### Proposal Is Made To Outfit and Operate a Vessel Out of Rupert

Prince Rupert Salvage and Towing Co. Ltd. Offers to Provide half the cost if Citizens do the Rest.

A proposal was made to the Prince Rupert Board of Trade at its regular meeting last night by Paul Armour on behalf of the Prince Rupert Salvage and Towing Company to put a boat in the freight and passenger service out of this port provided proper support is given. The most definite suggestion was that the Salvage Queen should be converted into a passenger boat able to carry 70 passengers as well as freight. She is 185 feet long with a 26 foot beam. This was the plan recommended by

### CONVICTIONS ARE QUASHED

Fines and Liquor Returned When Crown Witnesses Fail to Appear

NELSON, Nov. 3.—What is probably the first echo of the abolition of liquor spotters by Attorney General Pooley, was heard in Kasilu court yesterday when appeals were allowed in three cases against convictions under the Liquor Act through evidence secured by stool pigeons.

Witnesses for the Crown failed to appear when the appeal came up and Judge Nesbitt of Nelson had no other choice than to grant the appeals.

C. B. Garland, acting for the Crown, when witnesses failed to appear, wired to the Attorney General for direction. Mr. Pooley replied that the witnesses would not appear.

Fines amounting to \$300; confiscated liquor and liquor permits were ordered to be returned to E. F. Doubleday, C. M. Schmidt and Mrs. Schmidt, all of Silverton.

Captain Barney Johnson. It would cost approximately \$100,000 to remodel and outfit the vessel of which Mr. Armour's company is prepared to take fifty per cent, the citizens of Prince Rupert to provide the remainder.

Mr. Armour said if the people wanted it and it could be shown to be profitable his company would undertake it alone but they would have to be shown. He thought if the people of Prince Rupert wanted a boat as they had often said they did, they should be willing to help back the venture.

On motion of Alderman Collart, seconded by T. Andrew, the question was referred to a special committee to be appointed by the President.

### RAIN STORMS NORTH ONTARIO

COBALT, Nov. 3.—Unprecedented rain caused losses to many settlers in Northern Ontario that may total more than a million dollars. With hundreds of settlers facing privation after complete loss of crops, organized relief work is being planned in farming sections along Temiskaming and Northern Ontario railroad and in Algoma.

A NEW KIND OF DIAMOND RUSH  
Vandals staged a "diamond rush" on the outskirts of Polk, Pa., when they discovered that some-where in the charred fragments of William C. (Wild Bill) Hapson's wrecked airmail plane were more than three-score valuable diamonds worth approximately \$50,000.

### STORMS RAGE ON PACIFIC

Steamers Report Making Slow Progress Against the Gale Eastbound

CONDITIONS IMPROVED  
Terrific Seas and Head Winds Reported Five Hundred Miles off Shore

VANCOUVER, Nov. 3.—The storm reported off the Oregon coast had not reached Victoria by Vancouver this morning.

The weather along the lower mainland coast and at Victoria continues mild with no wind.

Some ships for Vancouver report exceedingly rough weather at sea. The master of the motorship Victoria wireless that he was a thousand miles from Vancouver and having a hard time, making slow progress. The Japanese steamer Tai Fu Maru, 500 miles out last night reported she had made but 140 miles in the preceding 24 hours due to terrific seas and head winds.

SAN FRANCISCO, Nov. 3.—Storm conditions on the Pacific south of Eureka were improved today although the low pressure area westward from Oregon and Washington coasts was threatening vessels on the northern trans-pacific routes.

### FIRE ABOARD THE RANGER

BUENOS AYRES, Nov. 3.—Steamer Canadian Ranger from Buenos Ayres for Montreal was heading for Santos, Brazil, today after her crew had successfully fought fire in her hold. Considerable damage was done to the cargo by water.

### AUSTRIAN PREMIER RESIGNS

### OVER FIVE HUNDRED CARS

Grain Traffic to Prince Rupert is Gradually Picking up Now

There are over five hundred carloads of grain on the lines of the Canadian National Railways today bound for the Alberta Wheat Pool's Prince Rupert elevator. This morning there were reported to be 225 cars on the division west of Jasper Park bound and about 345 east of that point coming this way. The first full grain train of the season of 20 cars is due tonight.

### OTTAWA MAN DIES

OTTAWA, Nov. 3.—George Henry Millen, president of the E. E. Eddy Co., died at Hull this morning aged 90.

### AN EXPLOSION OF GASOLINE ENDS FATALLY

Woman Cleaning Rifle in Kitchen Burned to Death and Husband Injured

JUNEAU, Nov. 3.—Mrs. Harriet Conn, 28 years of age, was burned to death here Friday and her husband John, badly burned when he rushed to her assistance when their home was destroyed by fire.

