### Mayor Taylor Den'es He Attempted to Block Appointment of Commission to Investigate Vancouver Conditions

ANCOUVER, April 5.- Denying emphatically that he had ever attempted to block the appointment of a Royal Commission to investigate conditions in the police force, Mayor Taylor, at the police commission meeting today, said he had twice discussed the question with the attorney general and premier. The mayor said:

"Whatever evidence the commissioner Fletcher may have in his posesssion has never yet been disclosed to his fellow commissioners and until I am made aware of the evidence it would be both idle and futile for me to express an opinion thereon."

Mr. Fletcher is probably aware that a Royal Commission is an expensive proceeding and before subjecting the ratepayers to the expense, evidence which it is proposed to present should b submitted or at least be known to the commissioners and should be submitted or at least be known to the commissioners and

should be examined by the city prosecutor and city solicitor. The police commission rejected the Royal Commission pro-

Tenth round-Even.

Outskilled and outgeneralled by his Vancouver opponent, Battling Dido Gurvich of Prince Rupert met his Waterloo like a man last night at the hands of Jimmy McDonald of Vancouver who was given the unanimous call of the judges on a wide margin of points. It was a ten-round return bout between McDonald and Gurvich for the title o middleweight champion of Northern British' Columbia and a purse of \$400-\$240 for the winner and \$160 for the loser. Promoter Ralph Smith offered one of the most attractive boxing card rushing tactics and there was slugging ever presented here and a crowd of over teven hundred persons was packed into the Exhibition Hall for the occasion-

WIMMING CLUB HEARS SUGGES-TION WHICH MAY PROVE VAL-UABLE FOR SCOUTS

At the Swimming Club meeting Tuesday night a suggestion was made that the scout camp might be established at the head of the Salt Lake within Salt Lake Park, where there is said to be a considerable open space which could easily be enlarged.

It was also suggested that the scouts during their stay in camp might help in making a trail to connect the camp site with the swimming pool at the south end of the lake.

### MY KITCHEN NOTEBOOK

by mary Blake Domestic Science Counselor

A Quart of Milk Each Day for Health

I was visiting a friend the other afternoon. She was greatly worried be-cause the family doctor had said that both her small son, Billy, and her hus-

band were underweight.
"What shall I do?" said she. "The doctor says that both of them aren't economy—saves on butter and cream. getting the quart of milk a day that health rules demand. Yet both of them tire so easily of milk."

### Let Them Eat, Instead of Drink, the Milk

"A clever woman like you," I laugh ed, "should have no difficulty, in getting them to take their milk. If they don't drink milk-and many people won'tlet them eat it.

"A big dish of cream soup, for example-doesn't that contribute at least one glass of milk to their diet? And they won't protest against it, either. How about hot chocolate? They like that, don't they? Another glass. Creamed vegetables, milk puddings, custards, creamed eggs, cream sauces on fish or croquettes, milk toast-that's just the beginning of a whole list of dishes each of which adds its bit to the needed 'quart a day.'

### Quantity Isn't All-Be Sure of Quality

guard quality absolutely.

"You know that Carnation is the purest of whole milk, simply evaporated to double richness and sterilized for safekeeping. And you know that its quality is not only extremely high, but utterly dependable—that there is no variation-no waste.

"But that is only part of its unique value in cookery. Its richness is an Its reliability prevents food failures, and its' homogenization'-by which the double cream content is broken up into minute particles and uniformly distributed through every drop of milk—gives cooking results which far surpass those of milk in any other form. The incident for which he was convicted occurred three years

In a recent number of your paper you reported the Kispiox Indian as made hysterical by the witchcraft of this man. It is not Billy Williams who has stirred the Indians but other influences from outside.

On March 6, 1928, Billy Williams was a heathen and prior to that time may have practiced witchcraft as several are actually doing both in Kispiox, Hazelton and other places, Those who call the witchdoctor or medicine man to be cured by them are victims of superstitution dishonerable to God and man. # Ladies' Hats, Coats, Dresses

Continues until Easter

Owing to the great success of our Clock Sale on Friday and the very many buyers who thronged our store that morning, we have decided to put our whole stock of

> LADIES' HATS, COATS AND DRESSES ON SALE

right up until Easter. Every article in the store will be offered for sale at a reduction of 25 per cent on the regular selling price.

The regular prices of the Louvre have always been reasonable and at this Sale Price it means that every article sold is an absolute bargain.

For instance, the sale price of Jersey Sport Dresses which come in navy, brown, fawn, peach, green, etc., will be only \$5.95.

Tweed Coats, sizes from 16 to 40, from \$9.75 up.

A new lot of Georgette Dresses, twenty-five in all, have just come in and they will go on sale, too. They are in all sizes and colors and the sale price will be \$12.95.

Ladies' Navy Blue Coats, moleskin trimmed and silk lined, will go for \$27.50.

These are only specimen prices of the many articles which will all be offered at similar reductions.

If you are in doubt as to what you require for Eastertide we invite your inspection of our stock to make your own choice.

The striking thing about most patients of the chiropractor is that they have not just happened into his office -they have been sent there by a former patient - one who knows what Chiropractic did for him, and what it will do for others.

It is this circle of satisfaction, this proof by way of results which has built chiropractic to its present eminence. As people learn that there is science which strikes at the cause of disease instead of trifling with effects, Chiropractic grows. By my chiropractic health

method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.

CIAL TO GOOD ORDER IN CARRYING LETTER

GIBRALTAR, April 4. - The trial opened yesterday of Capt. Kenneth Dewar of the battleship Royal Oak on charges of conduct prejudicial to good order in accepting and forwarding to Vice-Admiral Kelly, commanding the Collard a letter from Commander Daniel, the terms of which were subversive to discipline.

The two rear admirals who were in attendance retired on the objection by the captain to their presence at the

Paymaster Crighton, who typed the letter, in questions from the captain. who was conducting his own defence. affirmed that the captain emphasized three times the secrecy of the mis-

"From your observation, did you think I was the sort of person to lose my temper with the admiral," asked the captain.

"Never." said the paymaster. "Did you see evidence of indignation in the ward room as the result of the incident described in the letter?" the

"Yes," was the reply of Rear Admiral Collard, who came forward.

"What were your relations with the officers of the Royal Oak, the prosecutor asked.

"My flag captain's attitude was perfectly correct from a service point of view, but there was no friendship behind it," the admiral replied. 'Did you place confidence in him?"

the prosecutor asked. "No, I cannot say that I did," was the reply of Collard.

Describing the incident of Captain Dewar entering his cabin with an envelope in his hand and remarking "Complaints for the vice-admiral," he then left the cabin.

There was a brisk all round exchange when Captain Dewar opened the crossexamination of Collard.

Captain Dewar: "Do you not agree that my justification or reverse for forwarding Commander Daniel's letter largely depends upon whether the incident described occurred?" Collard: "I do not."

"I have no intention of imagining myself a bandmaster." the Admiral declared decisively, when the Captain asked him if he thought a bandmaster would be discouraged by being abused before his men.

"Will you answer me yes or no," the captain demanded at another stage. "I will answer as I think fit," the admiral replied.
