# HOUSE IS BEING DISSOLVED TODAY

## MINISTERS APPOINTED AND DATE OF ELECTION TO BE SET

### Two Vancouver Men Appointed as Members of MacLean Government as First Step Toward an Election

Dugald Donaghy becomes Minister of Finance and Captain Ian Mackenzie Provincial Secretary in Provincial Cabinet

VICTORIA, June 6.—The Legislature of British Columbia will be dissolved immediately, probably some time this afternoon or tonight, it was announced at the Parliament Buildings today.

The date of the election will be fixed at the same time. As 42 days are required after dissolution to hold an election, July 18 or a day near it is expected to be the date of the polls.

Following the swearing in, Premier MacLean stated that the cabinet was completed there would be a rearrangement of the departments in order to equalize the work of the several ministers. For the present Hon. W. H. Sutherland will retain the portfolio of mines in addition to that of public works. Later on the department will be presided over by separate ministers.

Premier MacLean, when asked if the date of the general election had been decided on, was non-committal. While there is no definite announcement to that effect it is understood the election date will be announced within a few days, probably before Premier MacLean leaves for his northern tour at the week-end and that the election will take place next month.

The new ministers are prominent in the political life of Vancouver and their appointment is in line with the policy of the Premier to give representation in the government to every section of the community. It is understood a portfolio had previously been offered to General

### Halibut Boat Caygeon Burned at Butedale Sunday and One Member of the Crew is Injured

THE well known Prince Rupert halibut boat Caygeon was sunk and totally destroyed at Butedale and Louis Larson, a member of the crew, sustained burns about the face and forearms which necessitated his being brought to the hospital as a result of an explosion which occurred on Sunday about 4 p.m. when the vessel was taking on gasoline. The boat is reported to have been burned almost to the water's edge before she sank in four fathoms of water about an hour after the explosion which raised her decks and sprang her planks. Salvage

### EUROPE AGAIN HAS TROUBLES

LITHUANIA BLAMED BY CHAMBERLAIN FOR PROVOKING POLAND TO ACTION  
GENEVA, June 6.—Sir Austen Chamberlain yesterday in bitter denunciation of Lithuania characterized its proclamation naming Vilna as a "provocation" and an act of ill-will and provocation. The stand taken by Sir Austen astonished international statesmen here and his remarks created a new impression of Lithuanian Polish relations which constitute a serious menace to Europe. Sir Austen's statement came in the course of conversation with British journalists. France today joined with Great Britain in publicly stating before the council of the League of Nations that non-settlement of the dispute threatened the peace of Europe.

### SANKEY MURDER TRIAL GOES ON

REINHOLT, THE BOAT BUILDER, GIVES EVIDENCE OF WHAT HE SAW THAT FATAL MORNING

NEW WESTMINSTER, June 6.—Cross examination of Charles Reinholt, boat builder of Port Essington, by counsel for the defense, took up most of the time of the afternoon session of the Sankey murder trial. Witness occupied the stand for two hours during which counsel reviewed the evidence given by Reinholt at a former trial.

Witnesses repeated his testimony in regard to the movements of Miss Chisholm on the fatal Sunday morning when she stopped at his boatshop for a few minutes before continuing her walk. He related that he had afterwards seen a man pass in the same direction as the school teacher. The man was dressed in a blue suit with a light grey cap, he said. Defense counsel questioned the ability of witness to have seen clothing so clearly as to describe it in detail as given in former evidence and suggested the information was obtained from the provincial police after the discovery of the murder. Reinholt firmly denied the suggestion.

### CANADIAN LABOR PARTY LOSES THE SUPPORT OF UNIONS

VANCOUVER, June 6.—Organized labor in Vancouver and New Westminster district reported sending 64 local unions and 16,000 men have withdrawn from affiliation with the Canadian Labor Party. The step was taken last night by a large majority at a meeting of the Trades and Labor Council and was due to the insistence of the Canadian Labor party that the plank demanding enfranchisement of Orientals be left in the C.L.P. platform.

### MURDER TRIAL AT EDMONTON

CLOTHES OF EMPLOYED MAN FOUND COVERED WITH BLOOD STAINS

EDMONTON, June 6.—Charged with murdering Mrs. Nellie Pendleton, wife of a Saskatoon rancher, in her home on February 14, George Edmund Jackson of Vancouver was arraigned in Supreme Court today. W. W. Pendleton, the husband, told how he employed Jackson, largely as a favor to the boy's parents, and described how he found the wife's body terribly hacked by an axe while Jackson had disappeared. Prisoner was found next day in an Edmonton theatre. The clothes worn by Jackson when at work that day were later found in the Pendleton home covered with blood stains.

