# Natives of Fiji Showed Intense Excitement as They Welcomed the Australian Flyers at Suva Last Eve

THE RESIDENCE OF THE PARTY OF T

Public holiday is proclaimed today in honor of BELGIANS MAKE the Southern Cross, the first airplane to reach islands of south seas

O UVA, Fiji Islands, June 5.—A public holiday was declared here TANKS REPLENISHED WITH PETROL today in honor of the transpacific monoplane Southern Cross and four men who arrived after an overseas flight of 3,132 miles from Hawaii at 6.23 Pacific Coast time last evening.

The plane was the first ever seen in Fiji and excited the wonderment of thousands of natives and others. Then the crowds that had been kept outside the bounds of the park to afford safe landing could be denied no longer. They broke the cordon of police and rushed toward the machine and fliers and with difficulty were kept

# Manufacturers' Head in Optimistic Mood at the After War Changes

Return to More Stable Conditions as Result of Growth in Political Stability Particularly in Europe

June 5 .- The international trend during the past year has indicated growing political stability throughout the world and particularly in Europe, declared President W. S. Fallis of the Canadian Manufacturers' Association at their annual general meeting today. Law and order are gradually replacing war conditions and the following unsettled period. Extreme economic and social theories are losing their hold and are being succeeded by reasonable views. The influence of these changes is evident in commercial fields. Debt settlements are being arranged, currencies are

ong stabilized, credit is being re-established and the old channels of trade, Consequently, materials for houses, diverted by the war and its aftermath, clothes, food, transportation, and amuseare being restored. As a result, international finance and trade are gradually cheaply that the standards of living and increasing.

scarcely realize the immensity of the possess comforts and luxuries often dedistribution and consumption. It re- eration. quires so much time and energy to keep in constant touch with new conditions, TTA rapidly evolving from these changes, HORNSBY, COBB their significance.

Mass production is extending; more machinery is being used for operations previously performed by hand; tasks which formerly required years are now cone in weeks. This is fortunate in a new country where many kinds of large scale construction are constantly under way. As many articles of the same kind VETERAN PLAYERS BRING VICTORY can be made more economically than fewer articles of different kinds. Machinery increases and cheapens production.

# WEDS A BARMAID

Groom is Otway Plunkett, Heir of Lord Louth, of Ancient Irish Family

WILLIAM INNABILE VEELS

- La.

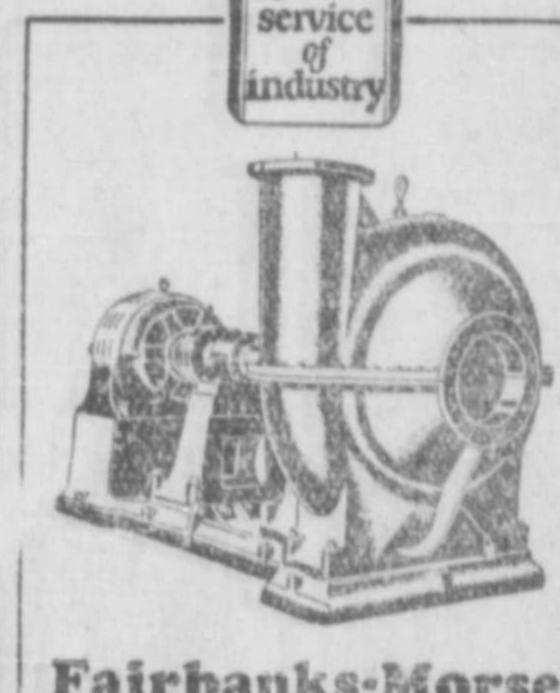

LONDON. June 5 .- The romantic marrevealed. The marriage took place last July, but the strictest secrecy has been observed. The bridegroom, who is 36. Harry Kirk, who has been in charge is Otway Randal Plunkett, son and heir of Lord Louth. He was married John's Road, Jersey, who was formerly a telegraph messenger and latterly a barmaid at a local hotel.

Lord Louth has himself been married three times. His present wife whom he married two years ago, was Lady Prich-Jones, of Angelsey and Elstree, Hertfordshire. His son, Otway Plunkett, was born on April 26, 1892. He belongs to one of Ireland's most ancient families. The barony is more than 380 years old, and when he succeeds to the title he will be the 15th holder. Lord Louth was born on the yacht Pilgrim, off Dieppe, and Pilgrim is one of his Christian names.

The present Lady Louth's father, who began life as a draper's assistant, left a fortune of over \$850,000.

Mr. and Mrs. R. L. McIntosh are in town from their country home at Terrace to attend the synod of Caledonia diocese which opens here tomorrow.

On the

## Fairbanks-Morse Stock Pumps

The Fairbanks-Morse Stock Pump is not just another pump. When Fairbanks-Morse & Co. decided to build a pump for handling wood pulp stock and other fibrous or stringy material, they consulted with Mr. A. B. Wood, an outstanding authority and designer of pumps of this nature. Mr. Wood worked with Fairbanks-Morse engineers and produced a pump that is an improvement on anything theretofore designed or constructed. The new improved stock pump, with its two blade enclosed impeller, will handle, without clogging, fluids containing solids up to one pipe size smaller than the suction opening, and fibrous or stringy material of any consistency that will flow through a pipe line.

# KIDNEY DISEASES

Cigarettes

TUTTUTUTU

TITITITITI

Mild and Fragrant

The kidneys are the filters for the whole system, eliminating from the blood stream all excessive fluids and waste that cannot be disposed of through any other channels.

LULLILLI

THE THE PARTY OF T

As long as the system is in reasonable condition, and nerve pathways leading to them are unobstructed, these organs remain in a healthy condition, but if forced to eliminate large amounts of filthy, morbid matter, uric acid, sugar, etc., the delicate membrane becomes inflamed and so modified that it is incapable of performing its function.

There are two general conditions resulting from overworked kidneys: Nephritis, or

Bright's disease, in which the urine is surpressed, thus leaving the waste and poisons in the blood; and Diabetes in which the organs become overactive and too much urine is voided. In either case, pressure on nerve trunks will result, making it certain that there is trouble ahead.

Don't let your kidney trouble become chronic. Consultations Free

LAKE OF THE WOODS MILLING COMPANY LIMITED, KEEWATIN

Dear Sir,-

We are very pleased to acknowledge receipt of your favor of the 2nd inst., also loaf of bread made by Mr. Andrew of Electric Window Bakery, Prince Rupert.

It is a pleasure for us to give an opinion on a loaf equal to that sent in from Mr. Andrew's shop. At times, we get the reputation of being too harsh in our criticism of bread but in this case there is very little to criticise. The loaf has good appearance.

It is well baked with a good bloom on the crust. The color and texture are excellent. Eating qualities, first class. The fermentation of the dough has been just about right.

We would hesitate to suggest any change of formula or method as we doubt very much that any suggestion we could make would result in better bread than Mr. Andrew is now making.

We would be glad to have you extend to Mr. Andrew our congratulations on the quality of his product and our best wishes for future success.

Yours very truly,-

LAKE OF THE WOODS MILLING COMPANY LIMITED (signed) J. M. Pearson,