So far as is known the lady was alone in the kitchen cleaning a rifle with gasoline. An explosion brought her husband rushing from another part of the house.

The woman is a sister of Mrs. W. Elbert Day, evangelist of Everett.

### Women Figure Largely In London Elections

One Hundred and Eighty Secure Seats on Borough Council—One Borough Captured by Labor with narrow Majority

LONDON, Nov. 3.—Final results in the London Municipal elections show that out of 28 boroughs the Municipality Reformers retain a majority of 18 of the councils. Labor controls 8, Progressives one and there is a tie between Labor and Anti-Labor groups in one borough.

The gains and losses compared with the last municipal elections shows that the Municipal reformers gain six and lose 101. Labor gains 95 and loses 18. Progressives gain 33 and lose 16. Independents gain one and lose one.

Late returns from London boroughs brought great surprises. Although Labor made a series of individual gains, Finsbury was the only borough to change from the control of other than Labor to Labor control. Labor won by narrow majority on the Finsbury council.

The London boroughs elected 180 women candidates out of a total of 451 who stood for office. Bermondsey elected 15 women and Kensington 13.

Most of the Labor gains in the provinces, totalling 111, were made at the expense of the Conservative party. Conservatives lost 65 seats in the provinces while Liberals gained 16.

**TAPPING THE GROUND HOG**

According to press reports, there is a delegation at Victoria asking for aid for a railway designed to tap the Ground Hog coal fields, connecting with the Canadian National Railway at a point near or east of Terrace. Any action the Government may take in aiding such a worthy enterprise would certainly receive the solid support of the people of Prince Rupert, Liberal and Conservative. For years we have talked about the Groundhog but this is the first practical move toward connecting it with the port of Prince Rupert.

**DAILY MAIL SERVICE**

It was rather to be regretted that the Board of Trade, owing to its revised constitution, was unable to deal with the question of the need of a daily mail service west of Jasper. However, the committee to which the matter is being referred may be able to adduce some additional arguments in favor of the service.

In the past Prince Rupert has played a lone hand in regard to the matter. With all the centres united in a request, the Post Office department at Ottawa may be more ready to give ear to the local desire. With a rented post office, no city delivery and only a three times a week mail, we cannot feel ourselves particularly well treated by the postmaster general.

**LOCAL BOAT SERVICE**

The proposal of Paul Armour made at the Board of Trade meeting last night that Prince Rupert could get a boat service out of this port by putting up half the cost, seems a pretty reasonable one. We need such a service but if the merchants are not willing to back it, there is no more to be said. A thorough investigation should be made and the matter should not be allowed to rest where it is.

**RUPERT EAST HOLD SOCIAL**

Mrs. Frank Moore Given Token of Appreciation on Her Leaving City

The Young People's Society of the Rupert East United Church held a social last evening. The affair was a brilliant success and was a good start for the program of winter activities planned by the society.

Rev. Mr. McAllister was in the chair, and Rev. A. Wilson officially opened the meeting with an inspiring address to the young people. This was followed by a brief program. There were vocal solos from Mrs. Jarvis McLeod and Miss Chrissie Wood, humorous sketches by A. Cracknell, and comic songs by Frank Moore, all of which proved very entertaining and were much appreciated.

T. Ross MacKay, on behalf of the Sunday School, presented Mrs. Frank Moore, who will shortly be leaving the city, with a small token of the esteem and appreciation of the community. In a very able manner he spoke of the excellent work which Mrs. Moore has carried on in the Sunday School, and expressed the deep regret of the community in her coming departure. Mr. Moore, on behalf of Mrs. Moore, responded in his usual humorous vein.

George Lundy, physical instructor to the association, gave two very interesting exhibitions of physical drill.

After community singing refreshments were served under convensorship of Mrs. W. Horrobin, assisted by Mrs. R. Duncan, Mrs. A. J. Squires and Bill Elkins.

A great Organ plays just for You

Nothing is impossible to the new Orthophonic Victrola---The world's greatest choirs---the finest organs---magnificent orchestras---all for you.

A faint tremolo in the upper register—like a cry from afar—deepening into a rumble of vibrant majestic chords. Under the deft touch of a master hand a giant instrument is weaving its spell like something human, it runs the gamut of emotion, from low voiced despair to stentorian triumph. You are thrilling to pipe organ music—in your own home! A hundred thousand dollar organ!

See the giant pipes rising like the facade of some great cathedral. Picture the fingers

of the organist gliding over the keys and manipulating the stops—so astoundingly true is Orthophonic Victrola music.

