#### HEAD PARTLY BLOWN AWAY

Body of Ernest Maynard Formerly of Lucy Island Found Yesterday

According to word received this morning Ernest Maynard, formerly lighthouse keeper at Lucy Island lighthouse and recently at Addenbrook lighthouse was found shot dead yesterday morning at the latter place.

It appears that a fisherman called at the lighthouse and found the body of the unfortunate man with the head partly blown away apparently by a shotgun. Mr. Maynard had been alone at the station, his wife and family having gone north to Ketchikan some time ago.

The Marine Department are sending down another man to look after the light and the Provincial police are making investigations as to the cause of the tragedy. It would appear that the victim had taken his own life.

#### MARKETING ACT IS CONTESTED

MATTER BEFORE SUPREME COURT BUT HEARING DELAYED BY JUDGE

VANCOUVER, Aug. 17.—After argument had been presented to the effect that the produce Marketing Act of B. C. is ultra vires of the province, Mr. Justice Murphy adjourned the hearing in supreme court chambers until Monday in order that the Dominion Government may be notified and be given another opportunity to have counsel in attendance.

The question of the validity of the statute was brought before the court in a test case by Chung Chuck, Chinese potato grower in the Delta district, who was convicted and fined by the New Westminster magistrate charged with marketing potatoes without the consent of the Mainland Potato Committee of Direction.

In view of the argument of J. W. deB. Farris that the provisions of the criminal code are ultra vires of the Dominion Parliament, His Lordship halted the hearing. Mr. Farris is appearing for the provincial attorney general.

H. S. Wood for the grower contended that the provision in the criminal code was passed by the Dominion Government which would make combinations in restraint of trade illegal and punishable by imprisonment and that the Marketing Act purports to authorize the committee to make regulations in restraint of trade by eliminating competition in selling potatoes and other vegetables and of fixing the prices contrary to the Dominion statute.

#### Influenza Epidemic is Sweeping Basin of Mackenzie River Where Indians Dying in Large Numbers

EDMONTON, Aug. 17.—Scourging the Indian population along the banks of the Mackenzie River the influenza epidemic which has been raging in the north for some time has taken toll of 275 natives within a period of about two weeks, according to reports received. So far as known no white man has succumbed to the disease. A total of 53 is known to have succumbed at Fort Simpson alone. The full toll of deaths may not be known for months.

One point along the river hit by the epidemic is Fort Resolution where fifty are dead, Fort McRae 33; Fort Norman 28; Fort Good Hope 26; Fort McPherson 21; and Fort Simpson 53. Deaths at other points are heavy.

Arrivals from the north say the Indians are apathetic when attacked, sitting moaning in their tepee cabins. They throw away drugs given them by medical men and missionaries because they do not expect an immediate cure and wait patiently either to die or recover.

#### FIVE DEAD AS GASBOAT BURNS

NORTH BAY, Aug. 17.—Five persons lost their lives in Lake Lavigne near Verner, Ont., Wednesday night when a gasoline launch caught fire and an explosion forced them to leap into the water.

Father Dubuc, St. Verner, aged 31, Mrs. Albert LaFrenier, twenty-eight, her two children, Claude, aged two and Marie, aged one month, and Miss Leonie Sylvestre, twenty-six, all of Sturgeon Falls. Albert LaFrenier, husband of Mrs. LaFrenier, escaped after a desperate attempt to save the lives of the children in which he was unsuccessful.

With the exception of that of Miss Sylvestre, all the bodies have been recovered. The party was about a mile out on the lake when some gasoline which had collected on the bottom of the boat became ignited. Watchers on shore saw the boat enveloped in a sheet of flame followed by much smoke and a moment later the occupants were struggling in the water.

MOUNTAIN IN THE WAY

There was a mountain in the way when the fisheries patrol seaplane was flying near Porcher Island Wednesday and the result was disastrous to the plane, although the young men who were aboard seem to have been almost miraculously saved.

The resourcefulness of the men was shown in the manner in which they extricated themselves from their difficult situation. It is such men who keep the name of Canada to the fore the world over.

