Ramsay MacDonald Had Nothing But Good Impressions of Canada He Says as He Prepares to Go

Fixed Price for Canadian Wheat in Old Country is one of Cherished Ideas of Labor Party, Leader Declares

MONTREAL, September 11.—"I am going home to press upon the government the necessity of appointing a commission which should be half British and half Canadian to go into the whole question of Canadian immigration" said Ramsay MacDonald upon his arrival here from Ottawa. He is about to conclude a month's tour of the dominion and sails today.

"My impressions have been nothing but good," said the British Labor leader, in discussing his tour. "This is a wonderful country and is developing very rapidly but what strikes one is how much richer you might be with a larger population making use of the almost untold possibilities your land offers."

A guaranteed fixed price for Canadian wheat in the old country is still an idea cherished by the Labor party of Britain, MacDonald said, and added that while nothing definite had yet been done along that line the Labor members had the idea under serious consideration.

This number will be gradually increased until by the end of the month from 75 to 75 will be employed. Of these about seventy per cent are skilled men.

Pilots at Victoria Use Speed Boats and Race With Each Other to Meet Incoming Steamships

Evidence Given Before Royal Commission is Against Compulsory Pilotage and in Favor of Present System

VICTORIA, September 11.—Keen competition among pilots in British Columbia leading to long races in speed boats to meet incoming ships was described to Mr. Justice Morrison when the pilotage commission met here yesterday. When telling of the fight to get business, Captain Percy Shadforth claimed the right of the pilots to deal direct with the master of the boat, ignoring completely the ship's agent. He vigorously defended his action in going over the heads of the agents and securing the pilotage, for efficiency of service was generally agreed upon.

W. M. Allan, agent here of the Pacific Salvage Co. had no desire to change the present pilotage system although a system of examination would be agreeable.

Captain C. D. Neourouts said while his company was not interested in the main, they were interested in having first class pilots on other ships as if not, the ship became a menace, especially in the fog. He favored Government supervision and examination of pilots. Like Allen he did not favor compulsory payment of pilotage.

Captain J. W. Troup, late manager of the B. C. coast service of the C.P.R. testified at yesterday afternoon's session that the shipping men of Victoria were satisfied with the present pilotage system. He strongly was against compulsory pilotage.

Big Airplane Failed Arrive Last Night Nothing Heard of It

Digby Island wireless station this morning was attempting to get in touch with the big Fairchild seaplane carrying Squadron Leader Earl Godfrey and companions who are reported missing on a flight from Vancouver to Prince Rupert. It had been raining heavily this morning with visibility very poor, at times it being impossible to see a mile over the water. It is assumed that Major Godfrey ran into unfavorable weather yesterday and was compelled to land though up to noon today there were no radio advices of him.

Major Godfrey's companions on the flight from Vancouver, which commenced at 11:30 yesterday morning, were Wing Commanders J. L. Gordon and L. F. Broadner, from Air Force headquarters at Ottawa, who recently conducted an investigation at Victoria into the disaster a couple of weeks ago to the B. C. Airways passenger plane in Puget Sound, and Sergeant Major Graham, mechanic. Godfrey and Graham last week few from Ottawa to Vancouver. While flying conditions on this part of the coast since yesterday have been very unfavorable, it is confidently hoped that Major Godfrey is safely landed somewhere on the five hundred mile distance between here and Vancouver. Formerly in command of Jericho Beach air station at Vancouver, Major Godfrey is well accustomed to flying on this coast, having made the flight between Vancouver and Prince Rupert on several occasions previously.

A general call was sent out today for all shipping to keep on the lookout for the missing plane and it is probable that aerial and other forms of search may be instituted for the flyers unless their safety becomes soon assured. Opinion was growing today that Major Godfrey had made a forced landing in some remote harbor where he had been unable to communicate either with Vancouver or Prince Rupert.

Meantime, anxiety is being felt and many inquiries have been received here from Vancouver as to any news of the plane that might be forthcoming. VICTORIA, Sept. 11 No word has been received here from Godfrey since he passed Powell River 55 minutes after leaving Vancouver for Prince Rupert.