"Matched Impedance" is the name of the Victor controlled principle which applies "Smooth Flow of Sound" to the new Orthophonic Victrola—and makes these wonderful reproductions possible for you in your home.

### Lord Nelson at Halifax Opened

Above, the Lord Nelson viewed as from the Botanical Gardens. Inset is a very charming corner of the lounge, showing the bust of Lord Nelson in the corner. Mr. E. W. Beatty was the guest of honor on the formal opening.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, in speaking as guest of honor at the banquet which marked the official opening of the Lord Nelson Hotel at Halifax, referred to the tourist attractions of Nova Scotia as being second to none on the continent. This from as well travelled a man as the head of the World's Greatest Travel System was a decided appreciation. "In addition to the opportunities for sport which are unsurpassed and attract tourists from both the United States and Canada, you have the historic associations such as typified by the Evangeline legend which the Canadian Pacific and Dominion Atlantic Companies have successfully preserved and featured. It seems to us only right that the railway which came into existence as a fulfillment of one of the terms of Confederation should encourage such travel to your cities and other historic places," he said. "That travel has grown apace during the last few years and it was because of this fact among others that at the solicitation of your business men we joined with them in the building of this hotel. It is for the same reason that we are building a modern hotel with other tourist facilities at Digby."

The Lord Nelson Hotel, while operated under the direction of the Canadian Pacific Railway is the result of a sincere effort on the part of the people of Halifax who have long been working for a modern hotel which would adequately take care of the business which offered in the city. It is situated in the heart of the city and fronting on the Botanical Gardens that have helped to make this old city famous.

Within and without, the appearance of the hotel reflects great credit on its architects and builders. In building and in decoration it is Georgian in character, and throughout the hotel and particularly in the public rooms, a most successful effort has been made to express the period recalled by the historic name associated with it. Immediately inside the front doors is a handsome and spacious lobby, which at once gives the keynote of Georgian decoration. The hotel offices are here as also are

other public services such as elevator lobby, telephone room, cigar shop, etc.

The mezzanine floor and ladies waiting room leads up from this, and on one side of the lobby is a short flight of steps leading up to the assembly lounge. In this room and in the adjacent assembly hall the attempt to recapture the atmosphere of two hundred years ago has been particularly successful. The chief feature is the fine fireplace over which is an excellent copy in oils of the full length portrait of Lord Nelson which was painted shortly before his death. In one corner stands a fine copy of the well known bust of this hero, and on the center table is a splendid model of his ship "The Victory."

The end of this room opens into the assembly hall which is large enough to seat about 250 people comfortably. At one end is an ample stage with the usual dressing rooms and disappearing footlights. Leading from the other side of the lobby up a short flight of marble steps is a foyer, and beyond that the main dining room. On the floor beneath the lobby are a series of fine shops opening on the street, and here also is the spacious grill, which in keeping with the nautical flavour notable elsewhere in the building, is termed "The Ward Room".

Its woodwork is of oak and its ceiling crossed by hewn beams. It is lit by ships lanterns of brass and by candelabra designed from binnacle lights and ships steering wheels. The furniture also is of stout oak. Other features of this floor are a barber shop, beauty shop and the usual public services.

The bedroom floors include a number of fine suites of which the Royal Suite is an outstanding example. Like the other its character of decoration is in keeping with the rest of the hotel. It consists of sitting room, dining room and two bedrooms, and its furnishings include some fine examples of early Georgian. The bathrooms and general plumbing and heating arrangements throughout are up to the most modern standard as also are all the facilities for public service.

### LEGIIONNAIRES GIVE ALLENBY GREAT WELCOME

General Allenby, who was the chief guest at the tenth annual convention of the United States Legion held in Texas on October 9 to 12, received a great welcome from the thousands of buddies of the Western front. Above is an excellent view of the new \$2,000,000 war memorial auditorium in San Antonio where the Legionnaires gathered, while on the left is Major-General Beamont, B. Buck, commander of the Third Division on the Meuse-Argonne, who was the grand marshal of the Legion's parade, and, right, Edward Spafford, national commander. Below, rehearsing for the big parade.

was advertised in their literature. The matter was then referred to the civic committee with a request that they bring it to the attention of the railway.

Constable J. H. McClinton, a new man in the provincial police force, arrived in the city from Vancouver on the Prince George this morning and will be here until Tuesday when he will proceed to Prince George district headquarters to take up duty there.

### DAMAGED FISH BOATS ARRIVE

Hlene and Akutan, which lost a man, recently, in port today.

