PEACE STRONGLY URGED AT GENEVA OVER FOUR MILLION BUSHELS GRAIN SHIPPED THIS YEAR

Peace Between United States and Britain is Example Quoted Today

League of Nations Securities Commission Urged by British Delegate to Encourage Arbitration Treaties

GENEVA, February 20.—Disputes between Great Britain and United States during the past hundred years that might have resulted in war were amicably settled by arbitration, Baron Cushenden of Great Britain told the League of Nations security commission today in delivering an earnest appeal. He said that peace could be promoted either by multilateral treaties of conciliation and arbitration or by bilateral treaties.

Baron Cushenden pledged the help of Great Britain in the creation of such agreements.

SUBSTITUTE OPENED FIRE HOCKEY GAME

Pittsburg Won First Game Against New York American in Two Years

TORONTO, Feb. 20.—Leonard Grossman as Ottawa substitute, scored his first goal in major hockey Saturday to win the game for the Canadians. On the same day Pittsburg won the first game over the New York Americans in two years.

Three slipped back another notch by losing to Montreal.

The 10-end Chicago team spoiled Detroit's chances to tie with Pittsburg yesterday. Boston broke the tie for the American section leadership by defeating the Rangers.

The scores follow:

SATURDAY  
Canadians 6, Ottawa 1.  
Toronto 1, Montreal 2.  
New York Americans 0, Pittsburg 2.

SUNDAY  
Boston 2, New York Rangers 0.  
Chicago 2, Detroit 1.

CANADA MOST PROSPEROUS OF COUNTRIES

English Newspaper Says Budget One to Make Europeans Envious

LONDON, Feb. 20.—The Canadian budget is one of the kind that makes an Englishman's mouth water. "It is one more proof that Canada today is perhaps the most enviable country in the world," the Sunday Observer remarks. "Hon. James Robb must have introduced the budget to make European ministers envious."

MYSTERY OVER MAN PROMOTING RAILWAY TO THE PEACE RIVER

EDMONTON, Feb. 20.—Mystery continues to surround the actions of J. Stewart Clark who is living temporarily in this city and who last week made an offer of \$19,300,000 for the Edmonton-Dunvegan and B.C. Railway. He gave his address here as Medford, Oregon, but the Medford papers say he was there only temporarily.

It is suggested that probably Mr. Clark represents the Great Northern or some other American road seeking to tap the rich grain lands of the Peace River and northern British Columbia. While the plans of the proposed line show an outlet at Stewart on Portland Canal, it is expected that, if it should be built, it would first have its outlet at Prince Rupert, running rights over the C.N.E. having been applied for.

CANADA WON FIRST PLACE ICE HOCKEY

Never Had Single Goal Scored Against Them in Three Games Played

ST. MORITZ, Switzerland, Feb. 20.—Canada won the Olympic hockey championship defeating Switzerland thirteen goals to nothing. It was the third sweeping victory for the Canadians in the final series without a goal being scored against them.

Sweden won the second place, defeating Great Britain three goals to one.

MOTHER OF PROMINENT LOCAL BUSINESS MAN PASSES AWAY IN EAST

M. P. McCaffery, prominent local business man, received the sad intelligence by wire last night of the death of his aged mother, Mrs. Mary McCaffery, at her home in Groveton, New Hampshire. She had attained the ripe old age of ninety years and was predeceased many years ago by her husband. Another brother is Robert McCaffery, well known Prince George tie contractor.

Mr. McCaffery will have the heartfelt sympathy of many friends in his bereavement.

SLIPPED ON FLOOR OF WINNIPEG HOTEL AND DIED FROM FALL

VANCOUVER, Feb. 20.—James Gorman, superintendent of sleeping and dining car department of the C.N.R. western region, died instantly Sunday when he slipped on the floor in a room of a local hotel and struck his head heavily. He was 55 years of age.

Nearly Four and Half Million Bushels of Grain Shipped During Present Season from Local Elevator

Not including the steamer Ashby which is now loading and about ready to depart, something in the neighborhood of 4,365,675 bushels of grain has been shipped from Prince Rupert through the Alberta Wheat Pool's elevator on fifteen vessels since the present season started at the end of October. The local plant continues to sustain speedy handling records and some boats it has taken little more than a couple of days to load and despatch. In one or two cases, delay has been caused through grading of grain but this has been negligible. All grain from Prince Rupert so far this season has been consigned to the United Kingdom or Continent. In a short time, it is expected that some will be sent to the Orient. Following are the boats which have loaded here since the opening of the season:

- Fishpool (British), arrived October 29, sailed November 5, approximately 275,000 bushels.
- King James (British), arrived November 9, sailed November 15, approximately 275,000 bushels.
- San Francisco Maru (Japanese), arrived November 25, sailed December 5, approximately 275,000 bushels.
- Waraby (British), arrived December 6, sailed December 11, approximately 275,000 bushels.
- Alderby (British), arrived December 6, sailed December 20, approximately 275,000 bushels.
- Sheafmount (British), arrived December 15, sailed December 22, approximately 275,000 bushels.
- Ohio Maru (Japanese), arrived December 18, sailed December 28, approximately 275,000 bushels.
- Sydlund (Swedish), arrived December 20, left January 1, 345,000 bushels (Rotterdam).
- Teepool (British), arrived January 2, sailed January 10, approximately 275,000 bushels.
- Holmpark, arrived January 5, sailed January 13, 307,000 bushels.
- Levenpool, arrived January 9, sailed January 20, 280,000 bushels.
- Homer City, arrived January 23, sailed January 26, approximately 275,000 bushels.
- Swainby, arrived January 28, sailed February 1, 270,000 bushels (Feyal for orders).
- Sagoland (Swedish), arrived January 31, sailed February 11, 321,722 bushels (Rotterdam).
- Mabriton (British), arrived February 7, sailed February 15, 366,000 bushels.
- Ashby (British), arrived February 10, loading.

