NOMINATED AGAIN FOR PRINCE RUPERT

Hon. T. D. Pattullo, minister of lands, who will again uphold the cause of Liberalism in his old constituency.

Hon. T. D. Pattullo Nominated Yesterday at Liberal Convention

AMID much enthusiasm Hon. T. D. Pattullo was nominated as Liberal candidate by the district convention which met last evening in the Moose Hall. Mayor McMordie presiding, and with representatives present from all over the riding. The nomination was proposed by J. L. Barge of Queen Charlotte City and seconded by L. W. Patmore of Prince Rupert and carried by acclamation, no other suggestion of any kind being offered by anyone.

In moving the nomination Mr. Barge spoke of the good work the candidate had done on Queen Charlotte Islands and throughout the district. Mr. Patmore spoke of his value to the province as an administrator and said he was the only logical man. He doubted if anyone else was even thinking of the nomination.

TEN SPEEDERS PILED UP AND A MAN KILLED

EDMONTON, June 14.—One man was killed and nine others injured with broken arms and legs when a caravan of ten speeders carrying C.N.R. laborers, piled up in a heap near Ashmont on the new Ashmont-Bonnyville line when the first of the speeders left the rails causing the others to pile up Monday, according to word received here. Walter Wallis was killed while Nile Golak is not expected to live.

NOBILE WAS INJURED WHEN AIRSHIP FELL

ALL RECOVERED EXCEPT THE CHIEF TECHNICIAN WHOSE LEG WAS HURT

ROME, June 14.—General Nobile himself was injured on the right arm and leg when the Italia's gondola was torn from her. The general reported himself cured, however. Others injured were Dr. Finn Malmgren, Swedish meteorologist, who had had contusions of the arm which are now cured, and chief Technician Tecioli, whose right leg was broken requiring long attention before it can be cured.

Malmgren was one of the party of three who left the Nobile party May 30 in an effort to reach land and for whom fears are now felt.

JOCK GARDEN IS ARRESTED

CHARGED IN AUSTRALIA WITH INCITING TO MURDER DURING STRIKE

SYDNEY, N.S.W., June 14.—A dramatic development in the strike of sea cooks which threatens seriously to dislocate shipping is the arrest of Jock Garden, a well known trade union leader, on a charge with inciting to murder. The government has issued a special number of the Gazette proclaiming that a state of emergency exists and are thus empowered by law to take extraordinary measures to deal with such labor disputes.

MCLAUGHLIN DID NOT SUGGEST THE ATTORNEY GENERAL WAS CONCERNED

VANCOUVER, June 14.—He had never been told by Detective Sergeant McLaughlin to "lay off" any gambling places, Detective J. L. Headrick testified at the police probe today. Headrick denied having told Detective Joe Ricci that it was an understood thing between the Mayor and Attorney General Manson that certain disorderly houses were to be allowed to run. "I never went that far, as near as I can remember. I told it was an understood thing between the Mayor and Attorney General Manson that certain disorderly houses were to be allowed to run."

ST. GEORGE'S WHIST DRIVE LAST EVENING

An enjoyable whist drive was held last evening by the Royal Society of St. George at the home of Mr. and Mrs. Sam Horgan, 1028 Ninth Avenue East. There were seven tables in play and prizes were given to the winners. S. M. Kewlin, "high" secretary, W. G. Oakley, ladies' first, Mrs. Dickens, "brave" ladies' second, Mrs. Jack Prece. Delicious refreshments were served by the hostess during the evening.

DEFENCE FOR POLICE FORCE

NONE BETTER THAN CHIEF LONG OF VANCOUVER IN MINISTERIAL ASSOCIATION SAYS WITNESS

WOMEN CORROBORATE

VANCOUVER, June 14.—Subordinate officers at police headquarters did not support Chief Long as they should have done, according to evidence of Detective Rod McLeod at the afternoon session of the Vancouver police inquiry yesterday. Two officials, Deputy Chief Dan Leatherdale and Inspector John Jackson were particularly mentioned by McLeod in this respect. The deputy chief, he said, "sheltered himself behind the office of chief."

