YUKON ICE BROKE UP LAST NIGHT

SUSPENSION OF VANCOUVER CHIEF IS RATIFIED BY CITY

Vancouver City Council Back Up Commissioner

Gives "Concurrence and Approval" to Request for Suspension of Chief and Detective Sergeant Until Inquiry Ends

VANCOUVER, May 10.—Despite the request of Mayor Taylor that the present inquiry into the charges affecting the police force be supplanted by a Royal Commission, the city council last evening unanimously expressed complete confidence in Commissioner Lennie and urged him to continue the investigation.

The action of the council came as a result of Lennie's threat to retire from the inquiry unless complete confidence was voted in him by the council, following that body's failure on Monday to endorse his interim report.

The council yesterday rescinded its resolution of Monday to referring back to the commissioner his recommendation that Chief Long and Detective Sergeant McLaughlin be relieved from duty until the conclusion of the inquiry and gave its "concurrence and approval" to his recommendation.

The recommendation has been forwarded to the police commission for action when it meets today to deal with it.

The Mayor announced that Detective Sergeant McLaughlin as well as Chief Long has applied to be relieved of his duties until the inquiry ends and these will be dealt with by the police board today also.

P. Burns has accepted the chairman-ship of the board of the new company with W. J. Blake Wilson as vicepresident and John Burns will continue to direct the company's affairs.

It is probable that the change is for the purpose of merging the company with the Canada Packers Ltd. as foretold in newspaper articles recently.

BREWERIES ARE IN TWO GROUPS

BERGER OF INTERESTS INCLUDE
SEVERAL WELL KNOWN BEVER-
AGE NAMES

VICTORIA, May 10.—A four million dollar brewery merger was announced today of the Silver Spring and Victoria Phoenix of Victoria, the Rainier Brewery of Kamloops and the Westminster Breweries of New Westminster, which Rainier bought a couple of years ago.

The merger will have a possible production of around a thousand barrels beer a day. It means that the brewing industry of the province is now controlled by two large groups.

As a result of the merger one prominent Victorian will receive half a million dollars for his holdings.

CONVOCATION OF UNIVERSITY

MISS JEAN SKELTON OF VICTORIA
GETS GOVERNOR GENERAL'S
MEDAL

VANCOUVER, May 10.—Students to the number of 224 are to receive degrees at the convocation of the University of British Columbia today at Point Grey. Jean Skelton of Victoria captured the Governor General's gold medal donated to the students heading the graduating class in arts.

B.C. ELECTRIC STOCK IS SOLD

ROTHERMERE AND CANADIAN INTER-
ESTS TAKE OVER PREFERRED
SECURITIES OF COMPANY

LONDON, May 10.—Shareholders of the British Columbia Electric Railway have received notification today from the company that various Canadian financial interests and Lord Rothermere, which recently joined their bids, had definitely accepted the preferred stock of the railway company on terms already announced.

FIRST STEP TAKEN MILL CONSTRUCTION AT PORPOISE HARBOR

A camp scow, the first item of equipment in connection with the construction of the Billmor Spruce Mills, Ltd. new sawmill along the railway track, six miles south of the city, was landed at the site this morning. In this the men will be housed pending the construction of camp buildings. The construction crew is already being taken on.

It is probable that the change is for the purpose of merging the company with the Canada Packers Ltd. as foretold in newspaper articles recently.

ROYAL BANK MANAGER
DIES AT VICTORIA

VICTORIA, May 10.—The death occurred here of Joseph Andrew Walker, 50 years of age, who retired three months ago as manager of the Royal Bank of Calgary and came here for his health.

McPHERSON IS CHOSEN
CRANBROOK LIBERALS

CRANBROOK, May 10.—F. M. McPherson of Cranbrook, president of the Liberal Association, was last night nominated Liberal candidate to contest the next Provincial election.

MINERS GOING TO INTERIOR

ABOUT FIFTY MEN NOW ON UNEMPLOYED LIST HERE BUT EARLY IMPROVEMENT EXPECTED

There has been a steady demand recently for miners from Hazelton, Smithers, Topley and the Babine, it is reported by James M. Campbell, local superintendent for the Employment Service of Canada. Men are being sent up the line almost every train.

