Prince Rupert Presbytery is Opposed to Race Track Gambling Also All Kinds of Lotteries

Prince Rupert presbytery of the United Church of Canada, in session here this morning, passed a resolution opposing race track gambling and asking for, at least, a reduction in the present length of the racing season. Another resolution expressed disfavor for the holding of lotteries or raffles under the guise of religious, charitable or patriotic purposes. The resolutions were worded as follows:

1. "That this presbytery deplores the loss to the nation, morally, socially and financially, through race track gambling which affects not only the actual centres where it is conducted but portions of the

country far removed from them .. Exten- . -ed with alarm and, if gambling is to UNITED STATES with horse racing, this Presbytery strengly urges upon the legislature now in session a reduction of the racing period to five days for each track now in operation. " Coples of this resolution will be forwarded to the government and the members concerned.

2. "That this presbytery of Prince Rupert is opposed to exceptions being ande under the criminal law concerning alles, lotteries, etc., on the plea of religious, charitable or patrictic purposes. We plead with all authorities concerned for impartial enforcement of the law and with all our people for loyal observance of all such legislation.

The Federal budget introduced to the House of Commons yes- will be obliged to return another day. terday by Hon. James A. Robb, minister of finance, is encouraging but not as sensational as was expected. It announced a substantial tax reduction and also a reduction in the national debt. We can congratulate ourselves on this improvement in the financial condition of the country which makes such an announcement possible.

There is a little stiffening up of the preferential trade policy place. Further, the places where the with Britain to prevent the importation into Canada of goods manu- examinations are to be held have not factured in some other country and assembled in Britain and then sent to Canada as British goods. BRITISH IMMIGRATION

We have a great deal of sympathy with those who object to of those required being secured. When heavy restrictions being placed on British immigration into this there are so few persons to choose country. Let us suppose there is a family that wishes to come from, nothing, it is felt, should be here to locate. One of them is physically not perfect but all the done to hamper the work. The same others are perfect. If they come, they must do as a group. The egulations are not at present being regulations would keep them all from settling in this country and the loss would be great. If the Empire is to be anything more than of settlers, and where people are a vision, it should be easy to move from one part of it to another. A Canadian should be allowed to settle in England or an Englishman, ada. Besides the matter of medical Irishman or Scotchman should be able to come here without annoy- examination, there are numerous quesing restrictions. Of course, if we are aiding them to come, it is well tions which are asked of intending to pay for only the best, but if people have enough money to establish themselves in the country and are not likely to become charges on the communities to which they migrate, they should be allowed a The correspondence will take many clear right of way. We want settlers on the land and if they are British settlers, so much the better.

ADVERTISE PRINCE RUPERT

Our attention has been drawn to an advertisement of the Canadian National Railways in which it advertises Ketchikan, Wrangell, Juneau and Vancouver but does not mention Prince Rupert. Here is a case of lack of co-operation. This is a Canadian lem. company built by Canadians and owned by the people of Canada. While realizing the value of advertising the Alaska trip there seems no good reason why Prince Rupert should have been left out. The advertisement, which is read by many thousands of people, would lead one to believe that the important places on the coast were Vancouver, Ketchikan, Wrangell and Juneau and none others.

London Times Says Fewer Than Ever Will Come to Canada This Year

(London Times)

There is a great deal of dissatisfaction among those people and organizations who seek to promote the movement of British settlers to Canada, over the new regulations which have been introduced by the Canadian Government in connection with prospective British emigrants. It is feared that in the coming season, as a result of those new regulations, emigration from Great Britain to Canada will be reduced by as much as from 30 to 50 per cent., and that, too, at a time when it is generally felt that everything possible should be done to encourage and stimulate British emigration to Canada.

In the past the medical examination of intending settlers had been performed in this country by a roster of British medical men, about 1,500 in number, but now the Canadian Govrnment has set up in this country a Canadian medical staff, numbering 18, who will undertake all this work. All persoons who propose to proceed to Canada to stay, whether under assisted cchemes or at their own expense, will have to undergo a special medical examination bl one of these Canadian doctors, who will visit various centres in the country at intervals for the purpose of carrying out their work. Certain days have been allotted for the various centres. The scheme will, therefore, involve considerable delays, during which the intending emigrant may change his plans. If the examination of all the candidates cannot be Friday, Feb. 17, 1928 completed within a single day, which quite conceivable, as, at some cenres, there may be as many as 100 perons to be examined at a time, some

It is inevitable that this wealth of experience has been reflected in the high standard of NORTH-ERN ELECTRIC products which are in daily use for the service of Canadians and the development of Canada's resources.

IN Northern Electric plants and branches 4,623 workers daily exert all their wealth of training and experience to create, perfect and distribute much of the equipment necessary to transmit electric current to supply the needs of Canadian householders and Canadian industries from coast to coast. Thus each worker is playing an important part in the development of Canada and in the building of a great industrial nation.

