Operation on King Is Suggested to Relieve Lungs but too Weak

Despite Higher Temperature Indications Are That His Majesty Holding His Ground After Refreshing Sleep

LONDON, Dec. 8.—A bulletin issued at 8:15 tonight stated: "The King has passed a quiet day with some sleep. The raised temperature persists because the inflammation of the lung must be of necessity slow in its progress towards repair." Five doctors signed the bulletin.

LONDON, Dec. 8. — The Express this morning says that they understand that after yesterday's radiological examination King George's physicians held a long consultation on the question of perofrming an operation on His Majesty. The newspapers say that it is feared that the length of his illness has so taxed his strength it is doubtful whether he had sufficient vitality to stand such an ordeal. It was said that a further consultation would be held today to decide the future course of treatment.

The Express also further states that it understands that a sedative was administered late last BANTER OVER that after some hours of restful sleep the King's heart would regain strength.

With another crack at the lightweight title almost within his grasp, McLarnin nose dived back to where he will have to clean up on all the small fry in his path. The trimming he took from Miller was so decisive that it is doubtful if any promoter would book them up for a return bout Jimmy, while he kept up a reg ular training schedule during his four months' stay at his home in Vancouver, was overweight and decidedly not in condition when he left for Detroit a couple of weeks ago and had scarcely time is evident that he under-estimated Miller, a matter that has lost the battle for many a good fighter.

TOURISTS TO VISIT POINTS IN SUMMER

The publicity Committee of the Board of Trade reported at the meeting last night in regard to a matter brought up by J. C. Brady M. P. at the previous meeting. The committee said that it had discovered that there were ample facilities in the summer for side trips to Stewart, Anyox and other points, a steamer leaving here every Monday to those places and T returning Thursday, the fare for the whole time being \$16.20, including meals and berth.

In addition the steamers Prince Rupert and Prince George made regular trips to Stewart and Anyox and for through passengers side rates of \$12.65 were given. The action of the C.N.R. in making provision for this was to be commended.

The report was adopted.

Union steamer Cardena, Capt. A. Johnstone, arrived in port at 12.30 midnight last night from the south and sailed at 1.40 a.m. on her return to Vancouver and waypoints.

Toronto's new and ever-champing waterfront is rapidly becoming one of the most impressive on the continent. It is not long since the Toronto City Hall (on the extreme left of the picture) stood alone, with here and there a church spire pointing up into the sky. Now it is almost hidden in a maze of giant buildings which have been erected during the past two years. Immediately to the right of the City Hall tower can be seen the Concourse Building in course of construction, while next to it is the lofty Sterling Building. Next to the Sterling Building, and slightly in front of it, can be seen the low tower of the old Toronto Union Station, one of the old relics of the Queen City, which is being torn down. To the right again is the new twenty-eight storey "Star" Building. and in the centre can be seen the Royal York Hotel, which is beingerected by the Canadian Pacific Railway. The long building in the foreground is the new Union Station, while on the extreme right of the photograph can be seen the Royal Bank Building and the C.P.R. Building, which for many years were the tallest office structures in Canada.

3RD AVENUE AND 6TH STREET

THE Chevrolet Motor Company of Canada, Limited, announces The Outstanding Chevrolet of Chevrolet History . . a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past . . notable as its engineering triumphs have proved themselves to be-this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style-but it is sold at prices so low as to alter every previous conception of motor car

The new six-cylinder valve-in-head enginedeveloped from more than a hundred motors designed especially for this sensational carstands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed and faster acceleration-it offers a type of performance that is literally astounding . . even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a

constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, nondetonating cylinder head . . a new heavier