The central interior has also been taking a number of sawmill and bush men.

The list of local unemployed now stands at fifty including quite a number of transients. Some men have been returning from Stewart where the mines have not been opening up quite as fast as might have been expected and where there is already reported to be a glut of labor.

With the new sawmill of the Billmor Spruce Mills Ltd. near the city under construction and a revival of mining activity at Stewart and other district camps, it is expected that there will be considerable improvement in the employment situation by the end of this month.

HALIBUT BOAT BURNS RESULT OF BACK FIRE

MILDRED II WITH 5,000 POUNDS
HALIBUT ABOARD LOST ON
WEST COAST

Word has been received here that Capt. C. Swensen and his crew of twelve men arrived in Ketchikan and reported the burning of the halibut schooner Mildred II, a Seattle boat owned by Martin Johnson, in Cordova Bay, west coast of Prince of Wales Island.

There was 5000 pounds of halibut on board.

The schooner was on her way to port. The valves had been sticking the day before and she had been backfiring occasionally. On the day on which she caught fire Captain Swensen had been wetting sacks and putting near the base of the engine in hope of making it as far as the Hunter Bay cannery in order to make the necessary repairs before coming into town.

The gasoline became ignited and the oil in the base also caught fire. Being unable to quench the flames, the men put out in a boat to the beach if not until the next day, however, that the fire reached the tanks, which then exploded.

The Mildred II was built in Tacoma eight years ago. She was one of the long-line class of boats, 31 tons net, and worth several thousand dollars. Captain Swensen and the crew have gone to Seattle.

EARTHQUAKE IN YUKON

DAWSON, May 10.—The earthquake accompanied by a low rumble which was heard at Dawson Tuesday afternoon at 5:35 was also reported from Granville, Quartz Creek and the district generally.

J. A. Morris sailed by the Prince George yesterday afternoon on a business trip to Anyox and Alice Arm.

DAWSON ICE BROKE 8.12

John Sundlin of Granville Was
Winner of \$7,000 Ice Derby
Prize

DAWSON, Y.T., May 10.—The breakup of the ice at the Dawson water front took place at 8.12 last night and the ice has been floating in a steady stream ever since.

The winner of the first ice Derby was John Sundlin of Granville, a small settlement on Dominion Creek, 50 miles from Dawson. Sundlin's guess was 8.15 p.m. on May 9. He will receive approximately \$7,000 as a prize.

The judges for the big event were the local manager of the Bank of Commerce, the manager of the Northern Commercial Co., and the chief accountant of the Leroy Mining Co.

ATKINSON CHOSEN IN
OPPOSITION TO BARROW

ABBOTSFORD, May 10.—At a Conservative convention for the Chilliwack provincial riding, William Atkinson, for 40 years a resident of the district, was chosen to oppose Hon. E. D. Barrow, minister of agriculture, at the forthcoming provincial election.

R. E. Allen, district forester, returned to the city on this afternoon's train from a trip to the Hazelton region on official duties.

Vic Foley Swings Too Low Thus Giving His Opponent, Kid Roy, a Longer Lease of the Championship

MONTREAL, May 10.—Leo (Kid) Roy retained the Dominion featherweight boxing title as a result of a foul in the sixth round of a scheduled twelve round bout, which was watched by 9,000 fans. Both fighters weighed in at 125 pounds.

It was the third battle between the pair, Foley having twice before challenged for Roy's title. The first bout was a draw, while Roy earned the decision in the second go.

In the fight last night the sudden termination came midway in the sixth round. Foley had the champion backed against the ropes. He pounded away and one of his swings, a straight left, caught Roy on the left groin and he sank to his knees in pain. The referee declared it a foul and awarded a decision to the champion, thus eliminating the Vancouver boy's chances of obtaining the title for some time to come.

Foley had the advantage in the first four rounds and Roy in the second and third, with the fifth about even.

When the fatal low swing landed Foley had just begun to force the fighting and his backers were getting excited over the prospect of a win for the eastern man.