BEAT BOSTON EXPRESS

Lloyd Hahn, known to many sportsmen as the "Boston Express," winner of the 800 metres Olympic race, a splendid athlete, was beaten Wednesday in Ireland by the Canadian runner, Phil Edwards. While a win at the Tailtean is not as important as a win at the Olympiad, the result of the race indicates that Canada was well represented at the world's greatest athletic meet.

CEDARVALE MINE

The development of a mine at Cedarvale, such as that told about in this paper yesterday is an event of outstanding importance to Prince Rupert. If that property is fully developed and proves to be what is expected, it will be a very valuable industry added to those along the Canadian National railway.

GOOD WORK FOR MARGARET

Yesterday we told of the good record of a Terrace student, Miss Margaret McLaren, who in seven years attendance at the public schools never missed a day and never once was late. The young lady is to be congratulated on her determined attention to her work and also she and her parents must be congratulated on the fact that here health has been so good that it was unnecessary to stay away from her scholastic duties.

A CANADIAN AUTHOR

The despatches yesterday carried news to us of the death of the noted author Isabelle Eccelstone Mackay of Vancouver. Mrs. Mackay was born in Woodstock, Ontario 52 years ago and came to Vancouver 19 years ago. She was the author of several novels including "The House of Windows," "Up the Hill and Over," "Mist of the morning," "The Window Gazer" and "Bencarrow."

High Grade Ore Struck on Tiger at Alice Arm—Bonanza Strike Is Not Very Important.

High grade ore has been encountered in a tunnel being driven in the Tiger property at Alice Arm for the Utility Mining & Financing Co. Ltd. The ore, running across the full face of the tunnel, was struck at a distance of about 97 feet from the portal and the extension of the tunnel will be continued.

The strike of free gold ore made recently near the Bonanza mine at Anyox has so far not been conducive of any great results. The ground upon which the strike was made belongs to the Granby Co., which has several men at work stripping the vein. The ore is undoubtedly, pockety. Surface work in connection with the mining of ore from the Bonanza is proceeding with all possible speed.

Present development work on the copper property on James Island thirty miles south of Swanson Bay, which the Granby Co. recently optioned from W. H. Mout of Anyox, will consist of surface stripping and, should this work warrant further development, a diamond drill will be installed.

For the quarter ending June 30 the Granby Consolidated Mining, Smelting & Power Co. reported a profit of \$746,300 as compared with \$533,605 in the last preceding quarter and \$513,591 in the second quarter of 1927.

It is reported that the diamond drilling being carried out by the Consolidated Mining & Smelting Co. on the George Copper property has shown good results. The Consolidated has four drills in operation on the property and four more drills are in the course of being set up.

J. M. (Blackie) Ritchie, who is working on the Donald group at the head of Texas Creek for Mrs. N. F. Stevens and Eli Watland, recently brought into Stewart some interesting specimens from three veins which were discovered not long ago. The most promising of these is a three-foot vein carrying galena and copper.

Ritchie was able to get some samples from this but it will be necessary to find some less dangerous method of approach before it can be worked. Other veins on this property are so attractive that Eli Watland, who was one of the original owners of the Prosperity, bought an interest after his first look at the ground.

Jim Douville, George McHugo and Frank Riva have left Stewart for the Montreal group of claims about three miles beyond Bear River Pass. Fire having made a clean sweep of their camp a few weeks ago, the partners are now housed in tents and will not attempt to rebuild camp this year, preferring to put in their time opening up a new showing of ore that looks very encouraging.

With twelve men employed, work at the Emperor mine at Stewart is now going on in full swing with Gus Seifert manager in charge of operations. A new blacksmith shop is nearing completion and the camp, considered a model for the district, is in good condition. Mining operations will soon reach full efficiency.

CANDIDATES ON HOME STRETCH IN BIG VOTE PERIOD OF CAMPAIGN

Candidates in the Daily News automobile prize campaign have reached the turn, maneuvered themselves into position for the final go, and from now until the close of the "first period," 9 o'clock next Monday night, will be battling for the supremacy under whip and spur.

LAST CHANCE FOR BIG VOTE Nine o'clock next Monday night is positively your last opportunity to enter subscriptions and secure the maximum number of votes on same. Never again after this time will it be possible to get the full voting power on subscriptions. This is final and fair warning. If you entertain any desire

whatever of being declared winner of one of the splendid motor cars to be awarded at the end of the campaign on Sept. 14, do not fail to turn every available subscription to your account before the close of the "first period."