EQUIPMENT PURCHASED FOR NEW THEATRE TO BE ERECTED HERE AND SITE MAY BE EXTENDED

Misak and Paul Aivazoff, who are to erect a new theatre building on the south side of Third Avenue just west of Fulton Street, have purchased at a cost of some \$35,000 in Vancouver a pipe organ, moving picture machine, seats and other equipment for the structure according to word reaching the city. Negotiations are now in progress for an additional ten feet of frontage adjoining the present fifty feet on Third Avenue and it is expected they will be completed within a day or so. Misak Aivazoff and the architect for the building, which is to be proceeded with without delay, are expected to arrive in the city this week, possibly Wednesday, to launch the work.

HUNDREDS OF DUCKS LOSE THEIR LIVES FROM CRUDE OIL

COURTENAY, Feb. 20.—All along the shore in the neighborhood of Deep Bay, ducks are being killed in large numbers by crude oil being allowed to escape. It seems that when the plumage of the birds becomes saturated with oil it is no longer resistant to the cold water and the bird soon perishes. The dead birds are found scattered all along the beach.

All Records Broken in Auto Race When Car Reached Speed of 214 Miles an Hour; Average of 206

DAYTON BEACH, Florida, February 20.—Malcolm Campbell, British race track driver, yesterday drove a Napier Bluebird special at an average speed of more than 206 miles an hour and set a new world's automobile speed record. The former record of 203 miles an hour was made last year by Major Seagrave of England. Campbell hurled his car over the first mile in 16.76 seconds or at the rate of more than 214 miles an hour and a return mile against the wind at the rate of more than 199 miles an hour. He made an average elapsed time of 17.395 seconds or an average speed of more than 206 miles.

Earthquake at Seward May Have Blocked the Alaska Railway Further

Service Was Expected to be Resumed Today But Steamer Yukon Expected to Sail After Awaiting Re-opening of Road

SEWARD, February 20.—Heavy earth shocks swayed buildings at 10.48 yesterday morning. The tremor was felt for several seconds and may have caused additional snowslides in the mountains, it is thought here.

The Alaska railroad was expected to resume regular service tonight following interruptions due to the heavy snowfall of the past week.

Between Curry and Broad Pass, a stretch of 21 miles along the railway, snow drifts averaged from five to fifteen feet in depth and slides wiped out sections of the track.

The steamer Yukon, which has been held here two days awaiting the opening of the railway, expected to sail today.

No Sale Likely to be Made This Year of Provincial Lines on Present Basis

EDMONTON, Alberta, February 20.—With the rejection of the offers made so far for the E.D. & B.C. Railway and the Alberta and Great Waterways Railway, the Provincial Government is planning to proceed with the extension of these lines as planned and any deal that is made in future will have to include extension as projected.

The probability seems to be that no sale of the lines will be made this year unless there is some concern with good backing willing to pay a good price and give proper guarantees of operation and extension.

DEATH CLAIMS YOUNG MOTHER

Mrs. W. Cameron, Daughter of Mr. and Mrs. W. B. Morgan, Passes in Toronto

Many friends of deceased and her family in the city will learn with a sense of deep regret of the death which took place in Toronto at 2 o'clock yesterday afternoon of Mrs. W. Cameron, formerly Miss Gwen Morgan, youngest daughter of Mr. and Mrs. W. B. Morgan, 101 Hays Cove Circle. The end came under tragic circumstances after an illness of brief duration. Mrs. Morgan, mother of deceased, reached the bedside of her daughter only Saturday morning, having been summoned to Toronto early last week.

The late Mrs. Cameron, who was but 24 years of age, is survived, besides the widower, by three young sons. Prior to her marriage she lived in Prince Rupert for about two years with her parents and was quite well known and popular here.

The sympathy of their many friends will be extended to Mr. and Mrs. Morgan in their bereavement.

The funeral will take place in Toronto.

ASQUITH LAID TO LAST REST

Buried at Sutton Courtenay With Simple Rites and Few Present

SUTTON COURTENAY, Feb. 20.—Within one hundred yards of his home for the past sixteen years under an old yew tree close to the walls of the ancient parish church where he worshipped, the body of Lord Oxford and Asquith was laid to rest this afternoon. Utter simplicity marked the rites.

The Bishop of Oxford officiated and only members of the family and invited friends attended.

### FREEDOM OF PRESS

The freedom of the press is something that is often discussed. It is often claimed that the press is controlled and that is true. The press is largely controlled by its readers, curious as that may seem. All newspaper editors have their ears to the ground all the time in an effort to find out what their patrons want. They are not so much concerned with what a few scattered intellectuals want, what a few reformers want, what a few faddists want, as with what the great mass of the people want and are willing to pay for.

Primarily the newspaper is a commercial undertaking. It tries to print that which will sell. Circulation must be obtained as a first requisite. If the paper is conducted in such a manner that the people do not like it they soon express themselves through the business office and the editor hears about it. Ideals are all right, but the public will have what they want and they are the people who control. Writing in the Victoria Colonist on this subject a staff editor says:

"The truth of the matter is that the reading public is simple and child-like in its mental view of life. The average reader is not supremely interested in politics or politicians, although policies portrays the history of the country and the politicians are makers of that history. You hardly ever see the average reader reading editorials or report of parliamentary proceedings. The average reader prefers to read about the wonderful physical accomplishments of persons like Gene Tunney or the imaginary doings of 'Uncle Walt' and 'Little Orphan Annie,' not to mention the vulgar escapades of 'Mutt and Jeff' and 'Jiggs and Maggie.' The average reader likes to read about the doings of imaginary heroes, and Gene Tunney he considers not only a great physical hero but one of the most remarkable products of the age, for not only has he beaten into subjection all the maulers and bruisers who have dared to face him in the ring, but he has accumulated hundreds of thousands of dollars in the practice of his manly profession."