### BRADY REQUESTS CARS FOR FISH

ACTION PROMISED BY MINISTER OF RAILWAYS DUNNING

OTTAWA, June 6.—The request for railway cars to carry accumulation of halibut from Prince Rupert to the Eastern markets was made in the House today by J. C. Brady. Hon. C. A. Dunning promised assistance. Mr. Brady said that within the last

"GLUEBIRD" WAS THE BIG HIT OF THE PARADE: A feature of the students' rag held in Belfast to aid local hospitals was the "Gluebird" driven by an impersonator of Capt. Malcolm Campbell, the automobile speed celebrity

### Million Spectators Watched Falsted Win Derby on Epsom Downs Today; Flamingo Second, Black Watch Third

EPSOM DOWNS, June 6.—Nearly a million spectators massed on Epsom Downs today and amid intense excitement watched a rank outsider, Falstead, owned by Sir H. Cunliffe-Owen, win the Derby.

Flamingo, one of the favorites, quoted 9 to 2, came in second and Black Watch, another outsider, the betting on which was 33 to 1 against, made third place. The winner, a 33 to 1 shot, passed the post a length and a half ahead of Flamingo while that horse was six lengths from Black Watch. It is estimated that at least fifteen million dollars was wagered on the result, this including the Calcutta sweepstakes. The tapes broke three times before the field got away for a good start except that Royal Crusader was left behind. Flamingo, the second choice, led all the way to Tattenham corner. Sunny Trace, also among the favorites, pressed hard, but at the last quarter Falstead drew ahead, leading the rest of the way. The official time was 2 mins. 34 2-5 secs., equaling the record of last year of Call Boy. Lord Derby's Fairway, the favorite for the race, was never in front.

### OBJECTION TO SIGHT TESTS SANKEY TRIAL

EVIDENCE ADMITTED BY MR. JUSTICE MORRISON IN SPITE OF PROTESTS

NEW WESTMINSTER, June 6.—Despite reiterated objections by A. M. Oshuston, K.C., counsel for the Crown, Mr. Justice Morrison at the reopening of the Sankey trial here yesterday allowed J. E. Bird, defense counsel, to place in evidence tests alleging the eyesight of the girl witness was defective. Bird said that during June, 1927, he conducted tests showing Haldis Sandahl had been unable to identify four boys placed beside a red fence.

### MINIMUM WAGE CASE TO SUPREME COURT OF CANADA ON APPEAL

VICTORIA, June 6.—The court of appeal today granted the international timber company the right to appeal to the Supreme Court of Canada in a minimum wage act case in which a person named Field received judgment against the company for wages.

### STOP LIQUOR ENTER STATES

Extreme Measures to be Taken Unless Railways Evolve Plan Prevent Smuggling

BUFFALO, June 6.—The railroads will be required to unload every freight car of goods arriving at the United States border for a minute inspection unless officials of the companies work out some plan to furnish customs authorities with guarantees that none of their cars contain contraband goods, Seymour L. Lowman, assistant secretary of the treasury in charge of prohibition enforcement announced today.

### MOVIE MEN IN ALASKA SAFE

MEN WHO LEFT FOR POINT BARROW ARRIVE AT DESTINATION AND PLANE RETURNS

SEWARD, Alaska, June 6.—Bringing word of the safety at Point Barrow of members of the film expedition and their two Alaska aviators, Pilot Matt Nieminen and Radio Operator Richard Heysler have arrived at Kotzebue, a message from that isolated point received yesterday said. The second relief expedition was on the point of being sent out when word came of their safety.

### Airplane and Three Men Landed in Snow on Way to Point Barrow, Alaska

Tramped One Hundred Miles in Snow and are now in Temporary Hospital Recovering From Exposure

FAIRBANKS, June 6.—Fragmentary details of extreme hardships suffered when forced down by fog in snowbound Northern Alaska were received late yesterday from the Fox Film expedition members a few hours after the first word of their safe arrival at Point Barrow. The story of how three of the expedition members walked nearly a hundred miles in the snow and bitter cold was relayed from Kotzebue by Matt Nieminen and Richard Heysler, relief plane flyers, who returned just as the second relief plane was about to leave to search for the five film men and two relief aviators. After braving the Arctic blasts for three weeks, R. S. Merrill, pilot, Charles Clarke, director, and Jack Robertson, cameraman, are recovering at a snake-bite hospital at Point Barrow from exposure suffered on the long hike. Although forced down, Noel Wein, pilot, and Virgil Hart, leaders of the expedition, were able to continue by plane to Point Barrow and conducted un-

successful searches for their companions who left Fairbanks in another plane on May 11 in company with Hart and Wein.

DIES AT VANCOUVER  
VANCOUVER, June 6.—E. D. Patterson, 93 years of age, said to be the oldest elder in the United Church in western Canada, died at his home here.

### Gambling Continues in Vancouver Even as the Police Inquiry Goes on According to Detective Witness

VANCOUVER, June 6.—There had been no slackening of gambling in Chinatown recently and all gambling establishments there were continuing to operate, according to the testimony of Detective Joseph Ricci before the Vancouver police inquiry yesterday afternoon. Ricci's statement was made following a request by G. G. McGeer, K.C., counsel for Police Commissioner Fletcher, that the detective make a survey of Chinatown and report to the inquiry.