Not to do so simply means that you will have to redouble your efforts during the remainder of the race to make up for lost ground. A few long-term subscriptions NOW may be the very ones needed to "cinch" the big prize; they could hardly help but win one of the major awards.

SPEED WILL WIN The crucial test is now at hand. If you ever intend to do anything BIG in this race, DO IT NOW. Instead of being in second, third, fourth, fifth or sixth place, GET UP AT THE TOP and stay there. Now is the time to make remarkably certain of the prizes you most desire.

Remember 12,000 votes are allowed on each yearly subscription turned in by Monday night and next period only 8,000 votes are allowed—a new 1-year subscription is worth 42,000 votes now and only 28,000 votes after Monday; 30,000 votes are issued on two-year subscriptions now, while during the "second" period only 24,000 votes are given. A new 2-year subscription is now worth 90,000 votes and only 64,000 votes after next Monday. All subscriptions show a proportionate decrease in their voting value after next Monday night, and after the close of the second period there is a still further decline in the scale of votes.

This period's work counts.

been awarded the contract for the erection at Quesnel of a concrete and brick building for the Royal Bank of Canada.

BURNS LAKE

Paul Sholty, infant son of Lee Sholty of Forestdale, died in the Burns Lake hospital last week from tuberculosis. His mother died from the same complaint at Smithers a few weeks ago.

After spending a week visiting with friends in Prince Rupert, Norman Radley of Prince George is now visiting at his home here.

There is an abundant crop in the district this summer of wild raspberries, Saskatoons and bilberries.

Miss Violet Keady left at the end of last week for Forestdale to visit with Mrs. Henry Hansen.

A number of young men from this district left last week for the prairies to engage in harvesting operations.

"Cabot II."

"You know, I think that since Cabot sailed from Bristol to discover Canada, somebody from Bristol should be included among the 50 young 'Ambassadors of Empire'. That is how this lad, Matthew A. Nicholson, age 17, of Bristol, England, son of a former pit workman, gained his place among the young travellers whose itinerary brought them to Canada this summer aboard the S.S. Alaudia to tour the Dominion from coast to coast under an unequalled Empire educational scheme, planned by the Allied Newspapers of Great Britain, the Cunard Line and the Canadian National Railways. Matthew had failed by a close margin in his examinations. As he made his exit from the scene of judgment, it occurred to him that the Cabot argument was his second hope.

SWEDISH WEDDING AT AMBROSE AVENUE HOME

Miss Jenny Svendsen of Oslo Becomes Bride of Gunnar Selvig

A pretty wedding took place at 7:30 last night at the home of the groom's brother Thor, Ambrose Ave., when Gunnar Selvig, merchant of this city, son of J. Selvig, First Ave., took to wife Miss Jenny Svendsen of Oslo, Norway.

Following the ceremony, supper was served, only close friends of the contracting parties being present.

Miss Svendsen, who has been for a number of years bookkeeper in a flour store in Oslo, arrived here only a day or two ago. The young couple will occupy the apartment above the store.

At the final meeting of the Salvation Army rally Wednesday night, prior to the departure of Colonel Joy and others, the visitors were introduced by Major Carruthers of Wrangell, contributing to the program were Col. Joy, who led the singing of several numbers of his own compositions, Miss Marjorie Joy who read lessons and Dorothy Joy who rendered vocal solos.

Ensign and Mrs. Joyce sang a vocal duet. Others taking part were Captain and Mrs. Yariett of the Glenovell Mission at Hazelton and A. E. Copping, journalist. The crowd attending the open-air service previous to the sing-song in the hall was the largest that has assembled for such an occasion.

### JOHN CASPER OREGON FARMER

GOVERNOR OF ROTARY IS MAN WHO GETS HIS LIVING FROM LAND BUT IS NO HAYSEED

Yesterday the Rotary Club received a visit from its district governor, John Casper, farmer. There was nothing of the hayseed about John, which makes people rather curious as to whether his farming is a hobby or whether it provides him with a living.