DAILY EDITION

Thursday, May 10, 1928

THE NEW LUMBER MILL

Everyone will recognize the value to the city of Prince Rupert of the new lumber mill just being built by J. R. Morgan, W. E. Williams and associates at Porpoise Harbor. It will employ fifty men in addition to the men employed in the woods getting out logs and the extra transportation men that will be required in handling the output. It is so near to the city that it will be as useful as if it were within the city limits.

It is by the addition of such industries that Prince Rupert will gradually evolve into a large city.

LANE DWELLINGS

Only a few days ago the Edmonton city council refused an application for converting a garage into a dwelling because it was located on a lane and not on a main thoroughfare.

Prince Rupert has a number of lane dwellings and it is time the practice of building on lanes was stopped. The lots are small enough as it is. Such action tends to create slum districts and is not in the general interests of the community.

It is to be hoped that in future the building inspector and the mayor and council will set themselves deliberately against the building of houses or shacks fronting on lanes.

RIVALRY IN DIFFERENT SECTIONS

We have rivalry in the matter of sports and games, in business and in social circles. Why not have rivalry among the different sections of the city in the matter of cleaning and painting and making the district look well? Nothing enhances property values so quickly as a prosperous looking district.

Good work has been done this spring in bringing the muskeg under cultivation for garden purposes. Lawns have been planted and flowers are being set out, with the result that the change will soon become very apparent. Which section will show most improvement? Will it be Westview, Nob Hill, the district adjacent to Booth and King Edward Schools or across the creek and the Seal Cove neighborhoods? Each one is making a good showing.

NOBODY BEHIND E.D. & B.C.

Nobody seems to have been behind the E.D. & B.C. extension bill which was recently talked out when before the House of Commons. It died of neglect. Nobody wanted it badly enough to warrant proceeding. The Alberta government wants to sell and prospective buyers would rather not have the extension made except under their own direction as part of a well planned policy.

POLICY OF GUESSING

Recently Hon. T. D. Pattullo went east and while there he interviewed Sir Henry Thornton, Premier Mackenzie King and many others and this gave rise to much speculation as to what was his business. Correspondents of Vancouver newspapers, while admitting they do not know, have been making guesses as to his business.

The probability is that on his return either he or Premier MacLean will make an announcement after mature consideration. When big policies are being arranged it is just as well not to do too much talking.

OFFICERS FOR MUSICAL CLUB

MRS. MCINTOSH AGAIN TAKES PRESIDENCY AND MRS. DARTON VICE-PRESIDENT

SUCCESSFUL SEASON

DONATION OF \$25 MADE TO CENOTAPH FUND AND BALANCE STILL ON HAND

Mrs. R. L. McIntosh was elected president of the Prince Rupert Music Club at the annual meeting yesterday afternoon at the Japanese mission. Mrs. McIntosh came in especially for the meeting and was anxious that someone else should take the position but the members were insistent and she finally agreed to accept.

Other officers chosen were:

Vice-president, Mrs. Darton.

Sec-Treasurer, Mrs. Anderson.

Pianist, Miss Lennox.

Librarian, Mrs. Pullen.

Executive: Mrs. Marentette, Mrs. Muldoon, Mrs. Moore, Mrs. Blott and Miss Pearce.

In submitting her annual report Mrs. McIntosh spoke of the splendid programs they had had during the past year. She spoke appreciatively of the work done by the officers and especially of the secretary, Mrs. Anderson. She also mentioned the fine spirit existing in the club and prophesied an even more successful year than the last.

The secretary reported as follows:

"During the past season thirteen regular and two executive meetings were held with an average attendance of seventeen."

"We have been unfortunate this season in losing several very active members but this has been counteracted by new members being enrolled. At present there are 36 on the membership roll with 30 paid up members."

"The program given by the junior and senior students are worthy of special mention and reflect great credit upon the work of the teachers represented."

"Two special concerts were arranged by the club, one in St. Andrew's Cathedral in aid of the organ fund and one in Moose Hall in aid of the Ridley Home. Both were exceptionally good programs and I feel assured a real credit to the club."

"We have been fortunate in the organizing of the club orchestra which has made splendid progress and is a great asset to our club."

"I think I may say that our programs this past season have been of a very high order and show a great deal of work on the part of all who have assisted in any way, and although some may seem very ambitious, they have been splendidly interpreted and an inspiration to all present at them.—Lillian Anderson."