VANCOUVER, Sept. 11.—It is believed here that Godfrey and his companion came down on one of the numerous waters along the coast because of the foggy and smoky weather. "No fear of disaster is entertained here," Lieut. A. H. Hull, officer commanding the Jericho station said here.

WELLINGTON, N.Z., Sept. 11.—Captain Kingsford Smith and two companions in the plane Southern Cross in which he flew from Oakland to Sydney across the Pacific, successfully completed his first flight from Sydney across the Tasman Sea to New Zealand today.

DEFENCE MADE GREEK PEOPLE

JUDGE GRANT MAKES OBJECTIONABLE REMARKS WHICH ARE RESENTED BY CONSUL

MATTER OF HISTORY

VANCOUVER, Sept. 11.—Peter Bancroft, consul for Greece, came to the defence of his countrymen in the naturalization court here yesterday when Judge David Grant made remarks which Mr. Bancroft interpreted as casting a reflection on them.

During the application for naturalization of Sam Kanillies, a Greek waiter, Judge Grant remarked that the courts looked with a great deal of suspicion on Greeks. "Nineteen hundred years ago," he added, "it was said that all Cretons who were Greeks were liars and that observation has not been contradicted since then." He stated that he had found Greeks engaged in the white slave traffic. "Without clean womanhood you cannot have clean manhood," said Judge Grant.

"Your honor, on behalf of my country I would like to state that you are mistaken in such words against the Grecian race," said Mr. Bancroft.

"I am speaking only as I found them here," replied his honor, "I have recommended some Greeks for citizenship and I always do when I find them worthy."

The argument closed with the Judge's remark that he refused to discuss the matter further.

Mr. Bancroft stated subsequently that he intended to write to the minister of justice at Ottawa about the incident.

The application of Kanillies was stood over until inquiry had been made into the case by the police.

OBSEQUIES FOR DROWNED MAN

SERVICES HELD FOR JOB NELSON AT BUTZE RAPIDS UNDER SALVATION ARMY AUSPICES

Members of the family and friends, to the number of about twenty, yesterday afternoon attended obsequies which were held over the scene in Butze Rapids where Job Nelson, Metlakatla native, lost his life by drowning in the whirlpool last Monday. Deceased was a Salvation Army worker at Metlakatla and the service was taken by Ensign S. Joyce, local commandant, and Mrs. Joyce, who were assisted by Envoy Clifton of Metlakatla. There was a brief sermon as well as prayer and, to the fastnesses of the desolate hills around, went the sound of the hymns "Jesus Lover of My Soul" and "Lead Kindly Light." Wreaths of flowers were weighted and sent down to the depths of waters near the point where the fatality occurred.

Miss L. M. Dodd will sail on the Princess Louise tomorrow afternoon for Vancouver.

MINER HARVESTERS

For men who have worked short hours and lived under union rules as have the British miners it is a great change to go to work in the harvest fields where is day is bounded only by the sun and where every farmer is a separate and distinct employer bound not at all by the rules and regulations of his fellows.

Many of the farmers are men who have been laborers themselves and who have been careful and industrious and won out against the forces of nature and the machinery trust. They do a big day's work themselves and expect the same from their employees. Hard work is the rule and the sun is often hot. Under these conditions it is matter for congratulation that so many of the miners who came to Canada for the harvest are making good. Many of them will become farmers in time and will look back with pride to the day they came to the land of promise.

FAIR OPENS TODAY

The Prince Rupert annual fall fair opens today and the outlook is very promising that it will be a success. There are a good many visitors in town and we are glad to meet them once more and to extend what hospitality we possibly can.

It is very desirable that every possible co-operation be given the fair directors in the work they are doing. It is a thankless task and there are always a good many people who sit back and gaffer in whatever benefits may accrue and criticize if things go wrong. This year it is hoped there will be no such malingerers. It is our fair and we as a city must make it a success.