The detective declared that Jackson's attitude in saying that McLeod and Grant had better leave the gambling situation alone was an example of the "cover up" by that official.

While praising Chief Long as an honest, upright man, McLeod declared that official was not a "police officer."

Mrs. L. D. Harris, police woman inspector, described both Chief Long and Deputy Leatherdale as "white upright men." There were none better in the ministerial association, she said.

Mrs. Harris testified that Chief Long has always done everything to co-operate with women on the force in their work.

Miss Eva Pelton, police woman, corroborated the evidence of Mrs. Harris. She said the chief wanted to see a clean city.

Canada Driving Washington Farmers from Grain Market Owing to Cheap Production in This Country Claimed

SEATTLE, June 14.—Canadian competition in grain growing has become a "dangerous factor" in agrarian development in Washington, J. Carl Maney, state secretary of the Farm Bureau, testified yesterday before the interstate commerce commission hearing. He asserted that aid was given farmers by the Canadian railroads and the government was attracting growers from the state of Washington to Canada with cheap land, low taxes, low grain rates and fertilizer. Alberta ranchers could, not only raise grain at a cost of several dollars an acre less than those of Washington, Maney said, but they could reach both eastern and western markets at much less cost. He said there was a wide spread in favor of Canadian grain growers which was rapidly driving eastern Washington from the export market.

EXPERIMENTS WITH CARRIER PIGEONS PROVE SUCCESSFUL

Some interesting experiments with carrier pigeons have been carried on recently by Inspector J. M. Tupper, R.C.M.P. commanding officer here. A week or so four birds were taken from here to Hazelton where they were released, soon finding their way down the Skeena River to their home here. At the end of last week four young pigeons were released by P. J. Ryan at Kwinita for the inspector and they also were home in short time.

MERGING COMPANIES

BUFFALO, June 14.—M. E. Forbes, president of the Pierce Arrow Motor Company yesterday confirmed reports that the Pierce Arrow and Studebaker Corporation were negotiating with the object of forming a merger of the two concerns.

Public Debt. He had no excuse to offer for an increased public debt. He would leave the people to judge whether the government had acted wisely in increasing the public debt for such purposes as liquidating unprovided for expenses that had been incurred by the previous administration, for building roads and opening up the country, for continuing construction of the Pacific Great Eastern Railway which had not been started by this government, for the University of British Columbia buildings, for developing and marketing the University lands, for public buildings such as the Trans-Alaska pipeline and the Incurables Hospital for Okanagan irrigation, for better housing, for the department of industries, for soldiers' settlement and for Sumas reclamation. Was it all justified? He also referred to the fact that the debts of all the provinces had increased proportionately or even more than had British Columbia's from \$25,000,000 in 1917 to \$77,000,000 in 1927. And splendid provision was being made by this province for the repayment of the debt, he declared. The government was laying by at the rate of \$1,750,000 per year and already had \$16,000,000 in the bank with which to reduce the debt. The fact that bonds in September 1927 and the Vancouver Province had itself complimented the government upon this had brought the best price since 1889.

Capital Needed. Capital was more than ever needed to develop the natural resources of the province, the Premier said, but capital should also pay its share of the cost of service and administration. He referred to the renewed confidence that legislation now had in this province and also to legislation that had brought about vastly improved conditions for labor.

Taltapin Mine Now Looking Like Real Camp—Further Development of Duthie—Great Activity at Stewart Continues

Sinking of the shaft at the Taltapin mine in the Babine valley north of Burns Lake has been discontinued for two weeks while a new compressor is being installed. Still another compressor is on the way to be installed on a different part of the property. Additions and extensions are also being made to the camp buildings, these including an addition to the kitchen, a new building for engineers' quarters and still another for an assay office. Assessment work is also being carried out by the company on the Sunrise and Silver Marten groups of claims nearby. The ore on several of these groups of claims nearby. The ore on several of these groups of claims nearby. The ore on several of these groups of claims nearby.