The treasurer's report showed that there was a bank balance of \$73.94 and cash on hand \$8.05 from which two outstanding checks are to be paid amounting to \$28.25 and a donation was made to the Cenotaph Fund amounting to \$5. This will leave a net balance of \$23.74 on hand.

Man in the Moon

The difficulty with our modern education is that it is no protection against the high pressure salesmen it produces.

A man's intelligence is judged by the things he does, the things he evades and the people with whom he associates.

The modern barber is much better than the old one. He no longer tells those half raising stories.

Jake says that Conservatism is the fear that the fruit will fall if you begin to prune the rotten limbs. But Jake always was saying things he did not know.

Jake also says that Liberalism is trying to grow good fruit on a decaying tree and there again he's wrong.

Possibly the modern schools will educate people who are leaving after a visit not to stand at the door and talk for half an hour while the host and hostess are shivering with the cold.

There's something radically wrong with a town that can't support a baseball league. What's the matter with Prince Rupert?

You can improve the quality of your geraniums by fertilizing and giving them a proper environment, but you can't make a geranium out of a thistle that way.

Many a mother worries if her hopeful does not lead the class yet very few class leaders ever become world leaders.

The man who is really doing something never worries much about the flies and mosquitoes that buzz around and try to impede his progress.

Ten Years Ago in Prince Rupert

MAY 10, 1918

J. T. Chawner Williams, inspector of fisheries, who has been ill for some time at his home in the south, arrived last night from Vancouver aboard the mission steamer Thomas Crosby which

- in BUSINESS

WHATEVER may be the medium of exchange—whether gold or silver—the real wealth of a nation consists fundamentally in energetic, industrious, thrifty men and women.

Canada's great natural possessions are being developed and utilized more and more, and the lonely waterfall furnishes light and employment, commerce and profit to Canadian men and women. Other nations desire the product of our fields, our mines and our factories, and pay for them in gold or in other commodities.

The progress of our people is fairly represented by the sum total of their savings; and the statements of our banking institutions reflect the successful efforts of men and women in the teeming cities, as well as those of the solitary ploughboy on the upland.

