### Lone Woman Tramps to Dawson from Hazelton Distance of 900 Miles

Was None Worse For Her Trip and Would Not Tell Why She Had Made the Long Jaunt and What She Would do Next

DAWSON, October 8.—Completing an overland and river journey of about 900 miles over mountain trails through a country that would tax the courage and resourcefulness of a veteran trail brazer, Lillian Alling, a young slender woman, arrived here from Hazelton, B.C., from where she started on a long wilderness jaunt last June.

Apparently none the worse for her long lonely journey, Miss Alling would not divulge the object of her visit

### HARVESTERS RETURNING

They Refute Former Complaints Regarding Conditions in Canada

LONDON, Oct. 8.—British harvesters who returned to Britain yesterday landing at Liverpool strikingly refuted complaints concerning conditions in Canada brought back by other harvesters. Many of those arriving yesterday have been quite successful in Canada. Many found steady employment at wages from three to four dollars a day and some were able to pay their passages home at the special rate of sixty dollars.

### Hastings Arm Mine Now About Ready For Operation and Ore Will be Shipped to the Smelter

The tramline which is being constructed at the Saddle property on Hastings Arm by the Silver Crest Mines Ltd. is expected to be completed and ready for operation by the end of this month, stated P. E. Peterson, M.E., consulting engineer for the company, who was a passenger aboard the Catala last night bound north to make one of his periodical inspections of progress of operations at the mine. On completion of the tram line, shipments of high grade silver-lead (cube galena) ore to the Trail or

other smelters will be at once instituted. The tram line, which is a considerable engineering achievement, scales a steep slope from the mine to the beach, reaching an elevation of 3,000 feet in a distance of 4,000 feet almost perpendicular. Development of the mine continues steadily, work now being concentrated on a main tunnel which is now in 350 feet and is expected to strike the main ore body in another 300 feet. The property is highly mineralized, rich ore having been encountered in short shafts as well as by open cuts. The ore is so high in lead content that it is not a concentrating proposition.

While in the north, Mr. Peterson will as well make an inspection of the Tiger mine in the Upper Kitsault Valley at Alice Arm which is under development for the Utility Mining & Financing Co. and for which Mr. Peterson is also consulting engineer. Work will be continued on the property throughout the winter. E. C. Pickett, owner, who has been foreman in charge of operations during the summer, will be going south in about a week's time to spend the winter in California.

## JUNIOR SOCCER GAME IS DRAW

High School and Borden Street Played to 1 all Score on Saturday Afternoon.

High and Borden Street Schools played a tight Junior League football game on Saturday afternoon to a one all draw.

High School won the toss and decided to play against the hill and wind. High pressed when Wicks centered and Bacon shot past. Smurthwaite, for High, had a good try but his shot went a little too high. Borden forwards now got away and Nakamoto had a try but shot past. Play went to Borden's goal and Smurthwaite had another try but failed. Bacon placed a nice corner for High and Stinech was called upon to save two hard shots which he did in splendid fashion. Vaccher and Fisher defended well. Vaccher kicking very strongly and clearing his goal well. Borden forwards now headed for High School's goal and Fong, Nakamoto and Smith were dangerous. Two corners for Borden resulted but there was no score. Wicks led his forwards up the field and sent a hard shot to Stinech who again saved Borden at the expense of a corner. Bacon placed the corner nicely and Scott drove hard over the bar. Vaccher and Fisher had to work hard for High pressed. One minute before half time whistle sounded, Wicks drove the ball hard and high into the corner of the net putting High school one goal ahead.

### Second Half

High pressed for the first three minutes and the Borden forwards got away and Kanaya shot but Smith easily saved. High again pressed and Stinech har to save a hard drive from Wicks. Fong, Nakamoto and Smith combined well for a nice run but Stiles and Pyle were safe and sent High towards Borden goal. Pyle had a try but shot into Stinech's arms. High School forwards tested Stinech with many shots but all were saved. Another nice run by the Borden forwards resulted in the High goalkeeper being tested twice. High soon brought the play around Borden's goal and Bacon, Styles and Morrison each had tries but were

## COAST LEAGUE FINAL SERIES

Sacramento Won Against San Francisco Seals in Saturday's Game

SACRAMENTO, Oct. 8.—Sacramento Senators defeated San Francisco Seals five to one in the first of a three game series which will determine their right to play the Seals for the league pennant.

