# Citizens of Smyrna Terrified as Ninety Per Cent. of Their Homes Destroyed by Terrific Earthquake

Waters on Sea Shore Boiled as if in Open Kettle: Eight TORRID HOCKEY About People's Heads

ONSTANTINOPLE, April 2.—Terrifying phenomena accompanied the earthquake which shook Smyrna to its foundations Saturday, according to reports received here. The latest estimates place the dead at 60, all Turks.

Witnesses of the disaster say there was a play of celestial electricity before the first shock. The waters Eighteen Thousand fans watchof the sea near shore rose and whirled and receded as if boiling over hot fire in an open kettle. The terrorstricken inhabitants of the city and suburbs fell to their knees in prayer. Then came silence. Next a tremendous roaring rumble was heard, greater than thunder. The earth quivered for a moment, then shook and fairly will travel to Boston for the second rocked. This was the first shock. Eight others followed at short intervals.

Complete reports have not yet been received from the country districts but the damage is widespread and the winner. heavy. In one village a family of five were killed when the home collapsed.

The population of Smyrna is prowling the streets, many of the people in scant attire, but all fearing to enter the standing skeletons of their homes for clothing.

It is stated that ninety per cent of the buildings in Smyrna were damaged or destroyed, including six mosques, four schools and five factories.

# Many Americans Coming to Canada This Year Result of Depression in That Country Says Robt. Forke

IV INNIPEG, April 2 .- Not only will a large number of Canaadians return from the United States but many citizens of that country will seek homesites in Canada during the coming year, predicted Hon. Robert Forke, who reached Winnipeg last night from Ottawa. The prediction of the minister is based on reports of Canadian agents in United States, who state that they are receiving an almost unprecedented number of inquiries for information concerning Canadian settlement.

The minister was of opinion that the industrial depression commencing in the United States already was having an unfavorable effect on that country. On the other hand, according to reports, there will likely be a demand on the Canadian labor market exceeding the supply.

# TUNNEY MAY FIGHT NEXT AT WEMBLEY

NEGOTIATIONS FOR TEX RICK-ARD TO STAGE FIGHT IN ENGLAND

weight championship bout at Wembley stadium have been in progress for some time, officials of the stadium stated. Only last week Bernard Mortimer, prominent British sportsman was in London discussing the proposal for staging the affair here. "I'm pretty certain that if Tex Rickard decided to come to London with the fight, it will be at Wembley," Mortimer told the officials.

# 200,000,000 People in Canada in Prospect by Dean Brock of U.B.C.

Trade of Canada Much Greater Per Capita Than That of United States Says University Professor

K AMLOOPS, April 2.—Dean H. W. Brock of the faculty of applied science at the University of British, Columbia before the Canadian Club here said he foresaw a population in the Dominion of 200,000,000 and a stupendous growth in industry and foreign trade never before seen in the world. He forecast a population of 30,000,000 for southern British Columbia within a generation or so.

The speaker based his assumptions on an analysis of the condition in Europe in relation to temperature, rainfall, coal, resources and elevation. Europe was near the factured, as compared with forty-seven saturation point, he said. Canada's per cent of United States exports. growth, he said, would surpass the United States foreign trade was \$77 per meteoric rise of the United States. Copina and Canada's \$230. Canada with a population of 9,000,000 had a foreign trade exceeding that of

the United States when the latter had WINNIPEG, April 2 .- Viscount Will-In regard to export of raw materials, ingdon, governor general, passed the Dean said forty per cent of the through here last night enroute to exports of the Dominion were manu- Vancouver.

# Building Permits for Month Over Eighty Thousand Dollars Including Nine New Dwellings

UILDING permits for the month of March totalling \$80,900 has boosted the total for the first three months of this year to \$88,425 as compared with \$17,575 for the opening three months of 1927. The March list includes the new \$60,000 theatre to be erected by Misak and Paul Aivazoff as well as nine new dwelling houses in various parts of the city.

Seventeen permits were granted during March as follows: Mrs. A. Gillett. reshingling house.

CHANCE OR FATE OR WHAT?

Last week an American horse would have won the Grand Na- BUSTER KEATON tional Steeplechase but for a little slip which threw the horse and allowed an English horse of no particular merit to slip in first. What was the reason?

All through life we find these little happenings changing our whole life trend. The slightest things have big influence. Sometime the influence is for good and sometimes, as with the American horse, it causes loss of fame, prestige and money. We are to some extent creatures of fate but also we have a large measure of control over our own destinies.

### COURTEOUS MR. BENNETT

(Victoria Times)

In the House of Commons the other day Hon. R. B. Bennett ask- ture "College" will be the offering. ed Premier King if he could give him any information as to the progress of the discussions regarding the St. Lawrence project. The college athletes, Olympic champions and leader of the government advised his friend opposite that nothing could be safely disclosed at the present time. With a due appreciation of the circumstances, the courtesy shown by Mr. Bennett and Borah, as well as the baseball team of the graciousness with which he accepted Mr. King's statement, The the University of Southern California, Toronto Star observes, "were worthy of the finest traditions of Par- support Keaton in "College". All of liament."