Independent of the regular mine operations which are going on steadily and with marked success, an exploration campaign with diamond drills is to be undertaken on the Duthie mine near Smithers in order to prove ore bodies which have not been reached in the course of underground development. A contract for the work has been placed with Boyle Bros. and the operation will commence soon. Accompanying J. F. Duthie, owner of the mine, on a recent visit of inspection to the property were E. C. Gault and A. B. Gray, the latter widely experienced in the installation of hydro-electric plants. The proposal is now being made to install hydro-electric power at the Duthie mine to cut down the high costs of developing power under present conditions. It might also be possible in this way to furnish power to other parts of the adjoining vicinity including Smithers. Mr. Duthie indicated that a dividend might be soon declared by the company.

Development is now well under way at the Tiger mine up the Kitsault River from Alsea Arm, with seven men at present employed. A new tunnel is being commenced at the 240 foot level. Work is in charge of E. C. Pickett with P. E. Petersen as general manager.

Further drifting has resulted in the finding that a ten inch vein on the Silver Tip group at Stewart has yielded out to six feet with samples giving average values of \$25 while selected ore runs \$66 to the ton. The vein is running true to form as it shows on the surface and should narrow down but become much higher grade with further drifting. The surface east of the present drift work shows a width of about 75 feet with ore carrying argenteite and native silver. Thirteen tons of supplies have been taken in to the property this spring and there are sufficient provisions on hand to last the present crew until the middle of July when more supplies will be taken in and the crew materially increased. It is expected that diamond

PULVERIZED COAL TESTING

DEPARTMENT OF MINES ARRANGING FOR BONUS TO PACIFIC NAVIGATION COMPANY.

BENEFITS OF SYSTEM
IF COAL CAN BE USED INSTEAD OF OIL IT MEANS MUCH TO B.C. INDUSTRY.

VICTORIA, June 14.—Government aid to permit of a thorough test being made in the use of pulverized coal for steaming purposes on steamships of small tonnage will be extended to the Pacific (Coyle) Navigation Company, Limited, of Vancouver. Announcement to this effect is made by Hon. W. H. Sutherland, minister of mines, this action being taken on recommendation of the Advisory Council of the Provincial Department of Industries by which and by the Department of Mines the matter has been under consideration for some time. The company contemplated undertaking experiments in the use of pulverized coal on one of its ships, and in view of the importance of such experiments to the coal mining industry of the Province and the possibility that future progress along that line would mean increased demand for the home product, the Department of Mines is co-operating with the Navigation Company in the experiments.

The government has agreed to make a grant of \$12,000 of which not more than \$1,000 is granted for defraying expenses in connection with assembling data; the remaining \$11,000 to be forthcoming provided it is decided that the installation of a plant for the burning of pulverized coal on one of the Company's tug-boats is warranted as a result of the investigation.

MAKE THOROUGH TEST
Captain B. L. Johnson, manager of the Pacific (Coyle) Navigation Company, recently approached the Department of Mines representing that it was his intention of his company to convert two of their coal-burning tug-boats into fuel-oil burners. Appreciating that it should be the object of those engaged in business in British Columbia to make use of local products where possible and where there would be no loss in efficiency or increased cost of operation, he stated his directors had decided to test out the possibilities of pulverized coal. Some investigation along this line has already been made by the company which had decided that further experiment should be made before providing for fuel oil utilization in any more of their boats.

In support of the application for government aid, Captain Johnson pointed out the fact that the practicability of pulverized coal on steamships is as yet in the experimental stage; it had been given a real trial in only one instance, viz., on the U.S.S. Mercer, on a return trip across the Atlantic. That test proved on impressive argument in favor of pulverized coal on a large ship but just what success would attend use of that type of fuel for steaming purposes on much smaller craft such as those of the Pacific (Coyle) Navigation company, was a question to be determined.