If Sacramento wins this series the two teams will play a seven game series for the championship, the Seals having won the first half of a split season.

The teams finished the second half tied. unsuccessful. Scott shot hard and true but Vaccher stopped and saved High a corner. Hardy cleared for Borden and the Borden forwards got away but Styles cleared from his own goal line. Fong and Smith soon became dangerous and in the scrimmage in front of High School's goal a penalty kick was awarded Borden. Vaccher made no mistake and drove hard into the net giving Smith no chance and made Borden equal.

From the kickoff High pressed and made strenuous efforts to score, but Borden backs and halves worked hard and safely defended their goal. Smurthwaite had a good try and gained a corner. Borden cleared. Morrison tried a nice but fruitless shot. Stinech saved a very difficult shot from close in. Two corners for High followed but the Borden defence was on the alert and checked their men well. Full time sounded leaving the game drawn, one goal each.

### Teams

Borden—Stinech; Fisher and Vaccher; Katsmyama, Gurvich and Hardy; Smith, Fong, Nakamoto, Wilson and Kanaga.

High—Smith; Styles and Pyle; Morrison, Scott and Forbes, Wick Franks, Smurthwaite, Carr and Bacon.

## Third Game Of World Series Won by New York

Gehrig is Yankee Hero, Hitting Two Homers and Bringing in Ruth in the Second; Zachary Pitched Good Game

St. LOUIS, October 8.—Two home runs by Gehrig with three costly errors by the Cardinals played an important part in the Yankees' third straight victory in the world series yesterday 7 to 3. A record crowd for Sportsmen's Park witnessed the contest, there being 39,602 paid admissions.

Tom Zachary, the Yankee veteran, pitched a good game while Jess Hains for St. Louis was relieved in the seventh by Johnson who gave way to Rhem in the eighth for a pinch batter. The results were:

New York—7 runs, 7 hits, 2 errors.

St. Louis—3 runs, 9 hits, 3 errors.

St. Louis drew first blood scoring two runs in the first inning when High and Frisch singled and scored on Bottomley's drive over Durst's head. Gehrig counted for the Yankees in the second with a homer into right field. In the fourth Ruth drove out a long single to right and romped home when Gehrig landed a second homer.

St. Louis evened up matters in fifth when Douthit, the first man, was hit by a pitched ball and scored on High's double to the right and there the Cardinal's scoring ended.

In the sixth Koenig singled but was forced by Ruth. Gehrig walked and was forced at second by Meusel. Frisch threw wildly to first endeavoring to make a double play. Bottomley retrieved and threw wild to Wilson who dropped the ball and Babe was safe, Meusel going to third and scoring on a double steal. Lazzeri was passed and scored on Robinson's single.

The Yankees scored their seventh tally in the seventh inning when Durst reached second base after Hafey dropped his long fly. A sharp single by Ruth chased Durst across the plate.

The Cardinals used two pinch hitters in the closing session but the veteran pitcher proved invincible.

## SACRAMENTO WINS SERIES

Will Now Have to Play Seven Game Series With San Francisco

SAN FRANCISCO, Oct. 8.—Sacramento won the second half of the Coast League split season by defeating San Francisco Seals, the winners of the first half season ten to seven in the second straight victory of a three-game deciding season.

## WORLD SERIES IS POSTPONED BECAUSE RAIN AT ST. LOUIS

ST. LOUIS, Oct. 8.—The World Series game scheduled for today between St. Louis Cardinals and New York Yankees was postponed on account of rain. This would have been the fourth game of the series. If the Yankees win the next game they are the world champions for the season.

## GETTING READY FOR BASKETBALL

Executive Meeting Deals With Matter of Ladies' and Junior League Organization.

