AND INCIPATION INCIPATION INCIPATION MINING STOCKS GOING WILD AT VANCOUVER EXCHANGE

New Regulations Are Issued by Fisheries Department Dealing with Salmon, Herring and Clams

Pounds must be licensed and many restrictions FOOTBALL CUP are made in connection with seining operations on this coast

OTTAWA, February 18 .- As a result of the investi- England Played Fifth Round and gation made by W. A. Found, director of fisheries, amendments have been made to the regulations in the fishing industry of British Columbia. Under them provision is made for the licensing of herring pounds. The clam season is changed and so is that for fishing cod and various changes are made in the regulations for seining and provision made for closed areas. Summarized the egulations provide:

Herring pounds must be licensed.

Helpers in fishing herring seines are required to be

Drift net fishermen are required to place lights at

he end of their nets at night. Purse seine boats must have numbers on top of the

ot house. Floating traps are prohibited.

All kinds of fishing for commercial purposes is probited above fishing boundaries.

Protection of the distance about the mouths of rivers m streams at which fishing may be carried on is ex-

ended from 200 yards to half a mile. Power boats assisting purse seine boats in seining is

hibited as is the "open set" in purse seining. Waste or wanton destruction of fish is prohibited.

Collecting boats are not allowed to carry nets. Driving salmon from inside a closed area is pro-

Salmon purse seines are prohibited in a considerable number of areas.

Maximum length of salman purse seine is reduced

om 500 to 200 fathoms, the width to be not less than 200 meshes on the basis of a 3 1-2 inch mesh.

The minimum mesh for sockeye nets will be abolish-

ed after the coming season. The close season on little neck clams is changed to

ebruary and March instead of June and July and of outter clams from August to October instead of from May to September.

The close season for cod is Jnauary and February nstead of February and March, and restricted to ling

A minimum mesh of one inch extension measure for erring nets is provided instead of a fixed mesh of that

DAILY EDITION

MINING DEVELOPMENT SLOW

Developing a mine takes some time and many of the mines are not handled economically, according to authorities who claim to stenographers will all be at work every know. Years of work often has to precede the securing of results day. He says they are going to take in the form of dividends. However, this section of the country is that chicken disease eliminator Dr. gradually being developed by miners and every year the situation wrinch has been telling about and improves. The greater ease with which money is secured now makes that will cure them. the prospect much brighter.

MUCH YET TO BE FOUND

While there are many rich properties already proven and others how many I could get for that sum. which have been staked and partly developed have yet to be proved, there is good ground not yet touched. Prospectors are continually Now. Mr. Fisherman, read the front on the lookeut for untouched veins that may carry precious metal page and see there what you will see. but it is said there are fewer prospectors in the hills than for many I only wish I had as many regulations years past. Young men do not take to the profession as did the past generation. It takes too long and is too lonely.

GAMBLING

Gambling is an evil. There is no doubt of it. Yet we all gamble. It is part of the spice of live. If no one had been willing to take a chance, Prince Rupert would never have been built and none of us would have been here. We are continually taking a chance. Sometimes we gamble with fate and sometimes we gamble with each other.

There are so many forms of gambling that it is difficult to dis- discharging a large shipment of aircriminate. One of the biggest gambling bouts in history is just now plane spruce from the Queen Chargoing on in Vancouver where the bears and the bulls are fightin g lotte Islands and the Venture was in each other on the stock exchange. Some gamble in stocks, others in from the south. The Lorne was tied real estate and others in horse racing, while cards and marbles and up at the wharf and there were large minor methods are used to a lesser extent. Each person has his fa- cows of lumber, shingles and pulp. vorite form of taking a chance and some of them are very long shots.

Doubtless horse racing is one of the worst forms of the vice accompanied by Mrs. Hoops' sister. Miss because it breaks out in greater virulence at that sport than at any Marjorie Campbell, late of the nursing other. Those who oppose it have justification for their attitude but staff of the Prince Rupert General Hosat the same time others are strong for it and like to wager their pital left for the interior on this mornfew dollars on the speed of the ponies.

FARM LOAN SCHEME

A farm loan scheme is to be adopted in British Columbia and it is to be assumed that this will be an advantage to the farmers. coal Orange Lodge took place on Sometimes a thousand dollars invested in extra crop is the best Tuesday night and proved to be a kind of investment, but on the other hand there are many who are very successful affair, some 250 persons ready to borrow at any time but who are not as good at paying being in attendance. There were tasty

Lifting a mortgage from a farm is always difficult and especially when it is held by the government. It is much easier to try to get an extension of time.