### BIG SPORT EVENTS JUST NOW

There are all sorts of big sport events going on just now. The Olympic winter meet at St. Moritz has been one of the most important but in Prince Rupert much interest seems to have been taken in the English and Scottish cup ties. Then there are amateur hockey championships and events in other lines of sport that interest people here.

The Oxford and Cambridge boat races come along soon and the turf season in the Old Country commences with a big list of classic races.

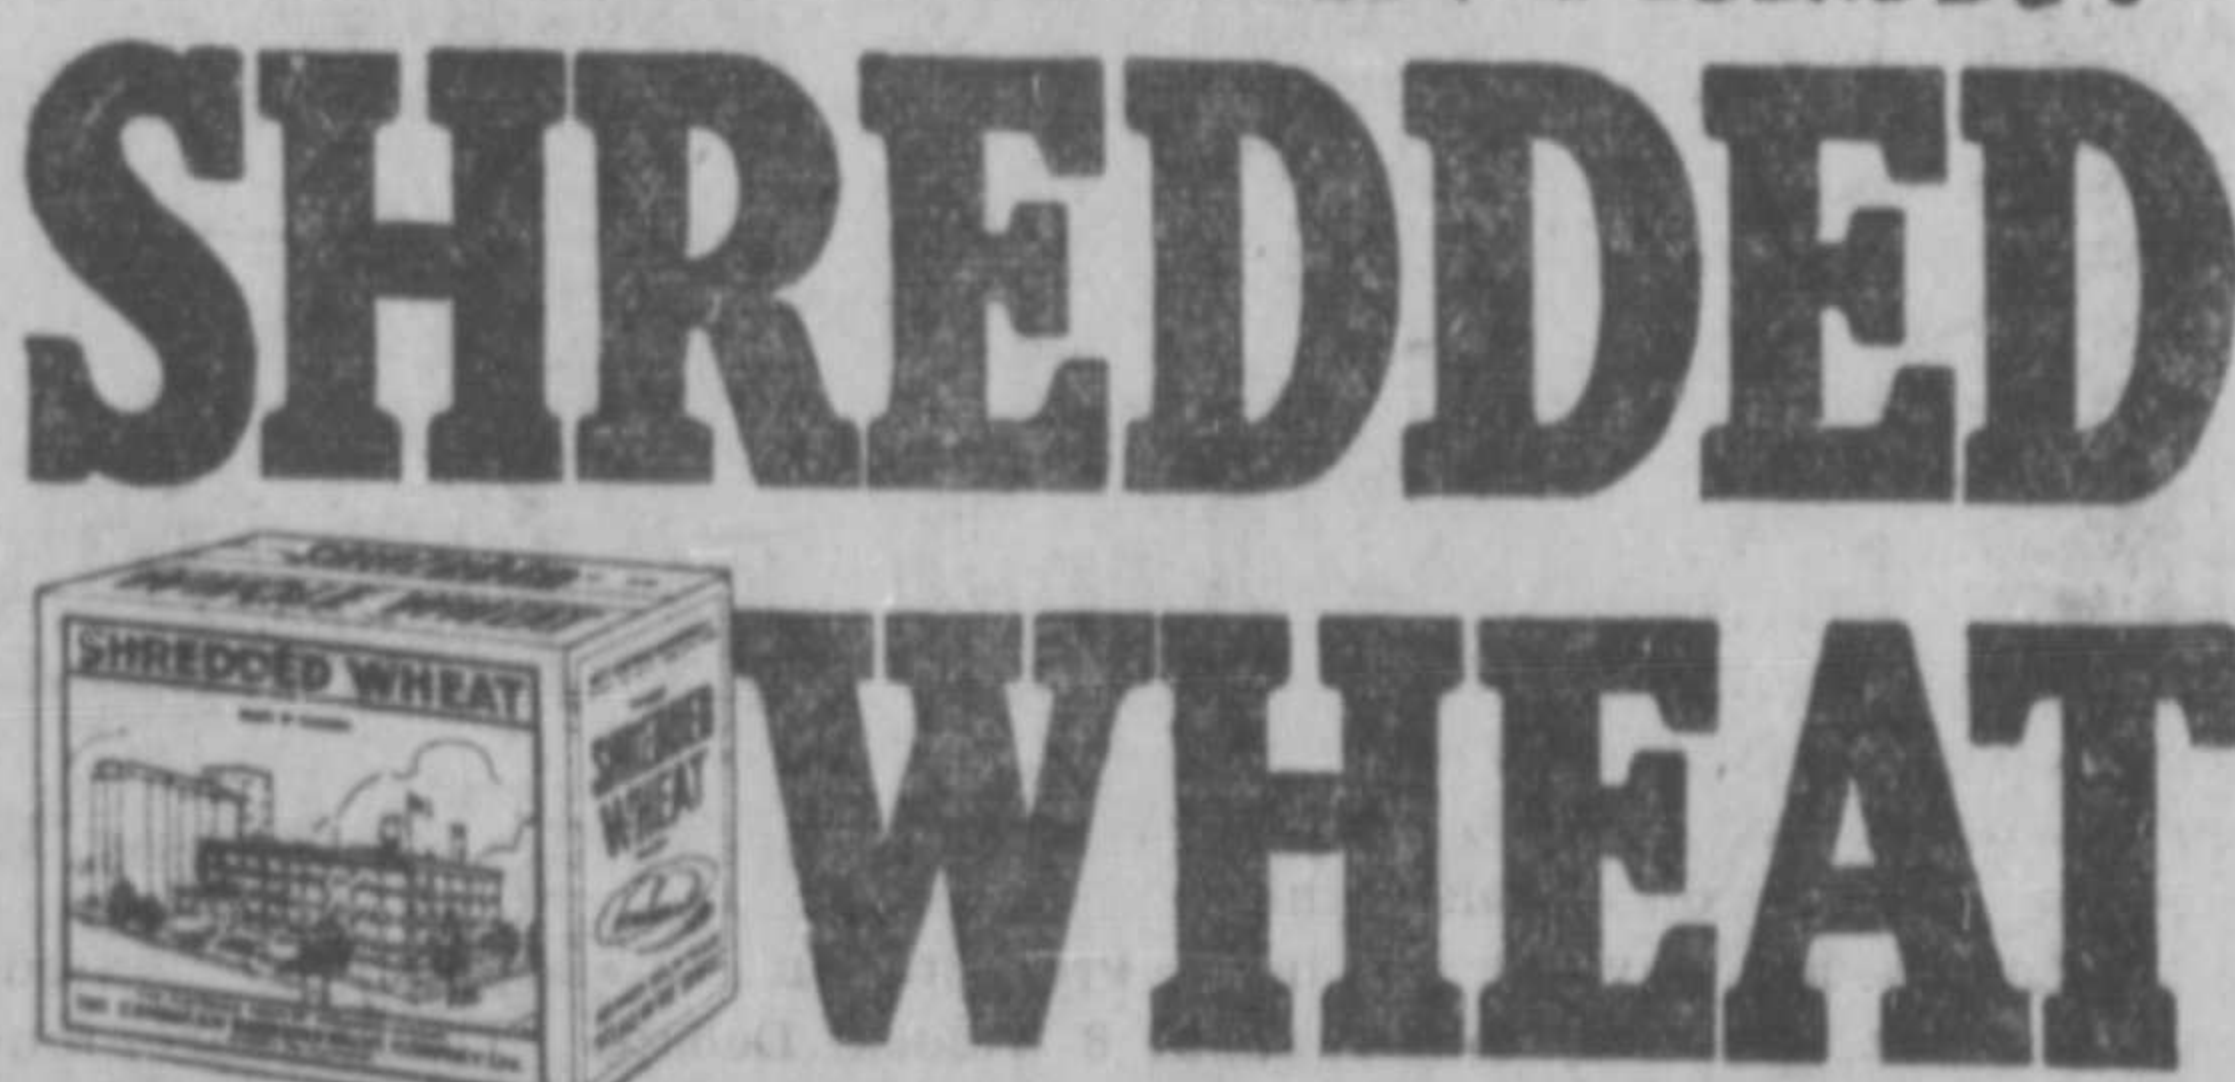

The coming of spring will bring back tennis in earnest. Last week a number of tennis enthusiasts were on the Prince Rupert courts almost every day and this had the effect of diminishing the interest in badminton, which is essentially an indoor game here.

We make no apologies for devoting a considerable proportion of our telegraphic appropriation to sport subjects, for people like to read about these events. We have tried to keep in close touch with the big eastern hockey league during the winter and shall be doing the same for baseball this coming summer. While it has not been possible to always have a page of sport, the front page of this paper always has reports of a number of sport events which keep local people up to date in regard to happenings of this kind.

### MUTUAL PROTECTION URGED BY NEWSPAPER CUSTOMS REGULATIONS

(Toronto Globe)  
From the standpoint of the Canadian government the regulations governing clearance of liquor vessels for the United States are a farce. They serve no useful purpose, and tend to discredit the entire service. The Dominion can retrieve its position only by entering wholeheartedly into agreement with Washington to wipe out the illegal border traffic. This is what Washington asks. It is an