The American halibut boats Akutan and Hlene, both of which were in trouble in a big storm which swept the Gulf of Alaska and the northern fishing banks last month, are in port today with catches, looking none the worse for their experiences.

The Hlene, whose skipper is Capt. Matt Madsen, was struck by a giant wave on Portlock banks and drifted for ten hours at the mercy of the furious elements before the crew was able to make repairs. Her rudder was disabled and her pilot house damaged. The vessel finally managed to crawl into Seward where repairs were effected. She has a catch of 20,000 pounds today.

The Akutan grounded on a reef

Number of Halibut Boats Already Tied Up—Newington Overhaul Nearing Completion—American Boats Have Trouble

Though the season has yet nearly two weeks to go, several local halibut boats, particularly the smaller ones, are already tied up for the winter. Few of the Prince Rupert boats will make more than the trips they are now on. The curtain is ringing down on a season which for the most of the operators has been a profitable one in spite of the fact that here and there, as usual, a few complaints are to be heard from those who, for some reason or another, have not been as fortunate as most. Prices during the latter part of the season, at least, have been generally satisfactory, compensating to some extent for earlier conditions which were not so good. Shortage of cold storage stocks are reflected in the better prices which have been paid of late and this should also augur well for next year, at least as far as the fishermen are concerned.

Boats now tied up include the D.N.T., which has latterly been operated by Capt. Peter Meuse who purchased her during the summer from Capt. Jim Parsons and which during the season landed a total of 71,900 pounds in thirteen trips. The Edward Lipsett, Capt. Martin Johnson, is also through, having landed 118,500 pounds in eighteen trips. The Fanny F., Capt. Jim Batt, has made fifteen trips and haled 103,500 pounds, the H. and R., Capt. Bob Shrubbsall, 12 trips and 56,000 pounds; Ingrid H., Capt. Charlie Lundquist, 16 trips and 118,000 pounds; Joe Baker, Capt. Clarence Campbell, 11 trips and 55,500 pounds; Margalice, Capt. Jack Christiansen, 15 trips and 66,900 pounds; Morris H., 14 trips and 134,500 pounds; Scrub, Capt. Dolf Prince, 17 trips, 188,500 pounds; Viking I, Capt. Harold Erickson, 19 trips 170,500 pounds; Verna, Capt. Pete Thompson, 13 trips, 58,800 pounds; and Volunteer, Capt. Mike Jensen, 9 trips, 43,300 pounds. The largest local boat so far to tie up is the Livingstone II, under command of Capt. E. C. Tibbitts for Capt. Tony Martinsen, which has brought in 96,000 pounds in the seven trips she has haled at this port in 1926.

### Extensive Overhaul

Captain Harry Ormiston expects to be at sea again in about ten days' time with the lighthouse tender Newington which has been in the local dry dock for the past month undergoing extensive over-

haul and repairs. The vessel has been provided with new decks almost throughout and the installation of a new foremast has also been included in the work.

Having as his guest, Capt. Pete Thompson of the Verna, Capt. Jack Christiansen left on Thursday noon with his halibut boat Margalice for a hunting trip to Porcher Island. The doughty huntsmen expect to return to port early next week.

On her way here with a catch, the American halibut schooner Seymour lost her propeller and was towed into Ketchikan on Wednesday. Repairs are being effected at the Alaska port and the vessel will make another trip to the grounds before proceeding to Seattle to tie up for the winter.

George Rogers' new heating plant at the Star welding establishment is reported to be a howling success. The smoke has been trained to go up the chimney as well as a little of the heat to show the concern's generosity to the public. It is said, however, that the Cow Bay insurance rates may be boosted as a result.

Six American halibut vessels landed 165,000 pounds of fish at Ketchikan Wednesday, receiving 11 1-4c and 7c to 12c and 7c for freezing. The McKinley had 55,000 pounds and other boats were the Sunset, Marmot, Atlantic, Helgeland and Columbia.

### Marmot Has Accident

The American halibut boat Marmot, Capt. Ernie Larsen, is out of commission for the rest of the season as a result of an accident on the fishing grounds this week when she broke her crank shaft. The vessel was towed into Ket-

chikan by the Atlantic and will be repaired there as soon as the required new part can be obtained.

The American motorship freighter Dorothea arrived in port from Alaska at 3 o'clock Thursday afternoon and loaded from the Big Bay Lumber Co.'s sawmill at Seal Cove 65,000 feet of clear spruce lumber for Seattle where it will be transhipped to England. The lumber is loaded from scows near the rail booming grounds.

