BRITISH IMMIGRATION SCHEME OFFERED

TROOP TRAIN WRECKS IN ONTARIO; TWO SOLDIERS DIE

Imperial Government to Finance Workless in Move to Dominions

Thousands of single men, boys, women and families to come to Canada under plan of Winston Churchill

LONDON, July 25.—Addressing the House of Commons last night on an opposition censure vote, Rt. Hon. Winston Churchill, Home Secretary, announced some new measures which will be taken for the relief of industry in Great Britain, particularly a subsidy for railroads in return for the reduction of freight rates on coal to the extent of seven-and-a-half pence per ton on export coal and ten and a half pence on steam coal. The government also proposes to make emigration easier by sweeping away obstacles which would provide larger grants to enable emigrants to purchase outfits in a new country and a scheme is to be put into effect by which two thousand five hundred boys, seven thousand single men, five hundred families and two thousand women will be emigrated to Canada from the mining districts. The cost of the undertaking, it is estimated, will reach \$600,000 per year.

ST. LOUIS HAS GOOD LEAD NOW

LITTLE CHANCE OF BEING DISPLACED FROM NATIONAL LEADERSHIP—START EASTERN TOUR WELL

NEW YORK, July 25.—With little chance of anybody overtaking them, St. Louis Cardinals, National League leaders, began an Eastern invasion yesterday with a victory over Brooklyn Dodgers, home runs deciding the game. Chicago Cubs and Cincinnati Reds are trailing St. Louis with little promise of pennant success.

There was only one game in the American League yesterday but that proved interesting. The Red Sox had the best of everything up to the eighth inning against the New York Yankees but dropped when the Yanks rallied in the ninth.

LIQUOR SELLERS AT ANYOX FINED

TOTAL OF \$1200 COLLECTED AS RESULT OF CASES IN SMELTER TOWN OVER WEEK-END

Five persons were charged at Anyox over the week-end under the Government Liquor Act with keeping liquor for sale. Four of the cases resulted in convictions and the fifth in dismissal. Fines totalling \$1200 were paid. The cases were heard by Stipendiary Magistrate R. M. McGusty with Staff Sergeant Alex McNeill prosecuting and L. W. Patmore of this city defending. Provincial Constable William Smith was instrumental in bringing the cases to trial.

FRENCH FLIGHT IS CALLED OFF

FRANCE ABANDONS ATTEMPT TO CROSS ATLANTIC IN OCEAN WITH PLANE LA FREGATE

PARIS, July 25.—France has abandoned for the time being at least, a joint attempt by the Navy and Commerce departments to span the Atlantic by plane and the La Fregate has been recalled from the Azores. The fact that the flight was interrupted by motor difficulties caused the defeat of its purpose—that of establishing a commercial route.

BLACK CHAPTER OF ORANGE LODGE HAS ELECTED OFFICERS

EDMONTON, July 25.—H. A. Graham of Kingston, Ontario, has been elected Grand Master of the Grand Black Chapter of the Orange Lodge of Canada. J. B. Carpenter of Vancouver is Grand Censor and George E. Brush of Mission City, grand committeeman.

NEW ZEALAND AND JAPAN MAKE PACT WELLINGTON, N.Z., July 25.—The first treaty between a British country and Japan will be concluded when New Zealand agrees with Japan today to give most favored nation treatment in commerce and customs. Navigation and shipping facilities between the two countries will be increased.

PLANE FROM Q. C. ISLANDS

FLIGHT LIEUTENANT A. H. HULL ARRIVED HERE LAST NIGHT WITH U.S. 2 L FLYING BOAT

Having made the return journey from Queen Charlotte Islands in an hour and forty-five minutes, Flight Lieutenant A. H. Hull and G. B. Taylor, mechanic, arrived on their H. S. 2L flying boat last evening at 7 o'clock. Owing to the presence of so many logs at Seal Cove, a landing was made at Digby Island. It was on this boat that General McNaughton, General Officer commanding Military district No. 1, arrived in Prince Rupert last week.

Flight Lieutenant Hull is making inquiries and gathering evidence regarding the recent flying fatality near Stadales. The court of inquiry will be held in Vancouver on the conclusion of the flight to consider the evidence. Lieutenant Hull was for several years a frequent visitor to Prince Rupert when on fishery patrol. His machine last evening was the first plane of the season to fly over Prince Rupert.