Further progress is being made in the organization of Ladies' and Junior basketball leagues for competition this winter. At an executive meeting of the Prince Rupert Basketball Association in the office of the president, Dr. J. H. Carson, on Saturday night, it was reported that the Maple Leafs' ladies' team was willing to be broken up in order that a distribution of players might be made with a view to forming a three team league. Following this up, it was decided to delegate Ralph Smith, Will Mitchell and Douglas Frizzell to each line up a team from the talent available. Further steps toward the organization of a Junior League were left with W. Gilchrist, the prospect being that there will be a team each from Booth Memorial, Borden Street and King Edward High schools.

Decision as to the hall to be used for the playing of this winter's games was left over to another executive meeting which will be held tonight. Of the three halls offering, Exhibition Hall, Auditorium and Grand Terminal Club, the last-mentioned is understood to be favored.

A committee has also been named to draw up the schedule of games for the season.

This afternoon's train, due from the East at 3:30, was reported this morning to be on time.

Tom Loughran is going to make his march to the throne vacated by Gene Tunney as pleasant and safe as possible, judging by the quality of boys he is picking out as victims. Last Monday night he polished off Jack Gross of New Jersey in a 10-round bout in the National League baseball park in Philadelphia, his hometown, and claimed a step toward the title thereby. Outside of the fact that this Gross, whoever he is, outweighed Tommy by something like 18 pounds, the brawl was not impressive. There is a chance, of course, that Gross may be a good fighter, but it would seem that if he were the

## JOE BAYLEY SUES FOR RECOVERY OF MONEY AT WAGER COLWOOD RACES

VICTORIA, Oct. 8.—Claiming \$407.75 and costs, Joseph Bayley, tobacconist, who resides at the Westholme Hotel, has issued a writ in the county court here through his solicitor, William C. Moresby, K.C., against the Colwood Park Racing Association.

The plaintiff, Bayley, claims that on August 11, 1928, he was at the clubhouse at the Colwood race meeting, and he legally deposited or placed with the defendant, its agent or servant, the sum of \$10, which sum was wagered at the then prevailing odds upon the horse Cullacan in the seventh race at the Colwood track on that day.

It is alleged by the plaintiff in the writ that the horse Cullacan won the seventh race, and the odds payable on such wager made the sum of \$81.55 for every \$2.00.

Plaintiff contends that the amount, owing him by the defendant was and is \$407.75, which sum the defendant has failed and refuses to pay plaintiff.

type to test a candidate for the heavyweight championship of the world, the news of his ability would leak out somehow. In these days of artistic ballyhooing even the mediocre and worse righters get a certain amount of blab spilled around to boost their stock, if any, but Gross just hasn't raised a peep so far.

EVEREADY Radio Batteries - they last longer

Try It Yourself, Too! You Can See Why a Layerbilt Lasts Longer

We would hardly advise you to tear up a new Eveready Layerbilt to find out why it lasts longer—but after you have finished one of these batteries, pull it apart!

You'll see how solid with current-making elements it was—and how evenly the wide plates of carbon and zinc wore away, giving the last bit of energy before your Layerbilt finally "signed off."

You'll marvel at the great improvement over the old types of batteries with their round cell construction—and we know that you'll be satisfied that the long life and economy of your Layerbilt was not just a lucky accident or a mystery, but a certainty of long service and economy based on scientific construction, which you can count upon with every Eveready Layerbilt Battery.

**News of the Mines**  
 AROUND PRINCE RUPERT  
 Encouraging Ore on Mona Mine Near Burns Lake—Toric Mill is Now Shipping Concentrates—Independence at Stewart Looking Good

After several weeks' work of cross-cutting on the property of the Mona Mines Ltd. on Deep Creek, ten miles south of Burns Lake, an ore body four feet in width has been located. Assay returns have not yet been received but, from all appearances, the ore is rich and carries considerable silver values as evidenced by ruby silver in the samples. O. W. Owen, who is managing the work on the claims, is very jubilant at the showing made with such a small expenditure and feels that his faith in the property is being vindicated.

