THE POWER SITUATION

Next Thursday the ratepayers of Prince Rupert will be asked to choose which of the two proposals for the sale of the light and power plant and franchise they wish. We are not proposing to suggest which shall be chosen, because tomorrow we publish the two offers and we also are carrying statements from both concerns showing why people should support them. Readers of this paper can form their own opinion in regard to it.

What we suggest is that a study of the offers be made and the vote be taken, not on sentiment, but along business lines. We all want Prince Rupert to prosper and whatever is best for Prince Rupert is best for us all.

Then when the vote is taken let us all make up our minds to combine and support the choice of the ratepayers. We want this sale ed a terrible commotion in the to go through, for we want Prince Rupert to prosper.

Today, perhaps, we are divided as to which company shall have the franchise Next Thursday night let us be united in supporting the winner.

Mr. Joe A. Allan, 1765 Granville St., Vancouver, B. C. Find it necessary start big pre-inventory sale December 15th, closing gents' furnishing and boys' department. Can you handle it? (Signed) JABOUR BROS. Wire reply collect.

I wired back as follows: December bad month for sales. Will handle sale providing given free hand in slashing of prices. Unless extra good values at unheard of prices are offered at this time of the year, no use to hold sale. Stop. Must return Vancouver on December 15th.

All conditions were accepted, and I promise you, folks, that this pre-inventory sale will create furor in town and just before the holidays when savings are most appreciated. Everything is new and everything is greatly reduced. I have had seven days to go over the stock and cut prices. Did not bother to look at cost. Profit is no object with me and cost is no obstacle. My orders are to reduce the stock and raise the cash. This is how this sale will be enducted. Values speak louder than words.