MACLEAN AS GRIT LEADER

Hon. Ian Mackenzie Not Ambitious—Thinks Premier Should Carry On

VICTORIA, July 25.—Hon. Ian Mackenzie, provincial secretary, announces that he is not an aspirant for the leadership of the Liberal party. "In my opinion," he said, "Dr. MacLean should be pressed to continue in office. He has the entire confidence of the Liberal party and his knowledge of the business of the province can ill be spared from the legislature."

PIONEER OF CITY PASSES

DANIEL McNEILL, STRICKEN A FEW DAYS AGO, SUCCEDED IN HOSPITAL YESTERDAY

A Prince Rupert pioneer of some twenty years standing passed away yesterday afternoon in the Prince Rupert General Hospital in the person of Daniel McNeill, for the past several years nightwatchman at the Albert & McCassey dock and prior to that watchman at the Westholme Theatre. The late Mr. McNeill collapsed on the street a few days ago with what is believed to have been a heart attack.

Well over sixty years of age and of Scottish descent, deceased came here from Nova Scotia in the very early days of the city. He became very well known and was esteemed by many friends. He was also a great friend of many children, his bachelor's quarters on Ninth Avenue West having been a popular resort where swings and other amusement were provided for youngsters. The late Mr. McNeill was a Roman Catholic and a member of the Knights of Columbus organization. He was unmarried, surviving relatives including a sister, Mrs. Neidecker of North Vancouver, who will come here for the funeral.

## NEXT U. S. PRESIDENT

Whether it be Secretary of Commerce Herbert Hoover or Governor Al Smith, the United States is at least assured of having a good and strong president so, regardless of the political outcome, the destinies of the great republic to the south, will be in safe hands for the next four years. Issues and not personalities, vastly different though they may be, will settle the campaign and the fact that it is Hoover and Smith will throw in even more issues, owing to the ramifications and policies that either Hoover and Smith have or are alleged to have. Present indications point that it will be Protestant and dry Hoover who will be the next president and not the Catholic and wet Smith. That is unless the people of the United States sink their religious affiliations and avowed dry tendencies in such a manner as to swing the victory to Smith. Religion and liquor, rightly or wrongly, give promise of becoming issues in this big campaign and, even though religion should not be an issue and both candidates are pledged to the continuation of the dry laws, they promise to overthrow other matters such as farm relief, etc. In spite of the fact that they may not have much to do with the contest, reference to the personalities of Herbert Hoover and Al Smith may, however, prove interesting.

## HERBERT HOOVER

If the American people send Herbert Hoover to the White House in the November elections, he will be, at least in regard to foreign political and economic conditions, the most thoroughly informed President in the nation's history.

Hoover's war relief work, the phase of his career which first brought him into national and international prominence, is generally recognized as having given him an understanding of European affairs comparable to that of any American public figure. But behind that lies 14 more obscure years during which Hoover, as a mining engineer and executive, came to know practically every section of the globe at first hand.

Hoover's world-wide background, his intimate knowledge of foreign matters, gained as a private business man, war relief director and Secretary of Commerce, is of particular significance at this time.

There are many who believe that Hoover would be a desirable presidential candidate if only for his possible influence on foreign relations.

Incidentally, another little known period of Hoover's career is revealed. That is that he has come to know the life of the laboring man from his own experience. Following his graduation from Stanford University in 1895, he spent several months on a regular shift in a California mine to complete his preparation before he took his first position in the office of Louis Janin, San Francisco engineer.

## AL SMITH

Alfred Emanuel Smith rose from an obscure youth on the sidewalks of New York's crowded lower East side to become governor of the Empire State four times and a candidate for nomination to the highest office in the nation.

The governor, known to a legion of New Yorkers as Al, has led a charmed political life in a state that is normally charted as republican, especially in presidential election years. Only once in mode than a quarter of a century of almost continuous public life has he been defeated for office.

Geniality is one of the outstanding Smith attributes and accounts for part of his immense personal following in his home city. But he has a rigid sense of public duty, with which his good nature is never permitted to interfere.

He has been called "The Happy Warrior." Fighting is something he has always had to do, commencing with his struggle to overcome poverty in his boyhood, when he helped to support his widowed mother. He repeatedly fought hostile legislatures in Albany and was successful in putting through many important legislative measures.