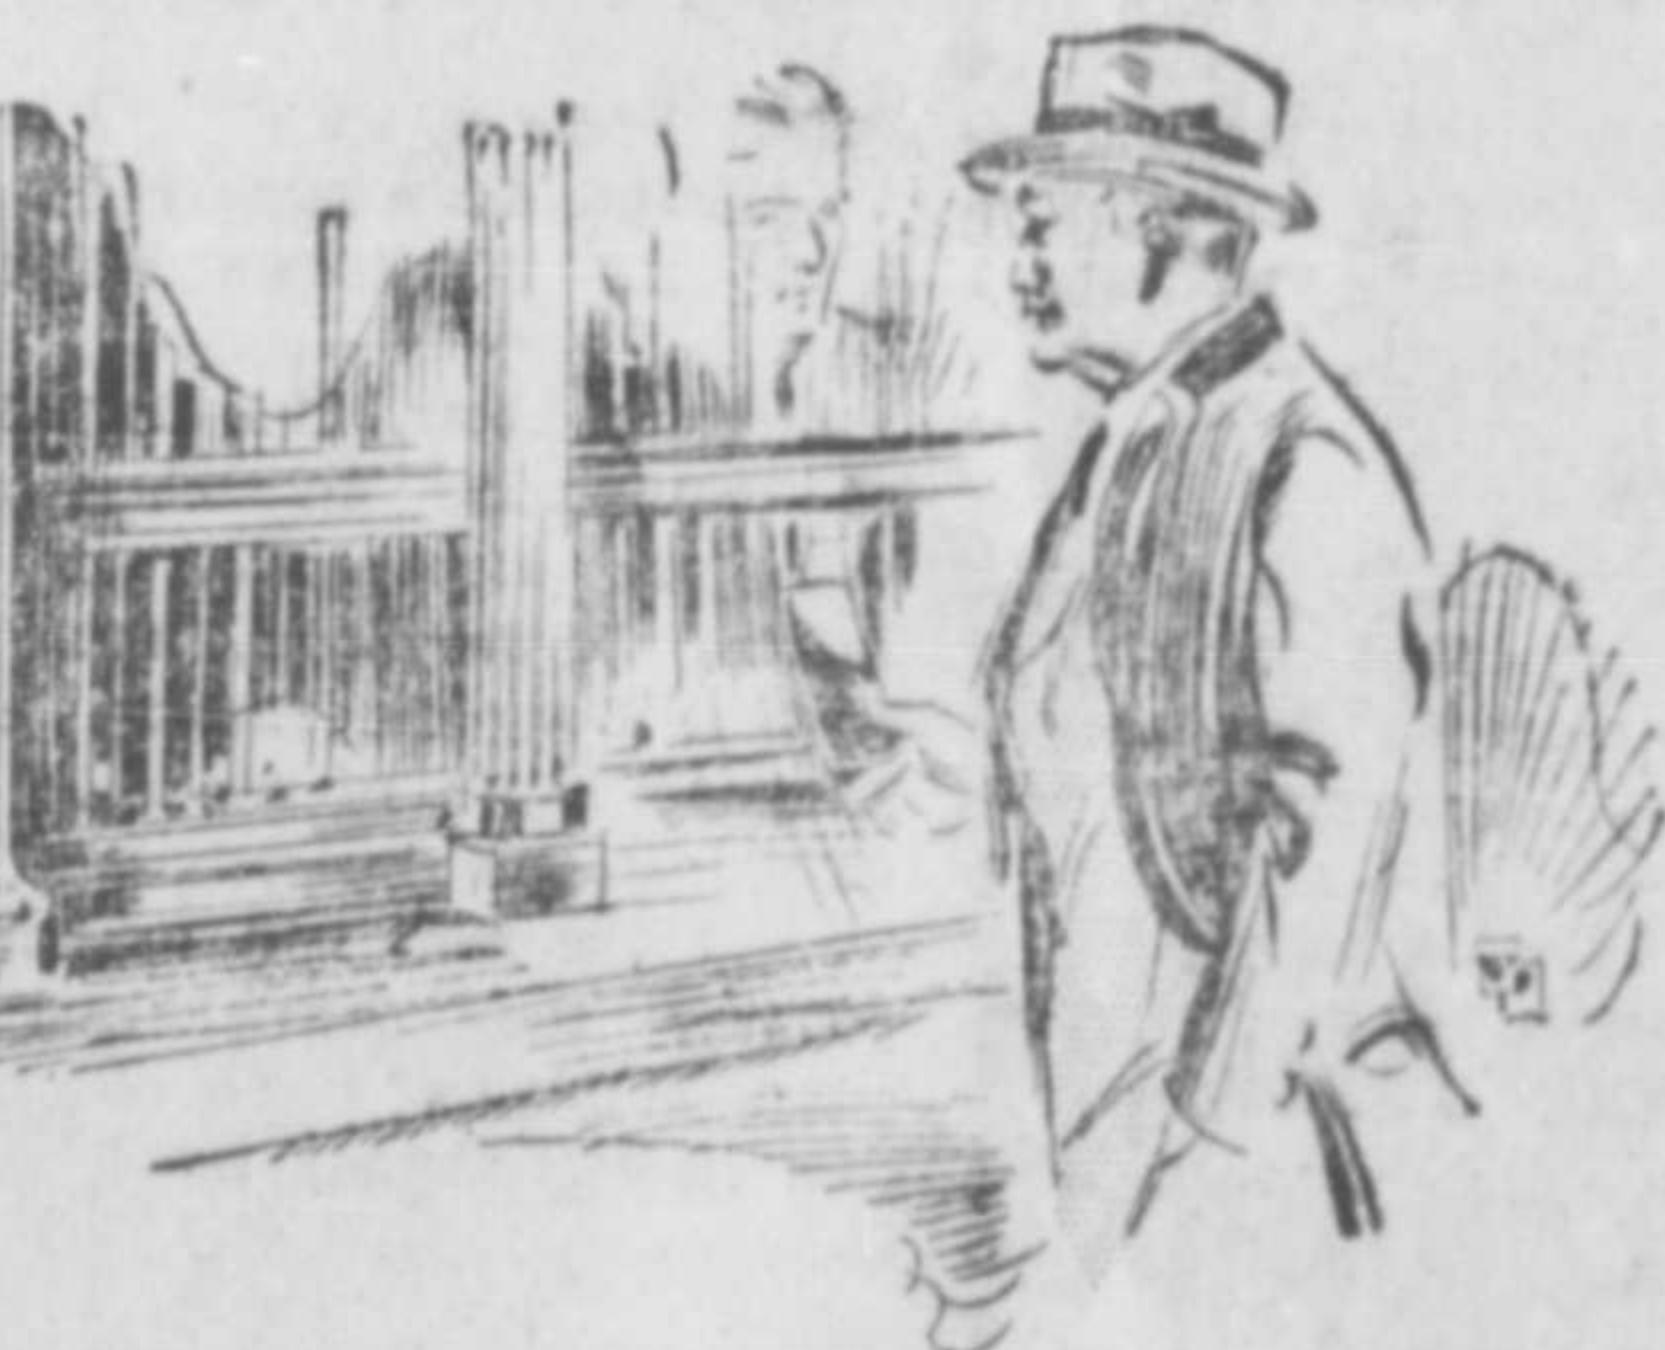

Power, therefore, as expressed by population, by cultivation of resources, by electric energy and that which makes it possible, is the mainspring of business.

BRINGING UP FATHER

TO DEFENCE OF PRINCE RUPERT

GEORGE MORROW WRITES TO OTTAWA NEWSPAPER PROTESTING AGAINST ATTACK ON ELEVATOR

George Morrow, a former resident of this city, and a part owner of the Prince Rupert Hotel, came to the defence of Prince Rupert recently at Ottawa when an attack on the local elevator was made by Dr. Manion, Conservative, in the House of Commons. The letter was published in the Ottawa Citizen as follows:

Editor, Citizen: On a recent visit to Ottawa I had the pleasure of spending an afternoon in the Members' Gallery and enjoyed the proceedings greatly, as the subject under discussion—that of "Baldy" Robb's release from prison—brought most of the "top notchers" into action with just enough heat to make it exciting.

A visit to the House of Commons in Ottawa is to the average British Columbian a rare treat as we are a long distance from home and Parliament only sits a few months of the year, so that our direct interest is somewhat different from that of people of Ontario, Quebec, and possibly Manitoba, while indirectly we pay our share at least for the general expense that is necessary to maintain the seat of government.

SAYS AN EXTRAVAGANCE