Master Workmen Work for Canada

The guild spirit, which inspired the master craftsmen of former days and created a standard of perfection which was easily recognizable by all, is strong in the hearts and minds of these workers. This healthy pride of workmanship has become a part of every product of Northern Electric workshops.

The Northern Electric Company is proud of the record of service of its employees. The oldest employee in point of service has been with the company for fortynine years; another man for forty-four years; and a third for forty-three years. There are twenty men who have a record of more than thirty-five years of service; sixteen who have been with the company upwards of thirty years; one hundred and twenty-six for more than twenty-five years; and one hundred and ninetyseven for more than twenty years.

FLAVOUR CHILDREN LOVE

Its balanced nutriment always satisfies

TOW difficult it is sometimes to get children to eat a breakfast that is good for them. They skimp the morning meal unless it is extra enticing. All mothers know this.

The nutlike flavour of Quick Quaker never fails to arouse children's appetites. Its balanced nutriment always satisfies.

Quick Quaker sustains all through the forenoon during which 70% of the day's school work comes. Its 16% protein builds and repairs tissue. Its 65% carbohydrates supplies energy. Its minerals make sound bone and strong teeth. Bulk aids digestion. Necessary vitamines help assimilation of other food.

Children—and grown-ups too-get most bodily vigor and mental alertness from Quick Quaker, because of its proper proportions of the nutrition elements.

Be sure to ask your grocer for Quick Quaker. You will know it by the picture of the Quaker. Packages contain coupons with which you can secure silverware and other household and personal articles you need. Fastest cooking cereal-cooks in 2½ to 5 minutes, according to your taste. Big, family package, and small 10 cent size, both wrapped and sealed.

Get Dainty China

In each package of Quick Quaker, marked "Chinaware", is a piece of fine china, prettily decorated in blue and gold. It's fun to open a package and find a cup, a saucer, a plate or bowl. All lovely things, beautifully designed.

VALENTINE MADRIGAL AT TERRACE PROVED WONDERFUL SUCCESS

TERRACE, Feb. 17.—The Valentine Madrigal held on Tuesday evening in Progress Hall, under the auspices of the W.A. to the Anglican church, Terrace, was well attended and a varied program was given. Many of the numbers were of a humorous nature and the audience enjoyed one good laugh after another.

"The Dumb Choir," a two act burlescue created more fun than the proverbial "bag of monkeys." It represented a movie picture of a village choir practice. The members of the choir, arrayed in gowns of bygone days created great amusement, and the motions and antics of Bob Henwood, as choir leader left, nothing to be

Terhaps it was the Queen of Spain!

E asked our dietitian where the name 'Spanish Bun" originated. To our surprise, she didn't know. So perhaps it was the Queen of Spain, who, when giving a party at the palace, was so intensely pleased with a cake made by Don Chef, that she instantly (being an English Princess) exclaimed: "I just adore this Spanish Bun." This, of course, is pure speculation. But there's no denying that Spanish Bun, made after the following recipe, deserves universal praise.

WHEN you hire us to do the family washing, you are not put to the expense or bother of feeding us. We eat nothing! Neither do we ask you to pay our carfare. Instead we call for and deliver your washing. We buy our own soap, starch and bluing. Heat our own softened water. Use our own electricity, too. There's no "pickingup" after us. We take all the messy work out of your home, giving you an extra day to do the things you like to do! Yet you'll find our charges most reasonable - considerably less than it would cost you to do the same work at home. Try us, and see!

CHILDREN ARE

Wonderful Results in English Village Where Behavior of Boys and Girls Excellent

BARNACK, Northamptonshire, Feb. 17. (Canadian Press)—Barnack village has distinction all its own—it is said to be without a bad boy, and it does not even boast of a naughty little girl. A special correspondent of the Daily News-Westminster Gazette recently visited the village and thus described it in his paper: I came here lured by the report that the young Barnackians are the politest children in England. When I entered the school room a class of rosy-cheeked boys and girls stood up and chorused a shrill "Good Morning, sir." Then they immediately returned to their copybooks. There was no simulated "best behavior," no sidelong glances, no sniggers. It was just the innate breeding of English boys and girls, fostered by the idealism of their headmaster, C. B. Allerton. These boys and girls of Barnack-sons and daughters, for the most part, of agricultural workers—are being taught the code of honor, as well as the rudiments of the three R's NOMINAL PRIZES

Mr. Allerton has been encouraged in his work by an ex-Barnack schoolboy. R. E. Clarke, the son of a village blacksmith and now a London business man Every year Mr. Clarke presents a freshly minted sixpence to each of the 12 scholars (six boys and six girls) selected by their school fellows as worthy of the title "Nature's ladies and gentlemen." In addition each boy and girl receives a new

"We make no claim to turn out prodigles of politness," said Mr. Allerton "They are perfectly ordinary boys and girls, and some of them can be little devils when they like, but we aim at developing their natural kindliness and fully. The girls vote for the boys, and It is not the sixpence which is the re- fear of punishment to make them lie the boys for the girls.