As governor he sponsored many welfare measures, such as widow's pensions and child labor laws. He also championed legislation favorable to organized labor.

His most important work, as viewed by his friends, was the reorganization of the state government. After years of effort he was successful in abolishing more than 100 commissions and boards, and the vast work of the state is now done by a few departments and the governor's cabinet.

Smith has been a storm center on the prohibition question. He has frequently said he favored modification of the Volstead Act, but that he was opposed to the return of the saloon.

## VOTES CAN BE WON RAPIDLY

FOUR THOUSAND DOLLARS TO BE DISTRIBUTED WITH NEXT FEW WEEKS IN DAILY NEWS CAMPAIGN

The Prince Rupert Daily News' 4,000 "Everybody Wins" campaign is a very short one and under no circumstances will it be extended beyond the date advertised. At the end, a committee of judges, composed of prominent business and professional men, will count and tabulate the vote totals, and those who pole the greatest number of votes will whisk away to their homes in their own luxurious machines. All others will receive sums in CASH in proportion to their vote totals as explained in the announcement.

Two separate districts have been arranged—one district in the city of Prince Rupert, and one outside of the city. One of the cars and one complete set of cash prizes must be distributed in EACH district. The choice of the two cars will be made by the person polling the highest vote of the district winners; the other district winner will then receive the other car.

Persons who have never taken part in a voting campaign of this magnitude are unable to realize how rapidly their vote totals accumulate. Once the start is made, they pile up like magic. Subscriptions and coupons will secure thousands of votes in The Daily News campaign. And it is not expected that the candidates will depend wholly upon their own efforts—friends will help them to gather votes—and what a merry pastime it will be—with bountiful rewards at the end.

There are plenty of prizes to go around among the hustlers—indeed here is a prize, either CASH or a car for every active participant. The plan is a competitive one, and will be conducted on a business basis. The bigger our effort, the bigger your prize.

Come to the News' office, or write or telephone 534 today for full information. See for yourself the unprecedented opportunity The Daily News is placing before you. And get an early start for one of the automobiles by sending in the nomination coupon for yourself or a friend today.

Make up your mind NOW. Enter NOW. Everybody wins. YOU WIN. You can't help but win. The more you do the more you get of course. But everybody wins something.

The more candidates entered the easier it is for you to secure a big car or one of the big cash awards. How is that do you ask? It is like this—

If there are only two candidates running for the office of Mayor of Prince Rupert, the winning candidate must have more than half of all the votes cast in order to win. But if there are five candidate seeking election, the winning candidate seeking election need only have more votes than any of the other four. In other words, victory comes to the winner with far less votes when five are running than when two are running. Yet the total votes cast in each instance may be the same.

The Daily News' campaign office (located on the second floor of The News' building, 243 Third Avenue, Prince Rupert) will be open from 9 a.m. to 8 p.m. each day. Telephone 534.

## STEWART

Oren F. Hill, whose drug store and post office were burned down in the recent fire at Hyder, is building a new two-story 30 by 70 foot structure in the construction of which steel and concrete are being extensively used.

J. C. Gavigan, well known Prince Rupert business man, has been spending a week in Stewart.

G. D'Erville, mining editor of "Canada" illustrated weekly of London, England, has been visiting this camp in the course of a tour of Canada.

Mrs. Forshaw of Vancouver is visiting here with her mother, Mrs. William Irwin. Mrs. Forshaw is accompanied by her daughter.

The body of William Filmer, well known pioneer and prospector, who lost his life in a snowslide on the morning of December 17 last, while he was on his way up the north fork of the Marmot River to the Porter Idaho mine, was found last week near the forks of the river by Thomas Kirkpatrick. An inquest held by Dr. H. A. Williams, coroner, established that death had been accidental. The funeral took place here with Rev. Father LeRay, O.M.I., officiating and hundreds of friends of deceased attending.

Mrs. Dowther of Prince Rupert is visiting Stewart on business.

Dr. Rae L. Carlson of Ketchikan, who lost her equipment in the recent fire at Hyder, has returned here.

Wellington Beaton, head of the Georgia River Gold Mines Ltd. and the amalgamated Mines Ltd., returned to Vancouver at the end of the week after having spent several days in the district inspecting progress of operations on properties in which he is interested.