"They are all operating. I was there last night. This list is not all of them," said Ricci when shown a list by McGeer said to contain the addresses of thirteen alleged gambling houses. The detective recognized eleven of the thirteen. He said all were situated on upper floors. Ricci explained that Chinese merchants complained against the use of ground floor space for gambling houses and on instructions from his superior officers he had gone to such establishments and ordered the keepers to move to the upper floors. Ricci did not agree with the former evidence of Detective Grant that an increase in the morality squad would be necessary to close gambling and disorderly houses. If two or four men meant business, Ricci said, they could improve the situation by 75 or 80 per cent. Witness said he had been surprised at Celona opening places on Hastings Street but was powerless to close them. If he had attempted to take such action, he said, he might have lost his job. Ricci testified that following a conversation in December, 1927, with Detective John Hendrick, he had taken little interest in morality work because he understood there was an agreement between Mayor Taylor and the Attorney General that some of the houses should be allowed to operate. After that he had worked with Hendrick and Sergeant McDonald. "Sergeant McDonald said the police became merely a collection agency," said McGeer. "Was there any real effort to close the places?" Ricci replied: "As far as I know, no effort was made to close them. We raided big places once or twice a month but it was practically understood no women were to be taken out of places repeatedly night after night." Asked if the heads of the morality squad knew of the conditions he was describing, Ricci said he could not say whether Sergeant George McLaughlin or Inspector John Jackson knew it or not but the chief should have known, he declared.

### DOG FISH SCOW FROM SKIDEGATE

P.R.T. ARRIVES WITH SOME FIFTY TONS FOR USE IN TUCKS INLET REDUCTION PLANT

Rupert Marine Products power tug P.R.T., Capt. Harris Kerr, arrived at the Tucks Inlet reduction plant this morning from Skidegate, having in tow a full scowload of some forty or fifty tons of dogfish from the new camp which has been established by W. W. Wright for the company on the islands. A substantial number of men are now engaged in this fishery which is hoped by the management may soon develop into an industry of some proportions.

### GERARD-DALY TIME EXTENDED

EXPERT TO BE SENT TO EXAMINE RUFFUS-ARGENTA AND OTHER PROPERTIES THIS MONTH

VICTORIA, June 6.—The head office of Ruffus-Argenta announced that it had been decided to grant an extension of time to Hon. James Gerard and Marcus Daly in connection with an agreement to carry out examinations of these and other northern B.C. properties. The Daly-Gerard people have agreed to send a man on June 21.

### CONTRACT LET B.C. ELECTRIC

VANCOUVER, June 6.—The contract has been let by the B.C. Electric Railway Company for the construction of a two and a half million dollar steam plant for generating electrical energy on a Burrard Inlet site. It will provide an emergency supply. Price of wheat today \$1.51 1/4. Southern Cross will hop off for Australia this evening. T. A. Barnard is nominated by Independent Labor Party at Alberni. This afternoon's train, due from the East at 3:30, was reported this morning to be on time.

DAILY EDITION Wednesday, June 6, 1928

A GREAT FLIGHT

The two Australians who piloted the Southern Cross to Suva in the Fiji Islands from Honolulu as part of the journey from California to Australia and also the two Americans who accompanied them as navigator and radio operator, made a wonderful record and they will be looked upon as among those who have blazed the future air routes of the world. It is to be hoped that they finish their long flight successfully, thus placing Australian air navigators along with those of the United States and Britain as leaders in that line of endeavor.

MAY THEY CHOOSE WISELY

Today the Synod of the Anglican Church in session here is choosing a bishop to have charge of the whole of the northern half of British Columbia. It is an important position and the choice of the right man means much to the whole diocese. While it would be out of place to make any comment on the proceedings, keen interest is being shown in the matter and it is to be hoped that the best interests of the Church will be served.

TWO IMPORTANT CONVENTIONS

Two important conventions are meeting today in Canada. One is that of the Manufacturers' Association in Quebec and the other is the co-operative gathering in Regina under the auspices of the Canadian Wheat Pools. The former is a national gathering and the latter international.

The general feeling is that gradually the pools will extend their operations until they develop into a world trust. While the organizers deny any such ambition the steps they are taking all seem to indicate that end. It is the most successful development of practical socialism that has yet been seen.

The manufacturers also through their association are a huge combination of those engaged in another branch of industry but it must of necessity be national rather than international in scope because its members ask for higher duties against goods manufactured in other countries. Yet the aims of this organization are not wholly selfish. Its president in his address yesterday said:

"We believe that co-operation and a friendly spirit will help solve any national question that emerges, and we are always ready to do our share. Canada is one of the most favored countries in the world in the moral and physical qualities of her people, in climate, in geographical location, in opportunities for individuals, in security of life and property, and natural wealth. Canadians have a great heritage and they should hold it fast and develop it in trust not only for themselves but for future generations."

