SUCCESS OF NATIONALISTS

Slowly but surely the Nationalists seem bent on conquering China. The move was encouraged by Russia for some time and then affected by a shortage of labor. OUTLAWING WAR

When Premier Mackenzie King says he believes Canada i strongly in favor of joining with United States, France, Britain. Germany and other countries in outlawing war, he has made no mistake. Canadians as a people are peaceful and look forward to an era of general peace when the arts of war will go into the discard. They have consistently refused to enter into any scheme for a revival of militarism. Taken as a whole they are much like the Chinese in that they do not highly esteem a military organization or military people. They prefer the votaries of peace. In fact Canadians have so far shown their abhorrence of war that they have failed even to provide for their own protection. Surely such a nation is in favor of the outlawing of war.

> been retained as counsel for ten minutes and he felt that he was entitled to some time to consult with his client against whom a serious charge had been laid. He wished to make himself familiar with the constitution of the Association.

"The constitution of the Association has nothing to do with this case," replied L. W. Patmore, counsel for the Association. "This man is simply charged with falsifying an account which he signed himself." Mr. Patmore stated that witnesses in the case were fishermen who would be losing time if an adjournment were given. After further argument, Magistrate McClymont adjourned the case until today with Mr. Patmore consenting. Accused was released under \$500 bond on his own recognizance.

ESTABLISHMENT OF

Suggestion Made at Last Night's Board Meeting in View of Present Excessive Cost

In connection with the consideration of a laundry bill totalling \$446 for the institution during the month o. April, the suggestion was made at last night's meeting of the hospital board that the establishment of a hospital laundry might be considered. The charge being considered excessive, H. B. Rochester suggested that room downstairs might be obtained and a couple of Chinese employed to do the laundry. It was explained that the monthly charge used to run around \$200. That was on a flat rate scale. Now the charge was being made per piece. It was also pointed out that the hospital was on a year's laundry agreement.

He had seen the number given as 175. Tha was quite untrue. There were about 40 tracks actually running or starting It was also said that the sport brought betting home to juveniles They had hardly stand up without taking hold not found that so on the tracks that had been started, but they would have no objection to a clause in the Bil preventing juveniles from betting, provided that it extended to betting on all sports and did not select one sport They were prepared to give every assistance in their power to see that juveniles did not bet.

Betting generally added Lord Askwith, could not be stopped. It was almost the inheritance of Englishmen.

During the evening, returns of the Sammy Mandell-Jimmy McLarnin fight in New York, for the lightweight championship of the world will be posted.

Under the direction of the Community League, baseball and football will be actively played again at Anyox this year. The two leagues started activities at the end of last week and a full complement of paid officials is in charge.

To encourage the development of juvenile talent, the Anyox Tennis Club has granted the High School Club there the use of the tennis courts on Saturday mornings. Boys' and girls' singles will be played for suitable prizes and a mixed doubles tournament will