honest, friendly and businesslike request. The arrangement with Cuba has proved effective. It provides for the prohibition of shipments from one country to the other in contravention of the law, a mutual protection such as must be brought about in some way between the Dominion and its neighbor. Smuggling is not a one-way evil. Today the United States may be getting the worst of it, but tomorrow may be Canada's turn. Washington invited co-operation in the interests of the two countries, and Canada will not be true to herself if she rejects the proposal.

## FUR BUSINESS IS A FAILURE

### Country Trapped Out With Result That Catches are Few and Pelts Worth More

Fur dealers report a failure of the fur business in the district this year. Very few pelts are coming in and for these good prices are being paid. Wolves are very scarce, hardly any having been brought in. Mink also are conspicuous by their almost total absence and martens are scarce. Whereas trappers used to make as much as from one to two thousand dollars in a winter a few years ago they now think one hundred dollars a pretty good catch.

Pat Phillipson says the animals have been cleaned out through over trapping and that the business in this section of the country is ended, probably for ever. It may recover to some extent but never to its former status. The deer will benefit from the absence of wolves but deer hunting has been on the increase and this year there was a noticeable scarcity of these animals.

Only a few years ago many fishermen spent at least part of the winter trapping among the islands and on the mainland coast. Now scarcely any go and those who do, return without enough furs to pay the cost of engine fuel. The decrease has been gradual but it has been sure. The country seems to be trapped out.