A few days ago the Toric mine shipped to Shelby, Montana, 200 tons of concentrates, the first shipment of concentrates ever to be made from Alice Arm and marking another important step in that camp's progress. The mill at the Toric is now functioning satisfactorily, about three tons of concentrates being produced for shipment each day. Owing to other demands on the power plant, the mill is unable to be operated to capacity just now but next year there will be additional power and the full fifty tons of ore per day will be concentrated. Development work is proceeding on an abundance of milling ore at the Toric and recoveries of values are said to be from 86 to 88 per cent. A new bunkhouse has recently been erected at the mine and some of the older buildings renovated. It is expected that the mine and mill will be operated throughout the coming winter.

The ore bodies of the Tiger mine at Alice Arm, which is being developed by the Utility Mining & Finance Co., are expected to go to great depth and carry value with the depth. At the present time the fact of the 400 foot cross-cut tunnel has been advanced to 125 feet and the starting of an 800 foot level tunnel is now under construction. Good ore is exposed in ten open cuts for a distance of 300 feet as well as underground for a similar distance in drifts and cross-cuts to a depth of 250 feet. The ledge is a true fissure vein in the usual porphyrite of the upper Kitsault

Other development on the property has proved very satisfactory. On the 3600 level in No. 2 vein ore aggregating a value of \$10.40 per ton has been proved over a width of eighteen feet. On the 4,000 foot level the vein attains a width of sixty feet and is well mineralized, there being a fine showing of galena. There are four main parallel veins all of which are strong and well defined with a number of cross-courses which are likely to form local enrichments. One of the veins has been traced for a length of 8,000 feet.

**TO OPERATE MINES THROUGHOUT WINTER**

Kitsault-Eagle to Continue Work on Silver Cup and Sunrise Properties

W. G. McMorris, managing director of the Kitsault-Eagle Mines Ltd., was a passenger aboard the Catala last night bound for Alice Arm to make an inspection of properties which the company is operating on the northeast fork of the Kitsault River. Work will be carried on throughout the winter on the Silver Cup and Sunrise properties while the camps at the LeRoy and Eagle mines will be closed down this week for the winter.

**YUKON STORY A GREAT ONE**

Mrs. George Black Gave Local Women a Wonderful Treat at Luncheon Saturday

It was a wonderful story that was told by Mrs. George Black to the Women's Canadian Club at the luncheon given in her honor Saturday afternoon in which she recounted the attractions and hardships of life in the Yukon and colored pictures that illustrated the lecture were also wonderful. For an hour the speaker unfolded her story and for an hour with kaleidoscopic effect the pictures of mountain, wood, lake, glacier, flower garden and pretty residences succeeded each other, vying with each preceding one for beauty of effect.

Those who have never been to the Yukon can hardly realize what flowers are to be seen there. The pictures showed them, both wild and cultivated. Some of the gardens would put to shame others farther south. There were pictures of dogs, huskies of the land of snows, Caribou were seen crossing the Yukon. Steamers plying the rapids. The real life of the Yukon, its best and most beautiful were shown and the audience absorbed it all in silence.

The story opened with the travellers going to the Yukon by way of the S. E. Alaskan cities. Climbing the mountains in the old way, canoeing in the rivers and lakes was compared with the railway and steamship service of today. The towns of Carcross, Whitehorse, and Dawson were there and the story of the early days from 1898 on was told and pictured.

But it was the flowers with their splendid coloring and beauty of form and arrangement that caught the fancy of the audience. Then as the story progressed was told the story of the news of the outbreak of the war, which was announced in the crowded theatre at Dawson, when the audience rose en masse and sang the National Anthem.

The vote of thanks was proposed by Mrs. McNaughton put by the president, Mrs. McLennan, and received with the utmost enthusiasm.

**PROVINCIAL POLICE GIVEN A FREE HAND**

(Victoria, Colonist)  
 The decision of R. H. Pooley, the Attorney-General, to do away with political interference with the provincial police force means the institution of a long-needed reform. In effect he has told Col. J. H. McMullin, the superintendent of the provincial police, that the control of that force is wholly

in his hands, that the government will not interfere in the matter of appointments and dismissals, that no politics will enter into any of the police ramifications and that the object in view is to secure the building of the most efficient body of men for seeing that the law is observed in the unorganized districts of the province and within those municipalities which will avail themselves of the services of the provincial force.