Among the speakers on the afternoon of my visit was the Hon. Dr. Manion of Fort William, Ontario. Dr. Manion is very well known through the press in British Columbia and I may safely say is very highly thought of by British Columbians of all shades and creeds; but greatly to my surprise in his criticism of expenditures he named the Prince Rupert elevator among the extravagant and useless ones. As we all know in British Columbia, Dr. Manion represents a city that largely exists on elevators. Surely the doctor is broad minded enough to realize that the fourth floor of the elevator is a pleasant visit and he will receive the same courtesy and kindness that has always been shown visitors. After this visit, I am sure, when the doctor's party comes into power and he is bringing down his estimates, Prince Rupert will receive the same consideration as Fort William, even should another elevator be required.—GEORGE W. MORROW, Vancouver, B.C.

happens in his port—and this season while this condition existed in Fort William, ten million bushels of grain passed through the Prince Rupert elevator.

I am going to ask Dr. Manion when his elevators are frozen up next season, or possibly he may have time yet this season, to pay a visit to Prince Rupert and see for himself a port that is open the year through; learn for himself what a wonderful port it is and see what has been accomplished there in a short time. I will assure the doctor a pleasant visit and he will receive the same courtesy and kindness that has always been shown visitors. After this visit, I am sure, when the doctor's party comes into power and he is bringing down his estimates, Prince Rupert will receive the same consideration as Fort William, even should another elevator be required.—GEORGE W. MORROW, Vancouver, B.C.

HOTEL ARRIVALS.