CURIOUS WORLD PROBLEM

There is a constant movement going on in the industrial world. As social legislation is passed, hours of labor are shortened and the cost of manufacturing increased. The cost of manufactured goods also increase and thus there is an increase in the cost of living. So also the cost of food is increased through the operation of the wheat pools and other organizations formed to keep up the prices. So there is a constant circle. There is the worker trying to get more for his labor, the producers trying to get more for his produce and the other part of the population trying to secure the necessities of life at a reasonable rate. In all this maelstrom of conflict some are bound to be crushed or badly squeezed. The fight for upper place is just as insistent as ever but it seems as if the general conditions of life are much improved. Possibly as time goes on an even more equitable system will be worked out, but in the process there will be much suffering and many will fail.

SYNOD OPENED  
IN CITY TODAY

SACRAMENTAL SERVICE THIS MORNING—FIRST BUSINESS SESSION THIS AFTERNOON TO ELECT BISHOP

The synod of Caledonia diocese opened at 11 o'clock this morning with a sacramental service conducted by Archdeacon G. A. Rix, administrator of the diocese. The sacrament of the Lord's Supper was administered and the fea-

ture of the service was a brilliant address by Archbishop A. U. DePenier of New Westminster, Metropolitan of British Columbia.

The synod took adjournment for the noon hour and is holding its first business session this afternoon. The agenda for this afternoon includes the election of a bishop which is the most important item of business the synod will have before it.

With clergy and lay delegates from all portions of the vast Caledonia diocese in attendance, the synod will continue in session tomorrow.

Jack Johns will leave by tomorrow morning's train on a business trip to Yukon and Cedarvale.

YOUNG PEOPLE'S  
WORK DISCUSSED

REV. A. WILSON GIVES INTERESTING ADDRESS TO YOUNG PEOPLE'S SOCIETY OF UNITED CHURCH

The Young People's Society of First United Church, at its regular weekly meeting last night, heard an interesting report from Rev. A. Wilson on the young people's section of the British Columbia conference which was recently held in Vancouver. The feature of that portion of the conference had been an address by the president of the Vancouver Young Men's Christian Association on the Pacific Relationship Conference which had been held some time previous in Honolulu. Mr. Wilson repeated the main impressions which the Y.M.C.A. had conveyed.

First, the passing of the old method of diplomacy and the substituting thereof of round table conferences in settling international differences, special tribute being paid to the lead that had been taken by the late President Woodrow Wilson of the United States in this connection.

Second, the coming of economic experts in settling inter-racial questions which had formerly been dealt with by politicians who made frequent appeals to prejudice.

Third, the place of Canada in interpreting the Oriental peoples to Europe, Canadians being a peace loving people practically free from racial prejudices.

Fourth, the three problems which had been left to the young generation to solve—the commercializing of vice, the liquor menace and racial relationships.

Mr. Wilson's address was followed by the regular business period. Plans were made for the next meeting on Tuesday of next week and also for a picnic the week following which will bring the young people's activities of the past winter to a close.

George H. Stocks, vice-president, occupied the chair.

Man in the Moon

You can't expect chickens to be anything but crazy if you feed them on cracked grain.

Real Estate Agent (trying to interest a fair flapper): "Let me sell you a nice home?"

Fair Flapper: "Buy a home? I should say not—I haven't a bit of use for one. I was born in a hospital—was educated in a college—was courted in an auto—was married in a church—we live out of a paper bag—lovely delicatessen right near—spend the morning's playing golf—and afternoon's at the club playing bridge—at night we dance or go to the movies—and when I die I will be buried from the undertaker—all I need is a garage with a bedroom above. Nix on the home."

It's easy to save a woman. "Save the surface and you save all."

A man may be ever so charming and highly esteemed but if he goes out with some other girl, you may depend the first one will have little use for him.

It's unlucky to marry on Friday. That day is no exception.

A steady man is all right but one does not need a man to be motionless.

If there were no weather, what would there be to talk about?

All men are liars but some are better at it than others.

A knocker usually ends up by taking orders from the booster.

When I believe something thoroughly it is a conviction; when my wife does the same it is a silly prejudice.

"Why did you stop singing in the choir?"

"Because one day I didn't sing and somebody asked if the organ had been fixed."

Old Gentleman—"That seems a very bad cold you've got, my little man."

Tommy—"It's a very good cold; it kept me away from school three whole days."