**Ten Years Ago in Prince Rupert**

October 8, 1913.

"You cannot carry on the business of a great port without proper terminals. As soon as you can show us that the business is here, we will provide facilities to carry on the business," stated Hon. F. B. Cavell, federal minister of public works, in addressing a public meeting in the Empress Theatre. The meeting was presided over by A. M. Manson, M.L.A., and other speakers were Hon. J. A. Calder, minister of colonization and Mr. Douglas, M.P., for South Edmonton. "Prince Rupert is bound to become one of the four or five big national ports of Canada," Mr. Cavell predicted.

J. B. Roerig has written a letter to the Prince Rupert Board of Trade in which he urges that there be a better steamer service between Prince Rupert and Stewart.

The military police under Inspector Adams today took twenty-two men from the steamer Prince Rupert and Prince John. They will be tried under the military Service Act before Magistrate Alfred Carss in city police court tomorrow.

**Our greatest asset**

**THE material progress of our Province is known the world over. We speak with pride... and rightly... of its vast natural resources awaiting conversion into merchandise and wealth. We take the figures of ten years ago and compare them with those of today... and the world agrees that our progress... considering our population... has been the brightest feature in the recovery of the British Empire from the war.**

And if this progress, of which we are so justly proud, is to continue, does not the most vital force of this country lie in our children? Some day, they will take the helm. Events will follow their judgment, skill and decision. **THEY ARE OUR GREATEST ASSET!**

The Boy of today is the Man of to-morrow... the Girl, the future Mother of our citizens.

On us rests the responsibility of shaping their formative years so that when we hand over the reins, they may carry on the Torch of Progress, undimmed.

How have we met our responsibility? Can we look Young British Columbia in the eye with the feeling that all will be well with the future of the province for which we have planned so carefully and labored so faithfully?  
**SURELY!**

In the last ten years our school population has grown from 64,570 to 101,688... 58%. We have 1,065 schools manned by 3,396 thoroughly trained, competent teachers... an increase of 31.7% and 71% respectively!

Recently we have established special vocational schools for our girls and boys, where they may be fitted for those occupations for which they have a natural bent.

Higher education is amply provided for at our University of British Columbia, where two thousand students are now enrolled, the majority studying for their degree in Science and Agriculture.

And to the school training of our children we add the powerful influence of Home, the religious and other organizations, each of which is contributing its full measure of the physical, mental and character upbuilding of our dearest, most treasured asset... **OUR CHILDREN!**

With confidence and faith we will hand over our beloved Province's future when the time comes!

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

# Prince Rupert

## Northern Pacific Terminus of the Canadian National Railways

Prince Rupert has three of the greatest things in the world

### The Largest Fish Cold Storage Plant The Largest Fresh Halibut Market The Largest Undeveloped Hinterland

The City of Prince Rupert has a payroll of considerable importance, derived from:

- RAILWAY SHOPS
- RAILWAY OFFICES
- DRYDOCK AND SHIPYARDS
- GRAIN ELEVATOR
- PROVINCIAL GOVERNMENT OFFICES
- COLD STORAGE
- FISH PACKING HOUSES
- FISH MARKET
- SALMON AND HALIBUT FISHERMEN
- SALMON CANNERIES
- LUMBER MILLS
- MINING
- TRAPPING AND FURS

The grain export business of Prince Rupert is steadily developing. Last year about eight million bushels of grain was shipped through the terminal elevator and this year promises to greatly exceed that mark.

The City owns its Power, Light, Water Supply and Telephones.

The schools are excellent.

Roads are paved and concrete sidewalks are being laid.