CANDIDATES ASK TO CHECK RECORDS CAMPAIGN MANAGER

Rules Must be Followed and Today's Big Advertisement Should be Read

Campaign headquarters will remain open until 8 o'clock tonight and until 8 o'clock Wednesday night, September 12, for the purpose of checking the vote, point and cash totals with the separate candidates.

Even though you are sure your vote and point records are O.K., you should call at campaign headquarters and verify your cash total with the records the campaign department has for you. This is real important as on these figures the commissions will be paid to the active non-prize winning candidates.

If there are any errors now is the time to correct them—not later. As announced elsewhere in these columns NO CORRECTIONS will be made after 8 p.m. Wednesday, September 12. The only exceptions we will make on this are those which must be made for the convenience of out-of-town candidates.

Any candidate who does not call at campaign headquarters and verify his or her vote point and cash totals will be considered as having given notice to the judges. The Prince Rupert Daily News and the campaign management that they accept, as absolutely correct, the records of their accounts as The Daily News' campaign department has them.

Before depositing your subscriptions in the sealed ballot box be sure to obtain a statement from the campaign department to put in with your final remittance. Do not put subscriptions and free voting coupons in the same envelope.

It is imperative that every candidate thoroughly understands the rules governing the closing of the campaign. Detailed information is contained in today's News in a page ad. under the heading "Details of the Final Count." In the event you do not understand what you read you are not only invited but are urged to seek further information at campaign headquarters. Ignorance of the rules will constitute no excuse. The rules are set out to govern the closing of the campaign and will be carried out fully. The candidate must comply with them. There is nothing hard or impossible about them and they are promulgated for the protection of all and to insure fairness to the minutest degree.

FINNISH PEOPLE IN CANADA TODAY SEVENTY THOUSAND

TORONTO, Sept. 11.—(CP)—Adiel Saariimaki, vice-consul for the republic of Finland, interested a crowd of exhibition guests in the Women's Building in his address on "Finnish people in Canada." There were now between 60,000 and 70,000 Finnish people resident in Canada and from 4,000 to 6,000 newcomers were arriving annually in the Dominion. The exodus from Finland to the United States had been much greater but it was a case of going there to work and make money, later coming to Canada to buy their homes and settle, he said.

Dedicated to the Open Mind

HERE is a building in which "mass production" is unknown, in which the roar of massive machinery is unheard, from which "assembly lines" with their rows of watchful craftsmen are noticeably absent—Yet this building has contributed... is still contributing... immeasurably, to the degree of motor-car luxury, performance and value which marks the products of General Motors.

Here in the General Motors Research Laboratory, the greatest staff of automotive engineers in the world is engaged in the myriad activities which enter into the building of a General Motors car. On one hand we see a new system of

carburetion being studied. On another, a type of cylinder-head takes form. Here, a new engineering principle is discovered. There, an existing practice receives revision.

And nowhere, in all this vast laboratory building, is there ever the expression of complete satisfaction. No discovery, however vital, is considered final. No achievement, however great, is relinquished as complete. Every fact and every theory is always subject to revision... to refinement... to improvement. It is a building dedicated to "The Open Mind."

Small wonder, then, that from this great research

laboratory should come discoveries of inestimable value to the purchaser of every General Motors car... discoveries ruthlessly tested on the uncompromising acres of the General Motors International Proving Ground.

It is thus that General Motors accepts the responsibility which leadership imposes—to study always new ways and means of giving greater value in better cars to the public, which confers that leadership upon it.

It is fitting that the world's leading automobile organization should seek, through the world's greatest automotive research laboratories, to make the greatest possible contributions to the satisfaction of the automobile buyer.

Big Gold Vein on Outland Silver Bar Holding — Sensational Discovery in Telkwa Field—Babine Silver King Showing up Well

A property near the head of Salmon River glacier, which is being developed by the Outland-Silver Bar Mining Co., is showing a big vein of gold bearing ore that is twenty-five feet wide and entirely different from any other mineral vein so far discovered on the hill. A tunnel has been started and the ore on the face assays \$20.80 in gold and four ounces silver. While development of this new vein is proceeding, work is continuing on the promising silver-lead showings that have already placed the Outland-Silver Bar in the class of a potential big mine.