While fur farms have been established in many parts of the country, the output is not yet enough to replace the diminished supply from the wild trapping grounds and the price of fur is going up. The demand is greater than the supply.

## Man in the Moon

CANNIBALISM is one pig eating the flesh of another. This is very common, even in so-called civilized countries.

"I ALWAYS was prepared to rise to the occasion" said the man as he was about to be lynched.

IT'S difficult to work indoors when the spring sunshine calls.

WHEN the soft spring breeze is blowing And the sun is overhead Then my heart turns to the beaches But I'm typing this instead.

When I see the others going Out abating every one. Then I have to tell myself, Typing this is lots of fun.

THE fishermen seem to have been a little slow. The fisheries regulations were issued before the recommendation of the convention reached Ottawa. But why worry? They'll do for next year.

A GAMBLER once Who bought and sold On stock exchange Both new and old, And thought to make, As well he might, A living as They soared o'er night, Thought he would plunge As he was told, Then sit at home And mine for gold.

He bought some paper Edged with gilt, Then felt a fortune He had built, Sat back and watched, Hoping that soon He'd cash secure To buy the moon, But though he waited, Longed and wished, He found at last He had been dished.

## Ten Years Ago in Prince Rupert

Many skaters are journeying daily to the Salt Lakes where there is a fine sheet of ice. There has been sufficient frost at night during the past week to freeze up again all that has been melted by day.

The matter of reform of the fishery regulations was brought up at the meeting of the city council last night when a reply to Mayor McClymont from the minister of marine and fisheries was read regarding the recommendations of the royal fisheries commission.

G.T.P. steamer Prince George came off dry dock yesterday looking spick and span following annual overhaul. The Prince Rupert will be withdrawn from service tomorrow to go on dock.

## SPORT PICTURES ARE MOST POPULAR OF ALL IN UNIVERSITY

MONTREAL, Feb. 20.—A touch of humor was added to an inter-university debate when one of the participants debating as to whether or not too much time was given to sport in the university, said that he had investigated 128 rooms in five different universities including 30 co-eds' rooms, and found 65 pictures of women, 87 of fathers and mothers, and 261 of athletic heroes, these figures being used to show the amount of attention now devoted to sport.

## CAUGHT BAD COLD WHILE OUT PLAYING NOT PROPERLY DRESSED

Mrs. L. Mantle, Millet, Alta., writes:—"My youngest child had a very bad cold which she got by going out playing in a strong, cold wind not properly dressed."

"She got so hoarse she could hardly speak, and her throat and chest were very sore. "I used everything available, but she received no relief until, finally, I secured a bottle of

## NATURAL DRAMA OF THE WILDS

### Chang Said to be Master Picture and Will be Seen at Weekend

Natural drama will be introduced to Prince Rupert in an advanced state at the weekend when "Chang" the Siamese jungle picture is released locally.

The chief fear is that many will look upon their production as a travel picture. They insist that it is straight drama, with suspense, comedy, continuity and tempo. It has a story, too.

Natural drama, it is explained, "is drama produced with natural actors in their own environment, living the story of their lives and their struggle for existence. This new jungle picture is the story of a people surrounded by an abundance of food. There is so much food that a superabundance of creatures live on it and on each other. There is the constant menace that this teeming vegetable and animal life will overwhelm the humans struggling against it. On this the story is built.

"We chose an attractive family living in the edge of the jungle for our central characters. Their staple food is rice, they build their bamboo houses on poles to protect themselves from jungle animals they keep domestic animals and chickens. They are constantly faced with the problem of protecting themselves against the depredations of beasts—tigers, leopards, bears, snakes, elephants. The elephants become their best friends and sources of wealth when trained, but in wild herds they are to be feared. "In photographing the lives of these people we always kept the dramatic values in mind. The story develops, shows the wavering between hope and fear and the final triumph over a herd of more than four hundred wild elephants.

"We wanted it to stand by itself as a piece of dramatic entertainment. The fact that, in addition to this, it has scenes of great scenic beauty, shows the 'people untouched by civilization' and that there are thrills and laughs in it, leads me to hope that we have accomplished something new in the field of picture production."

## PIRATE PICTURE OF CHINESE RIVERS AND CUSTOMS OF ORIENT

### Intense Drama of the Yangtze River with its Sampans and Junks Seen at Midweek

Pirate attacks rivaling the storied days of old are not uncommon in China, according to Edward S. O'Reilly. They have been in progress for centuries, and the only difference between present day onslaughts and those of former times is an improvement in methods.

Thousands of sampans and junks float about on the Yangtze River at Shanghai and for hundreds of miles inland. Most of them are homes or cargo carriers. Many are handled by organized bands of marauders. They often board ocean going liners, murder the crews and strip the passengers.

During the Boxer rebellion they burst loose without fear of punishment. When Dr. Sun Yat Sen started the Republican movement several years ago they joined the revolutionary armies. At present, different groups of bandits are members of different armies.

Some of the intense drama of floating down this enormous river by night, of the dangers undergone by escaping refugees, of the colorful life in the foreign quarter of Shanghai will be seen in Richard Dix's new picture "Shanghai Bound" showing at the midweek.