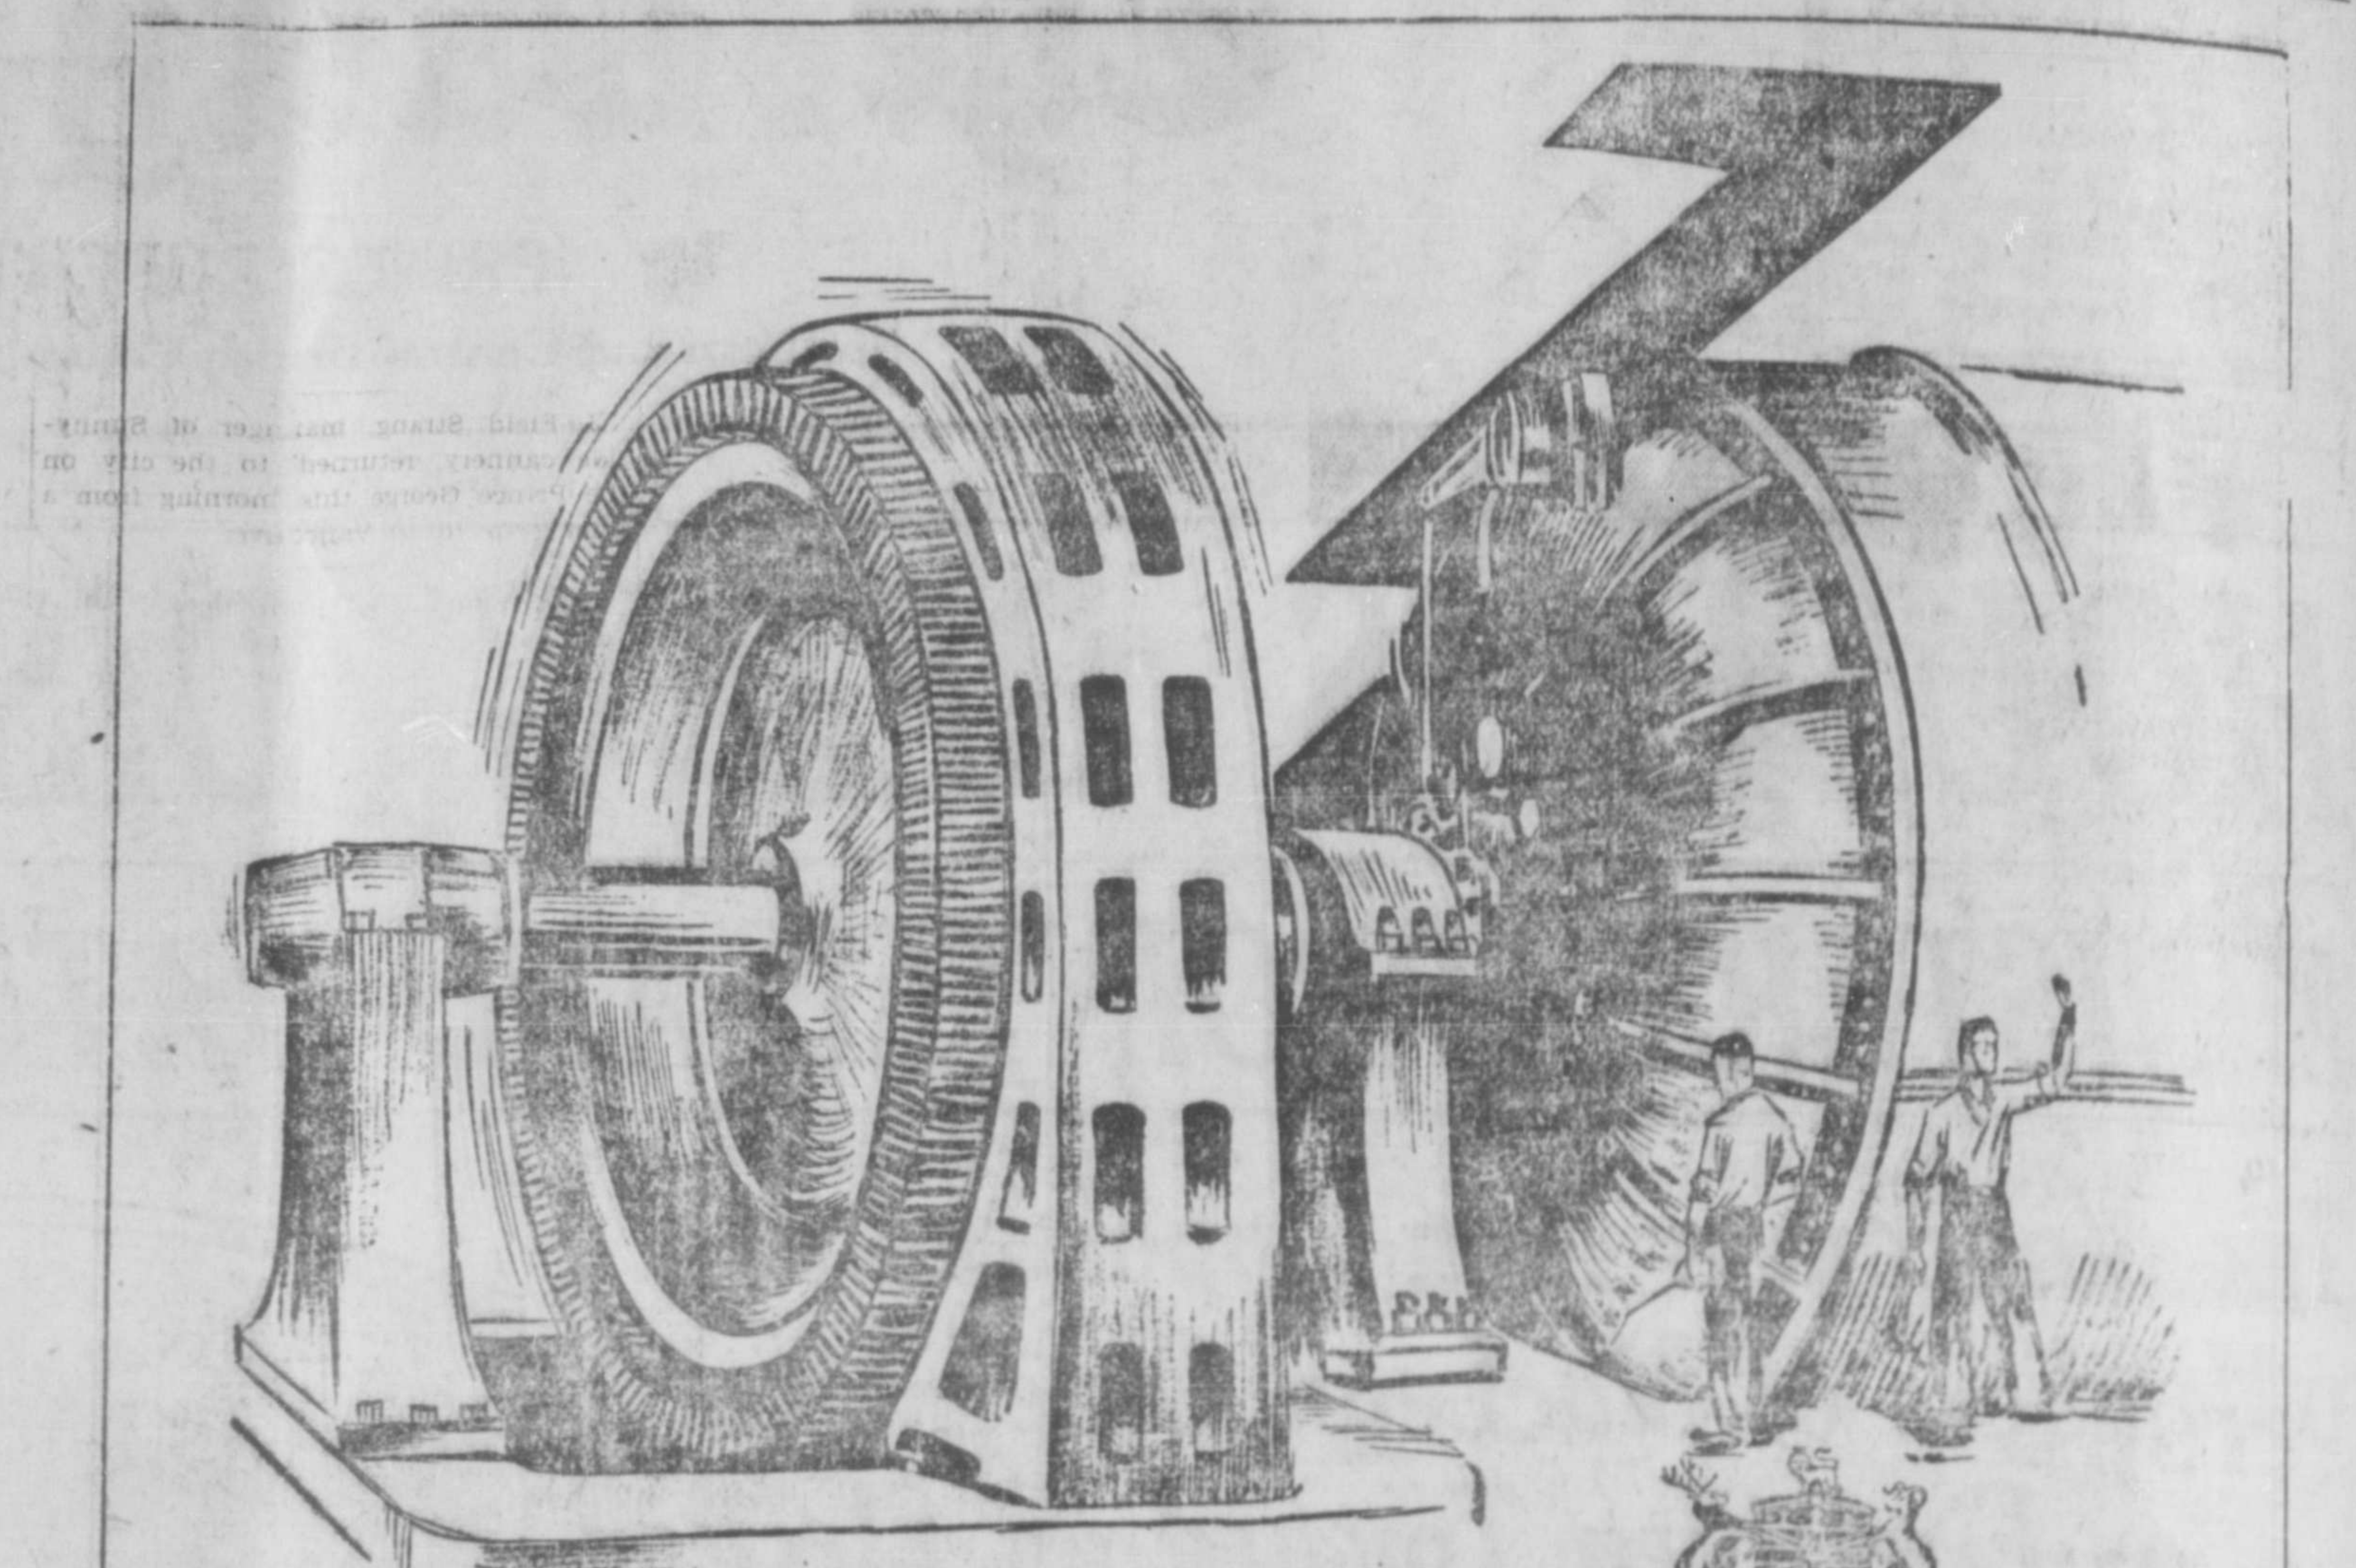

Ten Years Ago  
in Prince Rupert

JUNE 6, 1918.

Since May 25 thirty-six carloads of airplane spruce have been shipped through Prince Rupert to the Old Country and soon there will be another large shipment ready. Georgetown and Swanson Bay sawmills, as well as those on the Queen Charlotte Islands, are shipping the commodity.

Canadian officers in the Royal Air Force say that the Germans are shirkers when it comes to aerial fighting. The Hun aviator will only attack when in superiority of numbers or class of machines on his side.

McRae Bros., who have conducted their business on Sixth Street for several years, are moving to the Hart Block on Third Avenue. The Royal Bank of Canada is also to move from

# POWER Builds Industries!

BRITISH Columbia's Power resources are the envy of the world. With Power, the riches of the world can be won; with Power, ores can be mined . . . smelted; transportation problems solved; manufacturing industries developed, and with them population . . . pay-rolls. Power is British Columbia's strongest bid for more industries . . . more people.