John has a farm of four hundred acres near Walla Walla, Washington, on the Oregon side of the boundary. Not only does the farm keep him but it enables him to give his services to Rotary for the year, spending the greater part of his time away from home.

Seen last night Farmer John explained that he farmed on what was known as the "camel" system. In and around Walla Walla they have only seventeen inches of rain in the year, which is only about half as much as they get at Victoria. In order to conserve this moisture they summerfallow half the farm each year, the other half being in crop. Machinery is used throughout in the cultivation of the farm, even threshing being done by a machine attached to the binder. The land produces from forty to fifty-five bushels to the acre, not Number 1 such as is grown on the Canadian prairies, but a softer "biscuit wheat." He works the farm on a co-operative basis, his permanent employees getting a bonus on the year's work if the crops turn out well, a regular guaranteed percentage of the profits. That gives them an incentive to work well.

The chief work of John Casper does is to keep the accounts and give a general oversight to the work of the farm. He was once a druggist but he had such a longing for the open spaces that he ran a farm for a hobby and 27 years ago he sold out in the east and turned to a farm in the west for a living. That's John Casper, Governor of District Number 1, International Rotary, comprising the states of Washington Oregon and part of Idaho, the territory of Alaska and the Province of British Columbia. He believes in his jobs, both the job of farming and the job of being governor of Rotary and is making a success of both.

and the struggle for the last remaining cup will be all the more keenly contested.

V. W. C. Jupp the Northampton cricketer is the first player to take a hundred wickets and score 1,000 runs this year. Three years ago he was beaten by Tate of Sussex who gained the honor one day ahead of Jupp. This "double" is a much coveted distinction and brands the player as being of all-round excellence.

Wales is probably more famous as the home of rugby football than for cricket and it is all the more interesting to learn of the exploits of Dai Davies who has made three successive centuries for Glamorgan. In three successive innings Davies has scored 394 runs for once out and within a period of three days made a record with Emrys Davies for an eighth wicket stand and broke it again with a new record of 295 runs.

The recent record of Motherwell's South American tour is rather disappointing. Out of their eleven matches in Argentina and Uruguay they won six and lost five. In one game they lost to a representative team of Brazil 6-5. In artistic football the Scots were much superior but the South Americans showed more speed, aggressiveness and enthusiasm. This is a case where the pupils took a fall out of their instructors, so to speak, as the Scots were on an educational tour.

Hammond the Gloucester and All-England cricketer had an unfortunate accident during the interval of a match recently when a chair on which he was standing collapsed and he jammed his fingers badly. The spectators wondered why his game was so cramped as they did not learn of his mishap till later.

A good story is told of Big Bill Foulke who was the English League goalkeeper in 1900. Big Bill was 6 ft. 4 1/2 ins. in his stocking feet and weighed over 230 pounds. When Jacky Robertson and Foulke were both with Chelsea they were one day in the bar parlor of The Rising Sun. An old chap was reading the paper, and he said: "I see these two murderers are to be hanged to-morrow morning. They tell me a man can have whatever he likes to eat on the morning he is to be hanged. Now I wonder what he would fancy most?" "I wouldn't take a minute to make my mind up," was Foulke's interjection. "What would you ask for, Bill?" queried the old chap. "I'd ask for the blooming rope, rapped out the goalkeeper."

We are glad to be able to state that the failure of the Thistle football team to fulfil their engagement with the Regiment on Tuesday last was due entirely to their inability to raise a team. Certain players were out of town and it was not till after consultation with the president of Prince Rupert Football Association, who agreed that it would not be in the best interests of football to try to play the game with only part of a team, that the Thistle executive notified the Regiment that the game was called off.

They meet Terminals in the first fixture of the Gihlulup Cup Friday evening and the team will be chosen from the above list of players.

### LACROSSE GAME LAST EVENING

BY BEATING ROVERS THE RANGERS ARE NOW TIED WITH THEM FOR GAMES

There was a closely contested lacrosse game last night at Acropolis Hill, the Rangers putting themselves on even terms with the Rovers by winning the game nine goals to six.

The Rangers went off with a rush resulting in a goal by Sparkie Smith in two minutes. The Red Shorts kept pressing with the result that at half time the score stood 6-0.

