"If Liberalism does not appeal to the mass of the people it cannot live," declared Hon. T. D. Pattullo in the climax of a splendid fighting address last night at a large meeting in the Moose Hall. At the public meeting in Moose Hall last night Hon. T. D. Pattullo spoke of a big scheme which is planned for the development of the Kitsumkalum and Naas River valleys. He was not in a position to say more about this just now but he assured the audience that he was in favor of it and, whether elected or not, would get behind it. What was necessary first was to get rid of the P.G.E.

Mr. Pattullo also spoke of the possibility of the government aiding or undertaking the development of hydro-electric power in the interior of British Columbia and at Alberni. Power was the great need of today. He believed that the government would be well advised to undertake a hydro-electric policy. In spite of the Jeremiahs, the country was making progress and would do so more rapidly in the future and the government must be a real factor in such development.

Following a complaint by the Skidegate Fishermen's Union, the Prince Rupert Board of Trade, Milton Gonzales presiding, yesterday decided to request the Minister of Marine and Fisheries to take action to prevent American salmon trollers from fishing in Canadian waters and also to see that they lived up to the treaty requirements in regard to the use of Canadian ports.

The complaint of the fishermen was substantiated by S. E. Parker, who said the matter had already been constantly brought to the attention of the department by fishermen and business in-

erests but with no results. Americant trolling beats were larger and better equipped than Canadian and with FUTURE MARKET times as many as fifty from one boat, they managed to make good catches. No fewer than 161 American boats had been seen in Hecate Straits in one day and the more fish they caught, the fewer reached the rivers. MERCHANTS EXCHANGE TO ESTAB-They lie in B. DUGALD DONAGHY SAYS P.G.E. LOAD IS RESULT OF VICIOUS CON-SERVATIVE SYSTEM

VANCOUVER, July 7 .- Asking whether Tolmie or Stevens was the real provincial Conservative leader Dugald Donaghy last night answered "H. H. Stevens on the P.G.E. policy." Donaghy declared that Stevens was trying to conceal the fact of the Conservative approval of Brewster taking over the road as a wartime measure and the load on the province was the direct result of the vicious principle of the Conservative Government backing private bonds.

"Who must we face as leader of the Conservative party, Tolmie or Stevens?" Donaghy asked. He described Stevens as "the most successful author of olitical fiction I've ever known."

He was admittedly north of the boundary line, but was also admitted by the United States authorities to have been 6 miles from any Alaskan shore. He was nevertheless fined. Canadian authorities apparently do not pay any attention to American boats fishing south of the boundary line, watching only the three mile limit. In view of the constantly increas- ing numbers of American fishing boats operating in Hecate Straits, we are of the opinion that the present Patrol System is rather inadequate to prevent those vessels making use of Canadian Harbors in violation of the Treaty. We are pointing out these matters and wish to bring to your attention the fact that they are creating a very live and vital situation on the North B.C. Coast, seriously affecting and re- ducing the opportunity for Canadian fishermen to earn a livelihood and also the future of this industry. 	Richmond's Louve Third Avenue Third Avenue	(By The Traup) An example of good sportmanship was that of Joe Wright, the Canadian oarsman, who won the sculling semi- final yesterday against his fellow clubman. Jack Guest, at Henley. He had every right to keep going when his opponent hit the piles at the side of the course but instead of doing so he stopped until his friendly con- tender had righted himself. To have continued would have been to have won without possibly being the bet- ter man. As it is he won because he was the more skillful with the oars. A Frenchman again won the tennis championship but not the same Frenchman that won last year. Bill Tilden went down to defeat without getting into the finals and the victory of Lacoste was won from the former champion and his own countryman. Cochet. TERRACE Miss Dorinda and St. John Colthurst arrived home on Monday from southern B. C. where they have been attending private schools. Mrs. Lee and three daughters of Anyox arrived on Wednesday to spend a holiday at Hill Farm. The two elder girls will remain for the entire vacation. Captain J. B. Colthurst returned on Thursday from Pacific where he accompanied F. M. Dockrill, Conservative candidate and spoke in his behalf on Wednesday night at a well attended meeting. Miss Elderkin, Terrace high school principal, left on Thursday to spend her vacation in Vancouver. Her mother and sister of Nova Scotia were paper of the section. 	tends to work a hardship on Canadian Fishermen. A few years ago a Can- dian fisherman was seized and fined for fishing north of Zayas Island. He was admittedly north of the boundary line, but was also admitted by the United States authorities to have been 6 miles from any Alaskan shore. He was nevertheless fined. Canadian authorities apparently do not pay any attention to American boats fishing south of the boundary line, watching only the three mile limit. In view of the constantly increas- ing numbers of American fishing boats operating in Hecate Straits, we are of the opinion that the present Patrol System is rather inadequate to prevent those vessels making use of Canadian Harbors in violation of the Treaty. We are pointing out these matters and wish to bring to your attention the fact that they are creating a very live and vital situation on the North B.C. Coast, seriously affecting and re- ducing the opportunity for Canadian fishermen to earn a livelihood and also the future of this industry. We therefore beg that you will seriously investigate and take steps to ameliorate conditions. Respectfully submitted, (Signed) S. E. PARKER, JOHN DYBHAVN, G. Substantial Show of Humpback Salmon Outside Reported-Mill Now in Full Operation-McLean to Instal Floats

A substantial show of humpback salmon reported from outside waters indicates that a fair run of these fish may soon be expectedat least better than the run of last season which amounted practically to a nonentity.