The big vein, which was the objective of the long tunnel driven on the Terminus mine at Stewart, has been encountered and carries some surprises. The ore, so far as the vein is penetrated, is a quartz-porphry with a generous amount of fine grained galena and silver sulphides. On the surface it showed mostly zinc-blende in a gangue of quartz and barite. The big vein stands true as to dip with a clean hanging wall and a small streak of pure galena in the gouge. H. A. Heywood, managing director, says that the miners have penetrated the vein for eleven feet and the footwall is not expected for some time yet. The tunnel, which crossed the high grade vein some time ago, is now in 518 feet and gives a depth on the vein of 175 feet.

The Telkwa River field sprang into renewed mining prominence recently when Messrs. Goodwill & Wilson returned to Telkwa with sensational samples of galena ore taken from a new group they have discovered and staked on Bonanza Mountain, south of the Klitchener group. A massive showing of ore is indicated at one end of the vein which has been stripped on the surface for about 600 feet. The vein is approximately eight feet wide and on both hanging and footwalls there is said by the locators to be a width of one or two feet of clean ore. On the other end there is a large outcrop of copper. The owners are carrying on additional work to determine width of ore and values. The new ore has caused considerable stir at Telkwa.

The Babine Silver King property in the Babine Range, 19 miles northeast of Smithers, has been yielding good results from development this summer. In the main tunnel a cross-cut recently driven shows up twenty-one feet of ore said by the management to assay over \$61 in all values. Surface trenching and stripping on another vein has established a length of 1000 feet with good ore in all cuts. This vein averages four feet in width and runs in the direction of the Cronin property. A. J. Gaul, M.E., is at present in charge of operations. On the Victoria group P. J. Higgins and crew of men have been extending the work on the main vein which is opened up for some three thousand feet in length on the surface. New work in the main tunnel has uncovered ore with values of \$9 in gold, 376 ounces silver and 17 percent lead.

J. Bergstein, in Smithers recently, displayed some fine ore samples taken from a new discovery he has made in the Perow section, west of Topley. The new claims are on McAvoy Creek in the general Topley formation and are but a short distance west of the Jack Rabbit group which is giving splendid results from development carried on by Frank T. Taylor. Several claims were staked by the locators and others are staked in the new strike.

Ten Years Ago in Prince Rupert

SEPTEMBER 11, 1918
W. P. Hinton, president and general manager of the Grand Trunk Pacific Railway, in the city this morning stated that the Mullen Construction Co. was making arrangements for construction of ships to be started at an early date at the local dry dock.
Chief A. C. Minty of the provincial police was advised last night that Frank Martin, government road superintendent, had been shot and killed at Swamp Point near Stewart. A man is reported to have been arrested in connection with the affair.
A million tons of ore a year is now being mined and treated by the Granby Co. at Anyox. It is by far the biggest and most important mining camp in the north today.

With the arrival of the S.S. "Prince Rupert" from Vancouver Wednesday, September 12, the Fall Schedule will be effective. The big boats will arrive from Vancouver and intermediate points each Wednesday and Saturday at 10:30 a.m., sailing for Vancouver each Thursday and Sunday 11:00 p.m.; sailing for Stewart Wednesday 10:00 p.m.; for Anyox and Ketchikan Saturdays 4:00 p.m. Note particularly change in sailing days for Stewart and Anyox. BURNS LAKE

The highway in the vicinity of Perow has been greatly improved as a result of considerable work carried out by the provincial department of public works. Widening and elimination of curves has greatly reduced the hazards to traffic.

Miss E. L. Haines, R.N., lady superintendent of the Burns Lake Hospital, has left for a holiday trip which will take her to Skagway and Vancouver.

Miss Dorothy McGowan left last week for Prince George where she will attend High School.

There were eighty pupils in attendance when schools reopened in Burns Lake.

The five rooms of the Smithers public school are overcrowded with close to 200 pupils, there also being a good attendance in the new High School building.

Oats are being bought by local merchants at \$2.15 per hundred here while wheat is bringing \$2.25.