The Rovers started the third period with a re-arranged lineup, moving their scoring ace Bert Unger out to centre field. This change proved effective for at the end of the third period the score stood 6 to 5.

At this stage of the game checking was very hard. For five minutes of the final period both goals were tested, time and time again but the goalies saved brilliantly until Charles Woods bored in for two quick counters which practically decided the issue as the fast pace set began to tell on all the boys. All played a bang up game. Scorers were:

Rangers: Charles Wood 3, Red, Gillis 3, Dominato 1, Sparkie Smith 1, Larterneau 1.  
Rovers: B. Unger 3, J. Gillis, 2, J. Campbell 1.  
Referee, R. S. Woods.

### RULE 22

as printed in the rules and regulations as published at the beginning of the campaign, reads as follows:

"Two hundred thousand extra votes will be awarded each candidate with every three one-year subscriptions, or the equivalent, turned in during their first week in the campaign, one hundred and fifty thousand extra votes will be awarded each candidate with every three one-year subscriptions, or the equivalent, turned in during their second week in the campaign. These are in addition and above all regular votes, but this arrangement will not be in effect during the last period of the campaign."

Any candidate who is not absolutely positive as to the time their first or second weeks end, should confer with the Campaign Manager immediately. We keep an accurate record in this office, and we are in a position to tell a candidate their dates in which to take advantage of the important features of rule No. 22.

Nomination Blank in The Prince Rupert Daily News "Everybody Wins" Campaign.  
**Good for 5,000 Votes**  
I hereby enter and cast 5,000 votes for  
Miss, Mr. or Mrs. T278  
as a candidate in The Prince Rupert Daily News "Everybody Wins" Prize Distribution.  
Address ..... Phone .....  
Note—Only one nomination blank will be credited to each candidate Nominated.

Next Monday night, August 20, at 9 o'clock the biggest vote offer of the great Daily News' campaign will be taken out of effect. Subscriptions will never count for so many votes as they do these next two working days—Saturday and Monday.

Campaign headquarters located on the second floor of The News Building, will be open till 8.00 o'clock tonight and Saturday and until 9 o'clock Monday night. As stated previously the big vote offer goes out of effect forever, promptly at 9 o'clock Monday evening. All those persons in the campaign headquarters at that hour will be waited upon and permitted to take advantage of the big offer, but no one will be permitted to enter headquarters after 9 o'clock Monday night for the purpose of turning in subscriptions on the present big vote offer.

Today, Saturday and Monday are big days in The Daily News \$4,000 Automobile and Cash Prize campaign. Promptly at 9 o'clock Monday night, the liberal vote offer will come to a final close. Only a few more hours and the biggest opportunity for votes of the remainder of the campaign will have been passed beyond recall.

Those candidates who spend the time wisely during the next two days—Saturday and Monday—will enjoy a feeling of keen satisfaction at having availed themselves of the liberal opportunity and its limitless possibilities to gain the votes necessary to land the motor cars and the biggest of the prizes.

The stage is set, and today, Saturday and Monday are expected to determine in a large measure the big winners. The few hours that remain will be taken advantage of by practically every one of the live candidates for much can be accomplished in the time that is left.

In order that candidates residing at a distance from campaign headquarters will have as much time on the offer as those living near, the management will accept all subscriptions that are mailed in any postoffice anywhere up to 12 o'clock, midnight, Monday night. In this way, candidates in all parts of the territory may work right up till the closing hour of the offer, and have their subscriptions count, even though they do not reach campaign headquarters till later. Those who wait until the last minute, however, should use special delivery stamps or register their letters, so they will not be delayed more than necessary. Every minute counts, these last days of the big vote offer. Every time the hands on the clock revolve, the chance of amassing substantial additions in votes slip by, and it seems to be the consensus of opinion that no hour will pass by today, tomorrow or Monday but that will show gratifying results for some candidates. The knowledge that the last few hours are about to pass has spread throughout The Daily News territory and much hurry is in evidence everywhere.

Second payments on subscriptions are proving a valuable source of votes. Subscribers who paid for the News for only a short period earlier in the campaign, will be glad to renew their subscriptions for a longer period if approached, and this is what many of the candidates propose doing. Look up the second payment schedule, showing the tremendous vote value of second payments.