## THRILLING RESCUE IN TOM TYLER FILM

### Hero Jumps into River Just Above the Falls and Horse Pulls Both Out

One of the most thrilling rescues ever screened, and one in which Tom Tyler, new western star, nearly lost his life, is contained in "The Cowboy Musketeer," third of the series featuring the handsome young athlete, playing here tomorrow. In the story Leila Gordon plunges through the rickety

fall of an old bridge in her fussy little Ford, and is swept down stream in the key waters. Tyler, riding along the trail near the road, sees the accident and gallops downstream along the bank. Fastening his lariat to theommel of his saddle, and with the other end around his waist, he leaps into the torrent and catches the girl just before she is swept over the edge of the falls. Then the intelligent horse, trained to answer the taut rope in the saddle, backs up the bank and pulls the two struggling figures ashore. So much the script called for; but the rope somehow slipped from the saddle horn when they first shot the scene; with the result that Tyler and Frances Daare, his leading lady, actually went over the falls locked in each other's arms.

## CONNIE SERVES THE GREEN-EYED BEAST IN LATEST COMEDY

An old saying has it that the best way to win the heart and love of a man is through his stomach. The aged prescription still "works" wonders, but what should a girl do when her beau takes his meals out?

In "Breakfast at Sunrise," which is here tonight, Constance Talmadge employs the green-eyed monster, jealousy, in a futile attempt to regain the affections of her first love.

She fails because jealousy isn't the proper food to feed a man who doesn't care, but the old saying later proves its worth when she wins the love of Pierre through the medium of a five-course dinner.

"Breakfast at Sunrise" is an amusing farce of sophisticated Paris and was directed by Mal St. Clair, a master of subtle comedy.

*Dividends to Policyholders increased for eighth successive year*

**EXTRACTS FROM DIRECTORS' REPORT**

Substantial advances have been made in all departments during the year.

The total net income for the year exceeded one hundred million dollars.

The strength and resources of the Company have been further enhanced.

The high earning power of the Company's investments has been again demonstrated. The net rate of interest earned on the mean invested assets, after fully providing for investment expenses, was 6.47 per cent. This gratifying result has been made possible by dividend increases, bonuses and stock privileges accruing on many of the Company's holdings.

The wisdom of the investment policy which has been consistently followed in past years, in favouring long term bonds and the stocks of outstanding and very carefully selected corporations, has been once more emphasized. The appraisal of our securities shows that the excess of market values over cost increased during the year by \$19,235,889.99. In addition, a net profit of \$5,028,033.20 accrued from the redemption or sale of securities which had risen to high premiums.

The quality of the investments listed in the assets is testified by the fact that on both bonds and preferred stocks not one dollar, due either as interest or dividend, is in arrear for even one day, while the dividends accruing to common stocks are greatly in excess of the dividends payable on the same stocks at the time of purchase.

The surplus earned during the year amounted to \$38,511,029.67 from which the following appropriations have been made:

- \$5,000,000 has been deducted from the market value of our securities as a further provision against possible future fluctuations, increasing the amount so set aside to \$10,000,000.
- \$1,500,000 has been added to the account to provide for unforeseen contingencies, which now stands at \$12,500,000.
- \$1,000,000 has been written off the Company's Head Office building and other properties.
- \$500,000 has been set aside to provide for the greater longevity of annuitants, bringing the total provision under this heading to \$2,000,000.
- \$50,000 has been set aside to provide for claims in respect of total disability as yet unreported.
- \$11,090,056.61 has been paid or allotted as profits to policyholders during the year. In addition, \$6,295,573.00 has been contingently allotted to deferred dividend policies issued prior to 1911, and to five year distribution policies, to provide for profits accrued but not yet payable.
- After making these deductions and allocations, \$11,269,330.89 has been added to the undivided surplus, bringing the total over all liabilities, contingency account and capital stock to \$45,280,896.14.

Your Directors are gratified to announce, for the eighth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

## MASQUERADE AT TERRACE FINE

### Unique Valentine Post Office Was Feature of Interesting Event

TERRACE, Feb. 20. — The Valentine fancy dress ball held Friday evening in G.W.V.A. hall under the direction of the Basketball Club was very largely attended and was one of the best masquerade dances held here in a long time. The many gay costumes and the artistic valentine decorations were a pleasing attraction. There were more dancers in costume than usual and all seemed to enter into the spirit of the dance with great zest. A unique feature of the occasion was the combined store and post office at which valentines were bought and mailed. Following supper at midnight the mail was distributed amid much merriment.

The grand march took place at eleven o'clock after which masks were removed. Prizes were awarded as follows:

Best dressed lady—Mrs. Mist, Turkish lady.

Best dressed gentleman—J. K. Gordon, Highland costume.

Comic lady—C. L. M. Giggey, Negro mammy.

Comic gentleman—Mrs. T. M. Turner, Prospector.

Two visitors in the district, Miss Moffat and R. J. Watkinson, acted as judges of the costumes. Mrs. Von Hees' four piece orchestra furnished music. Supper was served downstairs, Mrs. A. J. Kirkaldy having charge of the catering.

### VANDERHOOF

Stephen Holmes, president of the Vanderhoof Board of Trade, has appointed committee chairman for the year as follows: publicity, Dr. W. Ross Stone; roads and transportation, Geo. Snell; entertainment, Owen Burdette; mining, George Snell; membership, R. G. Matthews.

R. G. Sutton of Prince George, district agriculturalist, was here last week on business in connection with the government seed cleaner and the disposal of the Borhaven farm which is being offered for sale.

The Nechako Valley Co-operative Exchange has elected officers for the year as follows: president, Louis J. Preston; vice-president, David W. Donald; executive, Steve Holmes, Otto Hammond and C. Prout. There was an increase in business during 1927 of \$7,000 over the previous year.

W. M. Ogilvie, well known Ottawa mining man, accompanied by W. Nesbitt of Montreal and C. McLean of Ottawa, are now on their way into the Omineca country and expect to remain there until well into the coming summer. Their mining machinery is also on the way in.