Frank H. Taylor, manager of the Topley-Richfield, returned last week from a business trip to Vancouver, accompanied by G. Groves who takes over the position of mining engineer at the mine. Mr. Taylor states that interest is running high in Vancouver in mines in this district.

Ray Oulton and A. E. Roth have taken over the management of the Oulton dairy farm, Mr and Mrs. George Oulton now taking up residence in Smithers.

Crops have been maturing excellently under the protracted spell of hot weather which has been experienced in the Bulkley Valley. There will be a satisfactory crop of grains in all sections and the hay harvest will be much better than was at first expected.

DETAILS OF FINAL COUNT

IN ORDER TO MAINTAIN THE UTMOST SECRECY AS TO THE NUMBER OF SUBSCRIPTIONS TURNED IN BY EACH CANDIDATE THIS, THE LAST PERIOD OF THE PRINCE RUPERT DAILY NEWS BIG AUTO-MOBILE CAMPAIGN, THE RACE WILL BE BROUGHT TO A CLOSE UNDER A SEALED BALLOT BOX.

No subscriptions or votes whatever will be accepted through the campaign department, this, the last period of the campaign. Candidates themselves will deposit their final collections in the SEALED BALLOT BOX located in the corridor of the Royal Bank of Canada, and in this way, no one, not even the Campaign Manager or the publishers can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest detail.

Locked and sealed by the judges, the ballot box has been placed in the corridor of the Royal Bank of Canada, where the candidates and their friends can deposit their votes and subscriptions up to 9 p.m. Friday, September 14, 1928.

When the final hour arrives the campaign will be declared closed. The judges will break the seals, unlock the box and immediately thereafter, or as soon as votes can be issued on the subscriptions contained therein, the last count will begin. The winners will be determined by merely adding the published vote totals which will appear for the last time in an early issue of the Prince Rupert Daily News, to reserve votes and those contained in the ballot box. There will be no waiting; no complicated count, but simply a matter of adding the vote totals and announcing the winners.

**Read this Entire
Page
Over Very
Carefully**

It is calculated that it will require some time, however, to canvass the findings in the box and to determine the winners. The official results will be bulletined in the windows of The Daily News office as soon as possible, and they will be published in the first issue of The Daily News following the completion of the final count.

OUT OF TOWN CANDIDATES—ATTENTION!

Heretofore out-of-town candidates have had the privilege of mailing their letters containing subscriptions from their home town as late as the closing hour of the various "periods." This will not be permitted the last night of the campaign. ALL VOTES AND SUBSCRIPTIONS WITH CASH TO COVER MUST BE IN THE SEALED BOX WHEN THE RACE IS CLOSED AT 9 O'CLOCK SHARP, Friday night, September 14, 1928.

Out-of-town candidates should, where it is possible to do so, arrange to deposit their envelopes in person in the sealed ballot box, but where this cannot be done, letters containing their final remittance should be addressed to CAMPAIGN DEPARTMENT, The Prince Rupert Daily News, and plainly marked "FOR SEALED BALLOT BOX—NOT TO BE OPENED." Particular care should be taken to post such letters in good time to reach this office before the final hour of 9 o'clock Friday night, September 14, 1928.

IMPORTANT NOTICE

All subscriptions deposited in the sealed ballot box—now located in the corridor of the Royal Bank of Canada, corner Third Avenue and Fifth Street, Prince Rupert, must be accompanied by cash, money order or certified check for the full amount to cover. PERSONAL OR BUSINESS CHECKS WILL POSITIVELY NOT BE ACCEPTED. This rule is made in fairness to all candidates and will be STRICTLY adhered to.

Special Notice

As announced in the "Rules and Regulations" published at the beginning of the campaign, the Ballot Box in The Prince Rupert Daily News campaign has been locked and sealed and placed in the corridor of The Royal Bank of Canada, corner Third Avenue and Fifth Street, Prince Rupert, where it will remain until the closing hour of the campaign—9 o'clock Friday night, September 14, 1928. No subscriptions or votes whatever will be accepted through the campaign department this period and candidates and their friends are to drop their coupons, subscriptions and subscription money in the sealed ballot box.