HOME VERSUS FOREIGN
If the tests to be carried out prove successful it will mean the displacement of a substantial quantity of foreign fuel oil by home produced coal and consequent extension of the market for B.C. coal and steadier employment for more men in the coal mining industry of this Province. These points were urged by the company as good reasons why their application should receive favorable consideration, reasons which were fully appreciated by the Government which has been giving much thought to means to improve the coal mining industry in British Columbia.

Captain Johnson and those associated with him will have the full co-operation of the technical advisers of the Department of Mines and of the Federal Mines Branch at Ottawa.

The Pacific (Coyle) Navigation Company has in operation at present thirty tug-boats—fifteen coal burning and fifteen fuel-oil burning—using from 18,000 to 20,000 tons of coal and 65,000 barrels of fuel-oil per year. The company is the largest of its kind north of San Francisco. If the results of the experiment warrants, it is expected that the company will gradually convert its of burning craft to the use of pulverized coal thereby displacing oil consumption by the use of approximately 16,250 tons of coal. The results of the test are to be at the disposal of the Department of Mines and the Department of Industries for publication and distribution with a view to the encouragement of other installations of a similar character on steamships plying in B.C. waters as well as in stationary industrial plants within the province.

While the present experiment is being conducted in a small way its success will undoubtedly mean much for the future of the coal mining industry of the province. It is estimated by the Department of Mines that the coal mines of B.C. last year worked about 86 per cent of available working days, the fourteen per cent loss of time being due to lack of demand. Fuel oil imported for use in this province during 1927 aggregated 48,861,000 gallons, and in addition to this, the crude oil imported for refining would give a large amount of fuel oil. Accepting 140 gallons of fuel oil as equivalent to one ton of coal the fuel oil imported as such displaced 320,000 tons of coal, or about fourteen per cent of the province's total output of coal for the year.

In considering the matter the Department of Mines got into touch with the heads of the leading coal-mining concerns in the province and all of them were unanimous that the action contemplated by the government was in the right direction.

Power

in the HOME

THE power of Canada's rushing waters is applied in so many ways that it is difficult to conceive of any industrial and social life in Canada without it.

From the rock drill to the curling iron, from the tram car to the electric toaster, from the silk mill to the electric range, there are endless gradations of power needed, and the flexibility of this service is perhaps its most valuable feature.

The home without electricity today is the home of fifty years ago. The wires in the house mean the ability to use the latest inventions for time-saving and efficient methods of keeping house, and also those more aesthetic and refining influences, which are represented by the electric piano, the electric phonograph and beautifully shaded lamps.

All of these combine to make the homes of today what they are—attractive, convenient, charming.

The Northern Electric Company, in manufacturing wires, cables, and other paraphernalia, which help make possible the application of the electric current, feels happy at being able to contribute to Canada's social progress.

Stork, C. E. Starr and Lionel Holtby was appointed to go into the matter of building a club picnic.

It was reported that certain difficulties had been encountered in connection with the building of the new playground on Acropolis Hill and there may be some minor revisions in the plans.

The matter of the club taking the lead in the organization of a softball league here in view of the fact that baseball is apparently not to be played locally this season was referred to the athletic committee.

The winner of the luncheon raffle was F. E. Robertson.

The club decided to invite Robert Watson, well known Canadian author, who will visit Prince Rupert early in July to address it.

JUNIOR SOCCER LEAGUE IS TIE

BOOTH AND HIGH, AS RESULT OF LAST NIGHT'S GAME, WILL HAVE TO PLAY OFF

A very keenly contested and exciting football game last evening resulted in a win for Booth School over High by 2-1 and the two teams are again tied for Junior League championship honors.