## VANDERHOOF

# Our greatest asset

THE material progress of our Province is known the world over. We speak with pride... and rightly... of its vast natural resources awaiting conversion into merchandise and wealth. We take the figures of ten years ago and compare them with those of today... and the world agrees that our progress... considering our population... has been the brightest feature in the recovery of the British Empire from the war.

And if this progress, of which we are so justly proud, is to continue, does not the most vital force of this country lie in our children? Some day, they will take the helm. Events will follow their judgment, skill and decision. THEY ARE OUR GREATEST ASSET!

The Boy of today is the Man of to-morrow... the Girl, the future Mother of our citizens. On us rests the responsibility of shaping their formative years so that when we hand over the reins, they may carry on the Torch of Progress, undimmed.

How have we met our responsibility? Can we look Young British Columbia in the eye with the feeling that all will be well with the future of the province for which we have planned so carefully and labored so faithfully?

SURELY!  
In the last ten years our school population has grown from 64,570 to 101,688... 58%. We have 1,065 schools manned by 3,396 thoroughly

trained, competent teachers... an increase of 31.7% and 71% respectively!

Recently we have established special vocational schools for our girls and boys, where they may be fitted for those occupations for which they have a natural bent.

Higher education is amply provided for at our University of British Columbia, where two thousand students are now enrolled, the majority studying for their degree in Science and Agriculture.

And to the school training of our children we add the powerful influence of Home, the religious and other organizations, each of which is contributing its full measure of the physical, mental and character upbuilding of our dearest, most treasured asset... OUR CHILDREN!

With confidence and faith we will hand over our beloved Province's future when the time comes!

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

## Gain Freedom from Perspiration Odour from Bath to Bath

WHAT a simple, delightful way to avoid the unnecessary social error of perspiration odour . . . to refresh one's skin from top to toe regularly, in a bath with the cleansing, blandly antiseptic lather of Lifebuoy Soap.

Perspiration is natural . . . even healthful. Physicians say the average human body exudes from one to two pints of moisture daily in the form of perspiration.

But this moisture need not be offensive. Lifebuoy Soap in the bath opens the pores and cleanses and purifies them, keeps them sweet and breathing. Lifebuoy Soap gives you cleanliness that no other soap can give. . . . antiseptic cleanliness.

And this advantage costs you nothing extra because Lifebuoy Soap—a pure toilet soap for face, hands and bath—sells at a popular price.

You'll never know how truly delightful a bath can be until you try Lifebuoy.

THISTLE WIN SOCCER GAME

ON AN EVEN FOOTING FOR LEAGUE HONORS WITH TERMINALS BY BEATING REGIMENT

In the City Football League last evening Thistles won over Regiment in a free scoring game by 6 to 3.

Thistles had John Murray at back in place of Alex Haig who has been laid up with a cold and Alex went inside left. Regiment's attempt to rearrange their team to give Baptie a chance at centre forward was not a success as he was needed at centre half.

Thistles outplayed their opponents all the game save for the last fifteen minutes. In the first half, playing against the sun and uphill, Thistle scored three times to Regiment's twice. Alex and Willie Mitchell registered for the Scots while Baptie scored from a penalty. Regiment defence in this half, save for Lambie and Kelsey, was full of holes and the Thistles forwards did much as they liked.

A re-arrangement of the Regiment line-up in the second half started off with a fine goal by Baptie from Norrington's centre after a nice passing bout but the success was not maintained and Thistles were soon ahead further through goals by Alex and Willie Mitchell again. Towards the end, Regiment attacked and Campbell had to save. From a free left outside the penalty area Wilson scored for Regiment with a drive that should have been saved.

For Thistles Campbell saved Baptie's penalty, Murray and Erskine were safe at back. All the halves played well with Haddon playing the neatest football. Woods and Geo. Mitchell were strong bustlers. The forwards put up a fine showing. Williscroft and Jimmie Currie centered well all through. Haig at inside right showed that he can play good football in any position. The Mitchell brothers shared the six goals, Alex getting four and Willie two. They had an easy time evading the opposition.

For the losers Carl Brand was not entirely free from blame in a couple of goals but, for his first game for years, put up a fine showing, saved many good shots and Regiment is lucky to have him. He fielded the ball cleanly and will do much better in his next game. Lambie was the only good back. Kelsey was pick of the halves but he must not try to do too much. He lost chances by hanging on to the ball too long. Ross did better at back. Tinker did not check back. Baptie was the best forward though he got little support from his inside men or wings. Fred Cameron began well but faded away towards the end. He has all the signs of developing into a good forward but he must play harder and show more "devil".