Bert Richards, local automobile dealer, has received one of seventy-five shields distributed throughout the Dominion for sales.

## CHIROPRACTIC DOES YOU GOOD

Do you know that there are thousands of people suffering ill-health today because they do not know that Chiropractic applies to their case?

That experiments conducted in the Physiological Laboratories at the Cornell University proved that correction of minor spinal lesions was followed by seemingly miraculous results or cures in conditions such as chronic headaches, throat troubles, stomach disorders, constipation, rheumatism, lumbago, neuritis and catarrh, thus confirming what chiropractors have been doing for over thirty years?

That so called disease is the result of a disturbed balance of nerve energy, allowing toxic materials to gather in the blood, creating a condition that is favorable to the production of a number of varied symptoms?

## IMPROVEMENTS BEING MADE TO STEAMERS OF UNION STEAMSHIP CO.

When Union steamer Calala, which was wrecked last November on Mist Island near Port Simpson, returns to service toward the end of March following extensive reconditioning at the Burrard dry dock in Vancouver, she will be practically a new ship. So extensive was the damage wrought that it has been virtually necessary to rebuild the vessel from stem to stern. Of many improvements that are being made perhaps the most notable is the extension of her promenade deck aft to come flush with the stern over the main deck. This will considerably lengthen an already commodious deck, at the same time lending considerably to the improved appearance of the vessel. This will be only one of many less important changes being made in the ship.

Certain changes are also being effected on the steamer Cardena, the other Union boat which serves Prince Rupert regularly and which is now off in Vancouver for three weeks for annual overhaul. Most important of the alterations on the Cardena is the installation of additional staterooms on the boat deck between the cabin of the wireless operator and the first class smoking room.

### TIMELY RECIPES

(By Barbara B. Brooks)

HERMITS  
1-3 cup butter, 2-3 cup sugar, 1 egg, 2 tablespoons milk, 1 3-4 cups flour (or more), 1-2 cup all-bran, 1 teaspoon baking powder, 1-3 cup raisins, 3-4 teaspoon cinnamon, 1-2 teaspoon cloves, 1-4 teaspoon mace, 1-4 teaspoon nutmeg, 1-2 teaspoon salt.

Cream the butter, add the sugar and egg, and beat well. Add the milk and the bran, raisins, and flour, which has been sifted with the baking powder and spices. Chill, roll thin, cut shape and bake in a moderate oven (400 deg. F.).

When the cookies are cold, spread thin with an uncooked frosting made by combining confectioner's sugar and hot milk or cream, until the mixture is of the consistency to spread. Add flavoring and a few drops of coloring if desired. Sprinkle the top with chopped nut meats or bran.

# We Eat No Meals; Ride No Cars

WHEN you hire us to do the family washing, you are not put to the expense or bother of feeding us. We eat nothing! Neither do we ask you to pay our carfare. Instead we call for and deliver your washing. We buy our own soap, starch and bluing. Heat our own softened water. Use our own electricity, too. There's no "picking-up" after us. We take all the messy work out of your home, giving you an extra day to do the things you like to do! Yet you'll find our charges most reasonable—considerably less than it would cost you to do the same work at home. Try us, and see!

## "IT IS"

What Is It?  
It is the affix that follows after a name and signifies that there is inflammation in the region mentioned. Therefore we have Pharyngitis, Laryngitis, Stomatitis, Neuritis, and other diseases with the same ending, including Appendicitis. It is on account of these inflamed areas in the regions mentioned that disease makes itself evident. When these conditions arise there are grave dangers of complications which may result in a serious condition which will be difficult to overcome.

The Chiropractors' chief object is to remove the cause. This he does by allowing the correct amount of nerve impulses to supply the diseased organs affected, thereby relieving the congestion caused. When this congestion is relieved the inflammatory condition will subside and the organ concerned will return to normal, thus giving Relief to the Patient.

## PATTULLO ON TIMBER POLICY

Rebuttal of Statements Made in Regard to Lack of Policy of His Department

### PLENTY OF TIMBER YET

Good Policy to Cut Present Stands as They are Mature and Second Growth Follows

VICTORIA, Feb. 20.—The forest wealth of British Columbia is safe under the conservation policy of the Liberal government, Hon. T. D. Pattullo, minister of lands, declared in the Legislature as he supported an investigation of the entire timber situation by a house committee.

After listening to the minister's ringing defence of his forest administration and his demand that the Conservative party come out in the open and announce its timber policy, the House endorsed a resolution referring timber questions to a special committee for investigation.

This motion was moved originally by Ian MacKenzie, Liberal of Vancouver, while Joshua Hinchliffe, Conservative of Victoria, moved in amendment that Mr. Pattullo be required to submit a written statement on the timber situation to the assembly. By a vote of twenty-five to twenty the House rejected the Hinchliffe amendment and supported the MacKenzie motion. D. A. Stoddart, Provincial, and R. H. Neelands, Frank Browne and Thomas Uphill, Labor, supported the MacKenzie motion with the government. Major R. J. Burde, Independent, P. P. Harrison, Liberal, and A. McC. Creery, Provincial, voted for the Hinchliffe amendment with the opposition.

In a masterly address on forestry Mr. Pattullo sought to show that the government has forest problems well in hand, and that there is no need for public alarm over the depletion of British Columbia timber.

### DENIES DEPLETION TALK

Mr. Pattullo denied at the outset the statement of C. S. Leary, Liberal of Kaslo-Slocan, that the British Columbia stand of mature Douglas fir would be depleted in twelve years. There was enough mature fir in the Esquimalt and Nanaimo Railway belt of Vancouver Island alone to keep loggers busy for this period, he said.