Cameron and Wicks were dangerous for High but Colussi cleared. McKay shot past. Gilker cleared well and Booth forced a corner. Booth was pressing. High broke away and Cameron headed past. Wicks centred well but Cameron shot high over the bar. Booth again took up the attack. Dickens was clever and Bussanich finished a well executed movement with a shot that barely cleared the bar. Thurber and Stiles were very safe in defence. Following a corner, Gilker put Booth up with a simple shot. High attacked from the kick-off but the ball went over. Wicks centred well. Gilker dropped two long shots in High goal but they were cleared. Booth forwards combined beautifully but Thurber cleared. Scott kicked away a fine shot from Collison. Kelsey was dangerous but Nelson stopped him.

With the hill in its favor, High attacked and Cameron and Wicks tried out Booth defence. McKay shot weakly after good play and then was lucky to put Booth another goal up. Morrison centred well and Nelson stopped Cameron. High was pressing but Booth defence was holding out. Cameron fired in a long shot that was just too high. Kelsey forced the game but Murray cleared. Wicks shot behind. Booth forwards got away again but Stiles was safe. Walters centred well and a good chance was lost. Smith caught a long shot and later missed away safely. High was trying hard for a goal and at last, from Wick's centre, Kelsey opened the score. Collison was playing a fine game for Booth and he well supported by Colussi and Gilker. McKay sent Wingham off and the latter centred well but Thurber cleared. Full-time found Booth defending but still holding its lead.

Teams:
High—Scott; Thurber, Stiles; Johnson, Fisher and Kelsey; Wicks, Batt, Cameron, Johnston, Morrison.
Booth—Smith; Murray, Nelson; Colussi, Collison, Gilker; Walters, Dickens, Bussanich, McKay, Wingham.
Geo. Russell refereed and Doc Clapperton and Jack Campbell were on the line.
The teams will meet again in a "sudden death" game for the championship but the date has not been arranged yet. There was a big crowd to see the game last night and interest in the series is at a high pitch. The final game will be well worth seeing.

HORNSBY LEADS IN HOME RUNS

THE STORE IS CLOSED ALL DAY THURSDAY

and will be closed all day Friday to reticket, reprice, rearrange and display the stock for fast selling.

WATCH TOMORROW'S PAPER.

HERE IS THE BOLD, BLUNT TRUTH

WE WANT YOU TO KNOW
As Sam Jabour's Life Insurance business has grown to such an extent, demanding more and more of his time, he finds himself in a position where he must either give it or his business up. Having decided to sever his connection with this firm to enable him to devote all his time to the selling of life insurance for the Sun Life Assurance Company, his withdrawal necessitates the raising of a great deal of cash by the firm and the only means available to raise the cash is to reduce the stock by one third. As we want to get action at once, we have secured the services of a merchandising sale specialist, a man who makes a business of reducing stocks. We have given him a free hand, with instructions to reduce the stock and raise the money regardless of the cost, loss or profit. The selling of this stock is in his hands, but we want you to know that every word in his advertisement, every price made by Mr. Grant, every sale made is vouched for by this firm.

JABOUR BROS. LTD.
Dan Jabour,
Sam Jabour

SELLING STOCKS is MY BUSINESS I'll Stop at Nothing

I have come here to reduce the big stock of high-grade merchandise of Jabour Bros. Ltd., by 1-3 with the understanding that I have full power to demonstrate the power of Pulverized Prices. I am not here to waste words—Time is Money—and I will close out 1-3 of this stock in the shortest time possible. With me, price is no object. "Straight From the Shoulder" is how I am going to hand it to you, and I am going to tell you plainly that unheard of low prices is my only way of appealing to you. From Jabour Brothers I have received the word "Go to the limit but sell the goods." Do not buy a nickel's worth at this sale, unless you can buy it cheaper than at any other store in the country. It is a bold challenge—but I will make it bolder by saying that I will make this store the scene of the greatest Bargain Feast you have ever witnessed. See the price comparisons in tomorrow night's paper.