TEAMS

Thistle—Campbell, J. Murray, Erskine, Geo. Mitchell, T. Haddon, Woods, J. Currie (Jr.), Haig, A. Mitchell, W. Mitchell, Williscroft.

Regiment—Brand, George, Lambie, Kelsey, Ross, Tinker, Wilson, F. Hodgkinson, Baptie, Cameron, Norrington. George Russell refereed in his usual impartial manner and A. Clapperton and F. Hunter were on the line.

SPORT CHAT

To have a finger broken with the first bowled to him and then to stay at the wicket for two hours and score 118 runs is an example of pluck that has rarely been exceeded. C. A. Rowland, the North Wales cricket captain, is the hero of the story and was finally run out after scoring 118 runs. It transpired that the little finger had been broken in two places but young Rowland went on batting till the tea interval and then, having had it bandaged, continued batting till he was finally run out.

Sport appeals to all classes and it is interesting to note that Kenneth Myers who will represent the United States in the Olympics, having won the single sculls championship of the U.S.A. recently, is a fireman on the Philadelphia and Reading Railway.

Despite Tilden's absence from the American Davis Cup team owing to his suspension by the American Tennis authorities for writing newspaper articles, America easily defeated the Italian team.

T. D. Collett, who was recently defeated in one of the Diamond Sculls by J. E. Wright (Jr.) the Canadian sculler, will represent England in the single sculls at Amsterdam having won the Wingfield Sculls for the championship of the Thames.

The Canadian Olympic Team is now in Amsterdam and getting ready for the long distance. Cliff Bricker the Gall Olympian runner who has been in Holland for some time welcomed his fellow Canadians. He states that the runners in the Marathon will find the cobblestones that are used in road construction a great trouble and expects that sore feet will eliminate several of the competitors.

Australia is responsible for the latest golf story. It was noticed at Canberra that two Scottish representatives in the Federal Parliament always stayed on a

certain course on Friday. Their regular appearance on Fridays was noticed and in a casual way commented on. Various suggestions were made to account for this and at last one hit on the real reason. Thursday was the day set apart for ladies—and the number of balls lost on that day is almost unbelievable.

PIRATES' WIN STREAK ENDED

PITTSBURG LOST TO NEW YORK YESTERDAY BUT IS STILL CHALLENGING BROOKLYN FOR FIFTH PLACE

(Special to Daily News) NEW YORK, July 25—Pittsburg Pirates, who have been climbing rapidly in the National League of late in such form as to give Brooklyn Robins and other league leaders concern, had a temporary setback yesterday at the hands of the New York Giants but are still only five per centage points behind the Dodgers who were beaten by the St. Louis Cardinals. Cincinnati held third place by winning easily over the Phillies.

New York Yankees beat Boston Red Sox in the only game played in the American League and are eleven-and-a-half games ahead of the Philadelphia Athletics. Yesterday's scores: AMERICAN LEAGUE. New York 5, Boston 3. NATIONAL LEAGUE. St. Louis 3, Brooklyn 2. Cincinnati 5, Philadelphia 1. Pittsburgh 3, New York 6. COAST LEAGUE. Portland 4, Missions 7. San Francisco 5, Sacramento 8. ALL THE LUCK

Some people have all the luck. A resident of South Vancouver went on vacation and on returning found that during his absence the place had been turned into a huge stall with all the necessary piping and tanks complete. When we come back we are lucky if we find that the house is still intact and, as for a private still, we haven't enough for a bottle after the long distance runner who has been in Holland for some time welcomed his fellow Canadians. He states that the runners in the Marathon will find the cobblestones that are used in road construction a great trouble and expects that sore feet will eliminate several of the competitors.

Victoria Mines Ltd. Re-organized—Progress at Saddle on Hastings Arm—Rufus-Argenta as Good as Ever.

Difficulties which the Victoria Mines Ltd. have experienced since organization several years ago by Robert Martin are now being straightened out and it is expected the company will be able to do some real work now in the Stewart field. Out of the jumble, a new company, the Dandy-Star Mines Ltd., has appeared to take over all the holdings and interests of the Victoria company and, according to Capt. A. J. Gaul, M.E. who is in Stewart to take charge of operations, seventy-five per cent of the old Victoria Co. shareholders in Vancouver and Victoria have joined the new organization. New interests in the company include Col. W. W. Foster, W. G. R. Gordon, Kenneth Robinson and G. S. Eldridge. It is said to be the intention of the new company to continue work in the lower levels of the property where good results should soon be achieved. There is no preliminary work to do in the way of putting in camps of equipment.