Our eastern contemporary reminds us that the manner of the remuneration in the film to stimulate Conservative leader was quite at variance with that of some of his interest in the city of Los Angeles, more violent newspaper supporters, who almost suggest that there is something sinister about the secrecy enshrouding the discussion going on between the governments of Canada and the United States.

husband. Ostracized by society, she is forced to the extremes of poverty. Her unrelenting husband, who has previously refused to allow her to see her child, finally invites her to his home where she finds the child dead.

# "UNDERWORLD" SHOWN HERE AT WEEK-END

The "love triangle" is the basis for a great many screen dramas, but it fell to the lot of Josef Von Sternberg to develop a "love quadrangle" as a bombshell of human emotions.

The quadrangle is a dramatic principle worked out in Ben Hecht's sensational crime story "Underworld" which reaches here at the week end. One woman and three men are con-

cerned-Evelyn Brent, George Bancroft, Clive Brook and Fred Kohler, Bancroft is a gang leader and Evelyn Brent his sweetheart. Fred Kohler, a rival gangster, has a mad desire for her. She however, is drawn to Clive Brook.

The quadrangle proves even more destructive than the usual triangle, Kohler attempts to win Miss Brent by physical force and is shot down by Bancroft. Bancroft is arrested for the murder and this proves a solution for the love of the leading woman and Brook. . The action and reaction of the strange struggle in four hearts works out in tempestuous manner and is declared to be one of the most powerful dramatic

A Distinctively Fine Car Among Light Cars

HE distinctiveness of the custom-built A automobile is immediately apparent in this luxurious model of the New Car.

In its sweeping, streamline body, enhanced by full crown fenders and lavish use of nickel, in its wide, deeply-cushioned lounge seatsin all the finishing touches which identify the custom-built car, the New Fordor Sedan ranks with the finest car made.

To add to comfort and convenience there are arm rests at the ends of the rear seat, a swing-

ing robe rail and oval bow light in the rear compartment. Embossed panelling on doors and on the ends of the front seat, ventilators in the lower panels of the cowl on either side, and numerous other features found in expensive cars are features of the New Fordor Sedan.

And the same careful attention which stamps the appearance of the New Fordor Sedan with individuality, has made this car of such mechanical perfection that in performance and durability it is unsurpassed.

You have made me feel so conscious of your hospitality and your friendliness ever since I came here and I am glad to feel that an ever-increasing number of visitors from your country are being made to feel welcome in Canada. And indication of how steadily the tide of visitors from the United States is flowing into Canada can be found in the fact that in the province of Ontario alone last year 300,000 autos were temporarily admitted from the United States."

UNION STEAMER PRACTICALLY NEW SHIP FOLLOWING STRANDING IN NOVEMBER ON MIST ISLAND

Practically a new ship and evidently in as good a condition as ever, the crack Union steamer Catala, Capt. A. E. Dickson, arrived in port at 3:30 yesterday afternoon from Vancouver and waypoints, on her first regular call since last November 8 when she was wrecked on Mist Island, a couple of miles south of Port Simpson. The usual Sunday crowd to meet the vessel was enlarged considerably by many people desirous of making an inspection

of the popular coast liner. The salvage and repair of the Catala. which sank on the ledge of rock following her stranding, the tide flowing

her for about a month, Hyde of Spokane will erect a concrete constituted one of the biggest jobs of building at the corner of Third Avenue its kind on the coast in several years, and Fifth Street for the use of the Now her safe old handsome self again, local branch of the Royal Bank.

# GALL STONES

There are a great many conditions that are supposed to be incurable, or at best, operatable; for instance, gall stones.

This condition is brought about by an abnormal chemistry of the fluid contents of the gall bladder.

By my natural methods, I overhaul the entire system, restore nerve enervation to the entire organism which ensures a 100 per cent normal chemistry. By restoring the chemistry of the gall bladder to normal, these gall stones will dissolve to after spending several days at Katum posed to extensively beautify the square operation for the removal of tonsils in such an extent that they will be able to pass through the bile duct into the small

intestine and thus be eliminated by the body through natural channels. Up to the present time I have cured every case of gall stones that have come under my care.

# Ladies' Hats, Coats, Dresses

Continues until Easter

Owing to the great success of our Clock Sale on Friday and the very many buyers who thronged our store that morning, we have decided to put our whole stock of

> LADIES' HATS, COATS AND DRESSES ON SALE

right up until Easter. Every article in the store will be offered for sale at a reduction of 25 per cent on the regular selling price.

The regular prices of the Louvre have always been reasonable and at this Sale Price it means that every article sold is an absolute bargain.

For instance, the sale price of Jersey Sport Dresses which come in navy, brown, fawn, peach, green, etc., will be only \$5.95.

Tweed Coats, sizes from 16 to 40, from \$9.75 up.

A new lot of Georgette Dresses, twenty-five in all, have just come in and they will go on sale, too. They are in all sizes and colors and the sale price will be \$12.95.

Ladies' Navy Blue Coats, moleskin trimmed and silk lined, will go for \$27.50.

These are only specimen prices of the many articles which will all be offered at similar reductions.

If you are in doubt as to what you require for Eastertide we invite your inspection of our stock to make your own choice.