NEARLY EIGHT HUNDRED PEOPLE OUT TO HEAR PREMIER MACLEAN EXPOUND GOSPEL OF LIBERALISM.

(continued from page one)

make a survey of the industries in the province. He failed to see where the present government had not made all the required surveys.

Dr. MacLean also dealt with the Pacific Great Eastern Railway regarding his policy of disposing of that road and expressing his hope that negotiations now under way that end in view would end successfully. He referred to the fact that the Kamloops Conservative convention, with 500 delegates in attendance, two days in session and passing many resolutions, had had nothing to say upon that—the greatest problem that was facing the province today.

CONFIDENT OF SUCCESS
"GOVERNMENT LIQUOR ACT"
NOTICE OF APPLICATION FOR CONSENT TO TRANSFER OF BEER LICENCE

THE PREMIER expressed his confidence at the prospects of the government for the late lamented Premier Oliver, there was a considerable mass of public opinion that Mr. Pattullo should succeed him.

MR. PATTULLO
NOTICE OF INTENTION TO APPLY TO LEASE LAND

Mr. Pattullo was given an ovation by the audience when he was called upon by the chairman. The main address of the evening having been given by the Premier, Mr. Pattullo did not speak at length and dealt largely with matters of local interest. He referred to the fact that it was the fifth time he had been honored with this nomination by the people of Prince Rupert. Returned four times already, he felt confident that he would be returned again.

Mr. Pattullo referred to the fact that there might be criticism that, in his capacity as a minister, he had not paid enough attention to his constituency. It was pointed out, his duty as a minister to deal fairly with all other parts of the province and he was sure that the people here were not desirous that he should discredit this riding by not carrying out that duty.

He referred to criticism of his administration that had been made by the Vancouver Province, particularly in connection with the question of water in which it had been the policy that all the municipalities surrounding Vancouver should be fairly treated. This criticism, he held, had been but a lever to prejudice public opinion against the government.

As to Vancouver complaints that that city had had no cabinet representation, Mr. Pattullo declared that Vancouver had nevertheless had splendid representation and that city had been well treated. He himself, he felt, had been just as sympathetic a minister for Vancouver as one from that city would have been. He was sure that local people expected he would be fair to Vancouver.

WORK OF MINISTER

Dr. MacLean, in the course of his address, referred to the ability of the service that had been given the province by Mr. Pattullo with whom he had been associated for the past twelve years, the two of them now being the sole remaining members of the original Brewster cabinet who were still in the government. Mr. Pattullo was held in the highest regard not only by his colleagues in the government but by the members of the legislature and the people of the province at large. Mr. Pattullo was a citizen of the highest type, an excellent administrator, a good speaker, loyal to his friends and, above all, loyal to Northern British Columbia and the city of Prince Rupert particularly. At the time of the passing of the late lamented Premier Oliver, there was a considerable mass of public opinion that Mr. Pattullo should succeed him.

SELECTION UNANIMOUS

Mr. Pattullo referred briefly to the succession as Premier of Dr. MacLean to the late Hon. John Oliver. Dr. MacLean had been unanimously selected and he had the greatest amount of confidence that his government would be sustained in the coming election. Getting down to local issues, Mr. Pattullo stated that it was no use denying that the people here were not satisfied with the progress that had been made.

WATER NOTICE
DIVERSION AND USE.

TAKE NOTICE that The Detroit Western Mining Co., whose address is 504 Standard Bank Building, Vancouver, B.C., will apply for a licence to take and use 150 c.f.s. of water out of East Fork of Khutze River which flows westerly and drains into Khutze Inlet, Graham Reach. The water will be diverted from the stream at a point about 1400 feet East of the Witness Post on the west side of Lot 172 Prince Rupert district and will be used for mining purposes upon the Mineral Group described as Western Copper (plans on file in Surveyor General's Office). This notice was posted on the ground on the 10th day of May, 1928. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is June 11, 1928.