Of the millions of horsepower available in our province, but half a million are now harnessed to turn the wheels of industry. The great hydro-electric development at Bridge River will ultimately generate more than 600,000 horsepower, while the output at Bonnington Falls and other points is being steadily increased. The Campbell and Chilko Rivers, on the mainland, and the Nimpkish on Vancouver Island, are capable of tremendous power development for the conversion of our forest and mineral resources into fabulous wealth.

Thousands of dollars are being expended weekly on materials and wages; thousands are feeling the immediate benefits of this enterprise.

Side by side with our power development, Industrial Expansion has kept pace. Today 17% of Canada's external trade is handled by British Columbia. During the past decade, our basic industries have increased 101.3%. Our total payroll, including all classes, is estimated at 210 million dollars. Today, our Lumbering, Mining and Fishing industries employ 72,517 people, paying them 175 million dollars in wages . . . distributing an average wage ranking among the highest in Canada.

These 175 millions in wages are a great contribution to our annual internal trade in the province. They have given our industrial workers a buying power ranking second in the Dominion and have largely been responsible for our ever increasing prosperity, as evidenced by the fact that the number of automobiles registered in the province last year was 76,187 as compared with 8,596 in 1916.

British Columbia's steady and varied Industrial development has changed the conception in Eastern Canada and the United States of our province. No longer are we entirely dependent on the East for our manufactured products. British Columbia is increasingly furnishing her own needs. She now ranks third in the whole Dominion as a manufacturing province.

Our phenomenal Power and Industrial growth has focused the attention of the great industrialists and investors on our province. Today, British Columbia is the eyes of the world, stands for Power, Progress and Plenty. May our efforts of the next ten years stabilize and increase our Prosperity!

## BRITISH COLUMBIA'S PROGRESS

the Helegren Block to a new building put up by R. C. Hyde at the corner of Third Avenue and Fifth Street.

### INVENTORY OF LIBRARY BOOKS

DONATION OF BOOKS RECEIVED FROM READING CLUB MUCH APPRECIATED

The Librarian is at present engaged in the preparation of an inventory of the books now on the shelves or in circulation. The first that has been taken since the institution was started. This will check up on the number of volumes supposed to be there and will prove useful to the members of the Board.

