TERRACE, Dec. 3.-J. K. Goron presided over the public meeting held on Friday evening in the lower G.W.V.A. Hall to ons der what action should be aken to provide a more adequate upply of water for the use of property owners in the municipality.

The present water system was installed by Geo. Little in 1912 to supply water for his sawmill.

t permission has been periodically given to business firms and private property owners to tan the line for domestic purposes, until there are about thirty-five constant users on the line, with the result that the supply is overtaxed during the dry season,

Mr. Gordon explained that the plan the commissioners wished to lay before the ratepayers was to buy outright the present water line, dam, reservoir and about an acre of ground at the site of the reservoir, together with the water rights now held by Mr. Little who had agreed to sell for \$2000. A well could then be dug at a place near the ball park where a plentiful supply of water would be assured, a pump installed and water forced into a reservoir in

a high part of the park, this nuxiliary system to be used during the dry season when the supbly at the dam was low. As finances permitted, it was

proposed to enlarge the system and thus the increasing demand could be taken care of.

After considerable discussion, as to system of financing and water charges Mr. Little's offer 39 was accepted and the matter was

The work of converting the power plant at Duthie mine from steam to electricity and improvement of conditions at the property generally has been proceeding at a rapid pace and, very shortly, a model camp should be the result. Boilers have been installed in the new powerhouse in the vicinity of Loon Lake and the installation of a 500 k.w. generator for supplying the property with electric light and power has commenced. A pole line has been erected to connect the power house and the mill and camp site, a distance of about half a mile. The capacity of the mill is increased from 75 to 100 tons daily with the installation of the additional machinery. Boarding and bunk houses to accomodate 100 men are in course of construction. There is also a new office building and foreman's residence. A big new strike was recently made in Duthie, the tunnel proving ore to be without a break for 250 feet and depth

## MINING WORK

John Willman and Others Disappointed Over Copper River Bridge

TERRACE, Dec. 3.—Captain John Willman of Usk was a business visitor here on Thursday and expressed considerable disappointment that the approaches to the Copper River bridge had not been completed this fall, thereby enabling him to take in machinery and supplies from Terrace to his mining camp near Usk, where he has over thirty men engaged. A small amount of work on these approaches would make it possible to cross on the new Copper River bridge and the supplies could then be taken in on sleighs regardless of the condition of the Skeena.

The completion of the provincial highway will aid greatly in the more speedy development of

TORONTO, Dec. 3 .- Three human skulls and a number of bones showing traces of quicklime were discovered by workmen engaged in clearing property preparatory to building a garage. The grueson find was made under a sodden piece of burlap sacking in the cellar of a partly razed house. Hair found clinging to one of the skulls may form a clue.

It is intimated that investigation will be made and that it will be extended to include records of the invesigation following the disappearance nine years ago of Ambrose Small, theatrical magnate, -Boston Transcript, of whom no clue has been found. deenite world-wide search.