Prince Rupert

O. W. Pearson, Inspector Forbes from Crickshank, M. N. Kelly, Charles E. Horr, who reached the city Friday night to assist in handling the wheat of Alberta, while the doctor and his elevators are frozen up—which I understand

MORE BUFFALO GOING NORTH

TWELVE HUNDRED TO BE TRANSPORTED FROM WAINWRIGHT THIS SEASON

EDMONTON, May 10.—An additional twelve hundred buffalo will be moved from the Wainwright park to the Wood Buffalo preserve at Fort Smith this year, states D. H. Christie, of the Yukon and North-West Territories branch of the department of the interior.

FORT WILLIAM: Mr. and Mrs. B. Clark, This is the fourth year in which

yearling and two-year-old buffalo have made the long trip from Wainwright, and when the last scow-load had disappeared into the bush on the fall of this year, there will be a total of approximately 6,800 buffalo dispersing themselves in the lush grasses of the great natural preserve in the angle between the Peace and Slave rivers.

NO ANIMALS LOST

Mr. Christie has been in charge of the movement since its inception, and it is to his credit that this huge undertaking has been carried through, season after season, without a hitch and without any loss of animals.

There is a great amount of preliminary work to be done before the actual transportation commences. Suitable animals must be rounded up at Wainwright, and a complete chain built up for their care and transportation from point to the other.

Corrals have to be overhauled, hay stocks laid in the scows put in shape, and every detail of transportation arranged for, before the first migrant is loaded on the cattle cars on the first leg of the long trip.

WILL START IN JUNE

The movement will commence this year about the same date as the previous ones—the first week in June—and it will continue until the quota of buffalo has been reached for the year.

So complete have the arrangements been that it has been found possible to move over 2,000 animals in one season. This year's quota being considerably below this figure, there is not likely to be any hitch in carrying out this season's plans.

Superintendent Smith, of the Wainwright park, has charge of the round-up and shipping of the animals from Wainwright, the buffalo then being consigned to the care of the C.N.R. which railway arranges for transportation to the end of steel on the A. & G.W. railway.

Colonel J. K. Cornwall has again been given the contract for the water route and takes care of the animals on arrival at the end of steel, supervising the loading from the cattle cars into the river scows, and the unloading on arrival at Fort Smith.

WINNIPEG, May 10.—In the interests of the United Palestine campaign Rabbi J. L. Zlotnik, executive secretary of the Zionist organization in Canada, and Dr. Shmirey Levin, of Palestine, member of the world executive, will address a meeting tonight at Edmonton. They will then go to Saskatoon. They will meet with the Jewish people there on Sunday and Dr. Levin will return to Winnipeg, where he will remain until the following Saturday, proceeding then to Regina to meet Rabbi Zlotnik at the Western Canada Zionist conference which will be held at Regina on May 20 and 21. Delegates from all parts of Western Canada will attend the conference. Addresses will be delivered by both Dr. Levin and Rabbi Zlotnik.

FAVORS WOMEN CLERGY FOR ANGLICAN CHURCH

BISHOP WELDON JOINS DEAN INGE IN DECLARING WOMEN COMPETENT AS CLERGY-MEN

LONDON, May 10.—The disputation between high Anglican dignitaries regarding the admission of women to holy orders continues. Let it be said at once that the disputation is conducted with charity and dignity befitting the disputants and the subject. Dean Inge of St. Paul's Cathedral, has declared women competent to do all the work that the lower order of the clergy already do. Dr. Henson, Bishop of Durham, finds no reason for justifying so great a breach with the traditions of Christendom.

Bishop Weldon, Dean of Durham, the latest notable divine to voice his sentiments on the subject, says if ordination took place it must be guarded by strict safeguards. He could hardly believe that women like Florence Nightingale, and others who had done noble work in the religious life of the nation, would not have made admirable deacons and priests, and he believed that the time would come when ordination of carefully selected and disciplined women would be an accomplished fact.

It seemed to him to be idle to say that the function of women was to be good wives and mothers if there were millions of women who could not be wives or mothers at all. Not only was the number of women largely in excess of men, but marriage had become so expensive that many men shrank from it. He found it difficult to believe that if the State treated women on an equal basis with men the Church would always be able to keep them on a basis of inferiority. It seemed illogical that women should be admitted, as no doubt they would be, to the Cabinet, and yet be excluded from the diaconate. It seemed safer that women should make their confession to women than to men.