Slow progress is being made with the collection of subscriptions for the proposed local cooperative halibut marketing organization but the promoters still have hopes for the ultimate success of the project. To date, Capt. Chris Hovmuller and Howe & McNulty head the list with contributions of \$200 each. Local business men, as well as fishermen, have pledged subscriptions but the list is to this date featured by the number of "goose eggs" upon it. The list is posted in the store of Edward Lipsett (Prince Rupert) Ltd.

Bacon Fisheries announces its intention of taking red and ling cod throughout the coming winter, the same to be used in production of the concern's popular smoked delicacies. It is understood that some of the local halibut boats intend to take advantage of this market and continue fishing operations during the winter.

### Bill Still Here

Bill Shrubbsall, pioneer fish curer of this city, who arrived several weeks ago from Ketchikan, is still in town. While Bill is awaiting the outcome of a proposition that has been offered him in Minneapolis, it is said that he may decide to relocate here.

Two or three unexpected explosions in the course of Lieut. H. N. Brocklesby's lecture at R. C. N. V. R. headquarters on Monday night gave Petty Officer Instructor Young an attack of jumps from which he is yet hardly recovered. Lieut. Brocklesby's discourse on explosives was a fitting following up to "gas" attack of Lieut. D. B. Finn the week previous.

Jokes aside, an interesting program of lectures has been arranged for the naval men during the coming winter, each of the officers being billed to speak once or twice. Next Monday night Petty Officer Daves will take "submarines" as his subject and the week following Engineer Lieutenant will start a series on internal combustion engines. Later Lieut. Walter Hume will speak about "The British Navy."

The detachment will also engage in rifle shooting on its miniature range during the winter, having some good talent among its ranks.

Prince Rupert Salvage & Towing Co.'s seineboat Zenardi left last Saturday on another trip to Deepwater Bay near Seymour Narrows to bring back a load of chum salmon for the Canadian Fish & Cold Storage Co.

### Suehiro Busy

Having practically completed a 30x8 trolling boat for Nels Rund, Y. Suehiro, Cow Bay Japanese boatbuilder, is now angling for the contract to build a 50 foot halibut boat and he expects to close within the next few days. Meantime Suehiro is laying the keel for another 36 foot trolling boat.

D. B. Finn, director of the Prince Rupert Fisheries Experimental Station, left on October 31 for Ottawa to attend the annual meeting of the executive of the Biological Board of Canada. While in the East, he will also visit New York, Gloucester, Boston, Montreal and Halifax to

study latest developments in the world of fishery science and handling. On November 28 he will attend a meeting of the western executive of the Biological Board in Vancouver.

A report that Mr. Finn is to be transferred to the Halifax station of the Biological Board is not confirmed at the Prince Rupert station.

Kenny Smith, night watchman at the government wharf, left Thursday night for Seattle where he will spend a month's holiday visiting with his son. During Kenny's absence, Bill Sibbald has been appointed relief at the government wharf.

Nightwatchman—Not feeling very well.  
Pal—What's the matter?  
Nightwatchman—Can't sleep it the day time.  
Pal—Don't expect to sleep both day and night, do you?