### ADJUTANT KERR RETURNING HERE

Former Local Salvation Army Officer to Take Charge of Work in Northern British Columbia

Many former local friends will be pleased to learn that Adjutant William Kerr, who was identified with the Salvation Army here in the early days, is to return to Prince Rupert at the end of this month to take up duty as officer in charge of the newly created Northern British Columbia district which has now been separated from the Alaska division. Adjutant and Mrs. Kerr will arrive in the city after the provincial congress which is to be held in Vancouver next week. Adjutant Kerr for the past few years has been in charge of the Galician home near Calgary. Prior to that he was financial officer for the Northern British Columbia and Alaska division. A lady officer will also be stationed here to assist Adjutant and Mrs. Kerr with their work.

Staff Captain and Mrs. Joseph Acton will take charge of the Alaska division with headquarters at Wrangell, succeeding Major and Mrs. Walter L. Carruthers who are being moved to Manitoba. Farewell services will be held here next Sunday by Major and Mrs. Carruthers and Ensign and Mrs. Sydney Joyce. The latter have been transferred to Vernon.

### SANKEY CASE RULING AIDED CHINAMAN TO ESCAPE THE NOOSE

Mr. Justice Denis Murphy, at the supreme court assizes last week at Vancouver in the case of Leung Chong, who was acquitted of the murder of Constable Ernest Sargent, caused a sensation when he ruled out evidence of Detective D. A. Sinclair pretending to an alleged confession which had been made by accused to witness through another Chinese acting as interpreter. Citing the ruling of the supreme court of Canada in the Sankey case, His Lordship, in throwing out the evidence, decided that it was necessary for the crown to establish that there had been neither threats made nor inducements offered to influence the giving of a statement and, as Crown Counsel A. M. Johnson, K.C. had failed to establish this position, the statement was, therefore, inadmissible.

### MANITOBA IS PLACE FOR "MALE HEIRS"

WINNIPEG, Man., Oct. 6.—Writing in the Manitoba Medical Bulletin, C. C. Ferguson states that boy babies are decidedly more numerous than girl babies, but that the death rate for males is decidedly higher than for females, especially during infancy and middle life. As the second of these factors is more potent than the first the result is that the world contains more women than men.

In Canada the proportion of boy babies to girl babies is given as 1,061 to 1,000. This rate is higher than in the United States and in most European countries. In Great Britain it is in the proportion of 1,047 to 1,000. The Province of Manitoba, it appears, is especially strong on boys; and as the infant mortality rate for male babies is proportionately lower than in most other places, it is suggested that Manitoba is a good place for men to reside in, especially for those who like the late Czar of Russia, wish to have male heirs.

The "Tribune" says, ament this—The appellation "the weaker sex" as applied to women is clearly in need of revision. What term may be employed without disrespect to indicate women's greater vitality? Mr. Ferguson does not like the expression "the tougher sex" nor the "aged sex." Perhaps he courteously suggests the term "vital sex," connoting not only death resisting powers but also a vivacious disposition and a keen interest in life generally, would be more appropriate. Also more diplomatic.

**Electrical Ambassadors**

IN order to serve the people of Canada—from those who live in the largest cities, to those dwelling in remote hamlets—the Northern Electric Company have established their direct ambassadors in strategic distributing points of the Dominion. From these centres radiate the influence, and that personal service which the Northern Electric Company desire the public to expect of them. These branches, therefore, enable all parts of the Dominion to share equally in the benefits that the Home Office represents and dispenses. Each branch is equipped to render a complete sales, merchandising and engineering service.

**CURWOOD TALE IN PICTURES**

"Back to God's Country" to be Seen Here at Mid-week

A James Oliver Curwood thriller of the Northland has been translated to the screen with an excellent cast headed by Renee Adore and will be seen at the mid-week at the Westholme.

The name of it is "Back to God's Country" and it was directed by Irvin Willat. Many colorful locations were visited by the Universal Company during the filming of this spectacular production.

Three weeks were spent in the snow country of California, another week was spent at Catalina Island filming sea scenes and many additional weeks were spent at the studio.

Ten weeks were spent in the production of this exciting story, approximately twice as long as most companies take in filming a story. The finished picture is polished, smooth and well constructed with the thrills built skilfully through finished direction.