"In addition we have splendid stands of fir from ten to forty years of age," he said.

"I would ask those who are continually alarming the public, what is their remedy? Would they not cut the timber? As a matter of fact, it should be cut, or you won't get a second growth. If you want to have forests near Vancouver and Victoria you must

## Every Woman Needs "Fruit-a-tives" the sure way to regular health

MRS. A. PARENT.

Daily tasks rob many women of the priceless boon of good health, because constipation, biliousness, headaches, indigestion, backaches and kindred ailments, undermine their constitutions.

Read this sincere letter:  
Driscoll Lake, Sask.—"I have taken many kinds of medicine, but none proved as good as 'Fruit-a-tives' for me. It is the only medicine I take—I use it regularly and do not feel right if I do not."  
—Mrs. A. Parent.

"Fruit-a-tives" is universally successful because it is a natural medicine—made from the intensified juices of fresh fruits, combined with tonics. It will help you, too. 25c and 50c at all druggists. Buy a box to-day.

control cutting and shut down half the mills. And then all that will happen is that logging will be moved to more inaccessible places. I am in a position of responsibility and I ask those who are not and are causing public alarm what they propose to do? Let them say whether they would stop this cutting or not!"

### MUST COMPETE

High-lead logging, the minister went on, was extremely destructive, but was necessary here, as it was used in the United States, the great competitor of British Columbia.

"We must keep the lumber industry going now as well as providing for the future," he warned. "We know of the present waste; we know how this wasted lumber could be made into by-products, but our problem is that we can't get markets for such products. In the old world markets are available, but they don't exist here at present."

### EUROPE'S EXPERIENCE

Mr. Pattullo pointed out that the experience of European countries with forestry could not be used safely as a guide in British Columbia, where conditions were utterly different. This province, he said, must evolve its own methods by experience now under way. He reminded the House that artificial planting had been largely abandoned in Europe and the best authorities now agreed that natural regeneration was far better than artificial methods. Natural re-growth was re-stocking the forest lands of British Columbia, he said, in a highly satisfactory way. In some places re-growth covered as much as 80 per cent of logged-off areas. This, with artificial assistance in some places, would meet the situation here, he asserted.

The minister told the House in detail of experiments conducted by the forestry service to show how natural regeneration was going on.

## ADDRESS GIVEN BY RABBI STERN

Prejudice Against Jew Must go Declares Speaker at Kiwanis Luncheon

MONTREAL, Feb. 20.—Prejudice against the Jew must be discarded and a closer link of fellowship be welded among all religions if a better understanding among the peoples of the world is to be brought about, Rabbi Harry Stern of Emmanu-El Temple, said in addressing fellow members of the Montreal Kiwanis Club at the weekly luncheon meeting in the Windsor Hotel.

"Thank God today," said Rabbi Stern, "that I sit at this head table alongside a Catholic priest and a Protestant clergyman. It has been prejudice in the past which has held the Jew down. We were persecuted from every angle. We have also been called the Christ killers. I wish to speak to you of my people as the Christ getters. Why blame the Jew if Christ had to die in order to save the world? It was the wish of God. If the Nazarene forgave them how much more the followers of Nazarene should forgive."

Rabbi Stern said that the Jewish side of prejudice toward Christianity was summed up in the quotation: "Father, forgive them for they know not what they do."

The present psychological revolution which the world is passing through is doing much toward welding all in one common bond of fellowship and service, he said. War is about to be outlawed by civilization through education and through sentiment created by such service organizations as Kiwanis. During the war Jew and Gentile united without prejudice and should carry on in times of peace if a better understanding of each other is to be accomplished, he concluded.

## WHEN YOU ARE WRONG BLAME THE REPORTER

(Montreal Star)

Newspapermen are so tender of rising hopes, not wishing to nip them in the bud, that they often make them talk better English than they wot and even attribute bright thoughts to them which the statesmen do not attempt to deny. It is only when their speeches are rendered verbatim, with all the warts on their grammar or their ideas, that they yell for accuracy and blame it on the reporter.

The public are growing tired of this business of blaming it on the reporter whose standing order is to get the facts and get them right. He craves no libel suits and he wants to keep his job. He cannot claim privilege of parliament for loose utterance and has all the more reason for sticking to the truth.

## HORNED OWLS SOUTH IN PLAGUE NUMBERS

VICTORIA, Feb. 20.—The plague of horned owls that affected Victoria and its environs a few years ago is in evidence, it is reported by local sportsmen, who have offered a small bounty for the destruction of the birds.

Over 200 horned owls have been brought in for the bounty since December, from all points on the Island between Rocky Point and Gordon Head.

The owls are destructive killers, and have depleted game and song bird broods in years past, it is argued. Chinese buy the dead owls to grind into powder, holding that specific a most powerful disinfectant.

## CUP AND SAUCER SHOWER FOR BRIDE ELECT SATURDAY

A very enjoyable time was spent at the home of Mrs. Dawson, Hay's Cove Circle, on Saturday evening, the occasion being a cup and saucer shower, given in honor of Miss Helen McRae, R.N., whose marriage to Jack Bulger takes place this week.

During the evening a book was passed around, each guest contributing, either some bit of advice to the bride or favorite recipe which was afterwards read. This was a mirth provoker.

The guests were, Miss Helen McRae, R.N., Mrs. Duncan McRae, Miss John McRae, Mrs. Alex McRae, Mrs. Georgina Hunter, R.N., Miss Anne Castell, R.N., Mrs. S. Massey, Mrs. J. W. Kilpatrick, Miss Mary McRae, Miss Lois McRae and Mrs. G. H. Munro.