AFTER ENTRY TO PEACE RIVER

A man representing United States interests has made an offer of \$19,000,000 to the Alberta Government for the E.D. & B.C. Railway. He is from Oregon but he does not disclose whom he represents. Before doing business, the Alberta Government wants to know about him.

Selling a railway is not everything. It must be operated and badly mangled. The dog was of the extended and these things have to be provided for. That is why a line cannot possibly be knocked down to the highest bidder.

ARBITRATION WITH THE UNITED STATES

The draft arbitration treaty which the United States government has submitted to the British government is intended to replace he Root arbitration treaty of 1908 which expires next June. The night when the store of Austins Ltd. terms of the proposed treaty have not been made public; but it quite safe to say that it corresponds very closely, in purpose and in text, to the similar treaty with France which has just been signed. This treaty with France-which must not be confounded with the proposed Briand treaty outlawing war, which has been hung sulted in the saving of much of the many compliments on the work. up indefinitely owing to differences between the two governments large stock of merchandise carried by which have developed-has been hailed as marking a great advance the firm. upon the Root treaty which it replaces, but a comparison between the actual provisions of the two instruments hardly bears this out. The new treaty has an anti-war preamble, which is of course not Railways Social & Athletic Association | S. S. Magomin. an operative part of the instrument: and this gives it a moral sig- has been organized here with officers nificance which the treaty of 1908 did not possess. a two day meeting here with a final Queen session last night, the various pastors Land Registration District in the Probeing on their way home today to of beer by the glass or by the open their respective charges in the district bottle for consumption on the pre-Ordination of women and the liquor DATED at Prince Rubert, B.C., this question were the principal topics 15th day of February, 1928. taken up at the afternoon sessions yesterday.

In connection with the ordination of women the following resolution was passed: "That it is the opinion of this Presbytery that the time is not opportune for the taking of such a step." No spirit of opposition against the principle was expressed, it being merely the view, particularly since there seeman to be no indication of the in-

Automatic Orthophonic Victrola \$7.75 of amorba middle

hanges its records own 1

Plays twelve records without attention.—Runs itself for a whole hour. No operating effort on your part. -- Just listen.

7 HEN you turn on the current, the V turntable starts to revolve; a mechanical "hand" takes the first record trom the group of twelve and places it on the turntable; the tone-arm moves into position; the sound-box is lowered and the music begins. At the end of the selection, the mechanical "hand" removes the record from the turntable, slides it gently into a felt-lined concealed drawer, and "picks ofi" the next record from the magazine arm. These operations are repeated until the last record is played, then the mechanism stops automatically.

So magnificent an instrument demands an exterior of exceptional beauty. Victor craftsmen have designed a distinguished cabinet for the Automatic Orthophonic Victrola, in which every luxurious touch that ingenuity can devise has been incorporated. The price of the automatic Orthophonic Victrola is \$775. Other models of the Orthophonic Victrola Instruments are obtainable at prices ranging from \$1400 down to \$115. Obtainable on convenient terms from "His. Master's Voice" Dealers. Demonstrations now going on. If your dealer hasn't one he will order it for you.

BRINGING UP FATHER

Champion Teams Added to Victories in Senior, Intermediate and Junior League

A small group of spectators watched hree one-sided games in the basketball leagues last night. In the Senior League, the champion Native Sons of Canada won 40 to 28 over the Grand Terminals; in the Intermediate League, the leading High School defeated the Elevator 42 to 25, while, in the Junior League, the top place Tuxis Boys vanquished the Stars once again by 25 to 13.