**STARK REALISM IN "BLOOD SHIP"**

A starkly realistic story of the sea out of the pages of the distant past is to be seen on the screen of the Westholme Theatre at the week-end, where "The Blood Ship" is the featured attraction. It tells a tale of the days when the clipper ship plied the seven seas and steam vessels were unknown. This was a time when only a real two-fisted man could follow the sea for a living. The captains of many of these "greyhounds" of the ocean were brutes incarnate. Such a one is featured in the film, and his maniacal treatment of the crew (poor brutes who were shanghaied aboard in the dead of night), is vividly realistic. So much so, that when in the end he is thrashed to death in a thrilling fight to the finish, there is a sigh of satisfaction from the audience.

**"THE DESIRED WOMAN" IS DESERT PICTURE**

A desert picture which is different from all other desert pictures, a story of burning intensity, "The Desired Woman," coming to the Westholme Theatre at the first of the week, tells the story of a

**SYNOPSIS OF LAND ACT AMENDMENTS**

**PRE-EMPTIONS**

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$10 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 10 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

**Canadian Pacific Directors & Eastern Financiers Inspect the West**

From left to right, front row—F. W. Molson, director; Sir Charles Gordon, president Bank of Montreal; Sir Herbert Holt, director C.P.R. and president Royal Bank; E. W. Beatty, chairman and president of the Canadian Pacific on his recent annual tour over the company's western lines. The party which was representative of the financial and industrial activities of all Canada left Montreal at the end of August and spent a full month travelling about the country between Montreal and the Pacific coast.

One of the most outstanding groups of eastern business men that ever visited western Canada together accompanied Mr. E. W. Beatty, chairman and president of the Canadian Pacific on his recent annual tour over the company's western lines. The party which was representative of the financial and industrial activities of all Canada left Montreal at the end of August and spent a full month travelling about the country between Montreal and the Pacific coast.

The purpose of the tour was to become more conversant with western conditions and problems—and more particularly to visit "The Peace River country," most of the party never having been there before.

The party returned east with optimistic views regarding the entire country visited.

"I have never seen the country looking better at harvest time," said Mr. Beatty on his return, "and in all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens. More than ever am I impressed with the potentialities of Canada's north land. I think it almost not too much to say that Canada's future lies to the north and that the opportunities already discernible there are a challenge to the oncoming youth of the older parts of the country."

"We had an excellent opportunity of learning this," said Mr. Beatty, "during our visit to the Peace River country which most of us had not previously seen. As a result of that visit we have arranged to take over and operate the E.D. & B.C. Railway, which arrangement, I believe, will prove very greatly to the advantage of that country and the people who live there."

"It is a beautiful as well as a fertile country," continued Mr. Beatty. "I can perhaps liken it best of all to some parts of old Ontario. It is a rolling country, in some places quite heavily wooded and much broken by lakes and rivers. The soil is generally a rich, black loam and highly productive, and although there is a steady movement of settlers into the area which will no doubt increase in volume as it becomes better known, its extent is so great that it must be years before the available land is all taken up. Our party took every advantage of the opportunities offered to see the country. We motored over three hundred and fifty miles of its excellent roads, and almost everywhere we found fine farms or newly broken homesteads and in some cases well settled communities having every appearance of prosperity. In town and country alike we met with a cordial welcome and I think our visit was taken as a friendly gesture of interest on the part of the East towards the new, far Northwest. We motored over the British Columbia border line as far as Rolla and as far north as Peace River Landing, and still feel we did but touch the edge of Canada's great north."

"It is hardly possible to say what the next few years will bring to that country, but we must recognize the fact that there is a new Canada being opened up well beyond what we have previously considered to be the northerly limit of habitation and production. We hope that we shall very shortly be able to go to work on the task of putting the E.D. & B.C. Railway into better shape to serve the communities it reaches. Much money will have to be spent in order to bring it up to standard and it will also take some time."

NEW HAZELTON

Mr. and Mrs. James Turnbull returned to Hazelton at the first of the week after a motor trip over the Cariboo Highway to Vancouver and Vancouver Island.