LAND ACT
NOTICE OF INTENTION TO APPLY TO LEASE LAND

ROAD WORK TO CONTINUE

Possibly, Mr. Pattullo said, it might have been some advantage for Prince Rupert to have been represented by a minister in the matter of the highway out of this city. He had demanded that Prince Rupert be included in the road program and it had been so included despite the adverse reports of engineers as to difficulties of construction, etc. He had fought for that road which was now being built. "And I want to say here in front of the Prime Minister," asserted Mr. Pattullo, "that work is to continue upon that road every year until it is finally through." (Applause). Work was already in progress from the Hazelton end.

DELAY CAUSED PREMIER PARTY THROUGH WRECK

AMERICAN FREIGHTER FAIRBANKS WAS ASHORE IN PORTLAND CANAL YESTERDAY

MACLEAN SEES VICTORY

PACKED AUDIENCES AT NORTHERN POINTS HEAR KERGIN AND FIRST MINISTER

The stranding in Portland Canal of the small American freighter Fairbanks, bound from Ketchikan to Hyder, nearly caused the failure of Premier J. D. MacLean reaching Prince Rupert in time for the Prince Rupert Liberal nominating convention yesterday. The powerboat Awake, on which Dr. MacLean was bound for Prince Rupert after a successful tour of Alice Arm, Anyox, Premier and Stewart, had to stop and stand by the stranded vessel as she was passing down Portland Canal and, after about an hour had been kept there, was able to proceed. It being ascertained that those on board the stranded vessel were safe as the boat would probably rise herself on the next high tide.

Premier MacLean received most flattering receptions at all points he visited in Atlin riding. He spent a busy two days in which time he gave no less than six speeches. There were packed audiences at Alice Arm, Monday morning; Anyox, Monday night; Premier Tuesday morning; B.C. Silver, Tuesday afternoon; and Stewart, Tuesday night, to greet him.

H. F. Kergin, M.L.A. member in the last legislature for Atlin, was enthusiastically re-nominated at Anyox Monday night, the news of the convention there reaching here only with the arrival of the Premier and his party yesterday on account of wire trouble which prevented the transmission of telegraphic news down from Portland Canal since the first of the week. Certainty was expressed by the Premier that Mr. Kergin would have no difficulty in holding his seat there. The nomination of Mr. Kergin was proposed by Godfrey Smith of Stewart, and seconded by Mrs. Charles McLachlan of Anyox. No other name was placed before the convention. While at Alice Arm, Premier MacLean made the eighteen-mile trip up the Dolly Varden Railway to the end of steel and at Stewart he motored thirteen miles up Bear River to inspect roads and other public works.

The Premier stated that while his hours had been rather irregular he very much enjoyed the trip up Observatory Inlet and Portland Canal. It took him sixteen hours yesterday to make the trip from Stewart to Prince Rupert, adverse winds and tides being encountered besides the delay caused by standing by the Fairbanks.

H. F. Kergin, M.L.A. who owns the Awake, accompanied Premier MacLean to Prince Rupert. The party arrived at 3:45 p.m. yesterday.

PRESBYTERIANS END ANNUAL ASSEMBLY

REGINA, June 14.—After deliberating for a week on the ramifying activities of the Church at home and abroad, the 54th General Assembly of the Presbyterian Church in Canada was brought to a close last night. The final day was productive of orderly progress. Although a number of overtures were submitted by various presbyteries they were tabled or referred to central boards for study and further report.

BRITISH REJECTED BY CANADIAN DOCTORS

LONDON, June 14.—Answering questions in the House of Commons, Hon. L. G. M. Amery, Dominion secretary, stated that the number of persons rejected by the Canadian government appointed doctors as unfit to emigrate to Canada from Britain totalled 1740 from January to April this year.