P. E. Peterson, M. E., consulting engineer for the Silver Crest Mines Ltd., states that the aerial tramway which is being built to serve the Saddle property on Hastings Arm will, together with the new compressor, cut the operating costs of the mine greatly. A wharf 100 by 14 feet has been completed and excavation has been made for the lower tramway terminal; the right of way cleared and the cable is now being strung. The tram is a double-jigback, 8,400 feet long and suspended on ten steel towers.

The Rufus Argenta at Stewart is not likely to be adversely affected for long by the decision of the Daly-Gerard interests to drop it. Latest information indicates that the engineers of those American capitalists were entirely satisfied with the prospects after spending several weeks on the property and had so reported to their principals before Mrs. Daly became ill. The Rufus-Argenta Co. itself is in a sound financial position. It has money in the bank has no debts and has enough stock in the treasury to give any new company control. There are reported to be three other concerns negotiating for option or purchase of the property. Those knowing the group and the actual value of its mineralization have no doubt as to its future possibilities. It was simply the state of Mrs. Daly's health that caused the recent deal to fall through.

The provincial government, it is reported, has agreed to pay fifty per cent of the cost of completing an automobile road from 13-Mile Post to the Woodbine property at Stewart. The other fifty per cent will be paid by the Woodbine, such an arrangement having been recommended by the resident mining engineer, Dr. H. T. James, to the government. When the road was first built, it was constructed from two ends—13-Mile Post and the Woodbine—with the result that, when the appropriation was up, a distance of 2,300 feet had been left unfinished in the middle. When this has been completed, a good automobile road will extend from Hyder straight through to the Woodbine camp, leaving the Premier road at 13-Mile Post and crossing the adjoining Blue Jay property. It is expected that the work will be finished in about a month. This new road will also benefit the Northern Light property.

Dr. J. M. Turnbull, professor of mineralogy of the University of British Columbia and prominent mining engineer of the province, is making an examination of the Drum Lummon mine, down the coast from here. The trip was made north by the power boat Half Moon. Dr. J. M. Turnbull being accompanied by his assistant, W. C. Rannells, superintendent of the mine. A force of men to supplement the crew already at work. While the property has already been examined and reported on by a number of reliable engineers, the present operating company, \$66,000 tons or a gross value of \$63,500. This is equivalent to \$14.14 per ton and is about the average of Premier ore. The profit on treatment of this ore is placed at fifty per cent, or \$3,295,000. The Selukwe Co. announces that, in the event of no arrangement being made with Premier, the company will construct its own mill and proceed with production eventually. The future of B. C. Silver is exceedingly bright after many years of patient development. The Selukwe Co. is in a strong financial position, having \$750,000 cash in its treasury.

Premier Co.'s engineers have not reported very favorably upon the Selukwe property. "Summarizing the results of our examination," says the report, "we find there are no bodies of ore actually blocked out on even two sides by tunnels or by diamond drill holes and hence any figures for tonnage and outcome given herewith are based on the assumption that the ore drifted through in the main tunnel will continue upward and downward certain distances as indicated and that the grade will remain at certain values. Assuming ore cut in main tunnel will carry up fifty feet and down 100 feet we can block, as possible ore in two shoots, 16,794 tons or a \$13.41 average grade. Using Premier production costs of mill ore based on the first six months of 1927, which, we believe, are about what could be maintained should we mine this ore, we have a possible profit of \$76,492. If we assumed a total depth of 150 feet and \$12 value we would have 24,990 tons and a possible profit of \$83,716."

Developments at the B. C. Silver continue to command much attention. There is no doubt that the property at Stewart is a proven mine though no announcement has yet been made as to arrangements for milling the ore and placing the property in steady production. The London board of directors decided recently not to accept an offer of the Premier company to work the mine and treat the ore on a contract basis but to continue development itself with a view to proving up a known quantity and value. A deal with Premier, however, is still considered to be a possibility. The company's engineer has reported ore reserves developed in the B. C. Silver at \$66,000 tons or a gross value of \$63,500. This is equivalent to \$14.14 per ton and is about the average of Premier ore. The profit on treatment of this ore is placed at fifty per cent, or \$3,295,000. The Selukwe Co. announces that, in the event of no arrangement being made with Premier, the company will construct its own mill and proceed with production eventually. The future of B. C. Silver is exceedingly bright after many years of patient development. The Selukwe Co. is in a strong financial position, having \$750,000 cash in its treasury.