WINDOW SHOW AT MCRAE BROS. IS UNCANNY

THE NEWEST ORTHOPHONIC VICTROLA, THE AUTOMATIC, PLAYS ON AND ON WITHOUT ATTENTION.

IT'S ALMOST HUMAN

YOU ARE INVITED TO SEE AND HEAR THIS WONDERFUL INVENTION ANY TIME YOU LIKE.

The Automatic Orthophonic Victrola has come at last! An Orthophonic Victrola that changes its own records. An instrument that gives an hour or more of matchless Orthophonic reproduction of music. Changes records while you remain comfortably seated. Picks up twelve records, one by one, plays them in the succession you have arranged; puts them away again, and stops itself! No wonder everyone exclaims, "It's almost human!"

The first and most obvious advantage of the Automatic Orthophonic Victrola is that it gives you music of the same matchless quality characteristic of all Orthophonic instruments. The Tungsten needle seldom needs replacing. The silent electric motor eliminates winding. There is nothing to do but listen.

So this amazing instrument gives you perfectly reproduced music during dinner, bridge parties, dancing and other social affairs, without attendance for a whole hour. It is invaluable wherever music is desired. A program of operatic selections, a complete symphony, a piano or violin recital; or a balanced, varied concert program, arranged by you and played in the order, by the musicians, of your choice. This is the most important feature of the instrument. Its greatest value is its musical value, its performance is without a peer.

"Uncanny," "Almost Human," "The Poetry of Movement" are expressions already voiced by Rupert citizens. You are invited to see and hear this marvelous instrument at our store, any

PUBLISHED REPORT IS NOT CREDITED

No Change Made Yet in Plan to Take
Witnesses to New Westminster for
Sankey Trial

Provincial police headquarters here are not giving credit to the Canadian Press despatch which was published this week announcing that the jury from New Westminster would come north at the end of the month to hear the evidence in the Sankey murder case here instead of the many witnesses going south themselves to testify. Inspector Spiller stated this morning that his office had received no instructions to this effect and that, so far, no change was being made in the original plan of subpoenaing the witnesses to appear at New Westminster on May 28.

CHILDREN DROWNED WHITEFISH FLOODS

SUDSBURY, Ont., May 10.—Returning in a flat bottomed boat across flooded fields surrounding their school at Whitefish, three children, Alma Henderson, 12; Val de Kovikko, 11; and Leo Lujanen, 8; were drowned when the craft capsized. Five other children were rescued.

IRISH COINAGE NEARLY READY

FREE STATE MONEY WILL BE OF
SAME VALUE AS ENGLISH UP
TO HALF CROWNS

DUBLIN, Ireland, May 10.—A few months hence the people of the Irish Free State will begin to handle new coins intended to displace British coins in local circulation. The contract for minting was given to the London mint which has submitted Dublin the first strikings and now will proceed with production, beginning with silver coins.

The new coins will be of the same value as the British coins up to half-crowns, and no higher denomination will be coined at present. Provision has been made for a proportion of silver higher than that in British coins, in order to counteract any possible suspicion of the new coinage. The six-pence and the three-penny pieces will be of nickel, the new three-penny piece being the size of the British silver sixpence, but without any milling. Bronze coins also are being struck, but it will take a little longer to substitute these for the corresponding British coins.

HARP RETAINED

A committee of artists and numismatic experts was formed, with Senator W. B. Yeats as chairman, to consider designs, and the recommendations of the committee were accepted. The symbols and inscriptions were considered by the advisory committee after consultation with the Society of Antiquaries, who, while advocating the retention of the Irish harp, strongly opposed the use of hackneyed symbols such as round towers, sunbursts, and shamrocks. Seven selected artists in different countries, including Ireland, were invited to submit models in plaster, composition, or metal, and the committee's final recommendations were unanimous.

It is stated that the new Irish half-crowns, florins and shillings will contain as much as 75 per cent of fine silver and only 25 per cent of copper alloy, compared with equal proportions in the corresponding British coins. The six-penny and three-penny pieces will be of pure nickel. Pennies, half-pennies and farthings will be of bronze. Emblems of Irish industries, including agricultural animals, appear on one side of many of the new coins, and the Irish harp is represented on the other.
