidated Mining and Smelting Company of Canada. Lead production, in the Slokan and Ainsworth divisions, was somewhat curtailed this year, but this was partially offset by a greater production from properties in the northern parts of the province. During the year much development and equipping of properties with mills has been carried out in the

# FORMER LOCAL SOLDIER DIES

**Wilhelm Isadore Thams, Late of Prince Rupert, Succumbs in Military Hospital at Vancouver**

Wilhelm Isadore Thams, a former resident of Prince Rupert and Usk, died at Shaughnessy Military Hospital, Vancouver, last Thursday, from the effects of wounds sustained during the Great War in which he served with the 197th Battalion. It was two or three years ago that deceased went south to receive treatment at the military hospital. He was at one time janitor in the Daily News office as well as for the Metropolitan Building.

The late Mr. Thams was fifty-seven years of age and served as a private in the War. Besides his widow, he is survived by three sons—John Watson Thams of South Africa, William Isadore Thams of Edinburgh, Scotland, and Johnston Lockhart Thams of Vancouver.

The funeral took place this afternoon from the chapel of the Independent Undertakers in Vancouver. Rev. Dr. MacLaren officiating.

# Was Subject to BRONCHITIS Every Winter

# JAZZ FOODS CONDEMNED

**Warns Council of Women Against Weakening the Body**

EDMONTON, Dec. 12.—What Dr. Ghosley of this city calls "Jazz Food" was denounced by him when addressing the Local Council of Women. He said that it is a common practice for girls lurching down town to satisfy their appetites with pastry, ice cream and such food. "It weakens the body and leads to a desire for whiskey and for the 'jazz life.' People must learn to use simple, more natural foods. Sugar is the gasoline of the body. It produces nervous force, but does not build up the body. Girls who indulge in 'jazz foods' become subject to tuberculosis, inebriacy and nervous trouble.

He quoted an Austrian doctor to the effect that smoking among the women of Europe had become such a problem in the deterioration of the European races that, unless the country can take steps to put a stop to it, it will be the greatest factor in race suicide. The use of tobacco, he pointed out, produced sterility.

Indulgence in liquor was also decried. In this connection Dr. Ghosley referred in a general way to the results as he had observed them. He felt satisfied that the use of liquor by girls and women was largely due to the influence of men. He had been told by girls that if they did not drink the liquor brought in flasks by their escorts, they spoiled the party. It is startling how much drinking is going on among girls, he said. These things lead up to other problems pertaining to morals and the public health, which are not being handled satisfactorily. Very little effort is being made to cope with particular problems.

# URGES TEACHING OF ASTRONOMY IN SCHOOLS

OTTAWA, Dec. 12.—In an illustrated lecture by Dr. H. M. Aml, president of the Ottawa Centre Royal Astronomical Society of Canada here recently, teaching of astronomy in schools was advocated. Dr. Aml pointed to the need of the younger generation acquiring a knowledge of astronomy.

Dr. Aml lectured on the total eclipse of the sun as witnessed by him in England last June. He asserted astronomy went hand in hand with industry, and for that reason young Canadians should have a sound foundation for their work in later years.

Dr. Aml said some inducement should be extended to Canadian scientists so they would not need to seek more remunerative positions abroad.

# COLOR OF SNOW IS UP FOR DISCUSSION

TORONTO, Dec. 12.—"Snow is not white; it is pink and blue and red and yellow." So said C. W. Jeffreys, the Canadian artist, in a talk given to the Toronto Women's Press Club. He said that Canada's art has developed from the stage of self-consciousness and affectation to a more really interpretive and creative side. Art must spring out of the expression of the life of the country and must show individuality. It was near-artists and near-critics who killed art. There was beginning to be real self-expression in Canada.

# BRITISH COLUMBIA

The Mineral Province of Western Canada  
 To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,599,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF \$988,108,470.  
 PRODUCTION FOR YEAR ENDING DECEMBER, 1926, \$67,188,812

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES,  
 VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.