A steam heating system for the Silver Cup mine camp arrived this week from the south. Three carloads of mining machinery also arrived.

Al Harris returned home at the end of this week after a two weeks' motor trip to Vancouver and other points in the south.

S. Sweeney and John Howard of Copper City were in town at the end of last week.

C. W. Dawson of the Omineca hotel is still actively engaged in angling and reports that the fishing is good.

Flowers are still blooming profusely in Hazelton and New Hazelton gardens in spite of the lateness of the season.

R. J. Morrison, one of the old timers of New Hazelton, left on Tuesday for Vancouver where he plans taking up residence.

Mr. Sparks, who has been working with the water rights survey party in this district during the summer, left on Sunday for Vancouver where he will resume his studies at the University of British Columbia.

## EXPEDITION IS DUE TOMORROW

Stoll-McCracken Party Aboard Schooner Morrissey, is Approaching this Port.

The Stoll-McCracken Arctic Expedition party, which has been spending the summer engaged in historic research exploration work off the north coasts of America and Asia, is expected to reach Prince Rupert by tomorrow, although reports as to the exact time of arrival of the schooner Effie M. Morrissey, which has the expedition on board, were rather indefinite this morning. Local amateur radio station 5GT, which has maintained communication with the expedition during the entire time it has been in the north, was talking with the Morrissey at 4 o'clock yesterday afternoon and the schooner was at that time 120 miles away and making rather slow progress in an unfavorable wind. The expectation is that the vessel will not arrive here before this evening at the earliest.

E. H. Stoll and Harold McCracken, co-leaders, and other members of the expedition will remain in the city for a few days before proceeding to New York and have accepted an invitation to address a joint dinner by the Women's Canadian Club and the Prince Rupert Board of Trade. The schooner Morrissey will proceed from here via the Panama Canal to her home port at St. John's Newfoundland.

## EARLY PIONEER PASSES AWAY

William MacRae, Who Succumbed Saturday Night, had Resided in City Since 1907

Death at 9.45 Saturday night coming as the culmination of a two months' illness in the Prince Rupert General Hospital from which it had been realized for some time that he had no hope of recovery removed William MacRae of 230 Eighth Avenue West, one of Prince Rupert's real early pioneers and a generally esteemed and respected citizen. He had followed the shoemaking business here for over twenty years and was widely known.

Born in Sutherlandshire, Scotland, 68 years ago, the late Mr. MacRae came to Canada in 1905 and for a couple of years worked on the double-tracking of the Canadian Pacific Railway near Kenora, Ontario. He landed here in 1907 when Prince Rupert consisted merely of a few shacks and tents around old Rupert Road and was engaged from that time until his last illness in the shoemaking business. Deceased's family followed him here two years after his arrival.

Besides his widow, the late Mr. MacRae leaves to mourn his loss a family of five sons—John, Alister, Alex, Donald and Roderick. The two last mentioned have been called home to attend the funeral of their father which will be conducted by the B. C. Undertakers. The family will receive general sympathy in its bereavement.

The late Mr. MacRae was a member of the Loyal Orange Lodge and the Prince Rupert Pioneers' Association.

## PRESBYTERIAN PASTOR LEAVES

Rev. J. R. Frizell Resigning From Prince Rupert After Two Years of Service Here

Rev. J. R. Frizell, at services in First Presbyterian Church yesterday, read formal correspondence from the Presbytery of New Westminster in connection with his recently submitted resignation as pastor of the church. Mr. Frizell is planning on leaving Prince Rupert in the near future after nearly two years of useful service here.

There was a congregational meeting last week to deal with the matter of Mr. Frizell's resignation.

## PRINCE RUPERT HAD MORE FOREST FIRES IN 1928 THAN 1927

Prince Rupert forestry district this year had 143 forest fires, this year as compared with 93 in 1927. The most fires of the year were in the southern interior district where there were 556 as compared with 576 last year. The Kamloops district had the least fires this year, 98 as against 70 in 1927. Prince George district had 162 fires as compared with last year's 120.
