# BRITISTI DISCUSS EMIGRATION PLANS

# WANT OTHER THAN AGRICULTURISTS ADMITTED CANADA

## British Government Plans Include Immigration Scheme and Higher Tariff on Imports day of cherished recollection and of undiminished pride and from New York on the Republican on this applicant to the specific and the specific and

LONDON, Nov. 9.—Six measures by which the Brit- BISHOP'S REQUEST REFUSED ish Government will endeavor to reduce unemployment in Britain were outlined in the House of Commons last night by Right Hon. Winston Churchill, chancellor of the exchequer. The proposals are:

Rating relief or the removal of local taxes on agricultural industrial and transportation properties.

Empire settlement of men from industrial districts who will receive agricultural training under the Government. Under this plan 20,000 miners will each year be given agricultural training for settlement in the Domin-

"Safeguarding" of industries by tariff protection in

Extension of the scheme of export credits. Operation of an electricity scheme.

Special measure for the absorption of surplus miners to other industries.

Regarding the empire settlement scheme the Chan-Rt. Rev. A. F. Winnington-Ing- a half miles to shore. cellor said it was hoped arrangements would shortly be ram, Bishop of London, who was concluded with shipping companies of the North Atlantic refused the right to use his own service whereby they will be able to quote largely reduced discretion to use the hird class rates to Canada for British emigrants.

OTTAWA, Nov. 9 .- A flat rate of ten pounds for British emigrants to Canada is under negotiations in London between W. J. Egan, deputy minister of immigration Synod to be held in that diocese and the British Government. The rate would be applic- since the Reformation. able to all British immigrants whether workers in town

or not.

## NISTER TO INVESTIGATE SHIP SERVICE

colm to Visit Vancouver to Get First Hand Information Regard Trade

MONTREAL, Nov. 9 .- The Gatte carried the following Otwa despatch: "Minister of de Malcolm will leave for Vanouver next week to examine posibilities of a district steamship ervice between Western Canada and Australia and New Zealand. le will also look into the advisbility of subsidising a service o the west coast of South Amer-

"It is believed that trade with these countries can be subtantially increased. B. C. lumer merchants feel they could seure a larger share of Australian usiness if the Canadian National teamships would restore the frect service formerly given beween Vancouver and the antiodes, especially as there is a posbility of a trade arrangement etween Canada and Australia beng extended. At the present me the lumber interests of ashington, Oregon and Caliornia have an advantage over B. lumbermen both by reason of etter steamship service and an Australian tariff which favors the ood of California against B.

## British Want Canada to Open Doors Wider to Immigrants from that Country in Future

LONDON, Nov. 9.—The British Government is to negotiate with the Canadian Government so that the doors taken into the property in 1912 by Seal Cove \$3,500 and Westview might be opened wider to those persons from Britain who way of the Morice River from \$3,000. This insurance question wish to go as workers in the towns of Canada without agricultural training declared Sir Arthur Maitland, minister of labor, during a debate on unemployment in the SECRETARY OF STATE House of Commons today.

The minister said it was hoped at least three or four thousand people of this type could go to the Dominion within the next six months. He also said he hoped to send five or six thousand miners with training in agriculture a firing squad for Toral and to follow farming pursuits in the Dominion within the

#### TELKWA \* COAL PROSPECTS

The purchase of the Prince Rupert Coalfields near ments for 1928. Telkwa by an English company headed by Lord Melchett and the smaller property owned by Jack McNeill is one of the biggest things that has happened in this part of Smithers is becoming acute and, the country in many years. If there is no hitch in the pro- during the past month, several ceedings, the development of the mines there will mean points in the district through the establishment of an industry that will permanently failure to obtain accomodation. place Telkwa on the industrial map and will benefit the whole of the Bulkley Valley as well as Prince Rupert.

For many years this coal property has been held with the knowledge that it would some day become val- to-date moving picture house uable. An effort was made some years ago to get the which is to be erected by W. J. 5 railway company to build the spur line of 36 miles into O'Neill. the property, the owners promising if this was done they would go ahead and develop the mines. It was too big a job, for the company had no money to spend on such thongs at that time. Owners of mines have to make their own railway connections, usually, unless as in the case of the Flin Flon there is a positive guarantee of sufficient business to for Allan Carolan. make the line pay.

For some time past there have been rumors that some- Mrs. J. H. Wilson left last thing was doing at Telkwa and then an announcement week for Vancouver where she was made that the property of the Telkwa Collieries had will spend three or four months been purchased by the Mond interests. Wm. Goldbloom The Old Reliable

Dr. James Suggests That Prince Rupert Look That Way for Development

That the mines to the East of Prince Rupert were of more siginificance than those on the coast to the development of the city and while not much at present they promised to develop into a number of important operations, was one of the suggestions made in an interesting address by Dr. J. T. James, district mining engineer, who addressed the Rotary Club yesterday afternoon, H. Mc-Lean presiding. He urged that nese developments be watched and cultivated by the people of he city.

On Porcher Island too was a small property where an attempt was being made to develop a gold mine. It was coming along well and was in a fair way toward success. It would be directly tributary to Prince Rupert.

Dr. James then dealt with the Portland Canal section including Observatory Inlet. He spoke of the value of the Torice mine. While production there was not at present large, the output being about three tons of concentrates a day, it was taken only from ore broken in course of development. Underground work was showing up well and the prospects were

He also spoke hopefully of the Tiger and Sunrise properties and the smaller Esperanza and la

At Anyox the usual amount of ore was still being taken from the Hidden Creek mine and a tram had been built to connect If the Bonanza three miles away, which is also being worked. Work on the Saddle property was stopped by snow.

In the Portland Canal region th Premier, which had been producing for ten years, was still the only producing mine. The most important of the other properties was the Big Missouri, which was much improved under the Consol idated development but which wa still only partly prospected. Gold ore was encountered in two veins and the ore was still staying with them. The showings on this property were very scattered.

In the Bear River district it was not yet known whether Silverado was a prospect or a mine They would know this winter. On Mountain Boy they had found a vein of highgrade. This property had closed for the winter. On the George two drills ha been at work and crosscuts had been made. Rufus Argenta and Red Top and others were being developed.

Dr. James spoke admiringly of the work of the Premier Company in building the aerial tramway to Porter Idaho with its magnificent span of 4,200 feet across the glacier. A number of other properties were also mentioned.

Concluding, the speaker said while there were plenty of gold properties to take the place of the Premier, there did not seem to be yet a property likely to replace the Hidden Creek mine at Anyox. Yet the coastal section had been very little prospected and it was all highly mineralized. There were prospects that a real copper mine may yet be found between Anyox and Britannia.

were climbing the ladder of learning - learning that life holds forth a promise to faithful students, rewarding them with opportunities and sometimes fame. Now these two children dreamed dreams and made wishes as they saw the end of schooldays and looked into the years ahead. Their country was prosperous, because the products of the land and factory were the first choice of all the people. All the land and its industries prospered and abounded with opportunities for the children of the people. Each child began the battle of life with the occupation of his choice, and few there were who failed n after years.

#### There's a moral to this story

This is the fourth advertisement of a series authorized by the B.C. Products Bureau of the Vancouver Board of Trade in the interests of the manufacturers of British

Columbia.

The children of today are the nation of tomorrow. Every dollar you spend for a B.C. Product helps certify the industrial progress and prosperity of British Columbia. Your dollar spent for B.C. Products helps provide opportunities and careers for your children in the industries of British Columbia. After all, that is where "life" begins.