Candidates will have access to the sealed ballot box each day during the regular hours of this well known banking institution. The hours are 10 a.m. until 3 p.m. each day. On Friday, September 14, candidates will have access to the box from 10 a.m. until 3 p.m. Then through the courtesy of the bank management, the corridor of the bank will be reopened at 7 o'clock next Friday night and will remain open until 9 o'clock Friday night—the final hour.

You must be sure that all votes, money and subscriptions are in the ballot box at the closing hour, as none will be accepted through the mails or in any other manner after 9 p.m., Friday, September 14, 1928. Neither will any money be refunded—so be sure you have everything in perfect shape. If candidates wish, the Campaign Manager will furnish them with envelopes in which to make their final deposits in the sealed ballot box.

IT IS NOW OR NEVER

Schedule of Votes for the Fourth Period

The last period, terminating at 9 p.m. Friday, September 14, the following number of votes will be issued on subscriptions:

No. of Years	Price by Carrier	Price by Mail	No. of Votes
1 year	\$ 5.00	\$ 3.00	3,000 votes
2 years	10.00	6.00	15,000 votes
3 years	15.00	9.00	30,000 votes
4 years	20.00	12.00	60,000 votes
5 years	25.00	15.00	100,000 votes
6 years	30.00	18.00	175,000 votes

In addition to the above votes, a special vote credit good for 100,000 extra votes will be issued on every "club" of \$15 turned in for subscriptions. The "club" may be composed of small or large amounts totalling \$15 worth.

No subscription for more than six years in advance payments will be accepted through any one candidate.

The subscription price of The News outside of Northern and Central B.C. is \$6.00 per year in all parts of the British Empire and the United States; to all other countries the price is \$7.50 per year.

In depositing your coupons and subscriptions in the sealed ballot box be sure that the coupons are kept entirely separate from the money and subscriptions. This will make it easier for the judges to finish the final count quickly.

Before depositing any money in the sealed ballot box be sure to get a slip from the Campaign Manager to put in with your deposit to show the judges how much money you have deposited in the sealed ballot box. These slips will be furnished each candidate who calls at campaign headquarters.

All candidates who fail to call at this office and verify their totals will be considered as having given notice to the judges. The Prince Rupert Daily News, and the campaign department that they accept the campaign department's figures as absolutely correct—as applies to votes, points and amount of cash turned in by the individual candidates.

Simply add up your vote, point and cash totals; then come to this office and certify your totals with the totals this office has for you. If there is any difference it can be fixed up now. NO CORRECTIONS WILL BE MADE AFTER 8 O'CLOCK WEDNESDAY NIGHT, SEPTEMBER 12, 1928.

Any candidate who does not come to this office and check and verify his or her vote, point and cash totals with those of the Campaign Manager will be considered as having given notice to the Judges and The Prince Rupert Daily News that they accept the figures of the campaign department as correct and authorize the Judges to use them as the basis for the final count.

In an early issue of The Daily News (probably next Wednesday) the last count will appear and will include every subscription, every coupon and every vote which has been cast for publication up to, and including the end of the third period, on last Friday night, September 7, 1928. The votes as they will appear in the last count will remain unchanged until the final count by the Judges except in case of correction of any errors which may exist. If The Daily News account is not absolutely correct, according to your figures and records, notify this office immediately, so proper correction can be made before the end of the campaign.

CAMPAIGN ENDS 9 p.m. FRIDAY, SEPT. 14

SPORT CHAT

While some of the usual features such as inter-town baseball and football are lacking, an interesting sport program is, nevertheless, being presented for this, the Fair Week. Principal among the sport events of the week will be the open-air boxing tournament to-night for which Charlie Brown has arranged an attractive card with Madison Dix and Alf Harding providing the headliner. Native football and baseball series may be expected to draw the usual large crowds of natives with a smattering of whites among them and junior lacrosse should really come into its own and draw large crowds of spectators. The stock is said to be much livelier and the riders much better than those who were here last year.