At the meeting of the Board last night, the president, James Black, presiding, the Librarian reported 2,537 volumes taken out during the month of which 764 were juvenile and 198 non-fiction, the average daily circulation being 173.9.

Twelve new books received by gift included a number of volumes presented by the Reading Club. This is their

annual donation, being books studied by them during the winter and with which they have now finished.

According to the records the library has over six thousand volumes but this is probably larger than the actual number as there must have been considerable wastage not accounted for in the time the library has been opened.

It was arranged that the librarian would take holidays this year commencing August 2, the library being closed for three weeks from that date.

Those present included James Black, Mrs. Kirkpatrick, G. V. Wilkinson, V. Basso-Bert, H. F. Pullen, Alderman Dobb and the Librarian, Miss Cruikshank.

### HUGE STURGEON TAKEN AT MOUTH OF ESTCALL CENTRE OF ATTRACTION

A huge sturgeon was the centre of attraction yesterday in the window of P. Burns Co. on Third Avenue. It was taken in the mouth of the Estcall River where it flows into the Skeena at Port Washington in a net and weighs 357 pounds.

# Perspiration Odour so unpardonable so easy to banish

What quality is so attractive as personal charm . . . and what social fault so obnoxious as perspiration odour.

Every person perspires, of course. It's natural, it's healthful. Physicians say the perspiration of the average person measures between one and two pints daily. Nature takes this way of ridding the body of impurities through the millions of tiny pores of the skin.

But perspiration need not be objectionable. Lifebuoy Soap, used in the bath, banishes the odour. Lifebuoy's creamy, mild lather not only cleanses, but also purifies the pores—anti-septically—and keeps them sweet, open and breathing.

**To Keep Well**  
Drink plenty of water, perspire freely and banish perspiration odour with Lifebuoy Soap.

Also, this week, Old Dutch Cleanser, 5 tins ..... 55c

### ATTACK MADE ON RAILWAY

MURRAY BAY, Quebec, June 6—L. W. Simms of St. John, New Brunswick, first vice-president of the Canadian Manufacturers' Association, strongly attacked the policy of the Canadian National Railways in the Maritime provinces at yesterday's session of the annual meeting. He charged that the Canadian National "in every step of the way put every force of their great organization in opposition to us." The railway, he said, had shown a disposition to oppose individual shippers in the right to route their freight the way they would like it to go. They went so far "as to interfere in local policies in Moncton and secure the passage of a resolution opposing the opening of the Saint Rosalie Gateway."

### MEMBERS OF SYNOD AND THEIR WIVES GUESTS OF LADIES

All the members of the synod of the Diocese of Caledonia now in session here and their wives were entertained today at luncheon in the Diocesan Hall by the Women's Auxiliary of the St. Andrew's Cathedral with Mrs. T. Andrew, president of the auxiliary in charge and the members serving. The tables were artistically decorated with lilies and tulips and the clerics were quite a merry party in spite of the serious nature of the work on which they are engaged.

The luncheon will be repeated tomorrow when it is hoped to have the newly lected bishop present as the special guest of honor.

Fly-time will soon be here. We have a number of Fly-Swatters to sell at ..... 5c  
Bulk Fig Bars, one box left. Price to clear this shipment, per lb. .... 17c

The Leighton family desire to convey their sincere thanks to their many friends for the kind expressions of sympathy and floral tributes received in their recent sad bereavement.

CARD OF THANKS.

# How?

## How clear, healthy skins came back to thousands

Everyone now-a-days knows where skin disfigurements come from. The knowledge is part of the equipment for modern life—for getting from life all the best that it can yield.

Nature knows the cause—faulty elimination, intestinal uncleanness. Nature seeks constantly to get rid of the cause. Cathartics can't do it. Other foods do not enable nature to win completely.

But this food—Fleischmann's Yeast—can. It is doing it. You see the proof all around you. In thousands of clear, bright, happy faces; if you could have seen those faces a few months ago!

Do you know about this new Health Custom that has spread so rapidly everywhere in our modern life, among men and women of high standard? It is helping to correct the source of most of our ills—Constipation with its ever-attendant troubles . . . indigestion, skin disorders and run-down condition.

Thousands of Canadians have adopted this Health Custom of eating Fleischmann's Yeast—the living vegetable three times daily throughout the year—before or between meals.

Tell your grocer to add your name to his list for regular delivery; three cakes a day for each member of your family.

"I am a news photographer. You can imagine how a bad case of boils and a general run-down condition would fit in with my calling. Fleischmann's Yeast has been a wonderful thing for me during the past year. I have taken it three times a day for the past five months and as a result my complexion has cleared up and I have not been troubled with boils since. I want to pass on the good suggestion to all who may be afflicted with them."  
H. C. JAVINS, Montreal, P. Q.

A very interesting booklet on "Regaining Health" will be sent to you, gladly. Write to The Fleischmann Co., Dept. 1166 Bursard St., Vancouver, B.C.
