Machine When Rising After Accident, Hits airbump and Crashes into Road Catching Fire Immediately.

CALGARY, Oct. 24.—Hitting an air bump when taking off from a stubble field seven miles east of here at two o'clock yesterday afternoon, an airmail bi-plane of the western Canada Airways crashed into a bank on the side of the Calgary-Strathmore road and was destroyed by fire. The passengers and pilots escaped with minor burns.

The machine, which inaugurated a nine hour mail service between Winnipeg and Calgary Monday was forced to land in the field about 5.30 Monday afternoon

## Victoria Urged To Support A Liberal Candidate For Balance Present Dominion Parliament

VICTORIA, Oct. 24.—"If the Liberals place a representative man before you in the coming by-election it will be to the interest of the citizens of Victoria to support him, at least for the remainder of this Parliament. You need not worry what will be done when the general election comes. I think you understand the situation." This is the way in which Hon. J. H. King, minister of publichealth, placed the federal by-election situation before the Victoria Liberal Association at their meeting last night. It is generally understood that he was referring to Dr. MacLean as the candidate who is spoken of as a representative man.

Officers were elected as follows: President, C. J. V. Spratt; First vice-president, A. E. Humphreys; second vice-president, Mrs. Crocker; secretary, C. R. Bishop; treasurer, L. U. Conyers.

Former World Champion and Wife Going in for Literature in London

(Edmonton Journal)

It is reported from London that Gene Tunney and his bride are establishing a home here, where they will form a literary salon. How much the retired champion's cultural hunger is genuine is something on which the most diverse opinions are being expressed. The subject is considered of sufficient importance for an article in the Atlantic Monthly. Tunney having been invited to SCHEDULE FOR be wondered at that what is regarded as a highbrow magazine should address itself to the theme.

TROM the cold, deep waters of the seven thousand miles of British Columbia's Pacific Coast, comes a harvest of fish that the palate of all mankind enjoys! For over twenty years our Province has been a leading factor in Canada's fishing industry. Progress continues unabated ... the markets to the ends of the earth demanding ever increasing quantities.

The past ten years have seen this industry Island and two stations on the Queen Chargrow from 14 million to 27 million dollars . . . an increase of 89%. Our annual catch totals nearly half the entire Canadian production, and "King Salmon," our marine silver mine accounts for at least 15 million dollars a year.

The distribution from our Provincial hatcherics of millions of salmon eggs to renew the harvest that goes into the nets; the Treaty between Canada and the United States for the protection of the Pacific Hallbut (March, 1923) providing a close season from November 16th to February 15th; modernized canneries, 83 in number, and sane Federal Fishing Laws, carefully administered, are the foundation of an industry that will continue to grow.

The fame of British Columbia's Whaling Fisheries is of long standing, and has materially increased the value of the products from his industry. The yearly catch, now about 40%, is taken between one station on Vancouver

lotte Islands.

Much as has been done to develop and conserve our fishing industry, there still remains a great deal to be accomplished. The vastness of our waters and the extent and ruggedness of our coast make organized protection and administration extremely costly.

But the safeguarding of our fisheries is a matter which now commands the earnest attention of our government, who realize the importance of conserving this basic industry.

As the oldest industry of our Dominion, fishing has been one of the largest revenue producers, and it is significant that Canada's youngest Province, in less than twenty years, should secure a leading position in the world market. This aggressive search for foreign business has been an asset which undoubtedly has created one of the most amazing records of our basic industries. Well may we be proud of our Fisheries!

Rend these announcements and understand your province's ? progress . . . clip them out and send them to friends. If you desire extra copies of these anyouncements a note to this newspaper will bring them. Advertise your Province!

THE NEW VICTOR RADIO SPEAKER

- deftly enclosed in a stately brown walnut cabinet. We leave it to you to judge the Victor contention that the tone of this speaker will please all mended for use with Victor Table Model

has made good! TTAS made good because Victor made it well! Victor Radio, today, is the fruit of sound planting and suc-L cessful growth on the part of an organization famous for its musical instruments. Its positively startling success-

its acceptance in a short space of time, is proof that Victor

has kept faith with the radio buying public.

We feature above, the widely bought single control table model, simply and elegantly designed in walnut, to be obtained from Victor Radio Dealers with a complete set of eight tubes and cord ready to "plug-in" to the lighting socket, for