## WILLINGDON AT JASPER PARK

GOVERNOR-GENERAL AND LADY TO SPEND NINE DAYS AT FAMOUS RESORT

JASPER, July 24—After several weeks of strenuous journeying, which included their first trip to the wealthy Peace River country, the Governor-General and Lady Willingdon settled down at Jasper Park Lodge yesterday morning for a quiet nine days. They spent part of yesterday renewing acquaintance with the golf course, which gave them such pleasure last fall, and it is likely that golf will take up most of their time while they are here. Their Excellencies both played the 19 holes yesterday morning, shortly after their arrival, and Lord Willingdon went around again in the early evening, while Her Excellency enjoyed a swim.

With their Excellencies are Viscount Hardine, Captain the Hon. J. G. Jarvis, and Capt. Neville, the Vice-regal party is occupying the new self contained cottage overlooking Lac Beauvert.

"Our plans are not definitely settled," said Captain Neville this afternoon. "We have been very busy for some weeks past and their Excellencies have looked forward to their visit to Jasper Park as a rest."

"Rest," of course includes golf and for Lady Willingdon whose energetic idea of rest is another form of activity, swimming and riding. Plans have been sketched for a long trail trip for her and it is not unlikely that she will ride to Pochontas and the famous Grotto hot springs. Her enthusiasm for the trails of Jasper has grown ever since she made a trip to Maligne Lake last year.