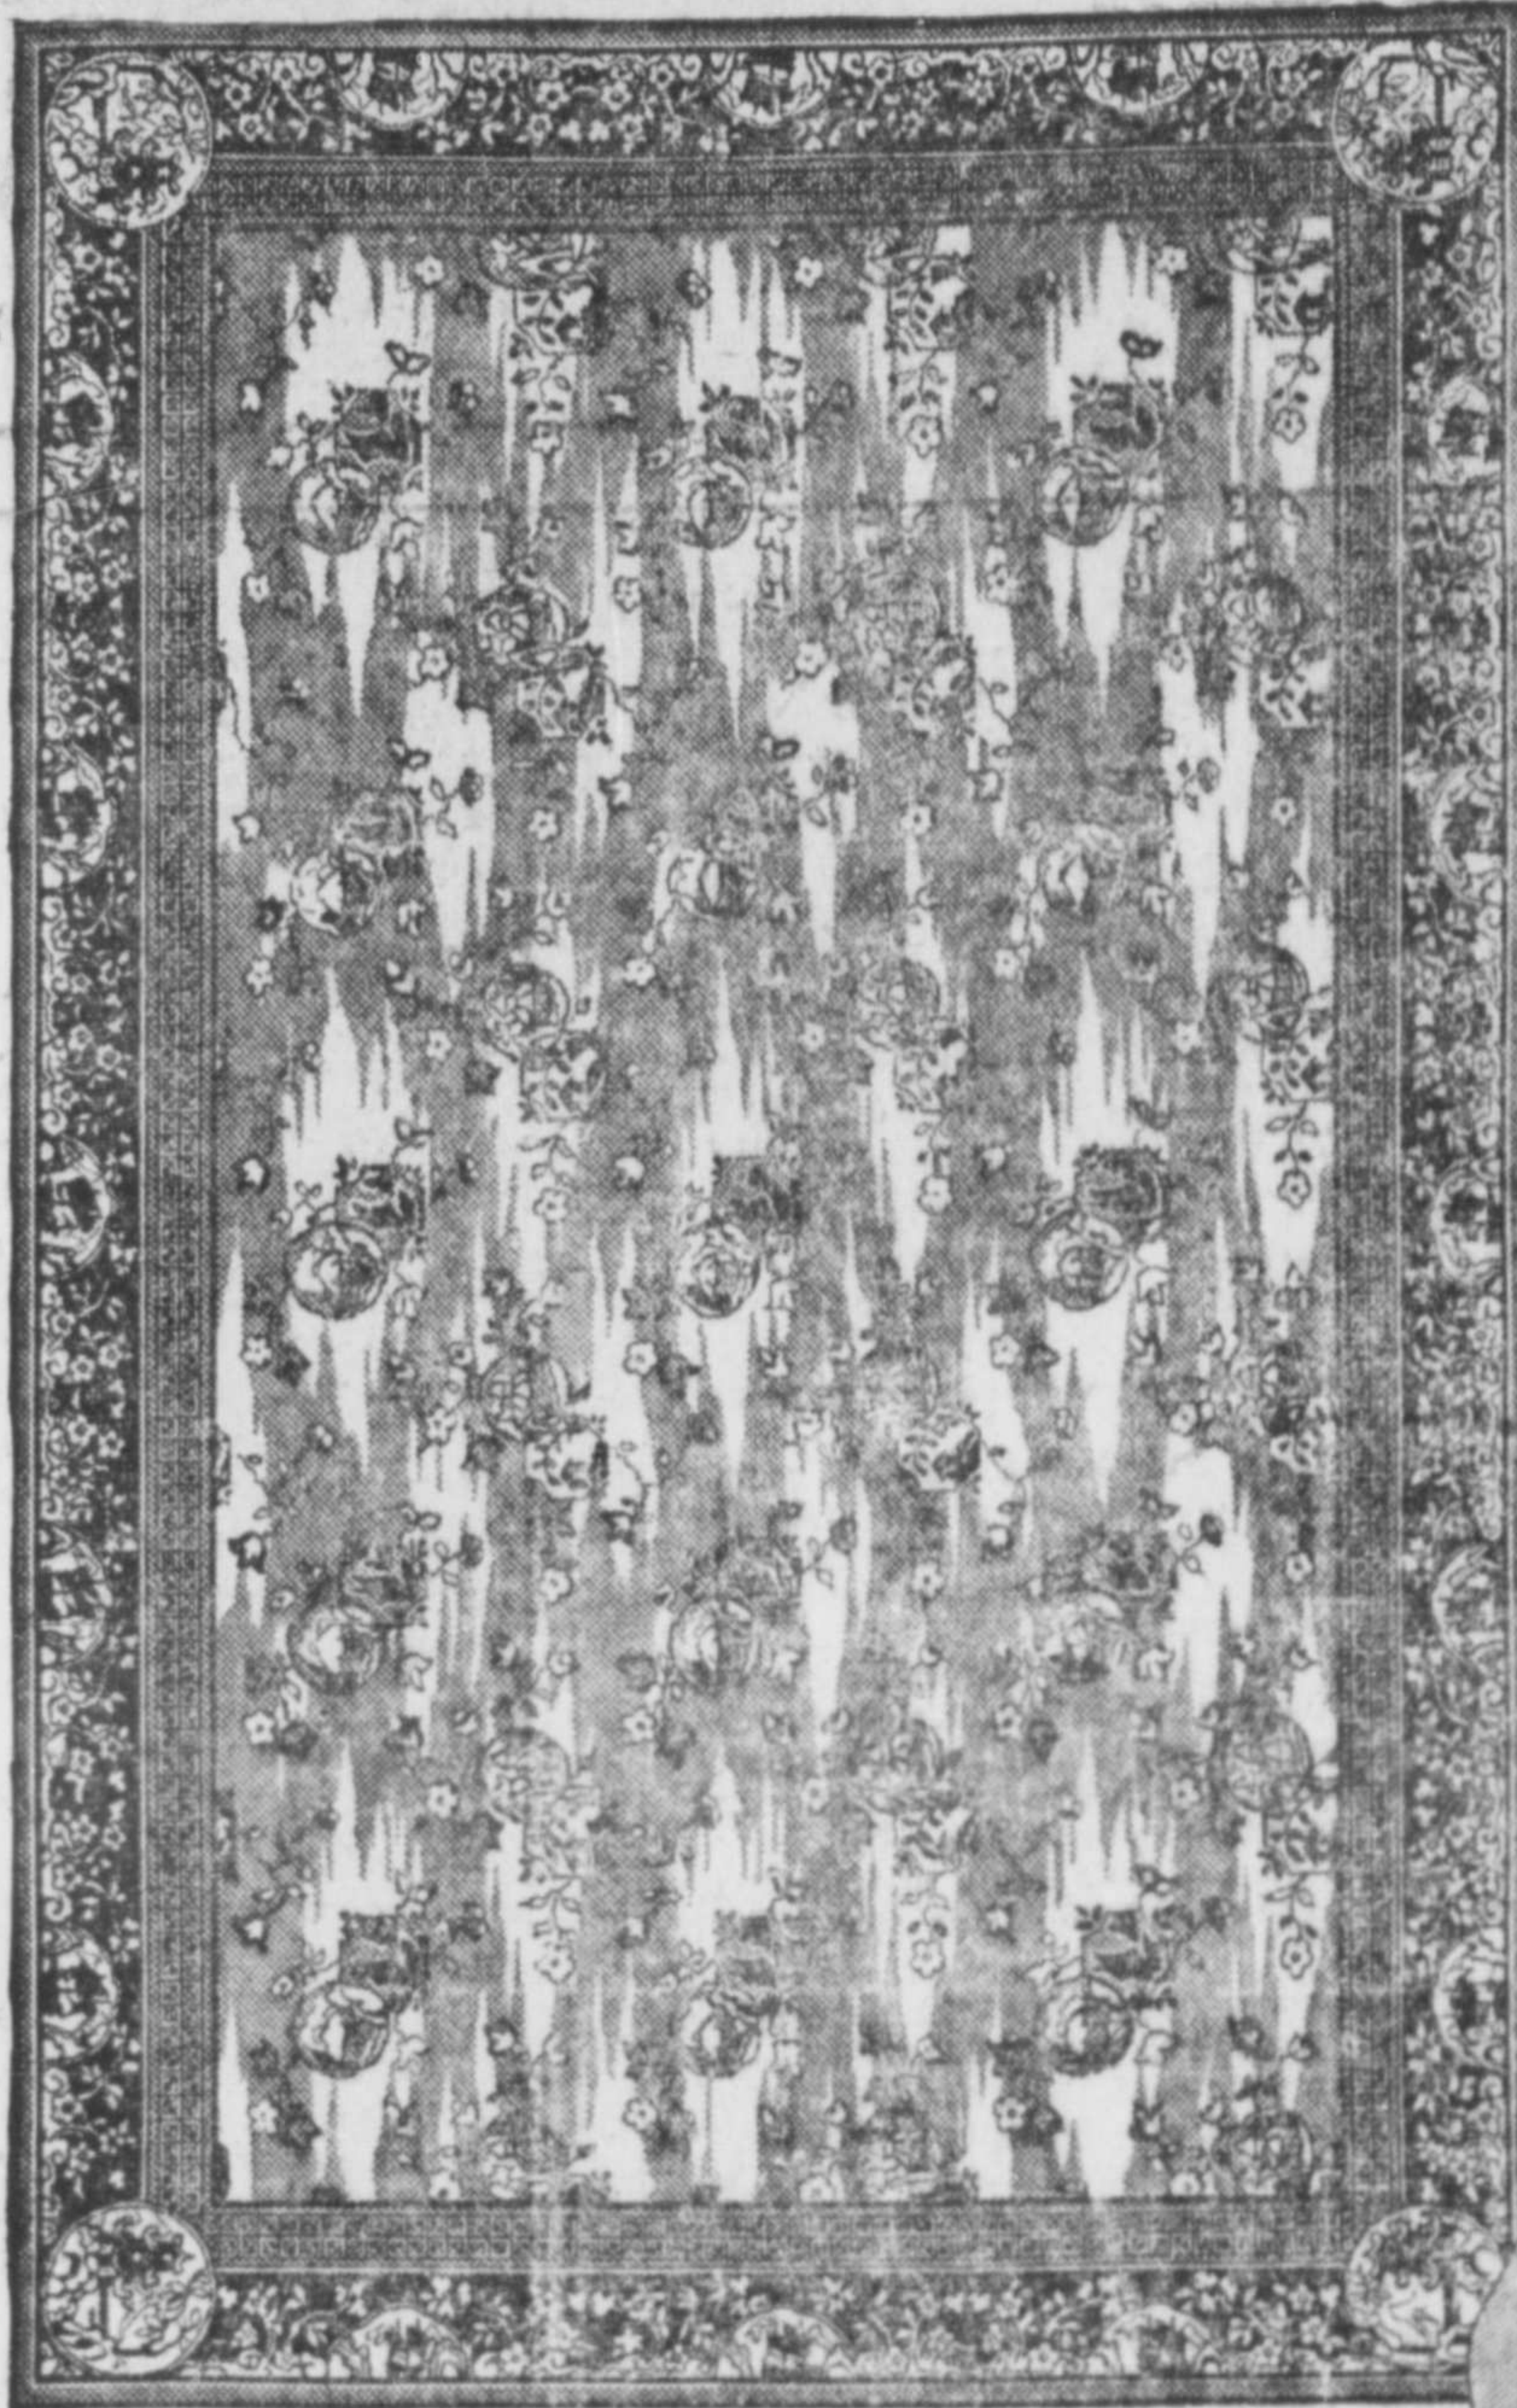

Vic Markland, genial skipper of the trolling boat Cub, returned to town last Sunday from a flying business trip to Vancouver and Seattle. His chief business was in connection with a wonderful invention of his own consisting of a magnet with which he claims he can attract the salmon from far away waters in the vicinity of his boat, thus eliminating the handicap of having to go around and look for them. Rumors are going around that when Vic came back to Prince Rupert he had a severe attack of swelled head as a result of the success from his invention or some other cause. It is to be hoped that Vic's invention, incredible as it sounds, may cause a great revolution in the salmon fishing industry.

Halibut landings at the port of Prince Rupert this year are now ahead of both 1927 and 1926. Up to yesterday the total landings for the season stood at 25,278,900 pounds as compared with 23,930,450 pounds at a similar date last year and 25,038,500 pounds in 1926. Heavy landings, particularly of American fish, during the past week were largely responsible for the marked increase.

American landings this season to date stood at 18,098,800 pounds as compared with 17,768,350 pounds at the corresponding date last year while the Canadian total was up from 6,162,100 pounds to 7,180,100 pounds, an increase of over one million pounds.