In the Intermediate League, Harold Macdonald of the High School rolled up 28 points—the highest individual score (WE GIVE (OUR COAL IS PICKED) to far made by any player in any

New Halibut Boats "Melville" and "Covenant" to be Launched on March 6-"Tide Rip' Sinks at Dry Dock-Herring Run Starting

Possibly the finest boats ever turned out by a Prince Rupert shipyard and comparing favorably in excellence of construction and design with anything on this coast are the two handsome new halibut vessels which are now nearing completion at the Prince Rupert dry dock for Capt. John Ivarson and his son-in-law, Capt. Hans Underdahl, both well known skippers of the local halibut fleet. The launching of both vessels is scheduled for March 6 and, with that end in view, work is proceeding without delay so, about two or three! weeks later, they may enter upon the fishing industry before the 1928 season is far advanced. Both*

Capt. Ivarson and Capt. Underdahl are gine was the main difficulty least year. well pleased with their boats and a visit The hull itself is large and sturdy. to the yard confirms the fact that they enough in spite of the Skugaid's many are going to be really splendid vessels years. and a real acquisition to the ever-growing Prince Rupert fishing fleet. Capt. Ivarson has chosen the name "Melville" for his boat while Capt. Underdahl's will be christened "Covenant." Fifty-eight feet in length with beam of service and relieved by the Prince fourteen feet nine inches and depth of Charles which has been tied up at the

6' 8", the planking in the two vessels, dry dock all winter. Extensive boiler is of 2" edge-grained fir while the ned for the John but whether or not it 10" by 12" fir keels and bow stems of gumwood. The upperworks will be of been received at the dry dock. the ordinary halibut fishing type, the boats being of the seine-boat longlining

The engines, 75 h.p. Fairbanks-Morse full diesels, have already been delivered mine on Porcher Island, was in port and dropped into the vessels. They will ! be installed by George Lewthwaite, Vancouver expert, who will arrive in Prince Rupert about the time of the launching. These motors are adequately large for the size of the vessels in which they Co. reports the sale during the week will be placed and will ensure a speed of nearly ten miles per hour.

Complete electric lighting systems will be installed in each boat by the Ward Electric & Marine Supply Co.

Each boat will carry a crew of six men and will have capacity for something in the neighborhood of 35,000 pounds of fish. An investment of roughly \$20,000 is represented in each boat, both builders thus testifying amuly to their confidence and faith in the future of the industry.

The boats were designed by the dry dock drafting staff while the lines were laid down by Larry Halcrow. The work was carried out under the personal direction of C. G. R. Anderson, head carpenter at the dry dock.

Capt. Ivarson, whose former boat was the well known "Pair of Jacks, has sold that vessel to Pete Leland and Adolph Wick who are operating it in this year's sheries. The Pair of Jacks is fifty-two feet long and derives power from a 25

h.p. Corless gas engine. Capt. Underdahl is still in possession of the boat Kalen, but expects to dispose of it on the return to Prince Rupert of the other, half-owner, Einar, Hanson, who is expected back about the middle of March after having spent the past year revisiting his former home in Norway. The Kalen is fifty feet long and is powered with a 27 h.p. Atlas gas

This will be the first experiment of both Capt. Ivarson and Capt. Underdahl with diesel motive power and they are hoping it will serve them as faithfully as has gas these many years.

SINKING OF TIDE RIP

Something in the nature of mystery. land on Thursday with supplies. although it is suggested that the sea cocks might have been left open, attended the sinking in seventy or eighty The much belated herring has at feet of water at the Prince Rupert dry last shown signs of materializing in dock where it had been tied up on waters contiguous to Prince Rupert. A Monday night of this week of the well small run of the fish was observed in known towboat Tide Rip of the Rupert the vicinity of Butler's Cove and Cap-Marine Products fleet. The Dankel Bak Call

Juvenile Orchestra and Other Features at Event Last Night

A most enjoyable concert was given last evening in the Baptist Church under the auspices of the Ladies' Aid. The concert was arranged by W Vaughan Davies and Professor Pryce with his Juvenile orchestra assisted by the best local talent

The orchestra excelled themselves and showed marks of careful training and excellent talent. One of the youngest pupils, little Eva Morris, gave a creditable violin solo and shows promise of making a good player. Misses Audrey Parkin and Ruth Wilkinson also are worthy of succial mention as violinists, their solos being received with much applause. Miss Nellie Lawrence cleverly rendered "Concerto" on the violin accompanied by her sister Miss Molly Lawrence. Michael O'Brion on the mandolin gave a number which was well received. The orchestra numbers accompanied by the piano and organ with Miss Lawrence and W. Vaughan Davies of Davies. ficiating respectively were in great form and captivated the audience from the start. The baton of Prof. Pryce was followed to perfection. The vocal numbers were also a feature which added to the success of the concert. This little girl was in her usual good There was a duet by Messrs. Clapperton and Smith and solos by Meth Davies, J. E. Davey, Alex. Clapperton DEEDW