### TIME IS GOLDEN IN THE RACE FOR BIG VOTES

The most important period of the entire Daily News \$4,000 Prize Subscription Campaign comes to a fateful, final close promptly at 9 o'clock next Monday night.

All the big prizes, cash and cars are to be given away for votes within a few weeks after this important day.

**FINAL HOURS IMPORTANT**  
These final hours should see candidates hustling as they never have hustled before. Everyone of them should realize that the value of the three biggest prizes at stake runs into hundreds of dollars. And the next awards after the big cars are purses of CASH. Think of it. Think what it means.

It is entirely possible for any candidate in the list to absolutely get enough votes by 9 o'clock Monday night to "cinch" these big gifts. It is possible for a candidate to make up to as high as \$1,200 in the next few hours. How? simply by taking full advantage of the present big vote offer.

**TIME FOR ACTION NOW**  
Understand, too, that this gigantic vote offer will NEVER be repeated nor extended. It expires Monday at 9 o'clock p.m. After that subscriptions will count for many votes less. The vote schedule reduces rapidly during the short time that remains till the close of the big event.

**BIG SUBSCRIPTION FACTOR**  
It's the big subscription that counts most votes. By getting a few of those it is possible for ANY candidate in any district to WIN a CAR by 9 o'clock Monday night. The race so far is close. This is what you might call OPPORTUNITY.

Campaign headquarters will be open until 9 o'clock Monday night to receive subscriptions on the big offer.

All subscriptions, however, mailed in any postoffice anywhere before 12 o'clock (midnight) Monday night will count in on the present big vote offer even though they do not reach the campaign headquarters until Tuesday or even later.

**NEW CANDIDATES CAN WIN**  
An absolutely new candidate can, by going to it in a big way right now, establish himself or herself in the vote score to an extent that consistent effort will win.

Remember that the biggest vote offer of this short campaign comes to a close at 9 o'clock next Monday night, August 20. Just a few more circuits of the big hand and the opportunity of the big votes will be gone forever. In fact the vote schedule, after Monday will be reduced—and three more material reductions will occur.

**THIS IS YOUR LAST CHANCE**  
Monday is the big day—9 o'clock is the final hour of the big vote schedule. It's going to be a mighty important time for the candidates who expect to be the big prize winners. And the way to get the prizes you have set your mind on is to secure the largest number of votes. Now is the easiest time to get votes—subscriptions you obtain during the first period count the greater number of votes.

Get the six-year subscriptions—they are the biggest in vote values. But don't pass up any one-year subscriptions, either. They all count and count big these closing hours of the big votes.

Make a thorough canvass of your friends and acquaintances for a big first period finish—a winning finish.

### Help Your Favorite Now!

EXTEND A HELPING HAND WHEN HELP COUNTS MOST  
Readers who have promised a candidate their subscription are urged to pay their subscription before next Monday night so the candidate can turn it in during these final hours of the BIGGEST VOTE MAKING PERIOD of the campaign.  
A subscription turned in by 9 o'clock Monday night is worth many more votes than it will be worth later. Nine o'clock Monday night, August 20, is the final hour of the First Period, the final hour for big votes. The first period schedule will never be repeated or extended.

CARDINALS AND GIANTS EASY

RICHMURGH ALONE DROVE IN SIX RUNS IN FIRST THREE INNINGS

NEW YORK, Aug. 17.—With Richburg alone driving in six runs in the first three innings with a homer, a double and a triple, Boston found the Cardinals easy yesterday. The Giants were in a worse fix, their former mate Artie Nehf pitching Chicago to victory.

The Phillies mistook themselves for the Athletics in Cincinnati and pined up 22 hits for 13 runs.

Waite Hoyt turned in a strong game against Chicago for the Yankees and this more than the victory itself encouraged Miller Huggins, desperate after two defeats by Detroit, to wreak vengeance on them to the tune of 18 to 6.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which are obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Small, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stampage.

HOMESITE LEASES Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES For grazing and industrial purposes areas not exceeding 540 acres may be leased by one person or a company.

GRAZING Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Fees, or partly free, permits are available for settlers, squatters and travellers, up to ten head.