During the week of October 27—November 2 a total of 850,300 pounds was landed made up of 745,500 pounds American halibut and 104,800 pounds Canadian. Prices, though generally satisfactory, were a little lower than the week previous. The high bid for American fish was 19.6c and 8c which the Onah was paid for 9,000 pounds while the Canadian high price was 16.2c and 10c received by the Dolphin and Ingrad H. for catches of 6,000 pounds and 3,000 pounds respectively. Low prices for the week were 12c and 6c for American fish and 12.4c and 7c for Canadian.

### DAILY MAIL SERVICE IS TO BE ASKED

Prince Rupert asked to Join with Other Similar Organizations in Request

A letter from the Burns Lake and District Board of Trade asking the Prince Rupert Board to endorse a resolution requesting a daily mail service was read at the regular meeting of the local board last night and referred to a committee to report. A similar request has been sent to other boards in the district.

E. C. Gibbons suggested that immediate action be taken but it was pointed out by the chair that this was contrary to the constitution. The matter will come up at the next meeting and judging by the feeling of the members will be passed with practical unanimity.

### BIB RECEPTION FOR EWART LYNE OF CAPITOLIANS

Music Lovers' night, Wednesday and Thursday at the Capitol drew a large number of enthusiastic lovers of high class music. Ewart Lyne, popular pianist with the Rupert Capitoliens received a tremendous ovation on his artistic rendering of Liszt's "Second Hungarian Rhapsody" and "Rachmaninoff's "Prelude" in C Sharp Minor.

Music Lovers' nights every Wednesday and Thursday at the Capitol have proven to be a most welcome innovation and the announcement of the continuation of this policy throughout the winter months has been enthusiastically received by lovers of good music in the city.

## The New Plug in! Victor Radio

### Artist and Engineer have conspired

THE NEW VICTOR RADIO SPEAKER

—definitely enclosed in a state by brown walnut cabinet. We leave it to you to judge the Victor contention that the tone of this speaker will please all who hear it. Recommended for use with Victor Table Model Radio.

\$32.50

to give you the very finest radio the brains of each division of the giant Victor organization afford.

And so it is our pride, as well as our responsibility to place in your hands a radio musical instrument as nearly perfect, and as sparkingly beautiful as human ingenuity and skill can build it. The Victor trademark is on it. Victor performance is in it.

The model featured is the famous Victor Table Model, in Walnut. Sold by Victor Radio Dealers with complete set of eight tubes and "plug-in" cord, for only \$190.

**Victor Talking Machine Company of Canada Limited**

Licensed under patents of the Radio Frequency Laboratories Inc.