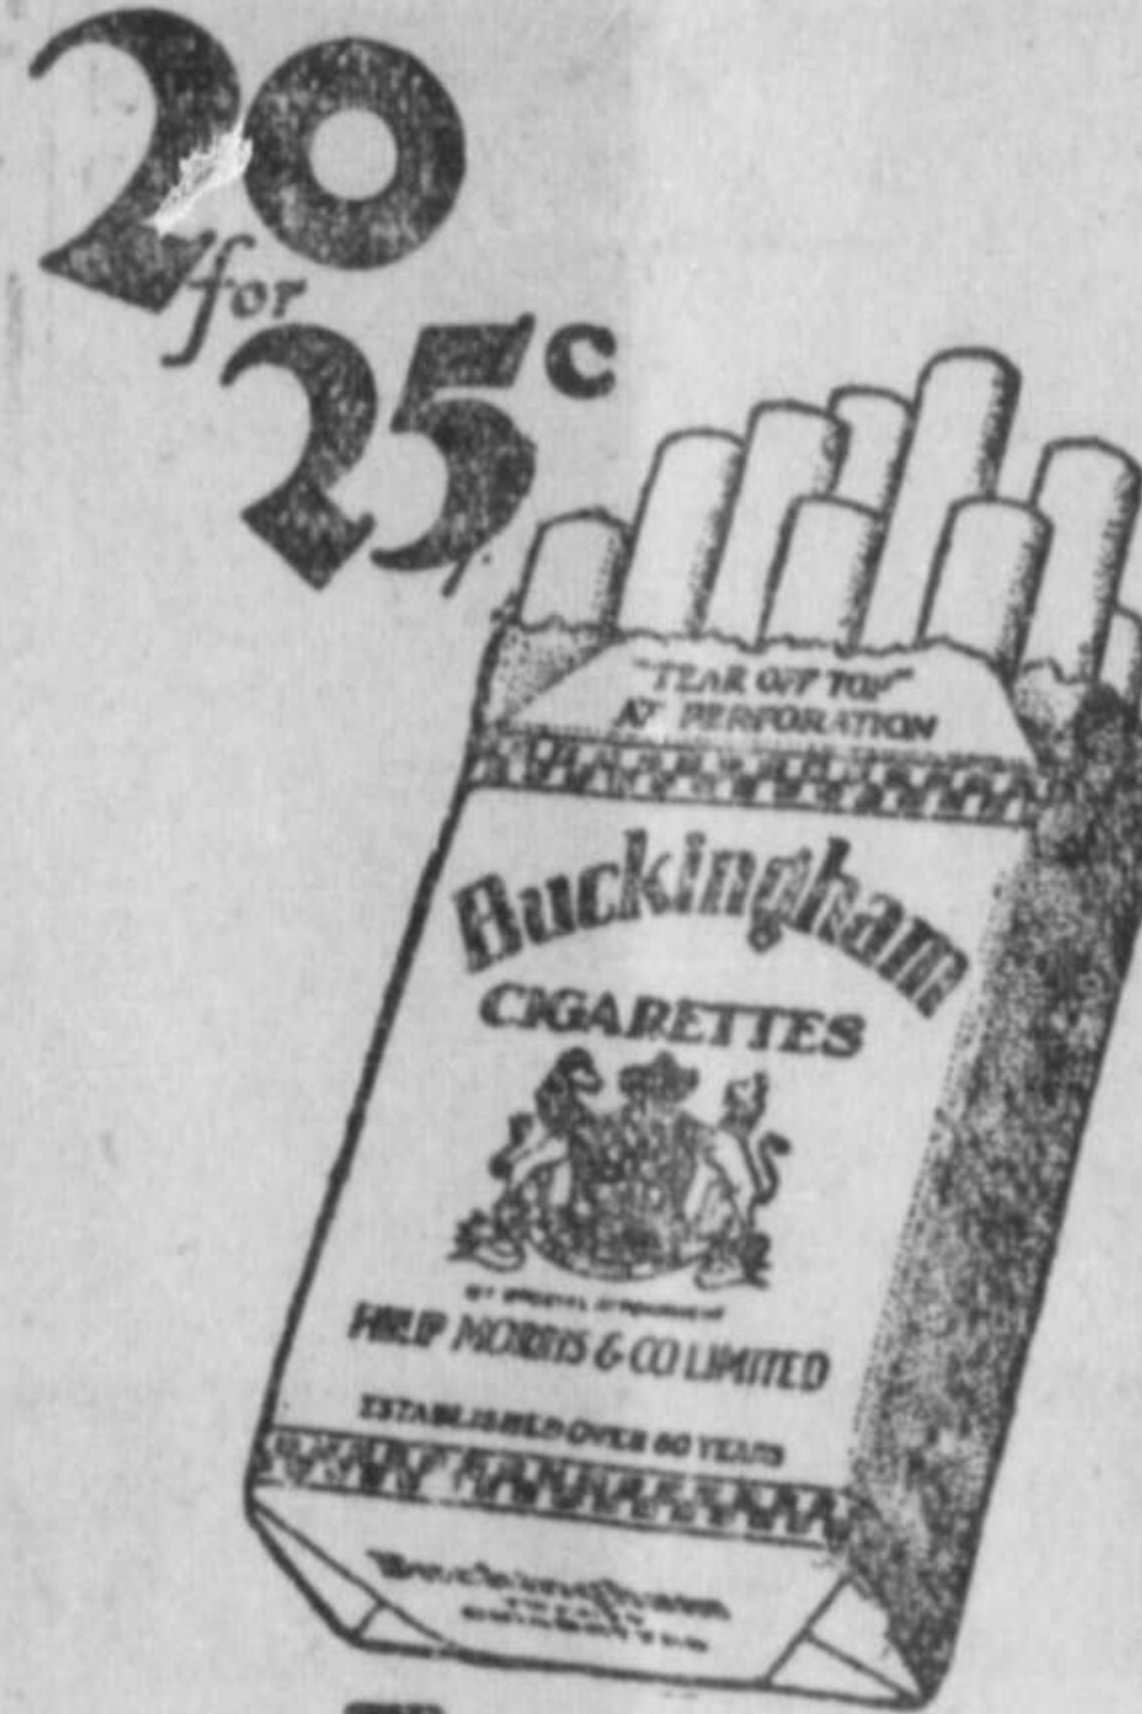

Last evening the Gov.-General was the guest of honour at a dinner party given in the Lodge by E. H. Knight, superintendent of the park. Among the other guests were Hon. Charles Stewart, minister of the interior, Sir Henry Thornton, K.B.E., president and chairman of the Canadian National Railways, Dr. H. McCombe, chief medical officer of the Canadian National system, W. A. Kingsland, general manager western lines, H. A. Dixon, chief engineer for the Canadian National Railways, western region, and Ludwig Au-
